The Great Valley Museum opens minds, touches hearts, and inspires action towards discovering, appreciating and preserving our natural heritage and environment. Science literacy and the unique Central Valley are promoted by engaging students, educators, and the community through onsite and outreach programs. The Museum serves as a resource to educational institutions, including MJC.

Proceeds from this event benefit the Great Valley Museum and it's wide variety of science and natural history programs. A Win-Win situation!

**Find out more about the Museum**
