

Are you ready to apply for your Associate Degree?

Earning a degree from Modesto Junior College is not an automatic process. Students must apply for an Associate Degree in the semester in which they plan to complete their Associate Degree requirements. To help you determine if this is the semester when you should apply for your degree, complete this quick questionnaire. You may need to review the MJC catalog so that you can correctly answer these questions. If you cannot answer these questions, you should meet with a counselor before you apply for a degree. You may be enrolled in courses this semester that will complete your degree requirements. If you feel that you will successfully complete these “in progress” courses, please count these as completed.
