

Student Learning Outcome Assessment Summary

SLO # _____ of _____

Term: Fall Spring Summer Year: _____

Course Number: _____ Total number of sections offered _____

Course Name: _____

Student Learning Outcome

Provide the complete statement of the outcome being assessed.

Assessment Instrument

Describe the assessment instrument used. Include how it was administered, by whom and to whom it was administered. (For instance, was the assessment instrument administered by all instructors for all sections, or a random sampling of some students in some sections?)

Results

Of all the students assessed (across all sections), how many successfully completed the course with a satisfactory grade*?

* "Satisfactory grade" means that, for the course in question, the student's academic record has been annotated with the symbol A, B, C or "CR" as those symbols are defined in Section 55758 of California Ed Code.

Of all the students that were assessed (and successfully completed the course), how many met the outcome?

Analysis

Provide your program's analysis of the results.

Action Plan

Is there an action plan to make changes based on the results?

Yes No

If "Yes," briefly describe the action plan. Include references to what will be modified, by whom, and when. Identify extra resources needed.

Reassessment

When will the course be reassessed?

Term: Fall Spring Summer

Year: _____
