ART 141
ART 142

The proposed fee addition and increase (for sculpture and ceramics respectively) effective SU 2010 are proposed for the courses above so that students enrolling in these courses will have automatically purchased materials integral to the course. This is also intended to ease the burden on the workers in the Business office where currently students must use to purchase/get receipt for materials. See attached memo, page 01.

Hearing no objections, MATERIALS FEES were approved for the above courses effective SUMMER 2010.

AP 150 Integrated Anatomy and Physiology 5
Effective: Summer 2010
MODIFY: Restrictions, content
Enrollment Restrictions: Removing: (P) AP 50. Maintaining: (P) BIO 101 or BIO 111. Requesting: (P) or BIO 116.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfers to CSU, UC
General Education Status: Approved for MJC-GE: A, CSU-GE: B2,B3, IGETC: 5B
Rationale: We are changing our prerequisites within the nursing prep program to be more consistent across courses. This proposal is only to change the prerequisite, not a substantive change to the course.
We are creating a new prerequisite option for nursing-prep students, BIO 116. This proposal is to add BIO 116 as a prereq for Anatomy and remove AP 50 as a prereq.

CLDDV 121  Guidance of Young Children  3  
**Effective:** Summer 2010  
**MODIFY:** Description, field trips, repetitions, modalities, restrictions, learning goals, content, typical assignments, methods of instruction, methods of assessment, textbooks  
**Enrollment Restrictions:** Maintaining: (A) CLDDV 101 and (CLDDV 103 or (CLDDV 104 and CLDDV 105)). Requesting: (A) ENGL 50.  
**Distance Education Status:** Requesting: Hybrid, online, teleclass  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU  
**General Education Status:** Not approved for GE.  
**Rationale:** Revision will update course and allow repetition along with infusing Early Intervention Core Competencies in the student learning goals and course content. Advances in neuroscience technology and the study of emotional and social development require an emphasis on positive interactions between adults and children. In support of teachers, those who have completed this course may benefit from repeating it from time to time.  
**Program Impact:**  
1. Early Intervention Assistant 1 Certificate of Achievement  
2. Early Intervention Assistant 2 Certificate of Achievement  
3. Master Teacher Certificate of Achievement  
4. Site Supervisor Certificate of Achievement  
5. Teacher Certificate of Achievement  

Pulled for discussion by S. Agostini  
S. Agostini expressed concern, again, about repetitions in this course. P. Guerra Schmidt shared that repetitions are in place to allow students to have time practicing skills essential to child care. Great discussion ensued about repetitions at MJC. Technology courses were also mentioned, but B. Adams countered that issues facing repetition of technology courses were different that of child development courses.

**CMPSC 294  Computer Science Final Project**

*Effective:* Summer 2010

**MODIFY:** Modalities, restrictions, methods of instruction, textbooks

**Enrollment Restrictions:** Removing: (A) Completion of at least 18 units of required courses leading to the Associate Degree in Computer Science. Requesting: (L) The Final Project class is designed to bring technical education students together from the three computer science options: Information System,
Networking, and Programming. The students are required to bring the skills of their individual specializations, based on their 18 hours of coursework, together to form teams and solve a collaborative real-world IT industry level of problem application. The absence of the cumulative experience of the area specialization would leave the student unprepared to meet their team member role obligation. Our Computer Science technical advisory board from industry has approved of this finishing course, and students that have completed this course indicate that they tied together many “loose ends” of the curriculum by completing this course.

*Ines Bucknam, French instructor, was present to express concerns about recent revisions to the Language Studies AA degree. She reported that she expressed concerns in her department but was out-voted. She shared that she did not believe it was necessary to stipulate that the student must complete two languages instead of the past practice of one. She presented evidence of two other CCC’s*
who only require one language for a language studies degree. Committee members mentioned that this appeared to be an issue that needed to be resolved within the department, and that this was not necessarily the purview of the curriculum committee. L. Senechal pointed out that this degree, as written, is only available to students who are completing the University Preparation Pathway because it requires the IGETC or CSU-GE pattern. This is how the degree was approved at the Chancellor's Office last year and this technicality was only recently realized. She asked if the committee wanted to set a precedent for disallowing CTE pathway students from earning a degree? Currently, this is the only one of its kind.

**MODIFICATIONS TO AA in LANGUAGE STUDIES withdrawn by division representative in order to facilitate department level dialog about unresolved concerns within the department about the “two language” criteria, and whether it is appropriate to set a precedent for a “transfer only” AA degree.**

Karen Walters Dunlap
Vice President, Instruction
Modesto Junior College
435 College Avenue
Modesto, CA 95350

Dear Dr. Dunlap:

The Chancellor’s Office hereby approves Modesto Junior College’s Certificate of Achievement program in Machine Tool Technology I, which has been entered into the Inventory of Approved Programs under T.O.P. code 0956.30 with career technical education status and with unique code 13826.

The California Postsecondary Education Commission (CPEC) has authorized the Chancellor’s Office to proceed to final approval, without its review, on many new community college programs, except programs of certain types that are of special interest to CPEC. This program is not a type that has been reserved for individual CPEC review and concurrence. Therefore, our approval is effective with this letter.

Good luck with this program. If there are any questions about this action, please contact me at (916) 322-6888, fax (916) 445-6268, or e-mail to lows@ccccco.edu.

Sincerely,

Computer Science

The Computer Science A.S. Degree program at Modesto Junior College is designed to meet the needs of non-transfer students who wish to acquire the new computer skills needed in today’s work environment. The Computer Science program provides students with a general knowledge of computer literacy and information systems, microcomputer hardware and software systems, the ability to work with a wide variety of applications software, and an opportunity to develop programming and problem-solving skills.

Students who wish to major in Computer Science and transfer to a four-year institution should ask for program planning assistance from a business program advisor. Modesto Junior College offers a Computer Science transfer major to meet the major requirement for the Associate Degree. Transfer institutions vary in lower division (first two years of college) major department requirements. Meeting the Modesto Junior College Associate Degree major requirements does not necessarily mean the transfer institution’s major requirements have been met. Consult a Computer Science faculty advisor for assistance in determining the appropriate courses for the major you select.

A.A. Degree: Computer Science

To earn an Associate in Arts Degree in this major, the student must complete the requirements detailed in the Career Technical Education Pathway (p.71) or the University Preparation Pathway (p. 69) which include completion of the requirements below. Students are urged to meet with a Computer Science faculty advisor to assist them plan their specific program for graduation.

IMPORTANT: This program is intended to be a Transfer Program guide only. Associate Degree Requirements, general education patterns, and junior standing requirements are subject to change.

Office Administration

The Office Administration A.A./A.S. Degree/Certificate Program is designed to prepare students for occupations in the office administration field. Some career possibilities are administrative assistant, executive secretary, office manager, office supervisor, and transcriptionist. Office administration involves the study of office procedures, duties, and practices applicable to many business offices, as well as the development and acquisition of skills necessary for success in these positions. Students learn keyboarding, word processing, records management, human relations, business communication, and math. Word processing, letter composition, and office administration procedures are emphasized to prepare students for the assumption of responsible positions.

* Does not contain the California State and Local Government Requirements (US-3) required for American Institution certification. Meet with a counselor for assistance.

† Students seeking certification in GE breaths prior to transfer must have passed the test before Fall 09.

‡ If a student passes more than one AP exam in physics, only six units of credit may be applied to the baccalaureate, and four units of credit may be applied to a certification in GE Breath.

§ AP exams may be used in either area regardless of where the certifying CCC’s discipline is located.

¶ Students who pass AP Environmental Science exam 4 units of credit. Tests taken Fall 09 or earlier may apply to either (B1+B3) or (B2+B3) of GE Breath. After Fall 09, those credits only apply to (B1+B3).

Students seeking certification in GE breaths prior to transfer must have passed the test before Fall 2010.

¶ Courses requiring ENGL 101 as a prerequisite have been met using the AP English exams. No English/Reading placement test is required. No Prerequisite Challenge petition is required.

NOTE: Each AP exam may be applied to one IGETC area as satisfying one course requirement, with the exception of Language other than English (C2E).

---

### Prerequisite Challenge petitions & Course Substitution forms

Available through the respective division office.

---

**FOUR-YEAR UNIVERSITY CAUTION**

The applicability & quantity of unit credit for AP exams granted toward admission, satisfaction of major, prerequisites, or baccalaureate degree, and/or GE Breadth requirements continues to be determined by the individual CSU/UC/private campuses. Students should meet with an MJC counselor and/or check with the transfer campus of their choice for its policies on awarding unit credit for AP exams.

### AP RESTRICTIONS

- Unit credit for AP exams will not be included in the fourteen (14) unit P/NP graduation limitation established by MJC or the thirty (30) unit credit by examination limitation on challenge examinations.
- Unit credit for AP exams will not be used to satisfy the college’s twelve-unit (12) residency requirement.
- Unit credit for AP exams will not be used to satisfy financial aid, veterans, or EOPS eligibility criteria regarding enrollment status.
- Unit credit for AP exams will not be used in lieu of MJC Assessment Tests to satisfy reading or math prerequisites. Courses requiring MATH 171 or MATH 172 as a prerequisite are not met using AP Calculus tests alone. The Math department still requires students to complete the Level 4 math assessment test and submit a prerequisite challenge form to the the Science, Math, and Engineering division office, Science building, Room 126.

* The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers respectively.

Students who have earned credit for an IB exam should not take a comparable college course because transfer credit will not be granted for both. Students should meet with an MJC counselor and/or check with the transfer campus of their choice for its policies on awarding unit credit for IB Exams.

Questions to consider:
1. MJC will honor the CSU and IGETC policies to “pass along”/reflect the above IB Exams on the CSU/IGETC patterns. Does the Curriculum Committee want to honor the above IB Exams for MJC-GE placement in a way that parallels the CSU/IGETC placement?

If the answer is yes to question #1, then continue with the following questions.

2. The CSU-GE pattern accepts some IB Exams with the minimum score of “4”. The IGETC pattern requires the minimum score to be “5”. What will be the minimum score for an IB to apply to the MJC-GE pattern?

3. Currently, credit earned through AP Exams is listed on the transcript to reflect the AP Exam passed. For example: AP English Lit, 3 units, Pass. Do we want to post IB scores to the transcript in a similar format, e.g. IB Economics HL, 3 units, Pass

4. Do we want to disallow students from earning credit for those exams that have not locally been approved as equivalent to MJC-GE areas e.g. IB Philosophy?

5. Do we want to allow students the ability to use IB to petition for:
   a. Course substitution for AA/AS major, certificate or skills recognition?
   b. IB credit to serve as a prerequisite for all applicable courses and programs?

6. Will the IB Mathematics HL exam fulfill the Math competency required for graduation?
7. Will students earn 3 units or 5 units for **IB Language B** exam to satisfy MJC, Area C? Will students earn 3 units or 5 units for the **IB Mathematics HL** exam to satisfy MJC, Area D2?
   a. The CSUs and UCs are limiting the IB Exams to 3 units for the CSU and IGETC patterns.
   b. The current practice for MJC is to honor the unit count for the AP Exams for MJC-GE: **Calculus AB**-- MJC, Area D2 (5 units), CSU, Area B4 (3 units), IGETC, Area 2 (3 units)
   Do we want to apply a similar practice with IB Exams?
