B. Adams asked if there was any discussion pertaining to the blanket approval of discontinued program course inactivations. She displayed an email received from J. Zamora, who, on behalf of L. Kropp, asked if it was prudent to inactivate Board-discontinued courses and programs currently undergoing employment law litigation. And, in light of this, recommended that inactivation of said courses and programs be tabled until there is more clarity on the outcome. B. Adams reasoned that Accreditation, catalog production, as well as federal reporting for financial aid require alignment of curriculum records with reality. She shared that J. Zamora asked “what if these programs are brought back?” She remarked that the committee could then reactivate and align the program with current standards and practices. She added that K. Walters Dunlap explained that litigation and curriculum approval are two separate issues. B. Adams noted the committee is responsible for staying compliant and keeping college reporting of programs current and accurate. C. Vaughn asked to speak.
under the premise of having strong opinions, as well as strong sentiment about these programs. He noted he “would not be here [at MJC] were it not for these industries.” He remarked that the decision to remove these programs was arbitrary, with no discussion. If the committee votes yes, it “validates” this action. “Our goals as are nebulous, but even so, aren’t our goals to have depth and breadth?” He went on, “This is a poor example of serving our community.” K. Ennis appended his remarks, noting that colleagues and specifically, close friends have been negatively affected. While she noted the importance of accuracy and currency of information, she would not vote to inactivate because, personally, it is an emotional decision. Many members noted that litigation is a separate issue. B. Adams reminded the group that the Board has already removed the programs, and it is the committee’s responsibility to keep things up to date. M. Adams reasoned that it could possibly hurt the position of RIFed personnel to have programs in the catalog, in that the evidence of the negative impact of their removal would not be as compelling without showing the program removal. Many members felt strongly that the programs can be reactivated. C. Vaughn suggested that in addition to retaining them in the catalog, that an addendum be created later showing their removal. C. Mulder expressed concern that – by not inactivating programs and courses removed by the Board, that this is analogous to defying a supervisor. Questions were raised about the process. L. Miller read from the 2009 CCCCO PCAH (CCC-511) which details the information required for reactivating an inactive programs:

"[To] Change from Inactive to Active Status: attach proposed program description and requirements, catalog description, list of required course titles, units, and other completion requirements."

**Pulled for discussion by C. Mulder due to concerns about the course goal, which included the phrase “CurricUNET is an example.” Is this appropriate? C. Vaughn agreed to strike it.**

Other concerns were raised about the lecture/lab statement in lab content section. Why not use language as in CMPSC 275, which has a clear explanation? C. Vaughn agreed that the
November 1, 2011

information should be “boilerplate” for the courses that have the same lecture and lab content. P. Upton noted an issue with Requisite Skills and that there were duplicate entries.
CurricUNET was not accessible at this point, so B. Adams made notations of the revisions to fix post-meeting. M. Garcia asked why there was no longer a (P) of BUSAD 201. C. Vaughn explained that the program emphasizes technical skills, and that students will still take BUSAD 201, merely later in the program. Why prevent students from advancing when it is not necessary?

M/S/U (C. MULDER, J. SOLA) to MODIFY CMPSC 202 with a friendly amendment to modify the course goal, the lab content, and requisite skills.

M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for CMPSC 202

4. General Studies, Emphasis in Language and Rationality A.A. Degree

Pulled for discussion by M. Garcia due to concerns that repeatability didn’t make clear how the course would vary in subsequent completions. B. Adams explained that this issue was noted and fixed recently and that the repeat information now shows in the proposal. M. Garcia also noted that Formative and Summative assessments appeared to be duplicate information. The committee suggested a revision so that assignments, quizzes, and labs be listed as formative, while exams and projects be listed as summative. C. Vaughn was amenable to this change.

M/S/U (P. UPTON, M. GARCIA) to MODIFY CMPSC 275 with a friendly amendment to modify the formative/summative assessments

M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for CMPSC 275

**M/S/U (K. ENNIS, E. MAKI) to MODIFY FSCI 309. Motion carried with a friendly amendment to correct minor issues noted on some courses included in the blanket approval which did not warrant to be pulled for separate discussion.**

C. Mulder noted that methods of instruction for a series of OFADM courses included methods of instruction that are not student-centered. She will provide a list to B. Adams and L. Miller. (OFADM 201, OFADM 202, OFADM 203, OFADM 231, OFADM 301, OFADM 302, OFADM 303, OFADM 353, OFADM 356, OFADM 359, OFADM 361, OFADM 362, and OFADM 363.) P. Upton noted a stylistic problem on THETR 175, wherein multiple items were listed under one bullet in the course content. This was fixed during the meeting. C. Mulder also questioned the use of Study Aids as a formative assessment in GUIDE 120. M. Garcia stated that the author, M. Silva would not object if the formative assessment was removed. Members noted that there was an adequate supply of alternate formative assessment methods.

**M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for FSCI 309.**

**M/S/U (M. ROBLES, J. SOLA) to MAINTAIN FEE on FSCI 309.**

**Pulled for discussion by M. Garcia due to concerns about a requisite skill of ENGL 101, even though there is no requisite listed and that the textbook is more than 10 years old. E. Kerr stated she believed the intent was for there to be an advisory. There were attempts to reach the author, but since he is on sabbatical, it is difficult to communicate and make contact. B. Adams noted that the committee could not vote on an advisory that was not included in the agenda. She will clean up the requisite skill and attempt to consult with B. Anelli about his intent, and any changes to the enrollment restrictions will appear on a future agenda. Regarding the textbook, B. Adams agreed to look at the textbook and search for more current editions.**

Pulled for discussion by M. Garcia due to concerns about evidence of critical thinking. The phrase “heal the wound” is unclear – what does it mean? B. Adams explained that this is a typical type of resolution one might see in parliamentary debate, and commonly used in the SPCOM discipline. How to clarify? B. Adams suggested inserting “Typical debate resolution” before the actual stated resolution for clarification. The committee agreed to this revision. B Adams also noted she had consulted with T. Guy (author of course) before the meeting and he indicated he was okay with any minor revisions that needed to be made to the Forensics course proposals.

**Enrollment Restrictions:** Maintaining: (A) Before enrolling in this course, students are strongly advised to have completed their firefighter probation or have supervisor’s approval for enrollment if still on probation

**Distance Education Status:** None

**Materials Fee Status:** None

**Articulation Status:** Does not transfer

**General Education Status:** Not approved for GE

**Rationale:** Course is being reactivated to follow recommendation of state auditor to offer as independent study rather than special topics (398).

**Program Impact:** Stand-Alone

**Pulled for discussion by M. Adams** due to concerns about this course being configured as an independent study for 2.5 units, as well as a grammatical error in the catalog description. Is that typical? Do we allow for that? Multiple representatives confirmed that their disciplines and divisions do. B. Adams explained that this change was necessary and actually suggested by a CCCC auditor, who had pulled this course (formerly listed as 398) and explicitly said “This course should be an Independent Study, as opposed to Special Topics.” This revision is part of a two-part plan to reactivate FSCI 399, and subsequently inactivate 398. B. Adams added that she learned in consultation with Lee Parker that prior issues with fitting the course hours in to the Carnegie formula are no longer an issue. With this change, hours are being increased to 45 from 40. 40 hours is the minimum amount of hours the course may have, and the course is still within State Fire Marshal regulations with hours that exceed 40. FSCI faculty were reportedly having difficulty covering the desired amount of material in the previous configuration, so this increase in hours is beneficial to students.

**M/S/U (M. ADAMS, M. GARCIA) to REACTIVATE and MODIFY FSCI 399**

### Athletic Training/Sports Medicine Program (proposed 2012-2013)

The Athletic Training/Sports Medicine program at MJC is designed to prepare students for appropriate procedures in prevention, care, and rehabilitation of athletic injuries. This degree is also designed to transfer students to four-year institutions where they can continue their education to fulfill the requirements of the National Athletic Trainer's Association. This will lead to the student's eventual eligibility to challenge the national examination, and upon satisfactory completion of the required Courses and passing the exam, become a Certified Athletic Trainer.

#### A.S. Degree: Athletic Training /Sports Medicine

**STUDENT LEARNING OUTCOMES**

Upon satisfactory completion of this program, the student will be able to:

- Complete the transfer pattern to successfully transfer to a four (4) year degree program.
- Apply critical thinking to utilize protocols in regard to safely designing and monitoring the various preventive and rehabilitative techniques, as well as administering emergency care.
- Demonstrate competence in Athletic Training concepts, NATA competencies, and NATA theoretical perspectives and current research
- Comply with degree related institutional GELO's.

**PROGRAM REQUIREMENTS**

To earn an Associate in Science degree in this major, the student must complete the requirements detailed in the Athletic Training/Sports Medicine Pathway, which include completion of the requirements below. Courses should be selected with the assistance of an Athletic Training faculty adviser.

   L. Miller  
   No Report

Informational Items

1. **Accreditation Team Visit/Meetings Regarding Curriculum**  
   B. Adams/J. Zamora  
   B. Adams reported that she attended three meetings on behalf of curriculum, one with the committee, one exclusively with herself and J. Zamora as co-chairs, and one regarding SB 1440 and TMCs. She shared the informal commendation announced by the Chair of the Visiting Team at the exit presentation for MJC’s prompt response to SB1440. It was also noted that the Fire Science program was also commended.

X. WORKGROUPS

1. **Operations Workgroup**  
   J. Zamora / B. Adams / L. Miller  
   B. Adams reported that there have not been any operations workgroup meetings because of other campus activities. However, she noted that she and L. Miller have been in discussion about having a curriculum meeting focused on the impact of course changes on programs that are typically realized after courses are approved. B. Adams will be working extensively in the Program Module to bring some of these changes to light, and hopes to bring them before the committee in one of the next few meetings.

XI. TASK FORCES

1. **CurricUNET Implementation Task Force Update**  
   B. Adams/L. Miller

XII. PUBLIC COMMENT

- M. Robles asked about the status of Activities Requirement listings. Last spring there was discussion of the appropriateness of some of these courses for this requirement. Has this work been finalized? B. Adams commented that she believes it is with the completion of the GE Alignment project undertaken last spring.
- C. Mulder wanted the committee to be aware that, following input from the ASCCJC/WASC Site Visitor, Rebecca Kenney that our requirements should be written in a manner that is clear for students, that C. Mulder rewrote the PLOs for the AS: Athletic Training/Sports Medicine so that the language would be more clear to a student. Instead of “Complete the transfer pattern to successfully transfer to a four (4) year degree program” it now reads “complete the courses to successfully transfer to a four (4) year degree program.” It was noted that this change was made after the agenda was published.
- J. Sola announced to the committee that he has been attaching documentation from the State Fire Marshall requirements to FSCI CurricUNET proposals to provide clear evidence as to the nature of their changes and how the curriculum is configured. B. Adams commended the department for a high level of compliance and adherence to what is clearly and extensive set of guidelines, regulations and good practices in the discipline.
