

How does Food Affect Behavior?

April Walker, MA, will give us tools to use to assist children who have behavioral problems

When Food Affects Behavior

Participants will hear about the various health and behavioral symptoms in children (or adults) that are affected by what they eat and or everyday chemical factors in their environments. Also discussed will be what parents, foster parents, educators, and care providers can do to help these children.

Date:

Monday, March 14, 2011
