What is Online College?
The effects of Covid-19 have been felt worldwide, altering the way we socialize, work and study. However, Modesto Junior College (MJC) believes that to better serve our community, we must do all we can to make even the worst situation an opportunity.

MJC’s response to the lockdown has been to launch and expand our offerings of fully online degree programs, ranging from certificates to bachelor’s degrees. All programs are 100% online, built to work around your busy schedule and from the comfort and safety of your own home.

Prepare for the career you have always wanted; on your time, online!
