Policy

6-8079 Student Transportation – Field Trips

In-state and out-of-state field trip requests shall require the approval of the College President; additionally, out-of-state travel must be pre-approved by the Board. All field trips must be for purposes directly related to the college curriculum or college sponsored activities. These purposes are generally defined as educational experiences which cannot be duplicated on campus and are directly related to course content.

Students shall not be required to pay a fee in order to participate in an instructionally related field trip. Students may not be prevented from participating in a field trip due to lack of funds. However, the District may not use general fund resources to cover the field trip expenses for students. Students may be asked, but not forced to pay the costs of their meals, lodging and other incidental expenses associated with an instructionally related field trip.

Students will be transported on college-sponsored activities only in vehicles owned or approved by the District or by public carrier. The public carrier to be used must comply with all motor carrier’s laws and the driver must be properly licensed. Exceptions permitting individual students to transport only themselves by private vehicle may be made by campus presidents in accordance with criteria and procedures developed by the Colleges.
