

Modesto Junior College
Academic Senate
Resolution FL07-B
Academic Renewal Conditions

Proposed by: Counseling Department

Whereas: There is no recorded decision or reason as to why the condition “Courses that have been repeated do not qualify for academic renewal” was added in the catalog to the academic renewal policy; and

Whereas: There is no requirement for this academic renewal condition in Title 5; and

Whereas: This condition acts as a barrier to students given that they are unable to remove a substandard grade from their GPA, which does not reflect their current academic ability; and

Whereas: The only other option for the student to remove the substandard grade from their GPA would be to retake a class which does not necessarily apply to their current educational goal.

Therefore: Be it resolved, that the Academic Senate of Modesto Junior College requests that the condition “Courses that have been repeated do not qualify for academic renewal” be removed from the academic renewal policy in the catalog.

First Reading: November 29, 2007

Final Action: December 11, 2007

Disposition: Carried
