Yosemite Community College District Policies and Administrative Procedures

No. 7330

Policy

7330 Communicable Disease

All newly hired employees shall have on file a medical certificate indicating freedom from specified communicable diseases, including tuberculosis and others as specified by appropriate authorities. No employee shall commence service until such medical certificate has been provided to the District.

All newly hired employees must show that **within the past 60 days** they have **submitted to a tuberculosis risk assessment and, if risk factors are present,** been examined ~~within the past 60 days~~ to determine that they are free from active tuberculosis. **If risk factors were present at the tuberculosis risk assessment, and an examination occurs, after the examination the employee shall provide** ~~by providing~~ the District with a certificate from the examining physician showing that the employee was examined and found to be free from active tuberculosis. A person who transfers employment from a California educational institution shall be deemed to meet the requirement if that person can produce a valid certificate that shows he or she was found to be free of infectious tuberculosis within 60 days of initial hire, or the school previously employing the person verifies that the person has a certificate on file showing that the person is free from infectious tuberculosis.

All employees shall be required to undergo **a tuberculosis risk assessment** ~~an examination~~ within four years of employment and every four years thereafter, to determine if they are free from tuberculosis.
