- **ASCCC Area A Meeting:**
 - Possibility of creating MOU between CCs and UCs for automatic acceptance of our students (pilot program in Physics and Chemistry); help meet goal of dramatically increasing transfer of our students to UCs. This is an arrangement between both systems rather than by EACH college and the schools in the U.C. system.
 - ASCCC is always concerned about political mandates that effect academic standards that are done with little, or no, consultation of faculty voice.
- **[BOT and out of state travel](#)**: yes, the board needs to approve all out of state travel, but the chancellor also has the discretion of signing off if an opportunity comes along after board has met (see BOT minutes of 10/11/2017 when published).
- **Outcomes Assessment Coordinator search**: Still searching
- **Brandman University**: Still have questions about move to Brandman University and looking for clarification.
- **[Critique of CCCCO Chancellor "Vision for Success"](#)**: The document was sent out by VP Hamilton raises concerns by of the [CCCCO Chancellor's Vision Statement](#).
- **BOT Policies and Administrative Procedures**: Concerns about processes being used within the committee that don't follow shared governance or role of senate and its purview; [Read the 4000 policies](#) carefully because they impact what we do as faculty
- **YFA negotiations and faculty morale**: C. Martin voiced concerns about the impact of negotiations on student success initiatives and faculty morale. Good morale is essential to the institution if we are to accomplish many of our goals.
