NEW BUSINESS:

Multi-Cultural Component

Committee members indicated the multi-cultural component procedure was confusing. Some
members understood that it should be indicated on the C.A.R. when a new course contained a
multi-cultural component, but other members differed in their understanding of whether a course
that has contained a multi-cultural component for a long period of time should also have it
indicated on the C.A.R. whenever it comes up for review. Tabled for discussion.

Prerequisite/Corequisite Manuals

Ron Manzoni distributed the official Procedures Manual for the Renewal and Establishment of
Prerequisites, Corequisites, Advisories, and Limitations on Enrollment. The official detailed
version (white cover) needs Curriculum Committee and Academic Senate approval and will be
made available to the Division Deans and members of the Curriculum Committee. The shorter,
more concise version (green cover) will be distributed to the faculty. Shirlee Adams briefly
explained each of these packets, and Ron asked the committee members to review them as they
will be discussed and voted on at the next meeting.

Course outline review every 5 years rather than every 3 years

Ron proposed reviewing course outlines every 5 years per Title V regulations. He committee
members to discuss this with their Division Deans for action at the next meeting.

Course Outline Form Revision Subcommittee

A subcommittee was formed to review the current course outline and revise it to meet the new
standards on prerequisites and corequisites. This committee will also recommend an addition to
the C.A.R. to cover the multi-cultural course content for courses that do contain such content. The
committee members are: Shirlee Adams, Susie Agostini, Bill Trimble, and Richard Hickman.

Curriculum Manual Training Session

The committee members were asked to read Section 3 (Five Criteria) and Section 4 (Courses) of
the new Curriculum Standards Handbook for discussion at the next meeting.

Co-Chair

John Leamy was re-elected as Co-Chair for another term.

The meeting was adjourned.

INFORMATION:

IGETC Master Course List.

The IGETC Master Course List was included in the agenda packet distributed to all curriculum committee
members. Shirlee Adams reminded the members that November 3 would be the deadline to submit
courses for graduation, G.E. transfer, or IGETC consideration. She also reminded the committee that no
course can be submitted to the IGETC Committee for approval until it has been approved by the UC
Office of the President, and placed on the UC transfer credit list.

OLD BUSINESS:

Course Outline review every 5 years rather than every 3 years.

MOTION:  | It was M/S/U passed to approve reviewing course outlines every 5
| years rather than every 3 years.
Curriculum Manual Training Session.

Section 3 (Five Criteria) and Section 4 (Courses) of the new Curriculum Standards Handbook will be discussed at the next meeting.

Prerequisite/Corequisite Manuals

Two specific areas of the Prerequisite/Corequisite manuals were discussed by the Committee members:

1. in the statistical analysis standards, the advisability of using actual figures and percentages, and the source of these figures;

2. whose responsibility is it to check that a student has the required prerequisites for a course before an add card is given?

There will be further discussion at the next meeting.

NEW BUSINESS:

New UC Transfer Eligibility Requirements.

The committee reviewed and discussed the new UC transfer eligibility requirements for students who had not satisfied the high school scholarship requirements to be admitted to university as freshmen. This includes an increase in the number of transfer units required from 56 to 60 and additionally, establishes a required course pattern of two transferable college courses in English Composition, one transferable college course in Mathematical Concepts and Quantitative Reasoning, and four transferable college courses chosen from at least two of the following: Arts and Humanities, Social and Behavioral Sciences, and the Physical and Biological Sciences.

The meeting was adjourned.

MINUTES: It was M/S/U passed to approve the minutes of October 10, 1995.

--------------------------------------------

NOTIFICATION COURSE AGENDA:

No course outlines submitted.

CONSENT COURSE AGENDA:

THETR 198A ASHLAND FIELD TRIP (1 Unit)
New Topic Preparation and participation in a 6-day field trip to Ashland, Oregon for the Oregon Shakespeare Festival. Trip will include three plays at the Angus Bowmer Theatre, one at the Black Swan (dependent on seating), a prologue to at least one play, and the backstage tour including the theatre museum. Effective Spring 1996.

MOTION: It was M/S/U approved to pass the Consent Agenda. Question was raised regarding the meeting dates for THETR 198A; it was requested that the division representative check to see if these dates conflict with any other courses.

DISCUSSION COURSE AGENDA:

ENGL 138 SURVEY OF ENGLISH LITERATURE (3 Units)
Modify To be offered as interactive distance education. Effective Spring 1996.

MOTION: It was M/S/U approved to pass ENGL 138 as an interactive distance education course. Several questions were raised in regard to using an MJC course outline for a Columbia College interactive distance education course. Some of the concerns were:

- How are we determining if courses are equivalent?
- Did a qualified MJC representative review the Columbia course to see if it was equivalent to ours?

- Every campus has different course outlines. Some courses are IGETC approved at MJC, but not at Columbia. How could we legally certify a Columbia course for IGETC or CSU credit if not on both patterns?

- Would challenge by examination confirm that the course at one college was equivalent to the same course at another?

- When using another college’s course, how do we proceed? Does the MJC dean whose course is involved have to see the course outline from the other college?

- Could we require written certification that another college’s course outline be approved by an MJC division dean as equivalent to ours?

- Aren’t we being asked only to decide if the course meets our format?

- Do we need to establish or modify forms and procedures for interactive distance learning courses?

OLD BUSINESS:

Curriculum Committee training session.
The Committee reviewed Sections 3 and 4 of the Curriculum Standards Handbook, specifically the area covering General Education Requirements and the chart comparing the different credit modes. Brief discussion covered the limits on repeated enrollment (i.e., the course outline has to show that a course will become increasingly more difficult every time it is repeated) and the ruling that courses offered to disabled students must be open to everyone.

Prerequisite/Corequisite manuals
It was reported that in developing a model policy, the Subcommittee met with Jane Saldana, Director of Research and Planning, and Diana Sunday, Testing Center Coordinator at Columbia, who made some suggestions to be incorporated into the manuals. The manuals were collected from members present, and will be updated with new pages and returned to them.

New UC transfer eligibility requirements.
Brief discussion on how to measure the percent of MJC incoming students who are UC eligible directly from high school.

NEW BUSINESS:

New Course Outline and C.A.R.
Drafts of a revised course outline form and a C.A.R. form were handed out for curriculum representatives to review with their divisions.

MEMBERS ABSENT: S. Agostini, C. Barberena, T. Bedford, M. Campos, P. Crittenden, O. Johnson, B. Jones and J. Wheatley, ASMJC.

OTHERS PRESENT: M. Langford, Secretary

MINUTES: It was M/S/U passed to approve the minutes of October 24, 1995.

OLD BUSINESS:
Curriculum Committee training session:

    Mr. Manzoni asked the committee to review Section D of the Curriculum Manual on graduation requirements. The next meeting will cover graduation, G.E. transfer and IGETC.

Revised C.A.R. and course outline form will be discussed at the next meeting.

The meeting was adjourned.
The meeting was canceled due to lack of a quorum.

Mr. Manzoni indicated that the CSU Transfer Pattern Discussion Agenda and the IGETC Discussion Agenda can be carried over to the December 12 meeting and still make the December 15 deadline for submission this year. The MJC Graduation Requirements Discussion Agenda and the remaining course outlines will also be carried over to the December 12 meeting.

CURRICULUM COMMITTEE MINUTES
September 24, 1996

2:20 PM - Conference Room A, Morris Admin. Building

MEMBERS ABSENT: None.

OTHERS PRESENT: J. Higgs (Academic Senate) and M. Langford (Secretary)

MINUTES: It was M/S/U passed to approve the minutes of September 10, 1996

Ron Manzoni introduced Lynn Tucker, the new Curriculum Representative from ASMJC, to the other members, and Don Lenkeit volunteered to be her mentor.

EMERGENCY NOTIFICATION:

The following course outlines were approved by the Vice President of Instruction under emergency action during the summer when the committee was not available to meet.

Ron Manzoni explained the reasons for the emergency approval to the committee. Lloyd Vaught explained the partnership MJC shares with the Private Industry Council to fill certain needs within the community. These are open entry/open exit classes. PIC will send students to MJC specifically for these classes; however, the classes are also available to all students on campus.

INFORMATION:

1. Allied Health:
   Point System for an Associate Degree in Nursing Program
   ADN Program Entrance Requirements

The Nursing Program’s point system was explained by Ron Manzoni. The committee discussed this
system of entry into the program and compared it to nursing programs at other colleges.

Jim Higgs asked if figures were available for the total number of students who applied for the nursing
program this semester and if it could be broken down by ethnicity. He presented to the committee a
proposal from the Academic Senate (Resolution FL96-B - Assessment and Prerequisites for Student
Success). He indicated that there are too many underprepared students in transfer courses. The intent of
this resolution is to change that without making an inordinate amount of work for the college staff, and he
suggested a task force to study the problem.
2. Changes in two Family & Consumer Sciences/Technical Ed programs:
   Graphic Communication
   Machine Tool

Questions were asked regarding the Graphic Communication program:

   Is this program preparing students for the printing industry?
   What does the question mark mean beside the 3 Units on MATH 73?
   Is the term graphic communication driven by the industry?

Bobbie Kline will get answers to these questions from her division and present them at the next meeting.

OLD BUSINESS:

1. Discussion of prerequisite/corequisite procedures.

Shirlee Adams distributed to the committee members the Procedures Manual and the Guide For Establishing Prerequisites And Corequisites. She explained the summary pages, indicating various procedures of scrutiny required for prerequisites and corequisites. A supply of the required forms will be available through the Curriculum Secretary.

2. Draft copies of proposed new C.A.R. form and course outline form to be reviewed.

MOTION: It was M/S/U passed to approve the new course outline form to accommodate the prerequisite/corequisite requirements. The new sections on the form are:

IV. Prerequisite(s)/Recommended for Success/Concurrent Enrollment
X. Prerequisite Skills
XIV. Textbooks (typical)

3. Selection of new Curriculum Co-Chair.

Steve Stroud was elected Co-Chair of the Curriculum Committee.

The meeting was adjourned.

Laboratory: 1 hour; open entry/open exit. Six maximum completions. Materials fee required. Effective Spring 1997.

Committee raised questions regarding the above two courses. When the computer is used as the primary method of instruction, is it a lab or a lecture class? Is computer learning more like independent study, or more like traditional lab, or more like traditional lecture courses? Discussion followed. Open entry/open exit courses are positive attendance classes. Committee decided that learning occurs on the computers so it is not like
a lab class. It is closer to a lecture class than a lab, so units will be assigned the same as for a lecture class.

MOTION: It was M/S/U passed to approve all outlines on the Discussion Agenda with the changes indicated below each course affected, and moving the “reasonable accommodations” statement regarding disabilities from Objectives to Teaching Methods on all of the above courses except ANSC 221, in which it does not occur.

OLD BUSINESS:
1. Allied Health point system for Nursing Program entrance requirements.

   A handout was distributed to the committee members indicating the breakdown of ethnicity, age, and gender of nursing students attending Modesto Junior College over the last three years.

2. Telecourse guidelines.

   The committee reviewed a statement that would be a guideline for offering telecourses in the future. The statement will be corrected and placed on the agenda for approval at the next meeting.

3. Computer assisted instruction hours and units.

   The committee discussed and reaffirmed the earlier decision on computer assisted instruction. When the computer is the primary source of instruction, it is considered similar to a lecture class.

NEW BUSINESS:

   It was suggested that we consider adding ADA regulations requirements to all course outlines. The committee will consider inviting a guest from DSPS to a future meeting to advise them on this issue.

   It was suggested that representatives from the Office Administration area of the Business Division be invited to attend a future meeting to explain to the committee the procedures of their new open entry/open exit program.

INFORMATION:

   Every prerequisite form A, B, or C on an agenda will be itemized and a separate vote taken on the course as prerequisite, corequisite, or advisory to the primary course submitted.

The meeting was adjourned.

OLD BUSINESS:

Review X. PREREQUISITE SKILLS area on the course outline form to discuss the possibility
of rewording it for clarification.

After some preliminary review, Steve Stroud suggested the subject be considered for further
discussion at the next meeting.

INFORMATION:

Regarding any new or modified course outlines that will effect the next catalog, Steve Stroud
reminded the curriculum members to inform their divisions that instructors should submit these
outlines to their division office by January 31 so they can be approved, typed, and
submitted to the Curriculum Secretary before the curriculum deadline date of February 7.

The meeting was adjourned

OLD BUSINESS:

Discussion continued on the prerequisite skills section of the course outline form. A decision was made to assign further study of this item to the Task Force for Assessment which is being formed.
NEW BUSINESS

Derek Waring and Alysa Pearson from Disabled Students Programs & Services explained the proposed revisions to the Petitions Committee Manual regarding graduation waivers and course substitutions for DSPS students. The committee requested several changes in wording and asked that it be returned for further consideration at a future meeting.

A Task Force for Assessment will be established. This group will also study the prerequisite skills requirement section on the second page of the course outline. Steve Stroud asked for volunteers to work on this task force, with Shirlee Adams and Susie Agostini as advisors.

Discussion was initiated regarding the need for a college researcher. The item was put to a vote.

**MOTION:** It was M/S/U passed to approve support for the creation of a faculty research position.

The meeting was adjourned.

MODESTO JUNIOR COLLEGE
CURRICULUM COMMITTEE MINUTES
February 25, 1997

2:20 PM - Conference Room A, Morris Admin. Building

MEMBERS PRESENT: S. Adams, S. Agostini, M. Campos, S. Bucknell, B. Sanders, D. Lenkeit, L. Pham, S. Stroud (Co-Chair), B. Trimble (first meeting), L. Tucker (second meeting), L. Vaught, and S. Collins (Co-Chair).

OTHERS PRESENT: J. Alvarez, M. Bender, S. Clark, J. Higgs (Academic Senate), J. Mace, L. Thompson, L. Wilson, and M. Langford (Secretary).

The meeting reconvened on March 4 to allow the divisions to make necessary adjustments to prerequisite forms required for some of the courses submitted.

MINUTES:

It was M/S/U passed to approve the minutes of February 11, 1997

NOTIFICATION:

1. Two courses will be part of an interdisciplinary dyad: ANTHR 150 and HIST 112. An “H” will be added to these two courses when they are offered in the dyad. There will be no changes to the course outlines.

2. MATH 71, 72 and 73 were originally submitted and passed as not meeting the mathematics competency for graduation. The catalog statement passed by the Curriculum Committee states “completion of MATH 50 or higher with a “C” grade or better.” Effective immediately by emergency action of the Chair, MATH 71, 72 and 73 will meet graduation competency.

OLD BUSINESS:

1. Review revised proposed changes to Petitions Committee Manual: Revisions on Graduation Waivers and Course Substitutions for DSPS Students. The proposed new text is the shaded area.

The proposed changes were tabled for further discussion between DSPS and the faculty of Science Math & Engineering. The division felt the text was too general in certain areas and could be stated in more specific terms.

2. Set up a Task Force for Assessment

The task force was established. Two committee members volunteered: Brian Sanders and Steve Stroud. Additional faculty members will be recruited. The task force will meet once a month.

NEW BUSINESS:

1. Shirlee Adams distributed a simplified overview of the prerequisite/corequisite regulations, breaking down the requirements into three levels of scrutiny and briefly explaining the options for each level.

2. Remove prerequisite/corequisite endorsement and Vice President validation from C.A.R.

This item was tabled for further discussion at a future meeting.

The meeting was adjourned.

OLD BUSINESS:

Review draft of revised proposed changes to Petitions Committee Manual: revisions on course substitutions for DSPS students.

MOTION: It was M/S/U passed to approve the revisions on course substitutions for DSPS students with one change: in the beginning of the third paragraph, “students with disabilities” will replace “disabled students.”

NEW BUSINESS:

1. Curriculum Committee recommendation to the Academic Senate for additional representatives for multi-discipline divisions.

   The Committee agreed to wait until after the Academic Senate restructuring to see how their representation will be determined before deciding how many Curriculum Representatives will be assigned.

2. Articulation and Matriculation representatives to become voting members.

MOTION: It was M/S passed (7 for and 3 opposed) to table this motion until the next meeting. This vote does not reflect total members listed as present; some of the member had to leave the meeting before the vote was taken.
3. The possible elimination of the "old outline" from the curriculum agenda.

**MOTION:** It was M/S/U passed to eliminate the old outline from the curriculum agenda. The old outlines will still be submitted by the divisions to the Curriculum Information Coordinator, and will be brought to each meeting for reference.

4. A workshop, flex activity or committee of Curriculum Representatives who would be willing to advise faculty when they are preparing new or modified courses for Curriculum approval.

Co-chairs have agreed to organize this.

**MOTION:** It was M/S/U passed to: leave A intact; remove B and C entirely; remove the word “major” from item D and rename it B; and remove item E entirely.

6. Encourage divisions to review courses on a planned rotational basis of 20% of course outlines for the entire curriculum every year.

Item was added to the agenda during this meeting.

A course review form used in Behavioral & Social Sciences was submitted by D. Lenkeit as a possible aid to other divisions when reviewing course outlines, and copies were distributed to all representatives present.

The Curriculum Information Coordinator will send copies to all Curriculum Representatives of the semi-annual report to their division showing the last date each course was reviewed. The Academic Senate President will receive a copy of this report for all divisions.

The meeting was adjourned at 4:30 p.m.

MODESTO JUNIOR COLLEGE
CURRICULUM COMMITTEE MINUTES
April 7, 1998

2:20 PM - Conference Room A, Morris Admin. Building

MEMBERS PRESENT: S. Adams, S. Agostini, S. Adler, S. Bucknell, G. Phillips, G. Hayes, O. Johnson, D. Lenkeit, B. Sanders, L. Mayhew, L. Vaught, D. Waring, S. Collins (Co-Chair) and S. Stroud (Co-Chair).

MEMBERS ABSENT: F. Ashworth, M. Campos, M. Harris, V. Nelson-Hollis, T. Guy, K. Anderson (ASMJC)

OTHERS PRESENT: M. Langford (Curriculum Information)

MINUTES: It was M/S/U passed to approve the minutes of March 24, 1998.

INFORMATION:

COLSK 820 - COLLEGE SKILLS ENHANCEMENT was approved at the February 24, 1998 Curriculum Meeting to be effective Fall of 1998. The originating division requested the effective date be changed to Spring 1998.

MOTION: It was M/S/U passed to confirm the approval to change the effective date of the above course from Fall 1998 to Spring 1998.

NEW BUSINESS:

1. Suggested new course outline form using Microsoft Outlook instead of Speed Edit.

   The Committee reviewed the proposed new course outline form and requested the following changes:

   1. “Date Originally Submitted” will be eliminated
   2. Area I: “Formerly listed as:” will be followed by “Date Changed.”
   3. Area 2: “Prefix/No.”
   4. Area IV: will read Prerequisite (P) Corequisite (C) Recommended for success (R)
      The (R) statement will begin: “satisfactory completion of,” or “concurrent enrollment in.”
   5. Area VII: The super script numbers for “Grading” will be removed
   6. Area X: will read “Before entering the course, the student will be able to:”
   7. Area XI: will read “Upon satisfactory completion of the course, the student will be able to:”

   The Committee decided that when the final new course outline is approved, it will be grandfathered in as courses are reviewed.
2. Responsibility for generic DIV 198, 298 and 398 course outlines. Random copies of generic special topic outlines are attached for information purposes only and not review.

MOTION: It was M/S/U passed to have the divisions/departments inactivate all their generic DIV 198, 298 and 398 course outlines. They are not necessary and this will remove them from the course review lists.

The meeting was adjourned at 3:10 PM.

OTHERS PRESENT: M. Imara, D. Sunday, R. Tueller, B. Trimble and M. Langford (Curric Info. Coord.)

MINUTES: It was M/S/U passed to approve the minutes of April 7, 1998.

OLD BUSINESS:

1. Graduation requirements.
   
   A special meeting has been set for Tuesday January 19th to discuss this topic.

2. Notification Agenda: How often should there be a complete course review by the committee?

   The Committee agreed that:
   
   Notification Agenda should include only items over which the Committee has no authority—state regulations (i.e., inactivating a course).
   
   Five year review with no changes will be placed on the Consent Agenda so the outlines can be reviewed.
   
   Courses with no changes, but including prerequisites and/or corequisites, will also be placed on the Consent Agenda because the Committee previously agreed that an approval of the course includes approval of any prerequisite and/or corequisite it carries.

3. Consideration of procedure for dealing with the Discussion Agenda.

   The Committee agreed that it would be acceptable to vote on the Discussion Agenda as a whole. Courses which are questioned by a member will be set aside for discussion and vote.
   
   A motion was made and passed to limit discussion of these course outlines to ten minutes, after which a vote will be taken or the discussion time may be extended if a simple majority of the Committee vote to do so.

Meeting adjourned at 3:45 PM

NEW BUSINESS:

1. Out of compliance course outlines.

The committee discussed the issue of course outlines out of compliance with the 5-year curriculum review requirement. It was suggested that a policy be made that in the same package of courses submitted to the Board of Trustees for approval, we will also, beginning Spring 2000, submit a list of classes to be inactivated if they have not been reviewed within the 5-year period or they have been submitted and not recommended for approval by the Curriculum Committee.

2. Advanced placement recommendation.

The Committee was asked to review the Advanced Placement Examination credit as applied to satisfaction of the CSU General Education Breadth Requirements. The members will have time to review the packet and vote on it at the next meeting.

3. The Committee agreed that a generally accepted procedure for completing the required forms for prerequisites, corequisites and advisories would be as follows:

   A separate form should be used for each type of requirement. Within each type, one form may be used for courses with the same justification (i.e., sequential).

### HIST 128
- **HISTORY OF THE AMERICAN FAR WESTERN FRONTIER (3 units)**

### HIST 129
- **HISTORY OF CALIFORNIA (3 units)**
- Change catalog description, content, course objectives and teaching methods. Effective Fall 2000.

### INTDS 240
- **RESIDENTIAL PLANNING (2 units)**
- Recommended for success: ARCH 131 or ARCH 331 and ARCH 112
- Remove co-listing as ARCH 140 was inactivated; change teaching methods; minor change to objectives; Effective Spring 2001.

### INTEC 312
- **BEARINGS (½ unit)**
- New course
- A descriptive introduction to the common industrial bearing. Content includes basic terminology, operation and maintenance of journal bearings, ball and roller bearings, bearing seals, bearing lubrication, and bearing maintenance. Lecture: 4 hours (2 wks). Effective Fall 2000.

### INTEC 313
- **LUBRICATION (½ unit)**
- New course
- A descriptive introduction to the characteristics and functions of lubricants. Content includes basic terminology, function and application of lubricants. Use of oils and greases in lubrication systems. Lecture: 4 hours. (2 wks). Effective Fall 2000.

### INTEC 314
- **POWER TRANSMISSION DEVICES (1 unit)**
- New course
- A descriptive introduction to the basic elements commonly used in power transmission systems. Content includes basic terminology, operation and maintenance of both individual power transmission components and simple power transmission systems. Lecture: 4 hours. (4 wks.). Effective Fall 2000.

### INTEC 315
- **POWER TRANSMISSION DEVICES AND SYSTEMS (1 ½ units)**
- New course
- Introduction to the elements of power transmission systems. Content includes the operation of basic power transmission components and the development of power transmission systems. Hands-on experience with the installation, operation, maintenance and trouble shooting of power transmission systems. Lecture: 4 hours. Laboratory: 4 hours. (5 wks) Effective Fall 2000.

### INTEC 316
- **INDUSTRIAL HYDRAULICS (1 unit)**
- New course
- Descriptive introduction to industrial hydraulics components and systems. Content includes description and function of various hydraulic components and the basic aspects of hydraulic systems. Lecture: 2 hours. Laboratory: 2 hours. (4 wks) Effective Fall 2000.

**VI. OLD BUSINESS:**

Extensions given for out of compliance courses:
1) HE 100 - Standard First Aid – being updated by American Red Cross
2) All Correctional Science courses – extension to end of September 2000

The committee agreed to move these issues to the September 26, 2000 meeting.

**VII. NEW BUSINESS:**

1. Staff access to curriculum information on website (B. Sanders).
2. Streamline curriculum manual and remove unnecessary sections (i.e., TOP codes, SAM codes)

A sub-committee was formed (S. Adams, M. Strangio and T. Lyle) to streamline the
curriculum manual.

3. Technology Mediated Instruction (T. Lyle)

4. Online course procedures.

   A sub-committee was formed (T. Guy and C. Hudelson-Putnam) to work on procedures to be followed when courses are submitted to the committee for online presentation. The information will be presented at the October 10, 2000 meeting.

5. Curriculum conference report (T. Lyle)

6. New Business set for the October 24, 2000 meeting: a committee of T. Guy, L. Mayhew and B. Sanders will develop models of possible transfer degrees.

*New course:* Grad Req/No, GE Trans/No, IGETC/No

**MOTION:** It was M/S/U passed to approve DTAST 360 with a change in evaluation methods.
**MOTION:** It was M/S/U passed to approve the prerequisite and corequisite of DTAST 360.
DTAST 361 – PREVENTION OF DISEASE TRANSMISSION – 2 UNITS
Prerequisite: high school graduation or equivalent; proof of completion of CPR for the Professional Rescuer from the American Red Cross or the Health Care Provider CPR course from the American Heart Association, which must be valid through the end of the program.
This course covers the knowledge and skills required for dental health care professionals to control, prevent the spread of disease, properly manage hazardous chemical and maintain a safe dental office environment. Protocols established by the American Dental Association, Dental Board of California, California Dental Association, Center for Disease Control and Presentation, OSAP, and OSHA regulations with emphasis on Bloodborne Pathogen Standard and the Hazard Communication Standard. Field trips may be required. Lecture: 1 hour. Laboratory: 3 hours. Materials fee required (Fall, GR) Effective Fall 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 361 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 361.

DTAST 362 – DENTAL SCIENCE – 3 UNITS
Corequisite: DTAST 360, 361, 363, 364 and 365
An overview of human anatomy and physiology with an emphasis on the head and neck. The knowledge of the structures of the head and oral cavity including identification of oral landmarks and to recognize whether any abnormalities or lesions exist. The study of tooth morphology and the relationship to form and function of the dentition. Recognize conditions that are variations of normal but not considered pathological. Field trips may be required. Lecture: 3 hours. Materials fee required (Fall, GR) Effective Fall 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 362 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the corequisite of DTAST 362.

DTAST 363 – INTRODUCTION TO CLINICAL DENTISTRY – 2 UNITS
Corequisite: DTAST 360, 361, 362, 364 and 365
Introduction to dental assisting, role of the chairside assistant, basic skills for preparing the dental patient for treatment. Intraoral tasks delegated to qualified dental assisting which are related to operative dentistry. Field trips may be required. Lecture: 1 hour. Laboratory: 3 hours. Materials fee required (Fall, GR) Effective Fall 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 363 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the corequisite to DTAST 363.

DTAST 364 – DENTAL MATERIALS – 2 UNITS
Corequisite: DTAST 360, 361, 362, 363 and 365
The dental assistant’s role in the manipulation of dental materials used in the oral environment. Instruction in the properties, characteristics, and manipulation of dental materials. Identification of government regulations and compliance with health and safety procedures when using dental materials. The study of drugs, their composition, uses, effects and contraindications as applied to the dental patient. Identification of laws regulating safe use of medication for the dental patient. Field trips may be required. Lecture: 1 hour. Laboratory: 3 hours. Materials fee required. (GR) Effective Fall 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 364 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the corequisite of DTAST 364.
DTAST 365 – THEORY OF DENTAL RADIOLOGY – 3 UNITS
Prerequisite: high school graduation or equivalent; proof of completion of CPR for the Professional Rescuer from the American Red Cross or the Health Care Provider CPR course from the American Heart Association, which must be valid through the end of the program.
Corequisite: DTAST 360, 361, 362, 363, and 364.
Introduction to the principles of dental radiology, basic concepts of x-ray generation, occupational safety procedures, materials and equipment used in producing dental x-rays. Theory of dental radiological techniques. DTAST 365 (Fall) and DTAST 369 (Spring) have been designed to meet the standards set forth by the Dental Board of California for the California Radiation Safety Licensure. Both courses must be completed with a grade of C or better in order to qualify for licensure. Field trips may be required. Lecture: 3 hours. Materials fee required. (Fall, GR)
Effective Fall 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 365 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 365.

DTAST 366 – ADMINISTRATIVE DENTAL ASSISTING – 2 UNITS
Prerequisite: DTAST 360, 361, 362, 363, 364 and 365
Corequisite: DTAST 367, 368, 369 and 370

Employment skills necessary to obtain a position as an administrative dental assistant. Field trips may be required. Lecture: 2 hours. Materials fee required. (Spr., GR) Effective Spring 2002.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 366 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 366.

DTAST 367 – EXPANDED FUNCTIONS – 2 UNITS
Prerequisite: DTAST 360, 361, 362, 363, 364 and 365 with a C or better
Corequisite: DTAST 366, 368, 369 and 370
Achievement of a healthy and functional dentition through the prevention of new and recurring disease by the means of dental plaque control techniques. Procedures in which plaque and stains on the surface of the teeth are removed from the coronal surfaces. Specific intraoral tasks that are completed as a procedure delegated to the expanded function dental assistant. Field trips may be required. Lecture: 1 hour. Laboratory: 3 hours. Materials fee required. (Spr., GR) Effective Spring 2002.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 367 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 367.

DTAST 368 – ADVANCED DENTAL ASSISTING – 3 UNITS
Prerequisite: DTAST 360, 361, 362, 363, 364 and 365 with a C or better
Corequisite: DTAST 366, 367, 369 and 370
Advanced training in the areas of dental specialties including prosthodontics, endodontics, periodontics, pediatric dentistry, orthodontics and oral surgery. Field trips may be required. Lecture: 2 hours. Laboratory: 3 hours. (Spr., GR) Effective Spring 2002.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 368 with a change in evaluation methods.
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 368.
DTAST 369 – CLINICAL DENTAL RADIOLOGY – 3 UNITS  
Prerequisite: DTAST 360, 361, 362, 363, 364 and 365 with a C or better  
Corequisite: DTAST 366, 367, 368 and 370  
Applied advanced dental radiography techniques. Identification and interpretation of anatomical landmarks related to dental radiography, exposure, processing and evaluation techniques, and applied quality assurance techniques. Emphasis on infection control as applied to dental radiography, evaluation of the exposed and processed dental radiograph used for diagnostic interpretation using manual and automatic processing. DTAST 365 (Fall) and DTAST 369 (Spring) have been designed to meet the standards set forth by the Dental Board of California for the California Radiation Safety Licensure. Both courses must be completed with a grade of C or better in order to qualify for licensure. Field trips may be required. Lecture: 1 hour. Laboratory: 6 hours. Materials fee required. (Spr., GR) Effective Spring 2002.  
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 369 with a change in evaluation methods.  
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 369.

DTAST 370 – CLINICAL 1 – 6 UNITS  
Prerequisite: DTAST 360, 361, 362, 363, 364 and 365 with a C or better  
Corequisite: DTAST 366, 367, 368, and 369  
Role of the chairside dental assistant; basic skills for preparing the dental patient for treatment including knowledge and skills essential to the functions of the registered dental assistant during clinical experience. Field trips may be required. Lecture: 1 hour. Laboratory: 16 hours. Materials fee required. (Spr., GR) Effective Spring 2002.  
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve DTAST 370 with a change in evaluation methods.  
MOTION: It was M/S/U passed to approve the prerequisite and corequisite of DTAST 370.

DTAST 371 – CLINICAL 2 – 1 UNIT  
Prerequisite: DTAST 366, 367, 368, 369 and 370 with a C or better.  
Role of the chairside dental assistant; advanced skills for preparing the dental patient for treatment including knowledge and skills essential to the functions of the registered dental assistant. Field trips may be required. Laboratory: 6 hours. Materials fee required. (Summer, GR). Effective Summer 2002.  
New course: Grad Req/No, GE Trans/No, IGETC/No

(CSU) Effective Fall 2001.

New course: Grad Req/Yes, GE Trans/Yes, IGETC: No

Course was withdrawn from the agenda by the division prior to the meeting.

FD-P 300 – CERTIFIED PROFESSIONAL FOOD MANAGER TRAINING – 1 ½ UNITS
Working knowledge and familiarity with all technology and information to manage food safely within the production to consumer. Field trips may be required. Two maximum completions. Lecture: 3 hours. Materials fee required. (8 wks., GR) Effective Spring 2001.

New course: Grad Req/No, GE Trans/No, IGETC/No

Course was withdrawn from the agenda by the division representative.

FD-P 301 – CERTIFIED HACCP MANAGER TRAINING – 1 ½ UNITS
Recommended for success: an understanding of basic food safety program: i.e., GMP’s, SSPO’s, and fundamentals of sanitation procedures. Elements of hazard analysis and critical control points and how they integrate into a successful food safety program for manufacturers, wholesalers, distributors and food establishment operations with the goal of HACCP certification. Field trips required. Two maximum completions. Lecture: 3 hours. Materials fee required. (8 wks., GR) Effective Spring 2001.

New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve FD-P 301.

INDIS 198A – FINDING JOY AND FULFILLMENT IN THE WORKPLACE – 1 UNIT
Participation in a study of finding joy and fulfillment in the workplace. To help students discover that work is a place where it may be possible to find deeper meaning, self-expression, joy and fulfillment in their lives. Field trips may be required. Lecture: 2 hours (CSU, 9 wks. CR/NC). Effective Spring 2001.

Special topic

Course was withdrawn from the agenda by the department representative.

INTEC 200 – INTRODUCTION TO MECHANICAL TECHNOLOGY – 3 UNITS
Also AG-M 200

INTEC 303 – INTRODUCTION TO TEAMWORK DEVELOPMENT FOR INDUSTRY – 1 UNIT
Interdisciplinary approach to the study of team solutions to industrial problems. Introduction to team member selection criteria, development of team cohesiveness, team solutions to realistic industry problems, and use of computer software to solve and present team solutions. Modules in communications, computer application and industrial technology. Lecture 1 ½ hours. (12 wks.) Effective Spring 2001.

New course: Grad Req/No, GE Trans/No, IGETC/No
MOTION: It was M/S/U passed to approve INTEC 200 and INTEC 303.

JRNAL 100 – REPORTING AND WRITING FOR THE MEDIA – 3 UNITS
Prerequisite: ENGL 50 or successful completion of the MJC assessment test. Recommended for success: ability to type
Modify: change prerequisite from ENGL 101 to ENGL 50; change catalog description, content, course objectives, teaching methods and methods of evaluation. Effective Spring 2001.

Course was withdrawn from the agenda by division representative.

MUSIC 152 – CHOIR – 1 UNIT
Prerequisite: satisfactory completion of audition.
Modify: change “Other” hours (from total of 4: 3 plus 1 arr) to total of 5 hours: 4 hrs. plus 1 arranged. Effective Spring 2001.

MUSIC 185 – CHORUS – 1 UNIT
Modify: change “Other” hours (from total of 4: 3 plus 1 arr) to total of 5 hours: 4 hrs. plus 1 arranged. Effective Spring 2001.

Both courses were withdrawn from the agenda by division representative.

NURSK 800 – NURSING SKILLS DEVELOPMENT – 0 UNITS
Corequisite: NURSE 251 or 252 or 253 or 254

MOTION: It was M/S/U passed to approve NURSK 800.
MOTION: It was M/S/U passed to approve the corequisite of NURSK 800.

PHILO 105 – REASONING – 3 UNITS
Prerequisite: ENGL 101
Modify: change catalog description, content and course objectives; also to offer as an online course. Effective Spring 2001.

MOTION: It was M/S/U passed to approve PHILO 105 with a change in prerequisite skills.
MOTION: It was M/S/U passed to approve the prerequisite of PHILO 105.

V. OLD BUSINESS:

Report from the sub-committee on procedures to be followed for future online courses.
Options were discussed. Sub-committee will return with more information at the next meeting.

Report from the sub-committee on models of possible transfer degrees.
Several options were discussed. A packet of options will be distributed to all members prior to the next meeting.

VI. NEW BUSINESS:

Committee will review granting a further extension to the Criminal Justice Department for out of compliance courses at the last meeting in October.

The department was given an extension to the last meeting in April, 2001.

VII. INFORMATION:
Family Services Specialist Certificate  27-30 units
November 7, 2000

MEMBERS ABSENT: S. Agostini, O. Johnson, M. Tolang (ASMJC) and D. Waring

OTHERS PRESENT: B. Sawyer (Diablo Valley College) and M. Langford (Curriculum Information Coordinator)

MINUTES: It was M/S/U passed to approve the minutes of October 24, 2000 with changes to the number of units for DTAST 370 and the effective semester for the inactivated IIS courses.

INFORMATION: A correction was requested and approved to add an hour to the lab for THETR 195, which was reviewed at the September 26, 2000 meeting

CONSENT COURSE AGENDA:

**AG-M 262 / INTEC 262** – HYDRAULICS/PNEUMATICS – 3 UNITS

**AN-SC 230** – POULTRY SCIENCE – 3 UNITS
*Periodic review* with no changes. Effective Spring 2001.

**AN-SC 232** – AVIAN PRACTICES – 3 UNITS

**FDNTR 321** – FAMILY FOODS AND NUTRITION – 3 UNITS
*Periodic review* with no changes. Effective Spring 2001.

**MOTION:** It was M/S/U passed to approve the Consent Course Agenda

DISCUSSION COURSE AGENDA:

**AG-EC 210** – ELEMENTS OF AGRICULTURAL ECONOMICS – 3 UNITS

**MOTION:** It was M/S/U passed to approve AG-EC 210
AUBDY 322 – COMPLETE AUTOMOTIVE PAINTING – 3 UNITS
Prerequisite: AUBDY 321 (approved in March 2000)
Modify: add 1 hour arranged to the 1 lecture, 6 lab hours. Effective Spring 2001.

This course was withdrawn from the agenda by the division

CLDDV 370 / FDNTR 370 – ISSUES IN CHILDREN’S NUTRITIONAL HEALTH – 2 UNITS
Modify: change units from 1 to 2; change hours (from 3 for 6 weeks) to 3 hours for 12 weeks; change catalog description, content, course objectives and teaching methods. Effective Spring 2001.

MOTION: It was M/S/U passed to approve CLDDV 370 and FDNTR 370

CLDDV 371– MENU PLANNING FOR CHILD NUTRITION – 3 UNITS
Also FDNTR 371
Overview of menu planning for child nutrition programs including menu planning options, nutrition standards, menu writing, student preferences and evaluations. Procedures for developing standardized products, budgetary controls and evaluating procurement and delivery systems. Federal, state and local standards. Field trips may be required. (17 wks). Effective Spring 2001.
New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve CLDDV 371

EHS 58 – PREPARATORY FLORAL DESIGN – 3 UNITS
Modify: change prefix from OH to EHS. Effective Spring 2001.

EHS 61 – PREPARATORY ORNAMENTAL PLANT IDENTIFICATION – 3 UNITS
Modify: change prefix from OH to EHS. Effective Spring 2001.

MOTION: It was M/S/U passed to approve EHS 58 and EHS 61

ENGTC 215 – INTRODUCTION TO SOLID MODELING – 1 UNIT
Recommended for success: previous CAD or drafting experience (approved in March 1999)
Modify: change prefix from ENGR to ENGTC. Effective Spring 2001.

MOTION: It was M/S/U passed to approve ENGTC 215

FAMLF 355B – THE CHILD IN THE FAMILY – 1 UNIT
Modify: change hours from (1 for 18 weeks) to 2 hours for 8 weeks. Effective Spring 2001.

MOTION: It was M/S/U passed to approve FAMLF 355B

FDNTR 371– MENU PLANNING FOR CHILD NUTRITION – 3 UNITS
Also CLDDV 371
Overview of menu planning for child nutrition programs including menu planning options, nutrition standards, menu writing, student preferences and evaluations. Procedures for developing standardized products, budgetary controls and evaluating procurement and delivery systems. Federal, state and local standards. Field trips may be required. (17 wks). Effective Spring 2001.
Reactivate and modify: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve FDNTR 371
OLD BUSINESS:

Further information to be presented regarding procedures to offer online courses.

A proposed form for technologically mediated courses was presented to the committee by C. Hudelson-Putnam. The committee reviewed it. It will be presented to the Virtual Classroom Committee.

NEW BUSINESS:

1. Barbara Sawyer, Chairman of the State Senate Curriculum Committee, will be a guest speaker on models for a course outline.

   Ms. Sawyer presented information to the committee on the ideal course outline and reviewed a few of MJC’s course outlines.

2. Curriculum Representative’s role in catalog course and program review.

   T. Guy suggested the curriculum representatives be more active in reviewing the courses and programs in the catalog. It was agreed that M. Langford will copy each curriculum representative with the cover memo that is sent to the deans when the catalog programs and courses are distributed for review.

MEMBERS ABSENT: E. Lanigan

MINUTES: It was M/S/U passed to approve the minutes of November 7, 2000

DISCUSSION COURSE AGENDA:

ART 198C – DIGITAL IMAGING FOR PHOTOGRAPHERS – 3 Units
Prerequisite: ART 170, ART 182 or equivalent
An introductory course in digital imaging and electronic desktop photography. Applications related to the use of fine art photography and publication will be emphasized. The class includes lectures, discussions, critiques, computer laboratory work. Field trips may be required. Lecture: 2 ½ hours. Laboratory: 1 ½ hours. Materials fee required. (CSU, 15 wks.) Effective Spring 2001.

MOTION: It was M/S/U passed to approve ART 198C.

MOTION: It was M/S/U passed to approve the prerequisites for ART 198C.

AUBDY 322 – AUTOMOTIVE SPRAY REFINISHING 2 – 3 Units
Prerequisite: AUBDY 321
Modify: change title from Complete Automobile Painting; add 2 hours arranged. Effective Spring 2001.

MOTION: It was M/S/U passed to approve AUBDY 322
MOTION: It was M/S/U passed to approve the prerequisite for AUBDY 322

BIO 265 – BEGINNING MOLECULAR BIOLOGY TECHNIQUES – 1 Unit
Recommended for success: Previous course in biology or chemistry; instructor recommendation for high school students.
A short course designed to introduce basic laboratory techniques associated with molecular biology. Topics covered would include but are not limited to use of specific instrumentation associated with molecular biology, gel electrophoresis, bacterial growth curves, generation of standard curves, principles of transformation and preparation of chemical solutions and media. Field trips may be required. Lecture/laboratory: 22 hours. Materials fee required. (CSU, Summer, 1 week, CR/NC only) Effective Spring 2001.

New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve BIO 265.

BIO 266 – ADVANCED MOLECULAR BIOLOGY TECHNIQUES – 1 Unit
Recommended for success: Previous course in biology or chemistry; instructor recommendation for high school students.

A short course designed to explore a variety of molecular biology techniques involving both DNA and protein analysis. The specific topics and procedures will vary according to the class; examples of molecular techniques include, but are not limited to, gel electrophoresis, PCR, use of restriction enzymes, bacterial transformation followed by a mini-prep plasmid extraction, blotting techniques and protein separation techniques. Field trips may be required. Lecture/laboratory: 22 hours. Materials fee required. (CSU, Summer, 1 week, CR/NC only) Effective Spring 2001.

New course: Grad Req/No, GE Trans/No, IGETC/No

MOTION: It was M/S/U passed to approve BIO 266.

B. That “Transfer Studies” be listed on the diploma and transcript of students who graduate with this option.

Recommendation 3:
In order to better communicate with students, we recommend that the attached list of “Occupational and Technical Studies” majors and the list of transfer majors, organized by category, be adopted and included in the college catalog.
Recommendation 4:
That the college grant multiple associate degrees with the following limitations:
A. Both an AA and AS in a subject will not be granted in the same major, and
B. A student may not receive a degree in General College and Transfer Studies.

3. Specialized sub-committees – T. Lyle

4. Revising the Curriculum Manual: select a meeting to review the curriculum manual and streamline the contents.

The manual will be revised by a subcommittee of S. Adams, S. Collins, M. Strangio and M. Langford. An example curriculum manual from Grossmont College will be presented to the committee for review at the next meeting.

MOTION: It was passed (11 Yes, 1 No) to accept the four recommendations pending future action with the deans and after cleaning up the list of programs.

Recommendation 1:
A. That the current graduation option “Plan A” be renamed “Occupational and Technical Studies (normally not for students planning to transfer).”
B. That the major completed by the student be listed on the diploma and transcript of students who graduate with this option.
Recommendation 2:
A. That the current graduation option “Plan B” be renamed “Transfer Studies” for students planning to transfer; and
B. That “Transfer Studies” be listed on the diploma and transcript of students who graduate with this option.

Recommendation 3:
In order to better communicate with students, we recommend that the attached list of “Occupational and Technical Studies” majors and the list of transfer majors, organized by category, be adopted and included in the college catalog.

Recommendation 4:
That the college grant multiple associate degrees with the following limitations:
A. Both an AA and AS in a subject will not be granted in the same major, and
B. A student may not receive a degree in General College and Transfer Studies.

OLD BUSINESS

1. Adoption of Carnegie unit policy – S. Collins

Units. The course grants units of credit based upon a relationship specified by the governing board, between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course also requires a minimum of three hours of work per week, including class time for each unit of credit, prorated for short-term, laboratory and activity courses.

Note: The Carnegie Rule and Title 5 Section 55002, sets forth the minimum standards for granting course credit based upon a relationship specified by the governing board, between the number of units assigned to the course and the number of lecture and/or lab hours or performance criteria specified in the course outline which requires one (1) hour lecture and two (2) hours homework = one (1) unit. The unit requires three (3) hours of student work per week, per unit, including class time and/or demonstrated competency, for each unit of credit, pro-rated for short term, laboratory and activity courses. The Carnegie Unit is a measure of work required of students in order to earn a unit. It has no relation to faculty workload.

(Proposal to Curriculum Committee; if passed to be submitted to Board of Trustees: The YCCD Board of Trustees has determined: seventeen and one half (17.5) hours of lecture and thirty-five (35.0) hours of homework = 1 unit; thirty-five (35.0) hours of lab and seventeen and one half (17.5) hours of homework = one (1) unit; fifty-two and one half (52.5) hours of lab with no homework = one (1) unit. Lecture also includes discussion and/or demonstration hours; laboratory includes activity and/or studio hours. The Board may grant exceptions to these minimums as long as such exemptions are consistent with code 55002.)

OLD BUSINESS:

Adoption of the Carnegie Unit policy:

Columbia has suggested a minor revision to the Carnegie Unit policy adopted by the MJC Curriculum Committee, with the addition of the words “AS A MINIMUM” as highlighted below.

Proposal to be submitted to Board of Trustees:

The YCCD Board of Trustees has determined **AS A MINIMUM:** seventeen and a half (17.5) hours of lecture and thirty-five (35.0) hours of homework = 1 unit; thirty-five (35.0) hours of lab and seventeen and a half (17.5) hours of homework = one (1) unit; fifty-two and a half (52.5) hours of lab with no homework = one (1) unit. Lecture also includes discussion and/or demonstration hours; laboratory includes activity and/or studio hours. The Board may grant exceptions to these minimums as long as such exemptions are consistent with code (55002)

**This item was tabled until the next meeting for further review.**

MEMBERS ABSENT: M. Boyd, G. Hayes, E. Lanigan.

OTHERS PRESENT: J. Guffey and M. Langford (Curriculum Information Coordinator)

MINUTES: It was M/S/U passed to approve the minutes of December 4, 2001.

PRELIMINARY REVIEW:

LENF 398, A, B – LAW ENFORCEMENT SPECIAL TOPICS (½, 1, 1½ units)
Prerequisite: LENV 388 or employment with a Public Safety Agency; police/sheriff, fire, corrections.
Modify: change wording of prerequisite; change catalog description, course objectives and content.

A syllabus will be brought to the next meeting to consider attaching syllabi to a generic outline form as these courses are offered. The following sub-committee was formed to write a list of guidelines: C. Hudelson-Putnam, F. Drummond, G. Boordrokas, G. Hausmann and J. Guffey.

OLD BUSINESS:

1. Carnegie unit: a motion was passed in October 2001 to send the following policy proposal to the Board of Trustees for their approval; however, it had to be accepted by Columbia College first. Columbia College has agreed to accept the proposal with the inclusion of the words “AS A MINIMUM.” Some MJC divisions have classes that conflict with this. At the December meeting it was requested that the representatives determine if this would or would not be a problem and bring it back to the table in January 2002.

The YCCD Board of Trustees has determined AS A MINIMUM:
- seventeen and a half (17.5) hours of lecture and thirty-five hours (35.0) of homework = one unit;
- thirty-five (35.0) hours of lab and seventeen and a half (17.5) hours of homework = one (1) unit;
- fifty-two and a half (52.5) hours of lab with no homework = one (1) unit.
- Lecture also includes discussion and/or demonstration hours.
- Laboratory includes activity and/or studio hours.

The Board may grant exceptions to these minimums as long as such exemptions are consistent with code (55002).
It was agreed that the above proposal be taken back to Columbia to see if they will remove the words “as a minimum” as it could be a problem for existing MJC courses.

2. Information competency – T. Lyle

The information competency requirement was left un-amended by the State Senate. It will be a requirement for all associate and certificate programs. Librarian Kathleen Ennis is forming a sub-committee to explore ways Modesto Junior College could meet this new requirement. She will forward her sub-committee’s proposals to the Curriculum Committee within 18 months for its approval.

NEW BUSINESS:

Proposed by-law changes – T. Lyle and B. Sanders

This item was postponed. It will be brought back at a future meeting.
CURRICULUM COMMITTEE MEETING

Conference Room A, Morris Admin. Building

February 5, 2002

MEMBERS ABSENT: S. Adler, M. Boyd

OTHERS PRESENT: M. Langford (Curriculum Information Coordinator)

MINUTES: It was M/S/U passed to approve the minutes of January 22, 2002.

DISCUSSION COURSE AGENDA:

**RSCR 251 – NEONATAL AND PEDIATRIC CLINICAL PRACTICE 1 – ½ Unit**
- **Prerequisite:** RSCR 242
- **Corequisite:** RSCR 244
  - Introduction to respiratory care clinical practice in perinatal, neonatal and pediatric care. Field trips may be required. Laboratory: 30 hours. (CSU, Summer, 5 wks., CR/NC) Effective Summer 2002.
- **New course:** Grad Req/No, GE Trans/No, IGETC/No

**RSCR 253 – NEONATAL AND PEDIATRIC CLINICAL PRACTICE 2 – ½ Unit**
- **Prerequisite:** RSCR 242
- **Corequisite:** RSCR 244
  - Additional respiratory care clinical practice in perinatal, neonatal and pediatric care. Field trips may be required. Laboratory: 30 hours. (CSU, 5 wks., CR/NC) Effective Summer 2002.
- **New course:** Grad Req/No, GE Trans/No, IGETC/No

**RSCR 255 – Clinical 4 – 5 Units**
- **Prerequisite:** RSCR 244
- **Corequisite:** RSCR 246
  - **Modify:** change number from RSCR 254 to RSCR 255; change units from 4 to 5; change hours from 206 to 258 total lab hours. remove RSCR 242 as a prerequisite; change RSCR 244 from corequisite to prerequisite. Effective Fall 2002.

It was requested that a modification be made to the wording of four of the objectives. This course will return as an information item at the next meeting to review those changes.

**RSCR 257 – Clinical Preceptorship – 3 Units**
- **Prerequisite:** RSCR 244
- **Corequisite:** RSCR 246
  - **Modify:** change number from RSCR 256 to RSCR 257; change title from Clinical 5; change units from 4 to 3; change hours from 281 to 155 total lab hours. remove RSCR 242 as a prerequisite; change RSCR 244 from corequisite to prerequisite. Effective Fall 2002.

**MOTION:** It was M/S/U passed to approve RSCR 251, RSCR 253, RSCR 255 and RSCR 257.
MOTION: It was M/S/U passed to approve the prerequisites and corequisites for the above courses.
MOTION: It was M/S/U passed to approve the program change as follows: the addition of two ½ unit courses and the total reduction of ½ unit from the program.

OLD BUSINESS:

   Columbia College Curriculum Committee will review our proposed policy and our request that the words “as a minimum” be removed from the policy as it could be a problem for existing MJC courses.

2. Discussion on how to offer short, mandated criminal justice training courses. A sample syllabus and guidelines were requested from the sub-committee. One proposed course outline format (LENF 398) is attached for reference.

   MOTION: It was M/S/U passed to table this item until the next meeting (at the request of the Criminal Justice department).

NEW BUSINESS:

1. How to handle field trip classes (Career Center).

   A sub-committee was formed (M. Smedshammer, C. Hudelson-Putnam, T. Lyle and B. Scroggins) to write guidelines to be used by the division deans to determine if a class meets Title 5 requirements to be called an Independent Study class (199, 299 or 399).

2. A new item was introduced at the meeting regarding courses where the basic course does not change, but the standards of software do. Students want to repeat these courses when there is a change. One possible solution was to identify standards under which the faculty could change the static ID number of the course. Bill Scroggins will bring a draft of alternatives for discussion.

OLD BUSINESS:

Appoint or elect Co-Chair.

R. Hickman, as Vice President of the Academic Senate will be the new Chair for 2002-2003. M. Strangio was elected new Co-Chair by the Committee.

NEW BUSINESS:

1. Out of compliance courses requesting an extension to fall.

   BUSAD 285A, B  INTEC 201  INDIS 101
   AG-EC 55      INTEC 202  INDIS 103
   NR 50         INTEC 204  INDIS 104
   NR 53         INTEC 261  CLDDV 48A, B
   AUTEC 315     INTEC 350  OFADM 364

   The Committee granted an extension for the following out-of-compliance courses to be submitted for review in September 2002, so they will not be inactivated by the Board.

2. Prerequisites – B. Scroggins
   a. Enforcement: current and future practices
   b. Reviewed by Curriculum committee prior to MIS enforcement
   c. Review as part of program review
   d. Training session on prerequisites

   The following sub-committee was formed to review and evaluate MJC’s current policies on course prerequisites: B. Sanders, C. Hudelson-Putnam, M. Smedshammer and M. Strangio
3. What would be the implications of requiring *successful* completion of all area requirements for the AA/AS degrees? (Currently, a D is allowed to meet the graduation requirement.) - B. Sanders

The following sub-committee was formed to research and consider the above change in MJC’s graduation policy: B. Sanders, C. Hudelson-Putnam, M. Smedshammer and M. Strangio.

4. A discussion of the enrollment bottleneck for repeat W’s in math courses. What can be done to get new students into math classes sooner? – B. Sanders

Discussion of the possibility of limiting students to two enrollments for either an F, D, W, or N/C. Also considered was setting aside a certain number of sections of a course that would be open to first time students only. S. Agostini will be consulted to see if either of these can be accomplished.

5. Revisions to curriculum outline and C.A.R.

The Committee accepted the proposed changes to the above forms. The forms will be completed in time for the divisions to use over the summer. They will become effective Fall 2002.

The changes to the course outline:
- add variable units check boxes;
- add limitation on enrollment under IV;
- add space to include areas for graduation requirement, CSU GE, and IGETC.

Changes to the C.A.R:
- remove check boxes under Distance Education; see TMI form
- change text in III., 6 to reflect the 16-week semester;
- add request to attach a copy of the program to III., 8;
- remove areas for graduation requirement, GE Transfer, and IGETC (III., 9, 10 and 11)

**OLD BUSINESS:**

1. Carnegie unit policy – B. Scroggins

   Units. The course grants units of credit based upon a relationship specified by the governing board, between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course also requires a minimum of three hours of work per week, including class time for each unit of credit, prorated for short-term, laboratory and activity courses.

   Note: The Carnegie Rule and Title 5 Section 55002, sets forth the minimum standards for granting course credit based upon a relationship specified by the governing board, between the number of units assigned to the course and the number of lecture and/or lab hours or performance criteria specified in the course outline which requires one (1) hour lecture and two (2) hours homework = one (1) unit. The unit requires three (3) hours of student work per week, per unit, including class time and/or demonstrated competency, for each unit of credit, pro-rated for short term, laboratory and activity courses.

   (Proposal to Curriculum Committee; if passed to be submitted to Board of Trustees: The YCCD Board of Trustees has determined: seventeen and a half (17.5) hours of lecture and thirty-five (35.0) hours of homework = 1 unit; thirty-five (35.0) hours of lab and seventeen and a half (17.5) hours of homework = one (1) unit; fifty-two and a half (52.5) hours of lab with no homework = one (1) unit. Lecture also includes discussion and/or demonstration hours; laboratory includes activity and/or studio hours. The Board may grant exceptions to these minimums as long as such exemptions are consistent with code (55002)

   **MOTION:** It was M/S/U passed to approve above proposal

VIII. **OLD BUSINESS:**

IX. **NEW BUSINESS:**

1. **Consistent Terminology for Certificates – S. Agostini**

   Discrepancies exist between Chancellor’s Office approved program titles and those used by divisions and the college catalog. Division representatives were requested to go back to their divisions to relay the message that these errors needed to be corrected. Lew Mayhew commented that the revision should not lose focus of the two different degree tracks, occupational vocation training, and transfer preparation. Susie Agostini reminded the committee that several years ago, a transfer list of majors was developed but was not included in the catalog because of page limitation.

2. **Curriculum Management Software – B. Scroggins**

   Bill Scroggins explained that a vendor who has developed curriculum management software, **CurricuNet**, would like to make a presentation to the Curriculum Committee lasting 1 ½ hours. Committee members requested that it take about ½ hour. The committee compromised. It was determined that on December 10, 2002, there would be a presentation lasting about one hour.
IX. **NEW BUSINESS (cont’d):**

3. **New Accreditation Standards – B. Scroggins**
   Bill Scroggins discussed new accreditation standards as they relate to the Curriculum Committee. He advised the committee that we will be asked to help determine: How do we assess that students have reached learning objectives in each course? Per Scroggins we cannot use grades because there is too much variability so we will have to define some other measurement standard.

4. **Curriculum Committee representation from the Virtual Classroom Committee – R. Hickman**
   The Virtual Classroom Committee has expressed a strong interest in having representation on the CC. It was decided that a VCC Member will need to formally request representation and present their case to the CC. VCC representative shall present case to CC in Spring.

   Kim Gyuran has been working on Ethnic Studies certificate. She would like approval of the certificate soon. It was decided that the certificate would be vocational as opposed to transfer. The committee requested that she form an advisory committee (letters may be accepted in lieu of attendance) from local employers to determine that there is a need for this certificate in local industry. She will present this information at a later CC meeting.

UCOP

Change per form to reflect standard– S. Adams
Appropriate prerequisites for coursework must be required as per memo dated November 6, 2002, Sheila Lau, Articulation Analyst UC Office of the President. If prerequisites are changed to Recommended for Success, Articulation with UC courses is no longer valid.

NEW BUSINESS:

1. **RACDARS Presentation** – B. Scroggins
   Presenter: George Tamas
   Mr. Tamas gave a Powerpoint presentation on CurricUNET software, a curriculum management application that automates much of the curriculum approval process. He also gave a guided tour of San Diego CCD's CurricUNET system. He said that most of the application was customizable to meet the specific curricular needs of MJC. B. Sanders had concern that there were too many features that would create much more work than necessary for faculty. B. Scroggins reminded him that MJC could request a design that did not necessarily call upon all of the features used by SDCCD. B. Scroggins also commented that there has been discussion of developing an Access database within MJC that would house entire outlines as OLE objects, rather than breaking the content into individual fields (as shown at SDCCD). It was decided that the Curriculum Committee would await the outcome of the HECCC meeting with the articulation officers December 16, 2002.

2. **CSU Lower Division Common Core Project Presentation** - B. Scroggins

3. **Change in procedure: Credit by Examination** - S. Agostini
   Literature and Language Arts has requested that the existing policy on Credit by Examination be revised to read “A student may petition for credit by examination in appropriate courses as determined by College Division or Area provided the student has evidence of training and/or experience in that subject area”.
   Motion: Curriculum Committee to endorse recommendation and forward to Academic Senate for Adoption

IV. OLD BUSINESS:

1. CurricUNET Update following HECCC meeting on 12/16/2003— S. Adams
   There is no money available to invest in CurricUNET unless a Title V grant is received. Questions exist as to whether there will be compatibility issues arising from the use of PeopleSoft or Datatel at the different HECCC campuses. UC Merced wants the source code. Grant monies will still be pursued.

2. Credit by Examination Statement to be included in Catalog – R Hickman
   “Whereas, the granting of credit in a course by examination may be less appropriate for some courses than others, and Whereas, the faculty in a discipline are best able to make a decision as to whether credit for a particular course should, or should not, be available by examination, Therefore be it resolved that the catalog reference to credit by examination should be revised to read “A student may petition for credit by examination in appropriate courses as determined by each division or area provided that the student has evidence of training and/or experience in that subject area.”

VI. NEW BUSINESS:

1. CSU Lower Division Common Core Project Presentation - B. Scroggins
   CSU is planning to implement four standard core courses for each of the twenty most popular academic programs. These courses will be standard for the entire CSU system to facilitate student planning for CSU schools.

   1. Information Competency Update - K. Ennis
      The State Academic Senate is discussing implementation of a technology requirement. The nature of the requirement has yet to be defined. Kathleen Ennis suggested that it is a
worthwhile endeavor, and that YCCD or MJC may want to consider implementing an interim requirement locally.
2. **Certificate Approval** – P. Guerra Schmidt

   a. **CLDDV Master Teacher Families and Culture Certificate**  
      M/S/U to Approve Families and Culture Certificate

   b. **CLDDV Master Teacher Development of Literacy Certificate**  
      M/S/U to Approve Development of Literacy Certificate

   c. **Creative Curriculum Certificate**  
      M/S/U to Approve Creative Curriculum Certificate

**Whereas,** the granting of credit in a course by examination may be less appropriate for some courses than others, and

**Whereas,** the faculty in a discipline are best able to make a decision as to whether credit for a particular course should, or should not, be available by examination,

Therefore be it resolved that the catalog reference to credit by examination should be revised to read “A student may petition for credit by examination in appropriate courses as determined by each division or area provided that the student has evidence of training and/or experience in that subject area.”

3.  
4. **Statement to Support Retaining Articulation Officer** – P Guerra Schmidt  
   M/S/U to Approve

   It was m/s that the Curriculum Committee express to the College President, the MJC College Council and the Chancellor, the request that, with the upcoming retirement of the current articulation officer the position of a full-time MJC Articulation Officer be considered the highest priority and the selection process begin as soon as possible. In addition it was requested that the following rationale be included. The motion passed unanimously.

   MJC has one of the most effective college and high school articulation programs in the state. Articulation is a time consuming task that requires extensive consulting with officials from other schools, careful analysis and judgment regarding a variety of state regulations, graduation and transfer requirements and the detailed content of programs and courses.

   Many MJC instructional and student support functions rely upon timely and accurate assistance from the Articulation Officer. The Curriculum Committee depends on the advice of the Articulation Officer in developing course outlines that will meet standards for graduation, for general education transfer credit and lower division major preparation. In addition, the college relies on the articulation officer to develop working relationships and course agreements with high schools in the surrounding areas.

   The information produced by the Articulation is essential for Counselors and faculty advisors who must have information in an accurate and timely way.

   In sum the articulation officer plays a pivotal role in student success. MJC has developed an exceptional regional network with other colleges, and area high schools and a statewide reputation for articulation excellence.

Fall 2003

Designed to provide an understanding of the World Wide Web and its potential as a marketing tool. Includes application basics, design, and utilization in primary or supportive e-commerce roles.

CAR - Section VI - check that TMI is attached.TMI Form, Course Analysis - awkward sentence under item 1. Should be rewritten to read "Student is virtually in continual contact with instructor."

B. Scroggins recommended "basic computer skills" for RFS (Recommended for Success) advisory. Outline: Section XII "Content" - Remove "the" from headline, add to item 1 "The Marketing Process"
V. OLD BUSINESS

A. Ethnic Studies Certificate – 17 Units

M/S/U to Approve with Changes by Division

Fall 2003

A 15 unit certificate program to add to, not replace existing programs. Intended for students to put in professional portfolios to make them a “little more” qualified. Letters to support the certificate were provided by area agencies and merchants, in addition to a letter from ASMJC President, Emilio Vaca. K. Gyuran stated that such a certificate allows students to learn in a safe environment that will encourage program completion and prepare them for job readiness, and restated that this is not intended to be in lieu of other programs.

L. Mayhew had concerns about “worldview” statement as it would appear to the state. S. Adams said that the program needs a description for the catalog, which would make it helpful to students. L. Mayhew requested that there be a footnote stating that this certificate wouldn’t replace other programs. M. Smedshammer wondered why ENGL 131/132 “Survey of World Literature” was not included in certificate. B. Scroggins commented that the certificate could be modified to include other courses. He also commented that there should be a Comparative Ethnic Studies course. It could include ENGL 174 when reactivated. It was requested that ENGL 175 “Women in Literature” be included. K. Gyuran stated that the certificate doesn’t satisfy everything. B. Sanders and L. Mayhew supported the program stating that it offered many choices, and regardless of what courses a student chooses, it is a strong program. The committee approved the certificate.

B. 17 Units or Less Certificate Subcommittee

M/S/U to Approve

B. Scroggins has moved to commence a committee that will study the issue of the role of the Curriculum Committee in the approval process for certificates having 17 units or fewer. The committee shall return a recommendation and appropriate/required standards for such an approval. The subcommittee will report its direction, and await validation by the curriculum committee prior to putting it in writing.

M. Smedshammer will chair the committee which will include R. LaMont, B. Scroggins, S. Adams, and T. Guy.
VI. NEW BUSINESS

A. Web-Based Curriculum Management
Feasability
M/S/U to Approve

In response to a presentation on CurricUNET curriculum management software, C. Vaughn and other faculty initiated a feasibility study on the implementation of a software system in-house based upon MJC’s curricular needs. C. Vaughn commented that the CurricUNET system is intimidating and complex, but our existing Outlook management system is rather cumbersome. By using Adobe PDF software as the interface, he believes there are a number of benefits to the in-house development of such a system including: portable, open-source Internet standard, excellent resolution “screen to print”, built-in spell-checking, form field input, comment highlighting, voice annotation, file attachments, web-accessibility, MASSIVE searchability, and a database to store ALL curriculum-related data and information. All users can populate data on demand through the forms that they are accustomed to using, thanks to Adobe PDF. Data integrity is maintained because replication is eliminated. All updates are made to the database itself, rather than paper documents, where often inconsistent data is housed in any number of locations.

Chris has reviewed two channels by which we can pursue the vision, Sharepoint Web and PDF. Sharepoint offers threaded discussions. He also commented that we have not yet gauged the time required to implement, nor have we identified what resources will be required.

Motion to pursue project in greater depth with the participation of a subcommittee.

All in favor of a subcommittee to include K. Ennis, B. Sanders, R. LaMont, L. Senechal, M. Strangio. Participation recommended for division secretaries, those nominated were L. Williams, R. Perez, and S. Vanwey.

B. Existing Curriculum Workflow - L. Senechal
M/S/U to Approve

L. Senechal discussed flow of curriculum documents following submission by division representatives. M. Strangio stressed the importance of CAR’s and outlines being submitted by the established deadlines because of the complicated process following the submission deadline. R. Hickman requested that committee members receive their agendas shortly following the deadline.

It was decided that the CIS would begin to place agenda items on the network for subsequent agendas. C. Vaughn commented that he may be able to help with an interim solution to make discussions more accessible. He stated that we will need to evaluate what tools will be necessary immediately. R. Lamont expressed concern that there is no existing way to track receipt of course items by the CIS. She requested that something be put in place because outlines have been lost in that office.

Adopt New Course
Summer 2003

This course was approved as POLS 150, but the number had already been taken. D. Weatherford has changed the course number to POLS 151 in CMD.

V. OLD BUSINESS

A. Under 17 Unit Subcommittee – M. Smedshammer
   The committee will meet soon.

B. Web-Based Curriculum Management – C. Vaughn
   The committee will later in the week to evaluate the existing system and define the needs of the new system. As of now, 1370 curriculum outlines have been uploaded to a database, while 170 (older documents) remain that will require manual entry.

C. Print Journalism Certificate - 16 Units
   M/S/U to Approve
   Fall 2003
   Committee moved approval of a 15-unit certificate with deletion of English 48.

D. Radio Broadcasting Certificate - 17 Units

VI. NEW BUSINESS

1. CMPSC AS Degree – L. Vaught
   L. Vaught supplied a program revision for the AS Degree in Computer Science. It was requested that he bring it back for review at the next meeting provided that the core courses and core options were presented in catalog format.

2. Child Development Program Revision - P. Guerra-Schmidt
   M/S/U to Approve on Condition
   Certificates/Degrees approved (with the exception of Early Interventionist Certificate which would need to be printed in the catalog with a disclaimer) with the expectation that the Curriculum Committee will see an improved layout that shall better communicate complicated relationships of certificates and degrees to one another and to California Permit Matrix.

IV. OLD BUSINESS

1. CLDDV Program Rev. & Print Design - P. Guerra-Schmidt, L. Senechal

P. Guerra-Schmidt presented a chart showing the relationship of CLDDV curriculum to itself and to the State of California Permit Matrix. R. Nimphius suggested that the chart show a running total of units at the base of each column for the different degrees and certificates. The total would breakdown units categorically; CLDDV Core Units, CLDDV Core Options; General Education Units; Elective Units, Total Units Required. L. Mayhew was concerned that the Site Supervisor Certificate would not yield what it appears promise – preparedness for the State Site Supervisor exam, since it requires the AA/AS degree in addition to the CLDDV units. Jon Peterson said that the existing format was not the easiest to read, and that communications standards are calling for flow charts in stead of matrices. L. Senechal clarified that the presentation was to better communicate the complex nature of the Child Development program to the curriculum committee and that there were limitations imposed by the design program and the paper size. P. Guerra-Schmidt is hoping that such a matrix would appear in the catalog to guide students when planning coursework.

Information Item – No Vote

2. Computer Science AS Degree – C. Vaughn, L. Vaught

M/S/U to Approve as is

L. Vaught returned with a draft of the CMPSC AS degree in a format for use in the catalog. Committee members commended C. Vaughn and L. Vaught on the program, commenting that it was very clean, and accessible to the students.

M/S/C to Approve as is

V. Lee brought the 17-Unit certificate to the committee for approval. She presented newspaper articles, testimonial, and shared news of quadrupled growth in ART 150. She stated that two students have left her program and have been employed and that her courses have been credited with making them marketable employees at museums. The issue as to whether or not this program should be held to the same standards that were required of the Ethnic Studies certificate committee. R. LaMont commented that she appears to have met some of the requirements that have been discussed and is satisfied with her presentation. M. Smedshammer commented that the Under 18-Unit Subcommittee has learned a great deal studying the Title 5 guidelines. He stated that it is not explicit that we follow criteria, but it seems to be implicit. This issue will be discussed at length on the 3/11 CC agenda. One of the criteria, however, is that you establish need, and M. Smedshammer commented that V. Lee had clearly shown need for this certificate. K. Ennis commented that she wanted to see more CORE courses, like Art History, etc. V. Lee said that she would love to expand curriculum, but there is only so much she can do at this time to bring forth change.

V. OLD BUSINESS

1. Under 18 Unit Subcommittee - M. Smedshammer
   No Vote Required - Discussion Item
   Fall 2003

2. Credit by Examination for Catalog - B. Scroggins
   M/S/U to Approve
   1 Abstention
   Dr. Scroggins announced that the new verbiage for the Credit by Examination clause of the MJC catalog has been approved by the college council. Attached to the agenda were the proposed changes, handwritten over the catalog page. Discussion of the topic raised concerns for L. Mayhew, who stated that he wanted to know what process would be put in place to establish what courses adhere to this policy, and who supervises this. Dr. Scroggins stated that the deans would be in charge of establishing this list.

VI. NEW BUSINESS

3. Curriculum Manual Revision/Update - B. Scroggins
   M/S/U to approve
   Dr. Scroggins pointed out that the end of the compressed schoolyear is coming to a rapid end, with only two curriculum meetings on the horizon. This means that there is not much time to decide how to proceed with revisions/uploads to the existing Curriculum Committee manual. It was decided that committee members forward their comments and concerns to M. Strangio and R. Hickman, who would in turn, submit them to Dr. Scroggins and the CIS. They would collaborate on these changes and deliver a proposed redesign at the beginning of the fall semester.

4. 2004-2005 Catalog Redesign - B. Scroggins
M/S/U to approve

B. Scroggins announced that an overhaul of the MJC catalog for 2004-2005 is in the conceptualization stages. Currently, the catalog is used as a reference tool for administrators and articulation purposes, however, from a student point-of-view, it is very dense, and it is difficult to locate specific services and information quickly. He informed the committee that their feedback and participation will be encouraged and needed for this project which will take place over the next year. He said that not only will their be aesthetic changes, there may be changes required within the design of academic program information, with the end result being a more intuitive, student-friendly reference tool. MJC would pioneer this sort of change, which would keep intact the existing "rubric by alpha" listing of courses in back of the catalog. New, however, would be the organization of programs. Students would be given more tools and information by which they could make a more educated decision about their coursework and academic/career plans. Committee members showed great enthusiasm and frustration with the existing design. Dr. Scroggins stated that as time allows, the project will continue forward, and the committee will be alerted when action on their part is required.
Members Present: S. Adams, M. Robles, G. Boodrookas, K. Ennis, P. Guerra-Schmidt, T. Guy, R. LaMont, L. Mayhew, J. Peterson, B. Sanders, M. Smedshammer, R. Stevenson, C. Vaughn, B. Scroggins, R. Hickman, M. Strangio

Ethnic Studies Certificate - Program Description
M/S/U to Approve with Changes by CIS

Typos include POLSCI 110 (remove I), ANTRR 140 (ANTH). Add B., and C. to Section II, Options. Core total should be changed to 6 units instead of 3. Discussion ensued about use of 2.0 average following completion of core. GPA was suggested, but some commented that students might be mislead thinking that it refers to total GPA. It was decided that “C or better” would be substituted for 2.0. M. Smedshammer commented on the “quick, friendly format” of the layout and wanted to commend K. Gyuran and B. Scroggins for their efforts.

Associate Degree/New Accreditation Standards - B. Scroggins
Notification - No Vote Required

B. Scroggins informed that, according to new accreditation standards, each degree/certificate needs to state desired learning outcomes. Technical competencies are required for licensure and certification, however, they are not explicit in MJC publications. He thinks that these competencies should go through the curriculum process. Currently the institution relies on faculty expertise and advisory committees to inform the institution about competencies. According to new standards, competencies would need to be specific. He suggested that we request pilots from departments. They could bring competency statements forward where they could be discussed and reviewed with a subcommittee, one item to address would be how to include statement of competency in catalog. He also commented that a vehicle for such review of competencies could be collective; as opposed to the current process of "course by course". Right now, courses are reviewed every 6 years, however, departmental curriculum is seldom, if ever, reviewed in its entirety. If this were somehow implemented, much of the grueling "course" questions that are posed during curriculum meetings might be eliminated because we are having to examine the role of courses in a department's curriculum each time they are reviewed. As far as establishment of student learning objectives/competencies is concerned, another way to do this is to have a finer level of detail reflected in course outlines and syllabi. B. Sanders commented that this would be a waste of paper, and that students won't care, too much information. G. Boodrookas said that the benefits would be clear in the catalog. K. Ennis said that students enjoy clarity about the desired end result, and that students are often suspicious about instructors and the way they often make students "jump through hoops". B. Sanders suggested that the objectives are copied from the course outline and included in the syllabus. Program review is currently non-existent or sporadic. There are six "magic questions" that, if answered by an administrator or faculty member, approve a program. This procedure is not effective, nor in compliance with new standards. New standards require competencies in areas such as Humanities, Fine Arts, Quantitative Learning, Oral/Written communication, etc. However, they have also included items like "recognition of Ethics/Citizenship", "civility", recognition of cultural diversity, and historic/aesthetic sensitivity. Many comments were made about how to measure
such abstract objectives. B. Scroggins said that there are ways, many of them are already part of existing courses (as indicated by multi-cultural items), for example, the student comparing Asian watercolor technique with that of the western watercolor artist. The desired result of the new accreditation standards is to MEASURE OUTCOMES.

**Credit for AP in Environmental Science - S. Adams**  
M/S/U to Approve on Condition  
Committee initially moved to hold off on approval until further discussion with R. Alves about content of AP examination. Following the meeting, his written comments were located and were as follows:

To: Whom it May Concern  
From Ron Alves  
Re: AP in Environmental Science  
February 20, 2002

The course description document is very comprehensive in a topical sense, but it lacks the specific details of a course description. Specifically, student outcomes are not clearly specified in the outline. My comments on the document give a little more detail, but there seems to be a lack of teaching of the scientific method in the topic outline. Perhaps it is implied.

I would approve of the program with the reservation noted above. I also assume that anyone applying for advanced placement would have to successfully complete our course’s final examination.

**English AA Requirements - M. Smedshammer**  
M/S/U to Approve with Changes by CIS  
Approve with the following changes: Add 162 History of Film for 3 credits, remove ENGL 184 from Core Options, change units on ENGL 183 from 3 to 2. Replace ‘11 Units” with “Four courses from the following list…”'

17 Unit Certificate Subcommittee - M. Smedshammer
M. Smedshammer stated that, using new guidelines, all under-17 unit programs will be reviewed. No grandfathering of existing programs, all will be subject to program review. For vocational programs, we will need to verify the need for them, and not all programs will succeed. There will be a formal committee established next year.

M/S/U to Approve: Committee accepted the guidelines and thanked the subcommittee for their efforts, and recommended that the guidelines be forwarded to the Academic Senate.
with request that certificates that do not meet said requirements receive a differentiating label, i.e. “Specialist” in the context of program review.

Rehearsal as Mode of Instruction – T. Guy
AHC proposed new “mode of instruction”, Rehearsal, where 1 unit equates to 105 hours of rehearsal.

Instructional Materials Fee Compliance Guidelines – B. Scroggins
Included in the agenda were Instructional Materials Fee Guidelines, as outlined by the State Chancellor’s office. Divisions should follow them so that they can ensure that, when audited, we are assigning fees to courses appropriately and reasonably. The underlying notion of valid fee assignment is “when the item has lasting value to the student.”

Catalog Language Change – L. Senechal
Change catalog language of Core Courses and Core Options to REQUIRED COURSES and ELECTIVE COURSES, respectively, for use in the 2003-2004 MJC Catalog.

Change of Curriculum Committee Meeting Times

Michael Strangio started the meeting by raising the point that, because of the new compressed calendar, faculty schedules are scheduled differently, making the standing 2:20 meeting commencement time awkward for some committee members. He moved that the meetings should begin at 2:40 and end at 4:40.

Curriculum Meeting Guest Attendance

Michael Strangio mentioned that the traditional policy of allowing guest attendees to appear first on the agenda be modified. He felt that they might learn something about the curriculum process by sitting through the agenda, thus making them better prepared for future course submissions. Some committee members raised concerns, specifically, that often guests attend the Senate Meetings – only to have their agenda item pushed to a subsequent Senate agenda. Bill Scroggins suggested that the co-chairs discuss it with the guest attendee beforehand to gauge what their preference is.

No Vote

Annual Curriculum Orientation

Michael Strangio discussed the Friday, September 12 Curriculum Orientation, stressing that attendance is very important and beneficial to all who participate. He mentioned a “heightened sense of confidence” in interpreting curriculum related topics. Bill Scroggins mentioned the content of the meeting, highlighting review of issues like the Certificate Approval Process, Prerequisites, and Instructional Materials Fees – which have been recurring curricular issues in recent months. Brian Sanders noted that Curriculum can be very personal for some individuals and divisions, and that is something to keep in mind as one begins to participate in the Curriculum Review process.

No Vote

Agenda Distribution and Review

Michael Strangio informed the committee that agenda distribution and review is key to an efficient curriculum approval process. He encouraged committee members to, upon receiving their agendas, to take the four days prior to the meeting (even the weekend) to carefully review the submissions for adherence to policies and appropriateness of content, commenting that the “private scrutiny” is most important. He also mentioned that this window of time before the meeting is where the committee is to address its concerns regarding certain submissions with other faculty – specifically the faculty representative from the division, and/or the “originator” (the author of the course listed on the CAR form under “Action Requested By”). By doing this, meetings will move quickly through curricular items so that topical issues can be discussed.

**Importance of Curriculum Committee to Institution**

Michael Strangio, in closing, stressed the importance of the Curriculum Committee to MJC, stating that “this college can only be as good as this committee” because of its central role in protecting and ensuring the quality of the college curriculum. He reminded committee members of the following: there should remain a respectful collegiality during all committee functions; and to never vote on an issue of discomfort. He encouraged new members to find a mentor within the committee to help clarify complicated procedures or precedents for them. He predicted that this would be the “best year yet” in curriculum because of the leadership, membership, and specialization within the committee. He extended a hearty welcome to Eva Mo, who is standing in as Interim Co-chair while the Academic Senate carefully and quickly fills the role of President-Elect of the Academic Senate. He also introduced Yancey Juergenson, who replaces Shirlee Adams as Articulation Officer, and welcomed him enthusiastically for the committee.

**No Vote**

**Senate Report**

*Honor Dr. Richard Hickman:* There has been a unanimous Senate Resolution of recognition and appreciation for Dr. Richard Hickman. There will be a memorial Sunday, September 14, 2003 at Downey Park where the Hickman family will be presented with the resolution and the award. There is also ongoing Senate discussion of some permanent memorial to Dr. Hickman somewhere on campus, for example, in front of the Academic Senate office with crape myrtles and plaques.

*Election – Senate Representative:* Eva Mo clarified the need for a Senate Vice President to fill the vacancy left by Richard Hickman’s death. She said that the senate is overlooking rules that the candidate have served on the committee within the last five years. The position grants the VP 40% load. Also, curriculum committee members are strongly desired for the position because of their knowledge of curriculum processes.

*Resolution SP03H:* Upon receipt of the Curriculum Committee’s new Certificate Approval Process, the Academic Senate requested further clarification. Apparently, the CC resolution that was presented to the Senate was never before seen by Curriculum Committee members prior to submission, however, there was some speculation that Richard Hickman had prepared it. The Academic Senate sent it to the Academic Standards committee for evaluation because of the incomplete resolution on what has been loosely defined as “academic certificates” as opposed to “vocational certificates”. Because no law is laid out for certificates under 18 units, the Certificate Review process requires the Curriculum Committee to carefully review those certificates. The CCC CAH is silent on the issue of >18 unit-certificates, EXCEPT the requirement that they be appropriate to the mission of the California Community Colleges. Bill Scroggins commented that historically at MJC there has been no discussion of the quality of certificates in the curriculum committee. It became plainly evident during recent years that there needed to be a clear and fair review process to guide prospective program authors when creating a program. The clearest part that the Certificate Subcommittee could identify when preparing the guidelines was “Will this certificate lead to a career?” Bill Scroggins reiterated that this is entirely MJC’s decision. It is not driven by state law. With regards to certificates in trades versus academia, they are two different types of certificates with two different outcomes, and therefore, require two different evaluative processes. Bobby Hutchinson commented that we should take into careful consideration the national naming conventions used for such programs. For example “specialization” is often reserved for a specialized area of study within a larger program. Bill Scroggins mentioned that there is a disparity between California’s interpretation of the Associate of Science degree against the federal Interpretation of the Associate of Applied Science. California has yet to integrate its comprehensive curriculum into the federal standard. The Curriculum Committee agreed that there will be a new Certificate Subcommittee made of the following members: Tom West, Brian Sanders, Michael Strangio, Bill Scroggins, Michael Akard. Eva Mo reminded the committee that the resolution can be pulled from the senate or tabled, and that she could inform the Senate of the Committee’s wish to create a new committee to review the existing guidelines and further clarify the language as it correlates to both types of certificates referenced in the guidelines.

Curriculum Representative Vacancy: Public Safety

B. Scroggins

The Public Safety Management structure has been revised. A full-time director and coordinator are “on loan” from MPD. Kevin Finnerty, Lieutenant Chief of Police will occupy the director seat for one-year, although there is hope for 5-year cycles of leadership for the academy. Greg Hausmann, former Curriculum Representative for Public Safety, has accepted full-time reassignment to ADJU. Fire Science’s existing faculty retired, and John Sola, who was hired in late spring of 2003 needs time to adjust to his new role at the RFTC, but could eventually serve as the Curriculum Representative for the Public Safety Division. The committee moved that George Boodrookas, under whom the Public Safety division falls, be the new representative for the Public Safety Division.

B. Scroggins

Dr. Scroggins announced that the Office of Instruction erred in releasing periodic board reports last year, and he apologized for the group error. He presented the board report for the entire 2002-2003 school year, noting the new format that, in the future will include ONLY new programs and courses. Committee members noted a few typos, and the CIS will repair them.

Catalog Report 2003-2004

B. Scroggins

Bill Scroggins presented the Catalog Report that included revisions that were made prior to printing the catalog for 2003-2004. He mentioned that much work was done to improve the layout and marketing presentation of the catalog, making it easier to understand program requirements. The revisions were made with the approval of faculty in the affected department. Brian Sanders expressed concern that shared governance was not entirely present in the process. Letitia Senechal reiterated the role of language in program structure, and how faculty should be consistent in naming and organizing their programs. B. Scroggins mentioned that much of what we include in the catalog is going to be reviewed for appropriateness in the coming year. Originally, a total redesign was planned, but the content of the catalog was replete with errors, thus requiring much attention. The redesign is planned for 2004-2005, again with the intent of making it a better educational marketing tool.

**Child Development Program – Chancellor’s Office Approval**

Bill Scroggins was pleased to present a letter of formal approval with exception from the CCC Chancellor’s Office for the Child Development Program revision. However, he drew the committee’s attention to the following paragraph within the letter:

“… Also in regard to course outlines, we believe that your college should add a section to its standard course outline format covering “student assignments” or “typical student assignments.” Title V, Section 55002 requires that “the course outline shall also specify types or provide examples of required reading and writing assignments, other outside-of-class assignments, instructional methodology, and methods of evaluation”. We have found the “Methods of Evaluation” of student progress section in your college’s outlines does not always contain such information. We believe that your outlines would be stronger and more in conformance with Title 5 if they contained a separate section that provided some information on number and types of assignments typically expected. Such information need not be as specific as what appears on a syllabus for a particular section, but should give some general idea that would apply to all sections of the course. This is a long-term recommendation for all your course outlines.”

B. Scroggins commented that this is not a “lethal flaw”. SAS papers do give guidance including examples. The committee informally decided that, due to the Curriculum Management System in development, it would be best to avoid such revisions and modifications until the system is live.

**Instructional Materials Fee Compliance**

Bill Scroggins presented a revised Materials Fee Compliance worksheet. This would be the official version. Brian Sanders requested that it be distributed without sample figures included. B. Scroggins agreed and informed that Letitia would distribute the final version to the committee.

**M/S/U to Approve the Revised Materials Fee Compliance Form**

**Web-based Curriculum Management**

Chris Vaughn updated the committee on the current status of the web-based Curriculum Management System. Right now, the project is in development at a specialized programming level. The course outlines are in the system, and he is applying logic to consolidate many areas where we have been inconsistent in the past 20 years. When the system gets close to going live, it may be the responsibility of curriculum representatives to review their curriculum to ensure that translation has been done correctly. However, at this time, he is unable to use committee members’ assistance. Immediate goals include developing administrative interfaces with the assistance of the Curriculum Info. Specialist. He provided a website for committee members to peruse [www.onsite-online.net/curriculum](http://www.onsite-online.net/curriculum).
VI. NEW BUSINESS

Change Work Experience 349 to 249  B. Scroggins

Bill Scroggins requested a blanket change of General Work Experience courses from 349 to 249 with the intent of making them transferable. He sought clarification as to whether this was something that would require each course to be subject Curriculum Committee approval, or whether it was something that they wished to do globally with a single vote. Long discussion ensued. Yancey Juergenson noted that there were substantial differences between General Work Experience and Vocational Work Experience. Vocational work experience is often tied directly to applied skills required for vocational employment. B. Scroggins suggested that the course outlines for General Work Experience be revised in work and scope to align with the standards of the Vocational Work Experience. He suggested that the charge may be to create campus-wide templates for both WK-EX and VOCWE courses. B. Sanders suggested that Special Projects and Independent Study courses be added to that campus-wide "template" movement. Some committee members agreed with his suggestion, however, with the impending implementation of the course management system, changes to course outline structure and content might be a laborious task, and cause much confusion. It was said that perhaps it would be best to make such changes all at once. B. Scroggins clarified that it appears that there are two issues requiring attention.

1) Representatives will need to see a general outline template that might be implemented campus wide for each type of work experience course. The Office of Instruction would provide a samples to review.

2) The committee would need more information relevant to General Work Experience; specifically, information on rigor, content, and standards by which they could ascertain whether a General Work Experience course was transferable or not.

Misalignment of MJC Graduation Requirements, CSU-GE, and IGETC patterns  B. Scroggins

Bill Scroggins presented a document prepared by former Articulation Officer, Shirlee Adams, in April, 2003 which highlighted misaligned courses on the MJC Graduation/CSU-GE/IGETC educational patterns. According to the document, misalignments occur in the following conditions:

Courses on CSU-GE or IGETC but not on AA/AS

Courses in different categories of different patterns

He commented that some may be intentional, but there are some that may not be intentional. Lew Mayhew stated that he had addressed the issue with the Evaluators earlier in the day, and that it was not a major problem, however, in theory, such misalignments could allow a student to complete the IGETC pattern, for example, but not be granted an Associate Degree because the student completed Psychology 104 which is on the IGETC, but not on the MJC Graduation Requirements. He stressed that the likelihood was not great. Letitia Senechal reported that there had been an occurrence in the spring of 2003 that brought the issue into discussion between the evaluators, Shirlee Adams and herself. Bill Scroggins stated clearly that he thought it was an informational issue that should be brought back to the divisions by the faculty representatives for their review, with the inquiry "is it the intention to have these misalignments?" He also informed the committee that, if the intention is to keep the misalignments, students affected by them have the opportunity to go through the course substitution process that requires three signatures; faculty, division dean, and the VP of Instruction. These students do not have to go through the Petitions Committee. The recommendation was that the Curriculum Representatives take the list back to their respective divisions to inform their colleagues, and return on the November 25 Graduation/Transfer Pattern agenda with the faculty recommendations.
Bill Scroggins presented a copy of the Columbia College meeting minutes to the committee. He stated that we are under a board directive to align the curriculum of the two colleges, and feels that in two-college districts, it is nice to see the curricular activities of the other schools. He noted that, at the student level, there is not an easy articulation between the two schools. However, because of the physical distance between the two schools, the need is not as high as say, for example, the community college district in San Diego. The rate of articulation between our campuses is not as frequent as that particular district where, by virtue of their physical proximity, the separate colleges interact in ways similar to MJC’s east and west campuses. In fact, they have an inter-college curriculum committee that approves the curriculum after each college’s curriculum committee has approved their own curriculum. B. Scroggins said that it may be a good goal for the colleges to try to better align their prerequisites. As for solving this issue of inter-college review, one solution may be to add a component to the course outline or CAR form that notes that the course has been reviewed and discussed by the peer faculty member at the other college.

Certificate Approval Guidelines

Certificate Subcommittee

Michael Strangio thanked the Certificate Subcommittee, which included Brian Sanders, Tom West, Michael Akard, Yancey Juergenson, Eva Mo, Bill Scroggins, for their hard work on the preparation of the revised Certificate Approval Guidelines. He commented that, until there was a substantive document for review, it would be difficult for constructive evaluation to take place. He stated that the written word is much more powerful than others, as people must commit to them. Brian Sanders provided an overview of the document and gave a background. In the past, certificates were approved without any guidelines, but for the most part they were vocational certificates. When academic certificates came forth for review and were being scrutinized with the same “lens” as the vocational certificates, the committee realized there was a problem. He informed the committee that the main question facing the Certificates Subcommittee was “how do we approach academic certificates as opposed to vocational certificates”. He wanted the committee to observe the delineation of certificates on page 3 of the certificate guidelines, and paragraph 1 on page 1. He commented that there could be advisories for both vocational and academic certificates, and they could be ad hoc. Both should have advisory committees visible to the curriculum committee, articulation, counseling (who would perhaps participate for transfer-related issues). Lew Mayhew spoke up with concerns about “opening the door”, i.e., child psychology and working with transfer students in that discipline. If he or she [child development student] sees a Child Psychology certificate for example, they might arrive at an objective. Confusion could arise. “What is the significant value that a student will gain by completing an academic certificate?” If it is just a validation for their interests, Lew discourages it. Brian responded to Lew’s concerns by stating that the committee can say no to a certificate, but he was sympathetic to Lew’s concerns. Brian’s main concern for the meeting at hand was to ask the committee “Will this be a useful tool? Should this be appearing in the minutes?” Michael Akard reminded the committee that the guidelines aren’t broadening eligibility rather, they provide a set of restrictions and guidelines where there once were none. Bobby Hutchison commented that he found it helpful. Bill Scroggins added that the issue raised about Academic versus Transfer certification was indeed relevant. He clarified that transfer is driven by the receiving institution. The number of students interested in the certificate would be those who take the courses to help them broaden their education. In academia, many students might choose to transfer but never make it to that goal– but will use whatever they’ve learned. For example, the recipient of a Child Psychology certificate might use that as a receptionist in a doctor’s office. He commented “we are providing a service – whether for the motivated transfer student, or for those who never make it to their associate degree – a service to give the student a fuller academic experience.” Dave Baggett observed that the guidelines clearly identify how the approval process works, and that the subcommittee members deserve “atta boys.” Bill Scroggins wanted to know if there had been discussion with the Academic Senate subcommittee. Tom West shared that they had met last Friday and approved this version.

CVAHECC Transfer Studies Degree

Bill Scroggins

CVHEC group (Central Valley Higher Education Consortium) was put together by UC Merced to improve articulation. Shirlee Adams has been working over a year on this project. This draft is under review by HECCC. At this time, MJC is the only Community College in the valley who has a transfer studies degree, or transfer associate degree. Lew Mayhew stated that Item B was good, but was not clear as to whether or not it waived Guidance/Activities requirements. He suggested that this presentation was highlighted in the catalog, for omissions like that do not serve the students well. Bill Scroggins told the committee that Reading
as an instrument of evaluation is illegal, and that his presentation was primarily with the intent of getting the Curriculum Committee’s feedback. Cheryl Mulder noted that a change in the Activities Requirements would affect her division, as they provide the college a number of FTE’s, and that most students transfer with less than the required number of units.

INTRODUCTION

2003-2004 Curriculum Calendar
Michael Strangio commenced the meeting by expressing concern over the calendar for this year's Curriculum Committee. The cancelled meeting, which was the result of the Veteran's Day holiday on November 11, is something that he felt was not good for the committee. Michael Akard concurred.

Importance of this Agenda to the College and Students
Michael Strangio stressed that the agenda for this meeting was an important meeting, and expressed appreciation to Brian Sanders for alerting the Committee members (via email) of their key role in deciding the fate of these courses on the various breadth patterns.

Fewer Submissions for Curriculum Committee Review this Year
Michael noted the smaller agendas of the year, and wondered why this is so. D. Baggett commented that this was likely due to the fact that over the past few years, there has been a concerted effort to get course outlines in compliance, and now they appear to be caught up. It was mentioned that word has gotten around that the Curriculum Committee is maintaining high standards for review of courses. B. Sanders speculated that it was due to a backlog on a desk somewhere, and that due to budget cuts and overload, faculty has no time to prepare courses or follow through on suggested revisions.

Reactivation of Inactivated Courses
Sandy Uyeshiro asked whether inactivated courses could be reactivated. Yancey informed her that they could be reactivated, but he advised that faculty proceed with caution. If a breadth pattern course is inactivated, it must be pulled from the breadth patterns. Upon reactivation, it will have to be resubmitted for review and approval. Faculty would be wise to be cautious about inactivations for that very reason. Brian Sanders also pointed out that reactivated courses don't get reactivated in their old format. They are required to be reactivated using the most current documents and forms, hence, reactivations will likely require updates on the course outlines and other forms.

Lengthy discussion ensued regarding this course. Modeled precisely after other work experience courses at MJC, this course was designed for students in the last or second to last semester who want to apply skills from earlier coursework to a real work environment. Concerns were not raised about the validity of the course inasmuch as the connection of the way the objectives and content were represented in the course outline. Everyone agreed on the value of the course. Some members were concerned that the course would be open to just any student, despite the very specific intention of the course. One member commented that it would be nice to see how the college is "codifying" the experience and/or skill level of the student prior to allowing them to enroll. Another member felt that the scrutiny of the course was not fair, as other courses almost identical to this in design have been approved and are active. This raised an issue central to the committee; courses under review are to be evaluated against the most current standards and processes. One member noted that it is important to evaluate how the course varies from conventional Work Experience courses. Internships are distinguished from work experience in that they are generally unpaid. It also requires experience that must be related to the students major. This isn't true for work experience. The member suggested that this might be represented best by a limitation on enrollment. It was suggested that the catalog description be revised to advise who should enroll in the class, or whom the class is intended for, or recommend...

that the student meet with an advisor. One member commented that, if this work experience course is held to this standard, then all WK-EX courses should be brought in for review under the same standards. Another representative commented that the volume of work experience courses would be so massive, global review would be an enormous undertaking, so single courses are handled as they come through and are reviewed based upon the established standards at that time. Another member stated that she really thinks the course is valuable, but she just wants to see the objectives mirrored in the content. It was summarized that the committee would like to pass the course, and will do everything that they can to get the course passed, including assisting the originator with the necessary revisions. One member said that we should also consider the global motion to change all work experience courses to the number 249. The committee was reminded that a global change would be much easier once the curriculum management system was in place. This course would be brought back to the committee for the 12/9 meeting.

### V. OLD BUSINESS

**Web-based Curriculum Management System**  
C. Vaughn  
Chris Vaughn updated the committee on the development of the Curriculum Management System. He has generated a report of all the courses in the MasterOutlines folder on Outlook’s public folders that were imported into the new system. There are an estimated 2000 course records in DSK. Letitia is currently reviewing the Master Outlines against the active courses in DSK to see where there might be discrepancies between the two. Per Chris, there were some outlines that did not convert from Master Outlines for one reason or another. It is likely that those courses will need to be manually entered into the system. As for the course by course comparison, it appears that there are other missing outlines; e.g., Work Experience courses and, some others. Letitia will also compare the data to what is in the current college catalog. Chris informed the committee that, for courses which have not converted or are missing from Outlook, that the updating will need to take place at the division level, since it will be too large of a job for one person. A complete report of the evaluation will be distributed to committee members at the 12/9 Curriculum Committee meeting.

Please note: Prerequisites/Corequisites/Advisories

In the past, advisories, co-requisites, and prerequisites (new or existing) were highlighted in the agenda with each course to which they are attached. The Instruction Office will begin doing this again to secure the approval process. The Curriculum Committee should be reviewing these items for appropriateness and compliance regardless of whether they are new or existing. As a simplifying convention, we will call Advisories/Recommended for Success, Prerequisite, and Co-requisite links requisites when referred to as a group, and (A), (P) and (C), respectively.

MJC Graduation Requirements, CSU-GE Transfer Pattern; IGETC Pattern

In an ongoing effort to simplify operational language, the Instruction Office will now refer to the above patterns as “Breadth Patterns” when referring to them as a group.

Breadth Pattern Notation

We have also added the note “Request placement on breadth patterns” to alert the Instruction Office that this course should be placed on the next Breadth Pattern agenda for review. When indicated by the originator, we will specify which pattern it “wants” to be placed on. This will also allow CC members to keep standards in mind when reviewing submissions.

ANNOUNCEMENTS

Curtis Martin began the meeting. Michael Strangio drew attention to the new language in the agenda, saying that it was important and helpful to have this information presented in such a way.

IV. OLD BUSINESS

Web-based Curriculum Management System

L. Senechal

C. Vaughn has downloaded all the course outlines into a database where there are now 1200 outline "records". L. Senechal then took the data and compared it with its matching record in DSK. She found that there is not a one-to-one relationship between DSK and Master Outlines. Some courses accounted for in DSK are not accounted for in the Master Outlines. She also noted that many of the records in DSK are Work Experience, Special Topics, Independent Study, and Special Topics. Among those, there is an inconsistency in the way that we approach these courses in naming conventions. These courses, since they are not in Master Outlines, are not subject to review on a regular basis. Many courses have not been reviewed in almost 10 years. She also noted that some of that set are represented on Master outlines and some are not. There are roughly 20 “H” or Honors courses still active in DSK. Other courses on the report did not convert correctly, so courses that may appear to be missing were in Master Outlines, but will still require manual entry. The report is still a work in progress, so Letitia will continue to update the committee on what is needed from each division as implementation of the new system begins.

IV. OLD BUSINESS

Web-based Curriculum Management System
C. Vaughn
Chris Vaughn is still working on the system. He has met with Bill Scroggins and Letitia Senechal to discuss the nuts and bolts of implementation, and project timelines will be outlined in the next month. Chris will soon have dedicated time to devote to implementation, and will be working closely with Letitia to begin dealing with some of the many details that need attention in order for implementation to continue.

**Work-Experience**

Dennis Gervin provided an overview of work experience to the committee. He summarized that there are two types of work experience at MJC. General Work Experience has more to do with the acquisition of soft skills, like schedule, punctuality, interpersonal skills, etc. The Office of Instruction will play a central role in the overseeing this program. Currently, Eva Rivera-Jara is coordinating General Work Experience students out of Morris 208, as are Kim Bailey (counseling), and Student Services. Faculty can assist with the program by doing site visits, evaluations, etc. for reassigned time. So far, Dennis observed, the program has been successful. The overall goal of General Work Experience is to connect on-the-job training with the classroom experience.

Occupational Work Experience, on the other hand, will be a part of various academic programs, and will be strongly linked to the curriculum of a department. As far as standards are concerned, the Office of Instruction can provide a service to help streamline these programs, however, the management of the course content is up to the departments.

As far as standard curriculum, for General Work Experience there is none at this time, however, Dennis noted that the Agriculture department has a good example of Occupational Work Experience course across the curriculum. He noted, however, that for Occupational Work Experience, the learning experience is not as easy to standardize because of the specific machines and skills required for each occupation. He commented that a standardized General Work-Experience course could be more menu-driven in terms of its content and objectives. Carrying this strategy over to Occupational would be unsuccessful, however.

B. Scroggins summarized that Work Experience can be considered a way to bridge the classroom experience to the workplace. It is also a conduit to communication between business and faculty to ensure proper course preparation for the needs of the workplace. Work experience, in a sense, teaches the “common sense” skills not written into a curriculum. In addition, it helps the student with internships that could lead to future employment opportunities. It keeps the overhead low for the college, as well, in that many of the costs associated with running a program are covered by the jobsite.

**V. NEW BUSINESS**

**17 unit (and under) Certificate Form**

Letitia Senechal revised the Certificate Approval form (accompanying the new certificate guidelines) to better meet the operational needs of the Instruction Office. The committee reviewed the form and noted that some changes to language would be appropriate. There was discussion as to whether it would be appropriate for the form to apply to both 17/fewer certificates and 18/over. There was also discussion that a form could be presented for Academic Programs. There was no resolution to this issue. It was decided that Bill Scroggins and Letitia would review the form and make a recommendation to the committee.

West Campus, Yosemite 205, 2:40 PM

Members Absent: J. Peterson, M. Strangio, T. West, B. Sanders, (MJC Representative), D. Baggett

Others Present: S. Hinton, D. Waring, L. Senechal

ANNOUNCEMENTS

Bill Scroggins chaired the meeting in Michael Strangio’s absence. Michael has had to miss two meetings due to sick leave. He will return for the 2/17 meeting.

Emergency Adjustments to Curriculum Calendar and Workflow
Due to pressing deadlines and emergency action on course outlines from the BSS division, there will be some changes to the curriculum calendar.

1) CATALOG DEADLINE EXTENSION
The Instruction office is overwhelmed by the various tasks relating to Datatel’s implementation and operational issues surrounding it. Bill Scroggins and Letitia Senechal have reviewed the catalog production calendar and decided that there is room this year to push the deadline for changes back as a result of the high volume of work needed at this time. In addition, there are a number of divisions who were not able to submit all courses for the same reasons. Note: the divisions were immediately notified on 02/04/03 of the extension and have until Friday, February 13 to submit these outlines to the Instruction Office.

2) EMERGENCY REVIEW OF BSS COURSES
CSU is requesting modifications to approximately 10 BSS courses by February 27, 2004 in order to bring the courses into compliance with the US History, Constitution, and American Ideals Requirement. The division has been notified and has made revisions to the outlines, and these will be distributed to the committee during the week of 2/16-2/20. No other courses will be reviewed at this meeting.

IV. OLD BUSINESS

Web-based Curriculum Management System

C. Vaughn

Chris has prepared a number of items to get the “ball rolling” on the curriculum management system. In terms of the project scope, Chris has prepared a Gantt chart which includes project timelines, milestones, and target dates for implementation, etc. The Office of Instruction is clearing a workspace for the project, and getting a short-time support staff to do the data-entry and reporting activities necessary to expedite the process. It is feasible that intensive work on the project will begin within the next three weeks.

Certificate Form

Following the approval of the new Certificate Guidelines, it was requested that the Certificate Form be modified. The modifications were made, but to improve it, Bill Scroggins proposed that the form be made interactive so that personnel who use it are aware of the process while completing the form. The form would be brought back to the committee at the March 3 meeting in an interactive format.

V. NEW BUSINESS

ACADEMIC PROGRAMS

Certificate of Achievement of Supervisory Management in Public Safety

F. Drummond

M/S/U to Approve the Certificate of Achievement of Supervisory Management in Public Safety (only)

This Certificate came to the curriculum committee for approval in February 2002. Some individuals recall that the certificate was approved, but it was not recorded as such in the minutes for the meeting. It was only listed as a “proposed certificate.” So, the certificate did not make it into the 2002-2003 Catalog, nor the 2003-2004 Catalog. Plus, students in the program have been advised that the program exists, and at this time, expect to be awarded certificates. So, although it is not local practice to approve certificates and activate them before the catalog is printed, due to the special circumstances of this case, students will be given awards for 2003-2004. This is effective immediately.

Please note: documentation that was included in the agenda for an AA/AS degree in Supervisory Training was NOT APPROVED. Essentially, this was a slight modification (ADJU 351 in lieu of SUPR 351) to the AA/AS degree in Supervisory Management. What it will entail is a course substitution by the instructor.

Also, the issue was noted that Supervisory Training is no longer an existing department or program. Confusion about this issue may be traced to the Supervisory Management department still using the SU-TR code for all courses and programs. Although change to SUPR has been initiated by the instructor, the department, and the Office of Instruction, the Curriculum Committee has not yet been formally notified. This will be on the next curriculum committee agenda, along with some other modifications to department information.

Modification to ADJU AA/AS Program

F. Drummond

M/S/U to Approve the addition of ADJU 351 to the ELECTIVES for the ADJU AA/AS Programs

BUSINESS

Course Competency Substitutions

D. Waring, B. Sanders, S. Hinton

Disability Services has presented a revised set of guidelines for Course Competency Substitutions. These will allow for students with a verified disability (who have exhausted every possibly resource and tool) to substitute courses in order to meet the MJC Graduation requirements. This is not to be used toward the IGETC or CSU-GE patterns. Students will need to meet the requirements of the target institution elsewhere. This substitution process will not be documented on the transcript. The transcript will only note that the student has met the MJC Graduation Requirements. DSPS met with the Math department to check the
validity of the procedure against the Math department’s requirements. They agreed that the process was intended to show that a student had put forth a good effort, and that the division had put forth an effort to both help and accommodate a student. Bill Scroggins noted that the form might need to represent the degrees of help that had been provided to the student to make the form more complete. Bill Scroggins also wanted to clarify the meaning of the endorsements on the form, for example, “who is the division representative that signs the form?” Sharien Hinton clarified that this is the signature of the department instructor who is working with the student.

Prerequisites

Bill Scroggins informed the committee that a number of issues have arisen surrounding prerequisite data with the implementation of Datatel. He also presented a list of MJC courses with which highlighted prerequisites that could not be validated by the Datatel system. In some cases, the prerequisites were actually limitations on enrollment, and in others, just poorly written. Others, however, would require validation. Following the BOG Model District Policy on Prerequisites, Corequisites, and Advisories on Recommended Preparation, he showed the committee that we there are a number of ways to validate prerequisites. One of these measures is statistical validation. He then presented an example of what was recently done to statistically validate an MJC course. This was an involved process, and he recommended that a Curriculum subcommittee be formed to establish a statistical validation procedure for the committee and MJC faculty to be used when necessary.

UC Transferable Courses

The following courses have been accepted by UC as meeting the requirements for the IGETC pattern:

BIO 101  Biological Principles (5)  HUMAN 130  Intro to Western Religions (3)
BOT 101  General Botany (4)  PE-C 130  International Folk Dance (.5-1)
ENGR 101  Intro to Surveying and Topography (3)  POLSC 151  Women and Politics (3)

Courses not approved as UC Transferable

HE 118  (Practical and applied)
PSYCH 118  (No comparable course in lower division at UC)

Distribution of catalogs to division representatives for annual revision

Co-chair for 2004-2005
I. APPROVAL OF MINUTES

March 2, 2004

M/S/U to approve the minutes of 3/2/2004. R. Stevenson, B. Hutchison

II. CONSENT COURSE AGENDA

ASTRO 55 held over until 3/30 Agenda. CGR 211, CGR 212, and CGR 331 all met the conditions for approval imposed at the 3/2 meeting.

II. DISCUSSION COURSE AGENDA

MUSIC 154  Masterworks Chorus

Modify: Catalog description, course objectives, content, methods of evaluation

Added to Outline: Section XIV – Selected readings from choral library. ‘Punctuality’ changed to ‘Active Participation.’

There was some question as to whether paragraph 11 was acceptable in lieu of stated increments in learning objectives for repeats. The answer was yes, it is ok.

M/S/U to Approve

M. Strangio asked that the revisions from originating faculty/department be complete before meeting. That is to say that the committee shouldn’t have to deal with announced corrections before they entertain discussion and vote. B. Sanders suggested that nothing but the final versions of CARs/outlines be included in the printed agenda.
V. OLD BUSINESS

C or Better for Required Core  J. Howen
Jim Howen made a presentation to the committee requesting that his department (Tech Ed) be allowed to require a C or better for any given A.A./A.S. program’s required courses as well as any elective courses for that program that would count towards the completion of a program.

It was recommended that a proposal to the Academic Senate be drafted suggesting that once a majority of faculty from a given department recommend it, A.A. /A.S. programs in that department will require all courses that are to count towards completion of the degree be completed with a C or better. L. Mayhew raised concerns that there may be students who have a 3.5 GPA but have a D in an elective course.

M/S/U to Approve C or better requirement for 3 specific programs that were presented with signatures at the meeting.

B. Scroggins asked if CC should make recommendation on this grading policy to Academic Senate. The committee decided that they would, and C. Martin and J. Howen will draft proposal. CC will vote electronically on proposal before it goes to senate.

Web-based Curriculum Management System  C. Vaughn
C. Vaughn gave a presentation showing the Curriculum Management System (CMS). Many members were impressed with the versatility of the system and it is thought that this will make the curriculum process run much more efficiently. There was concern, however, that the system is too complex to be grasped all at once. Could a simplified version be put in place and features added as faculty and staff grow more comfortable with the system? It was decided that the system would be simplified. M. Strangio and B. Sanders will assist C. Vaughn in simplifying the system for its introduction.

Certificate Form  B. Scroggins
Tabled until 3/30 meeting

Catalog Revisions  L. Senechal
L. Senechal informed CC that the Mar. 30 meeting is the last opportunity to submit insertions/modifications for 2004-2005 catalog and asked if there were any questions about the process.

Prerequisite Subcommittee Update  B. Sanders, C. Martin, M. Strangio
Prerequisite Subcommittee is meeting to discuss possibilities for a prerequisite validation process. Sandra Woodside and Jacqueline Faris are assisting. Because the nature of the process is complicated, Brian Sanders and Michael Strangio will work together to simplify the process and create a presentation for the CC as to how the process will work. Brian Sanders has created new forms, but has noted that there are many inconsistencies on the forms that could be cleaned up. He will work with Letitia to address these concerns.
VI. NEW BUSINESS

Resolution SP04-B: Raising Math and English Requirements for Graduation  C. Martin
This resolution states that the MJC Academic Senate directs the Curriculum Committee to work together with the English and math departments, vocational education instructors, and counselors to research the issue of raising English and mathematics requirements for graduation and give a preliminary report to the Academic Senate by the end of this semester.

Academic Senate has requested that CC provide preliminary report regarding raising academic standards for Math and English. What impact will this have on students? B. Scroggins informed committee that individual A.A. /A.S. programs can require different levels of math to complete the degree. It was suggested that all programs perform an analysis to determine math and English needs. A subcommittee was formed to draft a preliminary report to Academic Senate. The Subcommittee will consist of T. West, B. Sanders, P. Mendez. L. Mayhew will find someone from counseling to sit on subcommittee as well.

Distribute Curriculum Calendar for 2004 -2005  L. Senechal
There is one deadline for two CC meetings for Catalog Agenda for next year. Jan. 14 will be the deadline for both the Feb. 1 and Feb. 15 meetings. Outlines that quickly pass technical review will appear on the Feb. 1 agenda. Those that require more work will make it on the Feb. 15 agenda.

Recording of CC Minutes  T. West
T. West informed CC that according to law, it is permissible to record public meetings of Academic Senate or its “subcommittees” and asked that the CC meetings be allowed to be recorded. M. Strangio announced that, henceforth, barring any great objection, CC meetings will be recorded.

Nominations for Curriculum Co-Chair 2004-2005  C. Martin, M. Strangio
Nominations for co-chair were entertained. In a written nomination K. Ennis nominated T. West. B. Sanders auto-nominated. Election of new co-chair will be held during Mar. 30 meeting.

Curriculum Operations Update

M. Strangio, C. Martin

Co-chairs and L. Senechal informed committee about operational and procedural questions/proposed solutions/modifications that have been discussed during the Friday morning meetings. Some of the ideas are: adjusting the deadlines for submission, distributing a curriculum calendar with all relevant dates and timelines, and the electronic submissions of outlines to reduce paper usage and to better monitor and track changes. The importance and value of communication was stressed.
Curriculum Manual Revisions for 2004-2005  
L. Senechal
Curriculum binders were collected. It is hoped that by examining the additional pages included by each rep/division, the Manual subcommittee can better address the needs of all the reps/divisions. It was suggested that the section of the manual that is designed to assist the reps in reviewing courses be retained.

B. Scroggins asked for the Committee's input regarding the reorganization of the Office of Instruction. Due to many factors, the work load and work flow of the Office of Instruction has changed greatly in the past several years. To better meet today's needs, the VPI envisions creating a 'Publications' person who would produce the catalog and schedules of classes as well as other publications as needed. The position of Curriculum Information Specialist would be a support position for the curriculum process as well as an archivist. The duties of preparing the agendas and taking the minutes would be part of the Executive Secretary's job.

L. Mayhew suggested that a counselor and representation from any group that uses the catalog frequently be included in the design process. There used to be a Catalog Committee. Perhaps it would be a good idea to reform this committee to assist the Publications person in producing the catalog.
I. APPROVAL OF MINUTES

M/S/U to approve the minutes of 4/13/2004 as amended.

II. NOTIFICATION COURSE AGENDA

POLSC 198A  American Elections  1
To be offered during Fall 2004 semester

The committee expressed the need to clarify the process whereby Special Topics courses are created and reviewed. The issue will appear on an Agenda in the fall.

III. CONSENT COURSE AGENDA

ENGL 173  Introduction to Latin American Literature
Effective: Fall 2004
Modify: Textbooks
Advisory: ENGL 101
M/S/U to Approve course only. No vote on Advisory.

For all English classes here, there was a question as to why English 101 was not a prerequisite. It was suggested that perhaps English 50 could be made a prerequisite and English 101 remain an advisory. The question of whether English 50 and/or English 101 are appropriate prerequisites for these classes was sent back to the division. However, the authority to set requisites ultimately resides with the Curriculum Committee.

L. Senechal  
Due to the high level of efficiency of the catalog production team, it is likely that all curriculum changes made during the 2003-2004 year will make it into the catalog. The February deadline can be understood to be a guarantee date, after which, modifications or additions may or may not make it into the next catalog.

Work Keys  
G. Boodrookas  
A program wherein curriculum is tailored to closely fit with the needs of employers is to be implemented in the near future. Some issues being addressed are: How do we assess employers’ needs? How do we align our training with the existing Work Keys system? How do we design curriculum to meet employability needs? A pilot program is underway with Signature Fruits.

Some questions from committee: Is there an additional cost to the college? Yes, but the cost will be defrayed by participants in the program. Some expenses may be underwritten by State Government. Is there any other benefit to the college? Yes. By providing what businesses need, MJC can expect to have even better relations with them. This may in turn lead to access to their resources as well as financial support in the form of donations or scholarships.

Work Keys is part of a multi-pronged approach to reach out to potential students.
Further discussion of Work Keys will take place in the fall semester.

**Anticipated Representation for 2004 – 2005**

M. Strangio, C. Martin

Many of the current representatives will stay on. From Literature and Language Arts, B.J. Wells and Patrick Bettencourt will replace M. Strangio and T. West. From Allied Health, Libby Lanigan will replace G. Coats.

**Virtual Classroom Committee**

B. Scroggins

Subcommittee of Academic Senate is developing standards for online courses. How might VCC interface with the Curriculum Committee? Some suggestions: Perhaps a representative of VCC to sit on CC. Tech review of TMIs to be done by VCC. CC to meet with VCC to work on standards for TMI together. VCC to participate in fall training.

III. DISCUSSION COURSE AGENDA

COLSK 810  College Skills Development
Effective: Fall 2004
Periodic Review w/ no changes
M/S/U to Approve

P. Mendez observed that the CAR/Outline seemed to be a little incomplete. 99 repetitions are allowable because the course is non-credit. B. Scroggins explained that this class was to allow students, taking a class with lab hours, to put in more lab time than that class’s outline would permit.

P. Mendez asked about how much attention the committee should pay to courses that are coming through for Periodic Review. T. West answered that in the near future, new forms would simplify the process but that each course still needs to be examined with the same attention to detail because of changes to Title 5. B. Sanders added that because there have been changes in what the committee expects from an outline, often courses will need to be updated. C. Martin added that this is an opportunity to review a course that otherwise wouldn’t otherwise be examined. He also mentioned that with the committee has a new understanding of Student Learning Outcomes.
THETR 161  Intermediate Acting
Effective: Spring 2005
Modify: Requisites
Requisites: THETR 160 and Satisfactory Completion of Audition
M/S/U to Approve

This course was only on this agenda for approval of the prerequisites. T. Guy, the faculty originator was present at the meeting so the committee offered feedback on the course outline. Repeat justification is missing.

B. Scroggins described two approaches when talking about assessment: types, and examples. Types describe, in general, what categories of assessment are done and how methods justified student achieving the objectives. Examples actually cite examples of what is done such as a typical assignment. Types tend to be terser.

The combination of Teaching Methods and Methods of Evaluation need to be sufficiently detailed. There is Missing information under Grading Method and Repeat Procedures. Load section on CAR doesn’t match hours on outline.

Discussion ensued regarding the proposed prerequisites. Subjective evaluation is an acceptable means of evaluating a student’s readiness to take a class. Being the second course in a sequence makes the standard for prerequisites different from that of other classes. Title 5 states that ‘Satisfactory’ Completion of a course that serves as a prerequisite means receiving a grade of C or better.

II. NOTIFICATION

UC Requirement of Intermediate Algebra for Science Courses

R. Cranley

CSU US History, Constitution, and American Ideals requirement

R. Cranley

S. Collins spoke in R. Cranley's absence

MJC already requires Intermediate Algebra as a prerequisite for certain science courses. B. Sanders expressed that the UC letter would serve to provide justification for this practice. M. Boyd observed that this requirement might lead to a need to increase the number of MATH 90 sections that are offered. B. Sanders explained that this requirement only applied to Major Preparation science courses such as BIO 101 and not non-Major science courses such as BIO 111. This letter validates what is already being done at MJC.

C. Martin informed the committee that the Social Sciences department was acutely aware of the lukewarm tone of the CSU approval letter. He explained that the issue centered on the requirement to include a California component in US History courses. He felt that the way to address this deficit was to include additional readings on California History as he knew of no US History textbook that dealt also with California history. B. Sanders reminded the committee that the MJC Curriculum Committee has expressed reservations similar to those noted by CSU. T. West informed the committee that R. Cranley had been in contact with CSU and had received detailed responses to her inquiries into what exactly were CSU’s concerns and what should MJC do to ‘fix’ the problems. C. Martin indicated that the Social Sciences department would be addressing these concerns in the near future.

II. DISCUSSION

ENSCI 109 Introduction to Geographic Information Systems

Effective: Fall 2004

Modify: Teaching Methods, Methods of Evaluation

Pulled by division rep.

The committee felt that there should be consultation with the Social Sciences department regarding this course. There was discussion about the catalog description. Is it understandable? Does it serve to limit enrollment to those who really need it? It was observed that the title indicates that this is an introductory
course but that it really seems to be for those who already know something about GIS. If it is expected that the student will already have knowledge of GIS, isn’t a prerequisite or a recommended for success needed? M. Boyd agreed to pull the course and do some fine tuning on it. Course is also offered as GEOG 109. Item II on the outline needs to be corrected.

**Technical Review Committee**

- Call for Print/Web reference Materials and Operations Committee, Integrating Manual, Tutorial, and CMS

C. Martin gave a report of how Technical Review was now being done. CIS distributes submitted courses/programs to Tech. Review Committee. Committee has 1 week to review. Problems of a technical nature are referred back to the division. Those courses that pass Tech. Review go on the next Curriculum Committee agenda. Feedback on the process was solicited. Members expressed that they thought this was a good process and that it was comparable to the way in which other schools reviewed courses. Because of the increase in workload, additional reassigned time has been approved by the Academic Senate for the committee-elected co-chair. It is now 20%.

T. West asked committee members to start thinking about how the CMS, tutorials, manual, and website work together. There might come a time when a subcommittee needs to be formed to make sure the various sources of information integrate well.

Curriculum Manuals

Feedback was solicited regarding the manuals. Committee members haven’t had much need to use them yet. B. Sanders asked about more dividers.

### IV. NEW BUSINESS

**Standardizing Citation Style for Textbooks on Outlines**

To assist committee members with their review of courses, it was suggested that the committee agree on a format for citing textbooks and other readings in course outlines. The committee decided to adopt APA formatting as the standard. K. Ennis will submit sample of APA formatting.

**Other Business**

M. Akard asked if the committee wished to pursue collaboration with the Virtual Classroom Committee. The VCC will be invited to come to a Curriculum Committee meeting when it seems appropriate. M. Akard agreed to be the liaison between the two committees. B. Sanders proposed that the VCC be asked to create a TMI-like form based on what information the CC needs.

S. Fornelli asked for feedback from the training. Many members expressed that the right people were there, the right information was presented, and the right length of time was spent on the training. The breakout sessions were very helpful. Some members did feel like the food could have been better and that coffee should be available at all times.

**Requisites:** THETR 160 and Satisfactory Completion of Audition  
M/S/U to approve THETR 161  
M/S/U to approve requisites for THETR 161

THETR 161 was pulled for discussion. The question was regarding the need for repeat justification. The answer was that Studio/Performing Art courses and PE courses are listed as exceptions in the Ed Code and therefore do not need the same level of justification for repeatability. B. Sanders asked that the CMS be designed to take into account the difference between Studio/Performing Art courses and PE courses in terms of repeatability.

**IV. OLD BUSINESS**

**CMS Status Report**  
L. Senechal  
Chris is working on it. Some of the courses that have come over into CMS have holes in the data. The next step is to go through each course and fill in these holes.

**Operations Report**  
C. Martin, T. West  
T. West discussed whether changes in policy for the Curriculum Committee should take place immediately or all take place at once on a predetermined date. Members agreed that it would best if changes in policy or procedure take place all at once. The effective date for changes to be implemented will be the end of the academic year. Occasional exceptions to this policy will be allowed depending on need. A motion was made to make this change. The motion was seconded, and passed with unanimous approval.

T. West brought to the committee’s attention that according to state law, Disproportionate Impact Studies need to be conducted during program review for courses that have a limitation on enrollment. After some discussion, it was decided to table this topic until further research could be done as to how this requirement might be fulfilled. S. Collins will send out a query to state CIOs via email. This requirement can be found in the curriculum manual in the section: Course Approval Handbook (pg. 127).

C. Martin asked for input from the committee regarding an upcoming vote in the State Academic Senate. The question is: Should Math and English standards be raised for an associate’s degree? Much discussion ensued. One option is to raise standards to something higher than the current level of MATH 70 and ENGL 50 but not MATH 90 or ENGL 101. This might come in the form of courses at the same level as MATH 90 and ENGL 101 but with a more vocational focus. The committee ultimately voted to recommend that MJC’s representative to the State Academic Senate vote in favor of raising standards to a level about MATH 70 and ENGL 50. R. Cranley, dissenting, felt that there should be a structure in place to provide the alternative courses before raising the standards. The fear is that higher standards will be required but no alternatives to MATH 90 and ENGL 101 will exist.

**Curriculum Manuals**  
T. West  
Feedback was solicited regarding the manuals. Some members expressed that they felt the manuals were proving to be useful.

**Forms Subcommittee**  
L. Senechal  
L. Senechal informed the committee that the pace of development of new forms is dependant of the pace of development of the CMS.

**Prerequisite Subcommittee**  
B. Sanders, C. Martin  
No report
Standardizing Citation Style for Textbooks on Outlines  
T. West  
K. Ennis has provided a style guide for APA format which will be included in future editions of the Curriculum Manual.

C or Better Requirement  
C. Martin  
Proposal from J. Howen was reviewed and minor corrections recommended. B. Sanders will work on revisions. This requirement will apply to all degrees including the AA in Transfer Studies. Presently, a student can receive a degree in Transfer Studies and not be able to be certified with CSU or IGETC because CSU and UC already require C or better to be certified. A student can still transfer without being certified or receiving an associate’s degree. This requirement only applies to the courses in a student’s major.

IV. OLD BUSINESS

CMS Status Report
L. Senechal
The Instruction Office will begin the task of scraping all existing data from course outlines, including prerequisites, TMIs, etc. Implementation is still several months away.

Operations Report
C. Martin, T. West
No report

Curriculum Manuals
T. West
B. Sanders asked if we could come up with a more colorful cover. L. Senechal will accommodate.

Forms Subcommittee
L. Senechal
L. Senechal informed the committee that forms could not go forward until the CMS was more complete.

Prerequisite Subcommittee
B. Sanders, C. Martin
Sub-committee will meet to determine what needs to be addressed and how to move forward.

C or Better Requirement
C. Martin
Some minor corrections were made to the proposed resolution. Some committee members asked for some information about the nationwide grade inflation claim. It was made very clear that the intention is to require a student to earn a C or better in (1) each required course in a given academic program and (2) each elective course that will apply to the completion of said program in order to receive the degree or certificate. The committee voted in favor of moving this proposal on to the Academic Senate. M. Garcia, dissenting, shared that the counseling department felt that adopting this policy would be burdensome to General Education and Transfer Studies majors.

IV. NEW BUSINESS

Sequencing of Course Titles
T. West
T. West led a discussion of course titles. Some courses have roman numerals, some have Arabic numerals, and some use descriptors such as beginning/intermediate/etc. Should there be a college-wide standard? B. Sanders reminded the committee that Arabic numerals are the standard. It was suggested that each division/department decide which stand they will use and stick to it. Due to the character limit imposed by Colleague, it was recommended that Arabic numerals be used whenever possible.

Interim Workflow Change in Instruction Office
L. Senechal
For the foreseeable future, S. Fornelli will be the contact person in the Instruction Office for course submissions and questions and agenda items. L. Senechal will be working on big picture stuff, including how to streamline the entire curriculum process and working to speed implementation of the CMS.

Audit of Courses, TMIs, Requisites
L. Senechal
L. Senechal is conducting an audit of electronic files, paper files, Datatel records, and catalog information. There are discrepancies and she is working to reconcile all of the various sources of information.

T. West asked the committee if it’s appropriate that TMIs be part of periodic review. S. Collins indicated that he felt that TMIs were part of the course outlines and therefore subject to periodic review. L. Senechal informed the committee that there is no uniformity in the way that TMI information is stored by the divisions. The only real record that exists is in the paper files. Colleague has no way of keeping track of that information. B. Sanders suggested that the Virtual Classroom Committee be more involved in future decisions as to how to handle TMI components of courses. L. Senechal asked if TMI information should be built into the course outline. The committee was asked to keep this topic in mind for future discussion.

R. Cranley distributed a list of CAN numbers and courses.

M. Akard asked for some guidance regarding materials fees. This topic will appear on the next agenda.
Curriculum Committee Meeting

Minutes

Tuesday, November 16, 2004
West Campus, Yosemite 205, 2:40 PM

CMS Status Report / Forms Subcommittee
L. Senechal
C. Vaughn gave a report. Data entry has begun. Test of output files has begun. Program information is also being added to the system.
M. Boyd asked about the relationship between what’s decided at CC meetings and what appears in the schedule of classes. S. Fornelli gave a brief overview of how results from CC meetings get translated to Colleague and therefore, the schedule of classes and catalog.

There was discussion about justifying the fee for these two classes but the topic was tabled.

The Accreditation committee has contacted T. West to ask how the Curriculum Committee was addressing Student Learning Outcomes. This will be a question that will be addressed at future meetings.

S. Fornelli asked the committee if they preferred receiving the minutes along with the agenda. The committee indicated that they would prefer getting the agendas as early as possible. S. Fornelli will distribute the agendas and minutes separately.
C. Martin called the meeting to order.

CVHEC Guaranteed Transfer Associates Degree  
B. Scroggins  
Dr. Scroggins delivered an update to the Committee. Differences between this degree and the existing Transfer Studies Associates Degree include: all courses for the guaranteed transfer degree must be transferable and a higher minimum grade point average would be required to guarantee transfer. The way this new degree option might be realized is as a ‘higher standard’ option to the existing Transfer Studies Degree.  

Topic will reappear on the next agenda.  

V. NEW BUSINESS

Field Trips  
C. Martin, S. Collins  
If a field trip is required, the college must pay for the transportation costs for the trip. The college may ask for the student to pay for meals, etc. If a student says he cannot pay for the trip, that student cannot be prevented from going on the field trip. District money is not allowed to be used to pay for this student’s expenses.  
The Business Office has created a form that a student can use to get cleared to go on the trip if they have been unable to pay the cost of the trip.  
If a field trip is not required, total costs of the trip may be required of the student. In this case, the trip must be truly optional.  
Language used in course descriptions and syllabi must be clear.  
When maybe is checked on the course outline (section VI), a field trip can be required for a particular semester or section.  

Materials Fees  
C. Martin  
INDIS  61  Hollywood Today  
3 units  
FILM  153  Contemporary Film  
3 units  
The permissibility of charging students a fee to take these courses is in question. Steve cited some examples of how other colleges get around the issue of materials fees for these type of courses. Steve will continue to investigate this issues. He will put out a query on the CIO listserv. It was mentioned that if the class were offered as an online course, it would be ok to require students to go rent these movies (or perhaps borrow them from a library).

IV. OLD BUSINESS

Operations Report  C. Martin, T. West

Do we count vacant seats towards the quorum count? This will be investigated.

There was general discussion about deadlines. Would it possible to push back the catalog deadline to allow for more submissions to get into the catalog? What should the committee be doing after the catalog deadline passes? Lit & Lang is planning on using the post deadline period to submit courses that are falling out of compliance. Could the Summer/Fall schedules be unyoked so as to allow for a later deadline for the fall schedule? Why are these two schedules combined? Financial reasons? Advising purposes? Outreach? There was general agreement that the deadlines come too early.

Part of the uncertainty about the catalog deadline is that for the past couple of years one person had the responsibility to gather the data and to also create the document (catalog). Now, it is possibly going to be a two person operation wherein one person will gather the information and a second person will create the document. This second person has not been hired yet. The co-chairs will report back to the committee as to whether additional submissions beyond the established deadlines might be included in the catalog.

T. West suggested that the last meeting of the academic year be the catalog deadline so as to make the process cleaner.

Chairs will look into this issue further.

Prerequisites Subcommittee  B. Sanders, C. Martin

No report

Curriculum Manuals  T. West

Manuals will be redesigned to more resemble textbooks. These will be organized by topic. L. Senechal and T. West are meeting regularly to work on the manuals.

C or Better Requirement  C. Martin

Proposal has been pulled from Academic Senate agenda for revisions by originator. L. Senechal reported that no rule exists to ensure that a student earn a “C” or better in each of the courses for a given program nor does a student need a 2.0 GPA for the courses in a program. P. Mendes will follow up on this.

CVHEC Guaranteed Transfer Associates Degree  C. Martin

The Academic Senate at Stanislaus State has voted to approve the implementation of this agreement. The difference between this transfer degree and the existing transfer degree is that this one would eliminate the need for MJC students to meet our local graduation requirements such as guidance and activities and further, this degree has a higher GPA requirement.

Columbia College has voted against approval of the agreement due to the issue of the local requirements. Motion to recommend to the Academic Senate that this degree, with or without Columbia’s changes, be approved for MJC students. M/S/U

Field Trips  S. Collins

Sample language was provided to the committee. If a course is designed as a field trip (i.e. Field Studies) does this make the entire course a voluntary field trip? S. Collins and B. Sanders will discuss this question further. L. Senechal asked if the cost of field trips needs to be indicated in the catalog description.

Materials Fees  S. Collins

S. Collins has sent out a general inquiry and received back a few responses. Two responses indicated that the topic is under discussion and one response asked for clarification on the question.
V. NEW BUSINESS

Reading Competency Requirement  L. Senechal
Language in catalog will be modified to include completing the CSU/IGETC pattern as a means of satisfying the Reading Competency Requirement. M/S/U

SciGETC Breadth Pattern  L. Senechal
Committee members felt that this was a good thing. At the moment this is a proposal. IMPAC is looking for feedback.

AA degree in Spanish  T. West
Lit & Lang wants to define an A.A. degree for Spanish. The division wants to know how to go about this. Division will be asked to submit in catalog format. T. West will speak to division personnel to seek clarification.

Curriculum issues Advisory Committee query  T. West
The topic was not raised.

M/S/U to approve AGM 221

ANSC 250 Veterinary Physiology, Anatomy, & Terminology
Effective: Fall 2005
Modify: Title, other: textbooks
Sent back to Division
These ANSC courses are ‘Lecture courses’ but there seems to be a large laboratory component. In the course objectives, laboratory techniques are listed, but the courses do not give students the opportunity to actually practice these techniques. It is not financially feasible to hire licensed veterinarians to be the instructors for a laboratory class. The intent and means by which students satisfy these objectives is by being placed in a local veterinary practice. Adding Work Experience to the program as a co-requisite would smooth out some wrinkles but it would put the certificate over the 17 unit limit. One proposed solution would be to create a 0 units, 800 level, skills class modeled after NURSK 800.
M. Boyd will work on this further.

Modify: Hours, objectives, content, teaching methods, methods of evaluation, other: textbooks
Sent back to Division
Previous experience in instrumental music should be a limitation on enrollment, not a prerequisite. There was a question about the prerequisite skills and how they apply to instrumentalists other than string players. Is the title, “Orchestra” or “Chamber Orchestra?”

CMS Status Report / Forms Subcommittee  L. Senechal, B. Sanders
B. Sanders distributed and discussed a new Limitation on Enrollment form. B. Sanders will try to finalize form and work with Nursing Department to bring forward NURSE prerequisites on the new form. With regard to Learning Communities, the Curriculum Committee should be notified as to which communities are being offered each semester, and courses that are part of a learning community should have alternate sections for students who do not wish to be involved in the community. T. West will draft a MOU between the Curriculum Committee and the Learning Communities program.

Curriculum issues Advisory Committee query  T. West
Committee was informed about the proposed changes to the way programs are approved by the state.

V. NEW BUSINESS

Virtual Classroom Committee representative to Curriculum Committee  C. Martin
Should a delegate from the Virtual Classroom Committee sit as a voting member of the Curriculum Committee? As it is not a discipline, the committee felt that a member of the VCC would be welcome to attend, and might even be considered an advisory member of the Curriculum Committee (much as the Vice President of Instruction) but voting should be limited to Division Representatives.

Load on Outline/CAR  C. Martin, S. Collins
Load continues to be a confusing, problematic issue. The committee does not need to see this information. Can we think of a different way to provide this information to the Instruction Office? Perhaps an additional form for each course containing information that does not typically change such as load, TOP code, etc.

Executive Order 918  R. Cranley
FAQ about Lower-Division Transfer Pattern process

Faculty Curriculum Review Specialist
S. Collins, T. West
It was decided to have the entire Curriculum Committee elect the Specialist and to make that person a member of the Technical Review Committee. B. Sanders was elected to fill this position. This will appear on the Academic Senate agenda.

Curriculum Committee Mission Statement
S. Collins, T. West
Technical Review committee will work on a mission statement.

Calendar issues
S. Collins, T. West
Summer is first term of academic year
Can the catalog legally be made effective Fall to Fall? S. Collins will investigate. There was much opposition to the idea of moving deadlines earlier.

Representatives were asked to report back to their divisions regarding the question of deadlines/calendar issues and then bring feedback back to the committee.

Compliance Report
T. West, S. Fornelli
The reports were distributed to the committee members. The committee asked that the rule which requires ‘Out of Compliance’ courses to be forwarded to the Board of Trustees be suspended. There was general agreement that this be done.

Can time be set aside on Institute Day to work with Curriculum? There was much enthusiasm for working with Compliance Report courses during Institute Day.
Curriculum Committee Meeting

Minutes

Tuesday, March 01, 2005
West Campus, Yosemite 205, 2:40 PM

Members Present:  P. Bettencourt, R. Cranley, P. Guerra-Schmidt, C. Martin, K. Ennis, M. Garcia,

Others Present:  S. Fornelli, T. Lyle

No votes could be taken as there was no quorum. However, the following information was discussed.

An idea was presented regarding the setting of one day per semester (year?) wherein a division's curriculum
would be addressed/considered. Some anticipated advantages include: cohesion of courses for a given
meeting and clearly defined deadlines for each division. There was general opposition to this idea.
Another idea was to have one deadline for each semester and then the submissions would be ‘evenly’
distributed throughout the semester.

However, if a division has several dozen courses that need to go through for compliance issues as well as
several more courses that are being submitted for modification or adoption, having only one deadline for
submission of all these courses imposes too heavy a burden on the division rep. This burden is made even
worse by having the deadline excessively early.

We are one of the last schools to publish a catalog and class schedules. For recruitment purposes, it would
be advantageous to publish earlier. It appears that the date of the catalog publication will change.

T. Lyle was present to share information about the proposed change in the Area E requirement for
graduation.

The Academic Senate approved the creation of a Technical Review Specialist for the curriculum committee.

T. West presented the sample Table of Contents pages from the forthcoming curriculum manual. He asked
that the committee volunteer to work on developing content for different sections of the manual.

Catalogs were passed out so that the divisions could begin the revision process.

There has been a delay in completing the CMS. C. Vaughn will be unable to continue development. There
will be a meeting to discuss what to do about the CMS.
Curriculum Committee Meeting

Minutes

Tuesday, March 15, 2005
West Campus, Yosemite 205, 2:40 PM

Members Absent: J. Monast, C. Mulder, A. Pal, M. Robles, (Science Representative), J. Sola, C. Vaughn

Others Present: S. Fornelli, B. Scharffer, L. Senechal

The beginning of the meeting was dedicated to discussion of a proposed restructuring of deadlines and catalog/schedule publication. Proposal: **AUG 17 deadline for submissions for entire fall semester. Catalog to be published before end of spring semester and prior to, or at the same time as, the publication of the summer/fall schedule of classes.** In practical terms this means an APR 30 deadline for submissions in the fall. The committee generally felt that although they understood the desire for the change, it would make the process problematic. It has been discussed in previous committee meetings that the faculty should continue to be responsible for when courses are submitted and not to have a one deadline per semester policy. It was recommended that the catalog deadline be the last meeting in November. Submissions for this meeting would be approximately 4 weeks prior to the meeting date. There was general consensus for this idea. Co-chairs asked the representatives to come to the next meeting prepared to discuss this further.

V. OLD BUSINESS

Operations Report  C. Martin, T. West
Operations meetings recently have taken the form of specific topic meetings (e.g. CMS, forms, etc.).

CMS Status Report / Forms Subcommittee  L. Senechal, B. Sanders
C. Vaughn will not be able to complete the CMS in the near future. It has been decided that someone will be hired to complete the remaining work on the CMS. This will take place after the beginning of the next fiscal year.
L. Senechal asked if, during the period of waiting for the CMS to be completed and implemented, she should redesign the forms to be interactive, fill-in documents or if they should be more like reports that the CMS will generate. There was no answer at this meeting but it is hoped that a meeting that will take place on March 25 will help to resolve some of those question.

Prerequisite Subcommittee  B. Sanders, C. Martin

Curriculum Manuals (feedback)  T. West
L. Senechal is looking for committee members to create content for the next version of the Curriculum Manuals. Members who have knowledge in particular areas are encouraged to contribute to the manual.

Curriculum Committee Mission Statement  S. Collins, C. Martin, L. Senechal, T. West
After some revisions, the committee voted to send the proposed statement to the Academic Senate for approval.

VI. NEW BUSINESS

Memorandum of Understanding on Learning Communities  T. West
The Memorandum of Understanding on Learning Communities will be forwarded to the Academic Senate.

Revised Graduation Pattern  L. Senechal
The CVHEC Guaranteed Transfer Agreement Degree was clarified. It will be a third option for graduation alongside the existing transfer studies and occupational & technical studies degrees.

Health Education Waiver for Allied Health graduates  T. West
The committee voted to exempt students in the Allied Health programs from the area E. requirement of the MJC graduation pattern.

Technical Revision to CCC Inventory of Programs: General Education to Transfer Studies  R. Cranley
The committee was notified of the change in language.

Catalog revisions  L. Senechal
Due from committee members at the next meeting.

2+2 Policies and Procedures  R. Cranley
Committee was asked to review attached materials to discuss at the March 29 meeting.

Master Outlines  T. West
Microsoft Exchange Server 2003 does not appear to allow accessing Public Folders from home. The outlines stored in Master Outlines are not necessarily up to date. We need to standardize a means by which outlines are submitted. When (before or after approval) and how (electronically or paper file). There was a suggestion to separate the signatures from individual forms and create an endorsement page that would accompany course submissions.

L. Senechal indicated to the committee that oftentimes, an inactivated course can have a ripple effect with academic programs. That is to say, an inactivated course might still appear as a required or elective course within an academic program. A method needs to be devised to catch these occurrences so that the affected programs can be changed.
II. OLD BUSINESS

Requisites for several nursing courses were held over from a previous meeting. They were reintroduced on new forms. In general, the committee liked the forms. The forms subcommittee will try to incorporate suggestions made by the curriculum committee.

M/S/U to approve limitations for NURSE 260, 261, 262, 263, 264, 265, 266, and 267
M/S/U to approve new requisite and limitation forms

Operations Report

C. Martin, T. West

There was a meeting with C. Vaughn. It looks as though the CMS is close to completion. It’s preferable if an IT person already employed by the district is selected to complete the CMS. C. Vaughn will determine if a person is available. If someone from outside the district needs to be hired, it will have to wait until after the start of the new fiscal year.

Calendar Issues

L. Senechal

A proposed revision of the curriculum calendar was given to the committee. It proposed moving the deadline for all fall submissions to late August, early September. The committee once again expressed disapproval of this change. The committee was informed that the division secretaries supported the proposal. One member suggested that if there is a staffing issue, then that is what needs to be addressed, not changing deadlines. In general, the committee felt that having such an early deadline would prove to be too burdensome on the faculty who write the outlines. A compromise of a mid-October deadline for the following year’s catalog was suggested. This was more acceptable but still not embraced by the committee. One idea mentioned was to create a position in the Instruction Office for a curriculum secretary that would be responsible for working with faculty to create course outlines, CAR forms, etc.

Action: Send back to Instruction Office. Ask for another proposal.

Curriculum Manuals (feedback)

No feedback

Catalog revisions

L. Senechal

Copies of the 2004-2005 catalog were returned by division representatives.

2+2 Policies and Procedures

R. Cranley

There was a question about the MATH policy for 2+2 courses. Specifically regarding using AP test scores as satisfying requirements for MATH 122 2+2 credit. This will be looked into and this topic will appear on the next agenda.

III. NEW BUSINESS

Program Approval Guidelines (AA, AS, Certificate)

T. West

AA Degree: Spanish was provided as a model for program approval.

SLO Coordinator

C. Martin

Feedback was solicited regarding the proposed position. This topic will appear on the next agenda.

IV. OLD BUSINESS

Operations Report

C. Martin, T. West

Deadlines / meeting dates

T. West

A revised schedule of meeting dates and deadlines for the 2005-2006 was presented.
M/S/U to approve Motion (Lack of Quorum)

Catalog revisions

L. Senechal

Revisions are in process. An electronic version will go up on the website soon.

2+2 Policies and Procedures

R. Cranley

These were presented to the committee. These policies and practices reflect established practice but have never been ratified by the Curriculum Committee.

Very soon, we will not be allowed to use Social Security numbers for identification purposes. Ruth is waiting to hear from various sources as to how this issue is being addressed at other schools.

There was discussion about whether a 2+2 course could serve as a prerequisite to a higher level class. This has always been the case and will continue to be.

M/S/U to approve 2+2 policies and Procedures

SLO Coordinator

M. Sundquist, C. Martin

Several suggestions were made. The position should be open only to those current employees who meet minimum qualifications to be faculty members. The position should be clearly defined before a person is selected. Could the SLO Committee be a subcommittee of the Curriculum Committee? There was general approval for this last idea. The Academic Senate will need to be consulted.

Motion: Ask the SLO Committee to revise and clean up the proposal and job description and bring them back to the Curriculum Committee in the fall for possible implementation as early as spring of 2006. Further, ask that the Academic Senate not approve the job announcement until after the Curriculum Committee has revisited the issue.
M/S/U to approve Motion (Lack of Quorum)

Field Trips

B. Sanders

B. Sanders presented clarifications to the field trip policy. There are two different kinds of field trips; required and optional. If a trip is required, the district must pay for all costs for the trip. For a truly optional field trip, the student can be required to pay for the costs of the trip. This includes field studies classes. Field studies classes are voluntary in nature. Voluntary field trips can count for extra credit as long as a reasonable alternative is available to the students who cannot afford the trip.

Virtual Classroom Committee – “Regular and Effective Contact”

INTDS 210  Intro to Sales and Marketing for Design  3
Effective: Spring 2006
Adopt: Psychology of professional sales and introduction to marketing and business development. Increasing success in the workplace by building client relationships, understanding client needs and wants, finding a niche. Focus on marketing methods, branding, ethics, selling design services, professional development and networking, and the effective use of technology.
M/S/U to approve INTDS 210
A question was asked, “Isn’t there already a marketing course that would meet the needs of the Interior Design program?” Business representative replied that the relevant instructors had been consulted and they felt that this course was sufficiently different from existing marketing courses to justify its creation. There was also concern about the prominent use of the word ‘psychology’ in the catalog description. Is it likely that an interior design instructor would meet minimum qualifications to teach a psychology course? The division representative stated that ‘psychology’ really was the best term to use in the context of the course. The committee decided to approve the course based on the endorsement from the Business, Behavioral & Social Sciences division.

INTDS 230  Drafting for Interiors  3
Effective: Spring 2006
Adopt: Introduction to tools and techniques necessary for interior architectural drafting. Development of construction and installation drawing sets. (CCC Program Plan) Incorporation of space planning, ADA guidelines, building codes, and concepts of universal design in visual and oral presentation.
M/S/C to approve INTDS 230 (ayes: 11, nays: 6)
There were varying views as to how much overlap there was between this course and existing ARCH courses. There was concern that sufficient consultation with SME had not been done. An agreement was reached whereby the courses were approved with the understanding that additional consultation with the architectural drafting department must occur or the course will not be offered in the spring.

INTDS 250  Computer Aided Drafting/Design (CADD)  for Interior Design I  3
Effective: Spring 2006
Adopt: An overview and application of the basic skills and techniques of Computer Aided Drafting/Design (CADD) related to various careers in the field of interior design. Floor plans, space planning, evaluations, and client needs are emphasized. The principles and elements of design as well as the ADA and NKBA guidelines will be applied to interior architecture, layout, lighting, finish materials, and furnishings.
M/S/C to approve INTDS 250 (ayes: 11, nays: 6)

M/S/U to approve OFADM 330
In the future, repeats for courses such as OFADM 330 can be handled by assigning a new static id number to the course whenever a software upgrade makes a repetition valuable. Currently, Colleague does not check against the static id number.

V. NEW BUSINESS

Field Trip Guidelines and Field Trip Form
B. Sanders
Proposed field trip guidelines were distributed to the committee. Committee members will review and share the proposed guidelines with their areas and this topic will reappear on a future agenda.
M/S/U to approve a policy whereby all incidental and transportation costs for voluntary field trips and voluntary field studies classes will be passed on to the participating students

New Materials Fee Form
B. Sanders
M/S/U to approve new form

Guidelines for Repeatable Courses
B. Sanders
Proposed guidelines for repeatability were presented to the committee.
M/S/U to approve form

Defining the process for bringing forth new disciplines/departments
L. Senechal
L. Senechal will research procedures and requirements and report back to the committee. B. Sanders has experience in developing new disciplines.

Virtual Classroom Committee – Regular & Effective Contact
T. West
VCC has submitted a proposed definition for what would constitute regular and effective contact for a course with technology mediated instruction. Some committee members expressed concern at the different requirements for online classes and traditional classes. It may be that a forthcoming revision of the course outline will incorporate the elements of the current TMI form.

IV. OLD BUSINESS

Defining the process for bringing forth new disciplines/departments  L. Senechal
P. Mendez will document his efforts to establish a new discipline, CONST.

Virtual Classroom Committee – Regular & Effective Contact  T. West
Language for Regular and Effective Contact was proposed as follows:

California Ed. Code and Title 5 regulations require that distance ed. courses include regular and effective contact between instructor and students. “Regular and effective contact is the exchange of information between instructor and student that disseminates information including curriculum content and course procedures and policies, allows students to address individual concerns that may arise with meeting the course objective, and provides feedback to students on their progress in meeting these objectives.”

There was discussion about whether or not to include this language for every course, not just online.

The topic will appear on the next agenda

Location of website  T. West
The website will be moved to a location that will be accessible from off campus.

Field Trip Guidelines and Field Trip Form  B. Sanders
A policy previously passed by the Curriculum Committee regarding cost for voluntary field trips has met with resistance at the district level. J. Sahlman will discuss this at Academic Senate.

Minor vs. major changes to course outlines  T. West
Currently, any change to a course triggers a full review by the committee. Are there some changes that shouldn’t trigger a full review? For example, if a title is being shortened to fit in the Datatel system, could that take place without any scrutiny of the content or objectives and also not change the date for purposes of periodic review?

Could a category of review be created that allows for technical changes but does not change the date for periodic review and does not open the course for full review?

T. West will work on this and the topic will be brought up at the next meeting.
V. NEW BUSINESS

Rationales
J. Sahlman
Rationales are sometimes too vague. Committee members were reminded that for every action requested, a corresponding rationale should be provided. This will be very helpful when looking at these changes in the future and trying to understand why a change was made. In the spring, a clearer rationale will be expected for each course submitted. For the next few meetings, no courses will be sent back for only rationale questions, but any course that is sent back for other reasons may also request an expanded rationale.

Drop vs. Inactivate
J. Sahlman
What is the difference between these two action items? Inactivating a course allows it to be reactivated whereas dropping a course requires adopting a new course to get it back. But is there a difference between reactivating a course and adopting a new course in terms of how the committee reviews a submission?

Questions

- If a course is dropped, does the course number become available sooner than if the course is inactivated?
  That is not clear.
- If a course is inactivated, can it be reactivated with a different number or content?
  Unknown.
- If a course is inactivated, does it appear in the catalog the next year?
  No.
- Does the inactivation expire (become dropped)?
  Not to anyone’s knowledge and not in practice.
- If a student takes a course that satisfies a prerequisite, then is out of school for a period of time sufficient to lose catalog rights, and during the interim that course is inactivated, can the student still be considered to have met the prerequisite?
  Unknown. These are appropriate questions for the ongoing discussions on how to handle prerequisites.
- If a course is inactive longer than the 6 year review cycle, might it still count towards serving as a prerequisite?
  Unknown. These are appropriate questions for the ongoing discussions on how to handle prerequisites.
- Is there a policy on when a course should be inactivated?
  If a course hasn’t been offered in two years.
- Should we even have a ‘drop’ category (because the Datatel system doesn’t account for a drop category)?
  J. Sahlman will research and follow up.

Periodic review of programs
T. West
The committee should be reviewing degree and certificate programs as well as courses. T. West will work on this topic and distribute information to the committee. A committee was formed to begin looking at how the committee will review programs.

Stand alone guidelines
J. Johnson
A state document on moving stand alone approval to the local (district) level was presented.

L. Senechal gave an update on the status of the development of the CMS system.

L. Senechal reported that the Instruction Office will be conducting an audit of prerequisites before spring registration.

I. APPROVAL OF ORDER OF AGENDA
M/S/C to approve the order of agenda

II. APPROVAL OF MINUTES
October 04, 2005
M/S/C to approve the minutes of 10/4/2005
Clarification made to minutes regarding the rationale discussion. No new policy is in place, courses will not be rejected from technical review solely because of rationale issues.

Field Trip Guidelines and Field Trip Form  B. Sanders
Nothing to report.

Minor vs. major changes to course outlines  T. West
Nothing to report.

Drop vs. Inactivate  J. Sahlman
Nothing to report.

IX. NEW BUSINESS

Limiting Curriculum Agendas  J. Sahlman
There was discussion on the size of agendas. Some are very large, some are quite small. It was noted
that this is not a new problem. Past incarnations of the committee has wrestled with this problem as
well. Some observations: The compressed calendar means there are fewer months in which to meet.
We now have fewer meetings per month. Moving the catalog deadline and the renewed attention to
compliance issues together have driven up the number of courses that the committee is looking at this
fall. Some ideas: Make everything due all at once and parcel out submissions over the course of a
semester. Allocate additional resources to Office of Instruction. Secure reassigned time for committee
members. Connect course review to program review.
No decision made as to this issue. It will appear on future agendas.

V. OLD BUSINESS

Defining the process for bringing forth new disciplines/departments  L. Senechal
Pushed to Feb 7 agenda.

Virtual Classroom Committee – New TMI form  T. West
Pushed to Feb 7 agenda.

Minor vs. major changes to course outlines  T. West
Committee will discuss at a future meeting if there are some types of revisions to courses that would not
reset the 5 year review cycle.

Drop vs. Inactivate  J. Sahlman
R. Cranley shared some reasons why courses should not be dropped.

VI. NEW BUSINESS

APA Guidelines  J. Sahlman
The committee is not so much concerned about what citation style to use as it is about the information
appearing in a consistent manner. The style does not matter for articulation purposes. The committee wants
to see: author, title, year of publication, and if necessary, edition.

LDTP (Lower Division Transfer Pattern)  R. Cranley
R. Cranley presented information about a new transfer path for CSU that will take effect Fall 2007.

Advanced Placement (AP) Credit Grid  R. Cranley
R. Cranley presented an updated AP Credit grid.
Indicate to CIS to include in catalog (pg 58) AP scores as meeting competencies for graduation.
Motion: To approve the revised grid (including the forthcoming resolution to the Art History and Calculus
questions).
M/S/U to approve

Limiting Curriculum Agendas  J. Sahlman
The committee decided not to try to limit the size of agendas in any formal way.
Developing an institutional style for the writing of requisites (P, C, A)  
L. Senechal / J. Sahlman

The committee authorized CIS to reword requisites in the catalog to provide consistency. Topic pushed to next agenda.

Authentication of non-course requisites  
J. Sahlman
Tabled

Authentication of Competencies for Certificate Programs  
J. Sahlman
Tabled

New forms – Drafts  
L. Senechal 211

New forms were presented to general approval by the committee. Suggestion: Move catalog description to Other Elements or give it its own box. Same with Limitation on Enrollment. There is not room for existing version and proposed version. Clarify inactivate vs. drop. Temporarily inactivate leads one to wonder about permanently inactivating.

Dates and Deadlines for 2006-2007  
L. Senechal 219

The committee was asked their opinion about taking a break from the curriculum process. A break would allow a revision of the process to clean it up.

A vote on this subject could not be taken as there was no quorum present.

X. PUBLIC COMMENT
Curriculum Committee Meeting

Minutes

Tuesday, December 5, 2006
West Campus, Yosemite 205, 2:40 PM

Others Present: K. Alavezos, N. Backlund, S. Fornelli, E. Mo, D. Yarnal

I. APPROVAL OF ORDER OF AGENDA

There were the following adjustments:
To move discussion of OFADM 364 to just prior to the Notification Agenda.
To move discussion of Honors Program to just after OFADM 364.
To move discussion regarding the use of the word assessment to just after Honors Program.

J. Sahlman asked that the meeting end no later than 4:30 to allow members to attend a separate meeting to showcase the features of CurricuNet. The college administration and the academic senate want to make a decision about which direction to proceed with regard to computer-based curriculum development. What will be more cost effective? Is it better to continue to develop CurricuWeb or to move to a different program/process, e.g. CurricuNet?

Hearing no objection, the revised order is approved.

II. APPROVAL OF MINUTES

November 14, 2006

Hearing no objection, the minutes are approved as corrected.

III. NOTIFICATION

Corrections to Nov. 14 Agenda Cover Sheet, revision posted to the Curriculum Website

VIII. NEW BUSINESS

Separate approval process for distance education courses (ASCCC)  B. Adams
Distance education modalities and face-to-face modality need to be approved separately. The committee will vote on DE modalities separately.

Use of the word “assessment” as it relates to Title V  J. Sahlman
Pushed to January 09, 2007 agenda

Honors Program/Course (INDIS 100)  E. Mo
E. Mo distributed a packet about the forthcoming Honors Program. She discussed where ideas for the program have come from. She also talked about what would go into an ‘honors’ course.

Regarding INDIS 100, the committee felt that there should be a more defined Honors Program before there can be an honors course.

The committee will take time to review the materials that were distributed and discuss the topic further at a future meeting.

Challenge Process  B. Sanders
Pushed to January 09, 2007 agenda

Pre-requisites for Foreign Language courses (2 yrs HS For. Lang.)  R. Cranley
For articulation purposes, the catalog needs to indicate that the prerequisite for foreign language classes can be satisfied by completing an appropriate number of years of study in that language at the high school level. Therefore, all foreign language classes (FREN, GERM, SIGN, SPAN) at the 102, 103, and 104 level will reflect high school classes as an option for completing the prerequisite using the following model:

“FREN 102 – (P) Successful completion of (FREN 101 or 2 years of high school French.)”

This was later changed to “Satisfactory completion of…” to conform to existing conventions.

Review of Non-Credit Courses, and future reporting with CurricuWeb  B. Sanders
Pushed to January 09, 2007 agenda

IX. PUBLIC COMMENT
Curriculum Committee Meeting

Minutes

Tuesday, January 09, 2007
West Campus, Yosemite 205, 2:40 PM

Members Absent:  K. Doyle, K. Ennis, L. Maki, J. Monast, M. Robles

Others Present:  S. Fornelli, D. Yarnal

I. APPROVAL OF ORDER OF AGENDA

Hearing no objection, order is approved.

II. APPROVAL OF MINUTES  December 05, 2006

Hearing no objection, the minutes are approved as corrected

III. NOTIFICATION

Spring 2007 Meetings and Deadlines  B. Adams
Representatives were asked to remind their constituents that there are many courses that are due for periodic review.

IV. DISCUSSION

PE  109  Peak Performance Through Mental Training
Effective:  Requested for Summer '07
Last Updated:  3/30/04
Modify:  Requesting approval for on-line modality to begin Summer '07
Restrictions:  None
DE:  On-line requested
M/S/U to approve expedited offering of PE 109 via the online modality (B. Sanders)

STSK  120  Success Strategies for Transfer Students
Effective:  Requested for Summer '07
Last Updated:  11/22/05
Modify:  Requesting approval for on-line modality to begin Summer '07
Restrictions:  Eligibility for ENGL 101 and a reading score of 10 (35th percentile)
DE:  On-line requested
M/S/U to approve expedited offering of STSK 120 via the online modality (B. Sanders)
V. UNFINISHED BUSINESS

Special Topics, Experimental, Independent Study and Work Experience  
B. Sanders  
A subcommittee was formed to examine the guidelines concerning these types of courses. Members of the subcommittee include: S. Fornelli, P. Guerra-Schmidt, P. Mendes, J. Sola.

Emergency Approval Procedures  
B. Adams/J. Monast  
The committee discussed which circumstances would qualify for emergency approval. There was some concern that in defining the circumstances for emergency approval, other worthy circumstances would be left out. Some specific suggestions were made about how to include TMI/DE in these procedures. B. Adams will take the committee's suggestions and supply a revised set of procedures for the committee to examine.

Increased Math and English requirements  
B. Sanders  
Many faculty members have begun (or will soon be) working on developing new courses to address the changes in Math and English requirements. A previously formed subcommittee will meet to discuss this issue.

VI. NEW BUSINESS

Use of the word “assessment” as it relates to Title V  
J. Sahlman  
Is the use of the word, “assessment” confusing? Is it the intent that the course outline be more understandable by the general public? A question was asked about whether both formative and summative assessments are required. Recollection was that the Academic Senate decided to require one or the other but not both. The intention for the assessments section of the outline is that the listed methods are to be considered ‘typical’ unless followed by the designation, ‘required’. J. Sahlman will check with secretary of AS to get clarification as to what was decided there.

Several committee members expressed displeasure with the short notice given for the presentation of CurricuNet in December.

Challenge Process  
B. Sanders  
An example of a challenge process used by the committee in the past was presented. However, the issue that brought this topic to the committee’s attention has already been resolved.

Review of Non-Credit courses, and future reporting with CurricuWeb  
B. Sanders  
B. Sanders presented a vision of how CurricuWeb will handle non-credit courses.

VII. PUBLIC COMMENT

The committee agreed to use the most recently approved TMI form for courses that courses that wish to add DE modalities provided said courses are not already up for review and thus are not already entered in CurricuWeb.

A discussion of the future of CurricuWeb took place. We will continue to be in a holding pattern until the college president has an opportunity to do a cost benefit analysis on the relative values of CurricuWeb and CurricuNet.

Several members asked that the curriculum committee formally state a position on the direction in which to proceed.

The committee asked for a list of future additions to CurricuWeb and a timeline for implementation.
I. APPROVAL OF ORDER OF AGENDA

Move ESL Certificate to Discussion Agenda.
Hearing no objection, revised order is approved.

II. APPROVAL OF MINUTES

Correction: “Committee agreed to use the most recently approved TMI form for courses that courses that wish to add DE modalities provided said courses are not already up for review and thus are not already entered in CurricuWeb.”
Hearing no objection, the minutes are approved as corrected

Curriculum Management System Update  
J. Sahlman

J. Sahlman reported on a pair of meetings that had recently taken place regarding the use and future of CurricuWeb. Development of CurricuWeb has been halted until a determination can be made as to what are the needs of the college and what are the costs of several options for curriculum development. A pair of Computer Science faculty were there to point out to the committee some of the flaws in CurricuWeb and to offer their expert assistance in developing the system (if that's the direction the college goes.) The general consensus was that the college should continue to use CurricuWeb even while it is being developed.

Motion (D. Keller): To indicate to Dr. Rose that the committee would like the design/development/implementation of CurricuWeb to be completed. M/S/C to approve.

Motion (D. Keller): To Require courses to be submitted through CurricuWeb and when problems with input are encountered, to have the Instruction Office fill in the blanks. No second.

V. UNFINISHED BUSINESS

Emergency Approval Procedures  
B. Adams/J. Monast
A draft of the subcommittee's work was distributed. Members were asked to review and forward comments to B. Adams to incorporate into next draft.

Use of the word “assessment” as it relates to Title V  
J. Sahlman
The committee voted to reaffirm its position in support of requiring both formative and summative assessments for every course. M/S/U to approve (B.J. Wells). J. Sahlman will take back to Academic Senate.

Math and English Requirement Changes Sub-Committee  
B. Sanders
Vocational areas will use ENGL 101 as the course which meets the higher English requirement. New MATH courses will be developed to meet forthcoming needs.

Special Topics, Experimental, Independent Study & Work Experience Sub-Committee  
P. Mendez
In P. Mendez's absence, S. Fornelli reported on the sub-committee's progress. Some work has been done on Special Topics. Experimental, Independent Study, and Work Experience questions remain.
VI. NEW BUSINESS

SME Compliance Report B. Sanders/L. Maki
Extension Request for Engineering Program
Due to a complete turnover in Engineering faculty, the SME Division asked for a 2 year extension for new faculty to update ENGR and ENGTC courses and programs. M/S/U to approve extension (B. Sanders)

Curriculum Calendar 2007-2008 B. Adams
A copy of the upcoming academic calendar was not available at the meeting. This topic will appear on the next agenda.

Assist R. Cranley
R. Cranley demonstrated to the committee how faculty and staff can access some new features of Assist.org.

ADA Compliance in Courses J. Sahlman
The committee was asked to consider whether it has any role in ensuring ADA compliance for online courses. The matter will be redirected to the Dean of Instructional Services.

VII. PUBLIC COMMENT

Committee members were asked to forward their catalog revisions to D. Yarnal as soon as possible.
I. APPROVAL OF ORDER OF AGENDA

Move New Business items to just after Approval of Minutes.

Hearing no objection, revised order is approved.

II. APPROVAL OF MINUTES

February 06, 2007

There was a question about the February 06 minutes. Instruction staff will investigate.

The minutes were not approved. They will reappear in April with corrections if necessary.

VI. UNFINISHED BUSINESS

Expeditied Approval Procedures B. Adams 379
There was much discussion about how expedited approval can meet the needs of areas like Workforce Training. Some wording changes were suggested.
M/S/U (C. Redwing) to approve change to item three: To facilitate unexpected opportunities for public or private sector partnerships except as noted below.” and change it to item four. Also fourth item under procedures to read as follows: “For requesting DE modality only for an existent compliant course not already on CurricuWeb, complete steps 2 through 4.”

Math and English Requirement Changes Subcommittee B. Sanders
No report

Special Topics Subcommittee P. Mendez
No report

Curriculum Calendar 2007-2008 B. Adams 383

Curriculum Management System Update J. Sahlman
A committee has been created to review the merits of CurricuWeb and CurricuNet. G. Rose and T. Clarke are among the members of this committee.

Honors Program E. Mo 385
E. Mo gave a presentation of the forthcoming Honors Program. The committee was generally supportive of what was presented and commended Eva for her work. They asked for additional information to be presented that will show how the program will look in the MJC catalog.
M/S/P (C. Redwing) to approve the Honors Program in concept.
E. Mo will work with Instruction Office to craft catalog pages for the Honors Program.

VII. NEW BUSINESS

Time Limit on Catalog Rights S. Agostini
What happens when students have continuous enrollment but the degree for which they are applying is no longer offered? What happens when students change majors? Do they have catalog rights from the first year of enrollment or from when the major was declared?
The committee was asked to discuss these issues and provide direction to the admissions office.

Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities S. Agostini/R. Cranley
Existing MJC policy: Students who have a bachelor’s degree from an accredited university will be given a waiver from meeting basic degree requirements from plan A for graduation. Competency testing also is waived. Competency waiver includes guidance, activities, & general education requirements.
Chancellor’s Office suggests not ‘waiving’ requirements but rather ‘substituting’ requirements. This leads to the question, “Should it be a blanket substitution or a course by course substitution?” What if a student received a BA in 1970 that didn’t require him to take a laboratory science class?

How should MJC handle similar situations with regard to foreign universities? MJC has never recognized degrees awarded from foreign universities. The reason for this is unclear. Course by course substitutions are made as determined by the evaluators. Should it be the evaluators who do this or should it go out to the divisions for a decision?
Should MJC continue to require the last 12 units to be completed in residence?
M/S/ to approve (R. Cranley) changing policy to “At least 12 semester units must be completed in residence for MJC to award degree.”
J. Sahlman volunteered to draft this in the form of a resolution for the Academic Senate.
M/S/U (R. Cranley) to refer matter to a committee consisting of R. Cranley, M. Garcia, B. Adams, M. Robles

IV. CONSENT

NURSE 350  Vocational Nurse 1  14
Effective Summer 2007 (Expedited)
Modify: Materials Fee added after prior approval
Restrictions: (L) Enrollment limited to those admitted to the CNA to LVN program.
Hearing no objection, the Consent Agenda is approved.

The following topics were taken out of order at the permission of the committee.

Honors Program  E. Mo
E. Mo presented an outline of the Honors Program. There was some discussion and a few minor changes. No motion was made and no vote was taken. The committee seemed satisfied with the work E. Mo had done.

Baseline Workload / YFA Issues  C. Hudelson-Putnam
Changing hours of courses can have an impact on load. The YFA contract specifies a number of classes that an instructor should teach per year whereas instructors are paid based on load which is determined by the number of hours of student contact.

Calculating Units for Field Studies  B. Sanders
Guidelines for granting units for field studies were presented.
M/S/U to approve (B. Sanders)

VI. UNFINISHED BUSINESS

**Expeditend Approval Procedures** B. Adams 185

M/S/U (D. Keller) to approve Draft #4 of expedited approval guidelines with revisions, notably adding “Curriculum Rep from area of concern” after Curriculum Specialist in Step 2 and an appeals process. K. Walters Dunlap will follow-up with Academic Senate President to discuss the role of Academic Senate in appeals process. B. Adams will work with S. Fornelli to create form for faculty members requesting expedited approval to complete which addresses concerns about expedited course approval on student catalog rights and degree requirements.

**Math and English Requirement Changes Subcommittee** B. Sanders

*No report.*

**Special Topics, Experimental, Independent, Work-Experience Course Development and Approval Guidelines** P. Mendez

P. Mendez addressed the committee with an update on subcommittee progress. While the committee demonstrated considerable progress on Special Topics, they had not yet addressed Experimental Courses, Independent Study, and Wk-Experience. He requested more time. There were no objections.

**Curriculum Calendar 2007-2008 - Revised** B. Adams

B. Adams announced that the curriculum meeting dates and deadlines previously distributed in the Curriculum Committee Representative manual were to be replaced by a new calendar which was distributed at the meeting. She drew attention to three new meeting dates added during the spring (January 29, February 26, and March 25) which will be used for training, CurricUNET, and policy discussion. She emphasized that quorum on these dates would be essential.

**CurricuWeb – Usage issues for 2007-2008** L. Senechal/K. Walters-Dunlap

K. Walters Dunlap is to discuss CurricUNET implementation with a CurricUNET representative Friday, September 21. The committee raised a specific concern about CurricUNET’s previous offer to move not only MJC course outlines into CurricUNET, but also CurricuWeb course outlines into CurricUNET. A CurricUNET representative had shared with L. Senechal at the July 2007 Curriculum Institute that CurricUNET may not be able to convert CurricuWeb data. Some representatives voiced concern that conversion of CurricuWeb data and Microsoft Word outlines was one of the selling points of the CurricUNET products.

P. Guerra Schmidt expressed concern about faculty ability to access course outlines approved last year in CurricuWeb. Faculty on campus are very interested in getting access to those outlines to modify them in time for the 2008-2009 catalog deadline. K. Walters Dunlap shared that L. Senechal is to provide her a list of functions missing in CurricuWeb that are impeding normal curriculum support and productivity. K. Walters Dunlap will meet with Gina Rose, Chancellor of Information Technology to discuss possible
solutions to these issues. L. Senechal shared that one solution G. Rose has proposed to ease reporting problems is a query builder. K. Walters Dunlap will update the committee at the next meeting.

**Time Limit on Catalog Rights**

S. Agostini

S. Agostini was not present to discuss this issue, but an email from R. Cranley sent to the Curriculum Co-Chairs stating “Time limits on catalog rights and Satisfaction of GE and competency requirements…” will be referred to the Academic Standards Subcommittee now being formed by the Academic Senate.”

B. Sanders expressed concern that this committee is less oriented to such institutional technical academic policy. Those things traditionally come through the Curriculum Committee because of their technical nature.

**Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities**

S. Agostini/R. Cranley

**VII. NEW BUSINESS**

**Composition of the Committee**

B. Adams

B. Adams asked that the committee review the current Composition and Structure of the Curriculum Committee for a number of reasons. “Is it working most effectively to meet our needs at an institutional and divisional level?” L. Senechal added that Susie Agostini’s past representation helped bring matriculation issues to the attention of the committee during course approval. Currently, the committee does not have an expert on issues relating to matriculation, transcripts, records, and the student module Datatel. L. Senechal had proposed that an evaluator sit on the committee as a non-voting member to address such issues before the vote. B. Sanders stated the meetings are open meetings, and it is possible to have an evaluator at meetings without changing the membership structure of the committee. B. Adams asked the committee to review the entire issue and be prepared to discuss at a later meeting.

**Academic Integrity Policy in the Catalog**

M. Adams

Mike Adams shared that the academic integrity policy is incorrect in the catalog and that we are out of compliance with certain legal statutes. Effective 2008-2009, the policy will be updated to read:

> The grading of a student’s work rests on the fundamental idea that an instructor is evaluating a student’s own work, so cheating or plagiarism demonstrates a failure to complete this most basic requirement of any course. Thus a faculty member may administer academic consequences for violating the Academic Integrity Policy ranging from partial credit to an F on the assignment or exam. The instructor may also consider that a student’s violation of academic integrity should be a consideration for disciplinary measures. Disciplinary action for violating academic integrity is administered through the Office of Student Success under Board Policy 5500 Standards of Conduct.

**VIII. PUBLIC COMMENT**

There was no public comment.
Curriculum Committee Meeting

Minutes

Tuesday, October 09, 2007
West Campus, Yosemite 205, 2:40 PM

IV. DISCUSSION (cont’d)

GUIDE  120  Success Strategies for Transfer Students  1  97
Note: STSK 120 cross-listing will be inactivated on 10/23 due to incompatibility with the TOP inventory and guidelines. STSK courses are intended to be “two levels below transfer.” It is believed that a change in discipline will remedy this.)

REACTIVATE
Effective: Spring 2008 (EXPEDITED!)
Modify: Discipline, Teaching Modalities, Learning Goals, Enrollment Restrictions, Course Goal, Course Content, Typical Assignments, Methods of Instruction, Methods of Assessment
Enrollment Restrictions: No enrollment restrictions.
TMI: Requesting approval for online modality.
Materials Fees: No fee required.
Articulation Status: STSK 120 approved for transfer to UC. Transfers to CSU. Will need to request transfer to UC for GUIDE 120.
General Education Status: Does not fulfill GE requirement. STSK 120 approved for Guidance

M/S/U to approve (C. Mulder, D. Keller) GUIDE 120 as reactivated and modified. M/S/U to approve (D. Keller, C. Mulder) online modality TMI for GUIDE 120. M/S/U to approve (K. Ennis, G. Boodrookas) expedited implementation for reactivations and modifications to GUIDE 120

JRNAL  100  Report Writing for the Media  3  N/A
Effective: Summer 2008
Modify: Enrollment Restrictions, Description, Course Goal, Learning Goals, Content, Typical Assignments, Methods of Instruction, Methods of Assessment, Textbooks
Enrollment Restrictions: (P): Eligibility for ENGL 101
TMI Status: Not approved for TMI modalities.
Materials Fee Status: No fee required.
Articulation Status: Currently approved for Transfer to UC, but will lose transferability if (P) is not changed to the above. Transfers to CSU. Requesting that transferability to UC. Will resubmit in October 2007.
General Education Status: Does not fulfill GE requirement.

M/S/U to approve (D. Keller, M. Garcia) JRNAL 100 as modified with the condition that the faculty author revise minor errors by the next meeting. D. Keller will follow up with L. Paull to discuss the errors which include a stylistic revision to the COURSE GOAL, language change away from “basic skill development” since this is a transfer-level course, and some minor typographical errors. This exception was made because of the emergency nature of the course revisions.

M/S/U to approve (D. Keller, K. Ennis) the prerequisite for JRNAL 100.

PE  100  Introduction to Physical Education  3  107
Effective: Spring 2008 (EXPEDITED!)
TMI Approval Only: Requesting online modality.
Articulation Status: Transfers to CSU. Approved for transfer to UC.
General Education Status: (Does not fulfill GE requirement)

M/S/U to postpone discussion and approval of TMI for PE 100 until 10/23/06 due to
questions about on-campus discussion for a strictly online modality.

V. OLD BUSINESS

Expedited Approval Procedures – Revised Draft  
B. Adams

B. Adams drew attention to the revised Expedited Approval Procedures and reported that the Academic Senate does not believe that it would be appropriate nor in the best interests of students/curriculum for Senate to play a role in emergency approvals, largely in part because of the expediency of action required and how expedited approvals would be slowed by the Academic Senate meeting schedule. It was recommended that it stay within the hands of the Curriculum Committee or that the committee determine whether administration play a role. There was concern about whether the Vice President role would handle a faculty-driven process consistently and appropriately in the future. However, it was countered that the Vice President may have a more global and immediate understanding on the positive or negative impacts of expedited actions on programs and enrollment. B. Adams emphasized the importance of the future form and rationale for expedited approval, which will require faculty to evaluate the positive and possible negative effects of expedited approval on things such as catalog rights and programs.

Recording Instruction Office Action Outside of Process as Notification on Agendas.  
B. Adams reminded the committee that she and L. Senechal were also reflecting on the agendas technical items that are modified on an emergency basis by the Instruction Office outside of process because of special circumstances (e.g. 09/18/07 Curriculum Agenda.) The goal is to have record of why/when such changes take place. D. Keller pointed out that it should be assumed that – if anything occurs outside of process that the committee does not approve – it can be reverted back to it’s original form. There were no objections.

Minutes and Information Distributed Campus-Wide
A few committee verbalized appreciation for the minutes being distributed campus-wide after meetings, saying that it was “constructive” for colleagues to see what the committee is doing and to have more direct access to information. Some members asked that essential information also accompany the emails, for example, Title 5 language regarding changes to approval processes. This way, one member commented, faculty will see that changes are not being driven by the committee, rather, that this is coming from the State.

The curriculum committee unanimously voted to recommend the revised Expedited Approval Procedures and forward them to the Academic Senate for approval.

Math and English Requirement Changes Subcommittee  
B. Sanders

B. Sanders reported that – while the Subcommittee has not met – the Math department has met to discuss potential courses that could be used to meet the needs of students trying to earn an associate degree without transfer.

V. OLD BUSINESS (cont’d)

CurricWeb – Usage issues for 2007-2008 – Update

K. Walters Dunlap reported that she met with L. Senechal to discuss CurricWeb issues to determine if any solutions could be found to the problems faced by the committee. She shared that IT is swamped with R-18 (Datatel) and will not be able to do any programming to fix the issues, nor should it be their priority given that the college is moving forward with CurricUNET. L. Senechal shared that the problems being experienced are largely due to features that were never developed, for example, courses that are “approved for live” but never were moved into active mode, and the archiving that would be required to monitor versions of courses. B. Sinclair expressed concern about the fact that some faculty are feeling “why bother” with revising courses close to non-compliance – if they are to be held to a different standard and process with CurricUNET. K. Waters Dunlap and L. Senechal clarified that CurricUNET is developed to our specifications, CurricUNET will work the way we develop it to work. L. Senechal did point out that the one major difference is that CurricUNET will not have the conditional interface which allows end-users to only interact with steps that apply to them. CurricUNET will expose end users to all curriculum variables. This will likely impact how faculty perceive the experience/process to be different.

CurricUNET – Update

K. Walters-Dunlap

CurricUNET is looking to implement the system in Spring of 2008. K. Walters Dunlap said that that is incumbent upon CurricUNET getting the materials they need from Instruction. She shared that L. Senechal was gathering materials to mail to CurricUNET.

Time Limit on Catalog Rights and Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities

R. Cranley

R. Cranley shared that this curriculum subcommittee will meet at 3pm on October 16. The committee includes: Ruth Cranley, Susie Agostini, Martha Robles, Marcos Garcia, and Barbara Adams.

Composition of the Committee

B. Adams

B. Adams asked the committee to redirect their attention to the composition of the committee, by reviewing page 1-7 of the representatives’ Curriculum Meeting Manual. She mentioned that this has not been reviewed in some time, and it could be in the interest of the committee to acknowledge that the topic has been re-evaluated – even if there is no change.

S. Fornelli drew attention to the fact that the ASMJC Representative has not been selected nor present recently, even though he has invited their participation. K. Walters Dunlap reminded the committee that students have a right to participate on this committee. L. Senechal asked if students have to be ASMJC members to participate, and could there be some sort of campus-wide recruitment campaign? The committee largely agreed that it was an important role. It was suggested that the VP of Instruction or the Curriculum Committee co-chairs play a larger role in eliciting participation.

S. Fornelli also asked for clarification as to whether vacant representative seats count against committee quorum. No one had a response.

Committee members expressed confusion about why certain academic divisions were split in two in terms of representatives on pages 1-8 (e.g. Lit. and Language “ with a representative identified as “Language/Basic Skills” and another identified as “Literature.”) Committee members expressed that they wanted the sub-identifiers removed since roles are determined internally as representatives change.
V. OLD BUSINESS (cont’d)

B. Sanders reminded the committee of the original reason why this topic was raised, which was the fact that matriculation was not well-represented on the committee to monitor technical issues in curriculum development. L. Senechal shared that H. Gillis, Evaluator, has expressed interest in attending meetings to provide information. K. Walters Dunlap will discuss the matriculation representation issue with R. Nadell, VP of Student Services.

While there was no resolution on garnering ASMJC Representation and technicalities of quorum, the curriculum “Membership and Structure of the Curriculum Committee” document will be updated in 2008-2009 to reflect no sub-representation.

VI. NEW BUSINESS

Title 5 Revisions: Planning for Implementation

Certificates

B. Adams called attention to new Title 5 language showing the directive from the state to overhaul the titles and approval processes for certificates. Discussion ensued about timelines for responding and implementation. L. Senechal shared that the catalog must go to print on February 15, so it changes definitely need to be approved by that date. She called attention to what happened with the implementation of CVHEC in that there were differing interpretations of how the program was supposed to work that only became visible upon seeing it represented in catalog format which resulted in some complications. Because making changes throughout the catalog in terms of technical content and design can be laborious and time intensive. B. Sanders reminded the committee that a grade of C or better in every course will now be required to earn a certificate or degree. This is a change from the 2.0 GPA requirement that is currently in effect campus-wide.

Mandatory Correspondence of Units and Hours:

Title 5 section 55002.5 Revisions

B. Sanders reminded the committee of the other revisions that are slated for 2008, which include the fact that hours and units must correspond on outlines. B. Sanders advised that the Curriculum Committee must prepare and finalize a proposal for implementation which must be brought to the Academic Senate for review and approval before proceeding with implementation.

VII. PUBLIC COMMENT

Hospitality at Curriculum Meetings

L. Senechal informed the committee that there are no longer funds available for refreshments at Curriculum Committee meetings. B. Adams asked the committee if they wished to have refreshments, and the majority commented that they were not necessary.
VIII. ATTACHMENTS

**Expedited Curriculum Approval Guidelines**

CRITERIA FOR IMMINENT NEED:

*Proposals for expedited curriculum committee approval will be accepted if they meet one of the following criteria:*

- To avoid loss of accreditation from an outside agency
- To avoid loss of course articulation
- To facilitate Work Force Training demands
- To accommodate programs with course changes that would adversely impact students’ abilities to progress.

The following are examples that would *not* qualify as imminent need:

- The course originator did not prepare adequately to meet the established curriculum review timeline.
- Contracts in place that include specific curriculum that was not approved by the curriculum committee at the time of the signing of the contract.
- Classes have already been scheduled and students are enrolled prior to the curriculum being approved as a part of the curriculum committee process.

PROCEDURES FOR EXPEDITED APPROVAL:

**New Courses**

Faculty requesting expedited approval shall follow the following procedure:

For new courses, complete steps 1 through 3.
For revisions of existing courses that are compliant, complete steps 2 through 3.
For revisions of existing courses that are non-compliant, complete steps 1 through 3.
For requesting DE modality only for an existing compliant course, complete steps 2 through 4.

1. Enter the course into Curricuweb for submittal to the committee.
2. Notify the Curriculum Specialist and Curriculum Representative for area of concern that expedited approval is being requested.
3. Provide a written rationale demonstrating imminent need.
4. Complete the current TMI form and submit to Curriculum Specialist.

The request will then be placed before the committee for full committee vote.
In instances when the full committee is unavailable (e.g., Summer), the co-chairs and a minimum of two curriculum representatives will review the request. If the expedited approval request is granted, the item will be placed on the next scheduled curriculum meeting for notification.

APPEAL:
An item denied as imminent need by the process above can be appealed to the Vice-President of Instruction.

s 55070. Credit Certificates.

(a) Any sequence of courses consisting of 18 or more semester units or 27 or more quarter units of degree-applicable credit coursework shall constitute an educational program subject to approval by the Chancellor pursuant to section 55130. The college-awarded document confirming that a student has completed such a program shall be known as a certificate of achievement and may not be given any other designation. The award of a certificate of achievement is intended to represent more than an accumulation of units. Listing of the certificate of achievement on a student transcript symbolizes successful completion of patterns of learning experiences designed to develop certain capabilities that may be oriented to career or general education. For purposes of this subdivision, the term "general education" includes coursework taken to satisfy transfer patterns established by the University of California, the California State University, or accredited public postsecondary institutions in adjacent states which award the baccalaureate degree.

(b) Shorter credit programs leading to a certificate may be established without review and approval by the Chancellor after approval by the college curriculum committee and the district governing board. Such a certificate may be given any name or designation deemed appropriate by the district governing board, except that such a certificate may not be referred to as a certificate of achievement, a certificate of completion, or a certificate of competency, unless approved by the Chancellor pursuant to subdivision (c). Such a certificate may not be listed on a student's transcript, unless approved by the Chancellor pursuant to subdivision (c).

(c) A district may submit any sequence of courses consisting of 12 or more semester units or 18 or more quarter units of degree-applicable credit coursework to the Chancellor and request that it
be approved as a program leading to a certificate of achievement. The Chancellor may approve such a program if he or she determines that it satisfies the requirements of subdivision (a) despite requiring fewer than 18 semester or 27 quarter units of degree-applicable credit coursework.

(d) Content and assessment standards for certificates shall be defined by the local curriculum committee and comply with the requirements of this chapter. Such standards should also ensure that certificate programs will be consistent with the mission of the college, meet a demonstrated need, be feasible, and adhere to guidelines on academic integrity which may be developed by the Chancellor, the Academic Senate for California Community Colleges or other appropriate statewide bodies.

(e) A description of each approved program shall be included in the college catalog.

(f) The Chancellor shall develop forms and procedures for submission of applications for approval of a program leading to a certificate of achievement.

(g) Provisions of this section regarding the naming or designation of certificates shall become effective for the Fall 2008 term.

**Expedited Approval Procedures – Revised Draft**

B. Adams

Final approved draft included in 10/09/07 minutes.

M. Adams shared that the Expedited Approval Procedures were approved by the Academic Senate at the October 18 meeting.

The committee was notified of the following inactivations:

- **GUIDE 122**
  - Career Awareness for Adults with Disabilities
  - Effective: Summer 2008
  - Inactivate
  - Transfer Status: Transfers to CSU
  - General Education Status: Fulfills Guidance requirement.

- **STSK 070**
  - Mind Over Math
  - Effective: Summer 2008
  - Inactivate
  - Transfer Status: Does not transfer.
  - General Education Status: Does not fulfill GE requirement.

V. OLD BUSINESS

Math and English Requirement Changes Subcommittee

B. Sanders

B. Sanders stated that the committee has not met, however, within the math department there has been continued discussion about how to structure the Math sequence to facilitate an intelligent response to the required changes. For example, one proposal includes taking MATH 90 and splitting it into two courses, two units of general content, with (for example) four one unit components each specifically dedicated to a vocational focus. P. Mendez was supportive of such an approach, and suggested that such an approach could work for MATH 70.

Special Topics, Experimental, Independent, Work-Experience

Course Development and Approval Guidelines Update

P. Mendez stated that the committee has not met so there is no report.

CurricUNET – Update

K. Walters-Dunlap

K. Walters Dunlap was not present to give a report, but L. Senechal noted that many of our curriculum materials have been mailed to Steve Thyberg of Governet. There are some that still have to be prepared before sending them on to S. Thyberg.

Time Limit on Catalog Rights and

R. Cranley

Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities

R. Cranley reported that the subcommittee on Catalog Rights met and had a very productive meeting. The committee wants to recommend that existing language regarding “completion of 60 units, the last 12 of which must be completed in-residence,” be revised to “completion of 60 units, the last 12 of which must be completed in-residence.” Such limitations have caused problems, penalties for individuals who have, for example, completed the largesse of units at MJC, but relocate prior to completion. She also shared that a comprehensive review of other college practices was undertaken to inform the committee’s action, after which the learned that MJC’s current practice is an exception. Matriculation would prefer that the change be made. C. Mulder commented that it was a good idea, as it removes road blocks to students. Before a vote was taken, M. Morales raised a point of information for the committee, asking if the college wants students to be able to earn multiple degrees with only 12 units in-residence at MJC.

M/S/C (R. Cranley, B.J. Wells) to approve the change in requirements/catalog language for Associate Degree effective 2008-2009 to read:

...completion of 60 units, 12 of which must be completed in-residence

Ayes: 14
Nays: 01

R. Cranley reported that S. Agostini wanted to remind the committee of a policy that has appeared and then disappeared from the college catalog. The following will reappear in the MJC Catalog, 2008-2009

Students who possess baccalaureate or higher degree completed a regionally accredited college or university will have satisfied general education and
Composition of the Committee

K. Waters-Dunlap

K. Walters Dunlap was not present to report back to the committee. B. Adams shared that K. Walters Dunlap and B. Nadell had met to discuss the issue of matriculation representation on the committee.

Title 5 Revisions: Planning for Implementation

B. Adams

B. Adams invited B. Sanders to discuss his Resolution: Implementing Title 5 Changes at MJC. B. Sanders asked the committee to focus on p. 239, the resolution itself. He drew attention to the numbered list of eleven (11) items and asked the committee for its feedback on his work. He expressed that his goal was for the Resolution, with any revisions requested, would be forwarded to the Academic Senate for vote for quick action, since timelines are very compressed on implementation.

There was lively, lengthy discussion about the impact of the Title 5 changes, of largest interest, the (approximately) 44 Certificates of Achievement which will no longer appear on student transcripts. There was discussion about the validity of certain certificates to employers and what the process is for evaluating them. B. Sinclair wanted to understand how an employer validates a certificate and expressed interest in having that information about how to make determinations about employer demand, as he commented it would be very powerful. He also commented that in the wake of such changes, it might behoove a department like his to take multiple 17 and under certificates and to consolidate them into one 18 or higher certificate and subsequently go through state approval processes. Many members had technical questions about the impact of the changes on operations. “How will this appear in the catalog… Who will be responsible for conferring the 17 and under (renamed) certificates since they will not appear on transcripts… How will this effect catalog rights for a student….What is the timeline for implementation… How will this affect IT/Datatel?”

Brian commented that although these are important items to discuss and resolve, action is required now in order to demonstrate our compliance with these new Title 5 requirements in time for the publication of the catalog for 2008-2009. L. Senechal clarified that – even though the catalog goes to print February 15, an action plan should be ready and work within the catalog should begin in early January.

VII. PUBLIC COMMENT
I. APPROVAL OF ORDER OF AGENDA

Hearing no objection, the revised order was approved.

II. APPROVAL OF MINUTES

Hearing no objection, the revised minutes of October 23 were approved. Revisions included:

- Notification of an error in the minutes regarding catalog language pertaining to baccalaureate degree holders:

  Students who possess baccalaureate or higher degree completed a regionally accredited college or university will have satisfied general education and competency requirements including guidance and activities for Associate of Arts or Associate of Science Degree. (rev 11/06/07)

- Minor text revisions to language for individual course listings on the cover sheet. Minutes have been updated to reflect the changes.

III. NOTIFICATION

Hearing no objection, the following notification items were approved.

The following courses, which were approved on 04/03/07, have been updated in the 04/03 minutes to reflect that they are “Approved pending YFA workload appeals committee review”

M/S/U to approve (C. Mulder, D. Keller) modifications to ANSC 212 pending YFA workload appeals committee review.  
M/S/U to approve advisory (B. Sanders, K. Ennis) for ANSC 212
Hearing no objection, the following notification items were approved.

CORRECTION TO 09/18/07 Meeting Minutes:

R. Cranley noted that PSYCH 103/PHYSO 103 need to be more thoroughly reflected in meeting minutes. PSYCH 103 has changed considerably with the design of its cross-listed NEW companion course PHYSO 103, thus impacting course articulation. Modifications to PSYCH 103 are as follows:

PHYSO/PSYCH 103 Introduction to Neuroscience 3

Effective: Summer 2008
Note: This is a new PHYSO course that will be cross-listed with an existing PSYCH course

Adopt New Course (PHYSO 103) and Modify Existing Course (PSYCH 103)

Agricultural Mechanics – CERTIFICATES

Adopt New Certificate: Basic Heavy Equipment Technician  16  15
Adopt New Certificate: Advanced Heavy Equipment Technician  17  17
Adopt New Certificate: Heavy Equipment Management  15  19

Pulled for discussion by B. Sanders.

B. Sanders commented that – given the incoming changes to the curriculum that are being brought about by Title 5, certificates of achievement less than 18 units are going to be problematic for the committee to approve, since approval processes are changing at this time. B. Sanders noted that there is no evidence of advisory committees accompanying the documents, although the work was likely completed, that is part of the approval process. T. Conrado agreed that it would be better to bring them forward in the future, once processes are in place to ensure compliance with Title 5, and enthusiastically shared that a great deal of work has been done building this program. B. Sanders commended him on his work, and suggested that he wait to finalize and develop them until we have a clear sense of how to demonstrate compliance to Title 5 as an institution. T. Conrado agreed.

Withdrawn on behalf of the division (T. Conrado)

**Articulation Status:** Transfers to CSU.  
**General Education Status:** Not requesting GE placement.  

*Pulled for discussion by C. Hudelson Putnam*

C. Hudelson Putnam noted that this was one few (if any) courses designed specifically to train tutors in a specific discipline. She wondered if this was setting a precedence of discipline-specific courses in tutoring. K. Walters Dunlap commented that Independent Study courses are offered to meet this need at other institutions. The course author, M. Monlux, commented that there were no independent studies available to do this. She added that the course has enormous benefits to both students and tutors. One member wondered if the course and ANAT 125 were to be offered simultaneously, and M. Monlux confirmed this, but also noted that the instructor would not get paid double the compensation. One questioned whether the tutors would be grading students, to which M. Monlux said “no.” C. Hudelson Putnam expressed reservation about approval of the course in that this could send a message to students to “stay at MJC” and be a tutor, instead of pursuing transfer. M. Monlux remarked that the nursing program is so impacted that this course is a way for students in between the prerequisites and the program to keep their knowledge current while waiting enrollment in the Nursing program. Members of the committee later commented that the instructor’s input on the course was very helpful to understanding the intent and benefit of the course.

*M/S/U (P.Guerra Schmidt/G. Boodrookas)to approve the NEW COURSE ANAT 180 A,B,  
M/S/U (B. Sanders/P. Upton) to approve the PREREQUISITE for ANAT 180A, B  
M/S/U (K.Ennis/B.Sanders) to approve the HYBRID TMI modality for ANAT 180A,B.*

IV. DISCUSSION (cont’d)

MATH: Campus-wide review of programs for impact resulting from MATH UNIT CHANGES

Pulled for discussion by B. Sanders

B. Sanders brought to the committee’s attention the impact of the pending MATH course unit changes on the college curriculum. He provided materials to show the committee units for comparable courses at other institutions. Currently, the MATH courses are not compliant with Title 5 in that hours of instruction must correspond to units earned. Thus, multiple MATH courses will see an increase in units. C. Hudelson Putnam expressed concern that such unit increases would present needless obstacles for students pursuing transfer, specifically in that the units earned may be in excess of what the students need for transfer to a university. Is that number of units really required for mastery? R. Cranley responded that a student would not be denied transfer of an MJC MATH course in the event that the units earned were in excess of the comparable course at UC or CSU, that transfer of courses is not determined on a unit-by-unit basis. K. Walters Dunlap commented that evidence is showing that more face-to-face time increases student success in MATH. It was mentioned that it would be hard to equate the UC/CSU student with the MJC student anyway, and one member commented that what he recalls of student activities UC instructor’s lecture is very different from what his students require in order to master the material in the same class, so a unit-by-unit comparison would be a disservice to our students.

There was concern about the impact of the unit on the Computer Science AA Degree. B. Sinclair commented that he had not forwarded the information to his colleagues, having not been clear on the implications of an email from B. Sanders. P. Mendez suggested that the committee not vote on this change because the CMPSC group were not aware of the changes to their program. B. Sinclair commented that there was nothing that could be done because the units are changing whether the CMPSC faculty is aware of it or not. L. Senechal reminded the committee that this is the first time a committee member has taken the time to review the impact of departmental curriculum changes on campus-wide programs, and that this is the first time the committee is being made aware of what the Instruction Office has been managing behind the scenes for years. She added that this is one program of dozens that are likely to experience the same effects for 2008-2009, however, only MATH has taken the time to review the curriculum for those impacts. Usually (Curriculum staff) are forced to make the changes outside of the approval of the Curriculum committee because the link between courses and programs is not currently part of the curriculum review process.

M/S/C (B. Sanders/P. Guerra Schmidt) to approve revisions to programs resulting from MATH unit changes.

*M/S/U (B.Sanders/ B.J. Wells) to approve PREREQUISITE for MATH 105*

---

MATH 106  
*Structure of Mathematics 2*  
**Effective:** Summer 2008  
**Modify:** Units, Course Goal, Typical Assignments, Methods of Instruction, Methods of Assessment, Textbooks and Other Readings  
**Enrollment Restrictions:** Changing to (P) MATH 105  
**TMI Status:** Not approved for TMI  
**Materials Fee Status:** No materials fee required.  
**Articulation Status:** Transfers to CSU. Approved for transfer to UC.  
**General Education Status:** Approved for (MJC-GE:D2) (CSU-GE:B4) (rev. 11/02)  

*Before the meeting, R. Cranley called B. Sanders attention to the fact that the prerequisite on the outline read “(P) MATH 90 or qualification…” B. Sanders agreed that this was an error, and promptly fixed the outline in CurricuWeb. The minutes have been corrected to reflect the accurate prerequisite.*

*M/S/U (B.Sanders/P. Mendez) to approve MODIFICATIONS to MATH 106*  
*M/S/U (B.Sanders/ B.J. Wells) to approve PREREQUISITE for MATH 106*

MATH 134

**Elementary Statistics**

**Effective:** Summer 2008

**Modify:** Units, Hours, Description, Enrollment Restrictions, Course Goal, Learning Goals, Content, Typical Assignments, Methods of Instruction, Methods of Assessment, Textbooks and Other Readings

**Enrollment Restrictions:** Maintain (P) “MATH 90 or qualification by assessment process”

**TMI Status:** Maintaining approval for ONLINE and TELCOURSE modalities.

**Materials Fee Status:** Maintaining existing materials fee $8.00 (VG)

**Articulation Status:** Transfers to CSU. Approved for transfer to UC.

**General Education Status:** Approved for (MJC-GE:D2) (CSU-GE:B4) (IGETC:2A)

*B. Sanders brought it to the committee’s attention that, while other MATH courses on this agenda were merely changing units to align with the hours of instruction, this course was changing content as well. K. Walters Dunlap commented that 5 units granted is not common practice for statistics courses. The committee engaged in heightened discussion about the content changes, and some members expressed concern that the content added might not be essential for a lower-division statistics course, and perhaps causing impediments to student success and transfer, and wanted more insight on the relevance of and need for the content changes.*

*M/S/C (B. Sanders/M. Garcia) to approve MODIFICATIONS to MATH 134

Ayes: 9
Nayes: 3

*M/S/U (M. Garcia/C. Hudelson Putnam) to approve PREREQUISITE for MATH 134

- **Articulation Status:** Transfers to CSU. Requesting transfer to UC.
- **General Education Status:** Requesting placement on (MJC-GE:B)(CSU-GE:C2)(IGETC:3B)

_Pulled for discussion by D. Keller_

D. Keller expressed concerns that the course title written as “Philosophy and Art” may mislead students to believe that art and philosophy will be of equal weight in the course. J. Monast (PHILO) commented that the department would not be averse to modifying the course title to “Philosophy of Art.”

**M/S/U (K. Ennis/C. Hudelson Putnam) to approve the course with a friendly amendment that the title be changed to Philosophy of Art.**

No Report

CurricUNET – Update  K. Walters-Dunlap  -

K. Walters Dunlap reported that MJC is currently waiting for IT to provide data for CurricUNET implementation, but that IT is currently deeply involved in the Datatel conversion to Version R18 of the system software.

Time Limit on Catalog Rights  R. Cranley  -

R. Cranley reported that she received an email from Stephanie Lowe, Specialist in Academic Planning for the CCC, stating that establishing a timeline for catalog rights is essentially a local issues, and that she encouraged MJC to check with local counsel on the issue.

Composition of the Committee  K. Waters-Dunlap  -

K. Walters Dunlap reported that she met with Bob Nadell, VP of Student Services, and that he is not currently in support of adding a matriculation representative to the committee, citing concerns that this is the busiest time for the evaluators. B. Nadell did say that he would allow an evaluator to participate on an educational requirements committee, which is being considered for implementation in the future.

Title 5 Revisions Report  M. Adams  -

M. Adams reported that the Academic Senate has not met since our last meeting, so there has been no vote on the Curriculum Committee’s Resolution.

VII. NEW BUSINESS

Special Topics – Waiting for Templates from Subcommittee  B. Sanders  -

B. Sanders reported that the college clearly needs working deliverables from the Special Topics subcommittee. We do not have a clear cut policy nor process with which to give faculty who want to develop special topics courses. K. Walters Dunlap has access to templates from Sierra College that she can provide P Mendez if they would like. P. Mendez was interested and K. Walters Dunlap said that she would forward them to him.

VIII. PUBLIC COMMENT

* (VG) While CurricuWeb now tracks fee amounts, previous versions of course outlines often did not. Because of this, it was easy for materials fees to be changed without notification to the Curriculum Committee. In an attempt to reconcile various fee discrepancies on record at the college, this information is being closely scrutinized and reconciled when courses are submitted to the Curriculum Committee. When (VG) is listed, this is the “current” or “previous” amount on record with Vicki Graff, who safeguards the amount into Datatel that students are actually charged.

AGEC 225 Agriculture Computer Applications

[MJC-GE: D2: Communication and Analytical Thinking]

11/05/06

Pulled for discussion by P. Bettencourt

P. Bettencourt noted that, while the course placement requested MJC-GE:D2, Communication did not appear to be addressed in the course outline. B. Sanders remarked that the outline seemed to show that the course was not a “core” GE course, and that there was a great deal of distance between the idea of using computer applications, and the programming thereof, making it not ideal for fulfilling this core requirement for GE. C. Vaughn asked J. Palmer, course author, about programming of cell calculations in Excel, and J. Palmer commented that such was covered in the course. C. Vaughn then suggested that J. Palmer modify the outline to reflect more analysis and critical thinking. He insightfully observed that the course essentially is “teaching programming with Excel.” J. Palmer agreed and emphasized that the course covers “real world problems” and that the application is merely the tool through which the problem-solving is done. Many members agreed that the outline could be rewritten to better reflect that depth of critical thinking. C. Hudelson-Putnam noted that one option would be to create a 1-unit elective course that could be paired with GIS to meet needs across disciplines. J. Palmer willingly offered to rewrite the outline for the purpose of MJC-GE consideration at a later date.

**CURRICULUM COMMITTEE MINUTES – NOVEMBER 20, 2007**

M/S/U (B. Sinclair, B. Sanders) to approve CHEM 164 for MJC-GE:A

CLDDV 103, 104, and 105 pulled for discussion by B Sanders

B. Sanders called the committee’s attention to the fact that the full standards for evaluating course placement on MJC-GE: E are missing and currently unavailable to representatives and faculty authors, making it difficult to evaluate course placement with integrity. Specifically, the ten categories in which a course should fall to make it eligible for consideration are missing. There have been additional requests for placement in this area, so B. Sanders suggested that the committee find the old document, or revise it before reviewing course placement for MJC-GE:E. Members agreed that this was problematic. G. Boodrookas commented that he would search an old binder in his possession for the categories. **MJC-GE: E request for CLDDV 103,104,105 withdrawn by division representative (P. Guerra Schmidt)** (IO Note: Area E categories were found and Courses were re-reviewed and approved on 01/15/08)

- **Pulled for Discussion:** B. Sanders
- **Approval:** M/S/F (M. Garcia, C. Hudelson-Putnam) to approve INDIS 100 for MJC-GE:D2

  B. Sanders remarked that this course is constituted of a series of different courses, while also being intended as preparation for other rigorous general education classes. B. Adams agreed with B. Sanders, adding that such a “short burst” 1-unit intro seems to lack depth needed for GE. J. Palmer asked how this was a transfer-level (100-299) course. B. Sanders replied that it is designed for transfer students, but R. Cranley added that UC rejected it for IGETC. B. Adams informed the committee that student progress will not be impeded without using this course in GE.

- **Pulled for Discussion:** M. Garcia
- **Approval:** M/S/F (G. Boodrookas, C. Mulder) to approve MACH 218, 219 for ACTIVITIES

  M. Garcia asked why this course was being proposed for activities. G. Boodrookas commented that he grasped the intent, as the product of the course can often be artistic. B. Sanders countered that CNC products are often reproductions, as opposed to original art. J. Palmer noted similarities between other technologies, e.g. dressmaking and CNC. M. Adams drew attention to the fact that the course focused more on technology than on artistic expression.

M/S/U (B. Sinclair, B. Sanders) to approve PHYSO/PSYCH 103 for MJC-GE:A
One committee member noted that PHYSO 103 is cross-listed with PSYCH 103, however, PSYCH version was not listed on the agenda. Instruction Office will take care of correcting the minutes.

M/S/U (C. Hudelson Putnam, P. Guerra-Schmidt) to approve PSYCH 104 for MJC-GE:B
PSYCH 104 request for MJC-GE: E withdrawn due to lack of criteria for evaluating appropriateness for Area E

PSYCH 130
Personal Adjustment
(MJC-GE: B: Social & Behavioral Sciences)
Pulled for discussion by M. Garcia
M. Garcia noted that the course already has approval for Area E. R. Cranley was concerned that the content and objectives were too focused for placement in Area B. C. Hudelson-Putnam commented that the “request” for placement may have resulted from the CurricuWeb interface where the inexperienced author is asked to request categories, perhaps resulting in an erroneous choice. There was concern about AREA E as currently listed in the catalog, and that it lacks the flexibility for courses under 3 units. B. Sanders noted that the pattern is an interpretation of the code, not altogether correct, in that it intends for “three units in the area” not necessarily one “course at three units.” L. Senechal asked whether a vote on a change to the pattern would require a vote. The committee commented “no,” that such a change was merely superficial. Such a change would allow for combinations of under-three-unit courses to be used to fill the requirement.

M/S/U (B, Sinclair, P. Bettencourt) to approve CHEM 164 for CSU-GE:B3

CLDDV 103 Child Growth and Development 3 005
CSU-GE: E: Lifelong Understanding and Self-Development
Email to Ruth
Pulled for discussion by B. Sanders
B. Sanders commented that most courses placed in Area E are intended for self-awareness and individual health. He expressed concern that the CLDDV sequence, if placed in E would focus on development of children instead of self. P. Guerra Schmidt countered that the course covers classical theories on physical and psychological development. C. Hudelson Putnam remarked that 85% of Americans end up having children, so it is not as though the course would not be relevant in an individual’s lifelong development. R. Cranley said she encouraged placement of this course because CSU Stanislaus liberal studies program includes this course on their sequence as well, setting a precedent for such a sequence to be placed in this area.
M/S/U to approve (R.Cranley, C. Hudelson-Putnam) CLDDV 103 for CSU-GE:E

FILM 150 Film Production 3 039
CSU-GE: C1: Arts
11/6/2007
Pulled for discussion by R. Cranley
R. Cranley noted that the course is technical, as opposed to covering “great works,” as detailed in the guidelines. P. Bettencourt agreed, noting there is no theory requirement.
M/S_ (B. Sinclair, P. Guerra Schmidt) to approve FILM 150 for CSU-GE: C1
Ayes: 0
Nays: 13
FILM 150 was not approved for placement on CSU-GE: C1

Note: Instruction Office added the PSYCH cross-listing to the original PHYSI request for placement.

PSYCH 130
Personal Adjustment
CSU-GE: D9: Psychology
Pulled for discussion by M. Garcia
M. Garcia noted that PSYCH 130 is already in Area E of the CSU-GE pattern, and fits more appropriately in that area. It does not fit in History or Political categories within D, either. C. Hudelson Putnam commented that the course content is not broad enough for special sections of content to cover requirements as well.
M/S/F (P. Bettencourt, B. Sinclair) to approve PSYCH 130 for CSU-GE:D9

M. Adams reported that the Title 5 proposal has not yet made it to an agenda to be voted on because of other large Academic Senate issues, but anticipates that the issue will be finalized by the end of the semester.

VII. NEW BUSINESS

Title 5 Compliance Meeting
B. Sanders  -
B. Sanders reported on a meeting held Tuesday, November 13 where a small group met to discuss how MJC might go about demonstrating compliance in terms of associate degree “Areas of Emphasis” in tandem with transfer patterns. In attendance were K. Bailey, P. Bettencourt, R. Cranley, M. Adams, B. Adams, L. Senechal, and B. Sanders. B. Sanders noted that K. Bailey had a “great insight” that the Areas of Emphasis should be developed in the spirit of “transfer preparation” and to find those units that overlap to ensure students are taking relevant coursework for their baccalaureate major. L. Senechal had asked for an update as to how these would be implemented in the coming catalog. It was determined at the meeting that the single page Associate degree requirements would be updated to comply with the new guidelines, however, the “areas of emphasis” would only be referenced with...
specific instructions on “Speak to a counselor” etc. M. Adams reiterated that this would be the best year for an addendum. C. Hudelson-Putnam countered that addendums are not in the best interest of the student, as it is “hard enough” for students to understand what is expected of them. She questioned why we could not wait to publish until 2009-2010. B. Sanders clarified that the college had 180 days to respond to the memo calling for compliance with the new standards.

M. Garcia was concerned that the course did not demonstrate need for repeatability. B Sanders pointed to a portion of the course outline where it reveals that the content changes with each repetition. M. Boyd commented that repetitions are necessary because safety laws change and repetitions allow for students to get updated on changes to those laws.

B. Sanders offered a point of information that noncredit classes stand-alone in the curriculum and therefore, require state-level approval. He stated that it should be interesting to see what sort of feedback we receive on this course. L. Senechal added that, when attempting data-entry for a comparable noncredit course, "Youth Theatre Ensemble" she learned from updated state guidelines that noncredit courses are intended to be "marketed exclusively to" older adults, and that the objectives for the course must show a direct influence on improving the lives of older adults.

B. Sanders introduced the issue behind “revisiting” MJC-GE approvals at this meeting. B. Sanders reminded the committee that we lacked criteria at the 11/20/07 meeting – which included 10 specific content categories that would make a course eligible for placement in MJC-GE:E. There was lengthy discussion about CLDDV courses, specifically 104 and 105 placed in Area E on MJC-GE. One member asked if there should be an “and” statement between the two courses on the pattern to ensure that both courses were taken in order to cover all content. After lengthy discourse, it was realized that the 3 unit Health Education requirement would not be fulfilled if the student only took 104 or 105. The student would need to take both (104 and 105), or either plus another course to fulfill the 3-unit total required.

Course Development and Approval Guidelines Update

While there had been no meeting of the subcommittee, B. Adams reported to P. Mendez that K. Walters Dunlap had shared templates from Sierra College that MJC may consider as we proceed with our own system. P. Mendez shared that he had met with G. Rose to discuss whether or not Datatel could handle subsets on course numbers and titles. P. Mendez was optimistic that Datatel could handle the needs of Technical Education. It was not clear how this would affect Instruction Office staff and curriculum approval timelines. P. Mendez commented that G. Rose had expressed concern that there would be multiple variables to consider before proceeding.

CurricUNET – Update  
K. Walters-Dunlap  

K. Walters Dunlap reported that CurricUNET implementation is moving along rapidly, and that we are slated to go live sometime in late spring. There are to be two more meetings, as well as a site visit on February 5, with the goal being that MJC go live at the same time as Columbia in late March. She reported a few meetings where the subcommittee (B. Adams, M. Adams, B. Sanders, L. Senechal, R. Cranley, D. Phillips, and herself) had held conference calls with CurricUNET.  M. Boyd asked – if courses were slated for review and update – whether it best to wait for CurricUNET or to enter into CurricuWeb.   Many members commented that divisions should not wait for the new system, that data will be uploaded to CurricUNET from CurricuWeb later. M. Boyd wanted to know how training would be implemented, and reminded K. Walters Dunlap that staff should be included in the training. This brought about discussion of the role of staff in curriculum development. M. Boyd commented that staff update curriculum in the division. K. Walters Dunlap responded that staff will not be trained, since faculty the ones responsible for curriculum, and that no secretaries will be able to access the system, as it is password driven. B. Adams commented that curriculum should be faculty driven.

B. Sanders requested that the committee take a moment to preview later discussion on the agenda, since the CurricuWeb subcommittee will need to take action at these planning meetings, those topics of importance include items like defining “major and minor” changes in the process, as well as the ability of the Technical Review team to halt a course from advancing to the agenda.

Title 5 Revisions Report  
M. Adams  

M. Adams passed the gavel to B. Adams to report on the Title 5 revisions now under consideration by the Academic Senate. He reported that, at the 12/11 Academic Senate meeting, the senate voted to postpone, due to the fact that there was resistance to the committee’s resolution. He made an ardent request that anyone who could come to the Thursday Senate meeting, do so in support of the resolution. B. Sinclair responded to this on behalf of a concerned faculty member, reporting that “it became clear that some differing interpretations of Title 5 had not been thought of,” and that the curriculum committee please “keep an open mind.” K. Walters Dunlap informed the committee that we have to comply with Title 5, and supports the Curriculum Committee being proactive. She asked if the concerned faculty member could share his concerns with the committee. She suggested that the faculty member identify those areas where there are concerns and that the resolution be voted on in a way that does not include those areas, and asked for an explanation about MJC process. A Peek shared that the Senate can override concerns. M. Adams commented that we could choose to not comply as a “rogue” institution, but then our accreditation would fall into question. B. Adams reported that she and M. Adams had met with J. Zamora to discuss concerns, and that she recalled believing that his concerns were addressed in that conversation. K. Walters Dunlap informed the committee that she regretted that she would not be able to attend the Senate meeting on Thursday, January 17, 2008.
VII. NEW BUSINESS

Policy on TMI Approval within the Curricular Year

P. Guerra Schmidt was not present to discuss the issue pertaining to TMI approval. B. Adams offered to summarize the concern, stating that there is no set process or policy for when TMI should be considered, voted on, and implemented for a course. B. Adams noted that it was unclear as to whether the addition of TMI was a minor or substantial revision to a course. She added that there are differing opinions, admitting that she believes it is “major.” K. Walters Dunlap commented that she and B. Adams agree to disagree on the issue, and that at Sierra College – a different policy was in place. The discussion was lively, and two issues arose. Is TMI a major component of a course, requiring that a course be evaluated in its entirety when TMI is added, and Should TMI approvals take place on a semester-by-semester basis? K. Walters Dunlap reported that a department level policy should be put into place to ensure that TMI is warranted for a course in question, and that process across the VCC and CC should ensure that instructors are prepared for TMI instruction. It was determined that TMI approval would follow the Expedited Approval process if they are requesting expedited approval for TMI outside of the curriculum cycle by submitting the TMI form.

TMI Policy is

Review Process for General Education Patterns (MJC-GE, IGETC, CSU-GE)

This issue was brought to the committee’s attention because of the timeline to implement CurricUNET. B. Sanders shared that past practice of “one meeting annually to review courses for placement on breadth patterns” is so, just because it has always been, and that CurricUNET presents an opportunity for the committee to evaluate why we do things, and if it is necessary for them to continue in that manner. B. Sanders asked the committee if it would be possible to evaluate courses for breadth at each meeting, thus to review a course only once? Two members immediately commented that this would not be good for their workflow, reporting that this is what they are accustomed to. B. Sanders wondered if that is because they have just “learned” to do it in that manner. L. Senechal expressed concern that faculty campus-wide are having a difficult time staying on top of timelines and deadlines because they do not understand the relevance or meaning of each. “By consolidating the calendar, we could make it easier to educate them for planning purposes.” P. Mendez said it helped to think of it for the benefit of the faculty member. L. Senechal also shared that it is evident that curriculum is viewed in pieces, which may not be to the student’s advantage. She added that we spend a great deal scrutinizing aspects of courses, and not necessarily how those courses come into transfer, program, and associate degree requirements.

M/S/U (B. Sanders, P. Mendez) to change the process so that courses are evaluated for GE placement at the time of their course outline review.

Minor/Major Changes in Curriculum Process

B. Adams shared the Best Practices in Course Approvals document as a framework for delineating major versus minor changes in the curriculum process. The committee was in agreement with most of the delineations and it was decided that the document would help guide decisions made in the implementation of CurricUNET, and would be brought back for discussion at a later date if necessary.

2008-2009 (Revised) Associate Degree Requirements – DRAFT

L. Senechal distributed numerous handouts to the committee for the purpose of catalog production. One was the revised Associate Degree Requirements (draft) which she brought to the committee to check her interpretations of Title 5 revisions. She clarified that this document would become our contract with students and the public. Because the meeting was running over schedule, she asked that the committee take time to thoroughly review the accuracy of her interpretation and send feedback to her directly. She also distributed a document where she noted problems with requirement “math,” in that the totals listed in the catalog are not always accurate. She cited examples where instructors were requesting that programs reflect different numbers than their actual required total on record with the state, or, events where the curriculum had evolved so much that the original totals no longer reflected reality. It became clear that this was a large issue and there was no immediate resolution.

It was requested that the order of the agenda be changed so that subcommittee reports could take place following approval of the meeting minutes. The order of the agenda was approved as revised.

II. APPROVAL OF MINUTES

January 15, 2007

Hearing no request for revision or correction, the meeting minutes of January 15, 2007 were approved as presented.

III. OLD BUSINESS

1. Minor/Major Changes in Curriculum Process

   B. Sanders cited the “major/minor” changes discussion that took place at the last meeting could have been confusing to some, and that he wanted to make it clear that when the committee is discussing Major/Minor changes and CurricUNET is discussing major/minor processes, that these are different issues. One is about making minor/major revisions to a document, while the other is about major/minor levels of approval.

2. Title 5 Compliance Progress

   a. University Preparation Pathway/Career Preparation Pathway

      R. Cranley asked the committee to look closely at the two new sets of degree pathways (Career & Technical Education and University Preparation) which resulted from the Title 5 compliance changes. L. Senechal had created them for the purpose of the catalog, using the approved Title 5 compliance resolution as a guide.

      i. Differences between degree-applicable units for University Preparation Pathway and Career & Technical Education Pathway

      R. Cranley called the committee’s attention to the revised requirements for Associate Degree, specifically, the two new pathways to degree (taking place of Transfer Studies and Occupational Studies plans), Career and Technical Education Pathway and University Preparation Pathway.

      She did this because she believed that it was important that the committee be fully clear on what it was approving at every level of the requirements, because there may be assumptions campus-wide on how things have and should work, and that often those assumptions are not in agreement.

      R. Cranley noted that the UP plan had departed from the prior associate degree requirements in
that it now only allowed courses numbered 100-299, instead of 50-399. She asked “was this the committee’s intent?” B. Sanders added that this sort of discussion was important, and that to his recollection, there had been no directed discussion to determine whether this change should take place with the resolution.

He asked rhetorically, “does the UP student need to take courses numbered 50-99 or 300-399 for the upper division major?” K. Ennis asked if this would change how preparatory units courses numbered 50-99 would count toward degree. B. Sanders confirmed that it would. C. Mulder noted that if a student takes an excess of 99 units, this delays registration times, and that students can also transfer up to 70 units.

P. Mendez asked for clarification as to why it had been changed, and B. Sanders commented that it was a draft that had been prepared, perhaps an interpretation of the Curriculum Committee’s Title 5 Resolution. M Garcia reported that transfer students are required to complete a minimum of 60 transferable units to be eligible for transfer.

R. Cranley paraphrased that this interpretation occurred out as a result of L. Senechal more thoroughly the splitting the design of the Associate Degree requirements into their previously board-approved two “plans” (what was Occupational and Technical Studies and Transfer Studies.)

She commented that it was important that the committee sign off on this change in policy to confirm that the group agrees with the concept so that if there are questions that arise, that the committee has a record of approving the changes. K. Ennis was concerned for the remedial student who would need a great deal of preparatory remedial coursework that would not count toward a degree. R. Cranley confirmed that – to transfer – the student would still need 60 transferable units (and that courses numbered 50-99 would not count).

P. Mendez observed that CSU or UC would only accept courses numbered 100-299, and that this was an external policy. R. Cranley added that the student needing extensive preparation would also have the option to graduate under the Career and Technical Education pathway if this was a deterrent. P. Mendez observed that a student could easily get confused by a degree pathway that did accept courses numbered 50-399 for a transferable MJC Associate’s Degree, even though the transfer institution would only accept MJC courses 100-299.

M.Garcia noted that the old catalog had an advisory telling the students stating that coursework completed for degree should be transferable (100-299), but allowing students to complete courses numbered 50-99/300-399 courses for the Associate’s Degree. A. Peek countered that this was problematic because the universities wouldn’t accept them.

Many committee members remarked that this new language seemed much clearer to students. B. Sanders suggested that if the guidelines are there, publicly observable, students will orient themselves to achieving this higher criteria, which would be to their benefit, especially since they are transfer-oriented. B. Sanders then asked who it might hurt rhetorically, e.g. a person attempting the University Preparation pathway, with the GE component and an Area of Emphasis, or GE and Major. He commented that those individuals pursuing GE and AOE will not be hurt because they are preparing for upper-division/baccalaureate study. As for the other students who are pursuing a local “terminal” degree could feasibly “back up” and pursue the CTE Pathway, and if they have met CSU-GE requirements they should not be adversely affected, since most courses double-count toward MJC-GE (the non-transferable GE pattern for associate’s degree.)

**Area of Emphasis and Major options for University Preparation and Career and Technical Education Plan**

R. Cranley called attention to another area of the two pathways She noted that there was no Area of Emphasis option for the Career and Technical Education pathway. She noted that many schools and colleges within the UC system do not accept, for example, IGEC, because they want students to instead use lower-division courses at the community college to prepare for upper
division courses at the transfer institution. IGETC requires students to complete so many units which prevent students from doing completing what is known as “lower-division preparation.” R. Cranley expressed concern that there was not going to be a way for one of these students to earn an Area of Emphasis. R. Cranley wanted to propose that there be an Area of Emphasis option for students following on the Career and Technical Education plan.

Editing Remarks

R. Cranley also noted a series of stylistic issues in the documents. She wondered if some phrases was too wordy. Her revisions were supported by the committee and it was resolved to incorporate them. Other members noted some other awkward language that was to be changed.

MJC-GE Removed from University Preparation as option for GE

B. Sanders asked rhetorically – if a student has completed CSU-GE or IGETC, hasn’t the student – in essence – met competency requirements required by Title 5 for associate’s degree? Committee members confirmed this. He asked that a motion be put on the table.

Motion: If a person has completed CSU-GE or IGETC, that the individual would have met Title 5 competencies for reading, writing, and mathematics competencies

A. Peek noted with concern that READ 184, which can fulfill the competency for reading, is not listed as an option on IGETC or CSU-GE. It is only an option for students completing the non-transferable MJC-GE pattern. She was concerned that students would not be able to demonstrate that they have met competencies for degree if we use CSU-GE or IGETC in as evidence of competency. R. Cranley assured A. Peek that they could use CSU-GE or IGETC because – in the past - the Curriculum Committee approved that, if the student completed the Title 5 GE requirement (which is MJC-GE), that they would have satisfied the reading competency.

M. Garcia then asked what would happen to those students in pursuit of “high-unit” baccalaureate majors. B. Sanders clarified that this was not an issue with the University Preparation pathway. B. Sanders used this as an opportunity to exemplify why he felt it important to guide students in “high-unit” majors to the Career and Technical Education pathway. R. Cranley noted that these students would automatically be left out.

B. Sanders asked, in terms of the University Preparation Pathway, if it was really necessary to tell students to complete something that they had already completed by virtue of the GE. L. Senechal asked if it would be possible to include language on the Pathway stating something to the effect of “by completing CSU-GE or IGETC, the student has demonstrated competency in reading, writing, and mathematics as required by Title 5.”

R. Cranley was concerned that removal of the competency checklist might not be in the best interest of the student, as the list details accomplishments that the student can “check off” as progress is made. K. Ennis agreed. She commented that she liked the clarity of the new requirements, and how the page parses out all of the steps required.

M. Garcia then suggested that a note be added to #5, stating that competency would be met through IGETC or CSU-GE. B. Sanders expressed concern that unnecessary information or “steps” could make the students unnecessarily nervous about what is expected of them, and that number 5 is not necessary. K. Ennis asked if there would be a page available to supply that information. Yes, members commented, that would be the case.

P. Guerra Schmidt observed that - if the competencies were to be included on the page – that they could mislead students again because there are courses listed under 100-299 in number, directly contradicting the phrase, “complete courses numbered 100-299.”

B. Sanders provided some history and reported that MJC was criticized for equating Reading 184 and an Assessment test, but we learned that the reading test was an assessment test, not a
competency test. Consequently, MJC had to disallow.

An earlier motion was repeated for clarification and a vote was taken.

**M/S/U (R. Cranley/C. Mulder) to approve that completion of the University Preparation Pathway would demonstrate that the student has met competencies in reading, writing, and mathematics.**

B. Sanders asked that another motion be put on the table.

**Motion: Remove #3 and add statement under statement #5 on University Preparation Pathway essentially read that “Completion of IGETC or CSU-GE validates your competence in reading, writing, and mathematics.”**

**M/S/C (B. Sanders/P. Bettencourt)**

1 Nay
23 Ayes

L. Senechal commented that the design process allows for innovation in unforeseen places, and reminded the committee to keep that in mind when determining the best solution to an information delivery problem.

**“Completion by Area” Language and the confusion it could cause**

R. Cranley wanted to see that emphasis would be put on completion of the appropriate associate degree pattern. She reasoned that individuals who transfer to CSU have the option to complete only portions of the pattern for certification, so in contrast, this document should emphasize completion is required. She strongly discouraged the committee from encouraging this language in the requirements. L. Senechal provided background on the issue of GE Certification, claiming that the process of certifying GE is different than earning and applying for a Certificate of Achievement, and that few people on campus outside of admissions and records staff are aware of this essential step in the transfer process. She claimed that she included it in the document to help raise awareness about this step. She claimed that she had no opinion about how it appeared, only that it should appear in this context for the benefit of the students. B. Sanders didn’t want to confuse students more. L. Senechal commented that her intent was to counter the fact that nowhere was this information listed in the catalog as a necessary step.

**Certificate of Achievement for completion IGETC or CSU-GE**

M. Garcia was surprised to see that students would now be able to earn a Certificate of Achievement for full completion of IGETC or CSU-GE. B. Sanders reported that this was a new component as to compensate for the removal of the Transfer Studies major. K. Ennis asked if it was still possible to transfer without graduating. A. Peek commented that there was information provided as a disclaimer citing that the student with an associate’s degree may not possess all GE requirements for transfer.

**Inclusion of GE Certification Language in the Requirements**

B. Sanders asked S. Agostini if – in the process of checking a student’s transcript for eligibility for GE Certification of Achievement - that GE Certification be completed at the same time. She said that it could not be done, because it is a separate step, and it is a step linked to CSU and UC. B. Sanders noted that one process is internal, and one is external. Someone asked if students know that the GE Certification step is required of them for transfer. R. Cranley mentioned that it is on the form when the students apply for degree. L. Senechal clarified that GE certification happens upon request in the Records Office when students are requesting transcripts for transfer, in contrast to when they apply for degree or certificate in the Evaluations Office.

**IGETC: Specific Language for UC and CSU Transfer Students**

R. Cranley also noted that, on the University IGETC Pattern, there is language for CSU transfer
students, to “follow CSU requirements.” It is not consistently listed for UC, e.g “For UC, follow UC requirements.” L. Senechal was confused about where it specifically refers to UC requirements, and R. Cranley pointed out that Language other than English and American Institutions have UC-specific requirements. L. Senechal commented that she as the designer should add “UC Only” to the pattern.

**GE Requirements for Students who cannot use of IGETC/CSU-GE Preparation for transfer**

K. Bailey reportedly worked with L. Senechal on the requirements, and requested that “individual Breadth pattern” option for GE completion be struck from the University Preparation Pathway requirements. R. Cranley suspected that the reason for its removal was the fact that there are few published breadth patterns in ASSIST. R. Cranley understands the motivation for such a change. She suggested that it read “as it appears in ASSIST.” B. Sanders added that “see a UC catalog” be removed as well.

**Whether to include language for students headed to private or out-of-state schools.**

L. Senechal asked if it matters that we only include ‘transfer” and degree language for students attempting transfer to UC and CSU, and, using herself as an example being a being a graduate of a California high school who attended a university on the East Coast. R. Cranley commented that we are holding students to completion of a specific set of requirements. M. Garcia commented that out-of-state, transfer-oriented Guidance students are told to follow IGETC, since IGETC is more applicable and most universities will follow IGETC. L. Senechal asked if it would behoove MJC to include that guidance in the printed requirements for associate degree, so that it’s standardized, and not subjective. M. Garcia, suggested a “third box” that said something to the effect of “for those students who plan to transfer to an out-of-state institution, meet with a counselor.”

P. Guerra Schmidt added that it’s already in the catalog. “for students planning to attend a private or out-of-state school, please meet with a counselor.” R. Cranley reminded the committee that the evaluators are using this document to evaluate whether students have met the criteria for associate degree. She commented that – if there is no record on file, no articulation, how would an evaluator know that the students have completed the requirements for Associate Degree? Does the counselor know? She added that there is very little on file that can be used to measure student progress. C. Mulder commented that student athletes are often advised to go to a counselor or to contact the college directly. L. Senechal asked C. Mulder if she knew how such students were evaluated for meeting requirements for degree at MJC. C. Mulder shared that athletes are different in that if they are cleared through the “clearinghouse” they do not have to transfer with degree. R. Cranley observed that those students would be served by Career and Technical Education.

B. Sanders and L. Senechal repeated that the concern is “how will the student demonstrate completion of a GE pattern?” B. Sanders commented that they probably would use one pattern or the other. M. McKinnon remarked that she was not clear on why there was such an emphasis on CSU and UC, was there a law? M. Adams remarked that it was probably due to the fact that the sheer large number of students transferring to those schools warrants it. B. Sanders suggested a question in the box: “Do you plan to transfer to a private or out-of-state university? See a counselor to help you select courses from the CSU-GE or IGETC pattern.” He commented that we should strongly encourage the students to “double-up” on preparation.

**Whether to include language for high-unit Majors**

B. Sanders added that he was hoping to see language for “high-unit” majors that the UP Pathway is not the best pathway for students to follow. He would like to see MJC do a better job of guiding Associate Degree oriented students in high-unit majors to appropriate preparation for transfer into baccalaureate degree majors. A. Peek added that the note on the IGETC pattern could work. R. Cranley observed that there was a list available to students on the Transfer to UC page. B. Sanders asked that those students be directed to follow the CTE Pathway, also. L. Senechal asked for clarification, “could such direction be interpreted that the students could complete courses numbered 50-399.” B. Sanders said yes.
Clarity of requirements for “high unit” and out-of-state/private transfer oriented students

R. Cranley was still concerned that there was no clear measure stating how students will be evaluated for fulfillment of GE requirements degree. B. Sanders commented that he saw the page design fulfilling that need. C. Mulder remarked that the UC page of the catalog provided that information. L. Senechal shared that in the past, the evaluator had an informal system of evaluation, where it was understood that there were many “if/then” understandings. She added that the evaluation team is new, and that the new evaluators are hungry for the logic behind every step we ask students to complete, and that they want concise information. She commented that she understood R. Cranley’s concern that the document was still too vague for the purpose of the evaluators. L. Senechal promised to redo the document for the purpose of the committee reviewing again very soon since the document would need to go to print two days after the next meeting.

How do we communicate to students transferring without associate degrees?

P. Guerra Schmidt asked a question that – when faculty are advising students – and there is no need for a degree – if it would be possible to include that information. R. Cranley commented that many students move successfully through community colleges transferring preparation without collecting Associate’s Degrees. A. Peek clarified that the document in focus is for the purpose of “Earning an Associate Degree from MJC” while preparing for transfer.

L. Senechal added that nowhere in the MJC catalog is there a page detailing how to prepare for transfer without earning a degree, and asked the committee “is this something we want to do?” There was no response.

R. Cranley noted other typos in the pattern, other committee members noted other minor errors.

B. Adams called for a motion.

Motion: There should a policy that the University Preparation Pathway require that students take 60 units courses numbered 100-299

M/S/U (B.Sanders/K.Ennis)

Areas of Emphasis

B. Sanders observed that Areas of Emphasis (AOEs) are new, and that MJC still needs to determine how they should be used and what they should consist of. He reported it was first thought that the AOE should be used only for the purpose of transfer students on the University Preparation Pathway, with carefully selected classes pulled together for the purpose of transfer.

On the CTE Pathway, K. Bailey had suggested that AOE’s be used to help students in high-unit majors prepare for upper division coursework in MJC courses. B. Sanders proposed that – if it were to be done that way, that it should be restricted so that a student does not earn too many awards in one area. B. Sanders wondered if there was a definition of “high unit” majors.

R. Cranley remarked that usually high-unit majors are identified by the accompanying recommendation (from UC) that students NOT use IGETC if in pursuing certain baccalaureate majors. According to Brian, K. Bailey commented that AOE’s could adequately prepare students for transfer in high unit majors. For example, a new AOE in Engineering would be developed to provide students coursework needed for transfer to a baccalaureate major.

B. Sanders noted that, if a student completes the MJC Associate Degree major in engineering and IGETC as the GE component for the purpose of transfer, he or she is wasting a great deal of time in classes that will not apply to the baccalaureate major.

R. Cranley had concerns that by exclusively limiting AOE’s to the University Preparation Pathway or to transfer-minded students on the Career and Technical Education (CTE) Pathway, that we may
be excluding some students. B. Sanders expressed concern that – if we were to open up CTE with MJC-GE and an AOE (which only requires 18 units), we would be requiring students to have the “least amount of preparation.”

R. Cranley observed that students on that track, however, would still be held to the same amount of requirements as any other students. Not every major at MJC is geared for transfer, she observed. By adopting a set of area of emphases, she wondered why we might be blocking students. B. Adams asked K. Walters Dunlap if –at other institutions – this question is being raised. K. Walters Dunlap suggested that the question go on a listserv.

K. Ennis asked “what would the cost be if we were to allow every student to earn an AOE?” C. Mulder then asked who was creating the AOEs. B. Sanders said that, theoretically, divisions would be creating them, and the Curriculum Committee would approve them. L. Senechal pointed the committee’s attention to the fact that the new UP Pathway publicized that these “AOEs” are to be available in counseling in August, 2008. B. Sanders shared K. Bailey’s concerns that many students use the catalog to self-advice, and then end up with too many units for transfer. B. Sinclair was concerned that there may be extenuating circumstances, and reported he felt like he didn’t have enough information. B. Adams said that this information was need for the MJC Catalog and that it was clear there were two camps on this issue.

M. Garcia asked if it were not true that the AOE was added by Title 5 to amend what was the Transfer Studies program from years prior, and asked why we would want to move it to the CTE pathway? B. Sanders shared that this was for the high unit major. M. Garcia commented that they would be following the transfer GE patterns, even though being held to the less rigorous MJC-GE requirements alone. B. Sanders then suggested that there might be a need for a third pathway. A. Peek commented that if we add the AOE to the CTE plan, that it still does not eliminate restrictions but it still leaves the options open. She commented “if we put it in, we get everything we want?” P. Guerra Schmidt asked why we do not leave them on the first page?

Title of Career and Technical Education Pathway
L. Senechal reported that she and P. Mendez had a conversation about the appropriateness of the Career and Technical Education title. L. Senechal had concerns that the term is a CCC system name for is a professional in educating for Careers and Technology, like someone pursuing a degree in Music Education would be aspiring for a career in Music Education. Some members felt that because this language is currently in use by the CCC system, that it is appropriate and that concerns are unwarranted.

b. Skills Recognitions – Update on Conversion Process
   for 17 Unit or Fewer Awards
   Karen Walters Dunlap

The Instruction Office is working on garnering expedited regional approval to certificates 12-17 units so that they can appear on transcripts as certificates of achievement. No changes may be made to programs in this process. Every dean is working with faculty to revise and submit forms. Certificates will be approved. IAC is tracking this process very closely during what is a tiny window for approval. For this approval process, many steps are being overlooked by the consortium so that approval is quick. This applies only to VTEA (technical) programs, and not to programs like Speech Communications and Shakespeare Academy. K. Walters Dunlap Feb 8. Regional Consortium meets every 2nd and 4th meeting of the month, and she reported that the printed catalog WILL not include these certificates as certificates. B. Sanders said that they would be included in the catalog, just listed as Skills Recognitions. L. Senechal mentioned that there are also certificates for fewer than 12 units, and K. Walters Dunlap commented that yes, those are an issue. L. Senechal reported that all of those certificates will appear in the 2008-2009 catalog as Skills Recognitions.

c. Hours of Instruction
   CC Leadership
L. Senechal reported that this was on the agenda as an update. B. Sanders asked the committee whether or
not courses where there is a disparity between hours and units earned must come through immediately for update, or whether they should come through on periodic review. K. Walters Dunlap commented that this was effective immediately... M. Adams asked if it was a clarification or a new rule, because that would influence our action. B. Sanders commented that we could identify courses that fall into that category. He suggested that we identify them and ask them to come through in the next year. B. Sinclair commented that his area has some, and that it would be nice to get some direction from the Curriculum Committee to “get on the ball.” K. Walters Dunlap commented that she would prefer that it be effective immediately. C. Mulder asked about block scheduling, and mentioned complications with block scheduling, and that some classes will not work with that format. She asked if all classes were changed to 52.5 lab hours, would then every class be brought through for approval or would a blanket approval serve that process? K. Walters Dunlap said a blanket approval would be appropriate. There was no clear resolution.

**d. Skills Recognitions: 12 Units or Fewer**  
Brian Sanders

B Sanders noted that there were a number of “12 unit or fewer” certificates in the catalog that would no longer be recognized by the state, so, he asked the committee if MJC should recognize those certificates? J. Sola noted that the certification for his 6 unit course is granted externally. M. Garcia asked if the evaluators put that certificate on the transcript. J. Sola noted that there is no point of feedback as to whether or not students who complete the MJC program actually get certified. P. Guerra Schmidt shared that the Child Development program would be getting rid of the CLLDV Assistant 6-unit certificate. L. Senechal noted the “Certificate of Completion” in Culinary Arts that is in the catalog, even though it is conferred by the instructor not Evaluations. K. Walters Dunlap noted that those should be removed. B. Sinclair wondered how many would be affected. B. Adams commented this was a philosophical issue. B. Sinclair said we might consider leaving it open. K. Walters Dunlap commented that they should not be in the catalog. G. Boodrookas mentioned that it is a marketing issue. A. Peek asked if a certificate in Shielded Metal Arc Welding makes a student prepared for employment. Members commented ‘yes,’ to which A. Peek stated that we should then keep the 6-12 unit certificates on the books. B. Sanders not certain that they should be pulled from the catalog. Per B. Sanders said that S. Agostini’s email (distributed at the meeting) provides good suggestions as to where to go from here. B. Adams commented that we also need to be cognizant of how it affects the evaluative process, and that we have a goal of working closely with Evaluations. B. Adams called for discussion. P Guerra Schmidt asked if employers actually use certificates? She asked if the employers care about them, or do they really want to know if they care. B. Sinclair commented that history has shown it was a track record, wherein the certificate is equated with employability. C. Mulder commented that certificates or cards are granted after completing a CPR class, which C. Mulder determines. B. Sanders added that S. Agostini provided a history on past process for instructor-conferrered awards, and that breakdowns in record-keeping ended up adversely affecting students years later because non-institutional awards were not tracked. K. Walters Dunlap agreed that Records needs to keep track of information, and that the committee needs to come to agreement with S. Agostini on this issue, because it will affect the staff in that area, by printing awards and fielding inquiries, etc. L. Senechal informed the committee that Datatel has a way of organizing certificates by the number of units associated with the award. There was a suggestion that the Welding faculty comment on this issue, and how it would affect students. B. Sinclair suggested that we clarify the difference between externally and internally conferred certificates. He asked if we couldn’t separate them out, and that a distinction would be helpful. L. Senechal asked if she should remove them, and was told no by B. Sanders. M. Adams shared the same perception. K. Walters Dunlap said that the Instruction Office should ask of the state. B. Adams said that we should readdress the issue later. M. Adams informed L. Senechal that she could act at the discretion of K. Walters Dunlap.

**B. Adams noted that she would be out of order, in that no motion had ever been made relating to all R. Cranley’s points on the revised Associate Degree requirements.**

**Motion:** Any motion not proposed before pertaining to the **University Preparation Pathway and Career and Technical Education**, that it be proposed for approval now.

Discussion: L. Senechal thanked R. Cranley for her diligent work on finding all of the complications in the pattern that could pose problems for students or for the Curriculum Committee.
M/S/U (A. Peek, L. Lanigan)

e. Catalog  
L. Senechal reported that the first COURSE/PROGRAM proof had been electronically distributed, and that she was grateful that K. Walters Dunlap had invited her to IAC to explain the process and its breakdowns. She reiterated that the catalog is manually generated. K. Walters Dunlap noted that it’s a rollover of previous year, and that errors should be proofed throughout the document. She added that degrees are wrong on individuals. L. Senechal added that language throughout the catalog can be erroneous. B. Sanders countered that, on the other hand, if faculty members do not like the program as configured, they may not change requirements without CC oversight. L. Senechal cited a revision where the faculty member had changed the language for the requirements with a new stipulation, and that such changes were not acceptable, either.

IV. NEW BUSINESS

1. Curriculum Review Cycle  
Brian Sanders

B. Sanders passed discussion of the item to K. Walters Dunlap. K. Walters Dunlap mentioned she has proposed changes to the MJC curriculum review (in DRAFT format) process. She wanted to be clear that this is a draft. She mentioned that she observed huge curriculum agendas in November and that everyone is overwhelmed by curriculum agendas. She added that curriculum compliance and program review are not linked nor holistic at MJC. She mentioned that MJC’s course-by-course approval process is not helping us in terms of accreditation. What defines a department, “curriculum.” To have an effective program review, you need to look at your curriculum review. She commended the speech department for a thorough review of the curriculum. She proposed that the committee change to a more programmatic view of curriculum. She pointed the committee’s attention to the documents, citing examples of how it would work. Holistic perspectives of programs reveal holes that might get missed in a course-by-course process. She pointed out and explained the steps involved. She added that changing from a course-centered perspective to a programmatic perspective can be tough. She called attention to Sierra’s matrix for when programs were approved. She also shared that the way courses were reviewed were important to the process, citing math as an example, because of it’s role as a prerequisite for so many courses an programs. This necessitated that it should be reviewed first.

2. Expedited Program approval  
Mike Adams

No discussion

3. Educational Requirements Committee  
Karen Walters Dunlap

K. Walters Dunlap brought for the concept of an Educational Requirements Committee, overseen by the Academic Senate. She mentioned that this committee would be constituted of faculty AND matriculation personnel. This group would be poised to closely evaluate educational requirements to ensure that they were in the best interest of the student in both the short term and long term. This group would also provide support to faculty on the development of programs (degrees and certificates). M. Adams asked if this would reduce workload for the CC. B. Adams wanted to tie program review into curriculum review, and that this would help facilitate that. Combining this would help alleviate pressures on faculty. K. Walters Dunlap added that if we do not tie curriculum review into program review, we are not doing a good enough job. She commented that Public Safety and vocational programs must be reviewed frequently. Concerns were expressed about the number of classes in some areas. B. Adams commented that volume would be a consideration. K Walters Dunlap suggested that members think about it, and reminded the committee that this was Sierra College’s document.

4. Broadness of Degrees for Title 5 Compliance 08-09 (e.g. Physical Science, Behavioral/Social Science)  
Brian Sanders

B. Sanders noted that there are a number of broad degrees in the catalog that may not be compliant by Title 5. Do we need to remove it, or create an Area of Emphasis? Examples include AA: Family and Consumer Sciences, AA: Business and Behavioral Sciences.

5. Completion of State-Required Forms – Programs, NonCredit, etc.  
Letitia Senechal

L. Senechal reported that in the past few forms were required, but now more are surfacing. Who is responsible for
K Walters Dunlap commented that faculty should complete the required forms, but suggested that we look at what forms are being considered before taking further action.

V. SUBCOMMITTEES

1. **UPDATE: Special Topics, Experimental, Independent, Work-Experience**

   P. Mendez

   Course Development and Approval Guidelines Update

   P. Mendez shared that he and the subcommittee received templates and that the committee would review them. B. Adams shared that she had visited assist.org and had “sleuthed” out what other schools had done with special topics courses, and how they were attached to course outlines. She hopes that the subcommittee could use those also.

2. **UPDATE: CurricUNET Implementation**

   B. Sanders

   B. Sanders reported on activity surrounding CurricUNET implementation. He informed the committee that CurricUNET has the ability to import modules that have been developed for other colleges. As far as progress, he shared that there would be an all-day Steering Committee meeting (including himself, B. Adams, M. Adams, L. Senechal, R. Cranley, D. Phillips, and K. Walters Dunlap) on Tuesday, February 5 to look at the initial vision, and that CNET is asking a lot of technical questions. B. Adams added that on a later date, CurricUNET would like to provide a comprehensive training to many key people on campus. She added that CurricUNET already has modules in place to deal with Special Topics. B. Sanders cited the “major/minor” changes discussion that took place at the last meeting could have been confusing to some, and that he wanted to make it clear that when the committee is discussing Major/Minor changes and CurricUNET is discussing major/minor processes, that these are different issues. One is about revisions to a document, while the other is about major levels of approval, versus minor levels of approval – pending what type of action is taking place on a course.

3. **UPDATE: Time Limit on Catalog Rights and Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities**

   R. Cranley

   R. Cranley shared that the subcommittee would meet on Tuesday, February 5, after the CurricUNET meeting. She added that schedule conflicts are making it challenging for members to meet.

VIII. PUBLIC COMMENT

Others Present: M. McKinnon, L. Senechal

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

   Review and approval of the January 29 meeting minutes will be postponed until catalog production is complete.

II. NOTIFICATION

Correction to Minutes of April 3, 2007

   The minutes of April 3, 2007 have been corrected to include unit changes to FREN 103, SPAN 103, and SPAN 104 that were approved at that meeting. Each course increased units from 4 to 5.

   CLDDV 367  Current Issues: Preschool Teachers 1 001
   Effective: Summer 2008
   Special Topic Focus Area
   Enrollment Restrictions: No enrollment restrictions
   TMI Status: Not approved for TMI
   Materials Fee Status: No materials fee required.
   Articulation Status: Not a transfer-level course.
   General Education Status: Does not fulfill GE requirement.

   Hearing no objection, the Notification Agenda was approved

III. CONSENT

   PHYS 165  Introductory Physics 5 005
   Effective: Summer 2008 ( Expedited! )
   Modify: Hours, units
   Enrollment Restrictions: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete MATH 122 or be eligible for enrollment in Math 171 as determined by the MJC assessment process.
   TMI Status: Not approved for TMI
   Materials Fee Status: No materials fee required.
   Articulation Status: Transfers to CSU and UC.

   Hearing no objection, the Consent Agenda was approved
IV. DISCUSSION

**OFADM 311**  
**Business Proofreading and Editing**  
Effective: Summer 2008 *(Expedited!)*  
Modify: Methods of instruction

Articulation Status: Not a transfer-level course.  
General Education Status: Does not fulfill GE requirement.

*M/S/U (C.Hudelson-Putnam, B. Sinclair) to approve TMI for OFADM 311.*

Rationale for expedited approval was not included with TMI form. The representative commented that it was not clear what the process is. B. Adams reported that the CC had discussed it at an earlier meeting. The question arose as to whether or not TMI requests out of the curriculum review cycle require a rationale. It was suggested that anytime there is need for expedited approval, that the author be required to provide it. The committee was reminded that it is possible to approve TMI, without approving for expedited approval.

/ /FAILED to expedite approval for OFADM 311.

**OFADM 320**  
**Telephone Techniques**  
Effective: Summer 2008 *(Expedited!)*  
Modify: Hours  
Enrollment Restrictions: No enrollment restrictions  
TMI Status: Not approved for TMI  
Materials Fee Status: No materials fee required.  
Articulation Status: Not a transfer-level course.  
General Education Status: Does not fulfill GE requirement.

B. Adams reported that this course has already been offered and is “stuck” in CurricuWeb, and mentioned that the faculty author had provided a strong rationale.

*M/S/U (B. Sinclair, C.Hudelson-Putnam) to approve modifications to OFADM 320  
M/S/U to expedite approval OFADM 320.*

It was noted that there was a typo in the memo. The request for approval was for Summer 2008 not Summer 2007.

V. OLD BUSINESS

1. **Title 5 Compliance Progress**
   a. **University Preparation Pathway/Career Preparation Pathway**  
      Ruth Cranley  
      029

R. Cranley provided a recap of what motions passed at the last meeting. She also noted that many issues were left out of the motion. She noted that the committee had also not officially voted on the creation of two new Associate Degree pathways. There was discussion about how to handle students who attempt preparation for and then transfer to high unit majors. How would these students be held to requirements that could be evaluated against internal requirements, without adversely affecting their transfer into target majors? There was a great deal of discussion about ways to do this. One proposal was to create a third pathway for high unit major, although it could not happen in time for the printed catalog, which was slated to go to print in
two days. A member was concerned that the language about the availability of Areas of Emphasis was too extreme, and asked “are we to get all of them approved by that time?” B. Sanders commented that we would probably focus on developing the top 10 transfer majors first, for example Biology majors transferring to Davis, and Liberal Studies transferring to Stan State. It was also clarified that Certificate of Achievement and GE certification would both be referenced on the plans, to better clarify the differences between these two important elements.

There was further discussion. Clarification was sought about the meaning of the phrase upon receipt of associate degree you will also receive a Certificate of Achievement in General Education.” within the University Preparation plan “It was clarified that the student will earn a Certificate of Achievement for completion of either CSU-GE or IGETC, whether or not a degree is earned on top of that coursework.

R. Cranley asked if there were any changes to the Career and Technical Education plan, and there were no concerns noted.

M/S/U: (B. Sanders, R. Cranley) Move approval of the University Preparation Pathway and the Career and Technical Education Pathway, (with revisions noted in the discussion) with a friendly amendment that the University Preparation Pathway be amended with a third option for high unit majors, reading something to the effect of: “Work with a counselor to determine if the UP Pathway is right for you” or “A third option for high unit majors may be available in August.”

b. Skills Recognitions – Update on Conversion Process Karen Walters Dunlap

for 17 Unit or Fewer Awards

K. Walters Dunlap reported that there was a deadline of February 8 for deans to have applications for 12-18 unit Certificate of Achievement conversion in to the Instruction Office so that they could be submitted for regional, followed by state approval. She reported that some faculty decided not to proceed with specific certificates because they were no longer viable. That list will be provided at a later meeting. The question remains is “do we completely remove those from the catalog that are not submitted for approval?” Approximately 40 certificates were submitted.

c. Hours of Instruction CC Leadership

This item was struck from the agenda for discussion.

d. Skills Recognitions: 12 Units or Fewer Brian Sanders

B. Sanders called the committee’s attention to Certificates of Achievement for 12 units or fewer which are no longer to recognized by the state. It was asked, are these viable awards? Is it possible to have two courses yield a certificate of achievement? Representatives answered “yes.” Many Certificates have been created to meet local industry needs. The question arose as to the role of the MJC certificate in the job seeking process. Is a student at an advantage with an MJC Certificate? Many members shared that students usually relied on proof of competencies that are externally granted, e.g., , or a CPR Provider Card. However, Nursing must directly link state certification to a certified and accredited nurse training program. One question was raised, “if we pull such awards from the catalog, will that impact marketing of such specialized programs?” The committee discussed the relevance of tracking such specialized series of coursework through Evaluations, without officially granting an award. S. Agostini shared that it would be possible to record sequences without it appearing on the transcript. The committee arrived at keeping awards 12 units or fewer in the catalog, and calling them Skills Recognitions, although no formal motion was made.

e. Catalog Letitia Senechal

L. Senechal reported on the progress of the catalog, and that divisions were currently proofing her work. She reported that curriculum revisions are still being attempted during the catalog proofing process. K. Walters Dunlap asked who, and L. Senechal responded that revisions like that are attempted across the board, secretaries, faculty. B. Adams confirmed this with her own examples. K. Walters Dunlap said that she would
2. Curriculum Review Cycle
Karen Walters Dunlap

K. Walters Dunlap shared that a draft of a revised Curriculum Review Cycle went out for review, and that she is waiting to hear responses from stakeholders. In two weeks there will be a response. She commented that the accreditation report is not good, and that the time to dialog has ended because Accreditation has made the decision for us about how to streamline our review and to move from a course-centered focus to a programmatic focus. We need a cyclic review of curriculum from a programmatic perspective by October 2008.

3. Educational Requirements Committee
Karen Walters Dunlap

K. Walters Dunlap is waiting to hear responses to the Educational Requirements Committee. B. Sanders expressed concern that moving graduation requirements from the Curriculum Committee’s hands to another group would not be beneficial to curriculum review, and that movement of programmatic review to an Educational Requirements committee would be a fundamental change to the curriculum review process. C. Hudelson Putnam countered that it could help curriculum review, because people tend to fear the learning curve associated with being a curriculum representative. K. Walters Dunlap reported that discussion has gone to the eboard for further consideration. L. Senechal asked if such a change would streamline the curriculum development and review process at all levels. K. Walters Dunlap commented that it would.

4. Broadness of Degrees for Title 5 Compliance 08-09
Brian Sanders
(e.g. Physical Science, Behavioral/Social Science)

B. Sanders asked the committee to consider assorted degrees from MJC that may be considered “too broad” per the new Title 5 standards. Many associate degrees may come under scrutiny from the state because of a lack of focus. Examples of such degrees include, AA in Behavioral and Social Sciences, AA Family Consumer Sciences. It was noted that the AA in General College is going away. B. Sanders reported that S. Lowe from the System Office very specifically cited analogous programs at other schools as being ‘too vague.” C. Hudelson-Putnam expressed concern for programs against which such majors are modeled with the intent of transfer preparation, e.g. Behavioral and Social Sciences for transfer to CSU Stanislaus. B. Sanders read aloud from Executive Order 5 of the State Chancellor’s Office:

VII. SUBCOMMITTEES

1. UPDATE: Special Topics, Experimental, Independent, Work-Experience
Course Development and Approval Guidelines Update
P. Mendez

There is to be a meeting on 2-13 regarding template construction.

2. UPDATE: CurricUNET Implementation
Implementation Subcommittee

The committee was updated on the status of CurricUNET implementation by members of the implementation subcommittee which includes M. Adams, B. Adams, D. Philips, B. Sanders, L. Senechal, R. Cranley, and K. Walters Dunlap. On February 5, a representative from CurricUNET came to MJC to discuss the “nuts and bolts” of implementation with members of the subcommittee. Various members reported on the outcomes of the meeting. B. Sanders reported that CurricUNET has many features that have been developed by other colleges to support processes analogous to MJC’s existing process, as well as some that have been developed to deal with needs that we have not yet addressed institutionally. Such modules are available to us, however, B. Sanders was clear that the subcommittee would not choose to take advantage of the modules without the endorsement and approval of the
Curriculum Committee. Examples of available modules now in use by other colleges include; “Institutional Learning Outcomes,” “mapping outcomes to assessment,” itemization of lab and lecture elements on the outline. K. Walters Dunlap encouraged the committee to take advantage of some features, given the college’s accreditation status. There was an interest in opening up the system for a preview by faculty. CC Leadership expressed concern that the system as currently configured was too raw. B. Adams said that CurricUNET implementation will be more contained. CurricUNET is scheduled to go live around the first week of May.

A side discussion occurred about the role of division support staff in the curriculum process. Some representatives asked that division staff be included in training. Curriculum leadership reported that division staff will not be involved in curriculum development any longer, because curriculum is a “faculty-driven” process. Some representatives were concerned that this would be a difficult transition for faculty members. One representative commented that it is the division staff that tends to have the institutional memory despite administrative and faculty turnover. L. Senechal reported that CurricUNET will be the institutional memory, and issues that currently plague the college will be addressed, like version control issues, and report-generating.

The committee saw the merit of many of the features, but wanted an opportunity to review them in context.

M/S/U (M. Robles, M. Lynch): To give the CurricUNET Implementation Subcommittee permission to work with CurricUNET to program, but not yet implement possible curriculum modules.

3. UPDATE: Time Limit on Catalog Rights and R. Cranley
Satisfaction of GE and competency requirements using Baccalaureate or higher degree from regionally accredited institutions and from Foreign Universities

R. Cranley reported that the subcommittee met on February 5. Topics of concerns included “should there be a time limit on catalog rights?” Due to concerns about students who are progressing incrementally with one to two courses per year, it was decided that the focus should not be on catalog rights, but how time limits should be established as it relates to modifications of certificates, degrees, course and program availability. What should be done? There will be a meeting on March 4 to further discuss.

VIII. PUBLIC COMMENT

There was no public comment.

Members Absent: G. Boodrookas, Z. Davidson (ASMJC), L. Lanigan, M. Lynch

Others Present: S. Fornelli

I. APPROVAL OF ORDER OF AGENDA

Subcommittee reports moved to top of agenda

II. APPROVAL OF MINUTES

January 29, 2008
February 12, 2008

Review and approval of the January 29 and February 12 meeting minutes postponed until March 11th meeting.

III. OLD BUSINESS

1. Title 5 Compliance Progress
   a. Skills Recognitions – Update on Conversion Process
      for 17 Unit or Fewer Awards
      Karen Walters Dunlap

   Some departments/divisions don’t want to move forward with submitting their <17 unit Skills Recognitions to the State during the current grace period. Someone asked if the Instruction Office would take responsibility for creating the CSUGE/IGETC certificates. This is unknown. Programs must be a defined series of courses, not just a collection of whatever units a student chose to complete.

2. Curriculum Review Cycle
   Karen Walters Dunlap

   Committee members were asked if they had floated the idea of the review cycle back at their divisions? No answer was given. Accreditation mandates adopting a review cycle. Committee needs to decide what programs and courses will be the first up to start the cycle. And what comes next. A schedule needs to be created that will begin this fall. CurricUNET can be set up to assist with creating and maintaining the cycle. Courses recently reviewed (within a year) can be wrapped into the package of courses being submitted as a group.
   K Walters Dunlap will bring the topic of the review cycle to IAC.

3. Educational Requirements Committee
   Karen Walters Dunlap

   Until Program Review is settled, the idea of an Education Requirements Committee will be postponed (postponed indefinitely).
Curriculum Committee Minutes February 26, 2008

APPROVED

4. Broadness of Degrees for Title 5 Compliance 08-09 (e.g. Physical Science, Behavioral/Social Science)  
Brian Sanders  
(See discussion under 'Title 5 Compliance Progress - a. Skills Recognitions – Update on Conversion Process for 17 Unit or Fewer Awards')

5. CurricUNET Features (Lab Content, Institutional Outcomes, Matching)  
Brian Sanders  

MOTION: Courses that have LAB component need to spell out what is contained therein when entering the course content in CurricUNET. (R. Cranley)  
LDTP needs the content for LAB courses to be explicitly stated on outlines.  
Concern was expressed about courses that are a blend of LEC and LAB (e.g. MUSIC and PE courses.)  
AMENDMENT: “…have either required content or a standard text saying, ‘This is a combination LEC/LAB class.’…” Maybe as a checkbox in CurricUNET (B. Sanders) No objection to friendly amendment.  
M/S/U to approve amended motion

Science Labs need a textbook. This is being required by four-year public institutions.

MOTION: To activate/implement the requirement that institutional outcomes must be selected for each course. (B. Sanders)  
Outcomes can include many things; academic, life long learning, etc.  
M/S/U to approve

MOTION: To require matching course outcomes to methods of assessment (A. Peek)  
M/S/U to approve

IV. NEW BUSINESS

1. Curriculum Committee Membership - Addition of Matriculation Representative  
Karen Walters Dunlap

According to existing bylaws, the Matriculation Representative is a voting member.

2. Credit by Examination & CurricUNET  
Brian Sanders

MOTION: To include a checkbox in CurricUNET to indicate if a course is eligible for Credit by Examination (M. Robles)  
M/S/U to approve

3. Curriculum Meeting/Submission Calendar for 2008-2009  
Barbara Adams  

Sample calendar for the 2008-2009 year was presented. One member pointed out that the school would be closed on November 11 and therefore we shouldn’t schedule a meeting. Another member suggested that the spring dates be moved back a week to allow for a week between the beginning of the semester and the first curriculum meeting.

One member requested a calendar/schedule for CurricUNET training.

V. SUBCOMMITTEES

1. UPDATE: Special Topics, Experimental, Independent, Work-Experience  
Pedro Mendez

Subcommittee is making progress. They will meet again on Thursday, February 28.
2. **UPDATE: CurricUNET Implementation**  
   Karen Walters Dunlap  
   Subcommittee members have had the opportunity to play around with the system. CurricUNET people were looking to find out who submitted the data. They said it was the cleanest data they’ve ever seen. The Curriculum Committee was invited to move across the hall at the end of the meeting to see a demonstration.

3. **UPDATE: Satisfaction of GE and competency requirements using course work from foreign universities**  
   Ruth Cranley  
   Subcommittee last met on February 5. They will meet again on March 4.

**VIII. PUBLIC COMMENT**

The topic, “Areas of Emphasis” needs to reappear on the next agenda.

I. APPROVAL OF ORDER OF AGENDA

P. Bettencourt asked to add SLO Update to New Business. Apart from that, no objection to order of agenda

II. APPROVAL OF MINUTES

January 29, 2008
February 12, 2008
February 26, 2008

Review and approval of the January 29 minutes postponed.
February 12 minutes not approved.
February 26 minutes approved after corrections to show that J. Beebe, M. Boyd, and C. Hudelson-Putnam were present at that meeting.

III. NOTIFICATION

The committee was notified as to the following items.

Correction to Minutes of November 22, 2005
The following courses were approved at the November 22, 2005 with the approval action as “M/SU to Approve ANSC 200” (an incorrect department and course number). The minutes of that meeting have been corrected to reflect the accurate course and number.

Engineering Award Approvals – Correction to the minutes of 10/23/07

On the 10/23 agenda, it read that the Engineering AS degree was up for review, however actual review of that degree did not take place until 11/06/07. On 10/23/07, the Engineering Technology and the Engineering Drafting Technology AS degrees were under review and were approved. The minutes from 10/23/07 will be updated to accurately reflect approvals of both awards instead of Engineering AS degree.

VI. OLD BUSINESS

1. Title 5 Compliance Progress
   a. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards
      Karen Walters Dunlap
      People are working on it
   b. Broadness of Degrees: (e.g. Social Science, Family and Consumer Sciences, Foreign Language)
      Brian Sanders
      C. Hudelson-Putnam, P. Bettencourt, and P. Guerra-Schmidt will have something for the fall.
   c. Areas of Emphasis
      Brian Sanders
      B. Sanders will create a letter to instruct faculty how to create Areas of Emphasis
   d. AOEa and Production of 08-09 Addendum
      Letitia Senechal
      Will AOEa be finalized by the end of the semester? The college catalog says that they will be available in the Counseling Office by August.
      MOTION: That MJC uses the Area of Emphasis designation for preparation for transfer. That everything submitted by June 1st will be forwarded for State approval for intended publication in August. (B. Sanders)
      M/S/U to approve.

2. Curriculum Review Process
   Karen Walters Dunlap
   We are waiting for results from Program Review.

3. Educational Requirements Committee
   Karen Walters Dunlap
   (This item postponed indefinitely)
   This item continues to be postponed.

   Barbara Adams
   The committee asked that the new AOE deadline of June 1st be added to the calendar.

VII. NEW BUSINESS

1. CurricUNET Training
   Karen Walters Dunlap
   CurricUNET representatives will be on campus for 2 days to train Curriculum Committee members. B. Sanders will work with CurricUNET folks to determine those dates.

2. SLO Update
   P. Bettencourt asked where expected outcomes would be listed. The answer was: On course outlines. B. Sanders expressed the point of view that SLOs are already on course outlines in the form of Objectives.

VIII. SUBCOMMITTEES

1. UPDATE: Special Topics, Experimental, Independent, Work-Experience
   Pedro Mendez
   Sub-committee has met, is making progress, and will meet again around the 20th of the month.

2. UPDATE: CurricUNET Implementation
   Brian Sanders
   CurricUNET people are working on the hours to units relationship, particularly with variable unit courses.

3. UPDATE: Satisfaction of GE and competency requirements using course work from foreign universities
   Ruth Cranley
   Sub-committee did not meet due to illness. Next meeting is scheduled for the 18th of March.

IX. PUBLIC COMMENT
I. APPROVAL OF ORDER OF AGENDA

Order of agenda adjusted so that reports and discussion about Old and New Business could take place first to allow time to make quorum.

II. APPROVAL OF MINUTES

M/S/U to approve restrictions for MACH 395A,B (B. Sinclair)
Curriculum Committee Minutes (Rev. 3/30/2009)

March 25, 2008

V. OLD BUSINESS

1. Title 5 Compliance Progress
   a. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards  
      K. Walters Dunlap
      B. Adams reported that K. Walters Dunlap is under the impression that what the committee had decided was 
      moving forward.
   b. Broadness of Degrees – Revised Deadlines and Instructions  
      B. Sanders
      Several degrees that are being revised to meet with State guidelines will need to be approved by the Board of 
      Trustees in May in order to meet the State’s deadline.
   c. Areas of Emphasis  
      B. Sanders
      More discussion is taking place regarding Area’s of Emphasis. B. Sanders asked B. Adams to schedule a meeting 
      with the two of them and Kim Bailey.
   d. Awards Earned in 2008-2009  
      P. Bettencourt, L. Senechal
      Confusion persists about Areas of Emphasis. How are they different from majors? Some differences include: 
      Majors closely parallel lower division course work at a university. Areas of Emphasis need not. Every course in a 
      major needs to be offered within a two year time period. An Area of Emphasis would not have this requirement. 
      An AOE is broader than a major.
      B. Sanders suggested that the word “Preparation” be part of all degrees containing an AOE. (e.g. AA: Psychology 
      Preparation, AA: Science and Mathematics Preparation)
      L. Senechal reported that S. Agostini believes that MJC is conferring Transfer Degrees incorrectly. Further that we 
      would need to reapply for approval, from the State, for every AA degree we offer. B. Sanders and B. Adams 
      disagreed with this interpretation. B. Sanders will follow up with S. Agostini.
      All AOE’s will be AA degrees.
   e. AOE’s and Production of 08-09 Addendum  
      L. Senechal
      No report.

2. Curriculum Review Process  
   K. Walters Dunlap
   B. Adams presented a draft of a proposed curriculum review cycle. Good Practices suggests that courses should not 
   be reviewed piecemeal but programmatically.

3. Educational Requirements Committee  
   K. Walters Dunlap
   (This item postponed indefinitely)

4. CurricUNET Training  
   K. Walters Dunlap
   There is no additional information at this time
VI. NEW BUSINESS

1. **IGETC Update**
   R. Cranley
   Postponed until April 8 meeting

2. **Accreditation, Curriculum and SLOs**
   P. Bettencourt, L. Senechal
   (More) Communication needs to take place between the Curriculum Committee and the SLO committee.
   There is not enough time before the next Accreditation Progress Report to include SLOs into all course outlines. There is, however, time to identify SLOs for all courses and include them on the course syllabus to be kept on file in the Division Offices. Eventually, the expected outcomes and means of assessment, etc. will be warehoused with all the other information on course outlines.

3. **Election of Curriculum Co-chair**
   M. Adams
   M. Robles nominated B. Adams for another term as Curriculum Committee Co-chair. There were no other nominations and the committee unanimously re-elected Barbara to a second term.

VII. SUBCOMMITTEES

1. **UPDATE: Special Topics, Experimental, Independent, Work-Experience**
   P. Mendez
   Sub-committee has not met

2. **UPDATE: CurricUNET Implementation**
   B. Sanders
   No new information to report

3. **UPDATE: Satisfaction of GE and competency requirements using course work from foreign universities**
   R. Cranley
   No report

VIII. PUBLIC COMMENT

P. Bettencourt reported that it has been suggested that the Curriculum Committee take the lead on identifying SLOs for the IGETC and CSU-GE patterns. B. Adams will follow up.

Meeting adjourned at 3:40

Others Present: S. Fornelli, L. Senechal, R. Stevenson

I. APPROVAL OF ORDER OF AGENDA

No objections to the order of agenda

II. APPROVAL OF MINUTES

January 29, 2008 minutes approved after minor corrections.
March 25, 2008 minutes approved.

V. PROGRAMS

Industrial Technology - Electrician Program – (INTEC)

*Expedited approval for (Summer 2008)*

Certificate: Industrial Technology – Electrician

AS Degree: Industrial Technology – Electrician

**M/S/U to approve Industrial Technology – Electrician Program (K. Ennis)**

**M/S/Failed to approve EXPEDITED OFFERING of Industrial Technology – Electrician Program (P. Mendez) A-6, N-7**

P. Mendez was present to ask for expedited approval for this program. Some points that were brought up include: Problem with the timing of the requested change; it would contradict the catalog. Would it be better for the student to implement these changes according to the existing schedule or to have them go into effect earlier than normal? The Evaluators rely on the printed catalog when granting degrees. Ultimately, the committee approved the change to the program but voted against implementing it earlier than Summer 2009. The committee recommended that the division advise student to take specific courses which would serve as electives under the current plan, but be required courses within the revised program.

VI. OLD BUSINESS

1. **Title 5 Compliance Progress**
   a. **Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards**
      
      No update except to report that follow-up is taking place with deans.
   
   b. **Broadness of Degrees – Revised Deadlines and Instructions**
      
      Permission for the use of the state’s 520 form had been set to expire July 1st. This has now been extended, although it was unclear for how long.

      **Areas of Emphasis**
      
      B. Sanders, B. Adams, and K. Bailey met and looked at an example of an approved degree with areas of emphasis from Hartnell College. They liked it. It shows both breadth and depth. They intend to borrow from that design and model our own future degree proposals on it.

   c. **AOEs and Production of 08-09 Addendum**
      
      No report

2. **Curriculum Review Process**

   To respond to Accreditation demands, a new curriculum review cycle will begin in Fall of 2008. At the May 6th meeting, the committee will be asked to vote on the revised curriculum review process. Division deans are working out placement of the various disciplines within the 5-year cycle. Courses need to be kept compliant but eventually courses and programs will be synced to the same semester. Committee opinion was in favor of a template, with instructions and expectations, for faculty to use when reviewing programs. B. Adams will bring a draft of such a template to a future meeting.

3. **Educational Requirements Committee**

   (This item postponed indefinitely)

4. **CurricUNET Training**

   K. Walters Dunlap and B. Adams will schedule 2 days of training to take place in May.

VII. NEW BUSINESS

1. **AP Exam Update**
   
   R. Cranley

2. **IGETC Update**
   
   R. Cranley
   
   R. Cranley went over some of the changes to the IGETC approval criteria/process.
VIII. SUBCOMMITTEES

1. **UPDATE: Special Topics, Experimental, Independent, Work-Experience**  
   P. Mendez  
   Sub-committee has not met.

2. **UPDATE: CurricUNET Implementation**  
   B. Sanders  
   Programmers continue to work on it.

3. **UPDATE: Satisfaction of GE and competency requirements using course work from foreign universities**  
   R. Cranley  
   Sub-committee has not met.

IX. PUBLIC COMMENT

B. Adams asked that committee members review program listings in the catalog to ensure clarity in requirements, as evaluators sometimes have difficulty interpreting them.

Others Present: S. Fornelli, B. Hutchison, L. Senechal, R. Stevenson

I. APPROVAL OF ORDER OF AGENDA

No objections to the order of agenda

II. APPROVAL OF MINUTES

April 08, 2008

April 08, 2008 minutes approved.

III. NOTIFICATION

The committee was notified as to the following item.

IGETC / CSU-GE Submissions Results December 2007

EASCI 162  METEO 161

UCOP and CSU Office of the Chancellors changed their decision to approve the lecture AND the lab portion of these courses for inclusion on their respective breadth patterns.

V. PROGRAMS

AA: Language Studies

Effective: Summer 2008

Modify: Title, required and elective courses

M/S/U to approve AA: Language Studies Program (A. Peek)

There was discussion about whether or not this program should be effective SU 2008 or SU 2009. How would that affect the INTEC program modifications that were approved at the April 08, 2008 meeting? One of the co-chairs pointed out that there was no rationale for expedited approval as would be required by committee policy. It was observed that meeting the old requirements would not satisfy the modified degree. Nor would meeting the new requirements satisfy the old degree.

Discussion moved to the question of whether or not to include this revised degree (and the recently modified INTEC degree) in the addendum to the college catalog that will be published in the summer of 2008. One idea was to include the revised degrees and also a paragraph stating that petitioning for course substitutions could take place. L. Senechal suggested that yes, a paragraph announcing the degrees as ‘coming attractions’ should be published but without the degrees’ requirements. The concern was that listing the requirements might cause confusion as to when the degree would be effective.

Lit & Lang representative asked if expedited approval need to take place at all since the program had met the deadline for the ‘addendum meeting’.

It was clarified that the changes to the program would supplant the previous program. The old and new versions will not be effective at the same time.

There was concern expressed that it would seem like the committee was playing favorites if this degree was approved for Summer 2008 while an earlier submission, the INTEC program, was denied. A distinction was made about why this program might be eligible for expedited approval when INTEC was not. The Language Studies degree was being modified to make the program compliant with Title V.

MOTION: To include both revised programs in the addendum to be used as advising tools for the following year, but only if S. Agostini (Dean of Matriculation) saw no problem with doing so.

M/S/U to approve. (B. Sanders)

VI. OLD BUSINESS

1. Title 5 Compliance Progress
   a. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards K. Walters Dunlap
   b. Broadness of Degrees – Revised Deadlines and Instructions B. Sanders
   c. Areas of Emphasis B. Sanders

   B. Sanders presented a group of proposed AoEs that he, K. Bailey, & B. Adams had created. R. Stevenson was present to recommend some modifications to the Art and Design AoE. Those modifications were accepted by the committee. Several additional modifications to other AoEs were suggested and, for the most part, accepted. C. Hudelson-Putnam requested that an email be sent to key faculty from affected disciplines to allow them the opportunity to request modifications and to inform them that AoEs will continue to be developed into the future.

   MOTION: To approve, as modified, these AoEs for the University Preparation degree. Further that permission to make minor changes as needed be granted to the subcommittee working on this project.
   M/S/U to approve. (B. Sanders)

   B. Sanders presented a General Studies degree that could serve as a replacement to the previous General College degree. The new degree is modeled on a similar degree offered at Hartnel College that has received State approval.
MOTION: To approve the proposed General Studies degree, to make it effective as of Summer 2008, and to publish the requirements for this degree in the forthcoming college catalog addendum.
M/S/U to approve. (B. Sanders)

MOTION: That for degrees earned by following the Career and Technical Education Pathway, step five can be satisfied by completing the CSU-GE or IGETC requirements.
M/S/U to approve. (B. Sanders)

d. AOEs and Production of 08-09 Addendum
   L. Senechal
2. Curriculum Review Process
   B. Adams
   B. Adams is working on a draft of a template that faculty can use to assist them in reviewing their courses. This template is based on the process utilized for Program Review.
3. Educational Requirements Committee

VI. NEW BUSINESS

1. 2007-2008 Curriculum Training Manual Feedback
   B. Adams
   B. Adams will be emailing a feedback form to the committee.
2. Revised outlines needed to reflect articulation correspondence:
   EASCI 162, MATH 134, METEO 161
   B. Sanders

VII. SUBCOMMITTEES

1. UPDATE: Special Topics, Experimental, Independent, Work-Experience
   B. Adams
   Subcommittee has not met.
2. UPDATE: CurricUNET Implementation
   B. Sanders
3. UPDATE: Satisfaction of GE and competency requirements using course work from foreign universities
   R. Cranley
   Subcommittee has a meeting scheduled for May 14th.

VIII. PUBLIC COMMENT

Members Absent: G. Boodrookas, T. Lopez (ASMJC), E. Maki

Others Present: S. Fornelli, L. Senechal

I. APPROVAL OF ORDER OF AGENDA

No objections to the order of agenda

II. APPROVAL OF MINUTES

May 06, 2008

May 06, 2008 minutes approved.

III. NOTIFICATION

The committee was notified as to the following items.

FSCI 352  Training Instructor 1A 2
Effective: Spring 2009 Expedited!
Modify: Title, materials fees
Enrollment Restrictions: Maintaining (P) Satisfactory completion of FSCI 301.
TMI Status: Not approved for TMI.
Materials Fee Status: Requesting Materials Fees in the amount of $110.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirements.
Note: This course is currently being worked on in CurricUNET.
The committee was notified of EXPEDITED APPROVAL for FSCI 352

S. Agostini asked that the reference to unlimited repeats in both FSCI courses be reworded to refer to legally mandated training.

FSCI 353  Training Instructor 1B 2
Effective: Spring 2009 Expedited!
Modify: Title, materials fees
Enrollment Restrictions: Maintaining (P) Satisfactory completion of FSCI 352.
TMI Status: Not approved for TMI.
Materials Fee Status: Requesting Materials Fees in the amount of $110.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirements.
Note: This course is currently being worked on in CurricUNET.
The committee was notified of EXPEDITED APPROVAL for FSCI 353
M/S/U to refer to committee of B. Sanders & S. Agostini (J. Daly)

**MATH 62**
Mathematical Skills For the Sciences ½

Inactivate
Enrollment Restrictions: Maintaining (P) Eligibility for MATH 90.
TMI Status: Not approved for TMI.
Materials Fee Status: No Materials Fees required.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirements.
The committee was notified that MATH 62 is to be inactivated.

Correction to minutes of April 8, 2008

R. Cranley asked for a correction to the minutes of April 8. MATH 105 and MATH 106 were incorrectly noted as increasing units from 4 to 5.

Therefore, the minutes of 04/08/08 were revised as follows:

This motion had the effect of increasing the units (from 3 to 4) on the following courses:

MATH 105  MATH 106

This motion had the effect of increasing the units (from 4 to 5) on the following courses:

MATH 121  MATH 171  MATH 173
MATH 122  MATH 172  MATH 174

The committee was notified of the corrections to the minutes of April 8, 2008.

Areas of Emphasis

Local language for Areas of Emphasis will be "University Preparation: Emphasis in X" and L. Senechal "General Studies: Emphasis in X"

The committee was notified that Areas of Emphasis will be referred to as Emphases on degrees and within publications.

**LANGUAGE STUDIES AA**

Effective: Summer 2008
Modify: Title, required and elective courses

The committee was notified that of changes that took place over the summer to the proposed Language Studies AA degree currently pending approval at the CCCCCO

**CSU-GE/IGETC Results 2008-2009**

The committee was notified of MJC-GE course approvals for CSU-GE and IGETC transfer patterns effective for 2008-2009

**LDTP Results 2008-2009**

The committee was notified of approvals for Lower Division Transfer Patterns effective 2008-2009

**TCA Results 2008-2009**

The committee was notified of University of California,Transfer Course Agreement approvals (MJC courses that will transfer to UC) effective 2008-2009
The committee was notified that the California Community College Chancellor's Office has approved the following:

**AREAS OF EMPHASIS**

**CERTIFICATES OF ACHIEVEMENT**

### IV. DISCUSSION

**Changing Math and English Graduation Requirements?**

B. Sanders

*Should we remove English 50 from MJC-GE area D.1?*

*Should we remove Math 90 from MJC-GE area D.2?*

*Should any new classes created to meet the revised graduation requirements be added to D.1 or D.2?*

There was discussion about whether or not to remove MATH 90 from area D.2 of the graduation pattern. MATH 90 is now the minimum competency for graduation. Removing it from this list would force students to take something else, over and above what is already a requirement for graduation. The class taken from area D.2 need not be a MATH class. Should the same logic apply to ENGL 101 in area D.1 as it is now the minimum level for graduation?

M/S/U to make this question a “First Reading” (C. Hudelson-Putnam)

M/S/U to request success rates from the Research and Planning Office for ENGL & MATH students (J. Daly)

**PE 121  Coaching Effectiveness**

3

**Effective:** Spring 2009 *Expedited!*

**Modify:** Methods of Instruction (Modalities)

**Enrollment Restrictions:** No enrollment restrictions.

**TMI Status:** Requesting Online Modality.

**Materials Fee Status:** No Materials Fees required.

**Articulation Status:** Transfers to CSU.

**General Education Status:** Does not fulfill GE requirements.

**M/S/U to approve online modality for PE 121 (K. Ennis)**

Motion withdrawn (K. Ennis)

**PE 121 withdrawn by the division**

**AP Grid**

R. Cranley

R. Cranley announced revisions to the AP Grid and policy for MJC. The CSU and UC systems have released two documents that are to have a profound effect on our local interpretation of AP examinations, CSU Executive Order 1036, section 1.2.4 (coded memorandum AA; AA-2008-28) and IGETC version 1.0 Section 7, which essentially dictate how we interpret multiple AP examinations on CSU-GE and IGETC patterns. S. Agostini noted that numerous students send their AP transcripts to MJC. Concern was expressed about local authority on how AP Exams are used to satisfy MJC-GE requirements. M. Adams determined that it was the will of the committee was to:

**ACTION:** CC Representatives should bring the AP Grid back to their departments for area placement and discussion

**ACTION:** AP Grid will reappear on the October 7 Agenda under Old Business.

### V. PROGRAMS
Program change
AA: Music 28-34
Effective: Summer 2009
Modify: Required and elective courses
M/S/ to approve AA: Music (B. Sinclair) - Withdrawn
M/S/ to postpone AA: Music (J. Daly) – Withdrawn
In effect, there was no motion.

The program itself was discussed and then withdrawn, as the committee wished some minor changes to be made and then brought forth back to the committee.

1. Update the program proposal to reflect newly approved prefixes.
2. Correct unit value range on the program proposal.
3. Change the wording "sequential" to reflect student's ability to repeat completions and avoid confusion that the student is taking sequential courses.
4. Include documentation indicating the proposal includes typical music courses for music majors. For example, documentation from ASSIST showing what a CSUs requires of a music major.

MUSIC DEPT
Effective: Summer 2009
Proposing New Subdisciplines: MUSA, MUSC, MUSE, MUSG, MUSI, MUSP, MUST
Proposing New Numbering
M/S/U to approve renumbering of MUSIC courses (B. Sinclair)
Instruction Office will have to set up equates between old and new numberings.

VI. OLD BUSINESS

1. Title 5 Compliance Progress
   a. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards K. Walters Dunlap
      No word of approval on proposed vocational Certificates of Achievement. A response from the State is expected at any time. It was noted that faculty should continue to use the Certificate form that was developed a few years ago when applying for new [locally approved] Skills Recognitions.
   b. Broadness of Degrees – Revised Deadlines and Instructions B. Sanders
      BBSS Division is taking a look at the Behavioral and Social Sciences AA Degree which is a noncompliant degree per Title 5 in its current configuration. Family and Consumer Sciences AA is also in need of revision in order to be compliant. Both degrees as currently written will be struck from the 2008-2009 MJC Catalog Addendum.
   c. Areas of Emphasis B. Sanders
      This item was not discussed.
   d. AOEs and Production of 08-09 Addendum L. Senechal
      This item was not discussed.

2. Curriculum Review Process B. Adams
   B. Adams presented a draft of a Curriculum Review Process for the college. Should deans attend Curriculum Committee meetings when their division's programs are up for review? Committee felt that is would be highly recommended that the deans attend, but not required.
   M/S/U to approve Curriculum Review Process draft as amended (J. Daly)

3. Educational Requirements Committee K. Walters Dunlap
   (This item postponed indefinitely)
4. CurricUNET Training  
B. Adams and Brian Sanders announced forthcoming opportunities for faculty training.  
- Wednesday, September 24, 3 pm FH 154  
- Tuesday, September 30, 7pm Sierra 221  
- Friday, October 3, 10-12 FH 154 (tentative)  
- Friday, October 3, 1 pm, Sierra 221

5. Credit for Courses Taken at Institutions of Higher Learning Outside the United States  
R. Cranley  
R. Cranley asked for reps to discuss this with their divisions.

6. Revised outlines needed to reflect articulation correspondence:  
B. Sanders  
EASCI 162  
MATH 134  
METEO 161  
This item was not discussed

The meeting adjoumed at 5:05 PM.

VI. NEW BUSINESS

1. Revise Local AOE Guidelines to allow non-transferable AOE s for  
MJC-GE categories A, B, C, D  
This item was not discussed.

2. DE (Distance Education) vs. TMI (Technology Mediated instruction)  
This item was not discussed.

3. ASCCC: Course Outline of Record: A Curriculum Reference Guide  
a. Course Outline Language & Elements  
This item was not discussed.

VII. SUBCOMMITTEES

1. UPDATE: Special Topics, Experimental, Independent, Work-Experience  
B. Adams

2. UPDATE: CurricUNET Implementation  
B. Sanders

VIII. PUBLIC COMMENT

B. Sanders asked if it wouldn’t be a good idea to revert to the catalog production timelines and academic year timelines to those that were in effect until a few years ago. This would mean changing from a summer-spring catalog to a fall-summer catalog.

Motion: S. Agostini to investigate if/what ramifications may occur if catalog production/distributions timelines are delayed by three months resulting in catalog publications being released in July instead of March

M/S/U to approve request for S. Agostini. (J. Daly)
I. APPROVAL OF ORDER OF AGENDA

No objections to the order of agenda

II. APPROVAL OF MINUTES

May 06, 2008 minutes approved.

III. NOTIFICATION

The committee was notified as to the following approvals from the State.

CCCO Approvals:

- AA: General Studies with Areas of Emphasis
- AA: Language Studies

The committee was notified as to the following inactivations:

GERM 103
German 3
Effective: Summer 2009
Inactivate
Enrollment Restrictions: Maintaining (P) Satisfactory completion of GERM 102.
TMI Status: Not approved for TMI.
Materials Fee Status: No Materials Fees required.
Articulation Status: Transfers to UC and CSU.
General Education Status: MJC-GE: C, CSU-GE: C.2, IGETC: 3B.

The committee was notified that GERM 103 is to be inactivated.
GERM 104  German 4  4
Effective: Summer 2009
Inactivate
Enrollment Restrictions: Maintaining (P) Satisfactory completion of GERM 103.
TMI Status: Not approved for TMI.
Materials Fee Status: No Materials Fees required.
Articulation Status: Transfers to UC and CSU.
General Education Status: MJC-GE: C, CSU-GE: C.2, IGETC: 3B.
The committee was notified that GERM 104 is to be inactivated.

MATH 47  Skills for Success in Elementary Algebra  2
Effective: Summer 2009
Inactivate
Enrollment Restrictions: Maintaining (P) Satisfactory completion of MATH 20 or placement for MATH 70 by the MJC assessment process.
TMI Status: Not approved for TMI.
Materials Fee Status: No Materials Fees required.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirements.
The committee was notified that MATH 47 is to be inactivated.

MATH 49  Skills for Success in Intermediate Algebra  2
Effective: Summer 2009
Inactivate
Enrollment Restrictions: Maintaining (P) Satisfactory completion of MATH 70 or (MATH 71 and MATH 72) or placement for MATH 90 by the MJC assessment process.
TMI Status: Not approved for TMI.
Materials Fee Status: No Materials Fees required.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirements.
The committee was notified that MATH 49 is to be inactivated.

IV. DISCUSSION

BUSAD 201  Financial Accounting  4
Effective: Spring 2009 Expedited!
Modify: Description, content, methods of instruction, textbooks, learning goals, methods of assessment
Enrollment Restrictions: Maintaining (A) Satisfactory completion of BUSAD 310, (A) Satisfactory completion of ENGL 50 or Eligibility for ENGL 101 as determined by MJC Assessment process.
TMI Status: Approved for Online, Hybrid
Materials Fee Status: No materials fee required.
Articulation Status: Transfers to CSU and UC.
General Education Status: Does not fulfill GE requirement.
M/S/U to approve modifications to BUSAD 201 (K. Ennis)
M/S/U to approve restrictions for BUSAD 201 (C. Hudelson-Putnam)
M/S/U to approve online & hybrid modalities for BUSAD 201 (K. Ennis)
M/S/U to approve expedited approval for BUSAD 201 (B. Sinclair)
**BUSAD 202**  
Managerial Accounting  
**Effective:** Spring 2009  
**Expedited!**  
**Modify:** Description, content, textbooks, learning goals, methods of assessment, modalities  
**Enrollment Restrictions:** Maintaining (P) Satisfactory completion of BUSAD 201  
**TMI Status:** Requesting approval for Online, Hybrid  
**Materials Fee Status:** No materials fee required.  
**Articulation Status:** Transfers to CSU and UC.  
**General Education Status:** Does not fulfill GE requirement.  

**M/S/U to approve modifications to BUSAD 202 (K. Ennis)**  
**M/S/U to approve restrictions for BUSAD 202 (C. Hudson-Putnam)**  
**M/S/U to approve online & hybrid modalities for BUSAD 202 (K. Ennis)**  
**M/S/U to approve expedited approval for BUSAD 202 (B. Sinclair)**

**V. PROGRAMS**

**MUSIC (AA)**  
**Effective:** Summer 2009  
**28-34**  
**Modify:** Required and elective courses  

*This item postponed due to lack of information/changes*

**VI. UNFINISHED BUSINESS**

1. **Changing Math and English Graduation Requirements** (SECOND READING)  
   **B. Sanders**
   
   a. Should we remove English 50 from MJC-GE area D.1?  
   b. Should we remove Math 90 from MJC-GE area D.2?  
   c. Should any new classes created to meet the revised graduation requirements be added to D.1 or D.2?  

   The Math department feels that MATH 90 should be removed from area D.2. The English department likewise feels that ENGL 50 should be removed from area D.1.  

   The committee had requested some data to use in discussing this topic, but the date was not provided.  

   **M/S/C (1 nay) to remove ENGL 50 from area D.1 and to remove MATH 90 from area D.2 of the MJC Graduation Pattern (A. Peek)**

2. **AP Grid, Revisions to**  
   **R. Cranley**  
   
   There was further discussion about the revised AP Grid. Individual departments need to make the decision about whether course credit will be given for passing AP exams. Sciences will look at whether or not to continue to not award lab credit for passing AP exams. Committee members were again asked to take back to their divisions for feedback.
3. **Title 5 Compliance Progress**
   a. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards  
      K. Walters Dunlap
   b. Broadness of Degrees – Revised Deadlines and Instructions  
      B. Sanders
   c. Areas of Emphasis  
      B. Sanders
   d. AOE’s and Production of 08-09 Addendum  
      L. Senechal
   
   *Production of the Addendum will continue, time permitting.*

4. **CurricUNET Trainings**
   B. Adams
   
   A training is scheduled for Friday, October 10 at 8:00 in the AG Department.

5. **Granting of Credit for Courses Taken at Institutions of Higher Learning Outside the United States**
   R. Cranley
   
   Committee members were asked to take the latest draft back to their divisions for feedback.

6. Revised outlines needed to reflect articulation correspondence:  
   B. Sanders
   
   a. EASCI 162
   b. MATH 134
   c. METEO 161
   
   *MATH 134 can be taken off this list as the issues affecting articulation have been resolved.*

7. **Educational Requirements Committee**  
   K. Walters Dunlap
   (This item postponed indefinitely)

**VII. NEW BUSINESS**

1. Should we revise AOE Guidelines to allow non-transferable AOE’s for the non-transferable General Studies AA?  
   B. Sanders/B. Adams
   
   Add topic of ‘multiple degrees’ to next agenda.
   M/S/U to modify committee guidelines to allow AOE’s for the non-transferable General Studies AA (J. Daly)

2. **Local Language:** Should we use *Distance Education* or *Technology Mediated Instruction* (TMI)?
   
   *M/S/U to use the term Distance Education instead of Technology Mediated Instruction (J. Daly)*
3. ASCCC: Course Outline of Record: A Curriculum Reference Guide  B. Adams
   a. Course Outline Language & Elements
      Barbara gave a short presentation about the most recent version of the guide for the Course Outline of Record. Two questions that were raised: should we revert to calling the Student Learning Goals, Objectives? Should we revert to calling Methods of Assessment, Methods of Evaluation?

4. Student Learning Outcomes and the Course Outline of Record  A. Peek
   Adrienne asked the committee to change some of the terminology used on our local course outline. Student Learning Goals would become Objectives. Course Goal is where SLOs would be listed. No motion was made.

   Adrienne & Barbara will meet to work on a potential revision to the course outline and will bring the topic back before the committee.

VIII. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Committee  B. Adams
2. CurricUNET Implementation Committee Update  B. Sanders

V. DISCUSSION

Prior to voting on courses under Discussion, B. Sanders addressed a number of concerns raised by Curriculum Committee members regarding discrepancies or omissions that were appearing in various reports currently under review by the committee. He explained that data which has been entered is still safe within the CurricUNET system, but that the report programming is malfunctioning. This means that the errors that appear are merely problems in the way data is programmed to appear, and should be resolved by CurricUNET who is responsible for report programming. He recommended that the committee focus on what is showing on the CurricUNET interface, as opposed to the reports before the committee. Other procedural issues with CurricUNET were discussed. B. Sanders proposed a “re-check” of all data prior to catalog production.

BUSAD 210  Business Communication 3 129

Effective: Summer 2009
Modify: Methods of assessment
Enrollment Restrictions: Modifying (P) to read satisfactory completion of MATH 70 or (MATH 71 and MATH 72) or qualification by MJC Assessment Process.
Distance Education Status: Not approved for Distance Education
Materials Fee Status: No materials fee required.
Articulation Status: Does not transfer.
General Education Status: Does not fulfill GE requirement. Request placement to satisfy MJC Competencies.
Pulled for discussion with MATH 88 by M. Morales
M. Morales questioned the role of this new course in the math sequence. This course, with MATH 88, is being offered as an alternative branch to MATH 90 to satisfy the new math competency for graduation, in addition to preparing for higher level geometric courses. These courses will not lead to transfer level courses. There were questions about the relationship of these courses to the assessment process.
These courses were developed in response to concerns raised by faculty about the lack of math options for meeting the revised – more rigorous- math competencies for associate degree.
M/S/U to approve MATH 80 (C. Mulder, P. Guerra-Schmidt)
M/S/U to approve ENROLLMENT RESTRICTIONS for MATH 80 (J. Daly, M. Lynch)
M/S/U to allow MATH 80 to satisfy MJC Mathematics competencies (E. Maki, M. Lynch)

MATH 88
Algebra with Applications

<td>S. Agostini asked if the course was designed to assist specific math classes. What is it? It was explained that it is an open-entry/exit class consisting of ALEX modules ranging from basic math to calculus. It will give counselors a skill-strengthening course option for students who do not assess into a specific level course. After 60 days of coursework in this course, students will be able to reassess in the MJC Assessment process. Labs will collect positive attendance hours and the hybrid course will include face-to-face time.</td>

There were questions about communication in culture, and how that happens in an online environment. It was explained that this is social psychological course, learning about different cultures, but not specific to interaction. This is not applicable to classroom interaction, but the processes and theories that different groups and cultures observe.

MUSIC (AA)

Effective: Summer 2009
Modify: Units, required and elective courses

MUSIC AA pulled for discussion by S. Agostini

Changes requested at the last meeting were prepared by D. Keller. Recording the program as a substantial change on the agenda cover sheet was incorrect. E. Maki explained how students who are underprepared for MUST 121 Music Theory 1, will be able to enroll in a remedial theory in a short-term course, MUST1 11, Music Theory Review 1 meeting at the same time in an adjoining classroom. S. Agostini noted that the repeatability of certain courses must be repeated together in the program as proposed. S. Agostini informed the committee that repeat limitations have changed for visual and performing arts, allowing students to repeat each course 3 times, instead of completing the courses in the sequence in total up to three times. E. Maki informed the committee that 2-unit MUSIC 175, Symphonic Band will revise its units to align with other 1-unit performance ensembles. S. Agostini reminded that the catalog should make plainly clear the relationship of new course IDs to old, “formerly listed as.” Changes will need to be made in CurricUNET.

M/S/U to approve modifications to the AA in MUSIC (E. Maki, P. Guerra Schmidt)

Program Modifications (Substantial)

Agricultural Mechanics program awards

T. Conrado provided a comprehensive rationale for the changes to the programs in Agricultural Mechanics. He explained that these revised programs will provide competitive alternatives to programs offered at other private, more costly institutions. He reported that these programs are applicable to both transfer and non-transfer students. B. Sanders noted that these awards – although under 18 units, since will require CCCC0 approval since they are in a sequence.

II. IIIV. UNFINISHED BUSINESS
1. **Catalog Production Timeline** *(added to discussion by J. Daly)*

   B. Sanders reported that K. Walters Dunlap decided that the catalog production year is too far along to make a change in timelines, but that next year, the committee may want to investigate pursuing pushing back the deadline. L. Senechal asked the committee to consider that the effects of moving the deadline, because that most are not aware that the “CATALOG DEADLINE” also affects scheduling. She reported that schedules will no longer be published in spring, and therefore would be unavailable for high schools, recruitment events, among other applications. M. Garcia reported that the Student Services council was concerned that the effective date would precede the availability of the publication for advising purposes. Counselors believe it is beneficial to advise incoming students with the pertinent publication in hand. C. Hudelson Putnam expressed concern that the effective date would be affected adversely by pushing it back. L. Senechal shared that the history of the change to an earlier start day was driven by Datatel. In the past, academic year start dates were ambiguous. Then interim VP of Instruction, S. Collins inquired statewide about academic year dates and learned that many schools start a new academic year in summer following graduation. The committee played no role in determining when it is published. J. Daly ideated that it would be good to find a mutually beneficial solution to the problem, how do we meet the needs of both students and faculty? For example, why not elect individuals to the Curriculum Committee in January, instead of in May, so that they are better prepared to assist with timelines. B. Adams clarified that individuals do have the ability to be more proactive with curriculum development in the spring months prior to the deadline. It was also suggested that curriculum terms be extended from two to three years.

2. **AP Grid, Revisions to**

   R. Cranley gave another overview of the revised AP grid. Academic Senate subcommittee passed resolution that CCC’s should develop an equivalency for AP exams, and that we all comply so that transfer students are set up for success. This will be voted at the ASCCC Spring Plenary session. R. Cranley did not need action on the grid at this time.

Concern about the number of completions allowed and the requisite skills. M. Garcia noted the advisory within the reports, and the fact that the agenda cover sheet did not reflect the advisory. L. Senechal agreed that it needed correction and would be reflected in the minutes.

Another member sought clarification as to what the process is for consultation between divisions when the subject matter is being taught in other divisions, and if CurricUNET would have the feature built into CurricWeb. B. Adams confirmed MJC has requested that feature in CurricUNET. B. Adams added that – because of the current limitations of CurricUNET – that the committee is relying on collegiality between faculty members in instances like this.

AP Grid, Revisions to

R. Cranley 525
R. Cranley asked that the grid be brought back to the committee at the November 18, 2008 meeting because a number of changes need to take place. **M/S/U to postpone review and approval of the AP Grid until November 18, 2008 where it will be Item 1 on Unfinished Business (M. Morales, K. Ennis)**

2. **Title 5 Compliance Progress**

   a. **Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards**  K. Walters Dunlap  527

   K. Walters Dunlap informed the committee that many Certificate of Achievement applications were returned to MJC from the System Office, because they were reportedly missing elements. The deans now have these applications and are working with the faculty to find this information. There are concerns that information that was sent to the office got lost somewhere in the process.

   L. Senechal reported that the Addendum has been created and forwarded to webmaster Brian Hill, who should post it on www.mjc.edu/catalog before Friday, since the goal is to have it posted by the Accreditation site visit, Friday, November 7.

3. **CurricUNET Trainings**  B. Adams

   B. Adams is trying to establish a training on a Wednesday or Thursday afternoon training for faculty. B. Sanders is going to attempt conducting a training for Science, Math and Engineering faculty. B. Adams will set up Founders Hall 154, on the days specified, and will send an email to representatives announcing the training date.

4. **Granting of Credit for Courses Taken at Institutions of Higher Learning Outside the United States**  S. Agostini  535

   (Motion: Accept the proposed draft with some changes. (S. Agostini, K. Ennis)

   More students are presenting coursework from foreign colleges and universities. MJC has no process in place for processing the foreign coursework. When students bring a high volume of foreign units, they are calculated as GENX - or generic units - which aren't associated with a particular MJC course. This approach implies that the student has completed X number of units of lower-division coursework. When these students talk to a counselor or apply for graduation very few of those units are ever equated with a specific MJC course that applies toward specific graduation, certificate or transfer requirements. To this effect, we hurt students.

   Students occasionally insist that a course on the foreign transcript is equivalent to a course at MJC. To validate this, the student must go to the division and request a course substitution. In that case, the student doesn't have much evidence to present about the foreign course. Over the summer, B. Adams, R. Cranley, M. Garcia, M. Robles, and S. Agostini, evaluated other college policies designed to deal with this issue.

   Should we evaluate a new student's foreign transcript, or wait until the student has progressed in the YCCD curriculum with a C average or higher? This particular approach would be very time consuming for many at MJC. Evaluations can only evaluate GENX coursework, and must leave the role of evaluating the equivalency of the course to faculty experts. It is thought that it would be beneficial to wait until the student has progressed in the curriculum to before investing in any sort of evaluation.

   Many recognize that transcript/foreign curriculum evaluation could be problematic without having evidence that the student will persist at MJC. One member, however, noted that policy limiting transcript evaluations to those who have persisted to 12 units or higher would present obstacles for students who only come to MJC to fill a specific prerequisite requirement. It was suggested that an exception be made in those instances where prerequisite completion is the goal. It was also noted that there are numerous attempts for course substitutions from a foreign transcript, and that foreign transcripts are significantly different from American transcripts. They are also written in a foreign language making
them almost impossible for many to evaluate. MJC requires students to pay a service provider to have foreign transcripts translated. This policy will be revised and placed in the next agenda for the purpose of the record.

M. Garcia recommended that the policy be revised to acknowledge that “courses taken outside the US may not use courses to substitute for Reading, Writing, and Oral Communication requirements.”

M/S/U: to accept as academic policy the document dated May 19, 2008, “CREDIT FOR COURSES TAKEN AT INSTITUTIONS OF HIGHER LEARNING OUTSIDE THE UNITED STATES” (S. Agostini, K. Ennis),

- with the friendly amendment to add “an exception to the 12-unit requirement will be made if the student needs the course to meet a prerequisite” (S. Agostini)
- with the friendly amendment to change the word “challenge” to “petition” in Section 3.2.A (P. Guerra-Schmidt)
- with the friendly amendment students may petition this requirement (Section 3.2.A) if the student completed the course in English speaking countries such as, The United Kingdom, Australia, Canada. (S. Agostini)

5. Revised outlines needed to reflect articulation correspondence: B. Sanders
   a. EASCI 162
   b. METEO 161

R Cranley noted that these courses did not reflect lab content, and that these courses should be brought back through the curriculum process.

6. Educational Requirements Committee: K. Walters Dunlap
   (This item postponed definitely)

   It was noted that this item should be struck from the agenda, with the understanding that K. Walters Dunlap will bring this back before the committee at a later date.

ASCCC: Course Outline of Record: A Curriculum Reference Guide

Motion: That the committee accept the revised course outline language & elements proposed in the agenda (B. Adams, A. Peek)

The ASCCC has provided new recommendations on structure and elements within course outline of record in the publication, Course Outline of Record: A Curriculum Reference Guide, or “Mustard Copy.” Many at MJC are currently confused between student learning goals, assessment, and quantity and quality. B. Adams has proposed that MJC’s course outline be modeled after the recommendations of the Mustard Copy, with the addition of some other elements currently in use at MJC. She asked the committee, “Do we want to follow the recommendations of the Mustard Copy?” There was lively discussion. There was praise for the Mustard Copy as a resource, and it was noted that we need to devise a consistent terminology in whatever we decide to do for the benefit of the end-user of the outline and the CurricUNET system.

Amendment to the Motion: That the proposed outline elements be accepted by the committee with the category OVERALL STUDENT LEARNING OUTCOME be revised to read EXPECTED STUDENT LEARNING OUTCOMES

A. Peek explained that, like the course goal, outcomes are what the student is supposed to do as a result of mastery of the objectives, what they can do as a whole with the discrete objectives listed on the outline. B. Adams commented that she liked the idea of keeping EXPECTED COURSE STUDENT LEARNING OUTCOME.

B. Adams, as a point of information, clarified that this discussion had now combined Old Business items 7 and number 8 on this agenda. It was pointed out that it is easier for faculty to understand the course outline context if we include the word “course.” It was clarified that CurricUNET currently reads the prompt, “Overall Course Goal.” Concern was expressed about the implications of changing the language to “Overall Student Learning Outcomes” in that it gives the perception that we are asking faculty to put their student learning outcomes onto the course outline. A. Peek brought a letter from J. Sahlman, Academic Senate president, which was a statement in support of placing Student Learning
Outcomes on the course outline of record. B. Adams, as a point of information, informed the committee that the Mustard Copy does not make a recommendation about placement of SLOs on the course outline, and reported that 50% approve placing SLOs on the outline, and 50% do not. She also expressed concern that voting to approve placing SLOs on the course outline without comprehensive college-wide discussion would be problematic. A. Peek read from a document from the Curriculum Institute, detailing the pros and cons of including SLOs. She added that changes to SLOs do not necessarily mean that a course must go through the curriculum review process again to be revised. B. Adams commented that, if the course outline is changed as result of changing one component (SLOs), she would want to see the course would need to go before the committee for review.

Amendment to the Motion:
That the proposed outline elements be accepted by the committee with the category OVERALL STUDENT LEARNING OUTCOME, be revised to read EXPECTED STUDENT LEARNING OUTCOMES.

Clarification was sought on the original language, which B. Adams clarified was the original language “Overall Course Student Learning Outcome.”

Original Motion: That the committee accept the revised course outline language & elements (which includes the category Overall Course Student Learning Outcome (B. Adams, A. Peek)

Amendment to the Motion: That the committee accept the revised course outline language and elements, by striking the proposed revision “Overall Course Student Learning Outcome” and changing it back to Overall Course Goal. (C. Hudelson Putnam.)

K. Walters Dunlap asked where SLOs are being housed now if not on the outline? Multiple members commented that syllabi and other locations house them. A. Peek commented that - without SLOs on the course outline - there would be no need to purchase the program review module of CurricUNET. K. Walters Dunlap commented that, since this may affect Accreditation, it may be a good idea to table this discussion until we determine how this decision will affect our Institutional Effectiveness Report. It was mentioned that it should go to a wider faculty audience to make decisions.

M. Adams sought clarification on the implications of not putting SLOs into CurricUNET. He asked what the negative outcomes would be. It was shared that MJC has purchased a program review module which will house outcomes, and that we will not be able to use it to that purpose. K. Walters Dunlap clarified that it is not just the software program, but the ability to regularly record, evaluate and respond to our outcomes each semester. She added that, without a tool, we will not be demonstrating to the accreditors that we are making changes to how we do business at MJC.

It was asked if CurricUNET could generate an addendum which includes the SLOs. B. Adams commented that she believed it could. A. Peek asked why we would not want it on the course outline of record? M. Adams commented the reason may be analogous to why we do not include Distance Education, in that it may have negative impacts.

It was asked what changes are urgent and must be taken care of now, and clarified that the issue of SLOs are not settled yet. B. Adams clarified her goal of wanting to expediently address issues with much of the course outline language in CurricUNET.

C. Mulder asked for clarification on the Senate’s position because the committee has not been informed on its position, despite the letter from the Academic Senate president.

M/S/U to approve the revised course outline language and elements, with a revision to the motion that “Overall Course Goal” be used instead of “Overall Course Student Learning Outcome.” (B. Adams, A. Peek)

V. PROGRAMS

Program Inactivations
CLDDV Assistant (C) 6 61
Inactivate
Effective: Summer 2008
There was lively discussion surrounding the inactivation of the CLDDV certificate, which was slated to be inactivated Summer, 2008. Why was it being retroactively inactivated? P. Guerra
Schmidt informed the committee that it was no longer compliant, so the CLDDV department decided that they should drop it from the list of program options. L. Senechal pointed out that it was struck from the 2008-2009 catalog without formal inactivation through the committee, and that, as a result, confusion existed about whether the omission was intentional. **M/S/U to retroactively inactivate the CLDDV Assistant (effective Summer 08 and 08-09 MJC Catalog), which was formerly a certificate of achievement.**

**FAMILY AND CONSUMER SCIENCES (AA, AS) 30 65**

Inactivate

   **Effective: 2009-2010 MJC Catalog**
   **M/S/U to approve the revised Advanced Placement Credit Policy and grid 79**

   a. AP – English
   
   Ruth Cranley reported that the English Department has agreed to accept scores of 3, 4, and 5 as equivalent to satisfactory completion of ENGL 101.

2. **Student Learning Outcomes and the Course Outline of Record**

   **A. Peek**

   *This item was not discussed.*

**Informational Items**

1. **Title 5 Compliance Progress**
2. Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards  
K. Walters Dunlap
L. Senechal and B. Adams reported for K. Walters Dunlap that MJC has received notification of approval for 15 Certificates of Achievement. Two of the applications that were submitted were not approved; in Fire Science and Machine Tool Technology. It is believed that it will be possible to address the problems with the certificate in Fire Science. Approval of the MTT certificate will require that a course outline of record for Independent Study in MACH be submitted to the CCC System Office.

3. Broadness of Degrees – Revised Deadlines and Instructions

   L. Senechal reported that the addendum is complete and posted at www.mjc.edu/catalog

4. CurricUNET Trainings  
B. Adams
   a. Training scheduled 11/20/08 2:30-4:30 in FH 154.
   B. Adams is conducting a CurricUNET training on this date/time and is open to having more participants.

5. Revised outlines needed to reflect articulation correspondence:  
B. Sanders
   a. EASCI 162  
   This item was not discussed.
   b. METEO 161  
   This item was not discussed.

6. Granting of Credit for Courses Taken at Institutions of Higher Learning Outside the United States – Approved Document  
S. Agostini
The recently approved MJC policy, updated by the Instruction Office to reflect the changes discussed at 11/04/08, was brought before the committee for the purpose of the record. It will take effect in 2009-2010/immediately and will be placed in the 2009-2010 MJC Catalog.

7. ASCCC: Course Outline of Record: A Curriculum Reference Guide-Approved Document  
B. Adams
B. Adams updated the MJC Course Outline of Record document which was “approved with changes” on 11/04/08 to reflect the changes for the purpose of the record. It was requested that she add the date of approval to the document to which she agreed.

VIII. NEW BUSINESS

1. Minimum Requirements for Associates Degree  
R. Cranley/B. Adams
B. Adams distributed a printed document entitled MJC Guidelines for Associate Degree to the committee which was not included in the agenda packet. She informed the committee that the version of the document which currently appears in the manual was updated to reflect missing information. In this document, there was also language cited from the repeal of Title 5, Section 55806, which explicitly defines new minimum requirements for degree.

   Effective Dates: S. Agostini expressed concern about the effective date in the cited Title 5 language, stating “Effective for all students admitted to a community college for the Fall 2009 term, or any term thereafter.” She asked the committee if this meant that students who enroll during StartSmart will be held to different – less rigorous - minimum requirements than for those enrolling in Fall 2009? There was lively discussion. Curriculum leadership commented that it was likely that MJC’s local response to these guidelines would have them take effect with the
2009-2010 catalog, meaning that the more rigorous requirements for graduation would take effect with the Summer 2009 term.

**Local Interpretation of Intermediate Algebra reference in Title 5:** R. Cranley brought language within Title 5 §55063 to the attention of the committee. She expressed concern that on 10/07/08, the committee voted to strike MATH 90 as an option from MJC-GE:D2, even though Title 5 allows such a course to fulfill both competencies and GE areas. She noted that Title 5, §55063 states,

“Satisfactory completion of a mathematics course at the level of Intermediate Algebra shall satisfy both this competency requirement and the coursework requirements set forth in subdivision (b) (1)(D)(ii) of this section.”

R. Cranley asked, if by adopting this policy with this language, if the committee was contradicting their own vote to strike MATH 90- Intermediate Algebra from MJC-GE:D2.

**Title:** M. Robles expressed concern that the title “Guidelines” might not be adequate for communicating that these are required by law.

**M/S/U to approve MJC Requirements for A.A and A.S. Degree: with the friendly amendments to:**

- Clarify MJC’s local response to the effective date for implementation of Title 5 revisions, by denoting an effective date of “Summer 2009” in the document with an asterisk, referencing that – while Title 5 says that this is required in Fall of 2009 - MJC has elected to implement the changes in Summer 2009 to conform to our catalog year.
- Revise the title to “Minimum Requirements for A.S. or A.A. Degree.”
- For R. Cranley and B Adams to review the document to see if it the “strike MATH 90 from MJC-GE:D2” vote on 10/07/08 was contradictory and to clean up – if necessary, clean up language pertaining to Intermediate Algebra within the document.

2. **Satisfying the Guidance requirement**

M. Garcia informed the committee that the Counseling department is concerned that the curriculum committee voted against the wishes of both discipline and guidance faculty in 2007, when they requested removal of ENGR/ARCH 100 from MJC Guidance requirement options. According to minutes, the request was tabled until the next meeting, because of intent of forming a curriculum subcommittee to evaluate and develop practices and policies for Guidance classes taught by faculty in disciplines other than Guidance. The issue never reappeared on an agenda. D. Waring added that there are many issues surrounding non-guidance instruction for Guidance courses, including but not limited to minimum qualifications, inappropriate development of Educational Plans, etc. M. Garcia added that NURSE 115, nearing its review, would also like to opt-out of fulfilling the Guidance Requirement, and does not want to see this happen again. Multiple concerns were raised, but there was no resolution.

3. **Distance Education Workgroup**

M. Adams informed the committee that, due to recommendations about governance structures that took place over the summer, that the Distance Education committee will now become a workgroup of the Curriculum Committee. Membership needs are being evaluated, and there will be future reports on its progress. J. Daly added that although there are qualitative issues pertaining to distance education, that there are factors driven by curriculum development that impact contract issues and that, as YFA leadership, she is very interested in the development of this group and how it will consider and address such factors. M. Adams will pursue membership of this committee in the coming weeks and months.

4. **Technical Review Committee Membership**

B. Adams brought to light that the makeup of the Technical Review Committee is open to change, especially if there are interested parties. She reported that she does not mind addressing Technical Review with the current team of M. Adams, L. Senechal, and R. Cranley. She asked the committee for input. Questions were raised about the responsibilities of the Technical Review member, and if there were any incentives for participating. It was suggested that the membership be opened campus-wide to recruit former members of the committee who may be experienced in this area.
5. **Multiple Degrees/Awards**
   S. Agostini

S. Agostini presented to the committee documentation on issues being encountered in Student Services related to various degrees and certificates for which students are applying.

**Issues**
Because of the new areas of emphasis, students meeting certain conditions may actually meet criteria for multiple, e.g. seven, eight MJC awards, many within the same taxonomical program. Is this the intent of our curriculum? It is difficult to propose degree/certificate scenarios when there are multiple options for students. Also, students don’t often know what award they seek to earn when they request an evaluation for degree or certificate.

**Policies at other CCC’s:** S. Agostini referenced other institutions that have instituted policies limiting the way students can use coursework to apply to degrees and certificates. There was lively discussion about whether or not it is appropriate. *Does it lessen the value of a degree?* Is it wrong to deny students the ability to claim an award if they have completed the requirements? It was mentioned that vocational students only benefit from having multiple awards, so that students have more opportunities upon leaving MJC, and multiple awards show vocational competencies in multiple areas. L. Senechal drew the committee’s attention to the fact that much of the problem lies within Step 5 of the 2008-2009 *University Preparation Pathway* as this opens up students to multiple degree options. She noted that students can essentially follow either transfer or non-transfer GE patterns to arrive at the same major, because of the way the awards are interpreted. Does the committee believe that an AA in English following MJC-GE is equivalent to an AA in English following CSU-GE or IGETC? Many questions were raised, but there was no resolution on the issue.

6. **Reuse of Inactive/Dropped Course Numbers at MJC**
   K. Walters Dunlap/L. Senechal

Because of complications encountered with curriculum that was approved by the committee during 2007-2008, L. Senechal wanted to reaffirm a grandfathered policy at MJC per K. Walters Dunlap.

**Curriculum Policy:** Inactive/dropped course numbers are not to be reused for new course numbers.

She informed the committee that it can cause problems with student records, and that it is frequent practice at other institutions per K. Walters Dunlap. Faculty authors, curriculum representatives, and division offices should consult Datatel to identify which course numbers have not been used in the past.

7. **Foreign Language Course Equivalency**
   R. Cranley

R. Cranley announced that, since MJC is currently unable to track completion of foreign language in high school automatically, and therefore, that this information cannot appear in prerequisites, it has been decided to add the phrase “equivalent to completion of two years of high school (equivalent foreign language)” to course catalog descriptions, so that students and advisors are aware that this equivalency exists. It was asked if foreign language faculty had been consulted. They had not. As a result, it was determined that R. Cranley would consult with the foreign language faculty to get guidance make sure they are in agreement. This issue will be brought back on the next agenda. Upon approval, this language will appear in the catalog. It was suggested that the language be revised globally on the course outline at the time of approval. No determination was made as to whether course outlines would be simultaneously updated for this technical update.

CCCCO Certificate of Achievement Approvals
In 2008-2009, multiple locally-approved Certificates of Achievement were identified as being noncompliant with state regulation by the CCC System Office. In response, they were converted locally by the Curriculum Committee to Skills Recognitions. MJC was allowed to resubmit the awards through a state level Certificate of Achievement approval process for awards 12-17 units. The following skills recognitions have been approved by the CCCCCO as Certificates of Achievement:

Behavioral & Social Science Associate of Arts Degree

Effective: Summer 2010

Inactivate

In 2007, MJC learned that the Behavioral & Social Sciences degree, along with other associate degrees and certificates of achievement, was noncompliant with Title 5. Departments and divisions were given an opportunity to revise these awards through the curriculum process and state review processes until the end of the fall semester of 2008. As of January 14, 2009, this degree has not yet been revised nor approved at local and state levels. Per the Instruction Office and Curriculum leadership this award is to be inactivated and therefore removed from the MJC Catalog for 2009-2010.

Pulled for discussion by C. Hudelson-Putnam

C. Hudelson Putnam informed the committee that she was prepared to present a revised program that could be sent to the state for approval. While the revisions did not narrow the scope of the award, new language specifically instructs students to use ASSIST.org to formulate a transfer oriented degree program. She expressed concern that – by limiting the scope of the award – Behavioral and Social Sciences majors would be adversely impacted by the specificity. This is in large part, she commented, due to the fact that transfer institutions vary widely in their requirements for Behavioral and Social Sciences programs. Reference was made to Title 5 specifically stating that programs must have a specific educational focus and that this degree as designed was likely to be considered non compliant. C. Hudelson Putnam suggested that it be forwarded to the state as designed to see if it would be rejected. It was noted that it would need to be pulled for 2009-2010, since it was unlikely to be approved by the state in the next three weeks for inclusion in the catalog. C. Hudelson Putnam would complete the forms if provided access to them by the Instruction Office.

M/S/U to approve revisions to the A.A. in Behavioral & Social Sciences for 2009-2010, on the condition that it is also approved by the CCC System Office. (C Hudelson Putnam, J. Daly)

1. Foreign Language Course Equivalency Resolution

   R. Cranley

   M/S/U to approve (R. Cranley, J. Daly)

2. Multiple Degrees/Awards

   S. Agostini

   S. Agostini presented multiple documents to the committee to ask for clarification on MJC’s policy on awarding multiple degrees. She reported that many schools have policies limiting how many degrees can be conferred to one student. There was lengthy discussion about the issue. Concern was raised about the benefits and problems associated with limiting degrees, including but not limited to; lessening the perceptual value of MJC degrees, or denying a student of a degree that has been technically completed. Most were concerned about the appropriateness of awarding both a non-transfer AA and a University Preparation AA in the same programmatic area (e.g. Agricultural Science and University Preparation; Agricultural Science.) L. Senechal pointed out that – in her perspective the largest problem seems to be lack of a focused design to the curriculum structure overall, e.g., mixed purposes for various degrees. It is as though there is no consistent purpose for award types. How would a student be able to discern what is better for his or her goals – an AA with emphasis, or a transfer AA? C. Hudelson Putnam agreed with this assessment and reasoned that faculty would probably be highly supportive of a qualitative review of the structure of the curriculum. The committee was in agreement. L. Senechal offered to provide the committee some sort of visual diagram to show the various ways all MJC awards are designed in the curriculum. She will deliver this at a meeting following production of the MJC catalog.

   ACTION ITEM: After the month of February, L. Senechal will deliver a document to the committee that will illustrate the varied purposes of MJC awards within the curriculum.
Informational Items

1. **Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards**  
   K. Walters Dunlap  
   B. Adams reminded the committee that multiple awards were recently approved by the CCCCO. J. Sola reported that major changes were being made to the Fire Science Academy to allow it to comply with Title 5. B. Adams reported that MACH 399A, an outline which does not exist, will be created as a template for other Independent Study courses.

2. **CurricUNET Trainings**  
   B. Adams  
   a. Training scheduled for 1/30/09  
      B. Adams will provide training on this date at 11 AM in FH 154. More trainings will be held this semester.

3. **Contradiction: Minimum Math Requirements for Associates Degree, &**  
   R. Cranley/B. Adams  
   **Removing MATH 90 from MJC-GE Requirements**  
   On October 7, 2008, the Curriculum Committee voted to remove MATH 90 from MJC-GE:D2 since MATH 90 is required to demonstrate math competency for associate degree. However, after reviewing Title 5 at the request of R. Cranley, the MATH department noted specific language making it clear that students “shall” be allowed to count Intermediate Algebra (MATH 90) toward both MATH competency and MJC-GE:D2 Language and Rationality.

   While the committee voted to remove it from D2 at the October 7, 2008 meeting, it was agreed that Title 5 had been misinterpreted by the Curriculum Committee.

   **M/S/U to return MATH 90 to MJC-GE:D2, effective Summer 2009, in light of more complete understanding of Title 5 language. (J.Daly/P. Guerra Schmidt)**

4. **Satisfying the Guidance requirement**  
   M. Garcia  
   M. Garcia presented a memo on behalf of the Counseling department encouraging the curriculum committee to approve any requests to remove the guidance component from a non-Guidance course. B. Adams said that this document could go on the record as a recommendation from Guidance faculty, but that the curriculum committee could not be directed to reject courses proposed to fulfill Guidance from disciplines outside of the Guidance department.

5. **Distance Education Workgroup**  
   M. Adams  
   M. Adams informed the committee that the Academic Senate has decided to move the Distance Education workgroup from the oversight of the Curriculum Committee to that of the Senate itself, so this is no longer a concern of the Curriculum Committee.
VI. NEW BUSINESS

1. Revisions to University Preparation Pathway and Career & Technical Education Pathway for 2009-2010 catalog

L. Senechal presented the committee a draft of the revised Career and Technical Education Pathway for associate degree. The committee made minor suggestions for revisions which L. Senechal acknowledged.

M/S/U to approve the Career Technical Education pathway for 2009-2010 as revised with corrections noted during the meeting.

VII. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Committee

   B. Adams

   No report

2. CurricUNET Implementation Committee Update

   B. Sanders

   The committee has not met since December, so there is no new information to report.

VIII. PUBLIC COMMENT

Meeting adjourned at 4:26 PM.

Others Present: None

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES January 20, 2009

M/S/U (J. Daly, R. Cranley) to approve the minutes of January 20, 2009 with corrections noted during the meeting.

V. UNFINISHED BUSINESS

Action Items

1. **Student Learning Outcomes and the Course Outline of Record**  A. Peek
   A. Peek indicated this item should be removed from the agenda. No action needs to be taken.

2. **Foreign Language Course Equivalency**  R. Cranley
   R. Cranley and B. Adams noted the resolution approved at 1/20/09 meeting (with correction of typographical error and approval date notation in footer) was included in agenda packet for documentation purpose. No action needed to be taken, as this was an information item only.

Informational Items

1. **Title 5 Compliance Progress**

2. **Skills Recognitions – Update on Conversion for 17 Unit or Fewer Awards**  K. Walters Dunlap
   B. Adams reported there was no change in status since last meeting.

3. **Broadness of Degrees – Revised Deadlines and Instructions**  B. Sanders
   a. **Areas of Emphasis**  B. Sanders
   b. **AOEs and Production of 08-09 Addendum**  L. Senechal
   M. Adams asked if these items were still needed on agenda. C. Hudelson-Putnam noted some disciplines might want to still create AOE’s, so there was some relevance to leaving on agenda.

4. **CurricUNET Trainings**  B. Adams
   a. **Training scheduled**
   B. Adams informed the committee of four additional trainings that have been scheduled. These workshops are for those who need initial training or additional training/assistance with course outline entry in CurricUNET. The trainings/workshops are scheduled in FH 154 from 3 PM to 4:30 PM on the following dates:
   - February 12, 2009
   - February 26, 2009
   - March 12, 2009
   - March 26, 2009
   C. Hudelson-Putnam suggested B. Adams send an e-mail to all MJC faculty announcing the training dates/times and encouraging faculty to attend. Additionally, the submission deadlines and documents discussing the curriculum review cycle could be included in the e-mail.

   **ACTION ITEM:** B. Adams will e-mail CurricUNET training/workshop information and curriculum review cycle information to MJC faculty.

5. **Contradiction: Minimum Math Requirements for Associates Degree**  R. Cranley/B. Adams
   R. Cranley and B. Adams noted the document approved at 11/18/08 meeting (with corrections of typographical error and approval date notation in footer) was included in agenda packet for documentation purposes. A. Peek noted one more typographical error in the language and rationality section. B. Adams noted correction and will revise document accordingly.

   **ACTION ITEM:** B. Adams will e-mail corrected document to MJC Curriculum Committee members.
6. **Multiple Degrees/Awards**
   S. Agostini
   M. Adams inquired if this item needed to be discussed further. Committee members recalled S. Agostini presented as an informational item and asked that the issue be addressed in the future and some resolution be made. Additionally, it was noted L. Senechal offered to prepare a document illustrating varied purposes of MJC awards; creation of document will occur sometime after February and catalog production deadline has been met.

**VI. NEW BUSINESS**

**Action Items**

1. **FTECH Prefix**
   J. Sola / B. Adams
   J. Sola explained the proposal for new prefix CE and timeframe. J. Sola explained the need for special topics offerings for community level and current firefighters. B. Adams explained J. Sola and L. Parker believed this was the best option after investigating possibilities. The research involved course searches in ASSIST and how other colleges have formatted various course offerings to accommodate quick turnaround offerings. M. Morales indicated AG has similar CE offerings and L. Lanigan commented the nursing profession is similar regarding continuing education requirements. J. Sola explained the state has certification levels. As examples, J. Sola stated he had to recently attend a CE offering to receive update on curriculum, and state officer trainers now must have continuing education.

   M/S/U to approve the FTECH prefix (G. Boordookas/J. Sola).

**VII. TASK FORCES**

1. **Special Topics, Experimental, Independent, Work-Experience Task Force**
   B. Adams
   No report

2. **CurricUNET Implementation Task Force Update**
   B. Sanders / B. Adams
   B. Adams informed the committee she recently e-mailed the CurricUNET project manager asking for assistance in resolving issues identified by MJC personnel. Hopefully there will be some action from programmers and we will see improvement in the data entry process and future documents generated by CurricUNET.

**VIII. PUBLIC COMMENT**

Meeting adjourned at 3:54 PM.

Others Present: None

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

February 03, 2009

M/S/U (P. Upton, G. Boodrookas) to approve the minutes of February 3, 2009 with corrections to attendees as noted during the meeting.

III. NOTIFICATION

LVN to ADN Advanced Placement Pathway

Effective: Summer 2009
Modify: Program title
Department requested name change from LVN to RN Upgrade Program. Per nursing faculty B. Costello and L. Riggs, the name change is based on recommendations from state Nursing Education Consultant and also complies with state regulatory body, the Board of Registered Nursing (BRN). Request was made during catalog revisions; notification item is being provided to Curriculum Committee for notification and documentation purposes

Correction to FSCI hours

Effective: Spring 2009
Modify: hours
Current FSCI courses entered in CurricUNET which are 40-hour courses have had unit values revised to reflect correct hours and unit values. Future revisions/additions to FSCI courses will utilize correct values in lecture and/or lab fields to meet state-mandated hours.

Cross-listed Courses

In Fall of 2008, the following courses were reviewed by the Curriculum Committee without their cross-listings also being identified for review. Per Karen Walters Dunlap, those approved actions should also take place on following cross-listed courses effective Summer 2009. Please note: the course outlines for the cross-listed courses will need to be updated in CurricUNET to correspond to the updates which took place on the parent course. Please see the meeting minutes of the date referenced to review what modifications took place.

**IV. CONSENT**

**MUSE 885 Evening Jazz Band**

**Effective:** Summer 2009  
**Modify:** Number  
**Enrollment Restrictions:** None  
**Distance Education Status:** Not approved for Distance Education  
**Materials Fee Status:** None  
**Articulation Status:** Does not transfer  
**General Education Status:** Not approved for GE  
This course was OLDAD 847 – Jazz Band until the prefix/number and title were changed to MUSE 881 Evening Jazz Band at the 1/20/09 meeting. Changing the number to MUSE 885 Evening Jazz Band would mimic the course numbering in the 100-block (MUSE 185/MUSE 885).  

**Hearing no objections, MODIFICATION to MUSE 885 was approved.**

**V. DISCUSSION**

**AG 285 Agricultural Communications**

**Effective:** Summer 2010  
**Modify:** Course goal, content, typical assignments, methods of assessment, textbooks

No new business.

VIII. TASK FORCES

1. **Special Topics, Experimental, Independent, Work-Experience Task Force**
   B. Adams
   No report

2. **CurricUNET Implementation Task Force Update**
   B. Sanders / B. Adams
   B. Sanders updated the committee on the progress of CurricUNET staff repairing identified issues. Approximately 75% of the issues were repaired on Monday, February 16, 2009. A materials fees report now exists, and all of the reports are consolidated under the “WR” icon. A user simply needs to hover over the “WR” icon to see a list of the reports. The DE Addendum proposal type should be fully functioning now. There are two new “jumbo” reports which will enable Office of Instruction to compile the courses outlines needed for agendas. There is a new option listed in the expedited approval request to address Title 5 compliance.
IX. PUBLIC COMMENT

B. Sanders updated the committee on MATH 810. It was previously approved by the committee and submitted to the state for approval. The state denied the request, so the MATH faculty will work on some repairs to it and a revised version will be included in a future agenda for review and vote.

Cross-listed Courses

In fall of 2008, the following courses were reviewed by the Curriculum Committee without their cross-listings also being identified for review. Per Karen Walters Dunlap, those approved actions should also take place on following cross-listed courses effective Summer 2009. Please note: the course outlines for the cross-listed courses will need to be updated in CurricUNET to correspond to the updates which took place on the parent course. Please see the meeting minutes of the date referenced to review what modifications took place.

V. UNFINISHED BUSINESS  

Informational Items  
1. Title 5 Compliance Progress  
K. Walters Dunlap / B. Adams  
No report  

2. CurricUNET Trainings  
B. Adams  
   a. Training scheduled  
   February 26, 2009  FH 154  3:00 – 4:30  
   March 12, 2009  FH 154  3:00 – 4:30  
   March 26, 2009  FH 154  3:00 – 4:30  

B. Adams reported there were eight (8) attendees at the 2/26/09 CurricUNET training workshop.  

VI. NEW BUSINESS  

Action Items  
1. CurricUNET Style Guide  
J. Daly / D. Gilbert / B. Adams  
A style guide prepared by the English department was reviewed by the committee. Many issues were discussed which related to style and grammar in CurricUNET. The committee agreed it would be helpful to include the stylistic guide notes in the help functions of CurricUNET.  

2. LIBR Prefix  
K. Ennis / B. Adams  
M/S/U to approve the new LIBR prefix which will replace the LR prefix when course outlines are brought through CurricUNET in Fall.(M. Lynch/J. Monast)  

Information Items  
1. End of year review session  
B. Adams  
   a. April 14  
   b. Pizza and soda provided  

2. Catalog Production  
L. Senechal / B. Adams  
L. Senechal reported that the catalog went to the presses on Friday, February 27th, after proofs were reviewed. Counseling has been filing numerous complaints about the catalog to the Office of Instruction. T. White reported that
counselors have forwarded complaints to him. L. Senechal said that errors are the result of the manual update process (unlike the Schedule of Classes) and that CurricUNET is not ready to automate reporting. She shared that B. Adams may bring the catalog earlier in the year as an agenda item for Curriculum Representatives to bring back to their divisions for close review. When CurricUNET is fully functional, this issue will be largely resolved. S. Agostini reminded the committee that catalog errors are not unique to the present--that the catalog has been filled with errors for years.

VII. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force
   B. Adams
   No report

2. CurricUNET Implementation Task Force Update
   B. Sanders / B. Adams
   B. Adams informed the committee that many of the issues had been repaired by CurricUNET staff. Concerns were expressed about representatives’ ability to make changes after launching a course. B. Adams reported that the implementation team followed the CurricUNET recommendation to configure it that way because other campuses reported problems with representatives making changes after authoring. Many suggestions were made as to how to incorporate the work of the English department, including online help screens, manual, and trainings.

### VII. NEW BUSINESS

#### Action Items

1. **Enforcement of Requisites**  
   S. Agostini / L. Senechal  
   S. Agostini reminded the committee that, per Title 5, MJC is required to enforce all approved prerequisites at the time of registration. Datatel can be used to accomplish that. MJC is currently enforcing core communication and computation courses for the most part because, until recently, Datatel did not have enough information on equivalencies with other institutions with which to enforce them correctly. This is no longer an issue.  
   L. Senechal will begin writing syntax for prerequisites and corequisites in April which will, in effect, impact registration for summer and fall. S. Agostini reported that divisions will need to be prepared for prerequisite challenges during registration periods. Challenge committees may consist of 2 members, and will need to respond to all challenge requests within two weeks.  
   L. Senechal reported that faculty need to be aware that there are also “implied” prerequisites and corequisites – not indicated on the course outline- that may be realized after enforcement takes place, for example, higher level courses that demonstrate competence, e.g., While ENGL 49 shows (C) READ 40, READ 82 also demonstrates competence for ENGL 49. These relationships, while not detailed on the course outline prerequisite, are often implied and necessary and will need to be mapped out, and updated in the curriculum if necessary. S. Agostini reminded the committee that we may only enforce pre and co-requisites that are approved by the curriculum committee.

### IX. PUBLIC COMMENT
I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

March 17, 2009

M/S/U to approve the MINUTES of 03/17/09 with changes noted. (J. Daly, J. Sola)

Update on GUIDE 111 from 03/17/09 agenda.

GUIDE 111 Career Awareness 1
Effective: Summer 2010
Modify: Course goal, content, typical assignments, methods of instruction, methods of assessment
Enrollment Restrictions: None
Distance Education Status: Removing: Online
Materials Fee Status: Maintaining fee: $18.00
Articulation Status: Transfers to CSU

M/S/U to approve removal of ONLINE modality for GUIDE 111
(Motion withdrawn by representative.)

At the 03/17/09 meeting, M. Garcia commented that this course was never approved for an online modality, deducing that the "removal of ONLINE" noted on the agenda cover sheet was not required. However, later research in Instruction showed that this course was in fact approved for ONLINE modality on 09/18/2007. Because no vote was taken at the 03/17/09 meeting regarding the modality, the voting record, therefore did not make it clear that the intention is to remove the online modality.

At the 3/31/09 meeting, M. Garcia announced that the Counseling Department would like to maintain the ONLINE modality for GUIDE 111, although they have not yet used it.

M/S/U to MAINTAIN ONLINE modality for GUIDE 111. (J. Daly, J. Beebe)

See 03/17/09 minutes for votes on other items.

09/18/07 Minutes:

VII. NEW BUSINESS

Action Items

1. CurricUNET Approval Process
   M. Adams
   M. Adams posed questions to the committee about the CurricUNET approval process. The following were the will of the committee:
   a. To allow representatives to edit courses after they have been launched by faculty authors
   b. To disallow deans from editing courses after faculty authors launch them, since curriculum is a faculty-driven process
   c. To have a one-click "launch" for faculty authors, instead of the "submit," then "launch" process.

Information Items

1. Title V and Catalog Rights
   S. Agostini / B. Adams 829
   On behalf of S. Agostini, L. Senechal distributed a document prepared by S. Agostini, and summarized issues pertaining to MJC’s current policy on catalog rights. She suggested that representatives review the document, which summarized catalog rights policies from other colleges, and bring the issues back to their divisions for discussion and evaluation. Some of the issues discussed were:
   a. Currently, MJC has no limit on how long catalog rights should be maintained. While there are clear benefits for the continuing student, there are also problems that can arise, e.g., relevancy of content, program inactivations. Does this serve the student?
   b. L. Senechal noted that – while past catalogs mention how a student can maintain catalog rights - no definition of what catalog rights are exists. She copied a definition from LACC for the purpose of the 2009-2010 catalog. Is this new definition correct?
   c. Because of the lack of a definition there are differing interpretations college-wide on how catalog rights work. Some believe that you can use one catalog for graduation requirements, and use another for the major requirements. Others believe that only one catalog should be used. The Evaluations team uses only one catalog to graduate students. Degree audit will also use only one catalog.
   d. It is also not clear in the catalog – or on campus – how prerequisites work. Are they linked with catalog rights? There is expert knowledge among many that prerequisites do not follow catalog rights, and that a student must take the current corequisite/prerequisite configuration. However, there is no published policy on this, and reportedly, some are not aware of this, leading to confusion for students.

   The committee approved the proposed meeting schedule, which features a new “faculty” launch deadline. Dates will be published soon.

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES 

Hearing no objections, the minutes were approved with corrections as noted during the meeting.

III. NOTIFICATION

California Community College Chancellor’s Office Approval

The following new awards have been approved by the CCCCO and – per Stephanie Low- are effective locally as of the date of the CCCCO correspondence.

- Certificate of Achievement: Basic Heavy Equipment Technician – 01
  Effective July, 20, 2009
- Certificate of Achievement: Advanced Heavy Equipment Technician – 02
  Effective July, 15, 2009
- Certificate of Achievement: Heavy Machinery Management – 03
  Effective July, 22, 2009

Clarification was sought as to whether these awards would be reflected in Datatel on their date of approval. K. Walters Dunlap codified that they would and confirmed that the Instruction Office will make a practice of promptly entering record of their approvals and active status as close to the CCCCO effective date possible.

The committee was notified of the CCCCO Award Approvals

California Community College Chancellor’s Office Denial

On August 24, 2009, MJC was notified by the California Community College Chancellor’s Office that the applications to convert the following Skills Recognitions to Certificates of Achievement were denied for a variety of reasons (some factors attached). Currently, these awards are listed as skills recognitions in the 2009-2010 catalog, and will remain as such until applications are resubmitted and approved through the curriculum process.

- Machine Tool Technology 1
- Supervisory Management in Public Safety
- Basic Fire Academy
- Child Development Associate Teacher

The committee was notified of the CCCCO Award Denials
September 22, 2009

It was noted during the meeting that the CCCCO extension to resubmit these applications will expire December 9, 2009.

Transfer to UC (TCA)

The committee was notified that the following courses are approved for transfer to UC (TCA) effective 2009-2010, and will be reflected in the 2010-2011 catalog:

The committee was notified that communications from the California Chancellor’s Systems Office indicate the proposal approved by the MJC Curriculum Committee at the 1/20/09 meeting will not be approved if/when submitted to the state because of the lack of a listing of required and/or elective courses. Based on the imminent denial of the proposal, the VP of Instruction overruled the 1/20/09 MJC Curriculum Committee vote.

ESL Curriculum Review

The committee was notified that R. Luman has requested postponement of the ESL curriculum review with the following rationale: "Given the fact that the non-credit ESL program will be significantly revising its curriculum this semester (e.g. aligning standards, content, and objectives with new materials as well as possibly expanding the sequence to six levels), the ESL Department requests a postponement for the 900 series in the upcoming curriculum review process until Spring 2010." She has received the support of the division dean, P. Bettencourt and her request has been approved.

Distance Education Status: Not approved for Distance Education
Materials Fee Status: Removing fee
Articulation Status: Transfers to CSU and UC
General Education Status: Approved for MJC-GE:A, CSU-GE:B1, IGETC:5A
Division review of courses revealed materials fees were being erroneously charged to students, and therefore were removed.

The committee was notified of MODIFICATIONS to ASTRO 160.

Discussion of Inactivated Courses and Impact on Programs

B. Adams called attention to the program impact of three proposed inactivations on the agenda, and noted how inactivation of courses often has specific, unexpected impact on programs from other departments. If other areas are only “notified” when inactivations take place, students are affected as well as CCCCO program compliance. For example, if the required units of a program change as the indirect or direct result of an inactivation, MJC is required to notify the CCCCO of a change in units using a form of impact include Chancellor’s Office Compliance.

General Education Status: Approved for MJC-GE:B, CSU-GE:D2, IGETC:4B

The title is being changed so that the two ECON courses match.

The committee was notified of EXPEDITED MODIFICATIONS to ECON 102.
ECON 101 & ECON 102 - Revision to prerequisite statement

ECON 101 and ECON 102 course outlines were approved at the 10/21/08 meeting with the following prerequisite statement:

Prerequisite: Satisfactory completion of MATH 90.

The prerequisite statement did not reflect equivalency or assessment process. The “Assessment exists” box in CurricUNET has been checked for these two courses so the prerequisite statement is accurate and now reflects the following:

Prerequisite: Satisfactory completion of MATH 90 or equivalent or qualification by MJC assessment process.”

The LDTP descriptor indicates the prerequisite in the following manner: “Algebra II (the CSU freshman entry requirement) or Equivalent”.

R. Cranley has contacted Mark McKellip, Assistant Director, LDTP Curricular & Articulation Programs CSU, Office of the Chancellor, and has received verification that the revised prerequisite statements for ECON 101 and ECON 102 are acceptable.

R. Cranley has also informed L. Senechal of error in ’09-’10 catalog so it is corrected for next year’s catalog.

The committee was notified of the MODIFICATIONS to ECON 101 and ECON 102.

          General Education Status: Not approved for GE.
          When HUMSR 145 was changed to HUMSR 144 on 04/03/07, the instructor had intended to maintain a two-way co-requisite between HUMSR 144 (formerly HUMSR 145) and HUMSR 145A,B,D. The instructor has been trying to maintain the co-requisite independently of the curriculum which is not compliant with educational code. B. Adams has authorized that this change can be expedited, since it appears to have been an oversight during the last revision and it is essential to student success in the program.
          The committee was notified of EXPEDITED MODIFICATIONS to HUMSR 144.
