VI. PROGRAMS

Program Modifications (Non-Substantial)

LANGUAGE STUDIES (AA)

**Effective:** Summer 2010

**Modify:** Required courses

*M/S/U to approve MODIFICATIONS to the A.A. in LANGUAGE STUDIES (J. Daly/L Prusso)*

VII. UNFINISHED BUSINESS

Informational Items

1. **Enforcement of Requisites**

   L. Senechal 21

   L. Senechal reported that registration for SPRING 2009 will include enforcement of all enforceable prerequisites and co-requisites. Since 2004, only a small subset of MJC courses have had prerequisites and co-requisites enforced. She explained the report attached to the agenda which detailed problems she encountered while writing enforcement syntax for all prerequisites and co-requisites. Some of the problems reside within the curriculum, while others are unavoidable because of statute or regulation. This information has been shared with division secretaries and is to be shared with deans. Faculty and representatives are encouraged to address these problems when they occur in the curriculum.

2. **CurricUNET Trainings**

   B. Adams

   a. **Summer trainings** – 5 trainings were conducted, approximately 25 faculty attended

   b. **Training scheduled**

      Trainings in Fall 2009 – Sept. 9, Sept. 17

3. **Approval Process** – One-step launch, curriculum reps to have editing rights

   B. Adams reported that it appears faculty can finally submit courses with a one-step “launch.”

VIII. NEW BUSINESS

Information Items

1. **Title V and Catalog Rights**

   S. Agostini / B. Adams

   S. Agostini shared correspondence from Stephanie Low, Acting Dean of Academic Affairs, California Community College Chancellors Office dated 09/21/2009 regarding how catalog rights should “play out” for math and English requirements. After consulting Legal Affairs, Stephanie wrote,

   “In regard to catalog rights and the new English/math requirements, students who do not have catalog rights must complete the new degree requirements. This includes students who were previously enrolled in another community college because catalog rights do not transfer from one college to another, even when both colleges are in the same district. It also includes students who were previously enrolled in your college, but lost their catalog rights because there was a lapse in continuous enrollment.”
IX. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  
   B. Adams
   B. Adams reported that a template exists in CurriUNET for Special Topics, Experimental, Independent Study, and Work Experience courses. It was noted that one of the denied Certificate of Achievement applications (Machine Tool Technology 1) cannot be approved because of a missing course outline for a Independent Study course specified in the program. The representative (J. Beebe) is to work with the dean to ensure that this issue is addressed.

2. CurricUNET Implementation Task Force Update  
   B. Sanders / B. Adams
   B. Adams reported that four curriculum personnel are going to the CurricUNET Users-Group conference on October 29-30, 2009 at Ohlone College.

X. PUBLIC COMMENT
I. APPROVAL OF ORDER OF AGENDA

M/S/U to approve the order of the agenda as presented. (J. Lanning/J. Daly)

II. APPROVAL OF MINUTES

September 22, 2009

M/S/C to approve the minutes of September 22, 2009 with changes noted during the meeting (13 ayes, 1 abstention) (R. Cranley/L. Prusso)

III. NOTIFICATION

The following four COURSE IDs are being inactivated to ensure local compliance with noncredit course regulation. A recent noncredit audit showed that these were being reported to the state without prior CCCCO approval to offer them as noncredit courses. Origins of the following course IDs (which appear in Datatel) are unclear, but it may be that they were created for scheduling purposes when MJC first implemented Datatel. For the purpose of the record, these courses are to be formally inactivated through the curriculum process, effective Fall 2009.

VII. UNFINISHED BUSINESS

Informational Items

1. Title V and Catalog Rights
   S. Agostini / B. Adams
   B. Adams reported that she is still working on issues surrounding policies on catalog rights with S. Agostini. She reported that numerous areas of ambiguity exist around catalog rights. Until this is resolved, this item will remain on the agenda.

2. CurricUNET Trainings
   B. Adams
   a. Recent trainings – Sept. 9, Sept. 17, approximately 15 faculty attended
   b. Training scheduled
      Trainings in Fall 2009 – Oct. 27, FH 154 – 2:30
   It was suggested that trainings be specifically promoted and offered to those departments in which curriculum is slated for review in Spring 2009.

3. Approval Process
   B. Adams
   B. Adams presented to the committee an Excel spreadsheet prepared by S. Fornelli listing courses slated for review during the Fall 2009 term. She asked if the committee thought it would be useful to track how well we are completing scheduled review by department. The committee was supportive of the concept.

4. Award count for MJC in year 2008-2009
   L. Miller
   L. Miller demonstrated how to use the CCC Chancellor’s Office “Datamart” website, from which visitors can query data on community colleges and students statewide. One query available is the Student Program Awards option, which pulls data on the quantities of awards conferred in a given academic year. It was noted that this data may not accurately reflect the number of students who have completed requirements, since it only reflects students who have applied for degree or certificate. It was also mentioned that this data is not currently used in the program review process. B. Adams commented that this tool could be useful in assessing the role of awards within the curriculum.

VIII. NEW BUSINESS

Information Items

1. Curriculum Review – Five-Year Matrix
   B. Adams
   B. Adams reported that the 5-year Matrix of Curriculum Review (included in the agenda) was reviewed by the deans on September 14, 2009. She asked the committee for feedback. J. Daly asked that a distinction be made between literature courses and composition courses in the English (ENGL) department.

IX. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force
   B. Adams
   No report.

2. CurricUNET Implementation Task Force Update
   B. Sanders / B. Adams
   No report.
X. PUBLIC COMMENT

M. Garcia asked that it go on the record that the counseling department is strongly opposed to the recent change to enrollment restrictions for CHEM 143 which now has (P) MATH 90.L. Lanigan also expressed concern as a representative of the nursing program.

This revision was approved by the Curriculum Committee on 09/22/2009. M Garcia noted that this creates an additional barrier for students who are enrolled in the impacted Nursing sequence. It was reported that data show that students who satisfactorily complete MATH 90 are more likely to succeed than those who have only satisfactorily completed MATH 70. It was also added that this change may also be taking place because of the impacted sequence for the Nursing program, given that students who do not succeed in CHEM 143 are apt to have to retake it one or more times, preventing students who may fare better from actually enrolling and moving through the sequence.

Members Absent: M. Boyd, J. Daly, C. Mulder, L. Prusso, Vacant (ASMJC), K. Walters Dunlap

Others Present: N. Backlund (OFADM), L. Miller (Curriculum Specialist) B. Sinclair (CMPGR)

**IMPORTANT!** This is a cross-listed course. CurricUNET sees cross-listed courses as separate courses. MJC would like cross-listed courses to have only one course record stored under one or more course IDs. Right now, each outline must be updated separately. Until programming is established that allows for two or more course ID’s to be associated with one course record, Curricunet records will be inaccurate for the latter course ID. In this case, the first course outline was updated, but the latter was not. Once this issue is addressed by CurricUNET, these will need to be reconciled by confirming that the latter course ID is linked to the newer course proposal.

(CMPGR 213/ART 103), CMPGR 217, and CMPGR 284 pulled for discussion as a block by S. Agostini due to concerns about repetitions The committee noted that, like OFADM courses discussed earlier in the meeting, problems with repetitions existed in these courses. The committee quickly resolved to take the same tactic taken with the OFADM 356, 359, and 361.

ACTION ITEM: Committee will review and potentially revise current RETAKE POLICY AND PROCEDURES in SPRING 2010 to ensure that it adheres to Title 5 §55041, which was revised in 2007.

M/S/U (M. Garcia/M. Robles) to approve as a block MODIFICATIONS to (CMPGR 213/ART 103), CMPGR 217, CMPGR 284 with the understanding that B. Adams will work with CMPGR faculty to fix completions to adhere to the current local policy.

2. Word Processing Certificate of Achievement

(CMPGR 213/ART 103), CMPGR 217, and CMPGR 284 pulled for discussion as a block by S. Agostini due to concerns about repetitions

The committee noted that, like OFADM courses discussed earlier in the meeting, problems with repetitions existed in these courses. The committee quickly resolved to take the same tactic taken with the OFADM 356, 359, and 361.

M/S/U (M. Garcia/M. Robles) to approve as a block MODIFICATIONS to (CMPGR 213/ART 103), CMPGR 217, CMPGR 284 with the understanding that B. Adams will work with CMPGR faculty to fix completions to adhere to the current local policy. ACTION ITEM: Committee will review and potentially revise current RETAKE POLICY AND PROCEDURES in SPRING 2010 to ensure that it adheres to Title 5 §55041, which was revised in 2007.

M/S/C (J. Sola/E. Kerr) to approve ENROLLMENT RESTRICTIONS for CMPGR 217 (14 ayes, 1 abstention)

M/S/U (K. Ennis/L. McInnes) to MAINTAIN HYBRID, ONLINE modalities for CMPGR 217

Rationale: Periodic review
Program Impact:

IMPORTANT! This is a cross-listed course. CurricUNET sees cross-listed courses as separate courses. MJC would like cross-listed courses to have only one course record stored under one or more course IDs. Right now, each outline must be updated separately. Until programming is established that allows for two or more course ID’s to be associated with one course record, Curricunet records will be inaccurate for the latter course ID. In this case, the first course outline was updated, but the latter was not. Once this issue is addressed by CurricUNET, these will need to be reconciled by confirming that the latter course ID is linked to the newer course proposal.

OFADM 206 pulled for discussion by R. Cranley. R. Cranley expressed concern that this course was not transfer-level according to transfer approval standards set out in CSU Executive Order 167, as it appeared to place emphasis on filing and not on critical thinking skills. Through CSU Executive Order 167, the CSU has given the community colleges the privilege of determining whether courses are baccalaureate level, as opposed to UC, which does not grant the CCCs that privilege. N. Backlund, course author, explained the transfer proposal was due in part to the fact that the field of records management is not merely filing, but evaluating workflows and making decisions about the selection, use and development of databases and other tools. Such training would be an ideal part of a four-year program for business administrators, exemplifying that major corporations employ records managers who require such preparation. R. Cranley noted that the advisory is eligibility for ENGL 50. A. Peek reported that, by definition of assessment, students who place into ENGL 50 are not capable of reading and writing at the college level. Thus, it was suggested that the advisory to modified to (A) Eligibility for ENGL 101. It was countered that such an advisory would discourage a large segment of the population from enrolling – is that something that we want to do? N. Backlund did not. The rhetorical question arose as to whether such scrutiny really mattered, especially since the enrollment restriction is only an advisory – not a prerequisite or corequisite. R. Cranley commented that careless approvals of transferable courses could lead to our current privileges of “local approval for CSU transfer courses (CSU EQ 167)” being taken away.

OFADM 356, 359 and 361 pulled for discussion by S. Agostini for concerns about repetitions. S. Agostini noted that repetitions for technology courses are not explicitly permitted in Title 5. She expressed concern that the allowable course repetitions as configured in this proposal would allow the student to retake the course in subsequent semesters. She commented that understands the intent of faculty is to allow students to retake the course as needed for changes to software, however, as configured that could be abused because Datatel retakes allow students to retake in subsequent semesters. Is that what the faculty wants? B. Sinclair commented that CMPGR students are encouraged to retake courses. C. Vaughn noted that software versions are upgraded usually on an 18 month cycle. CSU would take both transfer repetitions, according to R. Cranley. The issue remained that the repetitions are in question based on current local policy and local interpretation of Title 5. Other solutions were proposed, like stacking multiple courses in one class, modifying the content to show multiple completions. It was observed that our local policy has not been updated since Title 5 §55041 which was revised in 2007.

M/S/U (M. Robles/J. Sola to approve OFADM 356, 359 and 361 with the understanding that B. Adams will work with course author N. Backlund/K. Alavezos to fix completions to adhere to the current local policy. ACTION ITEM: Committee will review and potentially revise current RETAKE POLICY AND PROCEDURES in SPRING 2010 to ensure that it adheres to Title 5 §55041, which was revised in 2007.

IMPORTANT! This is a cross-listed course. CurricUNET sees cross-listed courses as separate courses. MJC would like cross-listed courses to have only one course record stored under one or more course IDs. Right now, each outline must be updated separately. Until programming is established that allows for two or more course ID's to be associated with one course record, Curricunet records will be inaccurate for the latter course ID. In this case, the first course outline was updated, but the latter was not. Once this issue is addressed by CurricUNET, these will need to be reconciled by confirming that the latter course ID is linked to the newer course proposal.

PSYCH 118 MJC-GE proposal pulled for discussion by M. Garcia  
M. Garcia called attention to the content and learning goals for PSYCH 118. The committee noted that the content was highly specialized, almost scientific in substance, and did not cover general social science principles as one would expect for GE placement. A representative from the Behavioral and Social Sciences area agreed that it narrow focus needed to be broader to validate being a survey course for GE.

Chancellor’s Office Approvals/Denials/Updates

California Community College Chancellor’s Office Approval

The following existing award, upgraded from a Skills Recognition to a Certificate of Achievement, has been approved by the CCCCO and -- per Stephanie Low - is effective locally as of the date of the CCCCO correspondence.

- Certificate of Achievement: Child Development Associate Teacher  
  Effective July, 20, 2009

(C) Supervisory Management in Public Safety (Application Withdrawn)

In Spring 2008 the ADJU department requested via CCC-501 application that this award be approved at the state level as a Certificate of Achievement. The CCCCO denied the application in spring 2009 due to deficiencies in the application, but granted MJC an extension to December, 2009 to revise and resubmit. Due to extenuating circumstances the division dean, ADJU faculty, and curriculum leadership determined that the application should be pulled from consideration by the CCCCO. We may resubmit a revised application at a later date. The award will remain as a Skills Recognition until further notice.

- Skills Recognition: Supervisory Management in Public Safety  
  Withdrawn via email on 10/13/09

The committee was notified of CCC Chancellor’s Office activity.

2. Approval Process
   B. Adams
   The committee discussed the current state of curriculum review and approval. Many members admitted they do not have time to review course outlines to the depth required. One member commented that she would like to be able to spend more time evaluating each outline. It was suggested that the committee be divided into groups for the purposes of review so that expertise and standards could be developed.

3. Title V and Catalog Rights
   S. Agostini / B. Adams
   S. Agostini and B. Adams are to meet in about two weeks to discuss many issues related to catalog rights. S. Agostini commented that statewide there are varying often contradictory policies stemming from catalog rights.
VIII. NEW BUSINESS

Information Items

1. Equating Courses and Repetitions  S. Agostini / L. Miller
   S. Agostini revisited the course repetition policy discussed earlier in the meeting, alerting the committee that Datatel is supposed to be able to break relationships between courses so that repeats may be allowed (e.g. CMPGR 201 from 1990 would not be automatically equivalent to CMPGR 201 in 2009.) However, that feature does not seem to work. Research and testing by S. Agostini, L. Miller, and J. Nielsen (Admissions and Records) will continue in this area with the goal of finding a way to break the relationship between versions of courses.

   L. Miller brought to the committee’s attention that she is currently the decision maker as to when a revised course is EQUATED to its previous version. She asked the committee if the college believes that – when a course is revised – it should ALWAYS be equated to its former version. She asked “Did the student who completed COURSE XX for 3 get the same content as the student who completed it two years later for 5 units? Should that student be allowed to complete the course again?” It became clear that the committee determined this was a valid issue to be evaluated. L. Miller and E. Kerr both postulated that CurricUNET might be a good place to prompt faculty as to whether course modifications are significant enough to “break” equivalency with the older version. **ACTION: L Miller asked the representatives to think about this issue and return to report whether it merits evaluation and a change in process.**

2. CCCCO Recertifies MJC to Locally Approve Credit Courses  B. Adams
   B. Adams proudly reported that the college has been notified that it has been recertified to locally approve stand-alone courses. This is because of all of the representatives who attended training in a timely fashion.

IX. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  B. Adams
   No report.

2. CurricUNET Implementation Task Force Update  B. Sanders / B. Adams
   No report

X. PUBLIC COMMENT

B. Adams asked the committee if they found her summary of Curriculum Review comments (from CurricUNET) useful in their review of courses before the meeting. The committee seemed to indicate that it did. She remarked that, time allowing, she will continue to make this resource available to members.

**MEETING ADJOURNED AT 4:51 PM**
I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

October 20, 2009

III. NOTIFICATION

CGR 222 OFADM 351, an advisory for both of these courses, has been inactivated. CGR faculty have asked to substitute OFADM 353 as the advisory for both CGR courses.

CGR 224

OFADM 356 B. Adams met with K. Alavezos on 10/28/09 and inserted additional completion information in OFADM 356, 359, and 361.

OFADM 359

OFADM 361

SPAN 103 Spanish 3 5
Effective: Summer 2008
The unit change for this course was approved at the April 3, 2007 Curriculum Committee meeting however in the current catalog, the AA Degree in Spanish still reflects the previous unit count. This appears on the agenda to ensure that the program is updated in future catalogs.

SPAN 104 Spanish 4 5
Effective: Summer 2008
The unit change for this course was approved at the April 3, 2007 Curriculum Committee meeting however in the current catalog, the AA Degree in Spanish still reflects the previous unit count. This appears on the agenda to ensure that the program is updated in future catalogs.

The committee was notified of actions pertaining to the above courses.

IV. CONSENT

ART 108
ART 109
ART 110
ART 110
ART 140
ART 141
ART 142

The proposed fee addition and increase (for sculpture and ceramics respectively)effective SU 2010 are proposed for the courses above so that students enrolling in these courses will have automatically purchased materials integral to the course. This is also intended to ease the burden on the workers in the Business office where currently students must use to purchase/get receipt for materials. See attached memo, page 01.

Hearing no objections, MATERIALS FEES were approved for the above courses effective SUMMER 2010.

CLDDV 121  Guidance of Young Children  3
Effective: Summer 2010
MODIFY: Description, field trips, repetitions, modalities, restrictions, learning goals, content, typical assignments, methods of instruction, methods of assessment, textbooks
Enrollment Restrictions: Maintaining: (A) CLDDV 101 and (CLDDV 103 or (CLDDV 104 and CLDDV 105)). Requesting: (A) ENGL 50.
Distance Education Status: Requesting: Hybrid, online, teleclass
Materials Fee Status: None
Articulation Status: Transfers to CSU
General Education Status: Not approved for GE.
Rationale: Revision will update course and allow repetition along with infusing Early Intervention Core Competencies in the student learning goals and course content. Advances in neuroscience technology and the study of emotional and social development require an emphasis on positive interactions between adults and children.
In support of teachers, those who have completed this course may benefit from repeating it from time to time.
Program Impact:
1. Early Intervention Assistant 1 Certificate of Achievement
2. Early Intervention Assistant 2 Certificate of Achievement
3. Master Teacher Certificate of Achievement
4. Site Supervisor Certificate of Achievement
5. Teacher Certificate of Achievement
Pulled for discussion by S. Agostini.
S. Agostini expressed concern, again, about repetitions in this course. P. Guerra Schmidt shared that repetitions are in place to allow students to have time practicing skills essential to child care. Great discussion ensued about repetitions at MJC. Technology courses were also mentioned, but B. Adams countered that issues facing repetition of technology courses were different that of child development courses.

**CMPSC 294**

**Computer Science Final Project**

**Effective:** Summer 2010

**MODIFY:** Modalities, restrictions, methods of instruction, textbooks

**Enrollment Restrictions:** Removing: (A) Completion of at least 18 units of required courses leading to the Associate Degree in Computer Science. Requesting: (L) The Final Project class is designed to bring technical education students together from the three computer science options: Information System, Networking, and Programming. The students are required to bring the skills of their individual specializations, based on their 18 hours of coursework, together to form teams and solve a collaborative real-world IT industry level of problem application. The absence of the cumulative experience of the area specialization would leave the student unprepared to meet their team member role obligation. Our Computer Science technical advisory board from industry has approved of this finishing course, and students that have completed this course indicate that they tied together many “loose ends” of the curriculum by completing this course.

**Distance Education Status:** Requesting: Hybrid

**Materials Fee Status:** None

**Articulation Status:** Transfers to CSU

**General Education Status:** Not approved for GE.

**Rationale:** Periodic Review

(AA) LANGUAGE STUDIES

---

**Effective:** Summer 2010

**Modify:** Units, required courses, elective courses, program structure

Adding:  
- ENGL 176 to Elective Courses
- ITAL 101 to Required Courses
- SPAN 109 to Required Courses
- SPAN 110 to Required Courses

Ines Bucknam, French instructor, was present to express concerns about recent revisions to the Language Studies AA degree. She reported that she expressed concerns in her department but was out-voted. She shared that she did not believe it was necessary to stipulate that the student must complete two languages instead of the past practice of one. She presented evidence of two other CCC’s who only require one language for a language studies degree. Committee members mentioned that this appeared to be an issue that needed to be resolved within the department, and that this was not necessarily the purview of the curriculum committee. L. Senechal pointed out that this degree, as written, is only available to students who are completing the University Preparation Pathway because it requires the IGETC or CSU-GE pattern. This is how the degree was approved at the Chancellor’s Office last year and this technicality was only recently realized. She asked if the committee wanted to set a precedent for disallowing CTE pathway students from earning a degree? Currently, this is the only one of its kind.

**MODIFICATIONS TO AA in LANGUAGE STUDIES withdrawn by division representative in order to facilitate department level dialog about unresolved concerns within the department about the “two language” criteria, and whether it is appropriate to set a precedent for a “transfer only” AA degree.**

**MUSP 151 pulled for discussion by C. Mulder**

C. Mulder noted that the content appeared to be written in paragraph format, as opposed to the more common practice of creating an outline. She held no opinion on the matter, but wanted to know if the committee found such formatting variations to be of issue. The group agreed that it was a minor problem, but that it should probably be repaired. E. Maki and others noted that C. Llewellyn would have no problem changing the format.

VIII. NEW BUSINESS

Action Items

1. AP & IB Credit  
   R. Cranley
   6
   R. Cranley presented to the committee important information regarding Advanced Placement (AP) and International Baccalaureate (IB).

   First, she presented an updated AP Chart to be included in the 2010-2011 catalog. Changes that were incorporated included very literal references to how specific examinations are used by each department.

   M/S/U (K. Ennis/E. Maki) to approve the updated AP CHART for the 2010-2011 catalog

   IB is being discussed statewide and different institutions are determining how they wish to respond. R. Cranley gave a comprehensive explanation of how IB might impact MJC, and some of the questions that may will need to be answered locally to have a successful implementation. She encouraged representatives to go back to their divisions to raise those questions with their colleagues, and that the document would be made available to representatives via the curriculum website.

IX. TASK FORCES

2. CurricUNET Implementation Task Force Update  
   B. Sanders / B. Adams

X. PUBLIC COMMENT

M. Garcia pointed out to the committee that ENGR 100/ARCH 100 used to count toward the GUIDANCE requirement for graduation, but no longer does, and that the faculty initiated this change because they no longer wanted to be involved with the educational planning component.

One of the faculty members solicited assistance and insights from other areas as to how to develop a process for prerequisite challenges, since prerequisite and corequisite enforcement is taking hold campus wide.

Meeting adjourned at 4:58

II. APPROVAL OF MINUTES

III. NOTIFICATION

NURSE 259

LVN Transition: Role Change Preparation

When NURSE 259 was modified and approved earlier this year, the faculty authors converted previously established prerequisite courses into a “limitation on enrollment” statement. By doing this, they disallowed Datatel from checking that students had completed the courses. After consultation with the Instruction Office, it was determined that these courses should remain in effect as prerequisites. Nursing faculty also indicated that they do not want to remove the corequisite of NURSK 800.

(SR) Recording Arts

Effective: Summer 2010

At the 11/03/09 meeting, the CCC-501 application and program requirements for a new (C) in Recording Arts were approved by the curriculum committee. However, on closer review of the application, it was discovered that the application was incomplete and not ready for forwarding to the Central Region Consortium, YCCD Board of Trustees, and the CCCC0 for approval. Consultation with the dean made it clear that the faculty author only intended for the curriculum committee to approve the award locally as a Skills Recognition as a preliminary step toward building a CCC-501. It was agreed that the faculty author would resubmit the proposal and application for Certificate of Achievement when the information was complete and prepared for review by external agencies.

Hearing no objections, the committee was notified.
IV. CONSENT

The chemistry department has some concerns about the validity of the statistics provided by the research department that were used to determine the CHEM 143 prerequisite. The department is in the process of re-evaluating those statistics and would like to incorporate a few more semesters of information to determine if this prerequisite is sound. They are requesting that the MATH 90 prerequisite for CHEM 143 be postponed for 1 year and changed to an advisory for the 2010-2011 catalog. This would give the department sufficient time to look at the statistics and also allow a slower transition for the students.

AUTEC 368  Automotive Electricity/Electronic Systems 1  3½
Effective: Summer 2010 Expedited. To ensure student progression within the program.
Rationale for Expedited Approval: PREREQUISITE CHANGE: Presently AUTEC 368 has a pre-req of AUTEC 311 and we would like to change that to be a prerequisite or a co-requisite of AUTEC 311. This change should increase the number of students enrolled in the first portion of the program and strengthen the number of students progressing to AUTEC 369 and 319. We have not been consistent enough in offering a comprehensive AUTO Core Program.

Chancellor's Office Approvals/Denials/Updates

California Community College Chancellor's Office Approval

The following award has been denied by the CCCCO.

• Certificate of Achievement: Fire Academy 17 6

Effective: Aug 24, 2009

Fire Academy will remain in the catalog as a Skills Recognition until the application is resubmitted and approved.

Hearing no objections, the committee was notified of the CCCCO denial for (C) Fire Academy.

Program Changes that do not require Chancellor's Office Notification/Application

VII. UNFINISHED BUSINESS

Action Items

1. **AP & IB Credit**
   
   (AP Credit was not discussed since it was updated/approved on 11/17/09.)
   
   R. Cranley revisited the document she distributed at the last meeting regarding recent declarations from CSU and the IGETC regarding International Baccalaureate (IB) exams and credit earned. According to recent memorandums from the CSU and IGETC review committee, IB exam scores may be used to fulfill requirements of both patterns. At MJC, we will be mandated to apply these standards for CSU-GE and IGETC certification. UC and CSU are also granting course equivalency for many IB exam completions.

   Given these changes, R. Cranley posed the question again as to how MJC should respond to the changes at CSU and UC, and asked if representatives had consulted with their divisions as to how they might respond. Various representatives had gotten feedback, mostly favorable, about wanting to emulate the UC and CSU. However, some were reportedly reluctant.

   In anticipation of concerns and questions about what scores mean, R. Cranley prepared a comprehensive spreadsheet detailing how each IB exam is being interpreted at each UC, CSU in terms of subject credit and those courses' equivalents at MJC. The committee's response was highly favorable. R. Cranley encouraged the committee to share the spreadsheet with their colleagues to help them see how UC and CSU interpret IB exam results. E. Kerr plans to post IB course outlines to the curriculum website so that faculty may use them as a tool in this process.

Informational Items

1. **CurricUNET Trainings**
   
   B. Adams

   a. Recent trainings
   b. Training scheduled
   
   Trainings in Fall 2009 – Dec. 2nd, 3:00-4:30, West Campus IRC

2. **Approval Process**
   
   B. Adams

   B. Adams asked the committee if it was reasonable to set a resubmission deadline for courses that require changes after Technical Review (TR). Courses coming in later from technical review can impact the integrity of the agenda. The response from the group was that setting a deadline was reasonable.

3. **Title V and Catalog Rights**
   
   S. Agostini / B. Adams

   (No report)

4. **Prerequisite Challenge Process:**
   
   S. Agostini reported instead on prerequisite challenge forms and local acceptance of upper division coursework. She distributed and explained a prerequisite challenge form that is used by students to challenge prerequisites/co-requisites for a course. She explained what Title 5 allows for challenges, including the process to review/approve them.
5. **Taskforce on Upper Division Coursework**  
S. Agostini reported on ongoing ambiguities as to how to locally award credit for upper division coursework. A group recently met to discuss the factors. It was suggested in the group that counselors/advisors could advise students to petition up to ten units to satisfy program/course prerequisites and major/preparation for major courses, but evaluators still must determine if the foreign coursework was offered by an accredited institution. The group decided then that the process would rely on determining equivalency. This would require that divisions look at courses to determine if there is equivalency. In any case, a cogent process is needed. Any resulting process resulting from the work of the task force would need to be brought to IAC, Counselors, and Allied Heath, and curriculum for adoption.

6. **Equating Courses and Repetitions**  
S. Agostini / L. Miller  
L. Miller and S. Agostini reminded the committee that the process for defining course equates is not developed but needs to be. S. Agostini explained that when courses are modified in curriculum that Datatel often requires that instruction stop the old course and create a new version of the course because some changes to courses can wreak havoc on past student records. Creating new versions of courses removes the relationships between past and present.

**Equates** are created to link two course records together so that they are seen as equivalent. What process is there so that Instruction can determine whether a revision to a course should require that it equate or not equate to the previous version. And at what point, does a revision to a course (e.g., units, IGETC placement, prerequisites) warrant that a new course be created? These are all aspects of curriculum that need to be identified by the faculty in the curriculum development process. At this time, Instruction is equating the course in all instances. Complicating the issue further is that different processes uniquely define what substantial changes to courses are, and that all of those variables will need to be analyzed and sorted. Those processes include:

- a. ASCCC Best Practices
- b. Datatel
- c. CCCCCO MIS Reporting

**VIII. NEW BUSINESS**

**Action Items**

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
L. Miller  
Requisites have historically been written in innumerable ways. For example, one course might specify “Satisfactory completion of MATH 70” while another might say “Eligibility for MATH 90.” Such inconsistencies can have unintended consequences for the college community, including varying interpretations and missed information (e.g., MATH 70 completion is equivalent to MATH 72 completion and Assessment test completion). In addition, ‘advisories’ were locally renamed as “Recommended for Success” many years ago. Does the committee want to retain this phrase? Are we prepared to move forward with standardization, and what would that entail. The will of the group was to move forward with this project.

**Informational Items**

1. **Curriculum Review Matrix**  
B. Adams  
B. Adams prepared a spreadsheet to show the committee how well the college had stayed on-track with curriculum review and the matrix. The spreadsheet showed both the courses that had been reviewed and those that had not for Fall, as well as courses that are in the pipeline for Spring 2010. She noted those courses that were reviewed on time, and those that had been reviewed prior to schedule. She commented she was largely pleased with the results, but that there was still room for improvement.

I. APPROVAL OF ORDER OF AGENDA
B. Adams requested the New Business information item, Catalog Update, be moved to New Business action item.

II. APPROVAL OF MINUTES
December 01, 2009
Hearing no objections, minutes were approved.

III. NOTIFICATION

ANTHR 174
This course was approved with a $500 materials fee for field studies (field trip) related stuff, travel, supplies, etc. According to V. Groff, this should not have been approved as a materials fee, but should have been handled administratively at the division/sect level after the course was implemented. This is handled very differently by Datatel. Therefore the $500 has been removed from the course in CurricUNET.

DTAST 371 L
This ‘course’ is being inactivated in Datatel as it was never actually a course at all.

**M/S/U (M. Lynch/C. Mulder) to MODIFY MUSA 142**

MUSA 142 RESTRICTIONS pulled by E. Maki

E. Maki was in contact with faculty author to clarify intent with prerequisite of MUSA 141. Author indicated the prerequisite should not be removed. Upon reviewing the course in CurricUNET, committee saw the prerequisite skills were completed. The requisites section was incomplete, so MUSA 141 was added as prerequisite in system.

**M/S/U (E. Maki/J. Beebe) to approve RESTRICTIONS for MUSA 142**

VII. UNFINISHED BUSINESS

Action Items

1. **IB Credit**
   R. Cranley 3
   R. Cranley mentioned she revised some wording from last revision of IB Chart. She indicated catalog is so near to deadline that it would be nice to have some information in the 2010-2011 catalog. D. Gilbert asked if she should remain on her division meeting agenda, based on the new information provided by R. Cranley. R. Cranley stated it would probably be best to wait at this point, and asked if a subcommittee could be formed to draft an IB Policy. The subcommittee will consist of R. Cranley, E. Kerr, D. Gilbert, S. Agostini, and B. Adams.
   M/S/U (R. Cranley/L. Prusso) to approve the IB Chart and information for inclusion in 2010-2011 catalog.

2. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**
   L. Miller
   B. Adams notified the committee L. Miller is in the peak of catalog production, so there is no standardized language proposal yet. S. Agostini has been working with L. Miller and a process will be proposed in the near future.

Informational Items

1. **CurricUNET Trainings**
   B. Adams
   a. **Recent trainings** – Dec. 2nd, 3:00-4:30, West Campus IRC
   b. **Training scheduled**
      Trainings in Spring 2010 – TBD

2. **Title V and Catalog Rights**
   S. Agostini / B. Adams
   B. Adams notified the committee of a recent memo from the Chancellor's Office which provided a legal opinion on catalog rights and the new Math and English requirements. S. Agostini provided information which was new to most committee members, including the fact Columbia College students do not have MJC catalog rights, even though both colleges are in the same district. The discussion led into the third item on the agenda regarding equating courses.

3. **Equating Courses and Repetitions**
   S. Agostini / L. Miller
   S. Agostini noted there is a page in the catalog stating which courses at Columbia College are equivalent to MJC courses (p. 83). Some members were unaware of the course equivalency process between the two colleges. R. Cranley informed the committee she is involved in the process of providing faculty with course outlines and forms when a change has been made to a course and it needs to be determined if the course is still considered equivalent.

4. **Curriculum Review Matrix**
   B. Adams
   B. Adams asked the committee to remind faculty who are scheduled for Spring 2010 review to work on their course outlines so they may be launched in CurricUNET and reviewed by committee.
VIII. NEW BUSINESS

Action Items

1. Apprenticeship Prefixes
   P. Mendez
   J. Beebe requested this item be postponed until a later meeting, as requested by P. Mendez.

2. Catalog Update
   L. Miller/B. Adams
   B. Adams informed the committee L. Miller is in the final stages of catalog production. She informed the committee one notable deficiency in the catalog is the updating of General Studies Areas of Emphasis. Since their approval and inception two years ago, other courses have been approved for MJC-GE Areas A-D; however, these courses which have been added to the MJC-GE pattern have not been incorporated into the General Studies Area of Emphasis for Natural Sciences, Humanities, Behavioral and Social Sciences, and Language and Rationality. It seems reasonable these courses should be added into their respective General Studies AOE's. M/S/U (P. Upton/M. Lynch) to approve revisions to General Studies AOE's to reflect courses approved for MJC-GE pattern through the November 4, 2009 meeting.

Informational Items

1. Catalog update
   L. Miller/B. Adams
   This item was moved to new business, action item, as requested by B. Adams during the discussion of approval of order of agenda.

IX. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force
   B. Adams
   No Report

2. CurricUNET Implementation Task Force Update
   B. Sanders / B. Adams
   CurricUNET has not fixed any of the issues identified. In addition, the company recently sent an e-mail announcing the "black box" tool would be available shortly and pricing would be forthcoming. This is surprising news to curriculum leadership, as the tool was marketed as a component of CurricUNET and assumed to be an additional tool added to the current service contract.

X. PUBLIC COMMENT

L. Prusso requested catalog proofing files be sent earlier next year, as it was so close to returning for the semester and having outlines to review and approve at the meeting. She suggested another option could be to postpone outlines until the second meeting of the Spring semester so reps could focus on proofing their respective areas.

J. Sola reminded committee members of the invitation to attend upcoming Fire Science Academy trainings to see curriculum in action. Pizza will be served. He’s hoping many of the committee members will be able to attend at least one of the sessions. The first session will be held Friday, January 29 from 11 AM to 12 PM.

University Prep AOE - Communication

B. Adams informed the committee the ENGL 178 course was inactivated (effective Summer 2010) and this course was an elective course in the degree. The inactivation of the course now leaves the total elective units at 8, and 9 are required. The committee indicated they would like the SPCOM department faculty to propose appropriate elective courses for the list. For 2010-2011, students will need to request substitutions for ENGL 178 if they are obtaining the University Prep AOE in Communication. B. Adams will discuss with SPCOM faculty and bring a revised program proposal to a future meeting.

VII. UNFINISHED BUSINESS

Action Items

1. IB Credit
   R. Cranley
   R. Cranley informed the committee the subcommittee will be meeting during the next two months to review IB credit policies and make a recommendation to the committee. She reported E. Kerr is working on procuring various outlines for the subcommittee review.

2. Title V and Catalog Rights
   S. Agostini
   S. Agostini reminded the committee of the formation of a subcommittee which reviewed acceptance of upper division work at various colleges and crafted a draft policy. No action was ever taken on it, and she noted issues have continued to occur (primarily in Nursing) because the college does not have a clear policy on upper division work. There was extended discussion on the proposed policy. M/S/U (M. Robles/C. Vaughn) to approve the acceptance of upper division work policy.

Informational Items

   Training scheduled
   Trainings in Spring 2010 – Feb. 17th, 3:00-5:00, East Campus IRC

3. Title V and Catalog Rights
   S. Agostini / B. Adams
   Multiple Degrees - S. Agostini noted the committee had previously discussed multiple degrees. She provided committee with current catalog statement and requested feedback. Committee agreed multiple degrees statement was acceptable and it was left as it is currently written.
   Credit by Examination – S. Agostini notified the committee of the credit by examination statement included in the catalog. M. Anglin explained the procedure used for courses articulated with high schools.

4. Equating Courses and Repetitions
   S. Agostini / L. Miller
   S. Agostini informed the committee she would be sending out a Withdrawals and Repeat Procedure document soon and requested the item remain on future agendas.
VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  
   L. Miller  
   S. Agostini informed the committee L. Miller requested this item be postponed.

2. GE SLOs  
   A. Peek/B. Adams  
   The committee discussed the GE SLOs proposed for the catalog, which were forwarded by GE SLO work group. K. Ennis expressed her frustration on the lack of an SLO for information competency. M/S/U (M. Garcia/J. Sola) to approve GE SLOs with the recommendation the GE SLOs page include an SLO on information competency.

Informational Items

1. Curriculum Review Matrix  
   B. Adams  
   B. Adams showed the committee an updated spreadsheet of courses which fall within the Fall 2009 and Spring 2010 matrix which have been updated.

2. Program SLOs  
   A. Peek  
   A. Peek provided information to B. Adams for the meeting. B. Adams informed the committee 41 program SLOs are slated for inclusion in the 2010-2011 MJC Catalog; the goal was 10.

X. PUBLIC COMMENT

J. Beebe provided information on the proposed apprenticeship programs. The item did not make it on the agenda, so he wanted to make committee members aware it would be addressed at the next meeting.
I. APPROVAL OF ORDER OF AGENDA

M/S/U to move APPRENTICESHIP PROGRAM PREFIXES section III of the agenda. (J. Beebe, E. Kerr)
M/S/U to move LANGUAGE STUDIES AA to section III of the agenda. (D. Gilbert, M. Garcia)

II. APPROVAL OF MINUTES

M/S/U to approve the meeting minutes of February 2, 2010. (M. Garcia, M. Lynch)

III. NOTIFICATION

AGM 240  Truck and Tractor Power Trains
This course was approved at the 1/19/10 meeting with the contingency the author revise methods of instruction and add a statement regarding identical lecture and lab content. B. Adams spoke with T. Conrado (via phone) on 1/20/10 and following actions were taken in CurricUNET: methods of instruction were revised and lab content statement was inserted.

The committee was notified that the contingency was fulfilled for approval of AGM 240.

IV. CONSENT

CHEM 112  Organic Chemistry 1
Effective: Summer 2011

MODIFY: GE placement
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of CHEM 404 102
Distance Education Status: Maintaining Hybrid modality
Materials Fee Status: None
Articulation Status: Transfers to CSU and UC.
General Education Status: Approved for CSU-GE:B1,B3, IGETC:5A. Requesting MJC-GE:A.
Rationale: Add MJC-GE placement
CHEM 112 was approved at the 2/17/09 meeting. The author did not check the box for MJC-GE Area A and this was not noted in Technical Review or at the meeting. The course is currently approved for CSU-GE Area B1, B3 and IGETC 5A.

M/S/U to approve the request for placement of CHEM 112 on MJC-GE:A. (P. Upton, J. Beebe)
This has already been addressed on the GE pattern. B. Adams had determined that the faculty author had overlooked requesting placement on MJC-GE, despite requests for other areas.

2. **Title V and Catalog Rights** S. Agostini / B. Adams
   B. Adams informed the committee that an email has been sent to S. Low of the CCCCO asking for information on AA and AS degrees. There has been no response yet.

3. **Equating Courses and Repetitions** S. Agostini / L. Miller
   No report.

VIII. NEW BUSINESS

Action Items

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization** L. Miller
   It is a goal of curriculum leadership to create a style guide for faculty when crafting enrollment restrictions. During catalog production, various requests for "changes" to boilerplate language came into Instruction that were not accommodated. L Senechal explained that – even if such customizations are made in the catalog or in Datatel–CurricUNET boilerplate language will continue to appear in reports from the system in the future, making topical fixes irrelevant.

2. **Apprenticeship Prefixes** P. Mendez 05
   P. Mendez explained that, because of SAM coding requirements recently discovered by MIS, apprenticeship courses will need to be coded separately from traditional, open-enrolled courses. For this reason, the department is requesting the new course prefix MFGA. All apprenticeship courses will be coded using an apprenticeship SAM code.

   **M/S/U to APPROVE the NEW PREFIX “MFGA” (J, Beebe, M Garcia)**

Informational Items

1. **Curriculum Review Matrix** B. Adams
   B. Adams presented a comprehensive spreadsheet of all courses that are slated for spring review.

III. NOTIFICATION

AGEC 210 Elements of Agricultural Economics
Course revision of AGEC 210 was approved at the 3/17/09 meeting. At the 2/2/10 meeting, M. Boyd requested the lecture/lab modality (lecture - 2 units, lab - 1 unit) be modified to 3 units of lecture only for articulation purposes and TBA hours compliance. The committee approved this request with the contingency the course outline in CurricUNET would be updated. B. Adams and M. Boyd communicated on 2/24/10 and the CurricUNET revisions were made to reflect the necessary changes, based on the removal of lab component.

      B. Adams reported that there were 11 attendees at the Feb. 17th meeting.

2. **Title V and Catalog Rights**
   S. Agostini / B. Adams
   S. Agostini informed the committee that there are two large issues related to catalog rights that have no resolution at this time.
   a. **Catalog Rights for Nursing Students**
      Students are completing program prerequisites in order to be eligible for the Nursing program. However, the admission lottery is not able to accommodate all eligible students who apply. These students, while waiting to be accepted for admission, pause in taking courses at the college. This affects their status as they are no longer “continuously enrolled” and lose catalog rights. These students then get trapped by newer requirements, e.g. higher Math requirements for graduation which ultimately penalize them. E. Kerr noted that graduate schools employ a policy wherein a student’s application renders them as “enrolled.” Might this be a solution?
   b. **Catalog Rights for Continuing Students**
      When increases to Math and English requirements went into effect in Summer 2009, it was noted that the requirements for “continuing students would be waived.” S. Agostini noted that this can be interpreted in various ways. What does “waived” mean? Evaluations interprets this as the students will retain a prior catalog year where the requirements were lower. Others, however, interpret this as the ability to “split” catalog requirements, for example, use the current requirements for major, but retain the lower Math requirement from a previous year. Lively discussion ensued. Many perspectives were shared. It was agreed upon that this was an issue that warranted further evaluation and discussion to determine a solution.
      **ACTION: Form a CATALOG RIGHTS subcommittee comprised of S. Agostini, L. Lanigan, B. Adams, M. Garcia, R. Cranley, and L. Miller**

Informational Items

1. Chancellor’s Office Curriculum Memo   B. Adams  01
   B. Adams reported to the committee that the CCCCO is adopting and implementing a state level version of CurricUNET. Because of this, the Chancellor's Office Inventory of Approved Programs will no longer be used (nor updated) effective March 1, 2010. Curriculum chairs, Curriculum Specialists, and Administrators are all to be trained on the use of the new system in April. Until then, MJC will not be allowed to submit applications and paperwork to the CCCCO. Systems and processes that will be affected and replaced by this system include:
   a. CCCCO Credit Inventory of Approved and Projected Programs
   b. Noncredit Inventory of Courses
   c. Web interfaces for submission of noncredit programs for enhanced funding (SB361)

Apprenticeship applications will not be replaced at this time.

X. PUBLIC COMMENT

ASMJC Report

R. Jones reported that students went on Sunday, February 28 to the capitol. She noted that one legislator remarked that students in California Community Colleges are staying too long. Representatives were troubled by this remark and asked for the name of the legislator. She also distributed materials promoting the March in March and the Hispanic Education Conference on March 27.

Curriculum Review Cycle: Behind Schedule?

M. Garcia expressed concern that many courses should have been reviewed at this point in the spring semester. It was noted that some courses may still be stuck at the course author level because individuals may have authored courses when we were still at a “two-step submission” process. Representatives were encouraged to notify their areas of timelines.

MUSA  163  Applied Music Violin and Viola  1

Effective: Summer 2011

MODIFY: Enrollment restrictions

Enrollment Restrictions: Maintaining: (C) MUSE 165 or MUSE 161, (A) play a violin or viola at an intermediate level and demonstrate the ability to read music. Requesting: (C) "or MUSE 861"

Distance Education Status: None

Materials Fee Status: None

Articulation Status: Transfers to CSU, UC

General Education Status: Approved for MJC Activities.

Rationale: MUSA 163, Applied Music Violin and Viola, was approved at the 11/17/09 meeting. The corequisites of MUSE 161 or MUSE 165 were also approved at the 11/17/09 meeting. The faculty author inadvertently omitted the request for the additional option of the corequisite of MUSE 861 (concurrent enrollment). Author is requesting approval of MUSE 861 as a corequisite. Approval of this request will allow the course to match the corequisites listed for MUSA 164, Applied Music Cello and Bass, which was approved at the 1/19/10 meeting.

PULLED FOR DISCUSSION BY M. Lynch due to division’s concerns about overlap with photography program (ART courses). C. Vaughn, (representing CMPGR) echoed concerns and stated that there is increasing overlap in courses offered in all three disciplines. Lively discussion took place. Mentioned was the budget crisis and how it is necessitating review of overlapping disciplines and courses. A solution was proposed that cross-listings be created in the disciplines. B. Adams mentioned that cross-listings as well are coming under scrutiny due to issues with minimum qualifications, program requirements, accuracy of program enrollment data, and FTE and that the college would be entering into formal dialog about this in fall.

RECOMMENDATION: Form a committee to analyze and discuss overlap of CMPGR, ART and CGR courses, with representation from all three areas.

C. Mulder noted that she was not aware that HE 100 is a requirement for AS in Recreational Land Management. She was not certain that the Ag department was aware that the content of HE 100 had changed dramatically. How does this affect their degree? It was stated that this is a common scenario, given ongoing changes to courses that are required across the college curriculum, and there is hope that CurricUNET's program module will help raise awareness that changes to courses and programs do impact other departments and programs.

MACH 220 CNC Machine Tool Programming 2

Effective: Summer 2011

MODIFY: Description, repetitions, grading, restrictions, course goal, learning goals, content, typical assignments, methods of assessment, textbooks

Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to be familiar with basic metal cutting practices, machine setup, and calculation of tool speeds and feeds as encountered in the operation of manual lathes and milling machines, have a basic understanding of formatting and the codes used in the Word address format system of CNC programming, and have a good working knowledge in the basic operation of personal computers.

Distance Education Status: None

Materials Fee Status: Maintaining fee of $15.

Articulation Status: Transfers to CSU.

General Education Status: Not approved for GE.

Rationale: Periodic review

Course Impact:

1. MACH 315

Program Impact:

1. CNC Programmer Skills Recognition Award

Jeff Weaver, course author, was present for discussion. He expressed sincere interest in learning how to write a course outline to adhere to Title 5 regulation for repetitions. He explained the ever-shifting focus of the lab each semester, and how different students are leveraging different skill-levels and skills each term. How do you document that logically? The committee recommended that he focus on desired essential learning that should ultimately be taken from all course repetitions. With that in mind, he should write the first completion for the entry-level students, and write each successive repetition showing incremental advancement toward mastery of the desired objectives.

VII. UNFINISHED BUSINESS

Action Items

1. IB Credit
   B. Adams for R. Cranley
   B. Adams reported that the IB subcommittee met last week. They are meeting again April 6, hoping that the subcommittee will have a finalized grid for the committee to review and vote on at the last Curriculum Committee meeting in April.

Informational Items

1. CurricUNET Trainings
   B. Adams
   a. Recent trainings
      Mar. 4th, West Campus IRC.
      Two faculty attended
b. Training scheduled
Trainings in Spring 2010 –
B. Adams stated some faculty have requested a training in the first or second week of May, once the semester is completed. She is also hoping to plan a breakout session on Institute Day since AHC, her division, is hosting the event.

2. Title V and Catalog Rights S. Agostini / B. Adams
Committee will have its first meeting on March 23, at 4 PM.

3. Equating Courses and Repetitions S. Agostini / L. Miller
L. Miller reported that there has been no update on this issue because it is complex and there are many factors to consider, and that a formal process and documentation may need to be developed. B. Adams suggested that a committee be formed to evaluate the issues of equating courses in Curriculum and Datatel.

ACTION: Form a committee to evaluate equating courses. First meeting probably will not take place until May. Members will include B. Adams, L. Prusso, L. Miller, R. Cranley and S. Agostini will be invited to participate.

VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization L. Miller
No Report

2. Curriculum Committee meeting schedule for 2010-2011 L. Miller
S. Fornelli drafted a calendar of proposed meeting dates for 2010-2011. The committee asked that the curriculum training not take place on Labor Day weekend and agreed to move it to the following Friday, September 10. They group also requested that the entire year’s meeting invites be sent earlier in the year, ideally now, so that Curriculum meeting times are not scheduled with other meetings in the months before the term begins.

Hearing no objections, the meeting schedule for 2010 -2011 was approved with changes

ACTION: Make it a practice to send out Curriculum meeting invites using Outlook in the academic year prior to the scheduled meetings.

3. Curriculum Co-Chair Election (3. has a strikethrough, but I couldn't highlight for you) A. Peek
Floor was open for nominations. C. Mulder nominated B. Adams. No other nominations were made. M/S/U (C. Mulder/J. Sola) to approve B. Adams as Curriculum Committee Co-Chair, with the term expiring Spring 2012.

Informational Items

1. Curriculum Representatives – Terms Expiring B. Adams
It was asked if any representatives would be leaving their seats as representatives. Lively discussion ensued. One representative reported that he was only beginning to feel comfortable in his role now that it was the end of his first term because the learning curve is so steep. Many representatives reported that they were surprised to realize that they wished to retain their seats, having had an initial sense of resistance when they first began. C. Mulder asked if the committee would want to consider increasing terms to, for example, three years. This brought to light many concerns about adequate preparation for new representatives, making extended time commitments. It was decided that an increase in term length might not serve the committee as well, and that more preparation was needed for new representatives, be it mentoring by exiting reps, staggered terms in divisions with two representatives. Only one representative, C. Vaughn of BBSS announced that his seat would be vacated.
IX. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  
   B. Adams
   No Report

2. CurricUNET Implementation Task Force Update  
   B. Sanders / B. Adams
   B. Adams reported that there is no specific update to CurricUNET, but that PRNet, the recently purchased module of CurricUNET that deals with Program Review, is getting a great deal of attention because of its role in MJC's accreditation. She is highly optimistic that because of the essential relationship between Program Review and program requirements, that the program module of CurricUNET will have to be fixed very soon, since CurricUNET's program module generates data required for program review.

X. PUBLIC COMMENT

J Sola had public comment -- reminding everyone of Advanced Drills on March 24 from 1:30 to 3:30 at Training Center. Committee members invited to attend.

L. Miller public comment on catalog asking representatives if they felt they had enough time to review the catalog. Many members noted they had not had enough time.

Members Absent: M. Boyd, S. Circle, M. Lynch, C. Vaughn, K. Walters Dunlap

Others Present: L. Miller (Curriculum Specialist), J. Weaver (MACH)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections the order of the agenda was approved.

II. APPROVAL OF MINUTES

March 16, 2010

Hearing no corrections, the minutes of March 16 were approved.

III. NOTIFICATION

The committee was notified of the following adjustments to hours for many FSCI courses.

Over the summer of 2009, the Instruction Office made adjustments to the hours of many of the FSCI courses. The courses listed below now reflect accurate hours in Datatel and CurricUNET.

VII. UNFINISHED BUSINESS

Action Items

1. IB Credit
   R. Cranley
   R. Cranley reported that the IB Workgroup meet two times. They will meet again on Tuesday, April 6. Issues being discussed are minimum scores for GE areas, as well as evaluation of IB exams. R. Cranley will work with L. Miller to update the IB Chart, hopefully in time for inclusion in the addendum.

Informational Items

1. CurricUNET Trainings
   B. Adams
   a. Training scheduled
      Trainings in Spring 2010 – Next training will be scheduled during first or second week of May.

2. Title V and Catalog Rights
   S. Agostini / B. Adams
   S. Agostini reported that two procedures were forwarded to N. Stavrionoudakis at district. First procedure responds to withdrawal and repeat policy. The latter deals with a change in district procedure for Priority Registration. It must now go to be evaluated by constituent groups.

3. Equating Courses and Repetitions
   S. Agostini / L. Miller
   No report.

VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization
   L. Miller
   Standardized language will need to be developed for various aspects of enrollment restrictions. L. Miller provided an example of how a recent issue arose with LOEs language. S. Agostini had suggested to another group that divisions, independently of the curriculum process, add information to sections of courses specifying how/what evidence students must provide to show they meet the limitation on the first day of class. L. Miller reported that she and Susie had agreed that, since this information is driven by the LOE at the course level, that it would be more efficient to capture information through the CurricUNET with the LOE so that L. Miller can input it once into the course rather than division staff entering the data for multiple sections. It was suggested that an additional prompt be added to the LOE screen.
2. AP Calculus

J. Michelena announced that the Math department had arrived at the following revisions to the AP Policy effective 2010-11 MJC Catalog addendum. He also brought with him proposed revisions to some AP language that some thought would be clearer. The committee warmly congratulated the department on accomplishing the following MATH changes.

a. An AP Calculus AB or BC score of 4 or 5 may be used to satisfy the prerequisite for courses requiring satisfactory completion of MATH 171 prior to enrollment
b. An AP Calculus BC score of 5 may be used to satisfy the prerequisite for courses requiring satisfactory completion of MATH 172 prior to enrollment
c. NOTE: Students earning a 5 on the BC Calculus test MAY enroll in MATH 173 but are strongly encouraged to enroll in MATH 172 instead. Students wishing to enroll in MATH 172 will need to enroll in person at the Admissions Office.

3. MJC-GE Areas and Placement on A.A. Degree General Studies

B. Adams brought to the committee’s attention the effective dates of the AA Degree in General Studies and how the policy was recently devised to ensure that the Areas of Emphasis are updated with the MJC-GE. She pointed out to the committee that the effective dates are also an area of ambiguity. Do the courses placed in the areas of emphasis bear the same effective dates as those listed in the MJC-GE Discussion ensued on the policy draft. Suggestions to the policy language were provided and B. Adams will provide Draft #2 at the 4/13/10 meeting for committee review and potential vote.

4. Number of Courses Reviewed Per Meeting

B. Adams and A. Peek presented to the committee a spreadsheet of how many courses were reviewed at each meeting last year. The data showed that fewer courses were being reviewed at some meetings and more at others, usually close to deadlines. They asked the committee if it would be possible to set up a maximum number of courses for review. Lively discussion ensued, and various points of view were shared, including concern that those who meet the deadline for their scheduled review might be pushed aside by others who submit by a day earlier who are late for their scheduled review. No clear resolution was formed.

X. PUBLIC COMMENT

1. R. Jones reported on behalf of ASMJC that ASMJC will host a César Chavez event on the East Campus quad, Wednesday, March 31. It will feature a farmer’s market from 10:00 to 2:00. On April 7, they will host a MeCHA event. She also added that she is running for ASMJC Treasurer, but hopes to remain involved with the committee. B. Adams noted that R. Jones has been an exceptional ASMJC representative.
I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES  

Hearing no objections, the minutes of March 30, 2010 were approved.

III. NOTIFICATION

IGETC/CSU-GE Decisions for 2010

The committee was notified of IGETC/CSU-GE decisions for 2010.

1. **IB Credit**  
   R. Cranley / B. Adams  
   At the April 6th meeting, the group honed the chart. R. Cranley has requested that an update for the Curriculum Committee take place at the first Fall 2010 meeting, as we are still working with the Math department on scores and policy language.

2. **MJC-GE Areas and Placement on A.A. Degree General Studies**  
   B. Adams  
   B. Adams made adjustments to the drafted policy.  
   **M/S/U (J. Beebe/L. Prusso) to approve the policy for Approve of Courses for MJC-GE Areas and Placement on A.A. Degree General Studies Degrees**

   **Policy for Approval of Courses for MJC-GE Areas and Placement on A.A. General Studies Degrees**

   When a request to place a course on the MJC-GE pattern in Area A, B, C, or D is approved by the MJC Curriculum Committee, the course will automatically be included in the list of required courses for the appropriate A.A. General Studies, Emphasis degree.

   Therefore, courses approved for MJC-GE areas will be placed, based on approved effective date, as follows:

   1. Courses approved for Area A will be placed in the General Studies, Emphasis in Natural Sciences degree
   2. Courses approved for Area B will be placed in the General Studies, Emphasis in Social and Behavioral Sciences degree
   3. Courses approved for Area C will be placed in the General Studies, Emphasis in Humanities degree
   4. Courses approved for Area D will be placed in the General Studies, Emphasis in Language and Rationality degree

Informational Items

1. Curriculum Review Matrix   B. Adams
   B. Adams showed the committee how she had placed the curriculum review matrix information on the CurricUNET homepage. She also presented a spreadsheet she had prepared listing all courses slated for review in Fall which will be available for review on the MJC Curriculum Website.

2. Distance Education – Substantive Changes   B. Adams
   B. Adams showed how she added a new column to the spreadsheet that shows programs and what percentage of the total award units have the possibility of being offered in a distance education modality. She hoped that this improvement will make it easier for the committee to track how approvals of DE modalities in curriculum are affecting the larger scope of these programs. When more than 50% of a degree, certificate, or skills recognition units can be offered online, MJC must notify WASC, our accrediting body in an application for substantive change.

   Lively discussion ensued. Representatives were not clear on their role in this process. It was stated that reps are to bring back this information to their divisions when distance education units increase and affect the 50% factor. For example, divisions may have a philosophy on feasibility or philosophy. You can choose to remove DE if quality of delivery for the discipline is in question. K. Walters Dunlap reminded the committee that –for degrees – 50% of a program equates to 50% of the 60 units for associate degree. Many of the units showing up as DE in AA/AS programs are represented by the GE portion of the requirements for degree, as all 18 units of GE can be completed in a DE format. K. Walters Dunlap said that the goal of this review is to show the accreditors that we maintain the same degree of quality for distance education programs as we do for traditional instruction; e.g., learning resources, support services, tutoring. This type of quality review needs to be taking place at the department level. It was clarified that MJC will file the paperwork for WASC applications, and that the curriculum committee is not responsible for that part of the project.

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

April 13, 2010

Hearing no objections, the minutes of 04/13/10 were approved.

III. NOTIFICATION

Hearing no objections, the committee was notified of the following items:

On 3/31/2009, ELTEC 208 appeared on the committee’s agenda without its cross-listed course, INTEC 208. The agenda (and minutes) from that meeting should reflect the following:

ELTEC 208  The World of Electricity and Electronics
INTEC 208  Effective: Summer 2010
Modify: Description, course goal, learning goals, content, typical assignments, methods of instruction, methods of assessment, textbooks
Enrollment Restrictions: Maintaining: (A) Satisfactory completion of MATH 20
Distance Education Status: Requesting: Online
Materials Fee Status: Maintaining: $22.50
Articulation Status: Transfers to CSU.
General Education Status: Approved for MJC-GE: A. Requesting CSU-GE: B1*

M/S/U to approve MODIFICATIONS to ELTEC 208 (J. Lanning, J. Beebe)
M/S/U to maintain ADVISORY for ELTEC 208 (J. Daly, K. Ennis)
M/S/U to approve ONLINE modality for ELTEC 208 (E. Maki, P. Upton)
M/S/U to maintain MATERIALS FEE for ELTEC 208 (J. Michellina, J. Beebe)
M/S/U to maintain placement on MJC-GE, and to request CSU-GE:B1 for ELTEC 208 (J. Daly, D. Gilbert)

*NOTE: Courses were rejected for CSU-GE: B1. "This course does not address sufficiently the principles, theories, and methodology of electricity. The subject content is too narrow and focuses on
career-preparation.”

**READ 82**  College Reading - Comprehension  3

**SCI 800 C**  Explorations in Natural History and Science  3

HUMAN 110  East Meets West
This course emphasizes theories in the humanities and is not appropriate for CSU GE Area C1. It will be retained in Area C2.

IGETC Pattern
The following courses have been approved or reapproved for IGETC in the areas specified, effective as of the date specified, and will be reflected in the 2011-2012 MJC Catalog:

- CHEM 150  Exploring Our Chemical Environment (IGETC: 5A) F09
- CLDDV 103  Child Growth and Development (IGETC: 4G) F09
- NR 200  Soils (IGETC: 5A) F09
- PHILO 135  Environmental Ethics (IGETC: 3B) F09
- PHSCI 164  Physical Science Environmental Laboratory (IGETC: 5A) F09

This course is accepted to satisfy the laboratory requirement in IGETC Area 5 only if PHSCI 161 is successfully completed prior to or concurrently with PHSCI 164.

MACH 211 DE  Machine Tool Technology 1 4, 5
Effective: Fall 2010 Expedited. To ensure student progression within the program.
Rationale for expedited implementation: Lab material fees currently cover less than half of the cost of materials used and have not been adjusted to reflect actual cost for many years. With current budget reductions (2009-2010 Fund 11 operating/repair budget = $00.00) it will be difficult to provide adequate material for student lab projects. If the program is to continue to function and facilitate student skill development, the students will need to provide funding to cover a greater portion of the cost of material used. An increase of $10 (from $15 to $25) is proposed. Summer 2011 - This course proposal was initially proposed for expedited approval/implementation. Due to concerns about operational feasibility of implementation, the request has been definitely postponed by the VP of Instruction. Feasibility will be evaluated and discussed by Curriculum Leadership and the Instruction Office at the Curriculum Operations Meeting on 09/21/2010. At this time this proposal is up for consideration under the regular curriculum review cycle.
MODIFY: Hours, restrictions, materials fees, course goal, learning goals, content, typical assignments, methods of instruction, methods of assessment, textbooks
Enrollment Restrictions: Removing: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete MATH 20 and ESL 45.
Distance Education Status: None.
Materials Fee Status: Requesting increase in fee from $15.00 to $25.00.

Action Items

1. IB Credit R. Cranley / B. Adams
   At the April 6th meeting, the group honed the chart. R. Cranley has requested that an update for the Curriculum Committee take place at the first Fall 2010 meeting, as we are still working with the Math department on scores and policy language.

   R. Cranley indicated that the new IGETC Standards, version 1.2, released June 9, 2010 and an updated E.O. 1036, Section 1.2.4 released May 10, 2010 may contain changes that will affect the current AP and IB chart in use at MJC.

   The CSU has significantly expanded its acceptance of tests administered by the “College Board’s College Learning Examination Program,” CLEP and for the first time authorizes the use of CLEP toward areas of the GE Breadth curriculum. This is meant to let community colleges use these tests for “pass-along” credit in GE certification, as set forth in our Executive Orders 1033 and 1036. MJC will need to determine if CLEP will be used toward the satisfaction of our local GE requirements.

2. Equating Courses and Repetitions L. Miller
   L. Miller revisited how courses, when modified through curriculum, need to supply a response to the question “should this course be equated to its previous version?” When changes to units, description, coding, requisites, etc. are modified, a new version of the course must be created. It is at this point that the new version may be equated to the older version. This issue has various facets that need to be examined, like repetition, etc. L. Miller suggested, with the support of B. Adams, that a subcommittee be convened to evaluate the issue and make a recommendation.

   M/S/U to form a subcommittee to evaluate “equating courses and repetitions.” Subcommittee members include B. Adams, S. Circle, J. Beebe, C. Vaughn, and L. Miller.

   A meeting request will be sent to all participants.

   L. Miller  
   *Postponed to 9/28/2010*

Informational Items

1. **Curriculum Review Matrix – Fall 2010**  
   B. Adams
   
   B. Adams showed the committee the matrix. Questions arose about the distribution of courses for Child Development. She explained how it should be read to new users, and how courses that are not compliant should be bringing through courses now regardless of where they fall on the matrix. It was shared that noncompliant courses may not be offered. Courses slated for review in 2014 and beyond may not be visible on this matrix, but by adding five years to the current matrix date, departments can plan ahead for curriculum review.

2. **Chancellor’s Office Correspondence – SB 1440**  
   B. Adams
   
   B. Adams was pleased to report that SB 1440, which is designed to streamline transfer to CSU, is asking California Community Colleges to design majors that prepare students for upper-division coursework at four-year institutions. B. Adams consulted with K. Walters Dunlap and confirmed that MJC is already in compliance with SB 1440, as the result of the numerous transferable associate degree emphases (areas of emphasis) that were created effective 2009-2010.

3. **Cross-listing Noncredit and Credit Courses**  
   L. Miller
   
   Over the past few years, there have been inquiries in the Instruction Office about cross-listing noncredit and credit courses. Can it be done? L. Miller sought feedback from the CCCCO. S. Vorhies Specialist Noncredit (Adult Continuing and Community Education) promptly provided the following advisory from the CCCCO:

   You should consult with your college’s CIO and/or general counsel on this issue. The Chancellor’s Office has consistently advised that this combination of the same course being offered under different fee structures should not be allowed because of the inequity that would be created.

4. **Scheduling Configurations and Curriculum**  
   L. Miller
   
   In an attempt to resolve a scheduling problem, faculty authors may be making unnecessary curriculum design decisions. For example, the ESL department-while developing new courses- cross-listed noncredit ESL to credit ESL courses in CurricUNET. Later on, it was realized that the only reason the instructors were doing this was to allow noncredit students to be scheduled concurrently with credit students, giving the noncredit students exposure to the credit sequence. The cross-listings were removed in CurricUNET once L. Miller pointed out that this can be accomplished by the “stacking” courses in the scheduling process, meaning that multiple courses can be scheduled concurrently in the same location – with the same instructor of record. It can be used to resolve enrollment problems across a sequence, and other challenges. Division deans understand how this can be done. If there is a desire to explore scheduling alternatives, deans should be consulted about available options.

Effective: Spring 2011 Expedited

To facilitate workforce training demands

Rationale: We were involved with the ARRA initiative receiving a grant to develop the necessary training equipment for the relocation of displaced workers from the construction industry. As a consequence, a number of professional grade devices for residential installations were purchased and assembled as trainers. The demand in this field goes beyond the mere training for a quick unemployment fix, as the capabilities of the equipment built at MJC. The demand for this type of knowledge includes electricians, electrical contractors (C10), General Construction contractors, engineers, tech sales personnel, and many other trade people and professionals directly or indirectly involved with this relatively new field. We cannot lag behind the requirements of our times and we should follow the lead of other community Colleges that have made of PV systems full programs with their related certificates and associates degrees. This course will help to put MJC in this path and keep this institution in the vanguard of technical preparation for our local work force.

Program Impact:

Pulled for discussion by R. Cranley due to concerns that the requisite skills did not match the actual requisite in selected for the course. Lengthy discussion ensued about the ESL sequence. S. Circle, provided a rationale for the sequence on behalf of the faculty author. However, various potential complications were realized through discussion of the sequence of courses. They included the following:

1. The Instruction Office Audit of the ESL sequence resulted in the removal of the noncredit prerequisites set in place by the faculty author. This left the requisite skills “matched” from the noncredit course, ultimately disrupting the curriculum as designed. Is this a desired outcome of Instruction Office Audit? This is determined to be operational/implementation issue that will likely be discussed at the October 5 Curriculum Operations meeting.

2. Guidelines for “stand-alone” course approval from the CCCC Program and Course Approval Handbook (PCAH) states, “When a college offers a group of stand-alone credit courses in the same T.O.P. Code that total 18 semester units or 27 quarter units and that are linked to one another as prerequisites or corequisites, the courses are no longer considered ‘stand-alone’ and Chancellor’s Office program approval is required. The college should submit this sequence of courses for approval as a Certificate of Achievement.” The proposed ESL 1-6 sequence totals 30 units and would require submission as a program to Chancellor’s Office.

3. Proposed noncredit prerequisites can be used for credit courses, per J. Vorhies of the CCCCO, however, they cannot be used as a prerequisite in a credit certificate. Such restraints would maintain that ESL courses cannot have noncredit prerequisites, since the ESL sequence “program” would be linked through the credit/noncredit prerequisites.

4. There is a 30-unit maximum for pre-collegiate basic skills courses and financial aid. A student who completes the ESL 1-6 sequence would earn 30 units. What happens to students who then need to go advance into ESL 10 or other pre-collegiate basic skills courses? Many members commented that they would be blocked from collecting financial aid.

M/S/pulled (E.Maki/K.Ennis) PULLED BY S. CIRCLE, DIVISION REP. The committee expressed interested in seeing these courses again at the 10/12/10 meeting, with these issues resolved.

Informational Items

1. CurricUNET Trainings B. Adams
   a. Training scheduled
      Recent trainings: 9/17/10 – 12 attendees
      B. Adams reported that 12 people attended the last training. She shared that she would like to establish a CurricUNET “open lab” to help authors with their deadline-related curriculum issues. The committee agreed that this was an excellent idea.

2. Equating Courses and Repetitions L. Miller
   L. Miller reported that the Equating Courses and Repetitions Task Force would meet after this meeting, and had not yet met. She added that the group invited the participation of Molly Boyatt, as to get expertise from the “student” side and to give examples of how any decisions regarding equates and repetitions for courses might affect records, transcripts, enrollments, etc.

VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller
   L. Miller suggested that the issue of consistency in language used for Prerequisite, Corequisites, Advisories, and
   Limitations on Enrollment drawn into a taskforce project to gather varying perspectives and expertise to make the most
   comprehensive recommendations of how to proceed. B. Adams added that this would be an ideal endeavor, however,
   it should wait until the work of some of the other taskforces is complete or nearing completion.

IX. WORKGROUPS

1. Operations Workgroup A. Peek / B. Adams / L. Miller
   B. Adams reported on the first meeting of the curriculum Operations Workgroup (September 21, 2010) which includes
   B. Adams, A. Peek, K. Walters Dunlap, V. Groff, A. Bethel, L. Miller, and S. Fornelli. She reported that this group will
   be paying close attention to how curriculum committee approvals and policies impact college operations. One issue
   that was discussed at length at the first operations meeting was the issue of expedited approval. She explained that
   expedited approval of various elements in curriculum are not feasible to implement under expedited timelines. She
   predicted that the frequency of expedited approvals would dramatically decrease, and that what committee members
   are likely to see approved for expedited approval would be those proposals that are being mandated by outside
   entities, for example, state mandated fees for Fire Science that without implementation in a specific time frame, will
   impact department budgets. It was also discussed that when a department has surplus garnered from material fees,
   what are they able to do with the money? Theresa Rule's name was mentioned as a resource.

X. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force B. Adams
   No Report

2. CurricUNET Implementation Task Force Update B. Sanders / B. Adams
   B. Adams noted that this item may be on the agenda for some time, given the fact that GoverNET, CurricUNET's
   parent company is not responding in a timely manner to requests and bug reports. She said that this is causing great
   problems for the college. For example, the Program Module is going to be linked to many other essential institutional
   processes, like assessment and program review. Without these functioning, we are unable to follow through on set
   institutional goals.

MUSIC as a prefix/discipline was changed by the division to MUSA, MUSC, MUSE, MUSG, MUSI, MUSP, and MUST and approved by the committee to be effective summer 2009. For reporting and implementation considerations, all MUSIC courses are now considered inactive.

B. Adams explained that this item appears on the agenda because there was no formal action to inactivate the MUSIC prefix, and therefore, some MUSIC courses still appear in the Compliance Report. This action will instruct the Instruction Office to inactivate all remaining MUSIC courses in systems and publications.

ELTEC 321  Photovoltaic Systems  3

Effective: Spring 2011 Expedited To facilitate workforce training demands

Rationale: We were involved with the ARRA initiative receiving a grant to develop the necessary training equipment for the relocation of displaced workers from the construction industry. As a consequence, a number of professional grade devices for residential installations were purchased and assembled as trainers. The demand in this field goes beyond the mere training for a quick unemployment fix, as the capabilities of the equipment built at MJC. The demand for this type of knowledge includes electricians, electrical contractors (C10), General Construction contractors, engineers, tech sales personnel, and many other trade people and professionals directly or indirectly involved with this relatively new field. We cannot lag behind the requirements of our times and we should follow the lead of other community colleges that have made of PV systems full programs with their related certificates and associates degrees. This course will help to put MJC in this path and keep this institution in the vanguard of technical preparation for our local work force.

ADOPT

Enrollment Restrictions: Requesting: (P) ELTEC 208 or INTEC 208 or MFGA 208 and ELTEC 230 or INTEC 230 and ELTEC 320 or INTEC 320 and ELTEC 229 or INTEC 229 or MFGA 229 or AGM 225 or INTEC 225 and INTEC 248.

ESL SEQUENCE
The following ESL courses, if approved, will comprise a new, yet unnamed certificate program. This new program will require that the department submit a CCC-501 “Application for New Credit Program” form to the CCCCO. Until approved by the CCCCO, the courses will remain Stand Alone.

ESL 1 ESL: Beginning English for Life and Work Effective: Summer 2011
ADOPT
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer.
General Education Status: Not approved for GE.

M/S/U (J. Sola/P. Upton) to ADOPT ESL 1

During blanket approval M. Garcia asked rhetorically why a student would want to take the new ESL1-6 sequence for credit, as opposed to the noncredit 900 sequence. R. Luman, ESL faculty author was present to explain that this sequence has been developed to respond to the needs of two different ESL student populations. ESL students who enroll in the credit sequence (ESL 10-48) are pursuing college-level coursework and may plan to earn associate and baccalaureate degrees. The noncredit ESL 900 sequence is designed to teach students English for life and work situations. Students who merely want to apply ESL skills in the workforce currently only have the option to enroll in the noncredit 900 series to gain relevant workforce ESL skills. Credit ESL 1-6 will allow for those students to take the course for credit and transfer into vocations without pursuing the academic track, and also collect Financial Aid. The academic sequence (ESL 10-48) is not appropriate for these students. Emphasis in that sequence is on writing a five-page paper, not on relevant workforce skills like writing resumes and self-improvement plans. It was noted that the ESL 1-6 sequence is not designed to precede the academic ESL 10-48 sequence. Students who complete the ESL 1-6 sequence will need to assess into the academic sequence after completion of ESL 1-6 because you cannot assume that the student is literate in her own language. M. Garcia shared that M. Rush reportedly sent an email stating that students who enroll in ESL courses are not adversely impacted in Financial Aid. It was noted that the ESL chart would need to be updated to reflect the credit option, and L. Miller offered to assist R. Luman in updating it for 2011-12. B. Adams asked R. Luman when the committee could expect to see the CCCCO Application for New Credit Program (to address stand-alone sequencing issues). She added that in order to have it effective for Summer 2011, the committee would need to see the completed application by the November 9, 2010 curriculum meeting. L. Miller pointed out that – even if the committee approves it by November 9, MJC must still forward and wait for CCCCO approval. B. Adams offered the assistance of herself and L. Miller in this process.

Informational Items

1. **CurricUNET Trainings**  
   B. Adams
   
   a. **Training scheduled**  
      Recent: Drop-in session 10/7/10  
      Seven individuals attended the CurricUNET open lab, and as a result, 9 courses were submitted during the lab! B. Adams informed the committee that some departments have elected to pursue training as a group. She encouraged representatives to try that as an approach to training departments and divisions.

2. **Equating Courses and Repetitions**  
   L. Miller  
   The taskforce on Equating Courses and Repetitions met following the last Curriculum Meeting. In attendance were C. Vaughn, J. Beebe, A. Peek, M. Boyatt, C. Circle. The group distilled the issues into some key themes.
   
   a. Academic disciplines are typically not affected by modifications, thus it may be safe to assume that all academic course modifications must automatically equate the new version of a course to the old
   
   b. Vocational disciplines can be dramatically affected by modifications, in that a version of a course offered (e.g.) ten years ago is likely be dramatically different than the version offered today because of advances in technology. Such courses should clearly identify whether the modification should establish an equate.
   
   c. Decisions about whether to equate or not to equate a course should not occur at a staff level, but through the curriculum development process
   
   **ACTION:** Research other institutions’ policies, read Guiding Principles and Assumptions, schedule another meeting of taskforce.

VIII. NEW BUSINESS

Action Items

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   L. Miller
   
   Topic postponed until other sub-committees/workgroups finish up their tasks.

Informational Items

1. **AP Exam Update**  
   R. Cranley  
   Over the summer, we learned that CSU and UC are accepting additional AP examinations. The revised AP chart is effective immediately and will be forwarded to the Counseling department for immediate use in advising students.
IX. WORKGROUPS

1. Operations Workgroup  A. Peek / B. Adams / L. Miller
   Much of the curriculum operations workgroup meeting on 10/05/2010 was spent discussing incoming changes to hours of lecture and lab for an array of music courses. During technical review of these courses, it was noted that there appeared to be inconsistencies in how hours of lecture and lab were established across the music curriculum. This often correlated to issues with repeats for those courses as well. E. Maki explained that many courses, although entitled “Applied (Instrument)” are very lecture oriented, and that there is a great interchange between student and instructor; analyzing music, using artistic judgment. He also explained that there were a number of impetuses that required the department to initiate these changes. He identified them as compliance with Title 5 and arranged hours, block scheduling, and the minimum units of lecture that can be scheduled per week. The music faculty were being faced with a question of whether they were meeting individually with each student one hour per week as the prior setup indicated, which is impossible for the program to deliver. Other issues arose in this area, including use of repetitions. C. Mulder noted that, if not using the “activities” option to justify (four) repetitions, the curriculum needed to reflect the differences in the course with each repetition. Ultimately, E. Maki wanted to prepare the committee for what they would be seeing, and give them background as to why the curriculum would reflect the changes in this manner.

X. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  B. Adams
   No Report

2. CurricUNET Implementation Task Force Update  B. Sanders / B. Adams
   No Report

XI. PUBLIC COMMENT

C-ID  Course Identification Numbering System  R. Cranley
R. Cranley explained how C-ID, a new California course numbering system across the UC, CSU and CCC systems (as well as some independent colleges and universities), is intended to address the need for a “common course numbering system” to simplify student movement both within the California Community Colleges and intersegmentally. The development of these descriptors is faculty-driven and reviewed statewide. It will provide guidelines to faculty in the development of curriculum, as well as to students who need to be certain that completion of lower-division coursework at one institution will seamlessly transfer to another. The C-ID will not be based upon one course from a particular system, rather, it will be a universal descriptor to which all CCCs can attach courses. Participation in the C-ID is voluntary and Intersegmental. A. Peek shared information she gathered at the recent Student Success Workshop. Because of the passage of SB 1440, the CCCs and the CSUs are currently working on C-IDs GE courses. The CSU agreed to accept CCC transfer students at junior status ON THE CONDITION that the two segments agreed on somewhat standardized lower division coursework to be completed at a CC. C-ID as a project is a culmination of insights gleaned from CAN, LDTP, IMPAC, and therefore is likely to have more traction getting off the ground. UC, who did not participate in CAN, is participating in C-ID.

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

October 12, 2010

Hearing no objections, the MINUTES of 10/12/10 were approved.

III. NOTIFICATION

EMT as a prefix/discipline was changed by the division to EMS.
For reporting and implementation considerations, all EMT courses are now considered inactive.

Hearing no objections, the committee was notified of the inactivation of the EMT prefix.

**M/S/U (E. Maki/J. Michelena) to MODIFY AG 280**  
Enrollment restrictions pulled for discussion by R. Cranley, who pointed out that computation requisites across disciplines (in this case, MATH 20 for AG 280) require a statistical validation study every six years. There is no evidence that this has occurred with AG 280. Multiple members of the AG department were contacted by B. Adams about this issue, and she has received no response. There was speculation that this prerequisite may have been appropriate when AG 280 satisfied the rationality requirement of MJC-GE:D. However, there is no evidence available that a statistical validation study took place during the last review of the course, either. N. Seronello commented that, although the research office would be able to pull the data to evaluate the success rates of student who have completed the course with or without the prerequisite, there would not be enough time to perform the study by the November 9 2010 meeting to meet the 2011-12 deadline. Many commented that the course should proceed without the prerequisite attached, rather than pulling the course and reviewing it at the next meeting.

Questioned by S. Circle prior to blanket approval of courses due to the addition of ENGL 101 as an advisory for POLSC 140 and other POLSC courses. She noted that it appears to be a challenging enrollment restriction. B. Adams clarified that it was in place to advise students of preparation that would help them succeed in the courses, and that it was not required. Many commented that research is required in POLSC courses, thus the student who has mastered writing a research paper in ENGL 101 will have an easier time satisfying the learning goals of POLSC 140.

VII. UNFINISHED BUSINESS

Action Items

1. IB Credit  R. Cranley / B. Adams  1
   R. Cranley explained that a new version of the IB chart has been developed according to revised guidelines from CSU and UC. She explained that the committee (E. Kerr, B. Adams, D. Gilbert, and M. Boyatt [Matriculation]) had met to develop a means to gather endorsements for the updated chart. P. Upton had done a great deal of legwork in facilitating the improvements to the chart. The new chart aligns IB exams to GE areas locally, as well as CSU-GE and IGETC. If a student earns an IB score of 5, they will satisfy the GE area. R. Cranley asked committee reps to take this information back to divisions. At the next meeting, she will ask for a vote.

Informational Items

1. CurricUNET Trainings  B. Adams
   a. Training scheduled
      November 18th, 2 – 3:30 PM, East Campus IRC (located in Library).
      B. Adams reported that the above "training" is now a misnomer, as these sessions are evolving to drop-in open labs. The last was very successful. B. Adams will email faculty regarding these trainings, and she encouraged individuals to attend to ease the process of developing and submitting curriculum.

2. Equating Courses and Repetitions  L. Miller
   Topic postponed until further notice.
VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller
   Topic postponed until other sub-committees/workgroups finish up their tasks.

Informational Items

IX. WORKGROUPS

Operations Workgroup  A. Peek / B. Adams / L. Miller
Curriculum Leadership will reserve the option to advance courses to earlier meetings if it is operationally feasible and will help ease the load on the curriculum review process. For example, last week, over 100 courses were in the queue for review at the November 9, 2010 meeting. At the curriculum operations meeting, it was decided that the curriculum leadership could move some of the courses to an earlier meeting if it presented advantages to the leadership team, curriculum staff, and the curriculum committee.

M. Garcia asked if – in light of the high number of courses coming forward for review at the next meeting – if the committee might “divide and conquer” the list of courses for review. The committee agreed that this was a good idea. B. Adams was asked to identify a breakdown and send it to the committee, identifying two or more groups responsible for reviewing various sets of courses.

X. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  B. Adams
   No Report

2. CurricUNET Implementation Task Force Update  B. Sanders / B. Adams
   B. Adams reported that there have been no updates to report to the committee after confirming with A. Peek that there have been no status updates on the Program Review (PRNet) side of the system, either.

XI. PUBLIC COMMENT

R. Jones announced that the ASMJC Halloween Carnival is Saturday, October 30 and encouraged members to attend with family, friends, and children.

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

October 26, 2010

M/S/U TO APPROVE THE MINUTES OF 10/26/10 WAS NOTIFIED OF THE FOLLOWING ACTIVITIES

III. NOTIFICATION

THE COMMITTEE WAS NOTIFIED OF THE FOLLOWING ACTIVITIES

ELTEC 321 Photovoltaic Systems 3

Effective: Spring 2011

Expedited: To facilitate workforce training demands

This course was originally approved for expedited implementation on 10/12/10.

Expedited implementation OVERTURNED BY VPI on 11/04/10

Effective: SUMMER 2011

Rationale: We were involved with the ARRA initiative receiving a grant to develop the necessary training equipment for the relocation of displaced workers from the construction industry. As a consequence, a number of professional grade devices for residential installations were purchased and assembled as trainers. The demand in this field goes beyond the mere training for a quick unemployment fix, as the capabilities of the equipment built at MJC. The demand for this type of knowledge includes electricians, electrical contractors (C10), General Construction contractors, engineers, tech sales personnel, and many other trade people and professionals directly or indirectly involved with this relatively new field. We cannot lag behind the requirements of our times and we should follow the lead of other community colleges that have made of PV systems full programs with their related certificates and associates degrees. This course will help to put MJC in this path and keep this institution in the vanguard of technical preparation for our local work force.

IV. CONSENT

HEARING NO OBJECTIONS, THE CONSENT AGENDA WAS APPROVED.

The ARCHITECTURE department is officially dropping use of the name ARCHITECTURE / ARCHITECTURAL ENGINEERING. This department name erroneously made its way into Datatel and CurricUNET for reasons unknown to many, and the department would like to notify the college that the correct department/programmatic name is ARCHITECTURE.

<tr>
<td></td>

<td></td>
<td></td>
<td>Rationale: Periodic review.</td>
<td>Methods of instruction do not appear to be methods of instruction. Media types are listed, without detailing how they are used instructionally. M. Garcia and others expressed concern that HIST 104 and HIST 105 bear almost identical names of “Western Civilization(s).” How is this helpful to a student? E. Kerr informed that the department would give a final directive on the course names on 11/10/10. E. Maki asked why there were no comparable courses identified for HIST 105, 116, 125, 128, 129, and 145. It was stated that if the course is already identified as transferable to CSU/UC, then no evidence of comparable courses is required. The dialog turned to confusion about the articulation interface, and various needs that were currently not being met by the design of the system. The only way a faculty member may provide evidence of requirements for transfer is through the use of attachments. It is often unclear as to whether a course is approved or requesting approval for transfer or GE placement. It was decided that links to the GE patterns would be useful to help reviewers determine the current transfer/articulation status of a course. R. Cranley stated that it was very important to use the attachment feature to ensure proper review and consideration of transfer/articulation proposals. M/S/U (E. MAKI, M. GARCIA) to MODIFY HIST 104 with a friendly amendment that the methods of instruction are revised to say “Incorporation of (media)” rather than media alone, and that the course titles on HIST 104 and 105 be revised to more accurately reflect the difference between the two courses take place on 11/10/10.</td>

**HUMSR 101 pulled for discussion by B. Adams**

Course had clear issues with formatting and bundling of goals into a single group, which disallowed the user from properly matching assessments to goals. B. Adams had requested repairs from the author, but had not seen changes being made accurately. A representative from the division mentioned that it was most important that the DE proposal be approved. It was also mentioned that the author may not fully understand how to use the system and may benefit from attending B. Adams’ training or working one on one with the curriculum representative.

M/S/FAILED (L. PRUSSO, S. CIRCLE) to MODIFY HUMSR 101 (AYES: 0, NAYS: 13)

**ENROLLMENT RESTRICTIONS pulled for discussion by B. Adams**

B. Adams asked the committee if it was appropriate to approve an advisory for a course that had not been approved.

**ENROLLMENT RESTRICTIONS FOR INTDS COURSES PULLED AS A BLOCK BY S. Circle**  
Why are all of the advisories and requisites being removed for the Interior Design courses? S. Circle remarked that this appeared to be a major change that will impact students. B. Adams informed the committee that the department is trying to align the curriculum with the CCC Interior Design program model. The enrollment restrictions were originally added in 2006 for what was imagined to be cohorts of students moving through the program. This did not happen, and enrollment in courses suffered. Removal of the requisites allows for multiple entry points into the curriculum.  

**M/S/U (S. Circle, M. Garcia) to REMOVE ENROLLMENT RESTRICTIONS for INTDS 120.**  

**GE PROPOSALS for INTDS 120 and INTDS 150 pulled for Discussion by C. Mulder**  
These classes appear to be very narrow in scope for AREA C. Do these courses really follow Title 5 criteria for Area C: Humanities?  

(C) **HUMANITIES**  
Courses in the humanities are those which study the cultural activities and artistic expressions of human beings. To satisfy the general education requirements in the humanities, a course shall be designed to help the student develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation and help the student develop aesthetic understanding and an ability to make value judgments. Such courses could include introductory or integrative course in the arts, foreign languages, literature, philosophy, and religion.  

The course content of INTDS 120 was reviewed, where it was noted that only one of dozens of topics seemed to peer into broader humanities categories, while the others were very specific to color theory applied the interior design vocation. However, in light of closer review of INTDS 150 against the criteria, C. Mulder recanted her concerns for INTDS 150.

MUSA 123 (E. Maki, R. Cranley) pulled for discussion by R. Cranley
This is a lecture course, that does not have repetitions justified, which it must because it is LECTURE, not LAB, disqualifying it from being an activities course. Both MUSA 121 and MUSA 124 show are LAB modalities therefore making them eligible to be activities courses. This course, however, uses a LECTURE modality. Why the inconsistency within the sequence? Attention was drawn to the fact that MUSA 121 requires 54 lab hours (1 unit), MUSA 124 requires 108 lab hours (2 units), yet MUSA only requires 18 LECTURE (1 unit) hours. Does the style of instruction truly change back and forth within the sequence?

MUSA 154 pulled for discussion by R. Cranley
No rationale was provided for repetitions within this lecture course. E. Maki had spoken with C. Llewellyn, and was certain that this should be fixed during the meeting to show that students begin with no knowledge of vocal anatomy and advance to deep understanding of anatomy and physiology and are able to apply that understanding to their own voices. This was revised during the meeting.

**Articulation Status:** Transfers to CSU and UC.  
**General Education Status:** Approved for MJC Activities.  
**Rationale:** Need to modify hours to comply with Title 5.

**Program Impact:**  
1. Stand Alone

### Rationale:

- **MUSE 145 pulled for discussion by M. Garcia.**  
  Course description is very informal and conversational. B. Adams noted that this is the author’s communication style, and that this had surfaced with other courses, which L. Miller had edited to the standard style with the consent of the author (as evidenced with MUSA 142 under notification on this agenda.) It was noted that the evidence of critical thinking is also very lengthy and more informal. To rectify this, “TYPICAL ASSIGNMENT” was added to the heading to better contextualize the tone and application of the information provided. A typographical error was also fixed under “ASSIGNMENTS”  
- **M/S/U (M. Lynch, K. Ennis) to MODIFY MUSE 145 with revisions to the CATALOG DESCRIPTION by L. Miller**
- **M/S/U (C. MULDER, E. KERR) to MODIFY ENROLLMENT RESTRICTIONS for MUSE 145**
- **M/S/U (P. UPTON, M. ROBLES) to MAINTAIN ACTIVITIES placement for MUSE 145.**

### Rationale:

*NURSE 264 pulled for discussion by M. Garcia*

The course goal and student learning goals are identical. This means that the overall course goal is very lengthy. It appears that the course goal is merely a copy/paste of the student learning goals. B. Adams said that she could work with the author to correct this no later than 11/10/10.

**DISTANCE ED PROPOSAL for OFADM 304, OFADM 314, and OFADM 330 for pulled for discussion on behalf of A. Peek by B. Adams**

A. Peek pointed out that these courses are removing the advisory of ENGL 49. This means that students who enroll in this course, from an assessment perspective, are not able to read and write. When we consider the success rates of students in our DE courses, do we want to set up students to struggle in a course by approving a DE modality when it is shown that students are struggling to succeed online? Response was mixed to this question. Many representatives pointed out that there are innumerable courses across the curriculum which have DE in place, but do not require a level of academic competency higher than ENGL 49. Students have a right to succeed or fail.  

**M/S/U (K. ENNIS, M. GARCIA) APPROVE DE MODALITIES for OFADM 304.**

**SPAN 112 pulled for discussion by C. Mulder**  
Is it intentional that this course, which is REMOVING the HYBRID modality, is still using “online discussion, chat rooms, online peer review”? Could this be a remnant from when the course was approved for online instruction? A. Peek pointed out that many courses use online modalities for face-to-face courses, and that it is perfectly reasonable to employ those tools with students if you have a course shell for a face-to-face course.

UPDATE: CCC-456 APPLICATION DENIED BY THE CCCCO on 11/02/2010

Hi Letitia,

Let me quickly describe my concerns about this course:

First, [below] is a memo from the Chancellor detailing the priorities of our agency. This course does not fall into the priorities listed and Question #17 on the proposal must be answered in detail of why the course is being considered/offered.

My next concern, the nine hours listed for the course is too low. I counted over 35 topics listed on the course outline of record which is to be covered in nine hours; that is approximately 13.5 minutes per topic. In addition, the title of the course is too vague (Parent Education) when in fact I believe it is a lab preschool for parents or parents wanting to work in a preschool (?). The entire proposal is unclear based on the hours, the
.05 unit required (page 6), late fees are charged by the preschool, the course outline of record and the eight pages describing the Me-Wuk Child Development Lab Preschool agreement.

With these concerns I am suggesting the college withdraw this proposal, re-design this to be a true parent education course with the appropriate amount of hours and re-submit to our office.

Sincerely,

Jo Anne

Memo from Jack Scott:

From: Jack Scott, Chancellor

Subject: Priorities in Class Scheduling

Date: October 28, 2010

Last year the Legislature lowered the enrollment cap in California community colleges by 3.39% given the harsh funding reductions that we suffered in the 2009-10 fiscal year. However, the Legislature further stated that it was their intent that community colleges make every effort to protect classes in basic skills, transfer, and workforce training. Specifically, the Legislature’s guidance was provided in the 2009 Budget Act (Chapter 1, Statutes of 2009):
29. Notwithstanding any other provision of law, the Chancellor of the California Community Colleges may reduce community college district base workload measures to match available funding under Schedule (1), which reflects a base reduction of $120,000,000, and local revenues designated to support community college district general apportionments. It is the intent of the Legislature that community college districts, to the greatest extent possible, shall implement any necessary workload reductions in areas other than basic skills, workforce training, and transfer. On or before March 1, 2010, the chancellor shall provide the Legislature and the Director of Finance with a report on the implementation of this provision.

In reviewing recent enrollment data, it is evident that most colleges followed this direction and made fewer cuts in basic skills, transfer, and workforce training then in other parts of the class schedule. Yet, it is well once again to remind colleges of this legislative intent.

First, unless we take the lead on this matter, then one day the Legislature may become specific in what courses we should offer. One remembers the 1980’s when the Legislature adopted a “hit list” that prohibited community colleges from receiving state funding for certain avocational courses. And we recall that last year the Legislative Analyst recommended that all physical education courses in our colleges be funded at the non-credit level. Fortunately, we were able to defeat that recommendation and prevent it from becoming law. But this still remains the view by some that we are offering too many avocational courses. We should take steps to avoid that vulnerability.

Second, it is clear that in times of scarce resources we have to prioritize. In 2009-10 it is estimated that community colleges turned away 140,000 students, most of whom were first time students. In times like this it is difficult to justify keeping a course such as aerobics for seniors while not scheduling enough classes in basic math or English. Under these circumstances the public will be upset when students seeking transfer classes or job retraining are turned away.

The recently adopted 2010 Budget Act provides community college districts with $126 million to support an additional 26,000 full-time equivalent enrollments. These added resources represent an opportunity for community colleges to expand access to badly needed instruction in basic skills, transfer, and workforce training. As you consider how your district will use these additional funds, I strongly urge you to consider both the legislative intent and the pressing need to prioritize scarce resources, described above.

I want to be clear: This is a recommendation, not a requirement. The determination of which courses to offer is a decision made at the college level. This is the genius of our system: each college can determine the needs of its community. But I believe it is wise for us to take into account the intent of the Legislature and the general feeling of the public. It is good policy and makes sense for us to prioritize transfer, workforce training, and basic skill courses in these difficult times. We moved in that direction in 2009-10; let’s continue that trend in 2010-11.

**PULLED FOR DISCUSSION BY C. MULDER**

Course is requesting Activities placement, but course goal and content appear much more technical and vocational in nature (packing boxes, marketing, etc.) Lively discussion ensued. Not all members initially recognized this and had various insights into the aesthetic aspects of gallery management. Review of the previous version of the course outline took place to see how this course might have been previously approved as an Activities course. The older version revealed more of the aesthetic involvement associated with Gallery Operation and Management. The division rep, E. Maki, suspected that the author may have inadvertently - perhaps unintentionally - removed aesthetic content while cleaning up the course for this round of curriculum review. It was decided that the course author should be consulted to whether this de-emphasis on aesthetic considerations was deliberate, and to return the course to committee for review once the intent to activities placement is clear.

BUSAD 331  Beginning Computer Accounting Software

Effective: Spring 2011 Summer 2011 [Expedited] To facilitate Workforce Training Demands

The course author originally requested expedited approval for SPRING 2011. The instruction office will not be able to honor a SPRING 2011 expedition if approved by the committee, specifically because the scheduling deadline is over and registration has already begun. Why? Students who register for the course(s) would be held to different requisites by the system, depending on when they register. NOTE: The instruction office can only expedite courses for SUMMER 2011 until Wednesday, November 24, 2010 because of the scheduled MIS roll date Monday, Nov. 29, at 6:00 AM.

Rationale for expedited implementation: Students with experience in the workforce can complete this class without formal education. Many need to update skills and cannot because of prerequisite.

[MODIFY] Description, repetitions, enrollment restrictions, requisite skills, DE modalities, content, typical assignments, methods of instruction, methods of assessment, textbooks

Enrollment Restrictions: Removing: (P) BUSAD 310 or BUSAD 201, (A) Before enrolling in this course, students are strongly advised to satisfactorily complete BUSAD 320 if BUSAD 310 is used to satisfy prerequisite. Requesting: (A) Before enrolling in this course, students are strongly advised to know the complete accounting cycle.

Distance Education Status: Maintaining: Online. Requesting: Hybrid.

Materials Fee Status: None.

Articulation Status: Does not transfer.

General Education Status: Not approved for GE.

Rationale: Out of compliance for review. Want to remove prerequisites.

BUSAD 331 and BUSAD 333 PULLED FOR DISCUSSION BY M. GARCIA

Various issues appear in this course, however, one issue with repetitions had been addressed by B. Adams prior to the meeting. References to what appears to be a “Final Project” are confusing, when there is no final project listed in the methods of assessment. The committee agreed that the errant phrase “similar to Final Project” may be missing an article and have some unnecessary capitalization “similar to a final project” The revision was addressed during the meeting.

The instruction office will not be able to honor a SPRING 2011 expedition if approved by the committee, specifically because the scheduling deadline is over and registration has already begun. Why? Students who register for the course(s) would be held to different requisites by the system, depending on when they register. **NOTE:** The instruction office can only expedite courses for SUMMER 2011 until Wednesday, November 24, 2010 because of the scheduled MIS roll date Monday, Nov. 29, at 6:00 AM.

**Rationale for expedited implementation:** Course was canceled in Fall 2010 for the first time because of low enrollment, yet QuickBooks skills are in high demand in the Central Valley. Several students who were enrolled contacted me with workforce related stories of need.

**MODIFY:** Description, repetitions, enrollment restrictions, requisite skills, DE modalities, learning goals, content, typical assignments, methods of instruction, methods of assessment, textbooks

**Enrollment Restrictions:** Removing: (P) BUSAD 310 or BUSAD 201, (A) Before enrolling in this course, students are strongly advised to satisfactorily complete BUSAD 320 if BUSAD 310 is used to satisfy prerequisite. Requesting: (A) Before enrolling in this course, students are strongly advised to know the complete accounting cycle.

**Distance Education Status:** Requesting: Hybrid, Online.

**Materials Fee Status:** None.

**Articulation Status:** Does not transfer.

**General Education Status:** Not approved for GE.

**Rationale:** To change pre-requisites to recommended for success. Community members with on-the-job experience are fully capable of completing this course without the prerequisites, but are unfamiliar with the waiver process.

**Program Impact:**

- Stand alone

ENROLLMENT RESTRICTIONS PULLED FOR DISCUSSION BY J. LANNING
If MATH 90 is a prerequisite for PHYS 160, how can that be a logical prerequisite for a course when there are two different competency levels within the “or” statement? R. Cranley noted this issue had surfaced with EASCI 162 and was easily resolved with the author. B. Adams will fix this issue in this course after the meeting, confident that the author would agree to the changes.

A.A. Degree: French

**Effective:** Summer 2011 Expedited

**Rationale for expedited implementation:** Instruction Office staff received the proposal by the deadline, but neglected to place it on the 11/09/10 agenda.

**REACTIVATE/MODIFY:** Required courses, elective courses, total units, adding Expected Outcomes

The CCCCO has on the books that MJC is approved for an AA Degree in French. The college has not had an active program for many years.

An A.A. degree in French will give students a greater opportunity to be employed in communications, international businesses, banking systems, journalism, cultural exchanges, travel industry, government agencies, and in education.

**AA in French: Expected Outcomes**

- Write expository and argumentative papers
- Examine the connections between culture and communication
- Synthesize ideas and develop conclusions in French
- Engage in conversation and written correspondence in French

**REQUIRED COURSES** – COMPLETE 23 UNITS.

Informational Items

1. **LOEs for a Cohort of Students – Legal Opinion**

   B. Adams shared correspondence from the CCCCO Chancellor’s Office regarding limiting enrollment for a block of students. Since we are an open-access institution, it is illegal to set up enrollment for a specific group of people, unless of course, a significant number of sections are offered and open to the college population. J. Lanning shared that this may be due to some schools not offering comparable sections at times useful to other groups. B. Adams pointed out that the whole issue can be summarized in the second to last paragraph of the CCCCO legal option:

   Section 58106(b)(4) allows for limiting the enrollment of a course to a cohort of students enrolled in one or more other courses together. According to section 58106(b)(4), this restriction can only be placed provided that “a reasonable percentage of all sections of the course do not have such restrictions.”

   A review of title 5 and the Education Code provides no clear guidance on what is “reasonable” or what a “reasonable percentage” would be. Absent anything specific, terms are defined through their plain meaning. For “reasonable,” the plain meaning is “Just; proper. Ordinary or usual. Fit and the appropriate to the end view.” (See Black’s Law Dict. (5th ed. 1979) p. 1138, col. 1.) Legally the term is often used to refer to levels of care, cause, compensation or doubt.

   In this case, what is “just, rational and appropriate,” must be based on the community college’s primary goal of ensuring access to students through open coursework. Additionally any limitations should balance the fact that the makeup and purpose of cohorts vary across the state. Thus, maintaining some flexibility in determining what is a “reasonable percentage” is crucial in order to maximize the educational opportunities for all.

   Based on the above factors, a “reasonable percentage” is deemed to be a majority. If a college chooses to restrict sections of a course to a cohort, there must be a greater number of sections of that course to be left for open enrollment. For example, in a case where a single section is limiting its enrollment to a cohort, two other sections need to be offered for open enrollment.

   Allowing for a majority of courses to remain open is consistent with the community college system’s goal of ensuring access. Not setting a fixed percentage beyond this point also allows community colleges the greatest amount of flexibility in planning course sections that may be restricted by cohort enrollment.

XI. PUBLIC COMMENT

After numerous inquiries from curriculum representatives regarding her recently announced departure from MJC, J. Lanning informed the committee that she will be resigning to stay at home, where she may pursue other personal endeavors.

Meeting adjourned at 4:04 PM
Hearing no objections, the order of the agenda was approved.

Hearing no objections, the minutes of November 23, 2010 were approved.

The committee was notified of the following corrections to curriculum and other administrative activities.

During the implementation phase, the Instruction Office noted and corrected the following errors in past agendas/minutes:

**RATV 150**

In addition to description, learning goals, content, methods of instruction, and methods of assessment, please note that the **TITLE** also changed - - - from Introduction to Mass Communications to **INTRODUCTION TO MEDIA ARTS**. (1/19/2010)

**THETR 160**

In addition to learning goals, content, methods of assessment, please note that the **HOURS** changed from BLANK to 45 LEC/27 LAB. The comparison report would have shown no hours in CNET for the active course because the fields were blank in the active version of the course. This will affect scheduling for SU11. (1/19/2010)

**THETR 161**

In addition to description, articulation status, learning goals, content, methods of instruction, methods of assessment, textbooks, please note that:

- **HOURS** changed from BLANK to 45 LEC/27 LAB,
- **REPETITIONS** went from BLANK to NO REPETITIONS ALLOWED (although Datatel was enforcing 1 repetition).

The comparison report would have shown no hours/no repetitions in CNET for the currently active course because the fields were blank/unfinished in the active version of the course. This affects scheduling for SU11. (1/19/2010)
THETR 195

In addition to grading, learning goals, content, methods of instruction, methods of assessment, please note that:

- **HOURS** changed from BLANK to 45 LEC/27 LAB, (Datatel showed 36/54)
- **REPETITIONS** went from BLANK to ONE REPETITION ALLOWED (Datatel was enforcing 3 repetitions).

The comparison report would have shown no hours/no repetitions in CNET for the currently active course because the fields were blank/unfinished in the active version of the course. This affects scheduling for SU11. (11/17/2009)

EHS 280

Had a **MATERIALS FEE** change that was not referenced in the agenda. The fee changed from the existing CNET version ($70.00) to $80.00. Agenda said ‘Maintaining fee’ but should have said ‘Increasing fee’. (9/14/2010)

READ 184

Did not reflect the MJC assessment option on the **Enrollment Restrictions** as this was not selected in the system. (9/14/2010)

THETR 178

Please note that the **HOURS** changed from BLANK to 45 LEC/27 LAB. Datatel showed 54/18. This will affect scheduling for SU11. (10/12/2010)

ART 108

**REPETITIONS** (from 0 to 3 repeats) (01/19/2010)

ART 109

**REPETITIONS** (from 0 to 3 repeats) (01/19/2010)

READ 40

The **repeat** policy had changed from 3 to zero completions. CurricUNET’s active record had an empty repeat policy (11/9/2010)

WELD 340

Pipe Welding

**Effective:** Summer 2011 Expedited!

VI. PROGRAMS

Review of 2010-11 Academic Programs/Award for 2011-12 Catalog

Academic programs will require technical scrutiny of Curriculum Representatives for 2011-2012. Word Documents containing catalog requirements copied and pasted from the 2010-11 CATALOG/ADDENDUM can be found at the links below (on the MJC Catalog Sharepoint site). These do not reflect any changes to courses and programs that have taken place in the curriculum review cycle to be effective 2011-12. Reports of curriculum changes will be provided for this project.

- Agriculture, Environmental Sciences
- Allied Health
- Arts, Humanities, and Communications
- Behavioral and Social Sciences
- Business
- Family and Consumer Sciences
- Literature and Language Arts
- Public Safety
- Science, Math, and Engineering
- Technical Education
- General Studies
- University Preparation

While many awards in the college may be affected by changes in the curriculum, the following awards have already been noted as having technical incongruities or inaccuracies in the 2010-2011 catalog. Changes that do not require notification/approval of the CCCCO will be brought before the Curriculum Committee for notification/consent at a future meeting, but are required to be revised electronically using the Word files above, and received by L. Miller in the MJC Instruction Office NO LATER THAN JANUARY 7, 2011.

L. Miller instructed the committee how to download Word documents for the purpose of reviewing academic programs for the 2011-12 MJC catalog. This is the only opportunity for divisions to review the accuracy of their programs and to address any issues at the 01/18/2011 curriculum meeting.

A.A. Degree: Music

Effective: Summer 2011

Rationale for expedited implementation: Music faculty requested a revision to the program by the 11/09/10 curriculum committee meeting deadline; however, the item was inadvertently omitted from the 11/09/10 and 11/23/10 meeting agendas.

MODIFY: Ensemble courses

To earn an Associate in Arts Degree in this major, the student must complete the requirements detailed in the Career Technical Education Pathway (p. 71) or the University Preparation Pathway (p. 69) which include completion of the requirements below (except where listed as recommended). Students who plan to transfer to a four-year school are strongly advised to meet with a member of the music faculty.

1. **Philosophy of the Associate’s Degree and General Education**

   L. Miller 10

   K. Walters Dunlap has asked that the committee review and revise or reaffirm the existing Philosophy of the Associate’s Degree (currently listed on page 37 of the 2010-2011 MJC Catalog). She has noted that the college does not have an identified philosophy of General Education which is required for Accreditation. However, research by R. Cranley, B. Adams, and L. Miller showed that our current Philosophy appears to be drawn from Title 5 §55805, wherein it includes in the words “General Education” in the title.

   
   55805. Philosophy and Criteria for Associate Degree and General Education
   
   (a) The governing board of a community college district shall adopt a policy which states its specific philosophy on General Education. In developing this policy governing boards shall consider the following policy of the Board of Governors:

   The awarding of an Associate Degree is intended to represent more than an accumulation of units. It is to symbolize a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights. Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest.

   Central to an Associate Degree, General Education is designed to introduce students to the variety of means through which people comprehend the modern world. It reflects the conviction of colleges that those who receive their degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons must be able to use this knowledge when evaluating and appreciating the
physical environment, the culture and the society in which they live. Most importantly, General Education should lead to better self-understanding.

In establishing or modifying a general education program, ways shall be sought to create coherence and integration among the separate requirements. It is also desirable that general education programs involve students actively in examining values inherent in proposed solutions to major social problems.

(b) The governing board of a community college district shall also establish criteria to determine which courses may be used in implementing its philosophy on the associate degree and general education.

(c) The governing board of a community college district shall, on a regular basis, review the policy and criteria established pursuant to subsections (a) and (b) of this section.

Does the committee want to reaffirm or edit the existing policy? Is it possible to simply append “General Education” to the title currently in the catalog?

M/S/U (J. LANNING, L. PRUSSO) to reaffirm the existing philosophy and append “General Education” to the title “Philosophy of the [MJC] Associate Degree” for the 2011-2012 MJC Catalog.

3. C-ID  B. Adams for R. Cranley
   B. Adams updated the committee on the most recent updates to the C-ID project on behalf of R. Cranley. She attended an SB1440 conference in Los Banos on December 5, 2010. Course descriptors are currently being developed for specific disciplines statewide, and CCC faculty input is being sought on the integrity of those descriptors. Do the proposed C-ID descriptors match the content of our own course outlines? Do they serve students in preparation for upper division work in the major? She emphasized that MJC faculty are being encouraged to participate by registering on the www.c-id.net website and providing input on the draft descriptors. She explained that the C-ID program is designed to maximize portability of MJC courses for students, but that the CCCs are still trying to get the CSU system to buy in to the framework, in addition to the fact that CSU participation is required by law.

   Lively discussion ensued. Some representatives expressed concern about the objectives of the various initiatives, while others were not clear on the role of C-ID versus the Transfer Model Curriculum versus the SB1440 legislation itself. One member provided an anecdote that a project “Discipline Input Group” or DIG representative from a division may have misinformed her colleagues by presenting C-ID and the Transfer Model Curriculum as a single integrated concept. One member expressed skepticism about the impetus for all of the initiatives, noting that this seems to be an edict from the state, maybe analogous to standardization initiatives going on in K-12. Are community colleges going to be told what to do by the state? Isn’t curriculum supposed to be faculty-driven?

   A. Peek gave the committee a comprehensive response to all of the issues referenced. She explained that “SB 1440 is the legislation to which we are required by law to respond, while C-ID, and the Transfer Model Curriculum are two distinct, separate tools that are being developed by post-secondary faculty to help the CCCs respond.” She noted the difference between the two initiatives:

   - **C-ID** is a course numbering system within the Community College System that will help universally the CCC, CSU, and UC identify courses across community colleges. Development of the C-IDs and their descriptors is CCC faculty-driven, and a process that faculty are being encouraged to participate in now.
TMC - Transfer Model Curriculum encompasses “proposed community college majors or areas of emphasis that consist of courses appropriate for an associate degree, providing a foundational understanding of the discipline, and prepare the student for transfer to any CSU that are now being developed” (as defined by the C-ID Transfer Model Curriculum Review Area on the C-ID website)

She clarified that C-ID and the Transfer Model Curriculum were not developed in tandem and not necessarily in reaction to SB1440, but that in light of the recent legislation of SB1440, had conveniently been identified as valuable tools to use for responding to SB1140. In each initiative, faculty input is being sought to ensure that the response to SB1440 is comprehensive and rigorous and faculty-driven. The conversation then turned to deeper discussion and review of the Transfer Model Curriculum, item VII.1 of the agenda.

VIII. NEW BUSINESS

Action Items

1. **TRANSFER MODEL CURRICULUM**
   
   B. Adams then shared a presentation given on October 19, 2010 (available on the CCC Academic Senate’s [SB1440 website](http://www.ccc.ca.gov)), wherein the legislation of SB1440 was simplified into its essential principles. Her desire to have this issue discussed on this meeting agenda was to formally define MJC’s response to SB1440.

   **State TMC Implementation Feedback from S. Low of the CCCCO**
   
   In recent weeks, MJC faculty have developed local degrees to correspond to SB1440 and TMC. Two degrees (Geology and Math) were ready for review and adoption by the MJC Curriculum Committee. L. Miller, in anticipation of needing to expedite application at the state level, had emailed S. Low at the CCCCO to inquire about state-level application requirements. On 12/02/2010 S. Low, CCCCO Dean, Academic Affairs responded thus:

   “The Chancellor’s Office urges you to withhold any curriculum actions until the Transfer Model Curriculum (TMC) development process has officially identified majors. As of today, no TMC major has been finalized or approved.

   The Chancellor’s Office approval process will not be developed or available for the submission of proposals for SB 1440 degrees until the Oversight Committee has made some decisions about how the SB 1440 implementation will proceed over the coming months. We anticipate that the approval process, forms and requirements may be available as early as February 2011.

   Please note that catalog language for community colleges and CSU campuses in regard to the availability in Fall 2011 of associate degrees that comply with SB 1440 is being developed as part of the implementation process.”

   **M/S/C the Curriculum Committee will follow SB1440 Transfer Model Curriculum majors or areas of emphasis**
   
   10 ayes
   
   3 abstentions

2. **Curriculum Review Process**
   
   B. Adams informed the committee that the college is halfway through the Curriculum Review Matrix. She showed the committee how many courses – of those scheduled – had come through the committee. While a number of disciplines had been reviewed as scheduled, a significant number had not. C. Mulder said that all of the remaining PEC courses will be submitted by the end of the spring term.

   B. Adams asked the committee if the process was working as designed. Some members commented that the scheduled meeting was problematic, because inevitably, faculty know that the “drop dead” date for updates is ultimately the deadline for the next academic year (the first November meeting.) Why not just return to that practice? L.
Miller reported that this causes major problems for on the staffing side, because it is difficult to implement and troubleshoot courses accurately in the small window of time between the last meeting and her own implementation deadlines. Errors occur and quality control is non-existent. She added that she has always believed that we should de-emphasize that deadline because it clearly condones procrastination and consequently creates chaos at the last meeting. B. Adams reframed this idea by saying that this actually causes more work for the committee and that the quality of review is compromised. Some members agreed, noting that the “assigned meeting” seemed to be working.

The conversation moved to the rhetorical question of “what happens to those courses that are not reviewed as scheduled or are not compliant?” B. Adams commented that there is no curriculum committee practice in place. Members added that deans are not supposed to be offering them, or are saying they will inactivate them. L. Miller shared that the stated policy of the past was that courses not in compliance would be inactivated by the Board of Trustees, however, there has been no follow through on this policy.

The committee was agreeable and supportive of the matrix and process as designed.

3. Program Learning Outcomes  A. Peek

A. Peek reported that 42 (22%) of MJC’s academic programs have established and published Program Learning Outcomes (PLOs). She informed the committee that the college president, G. Loewenstein, has asked the college to have 75% of the Program Learning Outcomes in place by the end of the 2010-11 academic year. Many groups are working on PLOs “as we speak.”

A. Peek asked the committee if they were comfortable with the fact that PLOs, or program learning outcomes, were currently being placed in the catalog without formal review/approval of the curriculum committee. Members were not immediately concerned. She went on to explain that the process last year involved the Assessment Workgroup assembling program learning outcomes, forwarding them to A. Peek, who compiled them into one single document, which she forwarded to L. Miller for placement in the MJC Catalog.

Animated dialog began. “What does a PLO do?” asked a member. A. Peek commented that it “communicates a tangible result of completing a program to the student and community.” It provides a concrete description of what knowledge, skills, and/or abilities can be expected upon satisfactory completion of a specific program.

Another member expressed concern about the possibility of PLOs to be used for punitive purposes, for example, within evaluations. A. Peek said that is not the intention of learning outcomes within the institution. They are truly intended to be a heuristic tool through which faculty can evaluate if academic programs are achieving identified goals. She added that you cannot learn this through one cycle of assessment, but through many cycles, and therefore you cannot focus on specific incidents or isolated evidence to prove a point. Only data monitored over time will show meaningful trends or gaps. PLOs create a framework through which those gaps and trends can be observed. She exemplified the Engineering department, who – through the process of identifying essential skills for engineering graduates – determined that “working in teams” was essential skill needed in the field of engineering. Upon evaluating the engineering degree requirements using the Program Mapping framework as a tool, the department made the surprising discovery that nowhere in the curriculum of the course requirements for degree was this skill introduced, applied, reinforced, or assessed in the curriculum.

Some members commented that they did not feel qualified to review PLOs. L. Miller commented that, at this point, no governance group is reviewing/endorsing them. She added that it would secure a paper trail and protect students from clerical errors by having an approval channel to research in the event of an error in the catalog. Some members were still reluctant. L. Miller commented that she suspected part of the problem is that the curriculum course review process is highly evolved for courses, but still is rather inconsistent and underdeveloped –even absent- for programs. Faculty are not formally required to cyclically evaluate academic program requirements for accuracy/currency. She added that this is why K. Walters Dunlap had suggested the development of a program requirements committee a few years ago. B. Adams added that CurricUNET has been paid to develop our program development interface which is designed to facilitate this to a large degree, but that it is still not working or complete as it was promised by the company months ago. Part of the design of this module includes a screen in which program learning outcomes are developed and associated with programs. All of this information would come together in a report for the purpose of producing the catalog automatically.
While the committee took this into account, L. Miller called attention to the fact that – while accreditation requires the development of Program Learning Outcomes, the CCC Chancellor’s office requires new and existing programs to have “Program Goals and Objectives” (p. 54 of the CCCCO Program and Course Approval Handbook) for new and existing programs. That information does not get reviewed nor does it even exist at MJC for programs.

In addition to this, she informed the committee that the PRNet module of CurricUNET has not been designed to prompt faculty for information or to capture change data required for Chancellor’s Office approval of new programs, substantial modifications to programs, and non-substantial changes to programs. This system would be the tool MJC faculty will use to develop/modify program requirements and Program Learning Outcomes. She advised that the committee be mindful of this gap as well as the similarity/differences of learning outcomes, program goals, and program objectives when taking into account review and management of Program Learning Outcomes. She asked rhetorically “what is the difference between a Program Learning Outcome and a Program Goal and A Program Objective?” Is this locally defined or understood? She added that the CCCCO has their own version of CurricUNET in place in which applications are submitted, however, their course and program data is not tied into our systems, and the interface is not accessible to all but a four MJC personnel, including K. Walters Dunlap, B. Adams, L. Miller, and S. Fornelli. Statewide there is no evidence of a master plan or map as to how to most efficiently integrate these separate systems which are all dealing with the same data set.

Many members were surprised to learn of this systems problem, but grew in agreement that PLOs should – at the least - have some form of endorsement from a governance group.

M/S/U (E. Maki, S. Circle )The MJC Curriculum Committee, a college governance group, commencing from this date forward, will formally endorse Program Learning Outcomes as prepared by the Assessment Workgroup for the purpose of MJC Catalogs/Addendums as an agenda “Notification” item

**AG 349 ABCD Pulled for discussion by R. Cranley**

R. Cranley believed that the description for the concurrent enrollment did not make much sense. B. Adams stated the field is not editable because of the different interfaced used by Governet data entry personnel when the original information was entered. The CNET system will not allow persons to add a new corequisite because there are no specific courses attached to it. M. Morales stated that there is a limitation or glitch within the system. The committee asked that B. Adams and the author of this course meet to fix the wording that is currently stated in the corequisite section of CNET. The committee also looked at the units/hours field of the course in CNET. The committee found that the information needs to be revised. The units/hours field in CNET reflects as lecture when it should reflect as lab only. The course will go back to the author for revision in CNET.

**A.A. Degree: English**

**Effective:** Summer 2012

**MODIFY:** Required courses

For those who love to read, write, interpret, and create, majoring or minoring in English is the right choice. English courses are designed to give proficiency in skills that are highly regarded by society: the ability to read with comprehension and critical judgment, to communicate accurately and effectively both orally and in writing, to think logically, to do research and organize materials, and to interpret and appreciate literature.

The English major can lead to a career in teaching as well as in professional fields such as law, medicine, publishing, information science, and business. In addition to pre-collegiate composition courses (ENGL 49 and ENGL 50) and transfer-level courses (ENGL 101, ENGL 102, and ENGL 103), the English program includes survey courses in English, American and world literature; introductory genre courses in poetry, fiction, and drama; and a number of topical courses such as Shakespeare, Bible as literature, ethnic literatures, folklore, and children’s literature. The program also offers creative writing courses in poetry, fiction, and script writing. English majors choose to take survey, writing, and literature courses based upon their areas of interest, but they should include a balanced load of genre and survey courses. Many students who become English majors at four-year colleges and universities are required to take introductory survey courses in American and British literature (ENGL 135, ENGL 136, ENGL 137, and ENGL 138). However, prospective English majors and minors are strongly urged to discuss their plans with MJC counselors and English faculty advisors regarding the specific lower-division requirements at the four-year colleges and universities they plan to attend.

**A.A. Degree: English**

**STUDENT LEARNING OUTCOMES**

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in English will be able to:

- **Read, comprehend, and evaluate a variety of texts and various forms of media.**
- **Write clear, organized work in a style suited for its purpose and audience.**
- **Create professional-looking written work that shows careful editing and properly document sources.**
- **Demonstrate an appreciation of literature by reading and analyzing works from various genres, periods, and cultures**
DEGREE REQUIREMENTS

To earn an Associate in Arts Degree in this major, the student must complete the requirements detailed in the Career Technical Education Pathway (p. 67) or the University Preparation Pathway (p. 65) which include completion of the requirements below

1. CurricUNET Trainings B. Adams
   Next trainings/drop-ins will be in spring 2011
   B. Adams advised the committee about the next CurricUNET training date scheduled for February 17, 2011 at the Fire Center. B. Adams will be sending out an email soon regarding details for this planned training date. M. Morales asked about a previous discussion of having a training video or audio taped for those who want to brush up on any missed items that may be discussed at the training. B. Adams stated that she will work to have in the future a link that people can click to view a video or audio taped training.

2. Equating Courses and Repetitions L. Miller
   Postponed Indefinitely

3. C-ID Update R. Cranley XX
   R. Cranley provided the committee with a C-ID update. An update was sent out via email on January 11th. R. Cranley encouraged everyone to go back to their departments to register for the DIG sessions. The next session is scheduled for January 25th in San Jose. R. Cranley informed the committee that so far the C-ID project has 177 approved course descriptors and Modesto Junior College has submitted 96 course outlines for review.

VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization L. Miller
   Postponed indefinitely

2. Curriculum Committee Self-Evaluation A. Peek / B. Adams 01
   B. Adams shared that in 2008 or 2009 the Academic Senate presented a list of all of the members (voting and non-voting) for Modesto Junior College standing committees. The Curriculum Committee will need to re-evaluate its membership to see if anything needs to be altered. The committee discussed the list of members and found that a recommendation of revision to membership is needed. B. Adams will assist in modifying the current charter. The committee will revisit this item and finalize before the last spring curriculum meeting.
Informational Items

1. **CCCCO DE Guidelines**  
   B. Adams  
   B. Adams discussed with the committee the CCCO De Guidelines document. B. Adams stated that reviewing this document helps as a refresher and to verify the committee is following proper procedures. M. Garcia added that he would like to see a link to the document provided somewhere within CNET. B. Adams will ask S. Fornelli if a link can be provided for future reference in CNET or on the MJC Curriculum website.

IX. WORKGROUPS

1. **Operations Workgroup**  
   A. Peek / B. Adams / L. Miller

X. TASK FORCES

1. **Special Topics, Experimental, Independent, Work-Experience Task Force**  
   B. Adams  
   No Report

2. **CurricUNET Implementation Task Force Update**  
   B. Sanders / B. Adams  
   B. Adams reported B. Sanders will be presenting a demonstration of the program module of CurricUNET at the Feb. 1 meeting.

XI. PUBLIC COMMENT

1. S. Circle asked the committee for clarification on the status of the ESL 900 course series. B. Adams stated that only the ESL 1-6 courses were reviewed and approved in the fall, and not the 900 courses. In terms of reviewing purposes, B. Adams advised S. Circle to review the courses as she would any other regular approval at the rep level.

2. K. Ennis asked the committee if they knew of any legal mandate stating a student “has 24 hours after the initial class meeting to contact the instructor in order to avoid being dropped from a class that he/she did not attend on the first day of instruction”. She further asked if other instructors follow the same procedures she does in which she drops the no-show students immediately after the class has ended. The committee members all agreed that they also follow the same procedure and have not heard about any legal mandates.

3. E. Maki thanked J. Lanning for the wonderful and delicious cookies. J. Lanning announced her farewell party will be on Friday, January 21st at the Fireside Lounge from 5:00-7:00. All committee members are welcome to attend.

Meeting adjourned at 4:27 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of January 18, 2011 were approved.

III. NOTIFICATION

Previously, the ½ unit versions of variable unit courses had no letter (X) attached to the course number. So we had many courses that followed the pattern of INTEC 390,A,B or PEC 102,A. At some point in the past 5-8 years, the college started using the letter X to indicate the ½ unit variant of a course. Variable unit courses that have come through in the last several years have included X when appropriate, and CurricUNET puts an X in even if a course was only previously approved with the ‘no letter’ formatting.

Datatel, the catalog, and course outlines are mixed in terms of how these variable unit courses are listed.

The following is a list of variable unit courses (that have a ½ unit version) that appear in Datatel with no X designation.

Effective: Summer 2012

**MODIFY:** Course ID (add X to course number in Datatel)

**Rationale:** For the purpose of the record and to make data align across systems

ALHE 199 Independent Study 1
ALHE 299 ACD Independent Study 1,3,4
ALHE 349 D Work Experience 4
ALHE 399 A-F Independent Study 1,2,3,4,5,6

Effective: Summer 2012

**Inactivate:**

There have been no courses from the ALHE discipline offered in over 5 years. Most ALHE courses have been inactivated or were switched to other disciplines. The ones that remain active in Datatel are the Independent Study or Work Experience courses that typically have not been held to the same review standards as most courses in the curriculum. The Allied Health Division considers ALHE to be an inactive discipline and would like these last remaining courses to be inactivated. ALHE does not exist as a discipline in CurricUNET so the division can’t inactivate them in the conventional manner. The courses appear here for the purpose of the record.

MACH 211 DE Pulled for discussion by M. Garcia
M. Garcia commented that the required content and lab content is the same. M. Garcia requested that a statement be added for the reasoning on why these two areas were the exact same in CNET. The committee looked at the wording in CNET and added a statement to say, “The lab content is the same as the course content. Lab provides the hands-on part of the course.” M. Garcia also noticed that the method of instruction area has weekly homework added. M. Garcia believes that adding weekly homework to the methods of instruction is not needed because it is already stated in the assignments area. B. Adams changed the wording in the methods of instruction section to reflect, “Assign weekly homework assignments from textbook.” J. Weaver, Professor of Machine Tool Technology, noted that the Machinery’s Handbook in the texts and other readings section of CNET needed to be revised to say 28th edition. The handbook edition year was changed to reflect 28th edition by B. Adams. B. Adams will verify the year and also update the information in the system.

Action Items

1. Curriculum Committee Self-Evaluation  A. Peek / B. Adams
   B. Adams reminded the committee of the Curriculum Committee Self-Evaluation (see attachment) discussed at the last curriculum meeting. At the last meeting, the committee started looking at the Decision Making document. The Self Evaluation Report document was emailed out to the committee for review. It was determined at the last meeting, that the committee was in no hurry to update the self evaluation document. C. Mulder noted that committee members had discussed having the ASMJC representative as a non-voting position. Also discussed was the change for the Dean of Matriculation to be a voting member. The committee agreed that the current draft looks good. C. Vaughn suggested a cover letter to be provided with the proposal to senate. B. Adams volunteered to draft a cover letter for submittal along with the proposal. A motion to accept the draft as the official proposal to the senate was taken.

   M/S/U (E. Maki, S. Circle) to approve the cover letter and Curriculum Committee Self-Evaluation Report for submittal to the Academic Senate

1. CurricUNET Trainings  B. Adams
   February 17, 2011, Training from 2:30 - 4:00 PM and Drop-in Session from 4:00 - 5:00 PM, Regional Fire Science Center.
   B. Adams informed the committee of an upcoming CurricUNET training. The training is set for February 17, 2011 from 2:30-4:00 PM at the Regional Fire Science Center. This year, B. Adams is doing the training a little differently. If anyone needs just a few items fixed, they can drop-in at the drop-in session from 4:00-5:00 PM which immediately follows the training.

2. Equating Courses and Repetitions  L. Miller
   Postponed indefinitely
VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller
   Postponed indefinitely

Informational Items

1. Pending Courses in CurricUNET  B. Adams
   B. Adams recently discussed with S. Fornelli the idea of cleaning up courses in CurricUNET that have been sitting for quite some time without any action. Some courses have been sitting in the system since 2008. C. Mulder asked if the committee could discuss the procedure/process again because many faculty members believe their course has been moved to the right area and have no idea that the course may need further action. B. Sanders suggested having a small group of people set some time aside for discussion on what is needed from CurricUNET and what is not needed regarding the approval steps in CurricUNET and what is not needed.
   B. Adams will request a document listing all courses that need action be sent via email from S. Fornelli.

IX. WORKGROUPS

1. Operations Workgroup  A. Peek / B. Adams / L. Miller
   No Report

X. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  B. Adams
   No Report

2. CurricUNET Implementation Task Force Update  B. Sanders
   B. Sanders presented a CurricUNET program module demonstration to the committee. B. Sanders, S. Fornelli, and C. Martin have been meeting every Tuesday afternoon to assist in the development of the Program module within CurricUNET. S. Fornelli and C. Martin were also in attendance for any questions or comments that may arise from committee members. B. Sanders went through all aspects of the program module in CurricUNET with the committee. A test course was put through the system for committee members to view the process and ask questions. The committee was excited to see the new module. The module is currently a work in progress. A final implementation date has not been formally set.

XI. PUBLIC COMMENT

Meeting adjourned at 4:39 PM
The MJC Curriculum Committee began a self-evaluation of its charter and membership (as stated in the MJC Decision-Making Process document dated 2008) at the 1/18/11 Curriculum Committee meeting. Discussion on its charter and committee membership produced the following recommendations:

Recommendation #1: Remove the Program Specialist 1 position from committee membership.

Rationale: The Office of Instruction has membership on the Curriculum Committee with the Curriculum Information Specialist and the Vice-President of Instruction (both non-voting members), so this position’s committee membership is not necessary.

Recommendation #2: Change the Dean of Matriculation and Admissions position from an ex-officio/non-voting member to a voting member.

Rationale: The Dean of Matriculation and Admissions provides additional perspective to faculty input and therefore should be a voting member.

Recommendation #3: Remove Student Learning Outcomes Coordinator as a faculty representative.

Rationale: Course student learning outcomes are not required on course outlines of record. Program learning outcomes will be entered in the program module of CurricUNET, which will be reviewed and voted on by all curriculum committee members.

Recommendation #4: Remove the Community and Economic Development faculty representative.

Rationale: There are no full-time faculty members in the Community and Economic Development division. Representation is present with the Community Education Representative member elected by Community Education.

Recommendation #5: List the Science faculty representative and the Math faculty representative as Science, Math, and Engineering (2); in addition, list the Business faculty representative and the Behavioral and Social Sciences faculty representative as Business, Behavioral and Social Sciences (2).

Rationale: The criteria for faculty representation is based on division membership, not department membership; therefore, the Science, Math, and Engineering Division and the Business, Behavioral and Social Sciences Division should each be listed as a division which has 2 representatives, just as the Arts, Humanities, and Communications Division and the Literature and Language Division are listed.

Respectfully submitted,
Curriculum Co-Chairs,
Barbara Adams (Elected by Committee) and Adrienne Peek (Academic Senate President-Elect)

Others Present: H. Townsend (Administrative Assistant, Instruction)

I. APPROVAL OF ORDER OF AGENDA

The committee moved the Athletic Training/Sports Medicine notification item to the program section of the agenda.

M/S/U (A. Peek, S. Circle) to approve the revised order of the agenda.

II. APPROVAL OF MINUTES

February 01, 2011

Hearing no objections, the minutes of February 1, 2011 were approved as written.

Art 189 Photo Laboratory Technology 1

This course is no longer a variable unit course and as such, the ‘A’ has been removed from the course number. This will be reflected in the 2011-2012 MJC catalog update and will take effect in Datatel for SU 2012.

Athletic Training/Sports Medicine

See Programs section.

Mechanized Agriculture Technician Certificate of Achievement

This program had inadvertently been removed from the State Inventory of Approved Programs. Communication with the Chancellor’s Office has been successful in rectifying the error. This certificate will be restored to the 2011-2012 MJC College Catalog.

Pulled for discussion by M. Garcia. M. Garcia noted that the typical assignments area only shows one assignment. The committee reviewed the course in CNET and found the information listed lacked more information. The committee members believe that the author is in need of producing approximately two more assignments for this particular area. The division representative will ask the author to provide more information. The committee approved the modification on the contingency that at least two more examples will be added to the typical assignments section in CurricUNET. B. Adams will enter the new assignments into CurricUNET.

Pulled for discussion by M. Garcia. M. Garcia questioned the methods of instruction area which states, “Plant Characteristics Keys.” The committee reviewed the item in question and deleted the statement in CNET. There were enough methods of instruction items provided, therefore it was easy to resolve this issue with a deletion of the listed method in question.

TOTAL UNITS IN A.S. MAJOR  30

The Committee members would like for area IV. of the program to be re-formatted to match the wording just below it, “Agriculture Education Option (COMPLETE 7 UNITS)”

M/S/U (M. Garcia, L. Prusso) to approve modifications to A.S. Degree: AGRICULTURAL SCIENCE/AGRICULTURAL EDUCATION

A.S. Degree: Athletic Training/Sports Medicine  33  09

B. Adams and C. Mulder have taken a look at this program to correct errors that have appeared in the catalog for several years. No changes to the approved program have taken place. The corrections will be reflected in the 2011-2012 MJC College Catalog. The Athletic Training/Sports Medicine program needs a CCC511 form sent to the state due to a change in units. M. Garcia noted that there was a variable unit for the Supervision in Athletics course which makes the program change from a 33 unit to a 32-33 unit program. The CCC511 form will be updated and sent to the state for approval of the program.

M/S/U (K. Ennis, S. Circle) to approve modifications to A.S. Degree: Athletic Training/ Sports Medicine.

1. CurricUNIT Trainings
   B. Adams
   February 17, 2011, Training from 2:30 - 4:00 PM and Drop-in Session from 4:00 - 5:00 PM, Regional Fire Science Center.
   B. Adams reminded the committee of the upcoming CurricUNET training to be held in Room 105 of the Regional Fire Science Center.

2. Equating Courses and Repetitions
   L. Miller
   Postponed indefinitely
VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller  
   Postponed indefinitely

2. How Programs should appear on agendas  B. Adams  03  
   Recently B. Adams and S. Fornelli spoke about how to best display programs on the agenda. The committee currently has a good system in place for the display of changes to courses and would like to incorporate something similar when compiling the agendas. The committee agreed to have B. Adams and S. Fornelli devise a worksheet for the committee to review at the next meeting.

3. A.A. and A.S. Degrees  B. Adams  
   http://www.asccc.org/resolutions/defining-associate-arts-and-associate-science  
   The committee reviewed the State Academic Senate Resolution 09.03 from fall 2008 and discussed the current philosophy of the A.A. and A.S. degree at MJC. There was discussion on the awarding of A.A. and A.S. based on unit values vs. the State Academic Resolution which defines them based on discipline. The committee agreed this needed to be discussed at division levels and with many faculty before any type of policy recommendation could be made by the MJC Curriculum Committee. This item will move to Unfinished Business and continue to be discussed at the next meeting.

Informational Items

1. Launching of First TMC Associate Degrees for Transfer (per SB 1440)  B. Adams  04  
   B. Adams informed the committee the first three TMC Associate degrees have been finalized by the CCCCO. The transfer degrees are Communication Studies, Psychology, and Sociology. The Speech Communication faculty members have discussed the Communication Studies TMC and a proposal will be on a future spring 2011 agenda. B. Adams participated in a webinar on February 14, 2011 which discussed the requirements of SB 1440 and compliance by community colleges.

1. How Programs should appear on agendas
   B. Adams
   B. Adams and S. Fornelli are currently working on a proposal that will show how programs will appear on upcoming agendas. The proposal may look similar to a course comparison report. B. Adams will present the proposal to the committee members at the next scheduled Curriculum Committee meeting.

2. A.A. and A.S. Degrees
   B. Adams
   http://www.asccc.org/resolutions/defining-associate-arts-and-associate-science

Discussion continued on the criteria to determine what types of degrees should be A.A. degrees and what types should be A.S. degrees. The committee viewed the link to the Chancellor’s Office which included language referring to the STEM (Science, Technology, Engineering, and Math) resolution which indicates these areas should be A.S. degrees, along with CTE, and indicates other areas should be A.A. degrees. The committee discussed the probability that the A.A. Degree University Preparation, Emphasis in Physics will appear on a future agenda for approval as an A.S. degree once the A.A. and A.S. degree criteria has been established and approved. The committee requested B. Adams draft a resolution for review for the March 15, 2011 meeting.

XI. PUBLIC COMMENT

L. Prusso discussed with the committee her thoughts on the general education requirement of activities. L. Prusso found that majority of colleges that she had researched had physical education listed as the requirement. B. Adams read aloud the local definition from the 2010-2011 Modesto Junior College Catalog. B. Adams volunteered to search other colleges to verify their listed definition of what is a requirement for them. L. Prusso believes that consistency needs to be in place for transfer. R. Cranley informed the committee that Columbia College requires two physical activities courses. B. Adams volunteered to put something together regarding this discussion and will provide the information to the committee members at the next scheduled meeting.

Meeting adjourned at 3:59 PM

_Pulled for discussion by M. Garcia. M. Garcia asked B. Adams to show the committee the course description in CurricUNET. The issue seems to be that this course looks like a new course and not a revision of the old one. The course is modeled after ANAT 180. P. Upton, division representative agreed and withdrew the course from the agenda. P. Upton will consult with the course author to make revisions and will have this course come through the committee again at a later date._

**Action Items**

1. **How Programs should appear on agendas**  
   B. Adams  
   S. Fornelli and B. Adams are still in the process of creating a worksheet of how programs would look, when appearing on the agenda. B. Adams is in the process of creating a mock up worksheet that would list programs on the agenda in the same format as currently done for courses.
2. A.A. and A.S. Degrees

B. Adams did some more research and found important information about this topic on the TMC website. The TMC launch cover letter indicates “This never was implemented through Title 5 because the Department of Finance determined that it would be an unfunded mandate. While this recommendation was not put in Title 5 because the Department of Finance would be an unfunded mandate, we are recommending that these new degrees reflect this change.” B. Adams stated “At least we know now, in terms of our philosophy, and how to approach the idea of our A.A. and A.S. degrees.” B. Adams drafted Resolution: SP11-CC2 for A.A. and A.S. degree. B. Adams noted that in terms of flexibility, this is good because it is not a part of a Title 5 mandate. One item that bothered B. Adams while creating the Resolution was unit values for the degrees. B. Adams stated that she was not real specific within the document to actually make a statement saying “That if you have both (A.A. and A.S degree), you are going to have to get rid of one or the other.” After looking at Title 5 information, it is known that this is not necessarily the case currently. It could possibly be the case within the near future and if so, that would be a time when decisions would have to be made. B. Adams asked the committee to take the document home to review and/or edit. This Resolution will be addressed at the March 29th Curriculum Committee meeting.

VIII. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  
   L. Miller  
   Postponed definitely to 12 April 2011

2. Local Requirements  
   B. Adams / L. Prusso/ R. Cranley

At the last Curriculum meeting, L. Prusso had discussed with the committee her thoughts on the general education requirement of activities. L. Prusso found that majority of colleges that she had researched had physical education listed as the requirement. L. Prusso wanted to know what the MJC local requirements were as it pertains to an A.A. or A.S. degree. B. Adams had volunteered to search other colleges to verify their listed definition of what is a requirement for them. B. Adams worked with R. Cranley and researched to find the requested information. R. Cranley sent out an email to other articulation officers within Region 5 to find information on their local requirements. A document was distributed to the committee members outlining the local requirements for several colleges that R. Cranley had researched. R. Cranley said that after looking at this document, you can see that the local requirement vary across the board. R. Cranley also stated that at some point in time it was decided here at MJC that our requirements were Guidance and Activities. B. Adams showed the committee a document created by R. Cranley with assistance from H. Townsend, which currently shows the requirements for MJC-GE, CSU-GE, and IGETC-GE. The purpose for the creation of this document was to combine these areas in a way, so that across the board committee members and faculty can see where they reside so inconsistencies can be detected and recommendations for revisions may be made. An involved discussion ensued regarding the inconsistencies that were shown within the document.

A. Peek alerted the committee to possible changes that may come down the pipe line from Legislature in the near future. A. Peek discussed that she was hearing discussion but not sure if it was true or not, that there are some things going on at the State level when it comes to funding proposals. It might be best to pull some courses out of Activities because the rumor is that the State wants to defund Activities. Modesto Junior College has a huge broad category of Activities, courses like Theatre, Creative Writing and Visual Arts. If the State suddenly puts into place a defunding of all Activities courses, then courses like those listed above will be without any funding. If these courses are placed outside of the Activities requirement, then future funding may be more secure. E. Maki noted that the committee cannot anticipate the way things are going to fall in regards to this discussion at State level. M. Lynch agreed. A. Peek said that she believes, in regards to the defunding of Activities, it is highly likely.

B. Adams showed the committee the local document the committee had approved in February 2009 showing the General Education requirements for Modesto Junior College. B. Adams and R. Cranley cleaned up the document by including a paragraph that states our local option. B. Adams asked the committee to also look at the local requirements document and make any
R. Cranley will email the Excel document to committee members for review and discussion among their department faculty. If a course within their department is listed within the Activities requirement, then discussion should probably develop among the department faculty to determine if the course can be placed within a different area. The Curriculum Committee agreed these items of this nature should be consent agenda items if any changes are made by taking the course from the Activities section and adding it to a GE section. It was determined that changes of this nature could be emailed to B. Adams or S. Fornelli requesting the item be placed on a future agenda. In addition, R. Cranley noted she would revise the GE Alignment Chart to include a faculty comment box for remarks/recommendations given by department faculty. If changes start coming through now, changes will be effective Summer 2012.

3. Course Substitutions for Academic Awards M. Robles / B. Adams

Due to M. Robles being absent, the committee voted to postpone this item until the next scheduled meeting.

M/S/U (A. Peek, J. Sola) Postponed until March 29, 2011

Informational Items

1. TMC Associate Degrees (SB 1440) B. Adams

http://www.c-id.net

B. Adams would like to keep the TMC Associate Degrees (SB 1440) as a standing item to remind committee members of when new things come up. B. Adams showed the committee the C-ID website and discussed items that have been finalized and items that are pending. R. Cranley also noted that if faculty members sign up for the Discipline Listserv, they will receive emails regarding their discipline.

New Courses

FSCI 312 Fire Investigation 2A 2
**Effective:** Fall 2011 * Expedited! To comply with newly revised code or law.
**Rationale for expedited approval:** This course is being proposed to meet the California State Fire Training standards for Arson Investigators.

**ADOPT**

**Enrollment Restrictions:** Requesting: (L) Enrollment limited to students who provide verification of completion of Fire Investigation 1B.
**Distance Education Status:** None
**Materials Fee Status:** Requesting fee of $110.
**Articulation Status:** Does not transfer.
**General Education Status:** Not approved for GE.

**Rationale:** New state regulations have created curriculum to train firefighters on arson situations. This course is being proposed so firefighters may analyze a possible arson situation and decrease the possibility of harm or death of firefighters that often occurs with arson situations.

**Program Impact:**
1. Fire Science Certificate of Achievement

* M/S/U (S. Circle, M. Lynch) to ADOPT FSCI 312
* M/S/U (C. Vaughn, L. Prusso) to APPROVE ENROLLMENT RESTRICTIONS to FSCI 312
* M/S/U (J. Beebe, K. Ennis) to APPROVE MATERIALS FEE for FSCI 312
* M/S/U (C. Mulder, J. Beebe) to EXPEDITE APPROVAL of FSCI 312 for FALL 2011

A.A. Degree: Communication Studies for Transfer

Effective: Summer 2011

Expedited!

Rationale for expedited implementation: To comply with newly revised code or law

K. Walters Dunlap, Vice President of Instruction, explained the timeline for approval of the TMC degrees. Once the Curriculum Committee votes for approval, the TMC needs local board approval and will be sent to the Board of Trustees for review and approval. Once the board approves the TMC degree, it gets moved on to the State of California through an electronic submission. The Chancellor's Office has fast tracked the AA-T and AS-T degrees. K. Walters Dunlap stated it is mandatory that every single college have at least two of these on the books. As soon as the proposals are submitted to the Chancellor's Office, the hope is that they will be approved fairly quickly. The MJC Catalog has just been published so it will not currently include these degrees. An addendum will be published to reflect these degrees. B. Adams added that at the C-ID website http://www.c-id.net, they now have published “Baccalaureate Degrees Deemed Similar” for Communication Studies and other finalized TMCs in Group One. B. Adams noted that the published information could help faculty when completing the CCC-510.

A.A. Degree: Mathematics for Transfer

Effective: Summer 2011

Expedited!

Rationale for expedited implementation: To comply with newly revised code or law

MODIFY:

J. Michelena reported that the A.A. Degree: Mathematics for Transfer needs a unit adjustment and will have to be revised and brought back at the next Curriculum Committee meeting on April 12, 2011.

   1 Abstention

   B. Adams provided the committee with a draft of Resolution: SP11-CC2 AA Degree and AS Degree. The Resolution has been discussed at previous meetings and B. Adams had been asked by committee members to edit the document for a final review at this meeting. L. Prusso noted that, by developing this document, MJC is creating criteria to determine A.A. versus A.S degrees. The committee agreed that the resolution is ready to forward to the Academic Senate for approval.

   **M/S/U (R. Cranley, S. Circle) to APPROVE Resolution: SP11-CC2 AA DEGREE and AS DEGREE**

3. **Local Requirements**

   R. Cranley / B. Adams / L. Prusso

   As follow-up from the March 15 Curriculum Meeting, R. Cranley discussed how some courses differ in their placement on the three GE Patterns. She provided a chart titled “Suggestions for GE Placement”. R. Cranley asked that before the next meeting, scheduled for April 12, 2011, division reps contact their department faculty to dialogue on courses that need to be closely looked at and possibly cleaned up when it comes to general education alignment. This item will be placed on the next agenda as GE Alignment for a vote. She mentioned that it might be wise to wait on aligning courses that involve changes to/from the Activities category until the state makes a decision regarding activities and repeatability.

   M. Robles / B. Adams

   M. Robles reported that there was nothing specifically that needed to be worked on today but wanted to get interest by the committee on course substitutions. M. Robles would like to establish a subcommittee on course substitutions. The subcommittee will work together to come up with a proposal for policy and procedure because Modesto Junior College currently does not have a defined policy. B. Adams asked if there were any volunteers interested to take part as a member of the subcommittee. The following persons volunteered: L. Prusso, B. Adams, M. Robles, R. Cranley and J. Sola.

   **M/S/U (M. Morales, E. Maki) to bring back to the table unfinished item number 2 A.A. Degrees**
Informational Items

1. TMC Associate Degrees (SB 1440)  B. Adams
   http://www.c-id.net
   B. Adams had shown the C-ID website to the committee in previous conversation with the CCC-510 programs in the Programs section of the agenda and asked if the committee would like to discuss anything further. The committee had nothing further to discuss regarding this informational item.

2. Curriculum in Transition  K. Walters Dunlap
   K. Walters Dunlap announced that a lot of changes are taking place at the state level. The LAO, Legislative Analyst's Office, is looking at the course offerings that colleges have across the state for repeatability and activities courses. The committee reviewed the current State Senate Resolutions discussing the defining of repeatability and the elimination of the definition for an activity course. K. Walters Dunlap stated “I think we need to take a look because there is a state trend to stop funding programs that are truly activity based or limit the funding apportionment as opposed to something that really might be a lecture or a lab activity.” K. Walters Dunlap said that she believes it to be best for every department to look at the activity courses that they have on file and make sure it is really an activity course. Colleges are not being mandated to eliminate all activities courses; however, the apportionment of funding will likely decrease. K. Walters Dunlap suggested departments check the guidelines of how an activities course is defined under Title V and then look at their activities courses to see if the course actually falls within the guidelines put forth by Title V. R. Cranley suggested that departments hold off and wait for the final word from the state before we make any changes to existing courses that involve “activities” placement or removable, but at least start the discussion within departments now. K. Walters Dunlap indicated she is most worried about what will happen to the PE courses. K. Walters Dunlap stated “My prediction is we will see some changes in that area within a year.” C. Mulder asked about varsity sports and if it was possible that the state is going to discontinue funding for that area. K. Walters Dunlap said that she had not heard anything at the state regarding varsity sports.

K. Walters Dunlap discussed local requirements with the Curriculum members. If the Board of Trustees approves the proposal to eliminate suggested programs then courses within those areas cannot be offered and will be inactivated. For example, if Engineering is eliminated, than MJC cannot offer Engineering courses for 39 months. If the college offers any of the Engineering courses within that time period, then the employee whom was cut will have to be brought back. Faculty reps will have to work with deans to inactivate courses and programs after the Board takes action.

K. Walters Dunlap announced that there is a strong possibility that the Federal Government will be requiring colleges to provide additional justification how they measure student success. K. Walters Dunlap stated “There is a push for accountability measures because it is tied to student aid. Because of this, there is an increased emphasis on us to demonstrate how students are succeeding here at Modesto Junior College.”

3. Curriculum Committee Membership 2011-2012  B. Adams
   B. Adams presented the Curriculum Committee Membership document for 2011-2012. B. Adams asked the committee to review the document and email S. Fornelli or herself if changes need to be made to the document. B. Adams stated that S. Fornelli will put this document back on the Fall agenda for the committee to review again due to possible restructuring of divisions.

4. Curriculum Committee Meetings – 2011-2012 Calendar  B. Adams
   B. Adams showed the committee the Curriculum Committee Meetings Calendar for 2011-2012 and noted that the November 8 meeting will be the last meeting in Fall 2011 for items to take effect for Summer 2012.

   Discussion ensued regarding the process by which discontinued courses and programs would be inactivated. Some members have been hearing rumors and speculation about what might be done and why. Many questions were asked, including:
   - What is the hurry to inactivate courses?
   - Will a forthcoming addendum reflect inactivated courses/programs?
   - If curriculum is truly a faculty driven process, where is the faculty involvement in inactivating programs?
   - Wouldn’t it be better for students if inactivated courses weren’t listed as part of a program in the catalog?
   - What IS the process to inactivate courses and programs?

   And many comments were made, including:
   - It is unlikely that college administration would accidentally offer an inactivated course.
   - Some members felt that the Committee was being asked/directed to provide cover for actions taken by administration.
   - Curriculum leadership doesn’t expect that much curriculum action will take place over the summer.
   - CCCC0 dictates a lot of what the Curriculum Committee has to do.
   - The faculty of the Literature and Language Arts Division are not in favor of inactivating courses outside of normal process.
   - The committee has to respond to decisions that are made and the committee can’t react until word comes from administration.
   - Some committee members feel pressured and rushed to enact Board of Trustees decisions.
   - Word from at least one other college is that administration there felt that having AA-T/AS-T degrees in a discipline meant that other, higher unit degrees in that discipline should be inactivated.
   - According to Stephanie Lowe, courses can stay on books for 4 semesters without being offered.

   One question that was answered was: What is the position of the Academic Senate Executive Board regarding the likely forthcoming inactivations? And would action by the Curriculum Committee help or hurt the administration’s position in any potential lawsuits? To which A. Peek responded: The position of the Academic Senate Executive Board is that discontinued programs will need to be inactivated. She further stated that no lawsuits are being contemplated by the Academic Senate.

   There was discussion about whether or not the Curriculum Committee should draft a statement to the Academic Senate indicating non-support for inactivating programs. Ultimately it was decided that the committee needed to wait until fall to take any action.

   Finally, the representatives were asked to speak to rumors as they hear them by saying that no action will take place until fall and that the committee hasn’t been asked to do anything.

### ASSIST INFO: NEW IGETC SUB AREA ANNOUNCED

**From:** Chief Instructional Officers [mailto:CIO-ALL@LISTSERV.CCCCO.EDU] **On Behalf Of** Dunkle, Glenn  
**Sent:** Tuesday, August 23, 2011 12:54 PM  
**To:** CIO-ALL@LISTSERV.CCCCO.EDU  
**Subject:** ASSIST Update: New IGETC 5C Subarea

Dear Colleagues:

In December, 2010, the Intersegmental Council of Academic Senates (ICAS) voted to create a new sub-area within IGETC. A new sub-area 5C will identify those biological or physical science courses that meet the laboratory requirement within area 5. ASSIST is in the process of implementing changes to accommodate the new IGETC sub-area 5C.

THIS MAY AFFECT PUBLICATIONS SUCH AS CATALOGS AND ADVISING SHEETS, AND MAY ALSO AFFECT LOCAL SOFTWARE APPLICATIONS UTILIZING ASSIST DATA. THIS ANNOUNCEMENT IS TO SERVE AS AN ADVANCE NOTICE OF THE UPCOMING CHANGE IN ORDER TO PROVIDE TIME FOR CAMPUSES AND SYSTEM OFFICES TO MAKE THE NECESSARY UPDATES. PLEASE DISTRIBUTE AS APPROPRIATE.

ASSIST ([www.assist.org](http://www.assist.org)) is the official repository of IGETC information and contains all approved IGETC information from its start in 1991 through the present. The Physical and Biological Sciences requirement of IGETC, area 5, requires that students complete at least 2 courses, one in Physical Science (5A) and one in Biological Science (5B). At least one course must contain a laboratory activity. Currently, ASSIST provides
institution level reports that identify courses that meet the laboratory portion of the requirement by showing the courses in **bold type**.

**THE FOLLOWING IMPLEMENTATION DATES ARE PLANNED:**

As of **May, 2012**, data and reports on the ASSIST website will reflect the new IGETC sub-area 5C. At that time, **all** physical and biological science courses that are laboratory activity only will be listed exclusively in area 5C, while lecture-laboratory combination courses will continue to be listed in the appropriate area 5A or 5B as well as in the new area 5C. This will include historical courses as well as those approved as of Fall 2012. Bolding of the 5A and 5B courses on the ASSIST website IGETC reports will be eliminated in lieu of new area 5C qualification.

As of **June 5, 2012**, the monthly ASSIST data extracts (generated on the 5th of each month) will also include the new sub-area 5C. If your campus uses the monthly ASSIST IGETC extracts to seed data systems on your campus, you may need to make changes to accommodate the new sub-area 5C.

To aid in testing, please find attached the revised ASSIST Extract Specifications for your review. Additionally, ASSIST will make a test extract file available on our ftp site at [ftp://extracts:assist@ftp.assist.org](ftp://extracts:assist@ftp.assist.org) as of August 24, 2011 for your use in testing any program changes. The file name will be “igetc_5C_test”. Please note that this is sample data and it is not recommended for loading into production systems.

If you have any questions about the policy, please contact Ken O’Donnell (kodonnell@calstate.edu) with the California State University Chancellor’s Office.

If you have any technical questions, please contact Glenn Dunkle (glenn@assist.org) with the ASSIST Coordination Site.

**GE Breadth Decisions –2011: IGETC/CSU-GE**

**UC Transfer Course Agreement (TCA) Results**

Dear Colleague,

We have completed analysis of the courses submitted for Modesto Junior College TCA for 11-12. This information is currently being entered into the ASSIST database. Subscribers to the ASSIST-L listserv will be notified via email when this new TCA has been published at [www.assist.org](http://www.assist.org). For information on subscribing to the ASSIST-L email listserv, visit [http://assist.org/assist_l_about.html](http://assist.org/assist_l_about.html).

The following is a summary of our actions on your newly submitted courses:
New courses approved as UC Transferable:

ARCH 152  Architectural Design 1  5  
ARCH 153  Architectural Design 2  5  
COLSK 100  Foundations for First Year College Success  3  

College catalog is required for transferable "college success" courses; Please consider adopting Modesto Junior College's catalog as required text.

Courses re-reviewed and approved as UC Transferable:

HISTORY INFORMATION

NOTE: This year, UCOP will be conducting a subject area review for history and a course credit limitation review for pre-calculus. Submission of history courses is voluntary for the 2011-2012 cycle, but unsubmitted courses will be marked for fall 2012 removal. For further details on the history review, please see the attachments.

In 2010, UCOP received clarification from UC history faculty about the need for expanded details in the outlines of the following history courses: World History, Western Civilization, American History, Latin American History, History of Africa, History of Asia. We are only looking at series courses in these subjects, rather than courses with specialized focuses (e.g.
Students are expected to write, in their own words, short written responses, examinations (e.g. bluebook essays) and/or longer papers (writings should utilize proper citation as appropriate);
The COR should explicitly state the expectation that students think critically through various types of assignments, such as: out of class assignments, collaborative group work, interactive presentations, independent research, and/or analytical writing;
The COR must include a primary text as well as additional required reading material (the COR should clearly indicate how the secondary reading material is incorporated into the content of the course);
An understanding of how students will learn historical perspectives as well as personal, class, and cultural values should be clearly indicated in the COR

A suggestion, but not a requirement: the COR should include detailed information about the topics covered in the course content section, rather than simply a list of dates and locations covered in the course. The UCOP course evaluators will also be looking for a breakdown of course content into sections, though a breakdown by number of hours, as shown in the "good" history course outline, is not required.

Courses which require additional review or campus action:

HIST 101  History of the United States to 1877  3  

UCOP will notify when a response is received
HIST 102  History of the United States Post Civil War  3  
HIST 104  Western Civilization to 1650  3  

UCOP will notify when a response is received
HIST 105  Western Civilization since 1650  3

Program Impact:
Stand Alone
ENGL 49, ENGL 50, ENGL 101, and ENGL 103 pulled as a block for discussion by R. Cranley
R. Cranley asked for clarification on the status of course descriptions which had been noted as problematic during technical review by L. Miller. Per past practice, course descriptions have been expected to be written in a concise, “pithy” style without unnecessary words or lead-in phrases such as; “this course is designed to teach” or “instruction in.” Occasionally, course descriptions are written in a formal and technically complete manner, and L. Miller has been given the authority to edit them. D. Gilbert noted that the college’s style uses sentence fragments, and that the goal of the department was to clean those up. However, L. Miller had confirmed that this has always served a purpose to ensure that our catalog is “to the point” and to avoid restating the obvious for each course offered at MJC. D. Gilbert agreed that the established campus-wide style should overrule the department’s desire to stop using fragments.
M/S/U (K.Ennis, L. Prusso) to MODIFY ENGL 49 with a friendly amendment (K. Ennis) that L. Miller collaborate with D. Gilbert to revise the course descriptions to follow the college’s established style.
M/S/U (J. Beebe, E. Kerr) to MODIFY REQUISITES for ENGL 49

M/S/U (J. Beebe, E. Kerr) to MODIFY REQUISITES for ENGL 101.
ENGL 101 and ENGL 103 pulled as a block for discussion by M. Garcia due to concern about references to face-to-face meetings for an online course. How is it that the DE Addendum for this course shows that students may have to attend online meetings? Shouldn’t that be removed? D. Gilbert reported that some instructors may offer a face-to-face meeting with students and find them to be beneficial to students. There was lively discussion. Can you require students in an online course to come to a face-to-face meeting? Many members reported that you may not, an example of which would be the student who is taking the course overseas. D. Gilbert withdrew the DE proposals; she will bring back to her department for revisions.

LIBR 100  
Research Concepts and Practice  
Effective: Summer 2012  
MODIFY: Course ID, title, units, description, content, methods of Instruction, typical assignments, learning goals, methods of assessment  
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ENGL 50.  
Distance Education Status: Approved for: Online  
Materials Fee Status: None  
Articulation Status: Transfers to CSU. Requesting UC  
General Education Status: Requesting (MJC-GE:D2).  
Rationale: We are adding learning goals, content, and assignments to more fully align the class with the information competency standards laid out by the Association of College and Research Libraries. These additions will bump the course up to three units, which will also allow us to add it to the MJC graduation requirements. We are also changing the title because the current title is too close to the Psych102 class (Research Methods)

Program Impact:

Stand Alone

MATH 49 pulled for discussion by R. Cranley for concerns about requisite skills and a lack of clarity on how the content differs with each repetition. It was confirmed that the requisite information on repetitions was provided, so R. Cranley took back her remarks. There was considerable confusion about the requisite skills, which would imply that MATH 70 is a requisite for MATH 49, possibly implying that MATH 49 is a co-requisite or prerequisite for MATH 49. M. Adams clarified this is not the case, that this is a course designed to support students headed for the transfer math sequence, and should be taken in tandem with MATH 70 or MATH 90. It was resolved that this should be changed and brought back to the committee as a consent item on the next agenda.

M/S/U (M. Adams, P. Upton) to MODIFY MATH 49 with the contingency that an advisory be considered to clarify the role of the course in the MATH department curriculum.

M/S/U (J. Beebe, M. Adams) to MAINTAIN MODALITY for MATH 49.

### VII. UNFINISHED BUSINESS

**Action Items**

1. **Course Substitutions for Academic Awards**
   M. Robles / B. Adams
   M. Robles shared that Admissions and Records is looking for clarification on the process for course substitutions. How is this done in the divisions? Is the prerequisite challenge process consistent campus-wide? M. Robles reported concern that students are not seeing the same message/process from all divisions, creating confusion.

2. **Curriculum in Transition**
   B. Adams
   
   **PROGRAM DATA AND APPROVAL**
   B. Adams continued discussion on the transition of curriculum in light of recent program discontinuances, changes to state process and regulation, and CurricUNET’s program module. There is a great deal of activity in all these areas. She reminded the committee to check to confirm that the catalog accurately reflects programs, as well as the recently input program module data. This data will eventually be used to create the catalog, so it is important that departments are reviewing data that was input over the summer by J. Van Kuren (SME) and S. Fornelli. Programs that were discontinued will need to be inactivated through the CCCO, but B. Adams wants to ensure that courses associated with the program do not first need to be inactivated. L. Miller will contact the state for advice. **Deadline to submit changes for 2012-2013 is October 3.**

   **CHANGES TO WITHDRAWALS AND REPETITIONS**
   There are going to be changes to statewide regulations on withdrawals and repetitions. Information should be forthcoming this fall.

   **PLACING COURSES WITHIN DISCIPLINES**
   There are going to be changes to practices and regulations of placement of courses within disciplines, because this is tied into which faculty meet the minimum qualifications for teaching in a given discipline.

ICAS: University faculty requesting individual faculty syllabi and final exams  R. Cranley
R. Cranley reported that ICAS (Intersegmental Committee of Academic Senates), a committee representative of the UC, CSU and CCC systems, has clarified some articulation practices through a memo to CCC Senate presidents, Curriculum chairs, and Articulation officers.

While ICAS recognizes the primacy of the institution’s course outline of record, it reserves the right to request course syllabi or final examinations to gauge the content and rigor of a course. Due to concerns about a transfer student’s ability to succeed in a more advanced course within the UC or CSU, ICAS advises colleges to ensure that objectives, content, assignments reflected in the COR vividly demonstrate the rigor and scope of the course.

X. WORKGROUPS

1. Operations Workgroup  J. Zamora / B. Adams / L. Miller
The Operations Workgroup has not met, but B. Adams and L. Miller would like to resume this workgroup to ensure that committee and operational processes functioning most efficiently. B. Adams asked L. Miller to check into whether there will be a meeting of the workgroup on Tuesday, September 20.

XI. TASK FORCES

1. Special Topics, Experimental, Independent, Work-Experience Task Force  B. Adams
B. Adams stated that we are going to run Special Topics, Experimental, Independent, Work Experience courses through the system like standard course revisions. We will create templates for Independent study courses.

2. CurricUNET Implementation Task Force Update  B. Adams reported that B. Sanders, L. Miller, L. Gerasimchuk, and she met on Tuesday, September 6 to review the proposal types in CurricUNET and clean up the system. The removal of some confusing proposal types should make the course revision and creation processes easier for faculty to navigate.

XII. PUBLIC COMMENT

- E. Maki asked if committee members are responsible for reviewing and inputting information in the program module for all of the programs in each member’s discipline. B. Adams commented that the responsibility lies with each discipline’s faculty, and the committee member will then review as rep.

- Chris Vaughn informed the committee the Computer Science faculty plan to revamp their curriculum and change their discipline prefix.
I. APPROVAL OF ORDER OF AGENDA

Hearing no objection, the order of the agenda was approved.

II. APPROVAL OF MINUTES

AUTEC 317  Auto Heating & Air Conditioning 3 changed to 3 ½
Effective: Spring 2012 Expedited! (Request overridden by Office of Instruction) Summer 2012
Rationale for Expedited Approval: At present, student's majoring in Heavy Equipment do not take
ATUEC 311 and due to this do not meet the requirement for AUTEC 317 despite the fact that
professor's feel they have gained appropriate pre requisite skills to enroll in AUTEC 317. The expedited
request will enable student's majoring in Heavy Equipment to enroll in AUTEC 317 in the Spring 2012.
NOTE: Because scheduling deadlines have passed for SP 2012 and processes are in motion, it is not
feasible to implement expedited changes to this course without complications for staff and students, so
the Instruction Office is denying the request for expedition.

M/S/U to (M. ADAMS, E. MAKI) MODIFY AUTEC 317
Multiple concerns about the units/hours were noted during technical and committee review. The
Instruction Office denied the course's proposal (as originally drafted) for 2 units of LEC and 1 unit of
LAB, because the hours as written did not align with the Carnegie Unit formula of 1 hour of LEC
equating to 54 hours of lab instruction. On the day of the meeting, dialog between the dean (P. Mendez)
vice president of Instruction (K. Walters Dunlap), B. Adams (chair) and Instruction Office staff, resulted
in the hours and units being adjusted to 3 ½ Carnegie units. The course and meeting minutes were
updated during the meeting to reflect this change. E. Maki requested that the agenda from the previous
meeting also be updated by the Instruction Office to reflect the change.

VII. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards M. Robles / B. Adams
   M. Robles announced that there will be a meeting on Oct. 6 for Course Substitutions. She also shared that the plan remains to explore how divisions manage their prerequisite challenges, in order to establish consistency campus-wide.
Informational Items

1. **Equating Courses and Repetitions**
   - L. Miller
   - Postponed Indefinitely

2. **Independent Study and Work Experience Course Outlines**
   - B. Adams

   B. Adams mentioned that there is a need to get Independent Study and Work Experience outlines in compliance. One approach she thought may be useful would be to update the “DIV” outlines currently on (paper) file in the Instruction Office through a template format in the system (that has not yet been developed). She provided history on how this information was managed in the past and explained how data in systems is outdated or incongruous with curriculum approvals. Historically, disciplines were given a block of .49, .98, .99 courses in DSK back in 1998 (for all appropriate levels: 100, 200, 300). The course outlines for all of these were represented by DIV outlines, with DIV meaning “all divisions.” Unfortunately, an audit of Datatel shows that many of these courses have never been used. B. Adams encouraged the faculty to review the appropriateness and relevance of these courses, and inactivate those that are not in use. E. Maki raised a question for the committee to consider, “how would we measure learning outcomes for an Independent Study course if were one template?” B. Adams noted that there is an “Independent Study Proposal Form” in use campus wide. Might this be the way that learning outcomes for an independent study course are identified and then measured?

3. **Title 5: Repeats and Withdrawals**
   - B. Adams

   B. Adams reminded the committee of K. Walters Dunlap’s email regarding changes to state policy on repeats and withdrawals. In times of budgetary crisis, the state is looking for ways to save capital, and one opportunity that emerged is to save on the number of times the institution can be reimbursed for students who repeat coursework. M. Robles informed the committee that IT is already working on implementing the changes in Datatel so that the system is ready to enforce the new guidelines by Summer 2012 Registration. She also informed the committee that this is important because repetition/withdrawal data are considered by the Progress Probation process.

IX. NEW BUSINESS

Action Items

1. **Prerequisite/Co-requisite/Advisory/Limitation on Enrollment Language Standardization**
   - L. Miller
   - Postponed indefinitely. L. Miller explained that the “issue is being postponed due to a lack of resources to address it, but it still needs resolution.”

2. **Placing Courses within Disciplines**
   - B. Adams/M. Adams

   B. Adams informed the committee that M. Adams had drafted a resolution regarding MJC’s noncompliance with Title 5 regarding the “assigning of courses to disciplines.” M. Adams explained to the committee that there is no way for the state to know which disciplines are assigned to teach a given course. He also explained that only recently have we learned that, since 1990, MJC has not fully complied with “10+1”, which indicates that the faculty is responsible for the establishment of curriculum, which includes prerequisites and placing of courses within disciplines. In some cases, it is obvious which courses are associated with disciplines, however, in others it is not. Examples of courses were shown to the committee, e.g., Economic History of the United States, Death, and Photoshop, wherein any number of disciplines might, in theory, be able to offer the course. He also clarified that more than one discipline may be associated with a given course. Many committee members were unclear on what exactly was meant by placing courses within disciplines. Isn’t this already established when a course is created in a department? J. Zamora explained that this is a way of formally associating one or more academic disciplines with courses. M. Adams stated that it would be in the committee’s best interest to put a resolution forward to the Academic Senate requesting that the committee be in charge of developing the process and protocols through which disciplines would be associated with courses. He pointed out that it is better for faculty to determine this than for another entity to do it. Concerns were raised about the use of the word “Assigning Courses to Disciplines”. B. Adams pointed out that this language comes from state presentations on the issue. It was decided that M. Adams would make minor changes and bring it back to committee for review.
Informational Items

X. WORKGROUPS

1. Operations Workgroup  
   J. Zamora / B. Adams / L. Miller  
   A meeting will be held on October 4 with K. Walters Dunlap, B. Adams, A. Bethel, L. Miller, and L. Gerasimchuk to discuss operational sides of the curriculum process.

XI. TASK FORCES

1. CurricUNET Implementation Task Force Update  
   B. Adams/L. Miller  
   B. Adams reported that she, L. Miller, and L. Gerasimchuk met last week to address issues in CurricUNET. The committee can anticipate planned improvements to the system, for example, links, language etc. that faculty see will be more clear and consistent throughout the site. She noted that there are bugs in the new program module that need to be addressed.
   
   a. A handful of academic program awards cannot be linked to a specific department. Under whose oversight should these fall?
   b. Proposal Types are very chaotic and confusing. For example, one type says “D.N.U.” for Do Not Use is used anyway. These options will be simplified, removed or cleaned up.
   c. Right now, to modify a program, faculty authors must use the “Program Deletion” to create a copy of a program.
   d. Catalog Description for programs appear to allow for only the active catalog description. No history is created when a description is modified. The college needs to retain the history.

XII. PUBLIC COMMENT

M. Robles wanted to remind faculty to “get out the word” that students will be automatically dropped for non-payment 10 days after registration if they neglect to pay their fees. Exceptions will be made for certain situations, like pending financial aid. This will go into effect with November registration.

Meeting adjourned at 4:15 pm
I. APPROVAL OF ORDER OF AGENDA

Hearing no objection, the order of the agenda was approved.

II. APPROVAL OF MINUTES September 27, 2011

Hearing no objection, the order of the agenda was approved.

III. NOTIFICATION

The committee was notified of the following activity.

- **MATH 49**
  - Skills for Success in Transfer Level Math courses
  - Effective: Summer 2012
  - MATH 49 was approved at the 9/13/11 meeting. At the meeting, the course was pulled for discussion and there was concern that requisite skills were listed, but no requisites were listed. M. Adams indicated he would go back to Math department faculty to determine if an advisory should be added, or if the requisite skills were not necessary and should not have been included. It was agreed upon that if an advisory needed to be added, it would be placed as an agenda item on a future agenda since requisites require separate approval. The Math department faculty determined no advisory should be listed, and requested the requisite skills be removed. On 9/28/11, B. Adams removed the requisite skills from MATH 49 in the CurricUNET requisite skills field. This notification item is for documentation/historical purposes.

- **FSCI 366**
  - Fire Apparatus Driver/Operator 1B
  - Effective: Summer 2011
  - Modify: Course ID
  - Rationale: On 11/09/2010, this course was first adopted as FSCI 368. During the spring of 2011, N. Marcelino discovered on implementation that the course ID “FSCI 368” had been used in the past for a variable unit course of a different name. For this reason, implementation under FSCI 368 could not take

M/S/U (J. SOLA/L. HATCH) to MODIFY ADJU 202
M/S/U (M. GARCIA/L. HATCH) to MAINTAIN ADVISORY for ADJU 202.
DE Addendum pulled for discussion by M. Garcia due to concerns that supporting information on the TMI form was placed in the wrong field. He noted that the information “Students can access bookstores, ours and other libraries world-wide. Student service information is also on line as well as registration, the current schedule, the catalog and students can contract via e-mail any of the staff or instructors at the college. The MJC help desk offers on-line student help with technical question” which was input under methods that allow student to meet the student learning goals for the course. This should have been placed under methods to ensure appropriate instructor/student contact B. Adams made the change during the meeting.

DE PROPOSAL FOR ADJU 232 and ADJU 233 pulled as a block for discussion by Ruth Cranley because the Voting Grid did not reflect GE requests for CSU-GE: D0 for both courses as noted on the agenda. Why the difference between the agenda and the Voting Grid? B. Adams, who created the grid, explained that she creates the grid from going directly into the pending launched DE proposal. In this context, the reviewer only sees the DE addendum, with the only editable fields pertaining to DE. No GE information appears in the DE addendum. B. Adams concluded that this course is only proposed for DE, and therefore would only be voted on for DE. M. Garcia as well as some other members explained they had seen the CSU-GE: D0 request as well, and requested that the course outline be opened to confirm that the GE was being requested. It was not clear where this information came from and how it was populating the course outline report and the course compare report, both of which are used by various personnel in the curriculum process. B. Adams posed the question, can a DE proposal have academic integrity and relevance if the course outline is not current? B. Adams checked the megaminutes to research when the course was last reviewed and discovered that the course was last reviewed by the committee 12/10/2002 and therefore out of compliance. Should a DE proposal be denied on this premise? Discussion ensued.

M/S/U (J. SOLA/L. HATCH) to MODIFY MUSA 151
M/S/U (L. HATCH/M. GARCIA) to MAINTAIN PLACEMENT of MUSA 151 ON MJC ACTIVITIES

MUSA 163, MUSA 164 and MUSE 176 pulled for discussion as a block by C. Mulder

C. Mulder asked E. Maki for clarification as to how a course could be configured as a lecture course but also be an Activities course, and therefore repeatable. E. Maki explained that this was to adhere to the Carnegie Unit formula and to strip of TBA (to be arranged) hours. One member remarked that it is puzzling that an “Applied” course is in lecture format. Does that have an adverse impact on articulation? E. Maki explained that this is not an issue because transfer institutions recognize “applied courses” regardless of their assigned method of delivery. One member asked if the method of delivery was consistent within the sequence, for example, were all courses “LECTURE” in a given sequence. E. Maki confirmed this.

VII. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards  M. Robles / B. Adams
M. Robles reported that there was a productive meeting last week. Some research was completed, and a process was drafted. The work is being compiled for a subcommittee. They plan to elicit feedback on the work and then bring to the Curriculum Committee for review. They are looking for common practices and common criteria for course substitutions
within the divisions. J. Hughes has researched Columbia College as well. M. Boyd expressed concern about how this might limit substitution options. M. Robles explained that this is to get a policy on the books, for example, how to handle certificates or degrees no longer in existence. How long should we grant course substitutions? How many courses per award may be substituted by another course. In some cases, some courses have been repeatedly substituted by another. Is this appropriate. Might there be a need to reevaluate the requirements for the award? L. Miller explained that we should keep in mind that the CCCCO is paying more attention to the goals and objectives of awards as presented in our applications. Substitutions can be problematic, in the sense that deviating from the official requirements for awards may trigger scrutiny. For example, if we cannot demonstrate how a particular course fulfills the goals and objectives, nor leads to careers and transfer pathways initially identified in our formal application.

**VIII. NEW BUSINESS**

**Action Items**

1. **Placing Courses within Disciplines**
   
   B. Adams/M. Adams
   
   M. Adams presented a revised draft of the “Placing Courses within Discipline’s resolution. He believes he successfully incorporated requested changes from the first meeting. The goal is to have the resolution go before the Academic Senate on Thursday, October 20. The goal of the resolution is to establish that the Curriculum Committee be charged with the role of “placing courses within disciplines” because that aligns within the body’s realm of expertise in curriculum. The majority of California Community Colleges have a formal polices in place in which the curriculum committee has a clear formal charge of placing courses within disciplines, but MJC is not included in that majority. There is no way to objectively identify which courses are associated with which disciplines. The college needs to establish that through a formal, rational process. When we consider legal battles that are still ongoing, we need to have a clear, objective answer to some of the questions, including, “What kind of professor can teach what kind of course?”

   **Resolution: FL11-A**
   
   **Disciplines for Courses**

   **Proposed by:** Mike Adams

   **Whereas:** Title 5 section 53200 lays out the powers and responsibilities of California Community College Academic Senates in a list commonly referred to as the “10 + 1”; and

   **Whereas:** The first item on the 10 + 1 list states that Community College Academic Senates are in charge of “curriculum, including establishing prerequisites and placing courses within disciplines” (emphasis added); and

   **Whereas:** The Yosemite Community College District Board of Trustees has agreed to rely primarily upon the district’s Academic Senates for curriculum issues; and
Whereas: The Modesto Junior College Academic Senate meets this part of its professional responsibilities by means of the Modesto Junior College Curriculum Committee; and

Whereas: The Modesto Junior College Curriculum Committee is the body on campus with the best expertise to determine the process by which faculty place courses within disciplines, but does not currently do so; and

Whereas: The Modesto Junior College Curriculum Committee derives its authority from the Modesto Junior College Academic Senate.

Therefore: Be it resolved, The Modesto Junior College Curriculum Committee asks the Modesto Junior College Academic Senate to add approval of faculty assignment of courses to disciplines to the charge of the Curriculum Committee.

\section*{X. TASK FORCES}
1. \hspace{1cm} CurricUNET Implementation Task Force Update
   B. Sanders, B. Adams, L. Miller and L. Gerasimchuk met on October 4. At the request of B. Sanders, B. Adams explained that B. Sanders needs direction as to whether or not to include the “semester preference” information in program requirements, and he is looking for the committee to provide it. Many members were unclear as to what “semester preference” is. B. Adams clarified it is the information in the catalog that appears in brackets with program requirements, e.g:

   \begin{tabular}{l|l}
   \textbf{COURSE ID} & \textbf{[4]} & \textbf{Course Title} & \textbf{#} \\
   \end{tabular}

   Many members felt this information to be incredibly valuable and asked that it remain. One suggested that a disclaimer be included as well, in the event that courses are not offered or other extenuating circumstances.

   B. Adams announced that, after many technical problems encountered by authors, the Student Learning Goals box can be checked again.

   L. Miller advised the group that – despite the program module being active and usable – that we should not anticipate the catalog being produced directly from the system. This may be one to two years out before we can anticipate reports being accurately designed and reliable for print publication.

B. Adams asked if there was any discussion pertaining to the blanket approval of discontinued program course inactivations. She displayed an email received from J. Zamora, who, on behalf of L. Kropp, asked if it was prudent to inactivate Board-discontinued courses and programs currently undergoing employment law litigation. And, in light of this, recommended that inactivation of said courses and programs be tabled until there is more clarity on the outcome. B. Adams reasoned that Accreditation, catalog production, as well as federal reporting for financial aid require alignment of curriculum records with reality. She shared that J. Zamora asked “what if these programs are brought back?” She remarked that the committee could then reactivate and align the program with current standards and practices. She added that K. Walters Dunlap explained that litigation and curriculum approval are two separate issues. B. Adams noted the committee is responsible for staying compliant and keeping college reporting of programs current and accurate. C. Vaughn asked to speak.
under the premise of having strong opinions, as well as strong sentiment about these programs. He noted he “would not be here [at MJC] were it not for these industries.” He remarked that the decision to remove these programs was arbitrary, with no discussion. If the committee votes yes, it “validates” this action. “Our goals as are nebulous, but even so, aren’t our goals to have depth and breadth?” He went on, “This is a poor example of serving our community.” K. Ennis appended his remarks, noting that colleagues and specifically, close friends have been negatively affected. While she noted the importance of accuracy and currency of information, she would not vote to inactivate because, personally, it is an emotional decision. Many members noted that litigation is a separate issue. B. Adams reminded the group that the Board has already removed the programs, and it is the committee’s responsibility to keep things up to date. M. Adams reasoned that it could possibly hurt the position of RIFed personnel to have programs in the catalog, in that the evidence of the negative impact of their removal would not be as compelling without showing the program removal. Many members felt strongly that the programs can be reactivated. C. Vaughn suggested that in addition to retaining them in the catalog, that an addendum be created later showing their removal. C. Mulder expressed concern that by not inactivating programs and courses removed by the Board, that this is analogous to defying a supervisor. Questions were raised about the process. L. Miller read from the 2009 CCCCO PCAH (CCC-511) which details the information required for reactivating an inactive programs:

“[To] Change from Inactive to Active Status: attach proposed program description and requirements, catalog description, list of required course titles, units, and other completion requirements.”

UPDATES (including modifications/reactivations)

CMPSC 202  Business Information Systems 3
Effective: Summer 2012
MODIFY: Requisites, requisite skills, content
Enrollment Restrictions: Modifying: (P) Satisfactory completion of CMPSC 201 or CMPSC 203 or CMPSC 204; Removing: (P) Satisfactory completion of BUSAD 201 or BUSAD 310
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfers to CSU and UC
General Education Status: Not approved for GE
Rationale: Prerequisite changes
Program Impact:
1. Accounting A.S. Degree
2. Accounting Certificate
3. Bookkeeping Certificate
4. Business Administration A.A. Degree
5. Business Operations: Management A.A. Degree
6. Computer Applications Specialist Certificate
7. Computer Graphics Applications A.S. Degree
9. Computer Information Systems A.A. Degree
10. Computer Science A.S. Degree
11. International Business Certificate
12. Retail Management (WAFC) Certificate

Pulled for discussion by C. Mulder due to concerns about the course goal, which included the phrase “CurricUNET is an example.” Is this appropriate? C. Vaughn agreed to strike it. Other concerns were raised about the lecture/lab statement in lab content section. Why not use language as in CMPSC 275, which has a clear explanation? C. Vaughn agreed that the information should be “boilerplate” for the courses that have the same lecture and lab content.
P. Upton noted an issue with Requisite Skills and that there were duplicate entries. CurricUNET was not accessible at this point, so B. Adams made notations of the revisions to fix post-meeting. M. Garcia asked why there was no longer a (P) of BUSAD 201. C. Vaughn explained that the program emphasizes technical skills, and that students will still take BUSAD 201, merely later in the program. Why prevent students from advancing when it is not necessary?

M/S/U (C. MULDER, J. SOLA) to MODIFY CMPSC 202 with a friendly amendment to modify the course goal, the lab content, and requisite skills.
M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for CMPSC 202
CMPSC 275  Database Management Systems/Microcomputer  
Effective: Summer 2012  
**MODIFY:** Requisites, requisite skills, textbooks, learning goals  
**Enrollment Restrictions:** Modifying: (P) Satisfactory completion of CMPSC 201 or CMPSC 203 or CMPSC 204  
**Distance Education Status:** Maintaining online, hybrid  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU  
**General Education Status:** Approved for (MJC-GE: D2)  
**Rationale:** New text book and change of prerequisites  
**Program Impact:**  
1. Computer Applications Specialist Certificate  
2. Computer Information Systems A.A. Degree  
3. Computer Science A.S. Degree  
4. General Studies, Emphasis in Language and Rationality A.A. Degree  

**Pulled for discussion by M. Garcia** due to concerns that repeatability didn’t make clear how the course would vary in subsequent completions. B. Adams explained that this issue was noted and fixed recently and that the repeat information now shows in the proposal. M. Garcia also noted that Formative and Summative assessments appeared to be duplicate information. The committee suggested a revision so that assignments, quizzes, and labs be listed as formative, while exams and projects be listed as summative. C. Vaughn was amenable to this change.

**M/S/U (P. UPTON, M. GARCIA) to MODIFY CMPSC 275 with a friendly amendment to modify the formative/summative assessments**  
**M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for CMPSC 275**  
**M/S/U (M. LYNCH, P. UPTON) to MAINTAIN ONLINE, and HYBRID MODALITIES for CMPSC 275**  
**M/S/U (L. LANIGAN, C. VAUGHN) to MAINTAIN GE PLACEMENT for CMPSC 275**

FREN 51  Introductory French 1  
Effective: Summer 2012  
**MODIFY:** GE Placement  
**Note:** Because this course is compliant and scheduled for Curriculum review in FA 2012, it is only appearing on the agenda for GE modification. The course record will not move through the CurricUNET review queue.  
**Enrollment Restrictions:** None  
**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Does not transfer  
**General Education Status:** Requesting MJC-GE: C  
**Rationale:** To align French offerings with other foreign language offerings on MJC-GE: C  
**Program Impact:**  
- Stand Alone  

**M/S/U (L. LANIGAN, C. VAUGHN) to place FREN 51 on MJC-GE:C**
FSCI 309  Fire Management 2E  2
Effective: Summer 2012
MODIFY: Units (NOTE: additional changes that take effect 2012 were approved by Committee on 10/11/11. See rationale below)
Enrollment Restrictions: Maintaining (LOE) Enrollment limited to students who provide proof of certificate of completion for Fire Management 1
Distance Education Status: None
Materials Fee Status: Maintaining fee of $110
Articulation Status: Does not transfer
General Education Status: Not approved for GE
Rationale: This course was approved at the 10/11/11 meeting. Further review by FSCI personnel revealed the need for the course to be increased to 2-1/2 units to meet standards of State Fire Marshal. The course is being placed on the 11/1/11 agenda for approval of the increase in units and affected fields.
Program Impact:
1. Fire Science Certificate of Achievement
2. Fire Science A.S. Degree

M/S/U (K. ENNIS, E. MAKI) to MODIFY FSCI 309. Motion carried with a friendly amendment to correct minor issues noted on some courses included in the blanket approval which did not warrant to be pulled for separate discussion. C. Mulder noted that methods of instruction for a series of OFADM courses included methods of instruction that are not student-centered. She will provide a list to B. Adams and L. Miller, (OFADM 201, OFADM 202, OFADM 203, OFADM 231, OFADM 301, OFADM 302, OFADM 303, OFADM 353, OFADM 356, OFADM 359, OFADM 361, OFADM 362, and OFADM 363.) P. Upton noted a stylistic problem on THETR 175, wherein multiple items were listed under one bullet in the course content. This was fixed during the meeting. C. Mulder also questioned the use of Study Aids as a formative assessment in GUIDE 120. M. Garcia stated that the author, M. Silva would not object if the formative assessment was removed. Members noted that there was an adequate supply of alternate formative assessment methods.

M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for FSCI 309
M/S/U (M. ROBLES, J. SOLA) to MAINTAIN FEE on FSCI 309.

FSCI 352  Training Instructor 1A  2
Effective: Summer 2012
MODIFY: Description, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment, UNITS
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to complete of FSCI 301 or and/or possess a California Firefighter I Certificate
Distance Education Status: None
Materials Fee Status: Maintaining fee of $110
Articulation Status: Does not transfer
General Education Status: Not approved for GE
Rationale: California State Fire Training is in the process to align all fire officer courses with National Fire Protection Associations training regulations. Training Instructor 1A now adheres to nationally recognized standards
Program Impact:
1. Fire Science Certificate
2. Fire Science A.S. Degree

M/S/U (K. ENNIS, E. MAKI) to MODIFY FSCI 352
M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for FSCI 352
M/S/U (M. ROBLES, J. SOLA) to MAINTAIN FEE on FSCI 352.

Pulled for discussion by M. Garcia due to concerns about a requisite skill of ENGL 101, even though there is no requisite listed and that the textbook is more than 10 years old. E. Kerr stated she believed the intent was for there to be an advisory. There were attempts to reach the author, but since he is on sabbatical, it is difficult to communicate and make contact.
B. Adams noted that the committee could not vote on an advisory that was not included in the agenda. She will clean up the requisite skill and attempt to consult with B. Anelli about his intent, and any changes to the enrollment restrictions will appear on a future agenda.
Regarding the textbook, B. Adams agreed to look at the textbook and search for more current editions.

Pulled for discussion by M. Garcia due to concerns about evidence of critical thinking. The phrase “heal the wound” is unclear – what does it mean? B. Adams explained that this is a typical type of resolution one might see in parliamentary debate, and commonly used in the SPCOM discipline. How to clarify? B. Adams suggested inserting “Typical debate resolution:” before the actual stated resolution for clarification. The committee agreed to this revision. B Adams also noted she had consulted with T. Guy (author of course) before the meeting and he indicated he was okay with any minor revisions that needed to be made to the Forensics course proposals.  

M/S/U (J. SOLA, M. LYNCH) to MODIFY SPCOM 105 with a friendly amendment to modify the assignment in the evidence of critical thinking section.

M/S/U (K. ENNIS, E. MAKI) to MODIFY THETR 197
NEW COURSES

FSCI 399  Independent Study/Special Problems  2 ½
Effective: Summer 2012
REACTIVATE/MODIFY: Course number (will need to inactivate FSCI 399 ABC versions in Datatel, and create new 399 version in Datatel), units, hours, description, field trips, repetitions, grading, enrollment restrictions, materials fee, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment
Enrollment Restrictions: Maintaining: (A) Before enrolling in this course, students are strongly advised to have completed their firefighter probation or have supervisor’s approval for enrollment if still on probation
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not approved for GE
Rationale: Course is being reactivated to follow recommendation of state auditor to offer as independent study rather than special topics (398).
Program Impact: Stand-Alone

Pulled for discussion by M. Adams due to concerns about this course being configured as an independent study for 2.5 units, as well as a grammatical error in the catalog description. Is that typical? Do we allow for that? Multiple representatives confirmed that their disciplines and divisions do. B. Adams explained that this change was necessary and actually suggested by a CCCCO auditor, who had pulled this course (formerly listed as 398) and explicitly said “This course should be an Independent Study, as opposed to Special Topics.” This revision is part of a two-part plan to reactivate FSCI 399, and subsequently inactivate 398. B. Adams added that she learned in consultation with Lee Parker that prior issues with fitting the course hours in to the Carnegie formula are no longer an issue. With this change, hours are being increased to 45 from 40. 40 hours is the minimum amount of hours the course may have, and the course is still within State Fire Marshal regulations with hours that exceed 40. FSCI faculty were reportedly having difficulty covering the desired amount of material in the previous configuration, so this increase in hours is beneficial to students.

M/S/U (M. ADAMS, M. GARCIA) to REACTIVATE and MODIFY FSCI 399
M/S/U (E. MAKI, C. VAUGHN) to APPROVE ENROLLMENT RESTRICTIONS for FSCI 399

Art (proposed 2012-2013)
The comprehensive MJC Art Program offers several areas of concentration: art history, ceramics, computer graphics, drawing, design, sculpture, water color painting, oil painting, museum studies, and photography. The program is designed to include pre-professional and professional courses, personal enrichment in specific art areas, and classes for students who plan an art-related career. Art courses help students develop a capacity for visual analysis and the ability to solve problems in new and creative ways.

A.A. Degree: Art

STUDENT LEARNING OUTCOMES

Upon satisfactory completion of this program, the student will be able to:
• Demonstrate preparedness to successfully continue studies in art at an upper division level.
• Reproduce, render, and interpret in a variety of media through observation.
• Plan, design, and produce original works of art.
• Make informed assessments of quality and effectiveness in works of art, including their own.
• Identify and distinguish various historical periods of art.

PROGRAM REQUIREMENTS
To earn an Associate in Arts Degree in this major, the student must complete the requirements detailed in the Career Technical Education Pathway or the University Preparation Pathway which include completion of the requirements below. Courses should be selected with the assistance of an Art faculty advisor.

• Students who plan to transfer to a four-year college or university should consult with an Art faculty advisor and a counselor to ensure that all required transfer courses are completed.

**Athletic Training/Sports Medicine Program (proposed 2012-2013)**

The Athletic Training/Sports Medicine program at MJC is designed to prepare students for appropriate procedures in prevention, care, and rehabilitation of athletic injuries. This degree is also designed to transfer students to four-year institutions where they can continue their education to fulfill the requirements of the National Athletic Trainer's Association. This will lead to the student's eventual eligibility to challenge the national examination, and upon satisfactory completion of the required Courses and passing the exam, become a Certified Athletic Trainer.

**A.S. Degree: Athletic Training /Sports Medicine**

**STUDENT LEARNING OUTCOMES**

Upon satisfactory completion of this program, the student will be able to:

- Complete the transfer pattern to successfully transfer to a four (4) year degree program.
- Apply critical thinking to utilize protocols in regard to safely designing and monitoring the various preventive and rehabilitative techniques, as well as administering emergency care.
- Demonstrate competence in Athletic Training concepts, NATA competencies, and NATA theoretical perspectives and current research
- Comply with degree related institutional GELO's.

**PROGRAM REQUIREMENTS**

To earn an Associate in Science degree in this major, the student must complete the requirements detailed in the Athletic Training/Sports Medicine Pathway, which include completion of the requirements below. Courses should be selected with the assistance of an Athletic Training faculty adviser.

**Required Courses - Complete 32 units**

**VII. UNFINISHED BUSINESS**

**Action Items**

1. **Course Substitutions for Academic Awards**
   - M. Robles / B. Adams
   - M. Robles said there is nothing to report, except that a process has been drafted.

**Informational Items**

1. **Equating Courses and Repetitions**
   - L. Miller
   - Postponed Indefinitely

2. **Independent Study and Work Experience Course Outlines**
   - B. Adams
   - No report.

3. **Placing Courses within Disciplines**
   - M. Adams / B. Adams
   - The resolution passed the First Reading, will likely pass on Thursday, Nov. 3. M. Adams shared he already has ideas for how the process might work.

**IX. NEW BUSINESS**
Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  
   L. Miller  
   No Report

Informational Items

1. Accreditation Team Visit/Meetings Regarding Curriculum  
   B. Adams/J. Zamora
   B. Adams reported that she attended three meetings on behalf of curriculum, one with the committee, one exclusively with herself and J. Zamora as co-chairs, and one regarding SB 1440 and TMCs. She shared the informal commendation announced by the Chair of the Visiting Team at the exit presentation for MJC’s prompt response to SB1440. It was also noted that the Fire Science program was also commended.

X. WORKGROUPS

1. Operations Workgroup  
   J. Zamora / B. Adams / L. Miller
   B. Adams reported that there have not been any operations workgroup meetings because of other campus activities. However, she noted that she and L. Miller have been in discussion about having a curriculum meeting focused on the impact of course changes on programs that are typically realized after courses are approved. B. Adams will be working extensively in the Program Module to bring some of these changes to light, and hopes to bring them before the committee in one of the next few meetings.

XI. TASK FORCES

1. CurricUNET Implementation Task Force Update  
   B. Adams/L. Miller

XII. PUBLIC COMMENT

- M. Robles asked about the status of Activities Requirement listings. Last spring there was discussion of the appropriateness of some of these courses for this requirement. Has this work been finalized? B. Adams commented that she believes it is with the completion of the GE Alignment project undertaken last spring.
- C. Mulder wanted the committee to be aware that, following input from the ASCCJC/WASC Site Visitor, Rebecca Kenney that our requirements should be written in a manner that is clear for students, that C. Mulder rewrote the PLOs for the AS: Athletic Training/Sports Medicine so that the language would be more clear to a student. Instead of “Complete the transfer pattern to successfully transfer to a four (4) year degree program” it now reads “complete the courses to successfully transfer to a four (4) year degree program.” It was noted that this change was made after the agenda was published.
- J. Sola announced to the committee that he has been attaching documentation from the State Fire Marshall requirements to FSCI CurricUNET proposals to provide clear evidence as to the nature of their changes and how the curriculum is configured. B. Adams commended the department for a high level of compliance and adherence to what is clearly and extensive set of guidelines, regulations and good practices in the discipline.

Meeting adjourned at 4:54 PM

**Modifications pulled by E. Maki** due to concerns that the outline for this variable unit course shows three tabular breakdowns of hours each per variable unit, but the header for each table displays 3 units, as opposed to 3, 4, or 5. B. Adams clarified that this is not an author error, but a display issue in CurricUNET. Other members noted that the agenda did not display the variable increments as well and requested that it be fixed. R. Cranley noted that there were no prerequisite skills, and that completion information was missing for repetitions. D. Gilbert noted on behalf of S. Circle that there was only one learning goal. Others noted that the texts were missing dates of publication. L. Hatch explained that this is a lab manual created each term by an MJC instructor, so dates are not relevant.

**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Transfer to CSU  
**General Education Status:** Approved for (MJC-GE: B)  
**Rationale:** Periodic Review  
**Program Impact:**  
1. Early Intervention Assistant 2 Certificate of Achievement  
2. General Studies, Emphasis in Social and Behavioral Sciences A.A. Degree

**Modifications pulled by M. Adams** due to concerns that the textbook was out of date, there was an advisory but no requisite skills. He asked for clarification “Is a requisite an advisory? Do we require authors to provide requisite skills for advisories?” B. Adams explained that two years prior that the committee decided there must be at least one requisite skill listed for advisories. M. Adams was also puzzled that the assignments appeared to be term-based as opposed to weekly. “Is this stylistically appropriate?” He added that the Methods of Instruction did not appear to be instructor-centered, for example, “presentation on resource development,” is something the student does, not the instructor. It was noted that the Distance Education box was checked, but the form was not completed. B. Adams asked the division representative if the author wanted DE or not, as the course does not currently have approval for DE modalities.

**Rationale:** Course is being modified to adhere to scheduled curriculum review matrix, Fall 2011.  
**Program Impact:**  
1. Fire Science A.S. Degree  
2. Fire Science Certificate of Achievement

**Modifications pulled by M. Adams** due to concerns about the advisory, which referenced Assessment Testing. B. Adams noted that various assignments are included in the catalog description, and that this is not stylistically consistent with other catalog descriptions. D. Gilbert asked on behalf of S.
Circle why there is reference to both a 10-page essay, and a 1,000 word essay. B. Adams noted M. Adams’ concern about the advisory should be addressed during the group’s vote on enrollment restrictions. All other modification issues were corrected in the meeting.

M/S/U (M. ADAMS, E. MAKI) to MODIFY FSCI 301.

ENROLLMENT RESTRICTIONS pulled by M. Adams due to concerns about the advisory, which referenced Assessment Testing. J. Sola explained that the goal is to have some form of assessment so that instructors are clear on the students’ level of skill, specifically in English. Members asked for clarification on the level of assessment and the advisory was modified to reflect this. Eligibility for ENGL 50 was determined to be appropriate and advisory was modified to reflect this. B. Adams also updated the requisite skills to justify this advisory.

M/S/U (M. ADAMS, J. BEEBE) to ADD ENROLLMENT RESTRICTION to FSCI 301.

FSCI 354 Fire Prevention IA

Effective: Summer 2013

MODIFY: Units, hours/ face to face modalities, content, typical assignments, textbooks, course goal, methods of assessment

Enrollment Restrictions: Removing: (P) Satisfactory completion of FSCI 301. Requesting: (A) Before enrolling in this course, students are strongly advised to have completed their firefighter probation or have supervisor’s approval for enrollment if still on probation

Distance Education Status: None

Materials Fee Status: Maintaining fee of $110

Articulation Status: Does not transfer

Rationale: Course is being modified for compliance and adherence to scheduled periodic review in curriculum review matrix, Fall 2011.

Program Impact:

1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

FSCI 354 pulled by M. Adams due to concerns about a typo in the Evidence of Appropriate Workload, "resent" as opposed to "recent." This was corrected in the meeting.

M/S/U (M. ADAMS, M. GARCIA) to MODIFY FSCI 354.

ENROLLMENT RESTRICTIONS pulled by M. ADAMS due to concerns that there are requisite skills listed with no requisite in place. B. Adams noted she had met with J. Sola on 11/3/11 and they revised. She made a notation in the CurricUNET comments for the course proposal.

M/S/U (M. ADAMS, M. GARCIA) to MODIFY ENROLLMENT RESTRICTION to FSCI 354

M/S/U (J. BEEBE, E. MAKI) to MAINTAIN FEE for FSCI 354.

FSCI 369 Training Instructor IC

Effective: Summer 2013

MODIFY: Units, description, hours/ face to face modalities, requisite skills, content, methods of instruction, typical assignments, textbooks, learning goals, methods of assessment

Enrollment Restrictions: Removing: (P) Satisfactory completion of FSCI 353. Requesting: (L) Enrollment limited to students who can provide a State Fire Training Certificate for Training Instructor 1A and a State Fire Training Certificate for Training Instructor 1B.

Distance Education Status: None

Materials Fee Status: Increasing fee from $165 to $175

Articulation Status: Does not transfer

General Education Status: Not approved for GE

Rationale: California State Fire Training is in the process of aligning all fire officer courses with National Fire Protection Associations training regulations. Training Instructor 1C now adheres to nationally recognized standards.

Program Impact:

1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

M/S/U (M. GARCIA, E. KERR) to MODIFY FSCI 369

M/S/U (P. UPTON, L. HATCH) to MODIFY ENROLLMENT RESTRICTIONS for FSCI 369.
M/S/U (J. BEEBE, E. MAKI) to INCREASE FEE for FSCI 369.

PEC 147 Gymnastics

Effective: Summer 2013

MODIFY: Discipline/Number, description, field trips, repetitions, grading, hours/face to face modalities, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment

Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Maintaining MJC Activities
Rationale: Periodic review and update to meet current curriculum standards and adhere to the curriculum matrix.

Program Impact:
1. Physical Education A.A. Degree

M/S/U (M. GARCIA, E. KERR) to MODIFY PEC 147
M/S/U (M. ROBLES, J. SOLA) to MAINTAIN ACTIVITIES PLACEMENT for PEC 147

NEW COURSES

THETR 105 Introduction to Stagecraft

Effective: Summer 2012 Expedited

Rationale for Expedited Approval: The proposal met the submission deadlines for 2012-13 implementation, but due to technical issues with the proposal type, the Instruction Office did not see that it should be placed on the last 2012-13 agenda.

Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU, Requesting UC
Guidance/Activities Status: Requesting Activities
Rationale: To bring our curriculum in alignment with the CSU and UC system for core classes for a Theater major; for the following schools in particular: CSU’s: Cal Poly Pomona, Chico, Sacramento, San Bernardino, San Francisco, San Jose, Sonoma and the UC’s: San Diego, Santa Barbara, Santa Cruz.

Program Impact:
1. Theatre A.A. Degree (Add to Electives)

M/S/U (M. GARCIA, E. KERR) to ADOPT THETR 105
M/S/U (M. ROBLES, J. SOLA) to APPROVE ACTIVITIES PLACEMENT for THETR 105
M/S/U (L. HATCH, E. KERR) to EXPEDITE IMPLEMENTATION of THETR 105

**INACTIVATE:** SRA: Shakespeare Academy 17 units
Effective Term: Summer 2012

It was asked why this Skills Recognition was being inactivated. D. Gilbert explained that the department voted to do so about one year ago because, in attempting to convert it to a certificate, they learned that there is no other award like it on ASSIST, that very few students earn the award annually, that they would be required to write PLOs (program learning outcomes). After learning this, the faculty expressed little interest in keeping the award active.

*M/S/U (P. UPTON, L. HATCH) to INACTIVATE the SKILLS RECOGNITION IN SHAKESPEARE ACADEMY.*

*M/S/U (R. CRANLEY, M. ADAMS) to EXPEDITE INACTIVATION for the 2012-13 CATALOG.*

VII. UNFINISHED BUSINESS

**Action Items**

1. **Course Substitutions for Academic Awards**
   M. Robles / B. Adams
   The form is being finalized within the workgroup Monday with hopes to bring it to the next curriculum meeting.

**Informational Items**

1. **EQUATING COURSES AND REPETITIONS**
   L. Miller
   Postponed Indefinitely

2. **INDEPENDENT STUDY AND WORK EXPERIENCE COURSE OUTLINES**
   B. Adams
   Since the curriculum committee has met the last three weeks, there has been no Curriculum Operations Meeting. B. Adams has been planning to discuss this topic with K. Walters Dunlap at the next Operations meeting.

IX. NEW BUSINESS

**Action Items**
1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   L. Miller  
   No Report

2. **Placing Courses within Disciplines**  
   M. Adams/B. Adams  
   M. Adams explained that he reported in error at the last meeting that the Academic Senate would vote last week on this resolution, since they did not meet because of Plenary Session. The Academic Senate will meet on Thursday and it is anticipated by many that this resolution will pass with no complication. E. Kerr asked for clarification on the process “Who determines which faculty teach these courses? For example, for interdisciplinary programs, can someone who has never taught the course make that decision?” It was noted that this will need to be hammered out in the process. M. Garcia was interested in how the inactivation of INTEC courses would affect the cross-listed ELTEC courses. It was explained that only the INTEC versions of the courses were to be inactivated.

**Informational Items**

   **Training scheduled November 16th, 2:30 – 4:00, FH 111**  
   B. Adams reminded the committee that the training would be offered and is recommended for those who need to get a course outline through curriculum. In the past two months, several faculty have asked for training. Full-time faculty, and IAC have received the announcement via email. B Adams asked that representatives inform part-time faculty who run smaller programs of this opportunity.

**X. WORKGROUPS**

1. **Operations Workgroup**  
   J. Zamora / B. Adams / L. Miller  
   No report.

**XI. TASK FORCES**

1. **CurricUNET Implementation Task Force Update**  
   B. Adams/L. Miller  
   B. Adams reminded the committee of SP11-CC2, where it was agreed that AA degrees would be offered in the liberal arts, while Science, Math, Engineering, Technology and CTE programs (with some exceptions) would offer AS degrees and that all other areas would be AA degrees. She asked if they realized that University Preparation programs are classified mostly as AA degrees, and that some should be offered as AS degrees. After questions were raised about the rule of 20 units for AA degrees and 30 units for AS degrees, B. Adams explained that the SP11-CC2 resolution eliminated that rule. She informed the committee as well that the CCCC inventory will restrict colleges from submitting applications for both AA and AS programs with the same title in the same TOP code. The colleges must choose one or the other, not both.

**XII. PUBLIC COMMENT**

*Meeting adjourned at 3:48*

Others Present: L. Gerasimchuk (Administrative Assistant, Instruction Office), L. Miller (Curriculum Specialist)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

November 8, 2011

Hearing no objections, the minutes of 11/08/2011 were approved.

THETR 190 AB Theatre Production Workshop

Effective: Summer 2011

Enrollment restrictions: Removing (A) Students are strongly advised to satisfactorily complete THETR 100 prior to enrolling in this course.

This course appeared on the 12/07/10 Curriculum Committee agenda for expedited modifications (SU 2011) to many course elements. The agenda did not show that the proposal had also removed the advisory of THETR 100. Datatel was updated to reflect this on 11/15/2011 for the purpose of Spring 2012 registration. No further action is required. This appears on the agenda only for the purpose of informing the committee of the expedited correction.

The committee was notified of the expedited actions on THETR 190AB.

Prior to asking for a vote, B Adams explained to the committee that the list of programs reflected a more proactive approach to catalog production for 2012-2013. This list reflects all programs that have been impacted by course inactivations during the curriculum approval cycle for 2012-2013. L. Miller noted that this list was not quite complete, as she had neglected to note approved additions to the MJC-GE pattern, Guidance, and Activities requirements.

Rationale for Expedited Approval: This program was discontinued in Fall of 2011 due to a lack of funding. For the past ten years, 100% of its funding had been provided by a community group, which stopped the funding last year. It was removed from the catalog informally while L. Miller was on maternity leave in the Spring of 2011. It is currently active in the CCCC0 Curriculum Inventory (Program ID 06679, TOP 123000).

M/S/U (J. BEEBE, C. MULDER) TO EXPEDITE INACTIVATION OF C: VOCATIONAL NURSE

VII. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards  
M. Robles / B. Adams  
M. Robles reported that the work is still ongoing, but there is nothing to report to the committee at this time. B Adams hopes to present at the December 6 2011 curriculum meeting.
Informational Items

1. Equating Courses and Repetitions  L. Miller
   Postponed Indefinitely

2. Independent Study and Work Experience Course Outlines  B. Adams
   There was no operations meeting at which to discuss this issue with K. Walters Dunlap. B. Adams noted that it is important to progress with this issue, and hopes that this will happen in spring.

IX. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller
   No Report

2. Placing Courses within Disciplines  M. Adams/B. Adams
   Last week the Academic Senate had a second reading and voted in support of the resolution. M. Adams and B. Adams will need to meet to determine how the process will work, for example, might a field in CurricUNET be developed to house all appropriate disciplines? It is currently unknown who will assign disciplines to courses. The committee arrived at consensus that B. Adams and M. Adams be charged with fleshing out the process.

3. Proposed Changes to the Format of Curriculum Committee Agendas  B. Adams/L. Miller
   B. Adams presented to the committee a revised format for the curriculum agenda. In light of an increased volume of activity at the programmatic level, it is becoming evident that the current “course-centered” agenda format is not adequate for presenting information in a clean consistent way. The revised format will allow for a parallel structure for courses and programs, wherein there will be NOTIFICATION, CONSENT, and DISCUSSION sections for both courses and programs. The committee supported the revision to the format, which will be used at the next meeting.

Informational Items

X. WORKGROUPS

1. Operations Workgroup  J. Zamora/B. Adams/L. Miller

XI. TASK FORCES

1. CurricUNET Implementation Task Force Update  B. Adams/L. Miller
   B. Adams is sending in system issues to the CurricUNET staff. She reported hosting a CurricUNET training with only two individuals attending who were not faculty. This was unexpected, since many had reported needing training in recent weeks. A member noted that this may be due to the fact that the annual deadline for Summer 2012 effective dates has passed. B. Adams questioned if it might be better to call it a “CurricUNET Drop-In Session” as opposed to “training”, to faculty who have had training, but need a “refresher” could be inclined to attend.
XII. PUBLIC COMMENT

M. Garcia asked for clarification as to why only two AA degrees were proposed on the agenda for conversion to AS degree, noting that we have others that seem to fit the criteria for conversion. B. Adams stated that the two degrees on the agenda were the result of two faculty responding to the email L. Miller sent out the e-mail regarding the A.A. vs. A.S. conversion. B. Adams informed the committee that other faculty are evaluating A.A. degrees that should be converted to A.S. degrees, and that the committee can anticipate seeing those come forward in the Spring; for example, Nancy Backlund informed B. Adams that OFADM will be working on their A.A. degrees in the spring.

MEETING ADJOURNED 3:17
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of November 22, 2011 were approved.

III. NOTIFICATION

IV. CONSENT

It was asked during the meeting why some inactivations appeared under the Consent agenda, and some under discussion. B. Adams explained that the intent of the separation was to make it clear that the inactivation of some courses fell under the special circumstance of the program discontinuances. The expedited inactivations appearing under Consent were courses affiliated with programs that were discontinued by Board Action in Spring of 2011, and consequently inactivated by the committee. B. Adams hopes that this distinction will make it clear in future years, when researching agendas, why so many inactivations came through after established deadlines. M. Lynch asked how difficult it would be to reactivate the courses in the future. B. Adams explained that, in the event that programs are reinstated, measures will be taken to quickly and easily reactivate courses, with the exception of course outlines that are non-compliant, which will require review by the curriculum committee prior to reactivation. R. Cranley informed the committee that articulation will need to be re-established for inactivated courses as well. E. Maki, later in the meeting, asked why these proposals did not appear in CurricUNET with requests for expedited approval. B. Adams explained that CurricUNET currently does not allow users to expedite course inactivation proposals, even though the college does need to have this feature in the system.

M/S/U (K. ENNIS, M. LYNCH) to MODIFY THETR 181/PEC 129
M/S/U (K. ENNIS, M. GARCIA) to APPROVE ENROLLMENT RESTRICTIONS for THETR 181/PEC 129
M/S/U (R. CRANLEY, M. ROBLES) to PLACE THETR 181/PEC 129 on ACTIVITIES
M/S/U (M. LYNCH, M. BOYD) to EXPEDITE IMPLEMENTATION of THETR 181/PEC 129

M. Garcia asked if the reason THETR 174 was being expedited was due to the inactivation of the other stage makeup courses currently offered for one unit each. B. Adams said she wasn’t aware of any plans to do so. M. Lynch mentioned he thought that may be the intent. L. Miller reported working with A. Shanto on these courses, and explained that the intent of the adoption was to create a stage makeup course that would be eligible for C-ID and consequently, TMC. M. Garcia commented that inactivation of the other stage makeup courses would be the logical “next steps” to be taken.

IX. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards  
   M. Robles / B. Adams
   M. Robles presented a draft of a college form to be used by all divisions for Course Substitutions. The draft is a first attempt at outlining a more thorough, thoughtful process for course substitutions between students, divisions and the Evaluations office. Lively discussion ensued. The form included prompts such as requiring more than one division to endorse an inter-division course substitution, allowing no more than “30% of a program” to be substituted, requiring the signature of a faculty member, dean, and curriculum representative. Many questions arose about various elements on the form, including but not limited to the appropriateness of a second division endorsing a course, the role of the curriculum representative in a course substitution, and the definition of 30% of a program. Various reasons were provided as to why a second division would need to endorse a substitution. One example was provided by B. Adams, who saw examples of SPCOM 103 being used in substitution for SPCOM 100 or 102 for a nursing degree. The non-SPCOM faculty member had endorsed this substitution, but she, as a Speech instructor, believed it to be inappropriate. M. Garcia noted that the SPCOM course was not required in the major but for the degree, so why is this a problem. B. Adams countered, saying “all the more reason such a substitution should not be allowed since it is a GE course.” Some remarked that substitutions are a way to help move students toward academic goals when obstacles are encountered, like courses that are not being offered. It was noted that careless substitutions can undermine the quality of degrees, and can have implications for transfer students. Discussion revolved around the language stating to the effect that no more than 30% of a program should be substituted. E. Maki asked for clarification as to what is meant by 30% of a program. The intent, according to M. Robles, is to have no more than 30% of the units in the major be substituted. A question arose about the role of the curriculum representative in signing the form. Some members thought it might be excessive. B. Adams explained the discussion at the subcommittee meeting determined that this is a way for curriculum representatives to be more aware of substitutions and the reasons for them, for example, inactive courses or courses no longer being offered. Perhaps curriculum action is needed on the course requiring substitution, such as the degree is requiring a deeper review and appropriate revisions. Some members expressed concern about language and format. L. Miller offered to assist M. Robles with the design, suggesting that many problems noted by the committee may be design problems, easily fixable with “word-smithing” and design changes.

M. Robles agreed to reflect on the committee’s concerns, incorporate suggested changes, and work with L. Miller to prepare a second draft for consideration.

2. Independent Study and Work Experience Course Outlines  
   B. Adams
   No meeting has taken place with K. Walters Dunlap, so it is likely that this issue will not be addressed until Spring 2011. B. Adams has researched this topic at other schools using CurricUSEARCH, and notes that other schools seem to lack model templates as well.

X. NEW BUSINESS
Action Items

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   L. Miller  
   No Report

2. **Placing Courses within Disciplines**  
   M. Adams/B. Adams  
   M. Adams contacted B. Sanders and asked about adding features to the system. B. Sanders explained that additional features are unlikely at this time, so M. Adams and B. Adams are exploring alternatives. M. Adams pointed the committee’s attention to the state Academic Senate “Mustard Copy” (The Course Outline of Record; A Curriculum Reference Guide) showing that, while it is not a required element on the course outline, appropriate disciplines can be conveniently recorded on the course outline. He reported that he is glad to know the MJC is doing the right thing.

**THETR 129**

**Effective:** Summer 2012

**Expedited:**

**Effective:** Summer 2012

**Modify:** Course ID

**Rationale:**

On 12/06/2011, this course was first adopted as THETR 181/PEC 129. However, N. Marcelino discovered during the implementation process that the course ID “THETR 181” already existed (Advanced Scenic Techniques), but was inactivated in 1989. For this reason, implementation under THETR 181 could not take place, so Instruction Office will use THETR 129 as an alternative. This notification item is for documentation/historical purposes.

The committee was notified of the change to COURSE ID for THETR 129/PEC 129

V. DISCUSSION

INACTIVATIONS

None
UPDATES (including modifications/reactivations)

ART 125  Color and 3-D Foundation Design  3
Effective: Spring 2012 (Request overridden by Office of Instruction) Fall 2012 Expedited
Rationale for Expedited Approval: Department is developing a TMC AA in Art. We wish to have all courses approved by curriculum as we move forward with an accelerated plan.
Note: Because scheduling deadlines have passed for SP 2012 and processes are in motion, it is not feasible to implement expedited changes to this course without complications for staff and students, so the Instruction Office is denying the request for expedition
MODIFY: Title, description, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of ART 124
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for MJC Activities
Rationale: Updating course for course compliance.
Program Impact:
1. Art A.A. Degree
2. Graphic Design Certificate of Achievement
3. Graphic Design A.S. Degree
M/S/U (J. SOLA, J. BEEBE) to MODIFY ART 125.
M/S/U (E. MAKI, C. MULDER) to MAINTAIN ENROLLMENT RESTRICTIONS for ART 125.
M/S/U (J. BEEBE, S. CIRCLE) to MAINTAIN ACTIVITIES PLACEMENT for ART 125.
Request to EXPEDITE ART 125 pulled by M. Adams due to concerns about the Instruction Office overriding the request. B. Adams explained that the override was because we are in the Spring term already, and that the earliest date of implementation would be Fall 2012. She added that the rationale for the proposal was to ensure that courses are modified to align with the Transfer Model Curriculum (TMC) for Art. She shared that R. Stevenson is on the statewide committee to develop the Art TMC.
M/S/U (M. GARCIA, K. ENNIS) to EXPEDITE MODIFICATIONS to ART 125

ART 189AB  Photo Laboratory Technology  1, 2
Effective: Fall 2012 Expedited
Rationale for Expedited Approval: Expedited approval is being requested to comply with changes to Title 5 and TBA hours.
MODIFY: Number, units, description, repetitions, grading, hours/face to face modalities, content, methods of instruction, typical assignments, course goal, learning goals, methods of assessment
Enrollment Restrictions: Maintaining: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ART 170 with a minimum grade of C or better
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU
General Education Status: Approved for MJC Activities
Rationale: Updating for course compliance.
Program Impact:
1. Stand Alone
M/S/U (J. SOLA, J. BEEBE) to MODIFY ART 189AB.
M/S/U (E. MAKI, C. MULDER) to MAINTAIN ENROLLMENT RESTRICTIONS for ART 189AB.
M/S/U (J. BEEBE, S. CIRCLE) to MAINTAIN ACTIVITIES PLACEMENT for ART 189AB.
Request to EXPEDITE ART 189AB pulled by K. Ennis due to concerns as to whether a course that does not meet customary deadlines should be considered for expedited approval.
B. Adams clarified that expedited approval of the proposal was to ensure that the course stays compliant with educational code.
M/S/Completed (K. ENNIS, E. MAKI) to EXPEDITE MODIFICATIONS to ART 189AB.

HUMSR 101
Introduction to Human Services
Effective: Summer 2012 (Request overridden by Office of Instruction) Fall 2012 Expedited
Rationale for Expedited Approval: This introductory course is required for all students, and critical to their progression and success within the Human Service's programs.
Note: Because scheduling deadlines have passed for SU 2012 and processes are in motion, it is not feasible to implement expedited changes to this course without complications for staff and students, so the Instruction Office is denying the request for expedition.

MODIFY: Description, enrollment restrictions, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment

Enrollment Restrictions: Requesting: (A) before enrolling in this course, students are strongly advised to successfully complete ENGL 50 with a C or better

Distance Education Status: Maintaining Online, Mixed Modalities/Hybrid course

Materials Fee Status: None

Articulation Status: Transfer to CSU

General Education Status: Approved for (MJC-GE: B); Requesting for (CSU-GE: D7)

Program Impact:
1. Chemical Dependency Counseling Certificate of Achievement
2. General Studies, Emphasis in Social and Behavioral Sciences A.A. Degree
3. Human Services Certificate of Achievement
4. Human Services A.A. Degree
5. Human Services/ Chemical Dependency Counseling A.A. Degree Major

M/S/U (J. SOLA, J. BEEBE) to MODIFY HUMSR 101
M/S/U (E. MAKI, C. MULDER) to APPROVE ENROLLMENT RESTRICTIONS for HUMSR 101
M/S/U (K. ENNIS, C. MULDER) to MAINTAIN DE MODALITIES for HUMSR 101
M/S/U (K. ENNIS, M. ADAMS) to MAINTAIN MJC-GE PLACEMENT and to REQUEST CSU-GE PLACEMENT for HUMSR 101

Request to EXPEDITE HUMSR 101 pulled for discussion by C. MULDER due to questions about whether or not it meets requirements for imminent need. B. Adams stated that she does not believe it does given that the course is currently active, and the changes would not affect student progression in the program, as indicated in the CurricUNET proposal. M. Garcia reminded the committee that this course had been sent back by the committee the previous year, so a good amount of time had passed before revisions were made and it came back to the committee.

2. Nursing: LVN to ADN Upgrade A.S. Degree

M/S/U (J. SOLA, J. BEEBE) to MODIFY NURSE 266

M. Garcia asked during discussion of the vote on requisites why the prerequisites were being replaced by a Limitation on Enrollment. L. Lanigan explained that the restrictions were preventing students from registering, and that the additional LOE of “admission into the nursing program” would prevent students outside the program from enrolling. M. Garcia countered that the course is offered in
Curriculum Committee Minutes: January 17, 2012

the third term of the program and asked, How will students be prevented from registering in the first term without the prerequisites?” L. Langian assured him that the students would be advised not to enroll in this course.

SOCSC 105 MODIFICATIONS pulled for discussion by S. Circle who expressed concern that the course content did not seem to connect to the learning goals. Content appears to be more complex than the learning goals. C. Hudelson Putnam, acting as a substitute representative for the division, explained that this may have been a time frame issue for the faculty author, who was using CurricUNET and trying to meet a submission deadline, and that the disconnect could be the result of an oversight. She asked if there was any reason why the course could not be revised and resubmitted. B. Adams asked if postponing review of the course at the committee level would adversely affect requests for placement on IGETC. R. Cranley explained that December is the deadline for IGETC requests, therefore “no.”

Chancellor's Office Updates

B. Adams informed the committee that this information was appearing to keep the committee apprised of the status of programs locally approved and pending at the CCCCO. She explained that new approval procedures are demonstrating how local approval timelines do not always correspond to state approval timelines, and that this degree cannot take effect as hoped in Summer 2012. She added that the division is currently working to respond to the requested changes from the CCCCO per an email from M. Anglin on 01/17/2012.

CCC-510 Update: Agriculture Science/Agriculture Education

In September, L. Miller received feedback (below) on the CCC-510 Application for “AS: Agricultural Science/Agricultural Education.” Myriad changes were requested in variety of areas.

At this time, the department has not yet taken action to revise the application or respond to the requested changes. For this reason, the application, originally slated for approval and implementation in the 2012-2013 catalog, cannot take effect at this time, and the degree as published in the 2011-2012 catalog will remain.

   No Report

2. **Revisions to CurricUNET Course Proposal Fields and Word Report**  
   B. Adams  
   B. Adams reported that she met with K. Walters Dunlap, A. Peek, and B. Sanders as an informal workgroup to discuss one item on the preliminary accreditation site visit report, which “dinged” Modesto Junior College for the fact that there was no evidence of alignment between student learning outcomes and course outline objectives. The purpose of the meeting was to address how MJC might respond. Many challenges and ideas were discussed. She presented to the committee an action plan and CurricUNET mockup prepared by B. Sanders as the result of the meeting.

   As she presented B. Sanders’ document, B. Adams reported that she reminded the workgroup that the curriculum committee had resolved to not put SLOs on the course outline of record in 2008. The workgroup ultimately decided that, while the information must stay separate per vote of the Curriculum Committee and Academic Senate, it was essential that SLOs be stored in a central repository, and that CurricUNET was the most logical location. The next step was to figure out how to put SLOs into the course module of CurricUNET without having them appear on outlines or be tied to the curriculum review process. One challenge of linking the two is that curriculum is reviewed once every five years, while SLOs can and should be evaluated more frequently. How would they be kept separate?

   The group identified a course of action, bearing in mind past delays in getting improvements to the system. The first phase of the project would entail working with CurricUNET to make some changes to the existing course proposal structure in the system. The existing field for OVERALL COURSE GOAL would be repurposed to house SLOs, since the Overall Course Goal field had caused confusion for some. Language on the course outline and course development interface would be changed to align with the ASCCC Model Course Outline of Record and use “Objectives” instead of Learning Goals, and “Methods of Evaluation” instead of Methods of Assessment. This language change to the course outline was agreed to in 2008 by the Curriculum Committee, but was pending implementation within the CurricUNET system. L. Miller asked for clarification if language changes would also occur at the formative assessment and summative assessment levels. B. Adams indicated the mockup created by B. Sanders addressed this by using Evaluation as the consistent term. This new field of SLOs would populate an SLO report, separate from the Outline report, which would not require any curriculum processes or approvals. It would, for all intents and purposes, be considered separate from the course outline.
The second phase of the project would entail creating an interface wherein faculty would link student learning objectives to identified Student Learning Outcomes through a table or matrix. B. Adams suggested that this evaluative step could be required of faculty when the discipline is reviewed under the curriculum review matrix, and the others at the meeting believed this was reasonable.

L. Miller added that one aspect of this issue is how to get this information before the students. She reported as a member of the Accreditation and Institutional Effectiveness committee that this issue was discussed at great length in the AIE meeting on Friday, January 13. She mentioned that CurricUNET was being considered as an option for this, but that she informed AIE that we may be able to append SLOs to the PiratesNet course description, however, it could be burdensome to update SLOs in Datatel every time they are updated each term or academic year. She asked if it would be appropriate to update SLOs on the course description in Datatel once every five years with the curriculum review cycle. Discussion ensued. One member suggested that it could work if it was clear that the SLOs were effective at a specific time, i.e., Effective 2011-2012, the student who satisfactorily completes Course ID will be able to:

B. Adams told the committee that their role in the process was to review B. Sanders’ proposal, to provide any feedback, and then continue to review and discuss it at the next meeting. J. Zamora noted, however that few people have actually seen the preliminary site visit report. Is taking action on information unseen by the institution wise? Might it be better to postpone creating a formal action plan until the final report is accessible to all? Many members nodded in agreement.

The group agreed informally to review B. Sanders’ proposal bearing in mind that the final report has yet to be delivered. Discussion will continue under Old Business at the January 31, 2012 meeting.

SUBJECT: NONCREDIT REGULATIONS

Below, please find the link to Noncredit Regulations regarding noncredit curriculum and instruction from Chapter 6, division 6 of title 5, sections 55150 through 55155. These regulations were adopted by the Board of Governors in September 2011, were recently approved by the Department of Finance, and filed today with the Secretary of State.

These revised regulations clarify certain noncredit sections and repeal others, yet at the same time, the approval process remains the same.

- All noncredit courses and programs including High School noncredit courses must still be approved by the Chancellor’s Office.
- The delegated authority to the colleges remains the same.
- Noncredit funding is not affected.
- Noncredit funding is still based on positive attendance.
- Noncredit enhanced funding for programs that result in certificates of completion or certificates of competency remain the same.

To access the Noncredit Regulations, please click the following link: http://www.cccco.edu/ChancellorsOffice/Divisions/Legal/RegulationNotices/tabid/411/Default.aspx

Please contact Joanne Vorhies at 916.322.9048 or by email at jvorhies@cccco.edu, should you need further information.

1. CurricUNET Implementation Task Force Update
   B. Adams/L. Miller
   B. Adams noted that much of this discussion was covered in the discussion of Action item 2.

Meeting adjourned at 4:00 PM
Curriculum Committee Minutes

Tuesday, January 31, 2012
Yosemite 213 2:40 PM

Others Present: L. Miller (Curriculum Specialist), J. Hughes (Evaluations)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

(M/S/U (M. GARCIA, C. MULDER) to APPROVE the MINUTES of 01/17/2012)

III. NOTIFICATION

PEC 133 Ballet 1
THETR 189 Effective: Summer 2012 Expedited

Rationale for Expedited Approval: A data discrepancy has been discovered. A misalignment between the parent course record and the child course record caused one course title to be erroneously changed from Ballet 1 to Beginning Ballet. Let the record show that the course title should be Ballet 1 and therefore align with Ballet 2, recently approved. In CurricUNET, the PEC 133 is the correct version of the course, and should provide the data that is required for the 2012-2013 Catalog.

MODIFY; Title
Program Impact:
1. Theatre, AA Degree
2. Physical Education, AA Degree

The committee was notified of the EXPEDITED MODIFICATIONS to PEC 133/THETR 189

IV. CONSENT

CGR 221 Image Capture and Manipulation

Effective: Summer 2012 Expedited

INACTIVATE

Program Impact:
1. Graphic Design A.S. Degree
2. Graphic Design Certificate of Achievement
3. Photography A.A. Degree Major
4. Prepress Certificate of Achievement
5. Printing and Lithography Certificate of Achievement
During discussion of the CONSENT AGENDA, B. Adams informed the committee that, due to catalog production, she and Instruction Office are discovering issues that should have been resolved during the academic year that— for whatever reason (often technological) did not occur. This late inactivation is an example of such an issue. The committee was told that there are likely to be more on future agendas.

Hearing no objections, the EXPEDITED INACTIVATION of CGR 221 was approved.

V. DISCUSSION

INACTIVATIONS

(None)

UPDATES (including modifications/reactivations)

ELTEC 205  Electronics Fabrication and Assembly Techniques  3
Effective: Fall 2012 Expedited.
Rationale for Expedited Approval: Lab hours were doubled in the last update of ELTEC 205. The structure should be a 3 unit class that is 2 hours of lecture and 3 hours of lab.
MODIFY: Hours/face to face modalities
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: Maintaining $30
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: To ensure student progression within program
Program Impact:
1. Industrial Electronics Certificate of Achievement
2. Industrial Electronics A.S. Degree

M/S/U (S. CIRCLE, P. UPTON) to MODIFY ELTEC 205
M/S/U (J. BEEBE, L. LANIGAN) to MAINTAIN FEE for ELTEC 205
M/S/U (S. CIRCLE, J. BEEBE) to EXPEDITE IMPLEMENTATION of ELTEC 205

FSCI 332  Fire Science Tactics & Strategy  3
Effective: Summer 2013
MODIFY: Content, methods of instruction, assignments, textbooks, assessments, requisite skills
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of FSCI 301
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not approved for GE
Rationale: Course is being modified to adhere to scheduled curriculum review matrix, Fall 2011/Spring 2012.
Program Impact:
1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

M/S/U (S. CIRCLE, P. UPTON) to MODIFY FSCI 332
M/S/U (C. MULDER, E. MAKI) to MAINTAIN ENROLLMENT RESTRICTIONS FOR FSCI 332

FSCI 337  Wildland Fire Control  3
Effective: Summer 2013
MODIFY: Content, enrollment restrictions, content, methods of instruction, textbooks, course goal, learning goals
Enrollment Restrictions: Removing (P) Satisfactory completion of FSCI 301 with a minimum grade of C or better; Requesting: (LOE) enrollment limited to students who can provide State Fire Training
Certificate for Firefighter 1
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not approved for GE
Rationale: Course is being modified to adhere to scheduled curriculum review matrix, Fall 2011/Spring 2012.

Program Impact:
1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

**M/S/U (S. CIRCLE, P. UPTON) to MODIFY FSCI 337** During blanket approval of course modifications, S. Circle expressed concern about one of the course goals for FSCI 337. She commented that it did not appear to follow the format and style of the other goals. Lively discussion ensued. It was clarified that course goals are a continuation of the phrase, “Upon successful completion of this course, student will be able to...” It was determined that there was no issue.

**M/S/U (C. MULDER, E. MAKI) to MODIFY ENROLLMENT RESTRICTIONS FOR FSCI 337**

FSCI 356 Fire Management 1 2.5
Effective: Summer 2013

**MODIFY** Units, hours/face to face modalities, enrollment restrictions, content

**Enrollment Restrictions:** Removing (P) Satisfactory completion of FSCI 301 with a minimum grade of C or better; Adding (A) Before enrolling in this course, students are strongly advised to satisfactorily complete FSCI 356.

**Distance Education Status:** None
**Materials Fee Status:** Maintain fee of $110
**Articulation Status:** Does not transfer
**General Education Status:** Not approved for GE
**Rationale:** Course is being modified to adhere to scheduled curriculum review matrix, Fall 2011.

Program Impact:
1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

**Pulled by M. Adams due to concerns that requisite skills were still in place for the course even though the enrollment restrictions were being removed, and due to concerns about a referenced guide under Texts and Other Readings.** J. Sola provided background and explained that the requisite skills were not required by the State Fire Marshal; however, faculty wanted to keep them in place. He had removed the prerequisite and neglected to remove the requisite skills. Questions arose as to why he as an administrator was revising course outlines. He explained that there are no full-time faculty in FSCI. It was suggested that, in lieu of a prerequisite, that an advisory be added. He agreed to this solution. The other concern was about the appearance of a reading listed with textbooks. The title as written might confuse students “State Fire Marshal, Fire Management 1…” It was noted the State Fire Marshal was a “corporate author,” not necessarily one author and the formatting may need revisions to help clarify this to students.

**M/S/U (M. ADAMS, M. GARCIA) to MODIFY FSCI 356**

**M/S/U (C. MULDER, E. MAKI) to REMOVE ENROLLMENT RESTRICTIONS FOR FSCI 356**

**M/S/U (J. BEEBE, L. LANIGAN) to MAINTAIN FEE for FSCI 356**

FSCI 367 Fire Investigation 1B 2.5
Effective: Summer 2013

**MODIFY** Units, hours/face to face modalities, content, enrollment restrictions, typical assignments, course goal

**Enrollment Restrictions:** Removing (P) Satisfactory completion of FSCI 357 with a minimum grade of C or better; Requesting: (LOE) enrollment limited to students who can provide State Fire Training Certificate for Fire Investigation 1A

**Distance Education Status:** None
**Materials Fee Status:** Maintain fee of $110
**Articulation Status:** Does not transfer
General Education Status: Not approved for GE
Rationale: Course is being modified to adhere to scheduled curriculum review matrix, Fall 2011.

Program Impact:
1. Fire Science A.S. Degree
2. Fire Science Certificate of Achievement

Pulled by M. Adams due to concerns that the LOE for FSCI 367 seems read as though the student needs to show completion of FSCI 367. J. Sola noted this was an error and that it should read “1A” instead of “1B”. The other issue was that the Evidence of Appropriate Workload seemed to display assignments, not the amount of time. The committee agreed that this could be improved with minor adjustments to the text which were addressed during the meeting.

M/S/U (M. ADAMS, E. KERR) to MODIFY FSCI 367
M/S/U (C. MULDER, E. MAKI) to MODIFY ENROLLMENT RESTRICTIONS FOR FSCI 367
M/S/U (J. BEEBE, L. LANIGAN) to MAINTAIN FEE for FSCI 367

MUST 134 Aural Skills 4 1
Effective: Spring 2013 Fall 2012 Expedited!
Rationale for Expedited Approval: The course is being modified to comply with Title 5 changes to TBA hours.

MODIFY Description, grading, hours/face to face modalities, requisite skills, content, methods of instruction, typical assignments, textbooks, course goal, learning goals, methods of assessment

Enrollment Restrictions: Maintaining: (P) Satisfactory completion of MUST 133. (A) Before enrolling in this course, students are strongly advised to satisfactorily complete or be concurrently enrolled in MUST 124.

Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Not approved for GE
Rationale: Periodic Review
Program Impact:
1. Music A.A. Degree

M/S/U (S. CIRCLE, P. UPTON) to MODIFY MUST 134
M/S/U (C. MULDER, E. MAKI) to MAINTAIN ENROLLMENT RESTRICTIONS FOR MUST 134

During blanket approval of EXPEDITED proposals, it was asked why the course was being expedited for SP 2013 as opposed to other terms like SUMMER 2012 and FALL 2012. B. Adams reported that the division dean and author indicated it would not be offered again until SP 2013, and that it is too late to implement for SP 2012 or SU 2012. It was asked “why not FALL 2012?” J. Zamora noted that would be effective, in terms of the catalog, and reminded the committee that the curriculum cycle revolves around the academic terms defined in the catalog.

M/S/U (S. CIRCLE, J. BEEBE) to EXPEDITE IMPLEMENTATION with a friendly amendment to change the effective term from SP2013 to FA2012 for MUST 134

NURSE 265 Nursing Process: Medical-Surgical 6
Effective: Summer 2013
MODIFY Hours/face to face modalities, enrollment restrictions, content, methods of instruction, textbooks, course goal, learning goals, methods of assessment

Enrollment Restrictions: Removing: (P) satisfactory completion of NURSE 260, NURSE 261, NURSE 262, NURSE 263, and NURSE 264, or (C) concurrent enrollment in NURSK 800. Maintaining: (LOE) Enrollment limited to students who have been accepted into the Associate Degree Nursing Program.

Distance Education Status: Maintaining Teleclass

Program Changes that do not require Chancellor's Office Notification/Application

MODIFY:

AS: Child Development 30 units
Effective Term: Summer 2012 Expedited
Modify: Program Structure
Rationale: Current structure as reflected in the catalog does not reflect the true intent of the program, and is misleading students and counselors. Revisions came through as "soft revisions" to L. Miller, who noted that they need approval of the curriculum committee to be reflected in the catalog.

M/S/U (L. HATCH/ J. SOLA) to APPROVE MODIFICATION of AS: CHILD DEVELOPMENT
M/S/U (L. HATCH/ J. SOLA) to EXPEDITE APPROVAL of AS: CHILD DEVELOPMENT

MODIFY:

AS: Fire Science 30 units
Effective Term: Summer 2012 Expedited
Modify: Add FTECH 301XABC to list of electives
Rationale: the committee intended to add this course as an elective course into program at the 4/21/11 meeting, however the agenda/minutes erroneously listed FTECH 310XABC, which had already been added to the electives.

Effective: Summer 2011 (Retroactive)
This degree was approved by the MJC Curriculum Committee for modification/reactivation at the 11/23/2010 curriculum meeting. The degree was already active in the CCC Inventory, but has not been offered in a number of years because it was inactivated locally and possibly...
informally.

The proposed modification would change the “total units” in the major, therefore requiring a CCC-511 application to change the number of units on file at the CCCCO. The CCC-511 application requires identification of Program Learning Outcomes (PLOs) as well as evidence of course articulation, of which the latter was not on file in the MJC Instruction Office. At the time of submitting the CCC-511, when prompted to provide this information, the faculty author, Ines Bucknam, stated she did not want to proceed with forwarding the application to the CCCCO, and suggested that reactivation be pursued at a later date. L. Miller informed her that inactivation of the degree would be required at this time to keep alignment between local curriculum and state curriculum records.

M/S/C (P. UPTON/ M. ADAMS) to RETROACTIVELY INACTIVATE AA: FRENCH

IX. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards  M. Robles / B. Adams
   M. Robles reported that this project is on hold until the completion of catalog production so that L. Miller can assist with designing improvements to the form.

2. Placing Courses within Disciplines  M. Adams/B. Adams
   M. Adams reported that the question of “how are people placed with disciplines” is a question that is being posed at institutions statewide. Those schools that have this process in place are reporting to the effect that this is done “the way we plan to do it.” B. Adams and M. Adams are to meet today and next week to further discuss options. The issue that really needs attention right now is WHERE in CurricUNET would this be captured within the course development structure- on the cover page? M. Adams believes this could be a logical place for this information. For example, cross-listings are captured in this location. L. Hatch reminded the group “when you hire adjunct, they must be qualified to teach any course in the discipline.” L. J. Zamora offered an example from Computer Science, explaining that – within that program/dept. – all courses would be assigned the discipline of Computer Science. Since the Computer Science department is also responsible for Computer Information Systems, it would be appropriate to also assign the discipline of Computer Information Systems to some Computer Science courses, such as General Computer Literacy and Introduction to Information Systems.

3. Revisions to CurricUNET Course Proposal Fields and Word Report  B. Adams
   B. Adams brought up the proposal prepared by B. Sanders, and noted that the college is still waiting to hear what the accreditation Site Visit Report notes about alignment of SLOs to course goals (objectives.) Because she had yet to meet with her division, S. Circle expressed immediate concern about her perception that the SLOs would appear on the course outline of record. B. Adams showed S. Circle the Phase 2 overview, S. Circle expressed additional concern about information she is getting about SLOs, and how SLOs might be driving content. She noted that this appeared to support that, and that she is concerned. She gave the specific example of peer-editing assignments, and how, reportedly – since they could not be assessed, it was advised that that sort of peer-editing objective be removed from the course, which was unfortunate. “They learn so much from that sort of assignment.” There was lively discussion. Many members provided feedback, explaining that this may be a misunderstanding, that it may be that it is not understood that the SLO of editing is more global, and can include various editing assignments – and that the peer-editing project is granular. It is not the format in which the student is editing, but the editing itself that needs to be assessed. It was stated that SLOs need to be as sparse as possible, and it appeared to S. Circle that this was in direct conflict with that directive. She claimed that current trends seem to be focusing on assessment rather than a global goal of improving teaching and learning. It was offered that the emphasis and challenge is not so much about assessment, but documenting the whole process, which is what this proposal aims to do.

X. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization   L. Miller
   No Report

2. AP and IB Charts, Pathways – Catalog Pages   R. Cranley/L. Miller
   R. Cranley presented updated AB and IB Charts for the 2012-2013 catalog, explaining that the updates were non-technical, but structural and editorial. She explained that the goal is to make the documents more student-friendly, and to make it very clear to all involved the scope of the policy and how the process works. L. Miller then explained that the University Preparation Pathway, Career/Technical Education Pathway, and CSU Transfer Model Curriculum requirements were updated. Were there any issues that needed to be addressed or corrected on the proofs before the committee? Some typos were noted. J. Hughes asked the committee what was meant by “only one degree may be offered in any one program,” a phrase which appears on both the CSU TMC pathway, and the UP pathway. This means, for evaluators, that a student can earn a degree (for example) in University Preparation, Emphasis in Communication, an AA in Speech Communication, as well as the recently approved AA-T in Communication. Is the group OK with that? One member remarked that M. Morales (AG) would be able to defend the need for multiple degrees in a program because of how the curriculum is designed. Others did not think it appropriate. One member asked “what is the meaning of the degree, and does that undermine it?” There was no resolution. It was suggested that the issue be placed on a future agenda for further inquiry and evaluation. B Adams reminded the committee of past practice, wherein these pathways were endorsed by the committee prior to inclusion in the next catalog and requested a vote be taken on this action item.

M/S/U (M. ADAMS, E. KERR) to approve the 2012-2013 UNIVERSITY PREPARATION PATHWAY, CAREER TECHNICAL EDUCATION PATHWAY, and CSU TRANSFER MODEL CURRICULUM with corrections.

XI. WORKGROUPS

1. Operations Workgroup   J. Zamora / B. Adams / L. Miller
   Catalog Production Update
   L. Miller explained that proofs were available on the http://curriculum.comm.mjc.edu and asked the committee to be diligent in their review of all data in the drafts.

XII. TASK FORCES

1. CurricUNET Implementation Task Force Update   B. Adams/L. Miller
   B. Adams indicated this was addressed in Unfinished Business Action Item #3, Revisions to CurricUNET.

UPDATES (including modifications/reactivations)  
ADJU 203  Concepts of Criminal Law  
Effective: Summer 2012  Expedited  
Rational for Expedited Approval: Course revision had been approved at the 10/11/2011 meeting in which the agenda reflected “removal of Distance Education.” After reviewing the meeting minutes, G. Hausmann alerted B. Adams that there may be an error. He reported that the course should show DE approval. Upon investigation, it was found that – even though the DE module appeared to be inactive, information had been entered into the module by the course author. A query into the system showed that before the course was submitted, the Distance Education field in the cover page had been changed from YES to NO and this made it appear as though no Distance Education modality was proposed.

M/S/U (P. UPTON/C. MULDER) to MODIFY ART 172
M/S/U (M. GARCIA, J. BEEBE ) to MAINTAIN FEE for ART 172
Request to expedite ART 172 withdrawn by rep E. MAKI
Comments included in CurricUNET noted that the author did not provide rationale for the expedited approval that indicated it met criteria for imminent need. Committee members agreed that courses that are late submissions should not be granted expedited approval if imminent need is not demonstrated.

CCC-501: Application for Approval - New Credit Programs
(No application)

CCC-510: Substantial Changes to an Approved Credit Program

ADOPT:
C: Chemical Dependency Counseling 36 units
Effective Term: Upon CCCCO application approval
M/S/U (L. HATCH/L. LANIGAN) to APPROVE ADOPTION of C: CHEMICAL DEPENDENCY COUNSELING

CCC-511: Non-Substantial Changes to Approved Program or Change of Active–Inactive Status

MODIFY:
AA: Spanish 20 units
Effective Term: Summer 2012 Expedited.
Modify: Required preparation courses: Removal of “or” statements

Rationale: “Or” statements are incorrect. They are no longer necessary.

M. Garcia questioned the unit values, stating the course unit values would total 10, not 8, based on the courses being 5 units each. This would also impact the total number of units to 22. The change in unit value would require a CCC-511, so this item and discussion is shown here for documentation purposes. M. Garcia made a friendly amendment to approve the revisions to the degree with the revisions to unit values. The approval of the program with the friendly amendment will change effective date to the CCCCO application approval date.

Questions arose if it modified degree could go into next year’s catalog. B. Adams informed the committee the revised program may still be included in the 2012-2013 catalog, with the statement “Pending CCCCO Approval” attached to it.

IX. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards
   M. Robles / B. Adams
   B. Adams reported that this project is on hold until the completion of catalog production so that L. Miller can assist with designing improvements to the form.

2. Placing Courses within Disciplines
   M. Adams/B. Adams
   B. Adams reported that she and M. Adams met after the 1/31/12 meeting and on 2/7/12 to draft a mockup of the placement of courses within disciplines field and the procedure for proposal and approval of assignments of discipline(s) within course outlines. The document was included in the full agenda for committee members to review.
   The committee members agreed the cover page was a logical place for the field, and also agreed that having the link to the ASCCC disciplines list next to the field would be the best spot for it. If the link is not able to be placed there, then it was proposed to put the link on the left-hand side of the page with other existing links. B. Adams also informed the committee of a question from a faculty member regarding proposals outside of CurricUNET. For example, his department recently completed curriculum review based on the review cycle, and didn’t want to wait until the next cycle to propose disciplines. He asked if there was a way to propose once the process is approved by committee and the Senate, and before, or even after, the disciplines field is functioning in CurricUNET. For example, his department recently completed curriculum review based on the review cycle, and didn’t want to wait until the next cycle to propose disciplines. He asked if there was a way to propose once the process is approved by committee and the Senate, and before, or even after, the disciplines field is functioning in CurricUNET. Discussion continued about the scenario of a course that has been recently revised and the only field that would be updated would be the disciplines field. It doesn’t seem feasible to ask department faculty to complete an entire revision proposal. She then noted the example of a course that is recently revised and there isn’t even the capability of making a working copy to make a revision to the course. The committee agreed the first four steps of the process seemed reasonable, but wished for the “fast track” proposal process to be delineated separately. B. Adams will revise the draft and the revised mockup and process will be placed on the next agenda.

3. Revisions to CurricUNET Course Proposal Fields and Word Report
   B. Adams
   B. Adams brought up the proposal prepared by B. Sanders for further discussion. J. Zamora noted there was discussion of warehousing of outcomes in the final accreditation Site Visit Report and it was tied to one of the recommendations. S. Circle still voiced some concerns regarding the placement of the outcomes in the course checklist. It was once again noted the outcomes would not be placed on the course outline report, but that outcomes would be entered for data recording purposes. The other intent of placement of course learning outcomes in the checklist is to enable faculty to be able to review objectives and outcomes in one centralized database so alignment of objectives and outcomes may be discerned. K. Ennis noted the need to demonstrate faculty’s ability to differentiate between objectives and outcomes, and this would enable the college to have concrete evidence of this. She noted there has been discussion of this recommendation in the Assessment Workgroup also. S. Circle asked for
clarification on another part of the mockup, the learning goals (being renamed to objectives) and the methods of assessment (being renamed to methods of evaluation). It was noted these are two changes to the language, and the student learning outcomes would be entered in the overall course goal field (which would be removed). J. Zamora noted he has not had enough time to review the accreditation document and the revisions to CurricUNET course proposal fields to determine if the proposal is the best way to solve the problem identified by accreditation. Questions arose on the use of Program Review module, which houses outcome assessments. It was noted that the assessments are entered in PRNet, not the actual learning outcomes. J. Zamora requested that members talk with their constituents for feedback on the proposal. The discussion may continue at next meeting.

Informational Items

1. Equating Courses and Repetitions L. Miller
   Postponed Indefinitely

2. Independent Study and Work Experience Course Outlines B. Adams
   B. Adams noted she met with K. Walters Dunlap and asked for some guidance on the independent study course outlines, noting the committee was concerned about the DIV-199 outlines and how SLO’s would come into play. K. Walters Dunlap offered to send out some questions via the CIO listserv to find out what other colleges are doing. B. Adams noted the Curriculum Chair listserv could be another avenue for information. She asked committee members to bring back possible questions to next meeting so they could be discussed and sent out via listserv(s).

X. NEW BUSINESS

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization L. Miller
   No Report

XI. WORKGROUPS

1. Operations Workgroup J. Zamora / B. Adams / L. Miller
   Catalog Production Update
   B. Adams informed the committee the deadline date to submit revisions to proof has passed, and at this point L. Miller is completing final phases of catalog production.

XII. TASK FORCES

1. CurricUNET Implementation Task Force Update B. Adams/L. Miller
   B. Adams indicated this was addressed in Unfinished Business Action Item #3, Revisions to CurricUNET.

FDP 300 Certified Professional Food Manager Training

Effective: Summer 2013

INACTIVATE

Program Impact:
1. Food Processing A.S. Degree
2. Food Processing Certificate of Achievement

M/S/U (E. KERR, P. UPTON) to INACTIVATE FDP 300.

During the discussion of blanket approvals, M. Garcia questioned the rational for inactivation of FDP courses. B. Adams explained that the division also plans to inactivate the programs, and that the committee should see those next meeting. M. Garcia was puzzled by the inactivation and reported that students are still interested in the program. B. Adams
noted that the division claimed there is no need or interest in the program. M. Garcia added that this program provides employees of the canneries, etc., opportunities to improve their skills and to advance their careers. Review of the rationale of one of the course inactivation proposals noted that the FDP courses may be more appropriately offered under Community Education and Workforce Development.

Action Items

1. **Course Substitutions for Academic Awards**  
   M. Robles / B. Adams  
   Now that catalog production is completed, M. Robles will work with L. Miller to redesign the proposed Course Substitution form being discussed by the committee.

2. **Placing Courses within Disciplines**  
   M. Adams/B. Adams  
   M. Adams opened discussion on this item by asking the committee about the process now in development. He asked, “What about disciplines who want to fast-track getting approvals of disciplines for courses without going through an entire course curriculum revision?” One solution presented at the meeting was to create a template that users could grab from the site. This would not require revision of an entire course through the curriculum process. B. Adams had prepared a mock-up of such a template, and mentioned that she could work with L. Miller to fine-tune its appearance. She mentioned that it would be ideal to have the ability to immediately associate a discipline with a course included in CurricUNET, but that is not necessarily going to be an option at this point because of staffing and technology limitations. M. Adams also asked the committee to consider what the review process for associating disciplines with courses might look like, and where it should take place. He opined that the curriculum committee seems like an ideal forum for such review and discussion. It was clarified that when courses come through curriculum, that this process will be added to the list of elements already reviewed by the committee.

Lively discussion ensued. Columbia College’s course outlines were brought up for review, and some members wondered how they had implemented their process so quickly. Many members were still unclear on how this process related to hiring of adjunct faculty, minimum qualifications, and FSAs (faculty service areas). J. Zamora reminded the committee that this is a separate issue from those other topics. Some members noted that in the past it seemed that because an instructor is hired within a department, that the instructor is considered qualified to teach all courses offered by that department. J. Zamora explained that this would clean up that perception, because appropriate disciplines would be clearly linked to the course itself, as opposed to the entire department. It was asked that—if the faculty author is the one to identify disciplines associated with the course—what is in place to ensure that all possible appropriate disciplines are identified? What about those courses that could introduce conflict? J. Zamora re-emphasized that this issue is about associating disciplines with courses, and that things like hiring, FSAs, and minimum qualifications are separate issues. L. Miller suggested that she work with J. Zamora to create a graphic illustrating the relationship of these elements to make the distinction between these areas more clear because many members admitted to struggling with the distinction. It was mentioned and re-emphasized that deans need to be made aware of this process to ensure that appropriate personnel are selected for adjunct assignments.

3. **Revisions to CurricUNET Course Proposal Fields and Word Report**  
   B. Adams/J. Zamora  
   J. Zamora began discussion on the topic by distributing and reviewing a document he prepared highlighting all of the site visit report’s language as to how MJC “has not fully addressed the recommendation”. The committee was reminded that the proposed plan will allow for Course Learning Outcomes or CLOs (formerly known as SLOs) to be housed in CurricUNET but not reported on the course outline, nor reviewed/approved by the curriculum committee. This plan would help the college respond to the concerns of WASC. The dialog moved swiftly into discussion of related topics including but not limited to; the inclusion of CLOs on the syllabus, the accessibility of CLOs for students, questions about where they are housed, and the appropriateness of the CLOs being placed in the curriculum module of CurricUNET as opposed to the Program Review module. B. Adams reminded the committee that the ASCCC’s Model Course Outline of Record reference guide notes that the course outline is not required to include CLOs, but that it provides a convenient place to locate them. She reminded the committee of a meeting she attended with K. Walters Dunlap, B. Sanders, and A. Peek, where discussion took place on the inclusion of CLOs on the outline. Her response was that the committee could not be expected to keep up with the review of CLOs on every outline, and with every revision. This would make the process much more cumbersome. It was agreed that it would be reasonable to have the committee review them when courses came through in the scheduled review matrix, to verify objectives align with outcomes. As noted during the discussion, the alignment of objectives and outcomes is included in Standard IIA.

*M/S/U (J. BEEBE, M. GARCIA) to MODIFY ADJU 212* During blanket approval, M. Adams noted that there was a typo in the Student Learning Goals for this course. “…in to a state” should read “in a state.” This was corrected during the meeting.

*M/S/U (L. HATCH, S. CIRCLE) to APPROVE ENROLLMENT RESTRICTIONS for ADJU 212* M. Adams noted during blanket approval that there appears to be an issue with goals matching requisite skills. B. Adams was aware of this and reported to the committee that this is a CurricUNET issue. She has entered an issue in the Governet ticket system to request resolution of the problem.

M/S/U (E. KERR, R. CRANLEY) to PLACE ADJU 217 on (MJC-GE:B,E) and to REQUEST PLACEMENT on (CSU-GE:D7, E) with M. Garcia noting during discussion of the approval that R. Cranley (in the approval stream) had found other Substance Abuse courses (Sac City College) had been placed in similar CSU-GE areas. He noted that in his own searches, the course - while previously approved - had since had GE approval removed. R. Cranley explained that she had used a different search method. Various ASSIST searches were conducted at the meeting, and it was determined that even though SCC did not have the GE designation any longer, other colleges with similar course titles had GE designations.

CMPGR 262  Exploring the World Wide Web  1
Effective: Spring 2010 (Request overridden by Office of Instruction because timeline is impossible)
Spring 2013 Expedited!
Rationale for Expedited Approval: Due to clarified guidelines regarding TBA lab hours from the California Community Colleges Chancellor’s Office, it is clear that our facilities are insufficient to accommodate our current enrollment. As suggested in these guidelines, we are adding online and hybrid modality options to all of our classes that utilize TBA lab hours. These standards must be applied by the Spring 2010 semester.

PULLED FOR DISCUSSION BY E. MAKI due to concerns about references to laboratory activities when this course is identified as a lecture-only course. Revisions to language were suggested, but many members expressed concern about editing the language when it was not clear if there truly are lab activities in the course. It was decided not to edit the proposal on behalf of the faculty when the revisions could have adverse affects on the course design.

**PULLED FOR DISCUSSION BY M. GARCIA** due to concerns that the methods of instruction appeared to be student-centered as opposed to instructor-driven. It was decided that there was an ample number of instructional methods, so it would be safe to delete the student-centered methods, which also were reflected in the Typical Assignments section.  
**M/S/U (J. SOLA, M. ADAMS) to MODIFY PLSC 260 with a friendly amendment to modify the Methods of Instruction so that they are strictly instructor-driven.**  

**NEW COURSES**

AUTEC  200  Automotive Service Management  3  
**Effective:** Summer 2013 pending CCCCO approval.  
**ADOPT**  
**Enrollment Restrictions:** None  
**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU  
**General Education Status:** Not approved for GE  
**Rationale:** It was recognized and supported by the automotive advisory committee as a needed course to prepare students for the role of service manager. The course will also help prepare students for the Automotive Service Excellence (ASE) certification test C-1 exam  
**Program Impact:**  
**Stand Alone**  
**PULLED FOR DISCUSSION BY M. ADAMS** due to concerns that the course is requesting transfer to CSU, but had not identified comparable courses. J. Beebe explained that the course units would be used to apply toward CSU Stanislaus Applied Leadership Studies program, and other courses of analogous content were visible on ASSIST for this program. R. Cranley noted that she, too, had observed that about the search results; however, none of the courses reflected management. She did find a management course, but it was upper division. E. Maki noted that J. Beebe’s explanation could have helped had it been provided in the rationale.  
**M/S/U (J. BEEBE, P. UPTON) to ADOPT AUTEC 200**
AUTEC 211  Introduction to Alternative Fuels and Advanced Technology Vehicles  3
Effective: Fall 2012 Spring 2013 pending CCCCO approval. Expedited!
NOTE: The Instruction office has overridden the request for FALL 2012 implementation because scheduling deadlines have passed for FALL 2012, and this new course will require both YCCD Board of Trustees approval as well as CCCCO CCC-530 approval prior to any scheduling taking place.
Rationale for Expedited Approval: Course has been developed to comply with current CTE Collaborative Grant Workplan activities. Course is also a critical component of the alternative fuels footprint for the Automotive Program.

IX. UNFINISHED BUSINESS

Quorum was lost during unfinished business, so no vote could be taken on action items.

Action Items

1. Course Substitutions for Academic Awards
   M. Robles / B. Adams
   M. Robles was not present to report, but B. Adams spoke on her behalf to inform that L. Miller and M. Robles have not yet met to design a form.

2. Placing Courses within Disciplines
   M. Adams/B. Adams
   B. Adams opened discussion of this item by reporting that she had spoken with CurricUNET (Travis) on the proposed design of the interface for placing courses. Travis informed B. Adams that using a drop down list was a much better use of the available technology than to merely create a text box into which faculty could write disciplines. Multiple disciplines would be able to be selected. This was better news than anticipated, since this was the original goal of the design, and the concern was that CurricUNET would not be able to deliver it.

   B. Adams was also pleased to share the new electronic "Placing Courses within Disciplines" form for use by those divisions who want to “fast-track” placement of compliant courses in disciplines. This form would be used for those courses that are compliant and which may have recently gone through the curriculum process. The form previously proposed would have been a Word form, but L. Miller consulted with J. Sigman (web developer) who suggested using Google forms instead. This technology allows for the development of an electronic form, for which a spreadsheet database is automatically created in the background. The form can then be embedded into any website. The committee liked the concept, however, it was noted that a disadvantage is that only one course could be submitted at a time. L. Miller said it could be designed that way; however, that was not a clear specification when she created the form from the original draft of the template. It was also unclear whether the disciplines list should include only those disciplines offered at the college, or whether it should include all possible disciplines. M. Adams clarified that the list should be inclusive of all disciplines on the Minimum Qualifications for Faculty and Administrators in the California Community Colleges because MJC may want to offer those disciplines in the future. Questions arose about who could submit a form and if the form could be used for non-compliant courses. It had been determined at a previous meeting that non-compliant courses would not be eligible for the fast-track process. L. Miller noted she should emphasize the relationship to the ASCCC list on the form, and that she should also emphasize the fact that this process may be used for compliant courses only.

3. Revisions to CurricUNET Course Proposal Fields and Word Report
   B. Adams
   B. Adams presented an updated version of the Adding CLOs to the CurricUNET Database proposal. She pointed out that the use of SLOs as an acronym did not seem appropriate since discussion often includes CLOs, PLOs, and GELOs. M. Adams added that SLO is the umbrella term for all “levels” of SLOs, while CLO refers specifically to course-level learning outcomes. B. Adams pointed out that the revised mockup showed how CLOs are listed separately from the rest of the course, further illustrating the distinction between the course and the learning outcomes. When seeing the proposed report design S. Circle asked for clarification as to whether this was part of the course outline. B. Adams stated it is a separate report. At the end of the discussion, B. Adams noted that it is not quite clear if a course could be prevented from being launched if the CLO element was incomplete, and the committee would need to determine if it was appropriate. Directions could then be given to Governet to allow the submit button to appear without the CLO field being completed, or to have the submit button appear when all fields are completed, including CLOs.

Effective: Fall 2012 Expedited. Expedited administrative update to fee Granted by VPI

Rationale for Expedited Approval: Materials fees for liability insurance are illegal, according to division staff in ALHE. This course was missed. It should be noted that this course is not compliant, and that updates to the fees will require a change to the active course record. L. Miller will attach the existing fee report to the active course record, and update the fee information in CurricUNET so that no fee appears on the active course. The fee removal will be effective Fall 2012. L. Miller has advised the division to bring this course into review-cycle compliance ASAP to avoid inactivation and to ensure it can continue to be offered.

MODIFY: Materials fee (on active CurricUNET course)

Materials Fee Status: Removing fee of $12.00

The committee was notified of the expedited changes to RSCR 230

UC Transfer Articulation: History Subject Area Review Results

Subject: History Subject Area Review Results - Modesto Junior College

Dear Community College Articulation Officer:
Below you will find a detailed breakdown of the courses identified by the UCOP transfer articulation staff as a part of the 2011 UC history subject area review. The designated courses for your college are divided into the following sections:

- courses submitted by you and approved upon review
- courses submitted by you and not approved (these should be resubmitted during the 2012-2013 TCA cycle)
- courses identified by the reviewer but not submitted (these need to be submitted during the 2012-2013 TCA cycle)
- courses submitted by you that are not part of this review (thus approved without review)

In reviewing your courses, we have strived to give valuable and detailed feedback about courses that do not meet the established requirements. Should you or your faculty have questions about the results, Dawn and I would be happy to set up a conference call with you to go over the results and give further feedback.

### Submitted and retained

- **HIST 101** History of the United States to 1877
- **HIST 102** History of the United States Post Civil War
- **HIST 104** Western Civilization to 1650
- **HIST 105** Western Civilization since 1650
- **HIST 106** World Civilization to the 16th Century
- **HIST 107** World Civilization from the 16th Century
- **HIST 145** History of Latin America

### Submitted and phased out

None

### Not submitted and phased out

None

### Submitted and automatically retained (not part of review)

- **HIST 119** Social and Cultural History of 20th Century America

Courses that currently have phase out notices are due to be phased out after summer 2013; this will us time to work with you to make the course(s) transferable. If you wish to re-submit these course(s) for review during the 2012-2013 TCA cycle, please submit outline(s) in OSCAR in the 2012 calendar year.

If your outlines have gone through curriculum committee review and you’d like us to take a look at them ahead of the 2012-2013 TCA cycle, send them to me for an unofficial review (meaning, the course will not be marked as retained until it goes through the official TCA review, but we can look at it to see if there are any problems that should be addressed).

As a reminder, you can find the criteria for the history subject review in the 2011 UC TCA letter, found here: [http://info.assist.org/tca_guidelines.html](http://info.assist.org/tca_guidelines.html)

Best regards,

Jennifer Forsberg

VI. PROGRAM NOTIFICATION AGENDA

**Program Learning Outcomes**

C: Mechanized Agriculture Technician

*Adept:*

**Effective:** Summer 2012, **Expedited**, pending a directive to produce a 2012-2013 Catalog Addendum

**Students who earn a Certificate of Achievement in Mechanized Agriculture Technician will be able to:**

1. Describe the various employment opportunities available within the mechanized agriculture field and demonstrate the minimum educational requirements for entrance into each.
2. Locate, read, and interpret appropriate plans, manuals and equipment documentation in order to fabricate and/or repair equipment effectively.
3. Select proper tools and equipment for various applications, staying within the desired financial restraints.
4. Maintain tools and equipment and demonstrate the value of preventative maintenance and proper equipment usage.
5. Demonstrate and relate the use of skills developed across various general education disciplines (ex. English, math, physics etc.) to help solve problems within the mechanized agriculture field.

*The committee was notified of PLOs adopted for C: MECHANIZED AGRICULTURE TECHNICIAN*

AA: University Preparation: Emphasis in Humanities
Adopt
Effective: Summer 2012, Expedited pending a directive to produce a 2012-2013 Catalog Addendum

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who earn an AA in University Preparation, Emphasis in Humanities in will be able to:

1. Describe how cultural beliefs, values and practices have influenced societies in various times.
2. Analyze the ways that individuals and various cultural groups act in response to their societies and environment.
3. Demonstrate awareness of the various ways that culture, ethics, history, belief, and ethnicity affect individual experience and society as a whole.
4. Demonstrate the ability to interpret and analyze works of art for meaning and to forge aesthetic judgments.
5. Demonstrate critical thinking in the analysis of cultural production using both thematic and historical synthesis.

The committee was notified of PLOs adopted for AA: UNIVERSITY PREPARATION, HUMANITIES During transcription of the minutes, L. Miller noted that the wrong degree had been identified in the agenda as “AA: General Studies: Emphasis in Humanities.” The meeting minutes show the correct degree.

**Action Items**

1. **Course Substitutions for Academic Awards**
   
   **M. Robles / B. Adams**
   
   M. Robles opened discussion stating that L. Miller has not yet worked on the form, but that she could provide previously recommended updates on the existing form for the committee to preview. The goal of this new form is to make sure that it goes to all appropriate divisions, specifically in the instance of a cross-listed course. Members reviewed the form and provided extensive feedback. One member asked if a field might be provided wherein a justification could be provided for any course substitution denials. J. Fay asked if records were kept on denials. "No," stated J. Hughes. "That should be a goal," stated J. Fay. J. Zamora countered by saying that records of substitutions may be misleading, as each substitution may have different influencing factors, for example, a student must graduate, or a course is not being offered in a semester. C. Hudelson Putnam noted that inconsistencies in how a department handles this can be problematic for students. One member noted a bullet stating that courses used for substitution must be compliant. K. Ennis expressed clear concern, "Why should we punish our students for our own delinquencies?" Other members agreed. M. Adams countered that it is analogous to accredited schools. We do not accept transcripts from non-accredited schools. Some members thought that was not an accurate analogy. M. Robles noted that the process will allow for divisions to uphold their own substitution processes. What are the criteria? It appears to be inconsistent across the board already. Attention was called to the signature required of the Curriculum Representative. "What is that necessary for?" asked some members. It was noted as an example that SPCOM 106 is frequently substituted for SPCOM 100/102. B. Adams noted that the form will allow interested parties to see any patterns of substitution so that curriculum changes to program requirements may possibly be considered. L. Lanigan indicated the nursing division is very concerned about another party being able to deny a substitution. She referenced email dialog from the division addressing this concern, and that the program should retain the right to substitute coursework, as they are familiar with their requirements of the BRN. B. Adams noted that her research into the issue showed that the BRN requirements call for 6 semester units of communication skills, including oral communication as one type of communication skill, and if nursing students really need oral communication skills, SPCOM 100 or 102 would fulfill that need, while SPCOM 103 would not seem to be an appropriate substitute since it does not emphasize oral communication skills. SPCOM 106, an often-substituted course, does not emphasize oral communication through public speaking. However, if SPCOM 106 fulfills another type of communication skill that the BRN allows, then perhaps it should be considered to be added into the program requisites. Patterns of substitution like this can cause concern for the discipline faculty, for example, "Are students detouring public speaking for graduation by taking other courses? Is this appropriate?" The intent is not to deny course substitution requests. The conversation turned to varying interpretations of "equivalency" and "substitution." R. Cranley asked the intent of a "bullet" on the form stating that "any substitution must be the equivalent." She questioned the appropriateness of that requirement, explaining to the committee that it is a moot point, because if a course is identified as an equivalent through the transcript evaluation process, it is automatically satisfies any equivalent listing. Substitution is different from equivalency – this requirement makes them one and the same. Members then noted that the form lacked clarity about
the substitution process. “Who is this form for? Students? Faculty?” One additional bullet deemed “courses used for G.E. requirements [at other institutions] cannot be substituted.” Various members took issue with this. R. Cranley commented “it does not make sense that a course that has been used on another campus, and has satisfied their Title 5 requirements for GE, cannot be used as a substitution to satisfy our similar area Title 5 requirements. Is that what this is saying?” J. Hughes was asked about current process pertaining to enforcing this. “We are inconsistent at this time.” M. Robles reminded them that this was only a draft. L. Hatch attempted to summarize the real issue behind the technical problems with the document saying “It ultimately seems like the question we are facing is ‘how do we support student success while maintaining academic rigor?’” L. Miller will work on the form prior to the next meeting.

2. Placing Courses within Disciplines M. Adams/B. Adams

   J. Zamora opened discussion by presenting a graphic drafted from collaboration between L. Miller and himself. The graphic serves to better illustrate instruction and human resources terms such as “department”, “program”, “discipline” and “minimum qualifications” to help the committee and others understand the way that any “placing courses in disciplines process” will affect things like the hiring process, course outlines, and certificated applicants. The committee received the document well, and was encouraged to share it with colleagues to get feedback for any improvements. J. Zamora reminded them that this is a working draft, not final. B. Adams pointed the committee’s attention to the Placing Courses within Disciplines “fast track” form that was presented at the last meeting. L. Miller explained the electronic form’s technology “Google Forms” and how it has some limitations, but is a drastic improvement over using a Word form. Limitations include that faculty cannot submit more than one course at a time. It was noted that some disciplines may be missing. L. Miller noted she had not been able to proofread the list of disciplines and that it needs to be reviewed. L. Miller asked if the use of this form should have a sunset clause so that it is not used indefinitely in lieu of CurricUNET. The committee agreed and determined that it be used for one year. Members recommended that this be shared at IAC. When asked about “next steps” for use of the form, M. Adams reminded the committee that no Academic Senate approval is necessary, as they delegated authority to the Curriculum Committee to determine the process and set it in motion.

   M/S/U (M. Adams, K. Ennis) to approve the proposed process for “placing courses within disciplines” as drafted for CurricUNET and its “fast track” alternative, the form on the Curriculum Website, which will be available for one year, with the friendly amendment that it be proofread.

3. Revisions to CurricUNET Course Proposal Fields and Word Report B. Adams

2. Curriculum Committee Meeting Schedule for 2012-2013 L. Miller
   L. Miller had prepared a draft of the meeting calendar for 2012-2013 that closely resembles the current calendar. The committee briefly reviewed and B. Adams asked members to review so a vote could be taken at the next meeting.

3. Curriculum Committee Co-Chair Election J. Zamora
B. Adams presented on behalf of J. Zamora who had to depart the meeting early. She reported that the co-chair election will need to take place at either this meeting or the next meeting, and that any interested candidates are encouraged to put forth their names. Lively banter ensued as curriculum representatives expressed playful disdain at the idea of B. Adams departing from the role. Many expressed gratitude to B. Adams for her work as co-chair, and also, concern that she may depart. B. Adams clarified that her decision to remain is largely related to the amount of reassign time for the role and the lack of certainty that it will continue. Many representatives then began to express the essential nature of the reassign time, and how much work is required of the co-chair. Based on sentiment from committee members that Academic Senate would understand the importance of maintaining the status quo, B. Adams agreed she would gladly serve another two-year term as Co-Chair. **M/S/U (C. Mulder, E. Maki) to elect B. Adams as Curriculum Co-Chair.**

   Guidelines for Title 5 Regulations Section 55003: Policies for Prerequisites, Corequisites and Advisories on Recommended Preparation

   Guidelines addressing the title 5 Regulations regarding policies for prerequisites, corequisites and advisories on recommended preparation adopted by the Board of Governors in March 2011, are now available for your reference. The guidelines focus on the changes made to section 55003. However, for the convenience of the user, the guidelines incorporate information regarding prerequisites, corequisites, and advisories on recommended preparation from other references, as well as a Q&A that addresses the regulations in a topical fashion.

   The guidelines are available on the Chancellor’s Office website from either the Student Services and Special Programs Division or Academic Affairs Division home pages under “What’s New.”

   Questions regarding the guidelines can be directed to Mark Wade Lieu at mlieu@cccco.edu or 916.327.2987.

M. Robles opened discussion on this item by informing the committee that MJC is compliant with Title 5 Regulations, Section 55003. Members agreed, noting the “levels of scrutiny” prompts embedded in CurricUNET for prerequisites, corequisites, and advisories. K. Ennis brought to the committee’s attention ongoing frustration within certain academic departments about challenges in establishing a prerequisite of ENGL 101 for various academic disciplines to ensure that students can succeed in the written component of the course. Departments often desire this prerequisite, but have been discouraged from doing so for various reasons, including but not limited to the idea of impacting the sequence, as well as the data gathering process. She questioned how reliable the data is for revealing whether students might succeed, given the multitude of factors that can influence student success in a sequence. Some members responded that, over time, patterns can be seen within the dataset. She confessed her colleagues’ as well as her own frustration with the deteriorating competency level of her students over time, and how other instructors have shared they have had to adjust expectations and remove major writing assignments to ensure students pass their courses. She also referenced Delta College, noting that an ENGL 101 prerequisite is established for many disciplines. With respect to local institutional culture, J. Fay remarked that it is not likely that our student population is very different from that of Delta’s in terms of their potential for success. One member asked “what do other schools do statewide,” It was asked why we cannot use other college’s established prerequisites to justify our own. K. Ennis mentioned that the recent change to regulations on repetitions – limiting students to three completions - is all the more reason why we should evaluate this issue. It was asked if K. Ennis was interested in joining a subcommittee were one to be convened, and she agreed. There was no movement towards creating a subcommittee during the discussion. M. Robles mentioned she could discuss this issue in more depth with K. Ennis. It was decided it did not need to appear on the next agenda.

| Minutes of 11/01/2011 did not reflect that FSCI 372 had been changed in tandem with other FSCI courses to address complications with the hours. FSCI 309 had come through curriculum as 2 units at the 10/11/2011 meeting, and after further discussion with J. Sola and L. Parker, it was determined the 40 hour courses should be 2½ units rather than 2 units because 2 units equated to 36 hours, and they were worried some instructors might be concerned about teaching the course and meeting the requirements for the State Fire Marshal Certificate because it was 4 hours short of the 40 (even though this range is permissible). There is no restriction on going over the 40 hours, so this was determined to be the best route. We then placed FSCI 309 back on the 11/01/11 agenda, and the other corresponding 40 hour FSCI courses, such as FSCI 372, were changed to 2.5 units. It is believed the course comparison and agenda were created before the course came back through with the 2½ units, and we didn't catch on the agenda. So, to summarize, yes, FSCI 372 should be 2.5 units and agenda (of 11/01/01) was incorrect.

CSU/IGETC DECISIONS RECEIVED April 3, 2012

ONLINE SERVICES FOR CURRICULUM AND ARTICULATION REVIEW
How To Read a Decisions Report
March, 2012

The following pages list the courses your institution submitted last fall through OSCAR and ASSIST, for approval in California’s patterns of general education in the CSU and UC systems.

In about a month, ASSIST will post information about each approved course, including its prefix, number, title, approved area, and dates of approval. In the meantime, you can rely on the following pages as you prepare catalog copy and communicate with those on your campus who manage curriculum and transfer.

Each page of the Decisions Report will tell you:

At the top, which pattern the decision relates to:
- IGETC (CSU and UC general education)
- GE-Breadth (CSU only)
- American Institutions (CSU only)

Which area in the pattern your institution proposed for the course.

Which area is approved for the course. In most cases this is the same as the area proposed – but not in the example to the left, which was proposed in 4J but approved in 4H.

For courses that are denied, or approved in a different area, the Notes section will give you a reason. Sometimes an approved course will also have Notes, such as a request to update the textbooks in use. In these cases the request for revision isn’t binding, and you can publicize the approval. Notes aren’t published on ASSIST.

Reviewers are careful to keep the GE-Breadth pattern at least as permissive as IGETC, to protect students who switch. So when a course is proposed for an area in IGETC but not for the corresponding GE-Breadth, reviewers will approve in the same area for both sides.

More documents about the review procedure, including detailed guidelines published by the system offices for reviewers of GE courses, are available at http://www.calstate.edu/app/general-ed-transfer.shtml.

MACH 357  Machine Trades Print Reading  2
Effective: Fall 2012 (Request overridden by Office of Instruction because timeline is impossible) Spring 2013. Pending CCCC approval; Expedited! To ensure student progression within program

Rationale for Expedited Approval: With the elimination of the Engineering, Engineering Technology, and Industrial Technology programs, students in the Machine Tool Technology program have lost all opportunity to enroll in any relevant blue print or drafting courses. The need to apply the information found on a technical drawing to produce the part to the required specifications is essential to student success in the Machine Tool Technology area.

ADOPT

Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to have a basic working knowledge of personal computers and have the ability to add, subtract, multiply, and divide numbers and have a working knowledge of the English language as applied to manufacturing processes.

Distance Education Status: Requesting mixed modalities/Hybrid course
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not approved for MJC Activities

Rationale: There is a deep need for knowledge of interpretation of prints by students in the Machine Tool Technology and related programs. A class of this nature is required for both AS degree as well as certificates. There are currently no engineering drafting or technical drawing classes available and Modesto Jr. College to address this need.

VI. PROGRAM NOTIFICATION AGENDA

Program Learning Outcomes

**AA: Administration of Justice**

*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate of Arts Degree in Administration of Justice will be able to:

1. The student will be able to discuss the roots of the American legal system and how it applies to today’s criminal justice profession, including ethical dilemmas confronting today’s society.
2. The student will be able to create narrative reports, develop note taking skills, create visual simulations and develop interview techniques.
3. The student will describe the value of diversity and its inclusion rather than exclusion into the criminal justice system.
4. The student will be able to select a topic and be able to solve a social / criminal justice issue.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

**AS: Administration of Justice**

*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate of Science Degree in Administration of Justice will be able to:

1. The student will be able to discuss the roots of the American legal system and how it applies to today’s criminal justice profession, including ethical dilemmas confronting today’s society.
2. The student will be able to create narrative reports, develop note taking skills, create visual simulations and develop interview techniques.
3. The student will describe the value of diversity and its inclusion rather than exclusion into the criminal justice system.
4. The student will be able to select a topic and be able to solve a social / criminal justice issue.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

**SR: Supervisory Management in Public Safety**

*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

1. The student will be able to discuss management, supervision and human resources as it relates to today’s criminal justice profession.
2. The student will be able to analyze ethical dilemmas confronting law enforcement.
3. The student will describe the value of diversity and its inclusion rather than exclusion into the criminal justice system.
4. The student will be able to select a topic and be able to solve a social / criminal justice issue.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

**C: Accounting Clerk**

*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

1. Prepare basic financial statements
2. Demonstrate the ability to perform general office procedures
3. Utilize technology to perform general office and bookkeeping procedures
AA: **Human Services**  
**Effective:** Summer 2012. **Expedited**  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in Human Services will be able to:*

1. Demonstrate an understanding of the Human Services, delivery systems, and application of the code of ethics as it relates to the Human Service profession.
2. Exhibit effective, communication, body language, and written abilities.
3. Demonstrate an understanding of theoretical orientations, social problems, and the relation to clinical or group practice with individuals, families, groups, communities, and organizations.
4. Comprehend the wide range of Human Service employment options, historical perspectives, and the populations served.
5. Conduct an elementary assessment, interview, intervention, referral, individual counseling, and group session.

*Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.*

C: **Human Services**  
**Effective:** Summer 2012. **Expedited**  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*Students who earn a Certificate of Achievement in Human Services will be able to:*

1. Demonstrate an understanding of the Human Services, delivery systems, and application of the code of ethics as it relates to the Human Service profession.
2. Exhibit effective, communication, body language, and written abilities.
3. Demonstrate an understanding of theoretical orientations, social problems, and the relation to clinical or group practice with individuals, families, groups, communities, and organizations.
4. Comprehend the wide range of Human Service employment options, historical perspectives, and the populations served.
5. Conduct an elementary assessment, interview, intervention, referral, individual counseling, and group session.

*Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.*

AA: **Chemical Dependency Counseling**  
**Effective:** Summer 2012. **Expedited**  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in Chemical Dependency Counseling will be able to:*

1. Demonstrate an understanding of chemical dependency, family systems, and the application of the code of ethics as it relates to chemical dependency counseling.
2. Exhibit effective, communication, body language, and written abilities.
3. Demonstrate an understanding of addiction, biology, psychoactive substances, co-occurring disorders, social problems, and the relation to clinical or group practice with individuals, families, groups, communities, and organizations.
4. Comprehend the wide range of Human Service employment options, historical perspectives, and the populations served.
5. Conduct a basic assessment, interview, intervention, referral, individual counseling, and group session with individuals that are chemically dependent.

*Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.*
C: Chemical Dependency Counseling
   Effective: Summer 2012, Expedited, To ensure accreditation compliance
   Modify: Program Learning Outcomes (adopt)

   **Students who earn certificate of Achievement in Chemical Dependency will be able to:**

   1. Perform clinical evaluations with individuals that have substance use disorders; being considered for admission to addiction-related services, or presenting in a crisis situation.
   2. Develop collaborative treatment plans, goals, action plans, and expected outcomes.
   3. Verbalize referrals, and facilitate the individuals use of support systems, and community resources to meet the needs identified in clinical evaluations and treatment plans.
   4. Conduct individual and group counseling sessions that facilitate client’s progress towards mutually determined treatment goals and objectives.
   5. Provide client, family, and community education on the risks related to psychoactive substance use, as well as available prevention, treatment, and recovery resources.
   6. Demonstrate appropriate documentation skills essential for screening, intake, assessment, treatment planning, clinical reports, progress notes, discharge summaries, and other client related data.
   7. Uphold professional standards, ethical responsibilities, conduct, and professional development.

   Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

SR: Psychosocial Rehabilitation
   Effective: Summer 2012, Expedited, To ensure accreditation compliance
   Modify: Program Learning Outcomes (adopt)

   **Students who earn a Skills Recognition Award in Psychosocial Rehabilitation will be able to:**

   1. Demonstrate an understanding of psychosocial rehabilitation, family systems, and historical perspectives as it relates to the public mental health movement.
   2. Exhibit effective, communication, body language, and written abilities with consumers or families.
   3. Demonstrate an understanding of theoretical philosophies, biology, co-occurring disorders, environmental or psychosocial stressors, and the relation to psychosocial rehabilitation practice.
   4. Comprehend the impact of stigma, culture, and various practice models in psychosocial rehabilitation.
   5. Conduct a basic assessment, interview, intervention, referral, individual counseling, and group session with individuals that are mentally ill.

   Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

SR: Gerontology
   Effective: Summer 2012, Expedited, To ensure accreditation compliance
   Modify: Program Learning Outcomes (adopt)

   **Students who earn a Skills Recognition Award in Gerontology will be able to:**

   1. Demonstrate an understanding of gerontology, family systems, and the psychology of aging as it relates to individual, family, and group counseling.
   2. Exhibit effective, communication, clinical skills, body language, and written abilities with the elderly.
   3. Demonstrate an understanding of theoretical philosophies, biology, life span, environmental or psychosocial stressors, and the relation to gerontological counseling.
   4. Conduct a basic assessment, interview, intervention, case plan, individual counseling, and group session with the aged.

   Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.
C: Food Processing
Effective: Summer 2012, Expedited To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

Students who earn certificate of Achievement in Food Processing will be able to:

1. Demonstrate mastery of the technical and soft skills needed for successful employment in the food processing industry
2. Demonstrate proficiency in agriculture sciences/engineering by employing the scientific methods to solve agricultural problems.
3. Employ safe work habits as prescribed in the injury illness Prevention Plan (IIPP) for the food processing industry.
4. Apply the principles of basic food processing industry and laboratory procedures to analyze processed food quality and safety

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

C: Mechnized Agriculture
Effective: Summer 2012, Expedited To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

Students who earn certificate of Achievement in Mechanized Agriculture will be able to:

1. Demonstrate proficiency in agricultural sciences/engineering by employing the scientific method to solve agricultural problems. Demonstrate proficiency in agriculture sciences/engineering by employing the scientific methods to solve agricultural problems.
2. Be able to employ safe work habits as prescribed in the ‘Injury, Illness Prevention Plan’ (IIPP) for the workplace employed, including but not limited to handling and storage of hazardous materials.
3. Demonstrate mastery of the technical and soft skills needed for successful employment in mechanized agriculture
4. Describe the various employment opportunities available within the mechanized agriculture field and demonstrate the minimum educational requirements for entrance into each.
5. Locate, read, and interpret appropriate plans, manuals and equipment documentation in order to fabricate and/or repair equipment effectively.
6. Select proper tools and equipment for various applications, staying within the desired financial restraints.
7. Maintain tools and equipment and demonstrate the value of preventative maintenance and proper equipment usage.
8. Demonstrate and relate the use of skills developed across various general education disciplines (math, English, physics) to help solve problems within the mechanized agriculture field.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

AS: University Preparation, Emphasis in Chemistry
Effective: Summer 2012, Expedited To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation, Chemistry the student will be prepared to:

1. Successfully transfer to a 4 year college or university and/or begin working an entry level chemistry technician position
2. Score the national median or higher on American Chemical Society General Chemistry Exam (full year).
3. Score the national median or higher on American Chemical Society Organic Chemistry Exam (full Year).
4. Use of quantitative and/or qualitative analysis techniques to determine an unknown in a general chemistry laboratory
5. Use of NMR, IR and other spectrum to determine an unknown organic compound.

*University Preparation, Emphasis in Chemistry PLOs withdrawn from agenda due to knowledge that an almost identical PLO had been removed from the AS-T: Geology for myriad reasons after lengthy email dialog between Geology faculty, the Assessment Coordinator, curriculum staff and the division dean.*

**AS:** University Preparation, Emphasis in Physics  
**Effective:** Summer 2012, **Expedited**!  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation Physics, the student will be prepared to…*

1. Use the Scientific Method to collect and analyze data in forming conclusions and to verify physical principles through experimentation.  
2. Solve problems and predict outcomes in nature using physical laws.  
3. State and apply physical concepts to explain phenomena encountered in our everyday world.  

*Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.*

**AS:** University Preparation, Emphasis in Health & Physical Education  
**Effective:** Summer 2012, **Expedited**!  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation, Health & Physical Education the student will be prepared to:*

1. Demonstrate a working knowledge of the anatomy, physiology, and microbiology of the human body in order to enter the nursing program.  
2. Succeed in the nursing board exams in sections related to these disciplines.  

*Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.*

**AS:** University Preparation, Emphasis in Biological Science  
**Effective:** Summer 2012, **Expedited**!  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation, Biological Sciences the student will be prepared to…*

1. Demonstrate a working knowledge of the anatomy, physiology, and microbiology of the human body in order to enter the nursing program.  
2. Succeed in the nursing board exams in sections related to these disciplines.  

*University Preparation, Emphasis in Biological Sciences PLOs withdrawn because concerns about science outcomes and the requirements of the program appearing very similar to the outcomes for the university Preparation, Emphasis in Health and Physical Education.*

**AS:** University Preparation, Emphasis in Environmental Sciences  
**Effective:** Summer 2012, **Expedited**!  
To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

*In addition to demonstrating the abilities listed as General Education Student Learning Outcomes,*
students who complete the A.S. Degree in University Preparation, Environment Sciences will be able to...

1. Apply the scientific methods of discovery to problem solving situations in biology, mathematics, and chemistry.
2. Proficiently use the scientific vocabulary, including the key terms and concepts in biology, chemistry, and mathematics.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

SR: Speech Communication
Effective: Summer 2012, Expedited
Modify: Program Learning Outcomes (adopt)

Upon successful completion of the Skills Recognition in Speech Communication, students will be able to:

1. Construct a speech outline demonstrating clarity of ideas, proper source citation, awareness of audience, and proper outlining techniques.
2. Identify and apply principles of interpersonal communication theory to build functional relationships.
3. Find, evaluate, and incorporate research materials into written and oral argumentation, as well as cite sources correctly.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

C: Computer Application Specialist
Effective: Summer 2012, Expedited
Modify: Program Learning Outcomes (adopt)

Upon the successful completion of the Certificate of Achievement in Computer Application Specialist at Modesto Junior College, students will be able to:

1. Apply basic computer hardware, software and information technology concepts and techniques to a variety of business environments.
2. Demonstrate proficiency in applying common business productivity software to business functions, including word processing, spreadsheets, database, and presentation applications.
3. Identify software to be used to address specific business needs.
4. Demonstrate professional and effective communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

C: Computer Programming Specialist
Effective: Summer 2012, Expedited
Modify: Program Learning Outcomes (adopt)

Upon the successful completion of the Certificate of Achievement in Computer Programming Specialist at Modesto Junior College, students will be able to:

1. Demonstrate a firm understanding and working knowledge of basic problem analysis, design, implementation, and maintenance.
2. Be prepared to obtain employment in an entry-level position in software engineering.
3. Employ industry-accepted coding practices and standards.
4. Implement object oriented software solutions.
5. Employ various code level debugging techniques.
6. Utilize software development tools.
7. Perform functional software testing.
8. Demonstrate professional and effective communication skills.
Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

C: Computer Network Administration

Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

Upon the successful completion of the Certificate of Achievement in Computer Network Administration at Modesto Junior College, students will be able to:

1. Demonstrate a firm understanding and working knowledge of basic network topologies, client and server operating system configuration, network security principals, and directory services.
2. Be prepared to obtain employment in an entry-level position assisting in network design and implementation.
3. Design, implement and document a client/server network complete with security policy and a disaster recovery plan for a small-business network.
4. Demonstrate professional and effective communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

C: Computer Network Technician

Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

Upon the successful completion of the Certificate of Achievement in Computer Network Technician at Modesto Junior College, students will be able to:

1. Demonstrate a firm understanding and working knowledge of basic network troubleshooting techniques.
2. Be prepared to obtain employment in an entry-level position as a network technician and help-desk support tech.
3. Install, configure, upgrade and maintain personal computer hardware and operating systems.
4. Install, configure, and troubleshoot basic networking hardware and protocols.
5. Provide support for users of operating systems, applications and computer information systems.
6. Demonstrate professional and effective communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

AS: Computer Science

Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate of Science degree in Computer Science will be able to:

1. Demonstrate preparedness to successfully enter local industry as a software programmer, network specialist, or information systems specialist depending of degree option completed.
2. Configure and use computer hardware and software to solve most entry level business application requirements.
3. Plan, design, and implement solutions to standard computing problems.
4. Make informed assessments of the quality and effectiveness software implementations, including their own.
5. Assist and help provide training to employees in local area businesses.
6. Demonstrate a high level of communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.
AA: **Computer Science**
*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate of Arts degree in Computer Science will be able to:

1. Demonstrate preparedness to successfully continue studies in computer science at an upper division level.
2. Demonstrate the techniques of problem solving and programming computer based software development.
3. Demonstrate a high level of mathematical reasoning and scientific methodology.
4. Use these techniques to model real-world applications.
5. Demonstrate a high level of communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

AA: **Computer Information Systems**
*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate of Arts degree in Computer Information Systems will be able to:

1. Demonstrate preparedness to successfully continue studies in computer information systems at an upper division level.
2. Demonstrate the techniques of information analysis and application design and implementation for information technology industries.
3. Demonstrate a high level of data organization techniques for information storage and retrieval processes.
4. Use these techniques to model real-world applications.
5. Demonstrate a high level of communication skills.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

SR: **Sheet Metal Fabricator** (corrected from agenda which erroneously listed “Welding”)
*Effective: Summer 2012, Expedited* To ensure accreditation compliance

Modify Program Learning Outcomes (adopt)

1. Comply with current welding industry safety and environmental regulations.
2. Perform sheet metal fitting and welding operations in accordance to industry recognized and accepted practices.

Hearing no objections, the committee was notified of the proposed Program Learning Outcomes.

ADOPT: AS-T: Geology
Effective Term: (Upon CCCCO Approval)

EXPECTED STUDENT LEARNING OUTCOMES
In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the AS-T in Geology will be able to:

1. Identify the rock-forming minerals, ore minerals, igneous rocks, sedimentary rocks, and metamorphic rocks, utilizing the physical and chemical properties of each.
2. Analyze and interpret stratigraphic columns, geologic profiles, and geologic and topographic maps to determine the geological and structural history of a given region.
3. Analyze the geological hazards of a given region based on identification of the tectonic and erosional processes acting on the landscape.

UNITS REQUIRED IN MAJOR 28

Questions were raised about late revisions to the degree as it appeared on an early version of the agenda. It was explained that there is a limit on the total number of units for TMC degrees: 60. Completion of CSU-GE would force the student to exceed this number of units. In 2010-2011 G. Hayes had attempted to create this award and ran into such complications. It was noted that the PLO for “transfer to a UC or CSU” was removed, and R. Cranley noted that she had learned in a TMC webinar that statements explaining the students’ eventual ability to transfer were strongly encouraged. J. Hughes asked whether “IGETC” meant IGETC-CSU or IGETC –UC, since each system embeds different requirements into the IGETC pattern. It was clarified that it was IGETC-CSU (since TMCs are being built for the CSU system) It was requested that this statement be made very clear in the catalog. It was questioned why other TMCs were not successfully drafted, and it was explained that the 6-unit “double-counting” rule in effect for some TMCs prevented those awards from being 60 units or fewer, and it was also explained that each TMC can have different caps on double-counting courses within GE requirements.

Action Items
1. **Course Substitutions for Academic Awards**  
   **M. Robles / B. Adams**

   M. Robles was pleased to present a substantially revised form to the committee that had been developed by L. Miller, stating she thought that she had done an exceptional job of making improvements to the form. The committee members reviewed their copies and had immediate questions. It was noted that the form noted “33%” of units in the major as opposed to the original amount of 30%. L. Miller noted this was an overlooked error. Questions were raised about keeping records of substitutions, to which M. Robles commented that this could be done, and that it has been proposed as a means of gathering evidence of existing substitution patterns. L. Miller explained how she approached designing the form, with one section/page dedicated to explaining the substitution process, while the other section/page contained the form itself. B. Adams noted that the form may, in itself, be attempting to accomplish too much, for example, GE information may require a different level or type of review. This concept was openly supported by some members, who expressed concern about ongoing confusion about the process. It became clear that there is often confusion about the difference between substitution and equivalency. Some departments report confusion about the meaning of “area”, B. Adams reported. She also shared that N. Backlund, who had taken time to review the form, expressed open concern about one department being able to deny a substitution. B. Adams reported she had used an example to illustrate a possible concern to N. Backlund, “what if someone from another discipline felt it appropriate to substitute Telephone Techniques for a public speaking course?”

   M. Robles explained to the committee that the form should be put in use with the caveat that it be evaluated for effectiveness and usability, and that discussions with the divisions would take place, perhaps at meetings, noting that every division has a different process. R. Cranley brought forth an example of problems with substitutions. A student from Columbia has completed a course at Columbia and satisfied their activities requirement. Columbia’s course is lecture/lab, while MJC’s course is “lecture only” and does not satisfy Activities. C. Mulder reported that various interpretations of how courses apply to activities cause many problems. Assumptions cause problems. Various interpretations of GE courses in the substitution process cause problems, for example, a student who satisfies GE area requirement through completion of a non-equivalent course is denied substitution of that course for GE, while an MJC course may be locally substituted by another MJC course to satisfy GE even though it is not placed on the GE pattern. Would more specific forms be useful? It was noted that some faculty may not understand the implications of a proposed substitution on the integrity of a program, they may operate merely on the assumption that they are helping a student out. J. Zamora expressed concern that an excessive number of forms could be problematic, and that training could be useful to help faculty make good substitution decisions.

   E. Maki raised the issue of a course like Film Appreciation, housed in English. He personally was affected because he was “short” units in an area because film fell under English, as opposed to a film department. He had to rationalize his case to ensure the units were appropriately interpreted. B. Adams saw this as an opportunity for collaboration, as opposed to obstructing student progress. This form, according to M. Robles, should trigger departments to evaluate program requirements. B. Adams added that in some cases, required courses have not been offered in 3-4 years, impeding student progress.

In addition to demonstrating the abilities associated with the University Preparation Pathway requirements, students who complete the Associate’s Degree Emphasis in Social & Behavioral Science will be able to:

1. Describe and demonstrate the methodology and approach employed in the study of Behavioral and Social Sciences
2. Critically examine local, national, and global issues as they pertain to the study of Behavioral and Social Sciences

MODIFY: **Skills Recognition: Emergency Medical Technician**

**Effective:** Summer 2012, [Expedited] To ensure accreditation compliance

**Modify:** Program Learning Outcomes (adopt)

Students who complete the Skills Recognition Award for Emergency Medical Technician will be able to:

1. Pass the National Registry Exam for certification as an Emergency Medical Technician I.
2. Demonstrate compliance with regulations of the National Registry of Emergency Medical Technicians.
MODIFY: **Skills Recognition: Fire Academy**  
**Effective:** Summer 2012, Expedited! To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

Students who complete the Fire Academy Skills Recognition Award will be able to:

1. Demonstrate compliance with state Fire Training Requirements for Firefighter I.  
2. Demonstrate compliance with National Fire Protection Association Standards.

MODIFY: **A.S. Degree: Fire Science**  
**Effective:** Summer 2012, Expedited! To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in Fire Science will be able to:

1. Demonstrate compliance with all laws, regulations, codes, and standards that influence fire department operation.  
2. Demonstrate compliance with California State Fire Training Standards for Firefighter I.  
3. Explain the flow requirements for fire apparatus, diagraming a pump and plumbing schematic.  
4. Demonstrate the ability to respond safely and effectively to fire situations by explaining the requirements needed to respond to emergencies in private, city, state, and federal locations and describing the rank structure and job requirements for all positions.  
5. Explain minimum qualifications and entry-level skills for firefighter hiring, describing the following elements: application process, written exam process, physical agility exam process, interview process and chief’s interview process.  
6. Describe common types of building construction as well as conditions associated with structural collapse and firefighter safety.

MODIFY: **Certificate of Achievement: Fire Science**  
**Effective:** Summer 2012, Expedited! To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

Students who complete the Certificate of Achievement in Fire Science will be able to:

1. Demonstrate compliance with all laws, regulations, codes, and standards that influence fire department operation.  
2. Demonstrate compliance with California State Fire Training Standards for Firefighter I.  
3. Explain the flow requirements for fire apparatus, diagraming a pump and plumbing schematic.

3. Provide compassionate end of life care.
4. Communicate professionally with residents, families, peers and profession staff.
5. Pass the state of California certification examination as a Certified Nurse Assistant (CNA).

AS Degree: University Preparation, Emphasis in Chemistry
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation, Chemistry the student will be prepared to:

1. Score the national median or higher on American Chemical Society General Chemistry Exam (full year).
2. Score the national median or higher on American Chemical Society Organic Chemistry Exam (full Year).
3. Use of quantitative and/or qualitative analysis techniques to determine an unknown in a general chemistry laboratory
4. Use of NMR, IR and other spectrum to determine an unknown organic compound.
A.A. Degree: University Preparation, Emphasis in Liberal Studies:
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities associated with the University Preparation Pathway requirements, students who complete the Associate’s Degree Emphasis in Liberal Studies will be able to:

1. Demonstrate competence in the fields of study central to the California state standards for the sciences, mathematics, visual and performing arts, the social sciences, and language and literature.
2. Define and explain the fundamental concepts of educational pedagogy including motivational theories, learning styles, and curriculum development through reflections on their coursework and classroom observations.

Skills Recognition: Ethnic Studies
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

Students who complete the Skills Recognition Award for Ethnic Studies will be able to:

1. Understand how race and ethnic relations have been shaped by economic, social, cultural and political realities.
2. Demonstrate familiarity with various methodological approaches to the terrains of race and ethnicity, especially in their relation to identity, inequality, culture and history.

A.A. Degree: General Studies, Emphasis in Language and Rationality
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.A. Degree in General Studies, Emphasis in Language and Rationality will be able to:

1. Demonstrate awareness of the interactive nature of communication involving effective listening, reading, writing, and speaking.
2. Demonstrate critical thinking in the analysis and production of communication.
3. Demonstrate the ability to find, evaluate, and use information in a variety of formats.
A.A. Degree: Physical Education
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in Physical Education will be able to:

1. Use effective written, electronic, and verbal communication techniques that demonstrate proficient research skills regarding physical activity, a clear, coherent writing style regarding physical activity, and proficient oral expression regarding physical activity.
2. Demonstrate competence in the major concepts and current research dealing with physical fitness and sports, demonstrating knowledge of major concepts regarding physical activity and demonstrating knowledge of journals, periodicals, and other sources of information regarding current research and sports strategies.
3. Apply critical thinking to utilize protocols regarding the safe design and monitoring of various parameters of physical activity, demonstrating the ability to properly select, attend, and design safe activities and demonstrating knowledge of evaluation, care, and prevention of sports injuries.
4. Synthesize the personal and socio-cultural aspects of sport and physical activity, demonstrating the ability to analyze and interpret trends found in sport as a microcosm of society and demonstrating knowledge of proper psychological process in sport performance and motor learning sequences found in skill development.
5. Identify and apply basic rules and strategies of various physical activities.

A.A. Degree: University Preparation, Emphasis in Health and Physical Education:
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities associated with the University Preparation Pathway requirements, students who complete the Associate’s Degree Emphasis in Health and Physical Education will be able to:

1. Demonstrate a working knowledge of the anatomy, physiology, and microbiology of the human body in order to enter the nursing program.
2. Succeed on the nursing board exams in sections related to these disciplines.

University Preparation, Emphasis in Biological Sciences
Effective: Summer 2012, Expedited! To ensure accreditation compliance
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the A.S. Degree in University Preparation, Biological Sciences the student will be able to:

1. Apply the scientific method of discovery to problem solving situations in biology, mathematics, and chemistry.
2. Proficiently use the scientific vocabulary, including the key terms and concepts in biology, chemistry, and mathematics.
MODIFY: AA: General Studies, Emphasis in Language and Rationality
Effective Term: Summer 2012 Expedited!
Modify: Remove ENGL 101 from the list of “18 required units” of coursework for major
Rationale: General Studies Majors with Emphases are degree programs that do not allow a student to “double-count” a course for the major AND for general education requirements, in contrast to other majors which allow double-counting. ENGL 101 is currently required for all associate degree candidates as part of MJC-GE: Area D1, therefore it should not be additionally listed as an option for the major requirements.

**Fundamentals of Stage Make-Up 1**  
**Effective:** Summer 2013  
**INACTIVATE**  
**Program Impact:**  
1. Design & Technical Theatre Skills Recognition Award  
2. Theatre A.A.  

*Pulled for discussion by R. Cranley* due to concerns about how this would affect the SRA in Design and Technical Theatre. M. Lynch was uncertain of what to do. B. Adams encouraged him to work with his discipline colleagues to come to a decision as to whether to simply eliminate the requirement and change the number of required units for the award, or replace THETR 183 with the new THETR 174 “Stage Makeup” created for the Theatre TMC now in development.  

*M/S/U (M. LYNCH, K. ENNIS ) to INACTIVATE THETR 183 with the friendly amendment that the department is to provide an action plan as to how the SRA in Design and Technical Theatre will be revised.*

Pulled by M. Garcia due to questions about "H" or "Honors" appellations on course IDs. He asked, "Do we still offer "H" courses?" R. Stevenson explained that C. Redwing had offered this course in the past. L. Miller noted she believed we no longer used the "H" designator, and that she thought all "H" courses had been inactivated. It was decided this should be researched. NOTE: All "H" courses were administratively inactivated in Datatel in 2007 (LSM 09/13/2012) rendering them unavailable for scheduling purposes.

**Effective:** Upon Committee approval  
**Proposed Discipline(s):** HUMANITIES  
**Rationale for Disciplines:** Humanities 130 is a course demanding expertise of humanistic tradition and history across a wide range of disciplines. As Humanities classes require a truly interdisciplinary approach, rather than that of one specific field, these courses require faculty that meet this requirement for both depth and breadth provided by meeting the minimum qualifications for the discipline of Humanities.

UPDATES (including modifications/reactivations)

ANSC 215  Animal Health and Sanitation  3
Effective: Summer 2013
MODIFY: Content, methods of Instruction, typical assignments, textbooks, learning goals, methods of assessment
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC; Requesting; (C-ID; AG-AS 136L)
General Education Status: Not approved for GE
Rationale: Periodic Review
Program Impact:
1. Animal Science A.S. Degree
2. Dairy Science A.S. Degree
3. Poultry Science A.S. Degree
4. AA, University Preparation, Emphasis in Agricultural Sciences
5. Veterinary Technician Certificate of Achievement

Pulled for discussion by R. Cranley due to concerns about the currency of textbook editions, since this course is requesting a C-ID. The author noted the text he uses hasn’t been updated since 2000 but did not change it in this course proposal. R. Cranley had spoken with the author, suggesting he use one of the texts from the C-ID descriptor outlines, and bring the course outline back for later modification. The author is going to research textbooks noted on the C-ID descriptors outlines.
M/S/U (J. BEEBE, M. BOYD) to MODIFY ANSC 215
ART 175  Color Photography  3
Effective: Summer 2013
MODIFY: Description, requisite skills, content, methods of Instruction, typical assignments, textbooks, learning goals, methods of assessment
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of ART 172 or ART 186.
Distance Education Status: None
Materials Fee Status: Maintaining fee of $45
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for MJC Activities
Rationale: Art 175 is a required class for photography majors and is in danger of being out of compliance. Since the class is offered only once per year, I hope that expedition will help avoid problems with scheduling.
Program Impact:
1. Art A.A. Degree
2. Photography A.A. Degree Major

PULLED FROM AGENDA PRIOR TO MEETING

ART 181  Basic Photography 1  1½
Effective: Summer 2013
MODIFY: Description, content, methods of Instruction, typical assignments, textbooks, learning goals, methods of assessment
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: Maintaining fee of $14
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for (MJC-GE:C)
Rationale: Periodic review and Update curriculum
Program Impact:
1. Art A.A. Degree
2. Computer Graphics Applications A.S. Degree

BIO 101  Biological Principles  5
Effective: Summer 2013
MODIFY: Enrollment restrictions, methods of Instruction, leaning goals
Enrollment Restrictions: Removing: (P) Satisfactory completion of MATH 90 or qualification by the MJC assessment process. Removing: (C) Concurrent enrollment in or satisfactory completion of CHEM 101 or CHEM 142. Requesting: (P) Satisfactory completion of CHEM 101 or CHEM 142.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for (MJC-GE: A) (CSU-GE: B2, B3) (IGETC: 5B, 5C)
Rationale: Removal of CHEM 101 as a corequisite for course as it proposes a difficulty for students who drop one and wish to stay enrolled in the other. Maintain CHEM 101 as a prerequisite and add CHEM 142 as an alternate prerequisite.
Program Impact:
1. CSU General Education Pattern Certificate of Achievement
2. Chemistry A.S. Univ Prep - Area of Emphasis
3. Earth Sciences A.A. Univ Prep - Area of Emphasis
4. General Studies, Emphasis in Natural Sciences A.A. Degree

**CMPGR 264** Publishing on the World Wide Web

**Effective:** Summer 2013

**MODIFY:** Repetitions, requisite skills, materials fee, content, methods of instruction, typical Assignments, leaning goals, methods of Assessment.

**Enrollment Restrictions:** Maintaining: (A) before enrolling in this course, students are strongly advised to satisfactorily complete CMPGR 262; Removing: (P) satisfactorily complete CMPSC 201.

**Distance Education Status:** Maintaining: Online course. Requesting: Mixed modalities/Hybrid course.

**Materials Fee Status:** Removing fee of $10

**Articulation Status:** Transfer to CSU

**General Education Status:** Approved for: (MJC-GE: D2)

**Rationale:** Update for compliance and update text.

**Program Impact:**
2. Computer Graphics Applications Certificate of Achievement
3. General Studies, Emphasis in Language and Rationality A.A. Degree
4. Journalism A.A. Degree
5. MJC-GE Pattern A.A. Degree Major
6. Print Journalism Skills Recognition Award
7. Word Processing Certificate of Achievement

**M/S/U (P. UPTON, L. HATCH) to MODIFY CMPGR 264 with a friendly amendment that the faculty author (with the assistance of the rep., C. Vaughn) will provide language that explains why lab and lecture content are identical. This revision will be addressed in the system with the assistance of B. Adams.**

**M/S/U (S. CIRCLE, K. ENNIS) to MODIFY REQUISITES for CMPGR 264**

**M/S/U (J. BEEBE, M. GARCIA) to MODIFY DE MODALITIES for CMPGR 264**

**M/S/U (C. VAUGHN, K. ENNIS) to REMOVE FEE for CMPGR 264**

GE proposal pulled for discussion by K. Ennis due to concerns that this course might remain on MJC-GE according to dialog taking place during technical review. She noted that, when she and her colleagues were asked to evaluate MJC-GE:D – Language and Rationality at Outcomes Assessment Day, that they were very troubled by the level of rigor in this course, especially when noting that if a student were to take only one course from this area to earn an associate degree from MJC, would knowing that the student was merely required to browse the web, create webpages, and use email, would the committee be satisfied with that as evidence of their critical thinking skills. She noted that approval for placement of this course occurred in 1997, which explained to her how it got there, noting that the student population’s general technological ability was much lower at that time “I could spend a whole week on using keywords in a browser in 1997!” she laughed. C. Vaughn explained that he agreed with the assessment, and that this course is slated to be moved to CMPSC, and that the CMPSC faculty agrees that it is not appropriate for MJC-GE:D2. The committee took a vote on whether to keep CMPGR 264 on MJC-GE:D2

**Rationale for Expedited Approval:** Periodic review and material fee update  
**MODIFY:** Discipline/Number, description, hours/face to face modalities, enrollment restrictions, content, methods of instruction, typical Assignments, textbooks, leaning goals, methods of Assessment.  
**Enrollment Restrictions:** Maintaining: (P) Satisfactory completion of MACH 211; Removing: (P) MACH 301. Requesting: (P) Satisfactory completion of MFGA 301. Request overridden by the Office of Instruction due to myriad issues with MFGA course sequence approvals and proposals. Dean should contact L. Miller to discuss how to resolve this. Once consult has taken place, Instruction Office will update the proposal as needed.  
**Distance Education Status:** None  
**Materials Fee Status:** Maintaining fee of $31.50  
**Articulation Status:** Does not transfer  
**General Education Status:** Not approved for GE  
**Rationale:** Course update for periodic review.  
**Program Impact:**  
1. Machine Tool Technology 1 Skills Recognition Award  
   **Pulled for discussion by M. Garcia** due to concerns that there was only one Typical Assignment listed. The committee noted that there were ways to identify assignments because of other information provided in the section. B. VI. PROGRAM NOTIFICATION AGENDA

Program Learning Outcome

The following PLOs were submitted by the extended PLO deadline for placement the Summer 2012 Catalog Addendum, but were overlooked for placement on the Summer Approval list. They have been placed in the Addendum in good faith that they would be put before the committee for notification at the first fall meeting of 2012.

A.S: Nursing/RN
    Effective: Summer 2012, Expedited!
    Rationale for Expedited Implementation: To ensure accreditation compliance.
    Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in Nursing will be able to:

1. Provide competent nursing care based on scientific principles, the Roy Adaptation Model, and the nursing process, reflecting an ethic of caring evidenced by respect for patients and families, self, colleagues, and the profession.
2. Identify a nursing diagnosis following assessment of the patient’s physical condition and behavior, an analysis of information obtained from the patient and others, including members of the health care team.
3. Formulate a care plan, in collaboration with the patient that ensures direct and indirect nursing care services that provide for the following patient needs: safety, comfort, hygiene, protection, disease prevention, and restorative measures.
4. As provider and manager of care, establish priorities, perform the skills required to carry out nursing interventions, explain the plan of care to the patient and family, and teach the patient and family how to care for identified health problems and needs.
5. Manage and prioritize care for groups of patients; delegate tasks to subordinates based on the legal scope of practice of the subordinates and on the preparation and competence needed for the tasks to be delegated; and effectively supervise the nursing care provided by subordinates.
6. Evaluate the effectiveness of the care plan through observation of the patient’s condition and behavior, signs and symptoms of illness, reactions to treatment, and thorough communication with the patient and the health care team; and modify the plan as needed.
7. Advocate for the rights of patients by initiating actions to improve health care, facilitate changes in decisions or activities that conflict with patients’ self-determination, and provide patients the opportunity to make informed decisions about their health care.
8. Recognize that each person is a unique individual with biological, psychological, social, and spiritual needs; understand how a person’s self-concept, role function, and interdependence are affected by the values, attitudes, life experiences, culture, ethnicity, and support systems of each person.

The committee was notified of the retroactive modifications to the PLOs for the AS in Nursing.
A.S:  
**Nursing/LVN to ADN Advanced Placement Pathway**

**Effective:** Summer 2012, Expedited!

**Rationale for Expedited Implementation:** To ensure accreditation compliance

**Modify:** Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Nursing/LVN to AND Advanced Placement Pathway will be able to:

1. Provide competent nursing care based on scientific principles, the Roy Adaptation Model, and the nursing process, reflecting an ethic of caring evidenced by respect for patients and families, self, colleagues, and the profession.

2. Identify a nursing diagnosis following assessment of the patient’s physical condition and behavior, an analysis of information obtained from the patient and others, including members of the health care team.

C: **Master Teacher**

**Effective:** Summer 2012, **Expedited**

**Rationale for Expedited Implementation:** To ensure accreditation compliance

**Modify:** Program Learning Outcomes (adopt)

Students who complete the Certificate in Master Teacher will be able to:

1. Recognize and describe the courses totaling 32 units necessary to complete this certificate and compare/contrast how the certificate is aligned with the Master Teacher Permit issued through State of California, Commission on Teacher Credentialing.

2. Apply specialized knowledge of courses from the six-unit option in the early care and education classroom (i.e. infant/toddler; early intervention; families and culture.)

3. Apply effective guidance and interaction strategies that support all children’s social learning, identity and self-confidence as the lead teacher in the classroom.

4. Demonstrate an awareness and understanding of the diverse cultural aspects of child rearing and family practices and potential cultural conflicts as individuals interact.

*The committee was notified of the expedited (retroactive) modifications to the PLOs for the Certificate in Master Teacher*

---

C: **Site Supervisor**

**Effective:** Summer 2012, **Expedited**

**Rationale for Expedited Implementation:** To ensure accreditation compliance

**Modify:** Program Learning Outcomes (adopt)

Students who complete the Certificate in Site Supervisor will be able to:

1. Recognize and describe the courses totaling 32 units necessary to complete this certificate and compare/contrast how the certificate is aligned with the Site Supervisor Permit issued through State of California, Commission on Teacher Credentialing.

2. Train teaching staff to develop high quality and developmentally appropriate strategies that promote partnerships between programs, teachers, families and their communities as the supervisor of the program.

3. Train teaching staff to apply ethical standards and professional behaviors that demonstrate understanding and knowledge, deepening the commitment to the Early Care and Education profession as a supervisor of a program.

4. Demonstrate an awareness and understanding of the diverse cultural aspects of child rearing and family practices and potential cultural conflicts as individuals interact.

*The committee was notified of the expedited (retroactive) modifications to the PLOs for the Certificate in Site Supervisor*
C: Associate Teacher  
**Effective:** Summer 2012, **Expedited**  
**Rationale for Expedited Implementation:** To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

1. Recognize and describe the four courses necessary to complete this certificate and compare/contrast how the certificate is aligned with the Associate Teacher Permit issued through State of California, Commission on Teacher Credentialing.
2. Integrate a basic understanding of the needs, the characteristics and multiple influences on development of children birth to age eighth as related to high quality care and education of young children as assistant in the classroom.
3. Demonstrate a basic knowledge and understanding of the relationship between appropriate play, and effective guidance as demonstrated in adult-child interactions and learning opportunities for young children.

_The committee was notified of the expedited (retroactive) modifications to the PLOs for the Certificate in Associate Teacher_

C: Early Interventionist  
**Effective:** Summer 2012, **Expedited**  
**Rationale for Expedited Implementation:** To ensure accreditation compliance  
**Modify:** Program Learning Outcomes (adopt)

1. Recognize and describe the courses totaling 32 units necessary to complete this certificate and recognize how the certificate qualifies a student to work at the Early Intervention Assistant II level of the California Early Start Personnel Model.
2. Develop considerations for meeting exceptional needs, including teacher/early interventionist competencies, intervention, instructional strategies, and parent involvement in the context of cultural diversity.
3. Describe the natural environment and inclusion for infants and young children with disabilities in and the connection to family systems and the family need for education and support.
4. Demonstrate knowledge of the legal and ethical responsibilities, including confidentiality related to assessment in early childhood settings including legislation regarding IFSP, IEP, and development.

Program Learning Outcomes

C: CSU-GE

Effective: Summer 2012, Expedited

Rationale for Expedited Implementation: To ensure accreditation compliance.

Modify: Program Learning Outcomes (adopt)

Upon completion of the CSU-GE Pattern:

Demonstrate proficiency in NATURAL SCIENCE by:
- Explaining how the scientific method is used to solve problems.
- Describing how scientific discoveries and theories affect human activities.

Demonstrate proficiency in SOCIAL AND BEHAVIORAL SCIENCE by:
- Describing the method of inquiry used by the social and behavioral sciences.
- Describing how societies and social subgroups have operated in various times and cultures.
- Analyzing the ways that individuals act and have acted in response to their societies.

Demonstrate proficiency in the HUMANITIES by:
- Demonstrating awareness of the various ways that culture and ethnicity affect individual experience and society as a whole.
- Demonstrating the ability to make well considered aesthetic judgments.

Demonstrate proficiency in LANGUAGE AND RATIONALITY by:
- Demonstrating awareness of the interactive nature of communication involving effective listening, reading, writing, and speaking.
- Demonstrating critical thinking in the analysis and production of communication.
- Demonstrating the ability to find, evaluate, and use information in a variety of formats.

Demonstrate proficiency in HEALTH EDUCATION by:
- Describing the integration of the physiological and psychological human being.
- Analyzing the development of self and making plans for lifelong learning.
- Evaluating the impact of daily decisions on life and health.

M/S/U (L. LANIGAN, L. HATCH) to approve the use of the MJC GELOs/ILOs as PLOs for the Certificate of Achievement in IGETC
M/S/U (K. ENNIS, S. CIRCLE) to EXPEDITE IMPLEMENTATION of the PLOs for IGETC
AA: General Studies, Emphasis in Natural Sciences  
Effective: Summer 2012, Expedited  
Rationale for Expedited Implementation: To ensure accreditation compliance.  
Modify: Program Learning Outcomes (adopt)

In addition to demonstrating the abilities listed as General Education Learning Outcomes, students who complete the A.A. in General Studies, Emphasis in Natural Sciences will be able to:

1. Apply the scientific method as a foundation for the natural sciences.
2. Describe evolution as it applies to life and/or the physical universe.
3. Describe the physical universe and/or its life forms and its natural phenomena.
4. Demonstrate the relationships between science and other human activities.

M/S/U (K. ENNIS, S. CIRCLE) to EXPEDITE IMPLEMENTATION of the PLOs for AA: General Studies, Emphasis in Natural Sciences

CCC-501: Application for Approval - New Credit Programs  
(None)

CCC-510: Substantial Changes to an Approved Credit Program

ADOPT: AA-T: Studio Art  
Proposed for 2013-14 CATALOG  
Effective SUMMER 2013: (Upon CCCCO Approval)

It was asked how these changes would affect the existing program offerings, since the CCC-510 application facilitates a "Substantial Change to an Existing Program." B. Adams clarified the following:

- AA-T: Art History will replace AA: University Preparation in Art  
- AA-T: Studio Art is a new award  
- AA: Art will stay active

Discussion continued. B. Adams emphasized that Deans need to be involved in helping faculty develop TMCs. R. Stevenson spoke highly of his experience in the state-level curriculum development process, and encouraged his colleagues to get involved in the process early. He enjoyed being a member of a state-level writing group for art curriculum noting that the CSU was involved as well.

M/S/U (E. MAKI, M. LYNCH) to adopt the AA-T in Studio Art and forward to the YCCD Board of Trustees and California Community College Chancellor’s Office for approval

ADOPT: AA-T: Art History

IX. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards
   M. Robles / B. Adams
   While there was no report on this item, the committee briefly discussed the status of the form. E. Maki reported that he had recently received a request on the older version of the form, and expressed concern that there was no attached documentation providing proof that the proposed substitution was appropriate. The document provided virtually no evidence he could use to meaningfully evaluate the proposal. He asked “Does the new form, as drafted last spring, include a prompt to attach documentation?” L. Miller explained that it did not. There was also confusion as to if/how the new form was currently being used. Why did E. Maki get the old form? Is it being piloted only in certain offices? There was hope that M. Robles could provide some update on the status of the form.

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization
   L. Miller
   No Report

2. Outcomes Assessments and Curriculum Modifications
   J. Todd/L. Miller
   L. Miller explained a mock-up provided by B. Sanders, illustrating how CurricUNET could evidence that curriculum modifications, when appropriate, have occurred as a result of outcomes assessment. She
explained that course revisions do not have to show that they have been made as result of assessment. B. Adams shared that this topic was also discussed at the annual curriculum training where some members had expressed concern about the addition of this prompt, and the discussion began there so committee members would be aware of the proposal on today’s agenda. S. Circle immediately expressed concern, stating that outcomes assessment is really about teaching and learning, not about curriculum. J. Todd countered by explaining that everything we do at the institution is tied to student learning and success, and that indeed, curricular modifications can result from outcomes assessment. Many members provided examples. Additional concern was shared that this data could be used punitively. J. Todd stated that he understands that fear; however, the Senate has an MOU which indicates that outcomes assessment is not to be used for evaluation of faculty. This is merely a way we can show consider curriculum change in relation to outcomes assessment.

3. **Course Learning Outcomes in the Curriculum Review Process**
   
   B. Adams presented a draft of resolution rationalizing and resolving that the Curriculum Committee will now evaluate the alignment of course learning objectives to course learning outcomes, and recommend to the Academic Senate that this review take place during a discipline’s regularly scheduled curriculum review cycle. The Resolution follows:

   ![Resolution Image](https://example.com/resolution.png)

   **Proposed by:** Barbara Adams, Curriculum Co-Chair

   **Whereas:** Per ACCJC Accreditation Standard IIA, an institution must offer high-quality instructional programs in recognized and emerging fields of study that culminate in identified student outcomes leading to degrees, certificates, employment, or transfer to other higher education institutions or programs consistent with its mission, and instructional programs are systematically assessed in order to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes; and

   **Whereas:** The ACCJC Rubric for Student Learning Outcomes states, “There is recognition of existing practices such as course objectives and how they relate to student learning outcomes” within the implementation level of awareness; and

   **Whereas:** Modesto Junior College Recommendation 2 in the ACCJC action letter dated February 1, 2012 states, “The team recommends the college attain the level of proficiency according to the ACCJC Rubric for Student Learning Outcomes by 2012. The college must ensure faculty members differentiate between course learning outcomes and course objectives. It must also establish clear standards for assessing course learning outcomes that will inform course-level curricular and pedagogical improvement….”; and

   **Whereas:** During the spring 2012 semester, the Curriculum Committee began discussion of a revision to the current curriculum review cycle process to include a systematic, cyclical review of course learning outcomes and their alignment with course objectives; and

   **Therefore:** Be it resolved that the Curriculum Committee acknowledges the importance of meeting Accreditation Standards, specifically Standard IIA, and ACCJC Recommendations.

   **Therefore:** Be it further resolved, that effective Fall 2012, in addition to the current fields reviewed for updated courses within the scheduled 5-year curriculum review matrix, the curriculum
review process will include a thorough review of course learning outcomes and their alignment with course objectives.

Therefore: Be it further resolved, the MJC Curriculum Committee recommends the MJC Academic Senate approve the revision to the curriculum review process to incorporate review of course learning outcomes and their alignment with course objectives for courses proposed during the discipline’s regular curriculum review cycle.

Informational Items

1. Policies for Prerequisites/Corequisites/Advisories  M. Robles  
No report

2. CCCC0 Curriculum Inventory  B. Adams  
B. Adams shared that she originally hoped to present the new CCCC0 Inventory to the Committee, but that the system is not yet online. She stated that it appears to have some promising new features for use by faculty.

XI. TASK FORCES

1. CurricUNET Implementation Task Force Update  B. Adams/L. Miller  
B. Adams noted that the committee could see how progress is moving in CurricUNET on features recently implemented. L. Miller wanted to bring the committee’s attention to the new Course Comparison Summary Report, explaining that it now fully automates comparing one version of a course to another, as opposed to the Course Compare report. She encouraged representatives to use the field to get a quick overview of how a course has changed between one version and the next.

I. APPROVAL OF ORDER OF AGENDA

M/S/U (C. Mulder/J. Sola) to approve the order of the agenda taking into account that BUSAD faculty were in attendance and that any BUSAD items should be reviewed as early as possible.

II. APPROVAL OF MINUTES

September 11, 2012

Hearing no objections, the MINUTES of 09/11/12 were approved with the correction noted during the meeting.

III. COURSE NOTIFICATION AGENDA

Hearing no objections, the committee was notified of the following actions:

- AUTEC 115  Introduction to Technical Industries  1
  (AUBDY 115) INACTIVATE
  Effective: Summer 2013
  Rationale: AUBDY 115 was inactivated on 09/11/2012. This course was cross-listed was AUTEC 115, but not noted on the agenda. This appears here to ensure that both listings of the course reflect as inactive in the curriculum and in systems.

- ENGL 161  Film Appreciation  4
  Modify: textbooks
  Effective: As of this meeting
  Rationale: To bring course into alignment for UC-TCA resubmission. R. Cranley is manually updating the active course record in CurricUNET

- GEOL 166  Historical Geology  4

MODIFICATIONS

MATH 134  Elementary Statistics 5
Effective: Summer 2012, Expedited SUMMER 2013 (Request overridden by the Office of Instruction, deadlines for spring scheduling had passed) To comply with newly revised code or law. This course appears on the 09/25/2012 agenda because the CurricUNET record required updating. On 04/10/2012, the course requested expedited removal of the materials fee for Summer 2012, however, the CurricUNET record was not updated at the time. This appears on
this agenda to show that the faculty have revised the record in CurricUNET so the record is now current.

**MODIFY:** materials fee, methods of instruction, methods of evaluation.

**Enrollment Restrictions:** Maintaining; (P) Satisfactory completion of MATH 90 or qualification by the MJC assessment process.

**Distance Education Status:** None

**Materials Fee Status:** Removing fee of $3

**Articulation Status:** Transfer to CSU and UC

**General Education Status:** Approved for (MJC-GE: D2) ((CSU-GE: B 4) (IGETC: 2)

**Rationale:** Collecting a materials fee for a software package the students will no longer receive is illegal.

**Program Impact:**
1. CSU General Education Pattern Certificate of Achievement
2. General Studies, Emphasis in Language and Rationality A.A. Degree
3. Kinesiology AS-T Associate of Science for Transfer
4. MJC-GE Pattern A.A. Degree Major
5. University Preparation, Emphasis in Agricultural Sciences A.A. Univ Prep - Area of Emphasis

1. Art A.A. Degree  
2. Art Gallery / Museum Studies Skills Recognition Award  
3. Art History for Transfer AA-T Associate of Arts for Transfer  
4. CSU General Education Pattern Certificate of Achievement  
5. General Studies, Emphasis in Humanities A.A. Degree  
6. MJC-GE Pattern A.A. Degree Major  
7. Photography A.A. Degree Major  
8. Studio Arts for Transfer AA-T Associate of Arts for Transfer  
9. University Preparation, Emphasis in Humanities A.A. Degree  

MODIFICATIONS pulled for discussion by M. Garcia due to concerns about Typical Assignments. Reference to Phidias seemed unclear, was this a type of assignment, or an example of an assignment? The group agreed that it appeared to be an example of an
assignment rather than a category of types of assignments, and revised Typical Assignments to clarify it as an example. Another member expressed concern that the Methods of Instruction appeared to be student-centered rather than instruction centered. The language was revised making it clear that these were teaching methods, not student assignments.

M/S/U (C. VAUGHN, J. BEEBE) to MODIFY BUSAD 230
M/S/U (C. MULDER, L. HATCH) to MODIFY DE MODALITIES for BUSAD 230
GE Request for BUSAD 230 pulled for discussion by M. Garcia due to concern that the course did not meet CSU-GE Reviewer Criteria for Area E. C. Mulder noted that typically, when reviewing for MJC-GE: E we place only those courses that incorporate more than one finite area of content. This appears too narrowly focused. R. Cranley noted that she had initially removed a request for placement on MJC-GE: E for this reason, and had suggested CSU-GE as an alternative when seeing other colleges that had qualified for CSU-GE:E, but added that she had missed additional reviewer criteria for the CSU-GE:E. N. Sill (BUSAD) explained that actually, the content of the course does incorporate the additional criteria (sociological, physical, and psychological content) such as Estate planning, wills, and corresponding life phases. It’s just not well-documented on the outline. It was agreed that the request to place on CSU-GE should be withdrawn, and that it should be brought back to committee soon for consideration for CSU-GE: E AND MJC-GE:E, contingent on the faculty author(s) broadening the content the outline prior to moving it to the implementation level in CurricUNET.

**General Education Status**: Not approved for GE

**Rationale**: Updating for course compliance and to adhere to curriculum review matrix.

**Program Impact**: 
1. Respiratory Care A.S. Degree

**RSCR 230 modifications pulled for discussion by M. Garcia** due to questions about repeatability. He noted that the current catalog shows that the course is repeatable one time, while this version does not allow for repeats. This is a change, but it is not noted as a change. L. Miller noted that the catalog may be incorrect. It was suggested that this be looked into. L. Miller, investigated on 09.27.12 and found that the active version of the course is correct in CNET, since the course was approved on 09.06.05 for no repeats. Datatel and the catalog are erroneously allowing for one repetition. L. Miller will reflect this change in the minutes to ensure that the repetitions need to be fixed in systems and publications.

**RSCR 230 requisites pulled for discussion by M. Garcia** due to questions about AP 150. After discussion and input from P. Upton and L. Lanigan, it was determined that the requisite of AP 150 is appropriate.

**Note:** (09/25/12 AM) The BUSAD department wishes for this course to be equated to MATH 50 so that students who have completed MATH 50 in the past may not enroll in BUSAD 50.

**Enrollment Restrictions:** Requesting: (A) before enrolling in this course, students are strongly advised to satisfactorily complete MATH 20 or qualify by placement through the MJC assessment process.

**Distance Education Status:** Requesting Mixed Modalities/Hybrid course, Online course

**Materials Fee Status:** None

**Articulation Status:** Does not transfer

**General Education Status:** Not approved for General Education

**Rationale:** Course currently taught as MATH 50 and is scheduled to be inactivated in Spring 2013. Business department will propose this as a new course offering.

**Program Impact:**
- Stand Alone (at the time of the meeting)

The BUSAD department plans to revise the following programs in CurricUNET so that BUSAD 50 replaces all MATH 50 requirements.

**Planned Program Impact:**
1. Accounting Certificate of Achievement
2. Accounting Clerk Certificate of Achievement
3. Bookkeeping Certificate of Achievement
4. Bookkeeping A.A. Degree
5. Bookkeeping A.S. Degree
6. Clerical Certificate of Achievement
7. Office Administration Certificate of Achievement
8. Professional Selling Certificate of Achievement
9. Retail Management (WAFC) Certificate of Achievement

**BUSAD 50 pulled for discussion by E. Maki** due to puzzlement that there were so many programs associated with BUSAD 50, but that the program status in the system was identified as stand-alone. N. Sill explained that the course is intended to replace MATH 50 (being inactivated on this agenda) in the curriculum, and that all programs which require MATH 50 will need to be updated to show that they require BUSAD 50. L. Miller explained that because BUSAD 50 was created as a new course instead of renaming MATH 50 that the relationships to those programs are now broken, requiring the departments to have to modify each program independently. Also, the history of the course (showing that it was "formerly listed as MATH 50") will not auto-populate as it should because the system sees BUSAD 50 as a new course.
If the course were simply renamed and recoded from the MATH 50 record, this could be facilitated automatically by the system. The history would be retained and the relationships to the programs would be updated automatically from the revised course record. It was explained that the course was not copied from MATH 50 because the system would not allow for BUSAD faculty to author MATH courses. L. Miller asked if this was a circumstance in which there should have been administrative override to allow for this unique interdivision course change. The authors expressed a willingness to pull the course and fix it. B. Adams emphasized that this is an implementation issue, not a committee decision of appropriateness of the course, and Instruction Office should be able to fix the record for implementation purposes. The BUSAD faculty expressed concern for how it would affect the workload of the Instruction Office. It was determined that Instruction would resolve the issues with the BUSAD and MATH 50 records outside of the meeting to ensure the data updates correctly for the purpose of the record.

M/S/U (P. UPTON, E. MAKI) to ADOPT BUSAD 50
M/S/U (J. SOLA, S. CIRCLE) to ADOPT REQUISITES for BUSAD 50
M/S/U (C. MULDER, L. HATCH) to ADOPT DE MODALITIES for BUSAD 50

IX. UNFINISHED BUSINESS

Action Items

1. **Course Substitutions for Academic Awards**  
   M. Robles / B. Adams  
   M. Robles reported that, for unknown reasons, she did not receive the updated form, and therefore it was not distributed for use this summer. E. Maki explained he had received a form that was very vague and provided no supporting documentation. He shared that he, and staff in his division are very unclear as to where the completed forms originate. It was suggested that, when the final form is available, that training be provided to the division. M. Robles stated that, upon receipt of the form, she would distribute it for use and report back to the committee at the end of the fall semester.

Informational Items

   L. Miller

2. **Independent Study and Work Experience Course Outlines**  
   Postponed Indefinitely  
   B. Adams

3. **CCCCO Curriculum Inventory**  
   B. Adams  
   B. Adams reported that, per a memo from the CCCCQ, the CCCCQ Curriculum Inventory, Version 2 (CIV2) is now live. Anyone can access the site to pull reports on course and program data on file at the CCCCQ. Users can search for unique codes and TOP codes, units awarded, and award types. It will eventually have an interface in which users can enter course and program applications driven by the options selected. In the past, users had to know which form was required for the action being taken. The system is to be implemented in phases. Until the broader user interface is developed, only core curriculum process personnel at MJC will be given access, which is managed by the Vice President of Instruction.

X. NEW BUSINESS

Action Items

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   No Report  
   L. Miller

2. **Outcomes Assessments and Curriculum Modifications**  
   J. Todd/L. Miller  
   The committee maintained that it wanted to see a revision to the CurricUNET mockup provided by B. Sanders which would prompt faculty to note that (when applicable) curriculum changes were being made as a result of insights gleaned from outcomes assessment. The committee wanted to see overt linkage of justification to actual assessments. The revision had not been completed. L. Miller said she would work with B. Sanders to develop the mockup.  
   **TOPIC TABLED UNTIL THE NEXT MEETING**

Informational Items

1. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles  
   M. Robles reported that MJC is in compliance with regulations on prerequisites/co-requisites/advisories. We use content validity and statistical validation to ensure requisites and advisories are appropriate for courses.
She shared the regulations may require that we only use a content-validity model. B. Adams shared that there have been concerns about enrollment in the past, but that we cannot let numbers affect our decisions if the ultimate goal is student success.

2. **Course Inactivation and Program Impacts**

   B. Adams

   B. Adams raised the topic of the impacts of course inactivations on academic awards, for example, when a course is inactivated, and required for a degree or certificate, what happens to the award? Who is responsible for updating it? Might we add a radio button asking authors to confirm that they will reconcile affected awards?

   She asked the group to think about this. Should the inactivation interface require more of the initiating faculty? For example, if an award is affected, should that faculty be required to update the award at the same time? It was asked what would happen if the award affected was not in the author’s area? What would the process look like then? L. Miller pointed out that this affects not only awards, but other courses, for example, when an inactivated course is a prerequisite for another course. The group agreed to keep this topic under discussion.

**XI. TASK FORCES**

1. **CurricUNET Implementation Task Force Update**

   B. Adams/L. Miller

   B. Adams informed the committee that a few issues still had outstanding tickets in Governet, and that hopefully they would be resolved soon.

**XIII. PUBLIC COMMENT**

*M/S/U to adjourn the meeting at 4:35 PM*

Others Present: L. Gerasimchuk (Administrative Assistant, Instruction Office), J. Hughes (Evaluator), L. Miller (Curriculum Specialist), L. Kropp (BUSAD), N. Sill (BUSAD), G. Wray (AUTEC)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the committee approved the order of the agenda taking into account that guests from AUTEC and BUSAD were present.

II. APPROVAL OF MINUTES

September 25, 2012

M/S/U (C. MULDER, J SOLA) to approve the minutes of 09/25/2012

III. COURSE NOTIFICATION AGENDA

Hearing no objections, the committee was notified of the following actions

Because of extenuating circumstances encountered during scheduling, the VPI (S. Kincade) authorized expedited implementation of FSCI 328 for Spring 2013, instead of Summer 2013. The course was originally approved for SU 2013 implementation at the 01/17/12 meeting. The minutes of that meeting appear below.

UPDATES

PLACEMENT OF COURSES IN DISCIPLINES:

During blanket discussion of course modifications, M. Adams asked why some courses coming through CurricUNET as regular course proposals did not have disciplines assigned to them. He wanted to remind the committee that courses need to have this in place. Some mentioned the field does not always work. Some explained that, if the proposal was launched prior to the interface being developed, that the system would not have captured this information.

**ART 173 pulled for discussion by C. Mulder due to concerns about the proposed repeat policy.** She noted that repeatability is allowed, but this is also an activities course. She expressed concern in light of the new Title 5 regulations on repeatability. It was noted that the TOP code had changed to a vocational TOP code. Many solutions to the problem were discussed, including revising the repeat policy and content at the meeting, or sending it back to the author. B. Adams noted that there is an additional meeting wherein this course could be approved, and also reminded the committee that courses need to be compliant for repetitions by FALL 2013. The issue focused on the fact that the course appeared to be coded as a vocational course, but was also retaining Activities placement. C. Mulder noted that a course cannot have activities placement and repeatability. L. Miller informed the group that repetitions are not currently reported to the state, but will be soon. She advised the group that if the course is to be evaluated and revised, that the coding be reevaluated as well.

M/S/U (C. MULDER, E. MAKI) WITHDRAWN BY REP for further evaluation of the REPEAT POLICY and CODING.

IX. STANDING REPORTS

1. Transfer Model Curriculum  B. Adams
   B Adams reported that she and R. Cranley met with the English department to discuss the English TMC.
   The department determined that it needs to revise curriculum to align with C-ID descriptors to be eligible for
   the English A.A.-T degree. E. Kerr reported that C. Hudelson Putnam had spoken to the division about
   TMC. M. Garcia had questions about the 80% criteria for TMC compliance in Fall 2012. It was unclear who
   was held accountable to the 80% number for determining compliance. L. Hatch stated that she had spoken
   with a CCCCO representative who said it was for the CCCCO, who would strive to approve 80% of all
   eligible TMC applications received by Fall 2013. Some felt that was an erroneous interpretation. B. Adams
   cited a CIO listserv memo from the CCCCO stating that colleges will have to have 80% of eligible TMC
   programs established by Fall 2013, and noted that there have to be programs developed at the local level in
   order for the CCCCO to approve 80% of the programs.

2. C-ID  R. Cranley
   R. Cranley reported that she had announced to the college that DIG (Discipline Input Groups) are being
   established in new disciplines, including but not limited to; Graphic Design, Child and Adolescent
   Development*, Exercise Science*, Graphic Arts/Graphic Design, Health Science, Hospitality/Hotel
   Management, Nutrition/Food Science/Dietetics, and Environmental Science/Studies. B. Sinclair (CMPGR)
   will be attending the DIG event taking place October 19th in SF/Millbrae.
   New descriptors are in need of vetting and faculty are encouraged to participate in vetting the new C-ID
   descriptors at http://www.c-id.net/forum.html
   R. Cranley stated that the English department helped to facilitate the process of vetting the C-ID
   descriptors. She is going to talk with Counseling as well.
   M. Adams wanted clarification on expediting C-IDs. B. Adams explained that to comply, we will need to
   expedite courses, if discipline faculty members self-certify that the courses on TMC templates align with the
   C-ID descriptors. She did note, however, that expediting for SPRING 2013 does not seem feasible from an
   operational standpoint.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   B. Adams explained to the committee that, since implementation is not a task force, and does not appear to
   be an issue that will end, that it no longer will be classified as a task force. She reported that this item will
   now appear under Reports, and that she will simply report on issues and progress being made with the
   system. For example, she submitted two new “tickets” to Governet to facilitate getting some bugs/issues
   resolved in the system.

X. UNFINISHED BUSINESS
**Action Items**

1. **Course Substitutions for Academic Awards**  
   M. Robles / B. Adams  
   M. Robles will come back with a report on the new Course Substitution form at the end of the term. The form has been sent to the divisions.

2. **Outcomes Assessments and Curriculum Modifications**  
   J. Todd/L. Miller  
   J. Todd reported that the Outcomes Assessment Workgroup (OAW) are in the process of looking at CLOs using the newly established CurricUNET review process for CLOs. Two reports are in the process of being developed. One is for ACCJC. It is clear that Outcomes Assessment is driving accreditation.

   The OAW is attempting to develop a process for review of outcomes statements, and are striving to incorporate that into the established cycle of curriculum and program review. A new assessment cycle will begin in Spring 2013. The goal is to have courses assessed every two years. Faculty will need to see that CLOs inform PLOs.

   J. Todd continued by reporting on the Student Success Conference he attended the week previously. He saw examples of institutions that was assessing at all levels of the institution. For example, one institution gave a test to exiting graduates. He remarked that this was a questionable approach. His vision would be to streamline assessment and try to incorporate as much of it as possible into the course level using embedded assessment. This spring, at Assessment Day the goal is to map CLOs to PLOs and to ILOs.

**Informational Items**

1. **Equate Courses and Repetitions**  
   Postponed Indefinitely  
   L. Miller

2. **Independent Study and Work Experience Course Outlines**  
   Postponed Indefinitely  
   B. Adams

3. **Policies for Prerequisites/Corequisites/Advisories**  
   A meeting will be held on Tuesday, October 16 with those who volunteered to be members of the subcommittee. Each volunteer should have received an invitation.  
   M. Robles

4. **Course Inactivation and Program Impacts**  
   In response to the dialog at the last curriculum meeting, B. Adams showed the committee that the week’s voting grid spreadsheet included another worksheet containing an overview of program impact in a format that was sortable. She hopes to expand this with each meeting’s data, and give it back to the group during catalog production so that they can review their programs for accuracy for the next catalog. The appreciation for B. Adams’ efforts in the room was palpable, as the group recognized the importance of the task and the amount of work required to complete it.  
   B. Adams

**XI. NEW BUSINESS**

**Action Items**

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   No Report  
   L. Miller

**Informational Items**

1. **Repeatability for PE and Visual and Performing Arts**  
   B. Adams  
   B. Adams reminded the committee that the state has come out with new Title 5 criteria on repeatability, but
that there is still some confusion on the issue. Guidelines have been provided on how disciplines may go about creating “families” or sequences of courses in lieu of previously established repeat policies no longer permitted. She showed a report she worked with L. Miller to extract from Datatel, which identifies the “registration retake policy” currently in place for active courses. She informed them that there are over 300 courses that may require attention. The group was surprised by the volume. The group was interested in seeing the documentation and language from the state, and B. Adams agreed to send out information to the group.

XII. PUBLIC COMMENT

M/S/U to adjourn at 4:04 PM

Members Absent: Community & Economic Development Rep. (Vacant), Student Services Rep. (Vacant) J. Todd (Co-Chair/President-Elect Academic Senate)

Others Present: L. Gerasimchuk (Administrative Assistant, Instruction Office), L. Miller (Curriculum Specialist) K. Kennard (HUMSR), C. Hudelson Putnam (BBSS), B. Sanders (SME), J. Varble (ASMJC), L. Dyrssen (ASMJC), J. Hughes (Evaluations)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the committee approved the order of the agenda noting a request by C. Mulder to accommodate the guest(s) in attendance

II. APPROVAL OF MINUTES

October 9, 2012

Hearing no objections, the committee approved the minutes of 10/9/2012

III. COURSE NOTIFICATION AGENDA

Hearing no objections, the committee was notified of the following inactivations

The following inactivations appear before the committee to show that the courses have been inactivated in CurricUNET. When the program discontinuances occurred and courses were inactivated across the curriculum in Fall 2011, the SME division was unable to inactivate these courses because revisions to these courses had recently been revised by the faculty author, and were pending in the system.

MODIFICATIONS/REACTIVATIONS

AG 249  Agriculture Internship  
Effective: Spring 2013  
Expedited!!  
SUMMER 2013  
Rationale for Expedited Approval: To ensure student progression within program. Expedited approval will allow the internship course to be offered next semester.  
Request for expedited approval overridden by Instruction Office. Timelines for spring scheduling have passed. Course is currently active, and may be offered Spring 2013, however, for 4 units, instead of 2.  
**MODIFY:** Units, hours/face to face modalities, grading, content, methods of instruction, typical assignments, objectives, methods of evaluation.  
Enrollment Restrictions: None  
Distance Education Status: None  
Materials Fee Status: None  
Articulation Status: Transfer to CSU  
General Education Status: Not approved for GE  
Rationale: Expedited approval will allow the internship course to be offered next semester.  
Program Impact:  
Stand Alone

8. Recreational Land Management A.S. Degree
9. Recreational Land Management Certificate of Achievement
10. University Preparation, Emphasis in Agricultural Sciences A.A. Univ Prep - Area of Emphasis
AGM 215 pulled for discussion by M. Adams due to concerns about the lack of “disciplines” identified, and due to no summative assessments identified. Discussion was tabled (K. Ennis, J. Beebe) while the representative sought information from the author. When discussion was brought back (J. Sola, E. Maki) M. Boyd consulted with author who confirmed that there is a final exam for the course, and explained that all AGM courses would fall under the TOP discipline of Agricultural Engineering. It was noted that the new “disciplines” field was not available to T. Conrado at the time he authored the course. The changes were made to the course record during the meeting.
M/S/U (M. BOYD, M. ADAMS) to MODIFY AGM 215
M/S/U (J. BEEBE, C. MULDER) to MAINTAIN FEE for AGM 215

AGM 220  Industrial/Agricultural Machinery  3
Effective: Summer 2013
MODIFY: Content, typical assignments, objectives, methods of evaluation
Enrollment Restrictions: Requesting: (A) before enrolling in this course, students, are strongly advised to satisfactorily complete AGEC 280 with a minimum grade of C or better or other math equivalent
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: This course is up for mandated review
Program Impact:
1. Crop Science A.S. Degree
2. University Preparation, Emphasis in Agricultural Sciences A.A. Univ Prep - Area of Emphasis
AGM 220 pulled for discussion by R. Cranley who had concerns about references to a comment sheet and semester notebook. Her concerns were addressed.
M/S/U (E. KERR, E. MAKI) to MODIFY AGM 220
During blanket discussion of requisites, it was noted that the requisite was written with language no longer used by the committee, and that “other math equivalent” was also included. Concerns were also expressed about AG 280. M. Boyd clarified that the author wanted students to have sales knowledge, and that the appropriate requisite was actually AGEC 280.
M/S/U (L. HATCH, L. LANIGAN) to MODIFY REQUISITES for AGM 220
AGM 221

**Equipment Diagnosis & Repair**

AGM 230 pulled for discussion by M. Adams due to concerns about disciplines. During discussion of the course, M. Garcia asked about the course being cross-listed with ENGR 220. It was noted that the system was pulling this from somewhere, but no one was clear on the location. B. Sanders (CurricUNET lead) offered to follow-up.

ART 173
Digital Imaging for Photographers  3
Effective: Summer 2013
MODIFY: Description, repetitions, grading, hours/fac to face modalities, content, methods of instruction, typical assignments, textbooks, objectives, methods of evaluation.
Enrollment Restrictions: Maintaining: (A) before enrolling in this course, students are strongly advised to satisfactorily complete ART 170.
Distance Education Status: None
Materials Fee Status: Maintaining fee of $20
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for MJC Activities
Rationale: Major changes in software and some in overall curriculum. Important modification of lecture and lab unit values to reflect actual course objectives and content. Also periodic review.
Program Impact:
1. Art A.A. Degree
2. Photography A.A. Degree Major

ART 173 pulled for discussion by M. Adams due to concerns that the methods of instruction resemble assignments. The item of concern was removed from the Methods of Instruction.
M/S/U (M. LYNCH, L. HATCH) to MODIFY ART 173
M/S/U (L. HATCH, L. LANIGAN) to MAINTAIN REQUISITES for ART 173
M/S/U (J. BEEBE, C. MULDER) to MAINTAIN FEE for ART 173
M/S/U (E. MAKI, J. SOLA) to MAINTAIN PLACEMENT of ART 173 on ACTIVITIES
ART 175  Color Photography  3
Effective: Spring 2013 Expedited!  Summer 2013 Request for expedited implementation
overridden by Instruction Office.  To ensure student progression within program: "Art 175 is a
required class for photography majors and is in danger of being out of compliance. Since the class
is offered only once per year, I hope that expedition will help avoid problems with scheduling."
Curriculum review dates drive compliance criteria, not effective dates of courses that have been
reviewed. No problems with scheduling should be encountered since the course will have gone
through curriculum review.
Modify: Description, requisite skills, content, methods of instruction, typical assignments,
textbooks, objectives, methods of evaluation.
Enrollment Restrictions: Maintaining: (A) Satisfactory completion of ART 172 or 186.
Distance Education Status: None
Materials Fee Status: Decreasing fee from $46 to $45
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for MJC Activities
Rationale: Art 175 is a required class for photography majors and is in danger of being out
compliance. Since the class is offered only once per year, I hope that expedition will help avoid
problems with scheduling.
Program Impact:
1. Art A.A. Degree
2. Photography A.A. Degree Major
ART 175 pulled for discussion by M. Adams stating that the methods of instruction resemble
assignments. The item of concern was removed from the Methods of Instruction.
M/S/U (M. LYNCH, L. HATCH) to MODIFY ART 175
Requisites for ART 175 pulled for discussion by M. Adams stating the course needs requisite
skills from both requisite courses. Discussion ensued and some committee members explained
that ART 186 is the second half of ART 172.
M/S/U (E. MAKI, M. ADAMS) to MAINTAIN REQUISITES for ART 175
M/S/U (M. LYNCH, C. MULDER) to MODIFY DE for ART 175

ELTEC 221  Instrumentation Devices and Systems  3  
**Effective:** Spring 2013  
**Rationale for expedited approval:** “To ensure student progression within program. To offer course, course outline hours and units must reflect course layout of course for Spring 2013. This hour modification will ensure this information is accurately reflected.” Instruction Office confirmed that erroneous errors on the course outline could be traced to a clerical data-entry error when we migrated to CurricUNET. P Wallace and L. Miller agreed to accommodate expediting the changes for Spring 2013, deadlines permitting.  

**MODIFY:** Hours/face-to-face modalities, objectives, content  
**Enrollment Restrictions:** Maintaining: (P) Satisfactory completion of ELTEC 208.  
**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Transfer to CSU

**Materials Fee Status:** Increasing fee from $300 to $305 (from 11/22/11 expedited approval for fee change)  
**Articulation Status:** Does not transfer  
**General Education Status:** Not approved for GE  
**Rationale:** Course is being modified to include prerequisites that have been recommended by advisory committee, to choose a discipline, and to update textbook.  
**Program Impact:**  
1. Fire Science A.S. Degree  
2. Fire Science Certificate of Achievement  
*M/S/U (E. MAKI, J. BEEBE) to MODIFY FSCI 362*  
*M/S/U (L. HATCH, L. LANIGAN) to MODIFY REQUISITES for FSCI 362*

During discussion of the blanket vote for materials fees, J. Sola expressed concern about the accuracy of the figure on the agenda and voting grid. B. Adams reminded the committee the course was brought back for expedited change on 11/22/11 meeting, which is why the figure is different from the prior version of the course in CurricUNET. The course record was not updated at the time of the expedited fee change, resulting in the discrepancy.  
*M/S/U (J. BEEBE, C. MULDER) to INCREASE FEE for FSCI 362*
FSCI 363  Advanced Fire Academy
Effective: Summer 2013
MODIFY: Hours/face-to-face modalities, description, textbooks, content.

### HUMSR 144 Human Services Practicum

**Effective:** Summer 2013  
**Spring 2013**  

**Rationale for Expedited Approval:** To facilitate workforce training demands. This course is expected to be offered online to students by the Spring semester of 2013. **Expedited approval overturned by the Instruction Office.**

Timelines for spring scheduling have passed. Changes to courses at this time will have adverse effects on personnel and processes already in motion for Spring 2013.

**MODIFY:** Title, description, hours/face-to-face modalities, enrollment restrictions, requisite skills, content, methods of instruction, typical assignments, textbooks, objectives, methods of evaluation.

**Enrollment Restrictions:** Requesting: (A) before enrolling in this course, students are strongly advised to satisfactorily complete HUMSR 110 or satisfactorily complete HUMSR 111 and be currently enrolled in CASRA or CAADE program at the college; Removing: (A) satisfactorily complete ENGL 101.

**Distance Education Status:** Requesting: Online, Hybrid, Telecourse

**Materials Fee Status:** None

**Articulation Status:** Transfer to CSU

**General Education Status:** Not approved for GE

**Rationale:** This course is expected to be offered online to students by the Spring semester of 2013.

**Program Impact:**

4. Human Services A.A. Degree
5. Human Services/Chemical Dependency Counseling A.A. Degree
6. Psychosocial Rehabilitation Skills Recognition Award

**Rationale:** HUMSR 144 pulled for discussion by C. Mulder due to concerns about repeatability in light of major changes to Title 5 and repeatability and repetitions, and CLOs for the course. B. Adams explained that the repeatability is likely to go away per Title 5. K. Kennard offered to provide the CLOs.

**Program Impact:**

- M/S/U (M. GARCIA, K. ENNIS) to MODIFY HUMSR 144
- M/S/U (L. HATCH, P. UPTON) to MODIFY REQUISITES for HUMSR 144
- HUMSR 144 pulled for discussion by C. Mulder due to questions about how practicums are completed in a DE environment. K. Kennard explained that the program has funds to pay individuals to go to the sites, and also provide technologies to students in the program.
- M/S/U (M. LYNCH, L. LANIGAN) to ADD DE MODALITIES to HUMSR 144

POLSC 196  Internship in Political Science  2
Effective: Summer 2013
MODIFY: Units, description, content, requisite skills, hours/face-to-face modalities, objectives, methods of evaluation.
Enrollment Restrictions: Maintaining: (C) Concurrent enrollment in POLSC 195.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for (MJC-Activities)
Rationale: After having taught the course for about five years, I have learned it is best to offer POLSC 196 (Internship in Political Science) as a fixed two-unit course. This is because POLSC 196 as a two-unit course requires students to work as an intern for 6-10 hours per week. This works best for everyone involved in the internship program. So I request that instead of continuing to have POLSC 196ABC, which is a variable unit course, we just have POLSC 196 as a fixed two-unit course. I also revised the catalog description to indicate that students may intern for a public interest law organization. I did this because these organizations, such as CRLA, do work that relates well to topics in our political science classes.

**HUMSR 146 Psychosocial Rehabilitation with Children/Families**  
**Effective:** Spring 2013 Expedited Summer 2013 Request overridden by Instruction Office: Skills
Recognition Award is not yet active (SUMMER 2013). NEW COURSE APPLICATION would require YCCD BOT approval, as well as CCCCO approval prior to November. Scheduling deadlines for SPRING 2013 passed in early September. Not a feasible timeline for implementation.

**Rationale for Expedited Approval:** This course is being proposed to meet the emerging need in the human services field to recruit and hire qualified persons to provide services for people who have mental health problems, including consumers and family members as employees in the mental health system.

**ADOPT**

**Enrollment Restrictions:** None

**Distance Education Status:** Requesting: Online

**Materials Fee Status:** None

**Articulation Status:** Transfer to CSU

**General Education Status:** None

**Rationale:** The lead writer received a grant from the California Institute of Mental Health to expand, and develop an online component for the Skills Recognition Award in Psychosocial Rehabilitation that is currently offered at the college. Program Learning Outcomes

(NONE)

Program Changes that do not require Chancellor’s Office Notification/Application

SR: Autobody/Refinishing 10 units
   MODIFY program description, program learning outcomes, required courses, total units
   Effective: Summer 2013
   Rationale: This program is being revised due to the removal of AUBDY 115, AUBDY 399 and the addition of AUBDY 301.
   M/S/U (J. BEEBE, L. HATCH) to MODIFY the SR in Autobody Refinishing

AS: Health and Physical Education 19 units
   MODIFY program learning outcomes
   Effective: Summer 2013
   Rationale: This is a current program for Physical Education transfer students. In addition to PE, this major will enable students who have completed the pre-requisite course work for the MJC Nursing Program to receive an AS degree.
   M/S/U (J. BEEBE, L. HATCH) to MODIFY the AS in Health and Physical Education

CCC-501: Application for Approval - New Credit Programs

AA: Dance 22-23 units
   ADOPT
   Effective: Summer 2013
   Rationale: The Modesto Junior College Dance Department offers a comprehensive foundation in the theory, history, technique, and art of dance to students seeking a degree to transfer or dance training and enrichment. The department offers a structured program of dance study in the areas of core techniques, historical and contemporary styles, choreography, performance, and dance history. Students have the opportunity to demonstrate their abilities through technical, interpretive, and expressive dance, as well as public performances. Students qualify to pursue a variety of dance-related careers and advanced degree options. Upon completing the course requirements for this major, the successful student will earn an Associate in Arts Degree in Dance. The transfer program offers a variety of courses in dance technique in the areas of jazz dance, ballet, modern dance and choreography. Students also have the opportunity to perform in a public departmental dance production each semester and in an informal dance showing each school year. The AA Dance degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors in the Fine and Performing Arts. The degree is designed to prepare students to meet the admission criteria for programs such as a Bachelor of Fine or Performing Arts which may require performance, technique, dance history, and a choreography requirement.
   M/S/U (J. BEEBE, L. HATCH) to ADOPT the AA in Dance and forward to the YCCD BOT and CCCCO for approval

CCC-511: Non-Substantial Changes to Approved Program or Change of Active–Inactive Status

C: Autobody/Collision Repair 19 units
   MODIFY Program description, program learning outcomes, competencies (removed), required
courses, total units

Effective: Summer 2013

Rationale: This program is being modified due to the removal of MATH 20, AUTEC 311 and the inactivation of AUBDY 115. This program is being modified due to the removal of MATH 20, AUTEC 311 and the inactivation of AUBDY 115.

M/S/U (J. BEEBE, L. HATCH) to MODIFY the C in Autobody/Collision Repair

AS:
Automotive Technician (formerly Automotive Technology) 38½ units

MODIFY: Award title, required courses, elective courses, total units

Effective: Summer 2013

Rationale: This program proposal will remove AUTEC 115, MACH 301 and 211D from the list of required courses and introduce AUTEC 211 as an elective and move ELTEC 208 from a required to an elective. These changes were approved by our automotive advisory committee to make our program more relevant to automotive industry needs and provide better choices for our students.

M/S/U (J. BEEBE, L. HATCH) to MODIFY the AA in Automotive Technician

AA:
Chemical Dependency Counseling (formerly Human Services/Chemical Dependency Counseling) 36 units

MODIFY: Award title, program learning outcomes, required courses, total units

Effective: Summer 2013

Rationale: As of April 1, 2005, the counselor certification regulations, Title 9, Division 4, Chapter 8, made specific the requirements regarding counseling services in any Alcohol and Other Drug (AOD) program licensed or certified by the Department of Alcohol and Drug Programs (ADP). Within six (6) months of the date of hire, all non-licensed or non-certified individuals providing counseling services in an AOD program must be registered to obtain certification as an AOD counselor by one of the approved certifying organizations, complete certification as an AOD counselor within five years from the date of registration, and complete of a minimum of forty (40) hours of continuing education every two years. ADP currently recognizes the California Association for Alcohol and Drug Educators (CAADE), as a National Commission for Certifying Agencies (NCCA) accredited organizations to register and certify AOD counselors in California. On January 15, 2010, the MJC Chemical Dependency Program, was accredited by the California Association of Drug and Alcohol Educators (CAADE) pending the proposed changes that will make MJC the only community college in Stanislaus County with a Chemical Dependency Counseling program that meets the educational requirements necessary to take California’s Department of Alcohol and Drug Program’s (ADP) state licensing exam.

M/S/U (J. BEEBE, L. HATCH) to MODIFY the AA in Chemical Dependency Counseling

IX. STANDING REPORTS

1. Transfer Model Curriculum  
   B. Adams
   B. Adams and R. Cranley met with Child Development to give them an overview of TMC and C-ID. N. Sill (BUSAD) and G. Hausmann (ADJU) are working on TMC templates for their disciplines. L. Miller explained that the new CCCCO Inventory has a standard template faculty authors should be using for substantial program changes and new program applications.

2. C-ID

   B. Adams continues to submit tickets CurricUNET issues as they arise.

X. UNFINISHED BUSINESS
Action Items

1. **Course Substitutions for Academic Awards**  
   M. Robles  
   Postponed until December

2. **Outcomes Assessments and Curriculum Modifications**  
   J. Todd/L. Miller  
   B. Sanders (for J. Todd) spoke to recent questions posed by the Curriculum Committee on how to best show that curriculum is being modified as a result of outcomes assessment. B. Sanders reminded the committee that it requested programming that, when an author indicated a curricular change was occurring as a result of assessment, would prompt the author to select specific outcomes, in a manner similar to the interface asking authors to match objectives to assessments. B. Sanders reminded the committee there are many things that can drive curricular change that are exclusive of specific learning outcomes assessment. B. Adams noted a need for consistency in author responses, explaining how a blank field can lead to varying levels of clarity and quality. B. Sanders explained that this should be addressed through training, not system design and suggested a Curriculum Committee resolution explaining how the interface should function. B. Adams agreed to draft the resolution for the next meeting.

   B. Adams added that this topic may warrant creation of a new Standing Report from Outcomes Assessment Workgroup. B. Sanders noted that he has been working with the Outcomes Assessment Workgroup to model an outcomes assessment review process similar to the curriculum review process, and that K. Ennis may be ideally positioned to act as a liaison between Outcomes Assessment Workgroup and the Committee. She agreed. B. Adams stated she will draft a resolution for committee to review to approve the addition of an Outcomes Assessment Workgroup Standing Report to the agenda.

3. **Policies for Prerequisites/Corequisites/Advisories**

XI. NEW BUSINESS

Action Items

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   L. Miller  
   No Report
2. **Repeatability for PE and Visual and Performing Arts**

   B. Adams

   B. Adams referenced Title 5 § 55041 (A), noting that effective FALL 2013, certain types of courses would no longer be repeatable. She noted that local understanding, up to this point, had been that this change would affect only Fine and Performing Arts, and Physical Education activities courses. However, recent presentations on Repeatability throughout the state have provided clearer information that suggests that the revised regulations affect all credit courses. R. Cranley attended a Region 5 meeting on CIAC (California Intersegmental Articulation Council) on Friday, October 19 which included a presentation on repeatability which was very clear. Ultimately, colleges are being advised to respond to this revision to regulations by assuming that no course is repeatable, and then make the case for repeatability by showing the course meets one of three available criteria for repetitions. B. Adams noted that a Datatel extract on repeat policies currently enforced shows that there are 943 active courses that currently allow for repetitions. B. Adams had sorted and divided the list by representatives so that they could begin evaluating which courses would be affected and determining how to respond. S. Kincade (VPI) noted that there may be work-arounds available, but noted we must exercise caution in light of our accreditation status. She noted that while WASC/ACCJC does not enforce state regulation, it does want to ensure that we adhere to regulation at the state level or to regulation established by other relevant regulatory agencies. It was not clear how this affected courses in Work Experience, Field Studies, and those identified as Special Topics/Experimental. Lively discussion ensued as to how to respond. C. Mulder noted that the timeline is close to impossible to follow. She explained that her department has had only two to three weeks and that it seems there may be a lack of insight about how local processes work and the feasibility of completing the requisite work within such tight timeframes. L. Miller explained that changes must be made in Datatel by the Thanksgiving break in order to take effect in Fall 2013 and to avoid serious complications with the “roll” of the Summer and Fall schedules. Various solutions were proposed. M. Robles noted she thought a global change could be made in Datatel. It was decided that faculty would independently review their lists to determine which courses meet the criteria for course repeatability. S. Kincade advised the committee to look at the [PowerPoint](http://example.com) (PDF) B. Adams emailed the committee on Saturday, October 20.

*During blanket discussion of the motion to approve courses, S. Circle expressed concerns about the program impact. B. Adams noted that many of these courses have not been offered in over ten years. Is it fair to our students to list a course as an option that has not been offered in such a long time? Gail Brumley, per B. Adams, is updating the Commercial Floristry Certificate, which currently requires 41 units.*

UPDATES

PLACEMENT OF COURSES IN DISCIPLINES:

ENGL 112  Introduction to the Novel and Short Story  3
Modify: Disciplines
Proposed Discipline(s): ENGLISH
Rationale for Disciplines: “English 112 offers an introduction to the novel and short story
with emphasis on intelligent reading, analysis, and discussion of a range of fiction
representing various types and traditions. It requires the expertise of an instructor who has
met the minimum qualifications for English.”
M/S/U (S. CIRCLE, P. UPTON) to MODIFY ENGL 112

ENGL 161  Film Appreciation 3
Modify: Disciplines
Proposed Discipline(s): ENGLISH, FILM STUDIES
Rationale for Disciplines: “Rationale for Disciplines: English 161 is a course in the analysis
and interpretation of cinema’s technical devices and the variety of its discursive forms.
Students learn to isolate the themes of given films and closely analyze the manner in which
those themes are expressed and shaped through cinema’s technical resources and its
broader narrative and generic structures. The course thus requires faculty who are trained in
the close, critical reading of narrative forms and figural devices. Such faculty are those who
have met the minimum qualifications for the disciplines of English or Film Studies.”
M/S/U (S. CIRCLE, P. UPTON) to MODIFY ENGL 161

ENGL 162  History of Cinema  3
Modify: Disciplines
Proposed Discipline(s): ENGLISH, FILM STUDIES
Rationale for Disciplines: “Rationale for Disciplines: English 162 is a course that covers a
wide range of styles, genres and movements in the history of cinema as that history has
unfolded over the course of the last century. This course requires faculty with a demonstrated
degree of expertise in stylistic and genre analysis and with a solid background in the history of
artistic movements within field of narrative art. Faculty with such a demonstrated level of
expertise and such a background are those who have met the minimum qualifications for the
disciplines of English or Film Studies.”
M/S/U (S. CIRCLE, P. UPTON) to MODIFY ENGL 162
GEOG 101  Physical Geography  3
Modify: Disciplines
Proposed Discipline(s): GEOGRAPHY
Rationale for Disciplines: “This course introduces students to the geographical approach in examine the physical world using maps and global patterns of Earth Systems.

MODIFICATIONS/REACTIVATIONS

AGM 214  Equipment Service and Safety  1
Effective: Summer 2014
MODIFY: Hours/face to face modalities, content, typical assignments, textbooks, objectives.
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: Periodic review to update curriculum to the new format and review text.
Program Impact:
1. Basic Heavy Equipment Technician Certificate of Achievement
2. Heavy Machinery Management Certificate of Achievement
3. Mechanized Agriculture A.S. Degree
4. Mechanized Agriculture Technician Certificate of Achievement

AGM 214 pulled for discussion by M. Adams due to concerns that no disciplines were identified. M. Adams remarked that this was the only course without disciplines, and that by appearances, faculty are getting into the swing of this new process.
M/S/U (C. MULDER, M. ADAMS) to MODIFY AGM 214 contingent upon B. Adams following up with the course author to identify appropriate discipline(s) for the course
AGM 241  Diesel Engine Principles  
Effective: Expedited! Summer 2013  
Rationale for Expedited Approval: Course was submitted for 10/23/12 meeting, appeared on the agenda, was withdrawn and subsequently revised per discussion at the 10/23/2012 meeting.  
MODIFY: Materials fee, content, enrollment restrictions, requisite skills, typical assignments, textbooks, objectives, methods of evaluation  
Enrollment Restrictions: Requesting: (A) before enrolling in this course, students are strongly advised to satisfactory complete AGM 289 or satisfactorily complete AUTEC 289  
Distance Education Status: None  
Articulation Status: Transfer to CSU  
General Education Status: Not approved for GE  
Rationale: This course is up for mandated review  
Program Impact:  
1. Basic Heavy Equipment Technician Certificate of Achievement  
2. Mechanized Agriculture A.S. Degree  
3. Mechanized Agriculture Technician Certificate of Achievement

AGM 241 pulled for discussion by S. Circle due to the fact that Reviewer comments appear to not have been addressed. A Method of Instruction (MOI) appeared to be an assignment. M. Boyd decided on behalf of the author to omit the MOI in favor of moving forward.  
M/S/U (C. MULDER, E. MAKI) to MODIFY AGM 241  
M/S/U (L. HATCH, S. CIRCLE) to MODIFY REQUISITES for AGM 241  
M/S/U (S. CIRCLE, M. BOYD) to MODIFY FEE for AGM 241  
M/S/U (C. MULDER, E. MAKI) to EXPEDITE MODIFICATIONS of AGM 241

AGM 243  Heavy Machinery Electrical System  
Effective: Expedited! Summer 2013  
Rationale for Expedited Approval: Course was submitted for 10/23/12 meeting, appeared on the agenda, was withdrawn and subsequently revised per discussion at the 10/23/2012 meeting.  
MODIFY: Enrollment restrictions, materials fee, content, objectives, textbooks, requisite skills, learning outcomes  
Enrollment Restrictions: Maintaining: (A) before enrolling in this course, students are strongly advised to have successfully completed AGM 241. Removing: (A) AGM 241 (cross-listing was inactivated on 04/10/12)  
Distance Education Status: None  
Articulation Status: Transfer to CSU  
General Education Status: Not approved for GE  
Rationale: This course is up for mandated review  
Program Impact:  
1. Basic Heavy Equipment Technician Certificate of Achievement

M/S/U (S. CIRCLE, P. UPTON) to MODIFY AGM 243  
M/S/U (L. HATCH, S. CIRCLE) to MODIFY REQUISITES for AGM 243  
M/S/U (S. CIRCLE, M. BOYD) to MODIFY FEE for AGM 243  
M/S/U (C. MULDER, E. MAKI) to EXPEDITE MODIFICATIONS of AGM 243
AGM 245  Diesel Engine Fuel systems & Diagnosis  3
Effective: Expedited Summer 2013
Rationale for Expedited Approval: Course was submitted for 10/23/12 meeting, appeared on the agenda, was withdrawn and subsequently revised per discussion at the 10/23/2012 meeting.

MODIFY: Methods of instruction, objectives, methods of evaluation

Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: This course is up for mandated review
Program Impact:

1. Advanced Heavy Equipment Technician Certificate of Achievement

M/S/U (S. CIRCLE, P. UPTON) to MODIFY AGM 245
M/S/U (C. MULDER, E. MAKI) to EXPEDITE MODIFICATIONS of AGM 245

AGM 280  Mobile Machinery Hydraulic Systems  3
Effective: Expedited Summer 2013
Rationale for Expedited Approval: Course was submitted for 10/23/12 meeting, appeared on the agenda, was withdrawn and subsequently revised per discussion at the 10/23/2012 meeting.

Enrollment Restrictions: Removing: (A) before enrolling in this course, students are strongly advised to satisfactorily complete AG 280 and (AGM 215 or AGM 220)
Distance Education Status: None
Materials Fee Status: Maintaining fee of $10
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: This course is up for mandated review
Program Impact:

1. Basic Heavy Equipment Technician Certificate of Achievement
2. Mechanized Agriculture A.S. Degree

AGM 280 pulled by K. Ennis due to concerns about the course learning outcomes (CLOs) acting on her role as Outcomes Assessment Workgroup (OAW) liaison. J. Todd interjected to explain that, since the last meeting, the OAW has developed a stronger process for reviewing CLOs. Lengthy discussion ensued. What is the role of the committee in reviewing CLOs? What is the sequence? How is feedback exchanged? It was mentioned that this topic would resurface later in the meeting. K. Ennis withdrew her remarks and concerns. P. Upton noted that one of the MOIs seemed like assignments. It was identical to an MOI for AGM 241. M. Boyd decided on behalf of the faculty author to delete the MOI in the interest of moving forward.

M/S/U (P. UPTON, M. GARCIA) to MODIFY AGM 280
M/S/U (L. HATCH, S. CIRCLE) to REMOVE REQUISITES for AGM 280
M/S/U (S. CIRCLE, M. BOYD) to MAINTAIN FEE for AGM 280
M/S/U (C. MULDER, E. MAKI) to EXPEDITE MODIFICATIONS of AGM 280

MACH 213  Machine Tool Technology 3 4
Effective: Expedited Summer 2013
Rationale for Expedited Approval: Course was submitted for 10/23/12 meeting, was revised per Technical Review feedback, but not all concerns were addressed by the 10/23 meeting, so it was withdrawn by the co-chair.
MODIFY: Discipline/number, units, description, hours/face-to-face modalities, enrollment restrictions, content, methods of instruction, typical assignments, objectives, methods of evaluation.
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of MACH 212 or MACH 302
Distance Education Status: Requesting: Mixed Modalities/Hybrid
Materials Fee Status: Reducing fee from $37 to $30
Articulation Status: Transfer to CSU
General Education Status: Not approved for GE
Rationale: Periodic review and materials fee update. Change the lectures and operational demonstrations to hybrid online format to more effectively meet student needs.
Program Impact:
1. Machine Tool Technology 1 Skills Recognition Award
MACH 213 pulled for discussion by M. Garcia due to concerns that Typical Assignments only include one item in the first section. Is this enough? Many members replied that this is indeed acceptable, especially when considering the frequency. J Weaver added that the course has a strong lab component, which was validated by the hours of lab instruction.
M/S/U (K. ENNIS, E. KERR) to MODIFY MACH 213 with a friendly amendment to modify the assignments.
M/S/U (L. HATCH, S. CIRCLE) to MAINTAIN REQUISITES for MACH 213
M/S/U (L. HATCH, K. ENNIS) to ADD DE to MACH 213
M/S/U (S. CIRCLE, M. BOYD) to REDUCE FEE for MACH 213
M/S/U (C. MULDER, E. MAKI) to EXPEDITE MODIFICATIONS of MACH 213

MATH 111  Applied College Algebra 3
Effective: Expedited Summer 2013
Rationale for Expedited Approval: Course needs to be reviewed to assure C-ID compatibility.
MODIFY: Learning Outcomes, methods of instruction, Typical assignments, textbooks, methods of evaluation
Enrollment Restrictions: Maintaining: (P) satisfactory completion of MATH 90 or qualification by the MJC assessment process
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for (MJC-GE: D2) (CSU-GE: B4) (IGETC: 2)
Rationale: This minor revision is to assure compatibility with the C-ID system.
Program Impact:
1. CSU General Education Pattern Certificate of Achievement
2. General Studies, Emphasis in Language and Rationality A.A. Degree
3. MJC-GE Pattern A.A. Degree Major
4. University Preparation, Emphasis in Agricultural Sciences A.A. Univ Prep

NEW COURSES

ART 129  Figure Drawing 2  
Effective: Expedited! Summer 2013  
Rationale for Expedited Approval: Comply with change in law regarding repeatability.  
ADOPT  
Enrollment Restrictions: Requesting: (P) Satisfactory completion of ART 123  
Distance Education Status: None  
Materials Fee Status: None  
Articulation Status: Transfers to CSU and UC  
General Education Status: Requesting (MJC: Activities)  
Rationale: "Areas of Progress: By continuing this course of study, students will deepen and broaden their knowledge and understanding of the course objectives. In the second semester course work and critiques will target improvement in the areas of composition, control of materials, presentation of subject matter, and presentation of work. In the second semester students will focus on the area on concept, and will be encouraged to produce bodies of work in which individual pieces are related through content."  
Program Impact:  
Stand Alone  
ART 129 pulled for discussion by P. Upton, who noted that the CLOs and Learning Objectives were identical. This was a new issue facing the committee. Under whose jurisdiction would this fall? Are they, in effect, more appropriate as CLOs or Learning Outcomes? K. Ennis remarked that they are very robust, well written outcomes. J. Todd informed the group that objectives should inform outcomes. B. Adams noted that changes to objectives are the purview of the Curriculum Committee, and if the OAW recommended revisions to the objectives in light of any course learning outcome revisions, that they would need to reappear before committee for review. She reminded the committee that CLOs do not appear on the course outline of record (COR), and the committee’s charge is to review the components of the COR and ensure it is an integrated COR. Some asked if the course should be approved or sent back to author for revisions. E. Maki noted the need for expedited review to facilitate creating a family to comply with repeatability changes.  
M/S/U (E. Kerr, S. CIRCLE) to ADOPT ART 129
M/S/U (L. HATCH, S. CIRCLE) to ADOPT REQUISITES for ART 129

INACTIVATE
Effective: Summer 2013 Expedited!
Rationale for Expedited Implementation: Program inactivations are requesting expedited approval to align with effective dates for DAIND course inactivations.
Rationale: Program is being temporarily inactivated
During discussion of the blanket motion to approve program changes, E. Maki noted that the rationale for removal of the Dairy Industry program seemed weak. B. Adams noted she included remarks in Technical Reviewer comments section that addressed the inactivation. L. Miller explained that she pulled the “Rationale” for proposal from the Program interface. M. Boyd explained there are currently no faculty to teach that program.
M/S/U (M. BOYD, L. HATCH) to INACTIVATE the AS in DAIRY INDUSTRY

C: Dairy Industry Technician 17 units
INACTIVATE
Effective: Summer 2013 Expedited!
Rationale for Expedited Implementation: Program inactivations are requesting expedited approval to align with effective dates for DAIND course inactivations.
IX. STANDING REPORTS

1. Transfer Model Curriculum  
   B. Adams
   The committee can anticipate seeing up to three more TMC proposals at upcoming meetings. Business Administration, Administration of Justice, and Kinesiology proposals are all in development. The Business, Behavioral, and Social Sciences division has expressed interest in having a TMC presentation to explain the integration of TMC and C-ID. B. Adams explained that the college still has a great deal of work to do to meet the 80% standard for fall. C. Mulder and P. Upton noted that some proposals will require collaborative work between departments. The TMC in Kinesiology, for example, will require C-ID development in the sciences. S. Circle added that the English department is having many problems with developing descriptors, noting that, while there was a recent move to reduce the number of learning objectives for courses, established C-IDs for English show more learning objectives than MJC’s course outlines list. B. Adams presented a spreadsheet showing our local progress toward accomplishing the 80% TMC benchmark. Questions were raised about the status of Geology. B. Adams explained that the narrative documentation necessary for governing board and CCCCO approval has not been completed. This is an example of how past curriculum processes, for example, of allowing faculty authors to submit program requirements without the requisite paperwork, can prove to be problematic when trying to comply with external mandates.

2. C-ID  
   R. Cranley
   C-ID statuses
   - 346 Statewide C-ID descriptors have been finalized
   - 157 MJC courses have been submitted for C-ID
   - 76 MJC C-ID applications are in progress
   - 21 MJC courses have been granted C-IDs
   - 4 MJC courses have been conditionally approved
   - 3 MJC courses have been denied

3. CurricUNET Implementation/Issues  
   B. Adams/L. Miller
   C. Mulder noted that CurricUNET is currently not allowing users to save unit values, causing problems for C-ID necessitated course revisions and new course proposals for repeatability. B. Adams continues to send tickets to Governet regarding issues that surface.

X. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards  
   M. Robles
   Postponed until December

2. Outcomes Assessments and Curriculum Modifications  
   J. Todd/L. Miller
   B. Adams presented a proposal to add a standing report item to the agenda, “Outcomes Assessment Workgroup.” The purpose of the standing report is to inform the committee of problematic CLOs and bring them forward to the OAW, and report back to the committee on any actions taken by OAW.

   M/S/U (C. MULDER, L. HATCH) to APPROVE PROPOSAL TO INCLUDE STANDING REPORT ITEM WHICH WILL BE PRESENTED BY OAW LIAISON.

2. Repeatability
   B. Adams
   B. Adams put before the committee a resolution defining how the college would respond to the regulatory changes regarding repeatability.

   Modesto Junior College
   Curriculum Committee
   A Standing Committee of the Academic Senate
   Resolution: F12-CC2
   Course Repeatability

   Proposed by: Barbara Adams, Curriculum Co-Chair
   Whereas: New Title 5 regulations regarding course repeatability at California Community Colleges will become effective fall 2013; and
   Whereas: Modesto Junior College will be in compliance with the revisions to §55041, Course Repeatability; and
   Whereas: During the fall 2012 semester, the Curriculum Committee began discussion of a procedure to identify courses impacted by the repeatability changes and implement the appropriate changes to such courses; and
   Therefore: Be it resolved that the Curriculum Committee recommends that all repeatability be removed from appropriate courses, effective fall 2013.
   Therefore: Be it further resolved, that removing the repeatability conditions will not be done via course modifications, but rather, removed manually through the Instruction Office, which will provide a list courses which have had repeatability removed.
   Therefore: Be it further resolved, the MJC Curriculum Committee recommends the MJC Academic Senate approve the procedure to remove repeatability in order to be in compliance with revisions to §55041.

   M/S/U (L. HATCH, M. ADAMS) to APPROVE RESOLUTION: F12-CC2

Informational Items
1. **Degree Audit Demonstration**  
   **M. Robles/J. Hughes**

   J. Hughes presented the new degree audit capabilities within PiratesNet available to counseling faculty in Fall 2013. At this time, the team will be searching for bugs or errors. The goal is to have this available to the public in Spring 2014. The committee was extremely impressed with the tool. It was noted that it will be used for advising purposes only. It was asked how students pick programs. M. Robles explained the two phase process. First, upon registration, the student picks what is known as an uninformed goal, and then, after advising, picks an informed goal. E. Maki expressed concern that completer data was erroneous. He cited the example of community members who selected “music” as a program goal, when, in actuality; they enroll at MJC only to play in the ensemble on Wednesday nights. Those students, who do not “complete” a program count against the program in its completer data.

**XII. PUBLIC COMMENT**
I. APPROVAL OF ORDER OF AGENDA

Hearing no objection, the order of the agenda was approved with the condition that the attendance of the BUSAD faculty would be taken into consideration when determining the order in which to review and vote on course proposals.

II. APPROVAL OF MINUTES

November 6, 2012

Hearing no objection, the minutes of November 6, 2012 were approved.

INACTIVATIONS

Curriculum Committee approval pending, the Instruction Office has authorized the expedited inactivation of the following inactivation proposals for 2013-2014 in order to help facilitate a more accurate catalog, to ensure accuracy of curricular offerings for students in 2013-2014, and to simplify the alignment of course outcomes to programs and program outcomes.

Curriculum Committee approval pending, the Instruction Office has authorized the expedited inactivation of the following inactivation proposals. While the Engineering program was inactivated due to program discontinuance in Fall 2011 and struck from the catalog, these courses were still active, creating problems for transfer students. The courses were still active because they were still in the approval queue for modifications.

CCC-501: Application for Approval - New Credit Programs

AS-T: Administration of Justice for Transfer

ADOPT

Effective: Summer 2013, pending YCDD and CCCC approval Expedited!

Rationale for Expedited Implementation: To ensure MJC’s compliance with SB 1440

Rationale: This program is being proposed to align with the transfer model curriculum created in response to SB1440. This degree will benefit students who desire to transfer to a CSU.

AS-T in Administration of Justice for Transfer Pulled for discussion by K. Ennis noting that the program learning outcomes needed modification. K. Ennis said that it seems like these PLOS just address transfer and not so much of what the faculty member wants the student to be able to do. B. Adams noted that this AS-T degree will be going to the Board for approval on December 12, 2012. B. Adams suggested that K. Ennis work with the faculty member to revise the PLOs because this degree needs to go on the next Board agenda for approval. K. Ennis will work with the faculty member to revise the PLOs, and this degree will come back as a notification item on the next agenda.

AS-T: Business Administration for Transfer

ADOPT

Effective: Summer 2013, pending YCDD and CCCC approval Expedited!

Rationale for Expedited Implementation: To ensure MJC’s compliance with SB 1440

Rationale: This program is being proposed to align with the transfer model curriculum created in response to SB1440. This degree will benefit students who desire to transfer to a CSU.

AS-T in Business Administration for Transfer Pulled for discussion by K. Ennis noting that the program learning outcomes needed modification. K. Ennis noted that these PLOs were much better but needed clarification on the outcome that had discussed ethics. N. Sill mentioned that she had updated her PLOS but forgot to update them in the CNET database. N. Sill said that she had more outcomes then CNET was showing. B. Adams pulled up the corrected PLOs for the committee to review. K. Ennis said that they looked perfect. B. Adams noted she will add the two additional PLOs in the CNET field when she forwards the course at co-chair level.

AS-T: Kinesiology for Transfer 23-26 Units

ADOPT
Effective: Summer 2013, pending YCCD and CCCCCO approval
Rationale for Expedited Implementation: To ensure MJC’s compliance with SB 1440
Rationale: This program is being created to allow students to complete the Transfer Model Curriculum in the area of Kinesiology.

AS-T in Kinesiology for Transfer Pulled for discussion by M. Garcia noting that the word report showing the units was displaying incorrectly. B. Adams noted that the template is much clearer and correct which is the document being submitted to the State. B. Adams noted the units and the blocks of courses are correct in CNET, but the system will not allow her to move the required core to the top of the report.

IX. STANDING REPORTS

1. **Transfer Model Curriculum**  
   B. Adams  
   B. Adams gave an update on the TMC’s. B Adams noted that R. Cranley sent an email out to the committee showing a worksheet sent out by the CCCCO that is due by January 31, 2013. The committee discussed the details of the worksheet, asking about the college’s progress on transfer degree proposals. She informed the committee the Art History, Studio Arts, and Theatre Arts proposals had been submitted. She showed the committee some comments posted on the curriculum chair listserv, regarding timelines of submittals to the CCC Inventory. Based on the listserv discussion, it is unclear of turnaround time for approvals. B. Adams said that she and R. Cranley plan to give a TMC and CID presentation November 28, 2012 from 2:00 to 3:00 in Pirates’ Village Room 102. B. Adams mentioned that as more TMCs are being created and submitted to the committee, one important aspect should be noted. It is imperative to update out-of-compliance courses included on the TMC template for a transfer degree before the template is sent to the CCC Inventory.

2. **C-ID**  
   R. Cranley  
   R. Cranley noted that before TMC proposals are submitted, the author must look at the C-ID descriptor for courses included in the template. R. Cranley stated if the author sends her an email, she can send the course descriptor(s) for his/her review. She mentioned that in the past the C-ID was voluntary. She said that now our courses must match the C-IDs listed on the TMC. R. Cranley plans to look at all of the courses within the TMC’s that have come through today and plans to submit the course outline. In addition to this, R. Cranley said that she is going to send an Excel sheet by department with the C-IDs to the Deans and Curriculum representatives. She stated that she is willing to meet with faculty to assist with C-ID’s. M. Adams noted that the C-ID’s were not particularly difficult for him.

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller  
   B. Adams noted that a CurricUNET ticket was issued for the drag and drop feature in CNET. B. Adams said that the unit values for new courses were not sticking so it has been fixed.

4. **Outcomes Assessment Workgroup**  
   K. Ennis  
   K. Ennis mentioned that she was meeting with B. Adams to discuss the format for CLO and PLO proposals that come through the committee for approval. K. Ennis noted a few CLOs that she had looked at before the start of the meeting and the issues that she thought they may have. H. Townsend noted that the process for the CLOs in OAW is that the work group (OAW) will look at the CLOs that came through Curriculum two weeks prior to the OAW meeting as a Consent Agenda item. The next OAW meeting is scheduled for November 27, 2012. At this meeting, the OAW will look at the CLOs that came through the Curriculum Committee on November 6, 2012. S. Circle asked for clarification about the CLOs when one is updating the outlines for C-ID approval. She asked if we should also update the CLOs. J. Todd said that the CLOs should also be updated.

3. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles  
   Postponed until December

4. **Repeatability**  
   B. Adams  
   B. Adams read an email from the Curriculum Chair Listserv created by Richard Mahon, a previous Chair of the Academic Senate’s Curriculum Committee. The email discussed the Federal Title V regulation changes
regarding repeatability. Mr. Mahon said that now the Federal Title V regulation has evidently changed to
permit only a single repetition of a past class for a total of two iterations which means that the CSUs and
UCs will likely need to include their courses. B. Adams said that locally almost everyone turned in their
courses which showed repeats; H. Townsend then made an Excel sheet of the data for record.

Modesto Junior College
Curriculum Committee
A Standing Committee of the Academic Senate
Resolution: F12-CC3
**DRAFT**

Physical Education Conditioning/Training and Varsity Athletics TOP Codes

**Proposed by:** Cheryl Mulder, PE Curriculum Rep; Barbara Adams, Curriculum Co-
Chair

**Whereas:** New Title 5 regulations regarding course repeatability at California
Community Colleges will become effective fall 2013; and

**Whereas:** Revisions to §55041, Course Repeatability, impact physical education
conditioning/training and varsity athletics courses; and

**Whereas:** Currently, some physical education conditioning/training and varsity
athletics courses are not coded with the correct TOP codes; and

**Therefore:** Be it **resolved** that the Curriculum Committee recommends that all
physical education conditioning/training and varsity athletics courses that are incorrectly coded be modified to reflect the correct TOP codes.

**Therefore:** Be it further **resolved**, that modifying the TOP codes for those
incorrectly coded courses will not be done via course modifications,
but rather, manually through the Instruction Office, which will provide
a list of physical education conditioning/training and varsity athletics
courses which have had the TOP codes modified.

**Therefore:** Be it further **resolved**, the MJC Curriculum Committee recommends
the MJC Academic Senate approve the procedure to revise TOP codes for
appropriate physical education conditioning/training and varsity athletics courses in
order to be in compliance with revisions

Informational Items

1. Community Services Offerings
   B. Adams
   P. Brennan said that Community Education charges the same as what a student would pay for a three unit class plus any additional fees. She noted that the money is split between the department offering (for example: MJC Arts Division) and Community Ed because they are fee funded. P. Brennan said that they are working with some of the MJC programs that have been cut to offer classes in Community Ed. She said that the Community Education Department also offers Sallie Mae Loans for those in need of financial assistance for programs such as Phlebotomy, Paralegal and Pharmacy Tech taken in Community Education. P. Brennan says that Community Ed tries to offer what the community wants. She said that the programs are not credit classes. She said the instructors are on contract and usually paid hourly. Community Education is a small business within the College.

XII. PUBLIC COMMENT

K. Ennis asked for an update regarding the Prerequisite Committee. B. Adams said that they have met once as a subcommittee to draft a plan but are not planning to meet again until December because of other curriculum changes and priorities.

Chancellor’s Office Updates

Program Learning Outcomes

AS-T: Administration of Justice
Effective: Summer 2013, Expedited!
Rationale for Expedited Approval: To ensure the accuracy of PLOs and elective course options for TMC application
Rationale: An elective course was erroneously included in the TMC template. It has been removed from the TMC template because it was intended for inactivation.
Modify: elective course options, program learning outcomes

EXPECTED LEARNING OUTCOMES

In addition to demonstrating the abilities listed as General Education Student Learning Outcomes, students who complete the Associate’s Degree in Nursing will be able to:

1. Explain the roles that the three components of the administration of justice system play in society and how these components interact with one another to provide public safety.
2. Define the role of policing and recognize importance of building and maintaining favorable community relations.
3. Interpret, assess and compare competing types of evidence and data.
4. Identify the legal and societal restrictions placed by society on the administration of justice system in carrying out its role or providing for the public safety of society.

Hearing no objections, the committee was notified of an elective course removal from the TMC template and proposed program learning outcomes for the AS-T in Administration of Justice.

INACTIVATE

Effective: Summer 2013 Expedited!

Rationale for Expedited Implementation: To ensure students receive accurate information about the availability of curricular offerings in the 2013-2014 catalog

Rationale: The A.A. degree is being inactivated because a current A.S. degree exists and an A.S.-T proposal has been approved by the Curriculum Committee that will be submitted to the Chancellor's Office for approval. The A.A. Degree is being inactivated to align with the recommendations of the Board of Governors, the State Academic Senate, and MJC Curriculum Committee Resolution SP11-CC2, that CTE programs shall be designated as an A.S. degree. The program will maintain the current A.S. degree in Administration of Justice.

IX. STANDING REPORTS

1. Transfer Model Curriculum

   B. Adams

   CCCC Memo (11/30/2012)
   “SB 1440 Student Transfer Achievemnt Reform Act and SB 1415 Common Course Numbering System”

   B. Adams provided information to the committee from the CCCC memo that was sent out on November 30, 2012. B. Adams announced that effective January 1, 2013; any of the AA-T and AS-T proposals submitted must also demonstrate that courses included in the degree have been submitted for C-ID numbers, where descriptors exist. The course’s C-ID number may be in pending or final status. Articulation may only be used for courses where no C-ID descriptor exists.

   B. Adams reported that by June 1, 2013, for any existing AA-T and AS-T degrees that included a self-certification that a course or courses matched a C-ID descriptor, colleges are required to submit those courses for C-ID approval where descriptors exist. Barbara reported that by June 1, 2014, colleges must replace all course-to-course articulation used for all AA-T and AS-T degrees by showing that all course(s) have awarded pending or final C-ID status. She said that they will begin deactivating all noncompliant AA-T and AS-T degrees beginning June 2014 that do not have approved C-ID numbers for courses where descriptors exist.

   B. Adams announced that she will be holding a TMC work party on January 9, 2012 from 12 p.m. to 3:45. The work party is open to anyone. She said she will include the Curriculum Committee on the Outlook invite. She reported that the three TMC’s recently approved by the committee: Kinesiology, Administration of Justice, and Business Administration are slated for the Board agenda on December 12, 2012.

2. C-ID

   R. Cranley

   R. Cranley reported that she has submitted up to 170 MJC courses for C-ID approval so far. She gave an example of a course that was recently rejected. She reported that the rejection letter specifies exactly why the course was rejected. S.
Circle reported that as a reviewer, they are looking at the CI-D descriptor and matching it. S. Circle said that it seems like the descriptor needs to match or they could pull your TMC at the Chancellor’s level.

R. Cranley explained the CI-D spreadsheet to the committee. She reported that the spreadsheet reflects the 346 finalized descriptors. These are descriptors that have been finalized statewide. R. Cranley reported that faculty can email her their submittals, and she will send the information in.

3. CurricUNET Implementation/Issues

B. Adams/L. Miller

B. Adams reported she had issues with the catalog descriptions feature in CNET. She used this feature of CNET to input a description. When she saved the information and forwarded it through the approval stream, the information was not sent to where it needed to go. B. Adams put in a ticket for this item. Travis from CurricUNET is now working to fix this issue.

4. Outcomes Assessment Workgroup

K. Ennis

K. Ennis noted that she had pulled MUST 123 and 124 for revisions to the CLOs. She contacted the instructor and suggested revisions. K. Ennis noted that she had told the faculty member that he did not have to change the CLOs, if he saw they were fine the way they were. She reported that she is only acting as a second pair of eyes that will make suggestions to faculty when revisions may be needed. After discussions with the author/faculty member, the CLOs were revised.

K. Ennis brought forth a proposal which outlines her duties as the OAW/Curriculum Liaison. The proposal is as follows:

Proposal for Outcomes Assessment Workgroup – Curriculum Committee Liaison Role and CLO/PLO Review Procedures

Proposed by: Kathleen Ennis, Library Curriculum Rep; Barbara Adams, Curriculum Co-Chair
For Consideration at 12/04/12 Curriculum Committee Meeting

1. The Outcomes Assessment Workgroup-Curriculum Committee (OAW-CC) Liaison role will be designated for the lead person who reviews CLOs/PLOs included with course and program proposals.

2. The OAW-CC Liaison will have “Curriculum Rep” status for all divisions. This permission level will allow the liaison to review courses/programs as soon as authors have submitted them into the CurricUNET approval stream for Curriculum Representative review (Level 2).

3. As soon as a course or program is submitted by the author, the Liaison receives an email notification. CLOs/PLOs are then evaluated using the following basic criteria.
   a. Are there an appropriate number of outcomes?
   b. Do they accurately reflect the course?
   c. Are they distinguishable from the objectives/content?
   d. Are they clear to someone outside the discipline?
   e. Do they use Bloom’s Taxonomy to express developmental levels of learning?
   f. Do they NOT include the phrase “Demonstrate the ability to...”?

4. Any problematic outcomes are addressed immediately via an email to author notifying him/her there is an issue with the CLOs/PLOs. The original CLOs/PLOs are included in this email, as well the specific problem(s) identified. When appropriate, suggestions for improvement are made. Copies of this email are sent to the division Curriculum Representative, as well as to the Curriculum Co-Chair. Authors are reminded that all changes must be made by Curriculum Co-Chair, since courses/programs are inaccessible to authors and reps once they enter the approval stream.

5. E-mail contacts, as well as all subsequent email/telephone/in-person exchanges, are logged in the CLO/PLO Review document.
6. When course/program reaches “Curriculum Committee Member” status (Level 5), the Liaison re-evaluates outcomes to ensure any corrections agreed upon by the author have been made by the Curriculum Co-Chair. For documentation purposes, a brief summary of CLO/PLO improvement process is entered into the “Comments” section at this time. For any CLOs/PLOs that are still in question, the author and Curriculum Representative will be notified via email one last time.

7. Any courses with problematic outcomes at the time of Curriculum Committee meeting will be identified within the Standing Report and forwarded on to OAW.

8. Any programs with problematic objectives at the time of Curriculum Committee meeting will be pulled for discussion and, if needed, withdrawn.

9. Curriculum Committee OAW-CC Liaison Reports will be forwarded to Curriculum Co-Chair for archiving.

10. All documentation (CLO/PLO Review, bi-weekly Curriculum Committee OAW-CC Liaison Report, and any requested emails) will be forwarded to OAW Co-Chair for archiving, as well as summarized during the OAW Standing Report.

The committee members discussed the proposal. K. Ennis suggested that the committee review the proposal and note down any thoughts to discuss at the first Curriculum Committee meeting of the spring 2013 semester.

X. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards M. Robles

   M. Robles said that this action items was postponed until December and mainly because they were waiting to hear about how well the form is or is not working. J. Hughes said that some instructors are confused about the substitution form. She said that it seems like a lot of instructors have the substitution and equivalency intertwined. J. Hughes said that with the new form, divisions do not understand why they are even receiving the form. M. Robles said that she has discussed with J. Hughes recently, ways to help divisions understand when to use the form. There are three things that tend to get integrated. M. Robles said which are: course substitution, course equivalency and prerequisites. M. Robles said that we can keep this item on the agenda as a standing report.

   B. Adams noted that a report may need to be done to provide qualitative evidence. M. Robles said that they can work on a report for the next meeting.

2. Outcomes Assessments and Curriculum Modifications J. Todd/L. Miller

   No Report

3. Policies for Prerequisites/Corequisites/Advisories M. Robles

   M. Robles reported that one meeting has taken place. They will meet again in January to discuss.

4. Repeatability B. Adams

   B. Adams reported that we are pretty much online with fall 2013 items. B. Adams reminded the committee that it’s not just the course; it has to also be part of the major for the CSU or UC. She said that there are some things now where course repetition will be involved. She gave an example of FSCI (CPR or EMT) courses, where it is repeatable by law and required to be retaken every two years. B. Adams asked M. Robles if everything was covered in Board Policy. M. Robles answered that it is.

**Rationale for Expedited Approval:** To ensure students receive accurate information about the availability of curricular offerings in the 2013-2014 catalog. This course was created in Datatel and the catalog to replace MUSIC 176 when the Music department created a new course numbering system. Because these courses were not given new course IDs in the course numbering conversion project, it was not clear whether the Music department planned to inactivate them, so this discrepancy occurred. CurrincUNET has no record of MUST 103. The Music and Child Development program faculty agree the intention is to inactivate the CLDDV/MUST courses in all systems.

MATH 88  Algebra with Applications  3
Effective: Summer 2013  Expedited
Rationale for Expedited Approval: Math 88 was created several years ago but has never been taught. The math department inactivated several other courses that are not being taught in order for the catalog to be cleaned up and present an accurate list of current offerings to our students. But Math 88 was stuck in the approval queue and unalterable at the time. The department requests that the inactivation of Math 88 be expedited in order to remove it from the 2013-14 catalog and present an accurate picture to our students.

PEC 145

Advanced Golf

Effective: Summer 2013. Expedited To comply with newly revised code or law.

Rationale for Expedited Approval: Reactivate and update to meet current curriculum standards, address Title 5 changes to repeatability, and provide an advanced level training course for athletics.

MODIFY: Number, description, content, hours, requisite skills, enrollment restrictions, methods of instruction, typical assignments, objectives, textbooks, outcomes, methods of evaluation.

Enrollment Restrictions: Requesting: (A) before enrolling in this course, students are strongly advised to satisfactorily complete PEC 144

Distance Education Status: None

Articulation Status: Transfer to CSU and UC

General Education Status: Requesting: (MJC: Activities)

Rationale: This course is being brought back to address the changes of Title 5 repeatability.

Program Impact:

PEC 145 listed as Stand Alone under Program Impact on Agenda. C. Mulder noted that course is part of the PE Program.

PEM 196

Advanced Wrestling

Effective: Summer 2013. Expedited To comply with newly revised code or law.

Rationale for Expedited Approval: Expedited approval is being requested so this course maintains repeatability. Repeatability is allowed for this course since it is a conditioning course for intercollegiate athletics, and meets criteria #2 of Title 55041(a).

MODIFY: Content, units, repetition, hours, methods of instruction, typical assignments, objectives, textbooks, outcomes, methods of evaluation.

Enrollment Restrictions: None

Distance Education Status: None

Articulation Status: Transfer to CSU and UC

General Education Status: Approved for (MJC: Activities)

Rationale: Periodic review and update to meet current curriculum standards.

SR: Psychosocial Rehabilitation
- MODIFIED: Program learning outcomes, required courses
- Effective: Summer 2013
- Rationale for Expedited Implementation: To ensure students receive accurate information about the availability of curricular offerings in the 2013-2014 catalog
- Rationale: The Psychosocial Rehabilitation (PSR) program comes from the emerging need in the human services field to recruit and hire qualified persons to provide services for children and adults who have mental health problems, including consumers and family members as employees in the mental health system. Completion of the Psychosocial Rehabilitation program will provide the SKILLS RECOGNITION holder with a core curriculum of essential skills necessary for jobs in the human services field and provide the nine units of college credit necessary to sit for the national test-based certification exam, enabling people to become certified psychosocial Rehabilitation Practitioners. This core set of courses not only provides a basic education for people entering the human services profession but also provides training and growth opportunities for existing human service employees. In addition, this SKILLS RECOGNITION will serve as another step in an educational and career ladder leading to a Human Services SKILLS RECOGNITION and/or Degree. All coursework will be applicable as electives and/or meet the requirements for the Human Services degrees at MJC.

IX. STANDING REPORTS

1. Transfer Model Curriculum B. Adams
   B. Adams noted the TMC for Anthropology the committee just approved was completed at the TMC Workshop held January 9. B. Adams conducted a TMC workshop and received kudos from committee members for the quality of the workshop. Other workshops are being planned; several at the secondary review level. She also reported that she and L. Miller now are notified when approvals come through.

2. C-ID R. Cranley
   R. Cranley reported that she updated her records to include 29 courses have now been awarded C-ID numbers. There are 81 currently being reviewed, 6 were denied and 8 are conditionally approved. Denied and conditionally approved courses need to go back through the Curriculum Committee for approval before changes can be forwarded to her for resubmission. If a course has been denied or conditionally approved a C-ID#, an explanation/comment will accompany the response.

3. CurricUNET Implementation/Issues B. Adams/L. Miller
   B. Adams reported that when requesting inactivations in CurricUNET, rationale for the proposal must be included in the space provided. Without a rationale, the proposal shell will not be created. Edits to the rationale can also now be made during technical review.

4. Outcomes Assessment Workgroup K. Ennis
   K. Ennis reported that the Outcomes Assessment Work Group will now meet on the same dates/times as the Curriculum Committee. She will meet individually with James Todd, Outcomes Assessment Coordinator, to receive updates for reporting to the Curriculum Committee. She reported that many of the CLOs have been updated. B. Adams noted that a process for review of CLOs was previously developed and will ensure that the process is included in the next agenda so a formal vote may take place. Kathleen noted that the OAW is in need of a full slate of representatives.

X. UNFINISHED BUSINESS

Action Items

1. Course Substitutions for Academic Awards M. Robles
   Agenda item was previously postponed until December. M. Robles stated that there is still no report.

2. Outcomes Assessments and Curriculum Modifications L. Miller
   Report postponed in L. Miller’s absence.
3. Policies for Prerequisites/Corequisites/Advisories  
M. Robles  
M. Robles reported that there was one meeting in the spring and the group has not met since. It is the interest of the group to propose a plan for validating prerequisites through content review. The governor is considering basing our apportionment on the number of students who successfully complete courses rather than the number of students who are enrolled by the census date.

4. Repeatability  
B. Adams  
B. Adams reported that the summer roll has taken place. After the roll, repeatability was stripped from all courses and is being added back in as is deemed necessary. As an example, two of the courses approved at the meeting, Ag Mechanics 1 and 2, are no longer repeatable as there is no intercollegiate competition component. A list of repeatable courses will be made available for review at either the next meeting or the meeting following. There was discussion of how to handle recertification of CPR and EMT.

Informational Items

1. Equating Courses and Repetitions  
Postponed Indefinitely  

2. Independent Study and Work Experience Course Outlines  
Postponed Indefinitely, but B. Adams added that it will eventually have to be discussed as Independent Study will no longer be eligible for repeatability.

3. Preview of Curriculum Changes and Impacts on 13-14 Catalog  
B. Adams for L. Miller  
B. Adams shared a copy of the TMC Certification Worksheet report that was sent to CCCC. M. Robles suggested that for the committee’s information that an additional column listing TMCs approved by the Curriculum Committee might be useful.

B. Adams noted that L. Miller had provided draft copies of approved changes to the catalog through the December 6th meeting. She shared that L. Miller had asked committee members to review the draft and if corrections were needed, to print the page, note changes in red ink and forward the mark ups to Lilia Gerasimchuk. There was no due date provided. A. Bethel stated that she would check with L. Miller and ask her to forward a due date to the committee.

J. Hughes asked and it was determined that unit count issues need to be forwarded to B. Adams (Auto Maintenance/Auto Technician for example). Changes will need to be brought forward on a future agenda.

Dance Repertory Touring Competition

Effective: Summer 2013
Rationale for Expedited Approval: To comply with newly revised code or law.

ADOPT

Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: None
Articulation Status: CSU and UC (Requesting)
General Education Status: Requesting (MJC: Activities)

Rationale: MJC has been a member of the American College Dance Festival national organization since 2003. Each year, MJC students travel within and out of the American College Dance Festival regional conferences. Students have the opportunity to observe other dance programs and assess their own training in comparison to transfer dance programs. With the impending MJC AA dance degree, it is beneficial for the MJC students to experience the workshop and competitive conference of ACDFA and to evaluate other programs and determine where they might enroll to continue their education in dance.

IX. STANDING REPORTS

1. Transfer Model Curriculum  
   B. Adams  
   B. Adams reported to the committee that the Music AA-T has been approved by the CCCCO, and the approval letter noted the substantive change must also be reported and approved by ACCJC/WASC. The other six proposals are still in secondary review stage at the CCCCO. Another TMC workshop is scheduled for February 27, 2013.

2. C-ID  
   R. Cranley  
   R. Cranley reported that 29 C-IDs have been approved, and she will submit 19 more since they were approved at today’s meeting. She continues to update the spreadsheet and disseminate to the appropriate parties.

3. CurricUNET Implementation/Issues  
   B. Adams/L. Miller  
   B. Adams reported the CLO Word reports now contain GELOs if the course is approved for a GE area. The CLO checklist field still displays the CLOs only.

4. Outcomes Assessment Workgroup  
   K. Ennis  
   Proposal for Outcomes Assessment Workgroup – Curriculum Committee Liaison Role and CLO/PLO Review Procedures  
   Proposed by: Kathleen Ennis, Library Curriculum Rep; Barbara Adams, Curriculum Co-Chair  
   For Consideration at 12/04/12 Curriculum Committee Meeting  

1. The Outcomes Assessment Workgroup-Curriculum Committee (OAW-CC) Liaison role will be designated for the lead person who reviews CLOs/PLOs included with course and program proposals.

2. The OAW-CC Liaison will have “Curriculum Rep” status for all divisions. This permission level will allow the liaison to review courses/programs as soon as authors have submitted them into the CurricUNET approval stream for Curriculum Representative review (Level 2).

3. As soon as a course or program is submitted by the author, the Liaison receives an email notification. CLOs/PLOs are then evaluated using the following basic criteria.
   a. Are there an appropriate number of outcomes?
   b. Do they accurately reflect the course?
   c. Are they distinguishable from the objectives/content?
   d. Are they clear to someone outside the discipline?
   e. Do they use Bloom’s Taxonomy to express developmental levels of learning?
   f. Do they NOT include the phrase “Demonstrate the ability to.....”?  

4. Any problematic outcomes are addressed immediately via an email to author notifying him/her there is an issue with the CLOs/PLOs. The original CLOs/PLOs are included in this email, as well the specific problem(s) identified. When appropriate, suggestions for improvement are made. Copies of this email are sent to the division Curriculum Representative, as well as to the Curriculum Co-Chair. Authors are reminded that all changes must be made by Curriculum Co-Chair, since courses/programs are inaccessible to authors and reps once they enter the approval stream.

5. E-mail contacts, as well as all subsequent email/telephone/in-person exchanges, are logged in the CLO/PLO Review document.

6. When course/program reaches “Curriculum Committee Member” status (Level 5), the Liaison re-evaluates outcomes to ensure any corrections agreed upon by the author have been made by the Curriculum Co-Chair. For documentation purposes, a brief summary of CLO/PLO improvement process
is entered into the “Comments” section at this time. For any CLOs/PLOs that are still in question, the author and Curriculum Representative will be notified via email one last time.

7. Any courses with problematic outcomes at the time of Curriculum Committee meeting will be identified within the Standing Report and forwarded on to OAW.

8. Any programs with problematic objectives at the time of Curriculum Committee meeting will be pulled for discussion and, if needed, withdrawn.

9. Curriculum Committee OAW-CC Liaison Reports will be forwarded to Curriculum Co-Chair for archiving.

10. All documentation (CLO/PLO Review, bi-weekly Curriculum Committee OAW-CC Liaison Report, and any requested emails) will be forwarded to OAW Co-Chair for archiving, as well as summarized during the OAW Standing Report.

K. Ennis reported there were four THETR courses that still needed modification in CurricUNET. The authors had agreed to the changes, but there was not enough time for K. Ennis to relay the changes to B. Adams. She shared with the committee and it was agreed that B. Adams would make the modifications after the meeting, and before she forwards the courses in the approval stream. There was discussion on the process for CLO/PLO review. K. Ennis reported that the process of contacting authors and revising the CLOs before meetings has been an efficient method. She and B. Adams are coordinating in order to get the information updated in CurricUNET before the meetings.

M/S/U (C. Mulder, E. Maki) to approve the OAW Liaison Role and CLO/PLO Review Process.

X. UNFINISHED BUSINESS

Action Items

1. **Course Substitutions for Academic Awards** M. Robles
   M. Robles reported on the revised substitution form which has been used since summer 2012. Division offices were contacted for feedback. The general comment is that it has been effective. She provided some data for the committee and reported that substitution requests dropped from 261 to 120, and for a snapshot of a specific timeframe, the requests dropped from 95 in Nov. 2011 to 33 in Nov. 2012. The drop in the number of course substitutions is attributed to improved understanding and communication within and between divisions.

2. **Outcomes Assessments and Curriculum Modifications** L. Miller
   Report postponed in L. Miller’s absence

3. **Policies for Prerequisites/Corequisites/Advisories** M. Robles
   M. Robles reported the subcommittee will be meeting on February 13 to continue to work on the proposal for validation of prerequisites by content review only.

4. **Repeatability** B. Adams
   B. Adams reported that the repeatability list is a “work in progress” since the committee is still reviewing course proposals to comply with Title 5 repeatability changes. She informed the committee a report will be provided at a future meeting.

Informational Items

1. **Equating Courses and Repetitions** L. Miller
   Postponed Indefinitely

2. **Independent Study and Work Experience Course Outlines** B. Adams
   B. Adams reminded the committee that independent study courses will no longer be repeatable. She provided some example outlines from Merced College, which has three non-repeatable Food and Nutrition Independent Study courses in their Curriculum Inventory. A posting by J. Bruno (State AS Curriculum Chair) on the repeatability discussion board noted that handling of compliance of independent study courses is a local decision. The committee will need to address consistency of numbering, lack of numbers for some departments, and other issues.

**MUST 131**

- **Effective:** Summer 2013
- **Articulation Status:** Transfers to CSU and UC
- **General Education Status:** Requesting MJC-GE Activities
- **Rationale:** MUST 131 was previously approved, but the request for Activities was inadvertently omitted. For consistency with other MUST courses, such as MUST 132-134, MUST 131 will meet Activities requirement.

**Hearing no objections, the committee was notified of the MODIFICATIONS to MUST 131.**

**PEM 196 X**

- **Effective:** Summer 2013
- **Rationale for Expedited Approval:** To ensure students receive accurate information about the availability of curricular offerings in the 2013-2014 catalog
- For consistency with other MUST courses, such as MUST 132-134, MUST 131 will meet Activities requirement.

**Hearing no objections, the committee was notified of the INACTIVATION of PEM 196X.**

ESL 31  Vocabulary Power 1  2
Effective: Summer 2014
ADOPT

Enrollment Restrictions: Requesting: (P) satisfactory completion of ESL 20 and ESL 24.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not approved for GE

Rationale: The ESL Department offers grammar-, reading-, writing-, and speaking courses in which
vocabulary is taught; yet these courses cannot accommodate for the amount of extra vocabulary
needed by many of our students to be truly successful in writing and reading courses and to advance in
the ESL sequence and ultimately into college-level English courses. For years, the ESL faculty has
discussed the creation of additional vocabulary courses and has expressed that need in program
review. ESL students need focused and extensive vocabulary instruction and practice with emphasis on
word forms and families; prefixes/suffixes; word associations, collocations, and idiomatic use. Please
note that ESL 31 will differ from Reading 21 in that the types of words taught are chosen very
strategically based on discourse analysis and corpus research which takes into account the frequency
of words encountered and required by ESL students at various levels of the acquisition process and
academic situations. In addition, ESL 31 will insure that students operate in a sheltered ESL setting
where their special affective and language-specific needs are addressed and where neither intimidation
nor competition with fluent native speakers will interfere with learning. In fact, English language learners
differ dramatically from English native speakers in their need for extended contextual information as well
as recycling of new words and repeated exposure to them for their acquisition. While natives already
have a developed English vocabulary background into which new vocabulary is adopted, the English
skills of ESL students are still in flux. Therefore, ESL students require not only intensive instruction on
how to effectively use and integrate new words into their still developing English background, but also
more processing time than native speakers to do so.

IX. STANDING REPORTS
1. **Transfer Model Curriculum**  
   B. Adams  
   [http://www.c-id.net/degreereview.html](http://www.c-id.net/degreereview.html)

B. Adams reported that TMCs in Philosophy and Spanish have been finalized at the state. Stephanie of the Chancellor’s Office has notified Letitia Miller that MJC’s Studio Arts and Administration of Justice programs need only a couple of revisions and they will be approved. The above link takes viewer to the C-ID website where one can see the current finalized TMCs. The C-ID and Chancellor’s Office websites are both good resources for learning more about C-IDs. Barbara will be offering another TMC workshop on Wednesday, February 27 from 2:30 – 5:30. The committee was reminded when discussing TMCs to stress that C-IDs must be submitted by R. Cranley before TMCs may be submitted.

2. **C-ID**  
   R. Cranley

R. Cranley reported that there are 360 finalized descriptors. Thirty-seven MJC courses have been approved. Five expire 2/28/13 and three expire on 6/29/13. Ninety-three courses are in the process of being reviewed. Some are not having a lot of activity, but eleven have been conditionally approved. Four have been denied.

Ruth shared responses to from C-ID staff to concerns raised by President Stearns and VPI Kincade, stating that community colleges have the option NOT to submit their CORs for C-ID review, if it is not included in a TMC or AA-T/AS-T aligned degree. Additionally, in response to a concern raised by L. Miller regarding expedited courses, Ruth learned that when CORs are submitted in C-ID, there is an option to post-date the effective date up to 1 year in the future. For example, if a COR is submitted now (Spring 2013), effectively, the college can put their “effective date” as Spring 2014. C-ID does not require the immediate implementation of a COR. A Spring 2014 effective date will work.

Ruth added that she would like to see the topic of expedited approvals added to a future agenda when Susan Kincade could be in attendance.

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller

M. Adams asked if it would be possible to make a change within CurricUNET so that when course changes are made, the “need to review” check goes away. Currently it does not and creates some confusion as it may appear that an already reviewed course still needs review. B. Adams will check to see if the change can be made.

4. **Outcomes Assessment Workgroup**  
   K. Ennis

K. Ennis reported that the Outcomes Assessment Workgroup is in negotiations with Lit & Lang for this slate of courses. S. Circle is doing changes for three courses: ENGL 101, ENGL 102, ENGL 103. Course Learning Outcomes need to be updated for ENGL 102 to differ from objectives. Other changes were discussed. Shelley will work with Kathleen to change the CLOs for ENGL 101, ENGL 102, ENGL 103 so the corrections may be submitted to the OAW.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles

K. Ennis reported in Martha Robles’ absence. In the past, it could be difficult to get communication and computational prerequisites in place because of statistical validity. Title 5 changes now allow colleges to use content review to demonstrate that the prerequisite is needed for a course, once they identify and approve a process. Implementation is being discussed in order to manage enrollment spikes in prerequisite courses, i.e. English and math or declines in courses that would now require completion of prerequisites. It is likely that courses will only be allowed to add a prerequisite during their 5-year cycle of review. The next meeting is scheduled for Tuesday, February 26 at 2:30 p.m.
in Sierra Hall 235. There will be several more meetings scheduled. The Curriculum Committee will have to approve the prerequisite by content review only process.

2. **Repeatability**  
   B. Adams  
   There is little new to report. Repeatability has been stripped from all courses and is only being added back as courses are approved for repeats. A report will be available soon.

### Informational Items

1. **Equate Courses and Repetitions**  
   L. Miller  
   Postponed Indefinitely

2. **Independent Study and Work Experience Course Outlines**  
   B. Adams  
   There has been discussion of Independent Study and whether or not each department needs to create course outlines. There is a need to determine how many independent study courses are being offered. B. Adams shared an MJC Independent Study Proposal form. It was decided B. Adams will contact deans to procure numbers of independent study proposals they sign each semester, so the committee can determine best practices for the independent study course outlines.

IX. STANDING REPORTS
1. **Transfer Model Curriculum**  
   B. Adams

   B. Adams informed the committee there are now six approved TMCs, as Administration of Justice, Art History, and Business Administration were approved within the last week. B. Adams showed the committee two charts, one showing MJC progress with TMCs and one showing the progress of each college in the state. The CCCC approval letters were also included in the full agenda. The second chart is an update provided by the CCCC. There was discussion on the goal of 80% completion by Fall 2013 and 100% completion for all existing degrees by Fall 2014. B. Adams informed the committee three attendees were at the February 27 TMC workshop. S. Circle inquired if there is another workshop scheduled. Another is scheduled for March 27 at 2:30 PM in FH 234. Faculty should be receiving an e-mail for the professional development workshops offered in March, and the TMC information will be included.

2. **C-ID**  
   R. Cranley

   R. Cranley informed committee she e-mailed an updated C-ID spreadsheet before the meeting. She reported on C-ID status and stated that 363 Finalized C-ID Descriptors are currently open for community colleges seeking C-ID alignment; MJC has attempted 212 COR alignments with C-ID Descriptors; 35 MJC courses have been approved for C-IDs; 89 MJC courses have been approved in the process of being reviewed; 8 MJC courses have been conditionally approved and will require local curricular modification and resubmission to C-ID prior to the expiration date noted; and 3 MJC courses have been denied and must be resubmitted to be considered for C-ID after changes are made to the COR. The February C-ID newsletter listed top four colleges that submitted courses for review; MJC is listed as fourth. The committee commended R. Cranley for her tireless work on C-ID submissions and expressed appreciation for her willingness to work with faculty and make the process as easy as possible. R. Cranley informed the committee she e-mailed an updated C-ID summary approximately one hour before the meeting. She explained the legend that some courses are in progress, some are pending, some are approved, and some are denied. S. Kincaide asked if in progress meant we had submitted to state, and R. Cranley verified that is correct. She followed up with question if they had to be approved by Fall 2014. R. Cranley responded that as long as they are submitted and awaiting approval, this is considered to be in compliance. S. Kincaide also noted that stand-alone courses are being cleaned up and being reviewed to determine if they are truly stand-alone or need to be applied to a program. S. Circle asked if “pending” applied to denied courses as well as those that are conditionally approved, since TMCs cannot be submitted at this point if a C-ID descriptor is included on the template. R. Cranley indicated she will e-mail the question to H. Demé at C-ID to get an accurate answer. A new column has been added to the C-ID spreadsheet to account for TMC considerations.

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller

   B. Adams reported a ticket was sent in on Sunday for a problem with matching goals to requisite skills. The example is OFADM 306, which is currently in technical review queue. The prerequisite of OFADM 303 did not have any objectives displaying when chosen from dropdown. The active version of OFADM 303 was a CLO update only proposal, so B. Adams wasn’t sure if that was the issue. She issued a ticket to Governet and the issue was quickly resolved. She asked committee members to inform her if any of them ran into a similar issue.

4. **Outcomes Assessment Workgroup**  
   K. Ennis

   K. Ennis reported that she has received quick responses from almost all faculty who are e-mailed questions/suggestions on their CLOs for courses that are scheduled for an agenda. At this point, she has some faculty asking for her assistance with CLOs and PLOs before they submit their CurricUNET proposals. Discussion on not being able to put CLOs in order the author wishes. B. Adams indicated she will enter a ticket requesting the “hand” symbol that moves entries up or down be inserted into the CLO field. K. Ennis informed the committee that she and B. Adams have discussed a document that would identify common technical errors and the committee approves a policy that these common technical errors could be changed at technical review without communication with the authors. K. Ennis emphasized it would not be revised to change the meaning of the CLO. K. Ennis and B. Adams agreed to draft a policy on CLO revisions on common technical errors. S. Circle asked if the departments that are scheduled for curriculum review could receive notification and a list of the technical aspects of CLOs so the original entries could be accurate. K. Ennis noted she went over these common errors at Institute Day, but still taking a large amount of time e-mailing faculty authors.

X. **UNFINISHED BUSINESS**
Action Items

1. **Policies for Prerequisites/Corequisites/Advisories**  
   
   M. Adams reported the taskforce determined it would be helpful to list outcomes of the courses that are most likely to be requested as prerequisites so authors know what skills. The taskforce is working on document with prompts so faculty authors will analyze thoroughly – why do you want a prerequisite, what skills are involved? The evaluation is needed so authors are also aware of the issues that might arise – enrollment management, workload issues, provisions for student progression in programs, etc. K. Ennis added the document will clearly indicated to faculty that content review will need to be meaningful. The goal of the taskforce is to create a best practices document to present to the committee for review and approval. E. Kerr inquired on the number of courses that would have the prerequisite. Guidelines for prerequisites 55002 indicates the college’s plan must demonstrate that there are other options for students for courses that are degree-applicable. S. Circle noted discussion at taskforce included the concept that departments would propose them when scheduled for curriculum review. She further noted that committee members will need to ensure the COR demonstrates the validity of the prerequisite by carefully scrutinizing the objectives, content, assignments, etc. even more so than current practice. Taskforce is meeting again on Tuesday, March 12 from 2:30 to 3:30 PM.

2. **Repeatability**  
   
   B. Adams noted two more new courses were approved at meeting today, illustrating the impact the repeatability changes have had on curriculum. Two approval letters were received within the last week for Figure Drawing 2 and Advanced Tennis. B. Adams noted the CCCCO is providing a quick turnaround of course proposals that are tied to repeatability changes. She will check with H. Townsend for updated repeatability chart.

3. **Independent Study Course Outlines**  
   
   B. Adams stated that the independent study proposal form was included in full agenda. Five deans responded to inquiry on number of independent study proposal forms are signed each semester. The numbers are minimal for Lit and Lang, PE, SME, and AHFC. AHC has 25 proposals for the spring 2013 semester. Discussion ensued about the number of departments that would need to have more than one independent study COR (199ABC). E. Kerr indicated BBSS has a high number of proposals, and J. Beebe indicated the same is true of Technical Education. E. Maki asked if each department will need to write their own individual CORs. M. Lynch inquired if the college is able to offer three different CORs, one for one unit, one for two units, and one for three units. He also asked if a student will have a maximum number of units they can acquire with independent study. B. Adams directed committee members to the proposal form on the screen, which indicated the policy of maximum of three units of credit. B. Adams also displayed information from the repeatability discussion board, which indicated it is a local decision to determine the number of CORs and the number of maximum units. After more discussion, it was determined more information was needed from deans and faculty regarding the use of independent study proposals. Questions arose on the specificity needed for CORs. B. Adams cited PCAH section on independent study, which is expected that students will directly interact with the instructor on an individual basis. E. Maki asked, “If individual departments had their own CORs, would a student be blocked from taking Independent Study in Theatre if they already took Independent Study in Music?” Discussion ensued about the implementation of blocking students after a maximum number of units and the role of MIS and Datatel. S. Kincaide reminded the committee that independent study are not included in many degrees, and are not included in TMCs, so placing a maximum number of units would be reasonable. J. Hamilton asked if reps can dialogue with their colleagues to get a sense of how their departments currently use independent studies so at the next meeting discussion could continue and include the feedback provided. S. Kincaide asked B. Adams to send an e-mail to curriculum reps, asking them to survey colleagues in their divisions to continue dialogue and determine the best approach to independent studies courses. She will share with deans at their meeting on Monday, as there is a standing item for curriculum.

2. **CMPSC-New Prefix Request: “CSCI”**  
   C. Vaughn/B. Adams  
   C. Vaughn informed committee the Computer Science department was running out of numbers for the CMPSC prefix. The discipline is an area where things are often obsolete soon after they are created, and the department needs to keep curriculum offerings current and relevant to today’s industry. They are requesting a new prefix, CSCI, so they may convert current CMPSC courses into groups of similar types of courses and follow a logical sequence. A memo and a conversion chart of CMPSC to CSCI numbering were provided so committee members could review the plan developed by the Computer Science faculty. B. Adams ensured the committee she would inform the affected parties if the prefix was approved so implementation for Summer 2014 would be possible. The committee agreed the proposal was reasonable and would be beneficial to students.

M/S/U (K. Ennis/E. Maki) to approve the new prefix, CSCI.

**XII. PUBLIC COMMENT**

K. Ennis stated, “Never let Shelley Circle make coffee again. I will be awake for days!”

Meeting adjourned @ 4:40 PM
I. APPROVAL OF ORDER OF AGENDA

In deference to guest, Kevin Alavezos, C. Mulder asked to move Office Administration courses to the beginning of the agenda.

B. Adams withdrew ANSC 210, ANSC 240, ANSC 241 and SOCIO 101 as she did not receive clarification from the authors to the issues raised at the March 5 meeting.

Corrections was made to Mach 222: Changed (A) Mach 201 or 301 to read (A) Mach 211 or 301

Correction was made to RSCR 248: Add Materials Fee of $35 and the item was moved to Modifications/Reactivations under V. Course Discussion Agenda.

Hearing no other corrections or any objections, the order of the agenda was approved with noted changes.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of 3/5/2013 were approved.

RSCR 255 Clinical 4
Effective: Summer 2013 Expedited To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials
MODIFY Materials fee
Materials Fee Status: Removing $15 fee

Hearing no objections, the materials fees modifications were approved and expedited.

B. Adams reported that Patrick Bettencourt had requested modifications to the materials fees after review of the courses. There was discussion as to the accuracy of the fees charged for NURSE 262 and it was determined that the fee shown is correct. C. Mulder asked if the fees would be automatically updated in Datatel. It was determined that they would need to manually be entered by the division office staff when scheduling courses at least for a full year as courses are rolled semester by semester.

New courses
OFADM 306 Keyboarding for Accuracy 1/2
Effective: Fall 2013 Expedited To comply with newly revised code or law
Rationale for Expedited Approval: OFADM 303, Keyboarding for Speed and Accuracy, is a skills-based course in which the students refine their keyboarding skills by either (1) increasing their overall keyboarding speed or (2) increasing their accuracy on straight-copy keying. In prior years, students were allowed to complete this course up to three times—in each attempt, they were refining and developing their keyboarding skill.
New Title V regulations do not allow multiple attempts of the same course. This course will allow students to continue to refine their keyboarding skill.

**MODIFY**: required courses, total units, number of units in Area III of the certificate.

**Effective**: Summer 2013 [Expeditied]

**Expedited Rationale**: To ensure students receive accurate information about the availability of curricular offerings in the 2013-2014 catalog. During catalog production, it was discovered that multiple courses in the degree have been inactivated, thus affecting the total units for the award.

**Rationale**: Four courses from Area III Agriculture Major Courses have been inactivated: BUSAD 259, EHS 212, EHS 282, and EHS 383.

IX. STANDING REPORTS

1. **Transfer Model Curriculum**  
   B. Adams

   B. Adams reported that the TMC for Studio Arts was approved on March 7. MJC now has a total of 7 approved TMCs. Three more are in submittal. The state has revised the TMC templates to be used effective March 1. The requirements are the same, but the look is different. The new templates will show what documents you need if one has no C-ID. She will host another workshop on March 27 at 2:30 in FH 234.

2. **C-ID**  
   R. Cranley

   R. Cranley reported. An informational TMC/C-ID email was sent to faculty, deans and the VPI yesterday. Articulation Offices are having difficulty meeting the dates for submitting Course Outlines of Record and implementation is difficult. The Chancellor’s Office use of the term “pending status” when describing courses without C-IDs that are included as part of a program is vague. A definition is being sought from the Chancellor’s Office. 241 courses have been submitted; 37 have C-ID; and 3 expire in June. English 169 needs to be submitted for C-ID.

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller

   B. Adams has been unable to forward anything. A “hand/arrow” ticket to CurricUNET has been submitted.

4. **Outcomes Assessment Workgroup**  
   K. Ennis

   K. Ennis reported. ILOs will be launched next semester, but will not be called ILOs. In terms of CLOs, supplemental instruction will be expanded and more workshops will be held. CLOs will be further developed over the summer. This will help faculty by supporting their programs.
X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  
   M. Robles  
   Postponed until December  
   K. Ennis, M. Adams and B. Adams will meet to discuss Prereq/Coreq issues.

2. Repeatability  
   B. Adams  
   B. Adams reported that we will keep dealing with it.

3. Independent Study Course Outlines  
   B. Adams  
   B. Adams reported. AHC, Ag, and Tech Ed are the most highly impacted with Independent Study.  
   J. Beebe has forward some information to her. She shared that some universities have a maximum number of 
   independent study units they will accept and that the maximum can vary between schools. It will be noted in the 
   upcoming MJC Catalog that students should check with the universities for those maximums to which they 
   are applying. A policy and procedure that will not negatively impact students should be developed and relevant courses 
   need to be created. B. Adams asked for direction for how we should proceed. M. Lynch noted that it will be difficult to create individual, relevant Independent Study courses. It 
   was added that this is what the state will need to see when approving the courses.

   M. Adams made a motion to inactivate the current 199 blanket Independent Study course and allow 
   divisions to create their own individual Course Outlines of Record. Following the normal curriculum 
   process, the action would be effective summer 2014. M. Lynch seconded the motion. There was 
   discussion. E. Kerr requested and received clarification that the course would be inactivated. M. Lynch 
   asked if the intent was for each discipline to have their own A, B, C courses. C. Vaughn asked if the unit 
   cap would remain in place. It was agreed to continue those discussions at a later date. In answer to 
   questions regarding process, B. Adams answered that she would send notification to deans after a draft of 
   the minutes is available with a cc: to the committee members. A framework will be established for 
   numbering/values. (See notes from March 5 meeting: 54 hours = 1 unit). When determining cap, what is 
   helpful to our students must be kept in mind. There was further discussion of numbering for independent 
   study. B. Adams will check with the Instruction Office staff to see if a sort can be done in Datatel to find 
   numbers that have not been used recently. It is understood that there may not be a series of numbers that 
   can be used. After discussion, motion carried unanimously.

IX. STANDING REPORTS

1. **Transfer Model Curriculum**  
   B. Adams  
   [http://extranet.cccco.edu/Divisions/AcademicAffairs/CurriculumandInstructionUnit/TransferModelCurriculum.aspx](http://extranet.cccco.edu/Divisions/AcademicAffairs/CurriculumandInstructionUnit/TransferModelCurriculum.aspx)

   Eight TMCs have been approved, with two pending at the CCCC. L. Miller received a call from S. Ricks Albert of the CCCC informing her that the AS-T in Geology is likely to be approved. B. Adams reminded the committee that while the degree was approved by the YCCD Board of Trustees on 05/09/12, the required state paperwork had not been completed which prevented it from moving forward. The AA-T in Anthropology will require an application to the CCCC. The AA-T in English is at Technical Review level. The AA-T in Psychology has been drafted by L. Kooler. The AS-T in Physics needs to be reviewed by physics department faculty. The state has also updated its status report, making it easier to see institutional progress. It was noted that the numbers may not accurately reflect our progress, since MJC is pursuing many ADTs (Associate Degrees for Transfer) in areas in which we currently do not have majors. B. Adams noted that only 15 schools have more ADTs than MJC. There will be no more TMC workshops before the end of the semester. Spanish and Philosophy templates are just being finalized at the state level. Many courses will require C-IDs as a result. Overall, MJC is “in good shape.”

2. **C-ID**  
   R. Cranley  
   PHYS 01 received a C-ID. 38 course are approved for C-ID. Currently in dialog with Biology department to identify which courses should be proposed for which C-IDs. It is important to consider that even if a C-ID is approved at the state level, are we in a position to submit our curriculum right now? Is the course current?

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller  
   B. Adams noted that the drag/drop feature in the CLO screen was conspicuously absent from the CurricUNET interface. CurricUNET does not show that the ticket has been addressed. She hopes that this will be rectified soon. The codes and dates page is also malfunctioning since some changes were made locally to the field labels. She noted that this facet of CurricUNET, while not visible to most faculty, is very important to operations, so functionality is imperative. She reminded the committee that the “fast track” option for placing courses in disciplines is set to expire on May 1. After this option expires, faculty will need to use the course update process in CurricUNET and through the curriculum process to place the courses in disciplines.

4. **Outcomes Assessment Workgroup**  
   K. Ennis  
   No report.

X. UNFINISHED BUSINESS

**Action Items**

1. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles  
   Productive meetings have taken place. The group is looking at the process. The group hopes to conclude its work before the Summer begins.
2. **Repeatability**  
   The state has come forward with documents explaining the regulations, since some schools appear to be struggling. The paperwork has clarified the three ways repetitions can be established. Additionally, the State has clarified the number of repetitions, and clarified the topic of “recency.” M. Robles noted it was a good resource, and that faculty may find it useful when developing courses.

3. **Independent Study Course Outlines**  
   The question continues as to how to independent study courses should be created in light of revised Title 5 guidelines on repeatability. There was lively, lengthy discussion on myriad issues surrounding independent study including but not limited to articulation, MIS implementation, and how independent study courses are used within each division. It was determined that L. Miller would need to generate a report on available course numbers across the curriculum. She was asked to inquire with MIS staff as to whether or not the college could reuse old, inactive course numbers.

**Informational Items**

1. Equating Courses and Repetitions  
   Postponed Indefinitely  
   L. Miller

**XI. NEW BUSINESS**

**Informational Item**

1. Curriculum Committee Membership  
   B. Adams  
   B. Adams noted that terms are expiring for some members. J. Beebe, while previously thought to have stepped down from the committee, will remain. L. Hatch is unclear as to whether she will remain. B. Adams noted that the curriculum website does not accurately reflect the term expiration dates for some members, and stated that once catalog production is definitively over, L. Miller will be updating the page.

1. Recognize and describe the courses totaling 32 units necessary to complete this certificate and compare/contrast how the certificate is aligned with the Master Teacher Permit issued through State of California, Commission on Teacher Credentialing.
2. Apply specialized knowledge of courses from the six-unit option in the early care and education classroom (i.e. infant/toddler, early intervention, families and culture.)
3. Apply effective guidance and interaction strategies that support all children’s social learning, identity and self-confidence as the lead teacher in the classroom.
4. Demonstrate an awareness and understanding of the diverse cultural aspects of child rearing and family practices and potential cultural conflicts as individuals interact.

IX. STANDING REPORTS

1. Transfer Model Curriculum  
   B. Adams
   [Link to Transfer Model Curriculum page]

   Eight TMCs have been approved, with two pending at the CCCCO. L. Miller received a call from S. Ricks Albert of the CCCCO informing her that the AS-T in Geology is likely to be approved. B. Adams reminded the committee that while the degree was approved by the YCCD Board of Trustees on 05/09/12, the required state paperwork had not been completed which prevented it from moving forward. The AA-T in Anthropology will require an application to the CCCCO. The AA-T in English is at Technical Review level. The AA-T in Psychology has been drafted by L. Kooler. The AS-T in Physics needs to be reviewed by physics department faculty. The state has also updated its status report, making it easier to see institutional progress. It was noted that the numbers may not accurately reflect our progress, since MJC is pursuing many ADTs (Associate Degrees for Transfer) in areas in which we currently do not have majors. B. Adams noted that only 15 schools have more ADTs than MJC. There will be no more TMC workshops before the end of the semester. Spanish and Philosophy templates are just being finalized at the state level. Many courses will require C-IDs as a result. Overall, MJC is “in good shape.”

2. C-ID  
   R. Cranley
   PHYS 01 received a C-ID. 38 course are approved for C-ID. Currently in dialog with Biology department to identify which courses should be proposed for which C-IDs. It is important to consider that even if a C-ID is approved at the state level, are we in a position to submit our curriculum right now? Is the course current?

3. CurricUNET Implementation/Issues  
   B. Adams/L. Miller

   B. Adams noted that the drag/drop feature in the CLO screen was conspicuously absent from the CurricUNET interface. CurricUNET does not show that the ticket has been addressed. She hopes that this will be rectified soon. The codes and dates page is also malfunctioning since some changes were made locally to the field labels. She noted that this facet of CurricUNET, while not visible to most faculty, is very important to operations, so functionality is imperative. She reminded the committee that the “fast track” option for placing courses in disciplines is set to expire on May 1. After this option expires, faculty will need to use the course update process in CurricUNET and through the curriculum process to place the courses in disciplines.

4. Outcomes Assessment Workgroup  
   K. Ennis

   No report.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  
   M. Robles

   Productive meetings have taken place. The group is looking at the process. The group hopes to conclude its work before the Summer begins.
2. **Repeatability**  
   B. Adams  
   The state has come forward with documents explaining the regulations, since some schools appear to be struggling. The paperwork has clarified the three ways repetitions can be established. Additionally, the State has clarified the number of repetitions, and clarified the topic of “recency.” M. Robles noted it was a good resource, and that faculty may find it useful when developing courses.

3. **Independent Study Course Outlines**  
   B. Adams  
   The question continues as to how to independent study courses should be created in light of revised Title 5 guidelines on repeatability. There was lively, lengthy discussion on myriad issues surrounding independent study including but not limited to articulation, MIS implementation, and how independent study courses are used within each division. It was determined that L. Miller would need to generate a report on available course numbers across the curriculum. She was asked to inquire with MIS staff as to whether or not the college could reuse old, inactive course numbers.

**Informational Items**

1. **Equating Courses and Repetitions**  
   L. Miller  
   Postponed Indefinitely

**XI. NEW BUSINESS**

**Informational Item**

1. **Curriculum Committee Membership**  
   B. Adams  
   B. Adams noted that terms are expiring for some members. J. Beebe, while previously thought to have stepped down from the committee, will remain. L. Hatch is unclear as to whether she will remain. B. Adams noted that the curriculum website does not accurately reflect the term expiration dates for some members, and stated that once catalog production is definitively over, L. Miller will be updating the page.

**Action Items**

1. **Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization**  
   L. Miller  
   No Report

**XII. PUBLIC COMMENT**

*Meeting adjourned at 3:52 PM*
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved as stated

II. APPROVAL OF MINUTES

Hearing no objections, the minutes were approved as stated

III. COURSE NOTIFICATION AGENDA

Hearing no objections, the committee was notified of the following activities

CCCO APPROvals
FSCI 369
B. Adams noted that there are only a few colleges in the state which have been approved to offer the fire science course, Training Instructor 1C.

IGETC/CSU-GE DECISIONS
ONLINE SERVICES FOR CURRICULUM AND ARTICULATION REVIEW
How To Read a Decisions Report
March, 2013

The following pages list the courses your institution submitted last fall through OSCAR and ASSIST, for approval in California's patterns of general education in the CSU and UC systems.

In about a month, ASSIST will post information about each approved course, including its prefix, number, title, approved area, and dates of approval. In the meantime, you can rely on the following pages as you prepare catalog copy and communicate with those on your campus who manage curriculum and transfer.

Each page of the Decisions Report will tell you:

At the top, which pattern the decision relates to:
- IGETC (CSU and UC general education)
- GE-Breadth (CSU only)
- American Institutions (CSU only)

Which area in the pattern your institution proposed for the course.

Which area is approved for the course. In most cases this is the same as the area proposed -- but not in the example to the left, which was proposed in 4J but approved in 4H.

For courses that are denied, or approved in a different area, the Notes section will give you a reason. Sometimes an approved course will also have Notes, such as a request to update the textbooks in use. In these cases the request for revision isn't binding, and you can publicize the approval. Notes aren't published on ASSIST.

Reviewers are careful to keep the GE-Breadth pattern at least as permissive as IGETC, to protect students who switch. So when a course is proposed for an area in IGETC but not for the corresponding GE-Breadth, reviewers will approve in the same area for both sides.

More documents about the review procedure, including detailed guidelines published by the system offices for reviewers of GE courses, are available at http://www.calstate.edu/app/general-ed-transfer.shtml.
This course proposal, originally approved for Summer 2014, approved on 03/19/13, will be expedited for FALL 2013.

**MACH 222 CNC Machine Operations**

**Effective:** Summer 2014

**Expedited:** Fall 2013

**Rationale for Expedited Approval:** Because this course was previously approved in (date) as MACH 222/MFGA 222, and the MFGA sequence was not activated, revisions to the MACH 222 variant were not implemented which is now causing problems with scheduling.

**MODIFY:** Content, enrollment restrictions, requisite skills, typical assignments, textbooks, outcomes, objectives.

**Enrollment Restrictions:** Removing: (C) Concurrent enrollment in MACH 219, 220, or 221 and previous machining experience. Requesting: (A) Satisfactory completion of MACH 204-211 or MACH
301 or have a working knowledge of the use of manually operated metal cutting lathes and milling machines and be able to use a micrometer to measure to within .001 inch.

**Distance Education Status:** None  
**Materials Fee Status:** Maintaining fee of $22  
**Articulation Status:** Transfer to CSU  
**General Education Status:** Not approved for GE  
**Rationale:** Periodic review.

**Program Impact:**
1. CNC Operator Skills Recognition Award  
2. Machine Tool Technology 2 Certificate of Achievement

*M/S/U (L. Hatch/E. Maki) to MODIFY MACH 222*  
*M/S/U (E. Maki/M. Lynch) to MODIFY REQUISITES for MACH 222*  
*M/S/U (C. Mulder/S. Circle) to MODIFY FEE for MACH 222*

CCC-501: Application for Approval - New Credit Programs

ADOPT: AA-T: History for Transfer
    Effective Term: (Upon CCCCO Approval)
    Rationale: Compliance with SB1440
    AA-T: History for Transfer pulled for discussion by M. Garcia due to concerns about the accuracy of the 15-18 unit range specified. He wanted confirmation that – due to the inability of the student to retake a course in Group B if previously used in Group A, that the total unit range should be fixed at 18. The committee agreed with his interpretation and deleted the lower end of the "total units in major" range.

M/S/U (S. CIRCLE, C. VAUGHN) to ADOPT the AA-T in Psychology for Transfer

ADOPT: AA-T: Sociology for Transfer
Effective Term: (Upon CCCCO Approval)
Rationale: Compliance with SB1440
AA-T in Sociology pulled for discussion by M Garcia due to concerns that SOCIO 131 “Sociology of Medicine" was no longer active. B. Adams agreed and noted that the course was not included in the state’s TMC template and removed the course from the proposal.

IX. STANDING REPORTS

1. Transfer Model Curriculum
   B. Adams
   B. Adams noted that the AST in Geology was approved on 04/15/2013, and that the formal notification would appear in the first fall agenda. She reported that MJC has had nine (9) TMC degrees approved. Anthropology will be uploaded to the CCCCO this week. She informed that the CCCCO is trying to streamline the application process, and consequently has changed the TMC narrative template again. M. Garcia asked

2. C-ID
   R. Cranley
   No report.

3. CurricUNET Implementation/Issues
   B. Adams/L. Miller
   B. Adams noted she had to submit a ticket to CurricUNET, and hopes it will be addressed by the fall term. She noted that the “hand" icon to drag and drop (modify the order of) CLOs has been repaired.

4. Outcomes Assessment Workgroup
   K. Ennis
   K. Ennis noted that it is odd to report on behalf of meetings that she does not attend. She reported that “people appear to be getting the hang of CLOs" and that the committee is focusing on the 5-year cycle. Departments that are starting the 5-year cycle will be the focus on the committee’s attention.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories
   M. Robles
   M. Robles reported that the subgroup on this has been working diligently. They plan to send out evidence of their progress for review over summer break and put it on the curriculum agenda the first meeting in fall.
2. **Repeatability**

As a result of Curriculum Committee action and Instruction Office implementation, the following credit courses are offered as repeatable with the start of Fall 2013 as per Title 5 §55041(a):

3. **Independent Study Course Outlines**

B. Adams displayed a list of all course numbers already in use from 180-199 in hopes of providing the committee a reference for usable numbering sequences for independent study. She noted that the area of need for independent study sequences tends to lie in the PE and Theatre departments. There did not appear to be a sequence of numbers available across the curriculum for this purpose, but the best choice seemed to be 191-194 sequence. C. Mulder noted that PE hasn’t offered independent study for many years, so she stated it would not be a problem for her division. The committee agreed 191-194 would be used for independent studies. Many other issues surfaced. What is the limit on independent study units at MJC? Should there be a limit? What should inform it? The discussion was robust. L. Miller informed the committee that course numbers could not be reused, at the very least, without disrupting existing programming on course repeatability. It was also noted the independent study procedure form would need to be revised to remove the reference to repeatability.

1. **The Year in Review/ The Year Ahead**

   B. Adams/L. Miller

   B. Adams informed the committee of all of the activity and accomplishments of the year, and also provided a preview of what to expect in 2013-2014. Between 11/6/11 and 02/19/13 (our annual curriculum review cycle, with the addition of all of the expedited courses, the placements in disciplines, and C-ID notifications, etc)

   - 782 courses (notified, modified, adopted/reactivated, or inactivated)
   - 104 programs (degrees, certificates, and skills recognitions) (modified, adopted, inactivated)

   The committee created and approved resolutions for Course Learning Outcomes, Course Repeatability, and PE Conditioning/Training and Varsity Athletics TOP Codes. Other actions included CLO/PLO Review Procedures, identification of repeatable courses. The Chancellor’s Office also approved 7 additional TMCs, for a total of 9 now approved. For the upcoming year, B. Adams indicated the following items would probably be at the forefront.

   - Second 5-year curriculum review cycle begins in Fall 2013
   - Continuation of TMC submittals
   - Continuation of C-ID submittals
   - Technical review process – Content not formatted with outline tool will be sent back to author.

XII. PUBLIC COMMENT

B. Adams thanked all of the committee members for their dedication and hard work during the year. It was definitely a busy year for curriculum!
Committee members,

We have the necessary approvals for NURWE 362.

Thanks for the quick response -- just another example of why I brag about this committee!

I vote yes.

Jennifer Hamilton, PhD

---

I hope all of you are enjoying your summer and taking a little time off from curriculum! We have a time-sensitive curriculum item that needs the use of our summer approval process. As a reminder, our summer approval process requires "yes" votes (via e-mail is acceptable) from both co-chairs and at least two committee members.

NURWE 362 had not been offered since 2010, so it was proposed for inactivation and the committee approved it at the 1/22/13 meeting, with a Summer 2013 effective date. Our Nursing department has been contacted by Sonora Regional Medical Center with a proposal to offer internship opportunities to approximately 12 MJC students this summer; therefore, the students would need to be enrolled in NURWE 362. The Nursing department is requesting reactivation of NURWE 362 effective Summer 2013 so the students may take part in this opportunity. The reactivation proposal will be completed in CurricUNET and the item will appear as a notification item on the first fall agenda if approved. The course was last updated in 2009 and is in compliance. If the course is reactivated and the outline is modified, the course will appear as a discussion item.

As one of the co-chairs, I am casting a "yes" vote for reactivation of NURWE 362 and a "yes" vote for expedited approval. The process now requires our other co-chair, Jennifer, to indicate "yes" votes and two other committee members to indicate "yes" votes.
Please "reply all" when casting your votes (one for reactivation and one for expedited approval) so we all know when Jennifer and at least two other committee members have responded with "yes" votes and the approval process is complete.

Thanks!

Course Modifications (Notification)

Hearing no objections, the committee was notified of the following course modifications:

AG 249  Agriculture Internship  2
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Requesting (L): Enrollment limited to students who receive instructor approval.
Rationale: This course was originally approved on 10/23/2012 with no enrollment restrictions. CCCCO review of the COR highlighted that the course was lacking a required limitation on enrollment per § 55254 of Title 5, Student Qualifications. The department worked cooperatively with the curriculum co-chair to address the oversight. The CCCCO application will be revised to reflect this new LOE.
FSCI 352  Training Instructor 1A  2 ½ units
Effective: Spring 2014
Modify: Units
Rationale: This course came through curriculum on 11/01/2011, but a proposed change to units in CurricUNET was not noted on the agenda with the other modifications. Consequently, the change to units was not reflected to the Board of Trustees, to the CCCCO, nor was it implemented in Datatel. The Instruction Office will be seeking BOT and CCCCO approval this fall. Consequently, in the interim, the department must schedule the course for FALL 2013 following the archived course outline for 2 units instead of 2½. This appears here for documentation purposes.

MUST 121  Music Theory 1  3
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Removing: (C) Concurrent enrollment in MUST 130
Rationale: MUST 130 was not approved for repeatability. However, four completions are required for the AA: Music. Conversely, MUST 130 is not required for the AA-T in Music. Enforcing the MUST 130 corequisite requires AA-T all students to complete MUST 130 as a corequisite for MUST 121-124. But, the program still has a need for students to experience MUST 130 four times for the AA: Music. So, the Music department plans to create Practica Musica courses related in content (CRICs) to address the need for students to repeat it as MUST 130. The Curriculum Committee used the summer approval process to facilitate making this change for Fall 2013.

MUST 122  Music Theory 2  3
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Removing: (C) Concurrent enrollment in MUST 130
Rationale: (See MUST 121)

MUST 123  Music Theory 3  3
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Removing: (C) Concurrent enrollment in MUST 130
Rationale: (See MUST 121)

MUST 124  Music Theory 4  3
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Removing: (C) Concurrent enrollment in MUST 130
Rationale: (See MUST 121)

MUST 130  Practica Musica  1
Effective: Fall 2013
Modify: Enrollment restrictions
Enrollment Restrictions: Removing: (C) Concurrent enrollment in MUST 121, or MUST 122 or MUST 123 or MUST 124
Rationale: (See MUST 121)

RSCR 248  Self-Directed Study  3
Effective: Summer 2013
Rationale: “Self-Directed Study” is the correct title for the course. RSCR 248 came through on 10/23/12 with the wrong title on the agenda (Advanced Cardiopulmonary
Physiology), confusing records. The title is correctly reflected in CurricUNET and Datatel. This appears here for documentation purposes.

1. Administration of Justice A.S. Degree
2. Associate of Science in Administration of Justice for Transfer

ADJU 215 pulled for discussion by R. CRANLEY due to some confusion about hours on the range for a course with a lecture modality. C. Hudelson provided history on the course, and explained that only a small portion of the course is allocated to range practice and that time spent does not convert to a measurable lab increment for the term. One member noted it is as if it has a practicum component. Additional questions surfaced about how the course is conducted which C. Hudelson answered. It was noted that the catalog description contained language atypical of most catalog descriptions, warning students that inappropriate conduct with a firearm would result in removal from the course. Most members agreed this was essential for the catalog description. C. Hudelson noted that this revision is taking place in preparation for what may be the POST program’s return to MJC and that the committee should anticipate seeing ADJU 216 returning next semester.

ENGL 179  Introduction to Native American Literature, Mythology, and the Oral Tradition

Effective: Spring 2014 [Expeditied!]

Rationale for Expeditied Approval: We are adding the option to teach it as distance education.

MODIFY: DE Modalities, Outcomes, content

Enrollment Restrictions: Maintaining: (P) Satisfactory completion of ENGL 50 or qualification by the MJC assessment process. Maintaining: (A) before enrolling in this course, students are strongly advised to satisfactorily complete ENGL 101.

Distance Education Status: Requesting Online

Materials Fee Status: None.

Articulation Status: Transfer to CSU and UC.

General Education Status: Approved for (MJC-GE: C) (CSU-GE: C2) (IGETC: 3B)

Rationale: The class is scheduled to be offered as distance education next semester, but currently the course outline does not have a distance education component. Additionally, we’d like to assess CLOs, as well as meet student needs online.
Program Impact:
1. CSU General Education Pattern Certificate of Achievement
2. English A.A. Degree
3. Associate of Arts in English for Transfer (pending CCCCO approval)
4. Ethnic Studies Skills Recognition Award
5. General Studies, Emphasis in Humanities A.A. Degree

SR: Sheet Metal Fabricator

**INACTIVATE**

Effective: Summer 2014

Rationale: The courses that make up the Sheet metal Fabricator Award are now part of new Design and Fabrication Skills Recognition Award.

*M/S/U (M. LYNCH, L. HATCH) to INACTIVATE SR: SHEET METAL FABRICATOR*

SR: Shielded Metal Arc Welding

**INACTIVATE**

Effective: Summer 2014

Rationale: The courses that make up the Shielded Metal Arc Welding Fabrication Award are now part of the new Pipe welding Skills Recognition Award. To have both awards creates an unnecessary, redundant path of training for the welding program and its students.

*M/S/U (M. LYNCH, L. HATCH) to INACTIVATE SR: SHIELDED METAL ARC WELDING*

Application for Approval - New Credit Programs (Formerly the CCC-511)

**ADOPT:** C: Manufacturing Technology (Interdisciplinary)

Effective Term: (Upon CCCCO Approval)

Rationale: Food Processing and Manufacturing companies represent a major portion of employment in this valley. The majority of these companies currently send their employees to MJC to be trained or further their training in the technologies of that industry. Currently, MJC’s Technical Education and Public safety Division offers training in specific areas of Agriculture Mechanics, Electronics, Machine Tool & Welding Technologies. However, there is an absence of a general, foundational platform of training that focuses on food processing and manufacturing technologies. This new program of manufacturing technology will offer an interdisciplinary approach for students to develop pathways to meet their current employers’ specific training needs or to explore professions and technologies of that industry.

*M/S/U (M. LYNCH, L. HATCH) to ADOPT C: MANUFACTURING TECHNOLOGY (INTERDISCIPLINARY)*

Substantial Changes to an Approved Credit Program (Formerly the CCC-510)

Non-Substantial Changes to Approved Program or Change of Active–Inactive Status (Formerly the CCC-511)

**INACTIVATE** AS: Engineering

Effective: Summer 2011

Rationale: This program was discontinued as part of the program discontinuances that took place in Summer 2011. It was moved forward with other program proposals at the 10/23/13 curriculum
IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  
   B. Adams  
   B. Adams after noting three MJC ADTs were approved since the last meeting, shared that two are very close to being approved at the CCCCO; English and History. Anthropology and Physics are also close to being approved, but require some minor adjustments. She noted that there are many ADT awards in progress locally in what the state refers to as “similar majors”:
   - Computer Science
   - Early Childhood Education
   - Elementary Teacher Education
   - Geography
   - Philosophy
   - Psychology
   - Political Science
   - Spanish

   To comply with SB1440 implementation deadlines by **Fall 2014**, it was advised that these awards be approved by the Curriculum Committee no later than **December 2013** to ensure YCCD Board of Trustees and CCCCO approval processes are completed before the mandated state deadline. B. Adams emphasized that C-IDs must be established first before ADTs can be developed and approved. Some divisions seem to not be aware of this and the importance of getting ADTs (100% of similar majors) approved by Fall 2014 for MJC’s compliance with SB1440. B. Adams is maintaining an [ADT progress sheet](#) that is available on the MJC curriculum website.

2. C-ID  
   R. Cranley  
   R. Cranley reported that at the state level, there are 376 finalized C-ID descriptors. She explained that she has researched all of them in the context of the MJC curriculum, and found that each descriptor has a corresponding MJC course that may be eligible for C-ID. Currently, MJC has **66 courses approved as C-IDs**.

   She gave each representative a [spreadsheet of all C-ID statuses](#) for all courses in their divisions. The statuses include detailed information, such as why a particular course has been denied C-ID at this time. The spreadsheet is going to be maintained and updated on the MJC Curriculum website. It is designed to be filterable by users.

3. CurricUNET Implementation/Issues  
   B. Adams/L. Miller  
   B. Adams reported that there is an issue with the catalog year for programs. There is no available option for 2014-2015.

   S. Berger noted that there was confusion with the prompt on matching requisite skills to the appropriate requisite course objective. The existing page header reads “Match Skill to Student Learning Outcomes” which is not making sense to some faculty authors. The committee agreed with the confusing language and that it can be improved to be more precise.

   **M/S/U (S. Circle, E. Maki) to make a change to the “match goals” page header from “Match [Requisite] Skill to Student Learning Outcomes” to “Match [Requisite] Skills to Requisite Course Objectives,”**

   B. Adams will send a ticket to T. Hillyard, our Governet representative to request this change to the interface.
4. **Outcomes Assessment Workgroup (OAW)  
K. Ennis**

K. Ennis spoke enthusiastically about the progress of the OAW. She noted that the meetings have changed to Fridays, and that deans have begun to participate in the process. She described it as a “well-oiled machine,” and rationalized that the shared responsibility of the faculty and deans has been beneficial to outcomes assessment at MJC. She compared the new outcomes assessment process and results to that of the curriculum committee, and remarked at how productive both teams are.

The assessment process has been mapped, and while complex, it is running smoothly. She marveled at the volume of assessments that must be done in divisions where there are dozens of sections of a course, requiring vast aggregation and analysis of assessment results. She explained that the OAW went to great lengths to overlay the assessment cycle on the curriculum cycle to create a logical more integrated evaluation of curriculum and outcomes. At this point, the OAW is trying to get the timelines out to divisions so that departments know when courses are scheduled for assessment of outcomes. She also explained that CLOs campus-wide are in good shape. She added that CLOs are getting more integrated with outcomes, and that the consequences of misalignment of course objectives to learning outcomes is being discovered in select instances. She also explained that there are still issues of misalignment between CLOs in CurricUNET and in PiratesNet. The reasons for this are being researched and should be resolved in the coming weeks.

PLOs are in need of more attention. Deeper questions are being raised about how PLOs should be written and formatted.

In total, K. Ennis emphasized that the OAW is a great, productive team, and encouraged faculty to participate in one way or another.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Policies for Prerequisites/Corequisites/Advisories  
M. Robles**

   No report.

2. **Repeatability  
B. Adams**

   B. Adams reported that there had been three changes to the repeatability report presented at the 04/06/13 curriculum meeting. The last list was created from courses that had self-identified as repeatable and provided evidence. Over the summer, three courses were discovered to qualify for repeatability. She noted that more courses may be added to the list as departments discover that they overlooked repeats on a particular course.

   B. Adams showed the committee the CCCCO’s preliminary [Credit Course Repetitions Guidelines](#) and reminded the group that courses claiming to be repeatable must demonstrate that they fall into one of the approved categories for repeatability per Title 5, §55041. When one member rationalized that a particular course should be repeatable in her department, B. Adams emphasized the discrete difference between repetitions (rules and conditions for allowing an individual student to retake a course for credit) and repeatability (the number of times a given course can be retaken for credit by any student).

   B. Adams continued by emphasizing the role of articulation evidence in justifying whether courses are repeatable. She explained that the college may be asked to present repeatability evidence in the event of an audit. Faculty authors should take measures to gather appropriate evidence when requesting course repeatability and attach it to the CurricUNET course proposal.

   L. Miller shared that the CCCCO plans to start auditing course repeat policies in the next few years. She
anticipates that they will collect this information from what is called “Reg Retake Policy” in Datatel, which is informed by the course outline repeat policy on the COR.

**REVISED 09/05/2013**

3. **Independent Study Course Outlines**
   B. Adams
   B. Adams updated the committee on the status of Independent Study course outlines. She reminded the group of its intent to inactivate the 199 number effective Summer 2014, and that it was agreed that, for departments who wish to create a repeatable sequence of "courses related in content" or CRIC (the new term to replace "families"), that the number range of 191 to 194 should suffice. She noted that the current 199 variable unit course outlines will no longer work, because the courses have to be distinctive in content and objectives. Cutting and pasting from one Independent COR to another in a CRIC will not be acceptable in the development of CRICs for Independent Study. She noted the independent study proposal form also needs to be reviewed and revised accordingly, as it has references to repeating independent study.

XI. NEW BUSINESS

Informational Items

1. Curriculum Committee Training  
   B. Adams
   B. Adams shared the FLEX number for the Curriculum Training is 5061. Those who attended will earn FLEX credit. She was pleased that, with the exception of the yet unnamed ASMJC Curriculum representative, all curriculum representatives have been trained for 2013-2014. L. Miller reported that the ASMJC president has been made aware of the need for an ASMJC representative to serve on the committee. B. Adams emphasized that this needs to be done in a timeframe that allows for the ASMJC member to be trained in time for the CCCCO’s September 30, 2013 Certification of Stand Alone Training deadline.

2. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  
   L. Miller
   No Report

   B. Adams
   B. Adams returned the group’s attention to the Curriculum Review Matrix 2013-2018 draft that was introduced at the annual Curriculum Training on September 6. The group would be asked today to vote on the revised structure.

   New Curriculum Review Matrix featuring Awards
   She pointed out the new inclusion of the review of Certificates, Degrees, and Skills Recognitions “awards” on the matrix, as opposed to only courses. This new element, she hoped, would draw the faculty’s collective attention to the need to regularly review academic awards for accuracy and currency. She expressed concern that there are many in the faculty who are not aware that they are responsible for ensuring the accuracy of catalog awards. In the new format, each department can see the number of courses and programs that are under its jurisdiction. She noted that the numbers of courses and awards listed are advisory only because they are dynamic, and can change with adoptions and inactivations of programs and courses throughout the year. She also noted that in instances of departments with more than one discipline, terms assigned for those programs were determined rather informally because she and L. Miller were not sure of each department’s individual needs. She went on to assure the committee that the award update meeting date is flexible. L. Miller sought clarification as to whether faculty were being encouraged only to review programs every five years per the matrix, or whether they were required to have Curriculum Committee review every five years. B. Adams confirmed that programs would be required to have committee review every five years, but could be updated more often if course changes and industry needs warranted it.

   Alignment of CurricUNET and Catalog Data
   She also spoke to problems of misalignment of program data in the catalog and in CurricUNET. She reminded the committee that it is the faculty’s responsibility to go into CurricUNET to monitor and modify programs. She advised that faculty members go into CurricUNET and check to see if it contains accurate program data, as well as an accurate representation of what programs are in the system. She advised that they compare the catalog to CurricUNET.
Alignment of Curriculum Matrix to Learning Outcomes Assessment Cycle

B. Adams also reminded the committee of the need to review and vote on J. Todd’s proposed CLO assessment cycle on page 15 of the Student Learning Outcomes Handbook. This guide has been forwarded to the Curriculum Committee as approved by the OAW and as a “living document.”

She explained that the CLO Assessment Cycle was intentionally designed to align with the existing curriculum review cycle established by the Curriculum Review Matrix. She noted that while the CurricUNET approval stream to facilitate this review did not yet reflect this new process, the CLO Assessment Cycle was a separate issue that required the committee’s vote. The CLO Assessment establishes how and when learning outcomes are reviewed in the context and timelines of curriculum review and program review.

M/S/U (L. HATCH, S. CIRCLE) to approve the CURRICULUM REVIEW MATRIX for 2013-2018 and the CLO ASSESSMENT CYCLE

XII. PUBLIC COMMENT

S. Circle sought feedback on a question brought to her by an individual faculty member. How can students taking noncredit courses opt to complete those courses for credit. There was animated discussion. S. Kincade explained that the question had been brought to her attention by the dean of the division and that she was looking into it. She added that there may have been confusion about the concepts of noncredit versus “not for credit.” It was collectively determined this question was not a concern of the curriculum committee’s at this time.

**Enrollment Restrictions:** Requesting (L): Enrollment limited to students who receive instructor approval for the purpose of identifying an internship site and outlining learning objectives for the internship.

**Rationale:** This course was originally approved on 10/23/2012 with no enrollment restrictions. CCCCO review of the COR highlighted that the course was lacking a required limitation on enrollment per § 55254 of Title 5, Student Qualifications. On 09/10/12, the Curriculum Committee approved the LOE of “limited to students who receive instructor approval.” The application was submitted and again sent back. The reviewer, in a phone conversation with L. Miller, expressed a desire to see criteria for the LOE within the LOE. The department decided that the amended LOE above provides the criteria. The application will be resubmitted following Curriculum Committee approval.

Hearing no objections, the committee was notified of the modifications to AG 249.
NURWE 362  Work Experience - Nursing  2
Effective: Summer 2013

REACTIVATE

Rationale: NURWE 362 had not been offered since 2010, so it was proposed for inactivation and the committee approved it at the 1/22/13 meeting, with a Summer 2013 effective date. Our Nursing department has been contacted by Sonora Regional Medical Center with a proposal to offer internship opportunities to approximately 12 MJC students this summer; therefore, the students would need to be enrolled in NURWE 362. The Nursing department is requesting reactivation of NURWE 362 effective Summer 2013 so the students may take part in this opportunity. The reactivation proposal will be completed in CurricUNET and the item is to appear as a notification item on the first fall agenda if approved. The course was last updated in 2009 and is in compliance.

Hearing no objections, the committee was notified of the modifications to NURWE 362.
