SPCOM 102

Introduction to Human Communication

Effective: Spring 2014 [Expedited]

Rationale for Expedited Approval: Expedited approval is needed so C-ID submittal may be approved before Fall 2014, which is deadline for approved ADTs to have approved C-IDs for all descriptors included in the TMC template. If C-ID is not submitted and approved before Fall 2014, the AA-T in Communication Studies will be removed from the CCC Inventory.

MODIFY Description, outcomes, objectives, content, methods of instruction, methods of evaluation, textbooks

Rationale: Course is being revised to align with the C-ID descriptor, to complete scheduled periodic review, and to adhere to the Fall 2013 Curriculum Review Matrix. Course is conditionally aligned with C-ID.

Enrollment Restrictions: None

Distance Education Status: Maintaining: Mixed Modalities/Hybrid

AA-T: Communication Studies  18

  MODIFY: Outcomes, requirement sequencing, List B requirements, List C requirements
  Effective: SUMMER 2014 (with CCCC0 Approval)
  Rationale: Program is being updated to reflect course inactivation proposals. The SPCOM faculty determined some courses should be inactivated when conducting their scheduled curriculum review. The Forensic program has inactivated three courses and aligned the remaining course with C-ID descriptor, as the specific courses would not qualify for C-ID and courses that have C-ID descriptors must be approved in order for the ADT to be offered. Some courses from List C have also been removed.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   B. Adams alerted the committee to the future need for revisions to approved ADTs. These revisions can be due to new articulation agreements, or new C-IDs established locally or at the state. The committee should be prepared to see these in the future.

   She reported that the MJC TMC Plan and Progress sheet, which details our progress on developing, submitting and garnering approval for ADTs, has been updated and is available on the web. Some of our departments are unable to create ADTs due to high unit values. Some programs are unable to put forth ADTs due to high unit values of courses in other areas. She explained that Computer Science is looking at ways to reduce units in their courses to address high units; however, with those reductions in place, the awards are still two units over the allowed number in the Computer Science TMC template. In total, 8 of 23 TMCs still require local development and curriculum, district, and state level approval.

2. C-ID  R. Cranley
   R. Cranley explained that a handful of MJC faculty and administrators, as well as her colleagues in articulation, have expressed concern that, if we do not get ADTs approved and in place for programs in which a TMC exists, that our existing comparable local AA or AS degrees will be inactivated by the CCCC0. R. Cranley wanted to find evidence of this set of conditions from the CCCC0 so she could confirm or correct this understanding. She explained that no one has been able to respond to her queries. She anecdotally reported that there are some that speculate this fear is coming from what may end up being a conservative CCCC0 regulatory response to more directive language in SB440, (now on the Governor’s desk awaiting signature.) Once a bill becomes law, educational code is written to implement the law. The impact of the bill is not fully understood until it is interpreted and implemented. In any case, R.
Cranley explained that explicit language stating to the effect that existing AA and AS degrees will be deactivated has not been found nor validated by anyone she has contacted.

She informed the committee that 62 C-IDs are currently approved, and that 8-9 will be submitted for consideration after this meeting.

M. Boyd asked the status of AG descriptors and MJC courses. R. Cranley explained that Agriculture is “on hold” statewide. This is because the Agriculture C-ID descriptors were originally developed in 2008, and that, by law, the descriptors are valid for 5 years. The descriptors need to be reviewed for currency. This process will begin when they find CSU and CCC faculty to be reviewers.

3. CurricUNET Implementation/Issues

B. Adams/L. Miller

B. Adams showed the committee that the issue with requisite skills had been addressed by CurricUNET. She pointed out that the drag and drop feature of CLOs had been put in place as well. She explained that her request to add the correct “effective years” value into the program module was also working correctly, noting that she had requested not just the “14-15” year, but the “15-16” year also.

E. Kerr pointed out that the Course Outline of Record report generated by CurricUNET contains some errant language in Section III.A. “Mastery of the following course objectives will help students achieve the course goal.” This language was in place when course outlines had the “overall goal” field. The group agreed that this was no longer germane to the outline.

M/S/U (E. KERR. E. MAKI) to strike “Mastery of the following objectives will enable the student to achieve the overall course goal” on the Course Outline of Record under III. DESIRED LEARNING A. OBJECTIVES

2. Independent Study Course Outlines

B. Adams

B. Adams explained that we still need to make progress on the use of course numbers 191-194 for Independent Study. All independent study courses are to be inactivated in Summer 2014. She explained that some of the issues with independent study courses may lie in the fact that divisions are not necessarily using the same form, and that perhaps the development of a single form would help streamline the process. Other issues remain unresolved, such as, how many units of independent study should be allowed, noting that many CSUs will only accept 6. Are we doing students a favor by allowing them to earn 12 units? Departments have leeway in the development of course outlines for Independent Study courses; however, they need to be careful to ensure that each course in a sequence of independent study courses related in content need to have unique objectives and unique content. She suggested that authors look at ASSIST for guidance in development of courses.

XI. NEW BUSINESS

Informational Items
1. **Program and Course Approval Handbook, 5th Edition**  
   B. Adams  
   B. Adams announced that the 5th Edition *CCC Program and Course Approval Handbook* has been finalized and approved. It has been in draft for almost a year. This new version provides specific instructions on a number of issues and also how to develop, submit, and revise ADTs, specifically, page 128. This publication is available on the [C CCCO Academic Affairs/ Curriculum website](http://www.cccco.edu).

2. **Course Substitution**  
   M. Garcia  
   M. Garcia asked the committee, on behalf of the counseling department, to explain why the new (Spring 2012) Course Substitution Form requires students to wait until their last semester in their major to apply for a course substitution. He gave examples of how this negatively affected students and the counseling process. B. Adams thought it may have originated from a need to prevent students from substituting too many courses, forcing the question “when is a degree not a degree?” B. Adams asked M. Garcia if the counseling department had a recommendation on how to revise the form. It did not. It was asked what the process was at Columbia College. J. Hughes stated that course substitution is determined through the petitions process. Some members explained that the previous form was prone to abuses. Some committee members noted that M. Robles was not present to provide insight on the issue. It was decided that this topic should be moved to Unfinished Business at the next meeting rather than taking any specific action at the meeting.

**XII. PUBLIC COMMENT**

B. Adams distributed copies of the new [Curriculum Matrix](http://www.cccco.edu) to committee members.

M. Adams announced that the committee should be prepared to see MATH courses coming in for periodic review. The group should anticipate seeing major changes to courses. The department is creating a course called MATH 89 which should provide an alternative to MATH 90 for non-STEM (Science, Technology, Engineering, and Mathematics) majors. It is a “lower unit” version of MATH 90. There are also plans of making a 1-unit practicum class for statistics. It is interesting to note that this has been taking place informally on Fridays for some time, and is well attended. He explained that they are looking at high unit values of statistics courses. Is it possible to teach these at a lower unit value? Some Math faculty members are doing site visits to assess how others teach these courses for fewer units.
I. APPROVAL OF ORDER OF AGENDA

J. McGarry requested introductions. C. Mulder requested that the business of guests in attendance be handled as early as possible in the agenda. B. Adams noted that she was withdrawing NEW BUSINESS Action Items 3 and 4.

Hearing no objections, the order of the agenda was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of 09/24/13 were approved.

III. COURSE NOTIFICATION AGENDA

CCCCO Approvals: Courses

IV. COURSE CONSENT AGENDA

ADJU 215 Firearms and Range Application

Effective: Spring 2014 Expedited

MODIFY: Enrollment Restrictions, Materials fees

Rationale: Course was approved at 9/10/13 meeting. Since that meeting, Penal Code Section has changed and the materials fees have changed. The District requires both state and federal background check for the Department of Justice form.

Enrollment Restrictions: Modifying: (L) Enrollment limited to students who have submitted a Live Scan Application to the State of California Department of Justice for fingerprint clearance. This course is restricted under California Penal Code Section 29800; course requires handling and possessing of firearms. Convicted felons, persons addicted to any narcotic or convicted of any offense involving the violent use of a firearm are not allowed to enroll in the course based on Penal Code Section 29800.

Materials Fees: Increase from $57 to $74

Hearing no objections, the committee approved the modifications to ADJU 215

Hearing no objections, the committee approved the modified enrollment restrictions for
ADJU 215.
Hearing no objections, the committee expedited modifications to ADJU 215

During blanket approval of DE Addenda, L. Miller noted that the voting grid did not reflect that
the course proposal was “maintaining” DE as it did on the Course Comparison Summary Report that was used to create the agenda. She wondered that the course still somehow contained a DE component somewhere in the system, despite the fact that the course record in the system did not reflect it because the “Distance Ed Addendum” was grayed out. B. Adams explained that the faculty authors would need to complete the DE addenda and that the agenda cover sheet was in error.

**CMPGR 252, SPAN 101, and SPAN 102 pulled as a block** by E. Lucas due to concerns that the methods of instruction (MOI) seemed too wordy and lengthy, perhaps too detailed. There was lengthy discussion. One member noted that overly explicit MOI could mislead an adjunct into thinking that this is the way that the course must be taught. Another member expressed concern about the role of the committee in editing the work of other faculty; regardless of its quality, is this the role of the committee? Another member expressed a belief that this sort of review and cleanup should be the role of the representative, not the committee.

**M/S/U (C. MULDER, E. LUCAS) to MODIFY CMPGR 252,** and SPAN 101, SPAN 102 are to be held for changes by the co-chair for editing purposes by the faculty author and notification items for SPAN 101 and 102 to appear on next agenda

**M/S/U (C. VAUGHN, M. LYNCH) to MAINTAIN REQUISITES for CMPGR 252**

**M/S/U (K. ENNIS, S. CIRCLE) to MAINTAIN DE for CMPGR 252**

GEOG 104  
**California Geography**  
**Effective:** Summer 2014  
**MODIFY** DE modalities, content, methods of instruction, textbooks.  
**Rationale:** Periodic Review  
**Enrollment Restrictions:** Maintaining: (A) before enrolling in this course, students are strongly advised to satisfactorily complete ENGL 101.  
**Distance Education Status:** Requesting: Online Course, Mixed Modalities/Hybrid Course.  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU and UC.  
**General Education Status:** Approved for (MJC: GE: B) (CSU-GE: D5) (IGETC: 4E)  
**Program Impact:**  
- CSU General Education Pattern Certificate of Achievement  
- General Studies, Emphasis in Social and Behavioral Sciences A.A. Degree  
- Geography AA-T Degree (in progress)  
- MJC-GE Pattern A.A. Degree Major

**GEOG 104 pulled for discussion by M. Adams** expressing a minor concern that course outlines should be authored by faculty members. It was noted that there are no full-time faculty in Geography, so C. Hudelson was authoring the course. He added that it would be
nice to allow an adjunct to author courses as an alternative.

M/S/U (M. GARCIA, M. ADAMS) to MODIFY GEOG 104

M/S/U (C. VAUGHN, M. LYNCH) to MAINTAIN REQUISITES for GEOG 104

M/S/U (K. ENNIS, S. CIRCLE) to MODIFY DE for GEOG 104

During blanket discussion of DE Addenda, concerns were raised about the response for effective student/instructor contact. It was also noted the approximate percentage for the hybrid modality was not included. It was noted that C. Hudelson would want to ensure a 50:50 ratio in the addendum to stay compliant with DE regulations. Minor modifications were made to reflect this.

M/S/U (E. LUCAS, C. MULDER) to MAINTAIN PLACEMENT OF GEOG 104 on GE PATTERN(S)

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams
B. Adams announced the approval of the AA-T in Anthropology. She went on to explain that the committee can anticipate review of the forthcoming proposal for an AA-T in Early Childhood Education, and that it is likely to be the most lengthy TMC template we will complete. She added that Psychology is still in progress.

She also illustrated how approved ADTs are not static and will also change over time. Examples include the just-approved non-substantial changes to the AA-T in Studio Arts and AA-T in Art History. Applications will be required at the CCCCO for changes like this.

2. C-ID R. Cranley
R. Cranley reported that there are now 71 courses approved for C-IDs and that MJC may be 3rd in statewide in C-ID approvals. Four courses approved today will be forwarded as soon as possible, and that she will need to wait for revisions to SPAN 101 and SPAN 102 to take place before forwarding them to C-ID reviewers.

3. CurricUNET Implementation/Issues B. Adams/L. Miller
B. Adams informed the committee that a recent course update proposal, ART 102, did not have the lab objectives copy from the active version. A ticket was issued to Governet.

4. Outcomes Assessment Workgroup (OAW) K. Ennis
K. Ennis was pleased to announce the designation of a new chairperson for the Outcomes Assessment Workgroup, Eileen Kerr, also a curriculum committee member.

The largest area of concern for the OAW at present is a major list of discrepancies between what appears on PiratesNet and what appears in CurricUNET as the CLOs for a course. While PiratesNet is not where PLOs are developed, it is where students can evaluate CLOs. Faculty often look there because it is so user-friendly.

The primary objective of the OAW is to reconcile these errors. Faculty should be prepared to confirm which set of CLOs is correct. Also, because last year was a race to generate and publish CLOs for courses, this year will provide an opportunity to review CLOs for quality and render improvements based upon revised understanding of best practices in CLO development and assessment. Faculty should be prepared for conversations aimed to help make CLOs more useful and meaningful.

J. Dorn has developed a matrix system that effectively outlines how to meaningfully and systematically assess outcomes. While it is sophisticated, the OAW is impressed by how nicely it ties everything together.
E. Kerr announced that OAW will be talking to faculty to review and improve CLOs. Curriculum representatives should be ambassadors for this cause.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  M. Robles
   M. Robles distributed a draft policy of the Prerequisite/CoRequisite/Advisory workgroup. The group is looking at establishing prerequisites based on “content only.” Revised regulations allow for colleges to do this now, as opposed to the past which required statistical validation of need in order to establish prerequisites. In order to establish them based on content only, however, a model district policy must be established. The draft document walks authors through the process of content review, which includes review of requisite course objectives. Use of a form such as this will build a body of evidence.

2. Independent Study Course Outlines  B. Adams
   B. Adams reminded the representatives to spread the word regarding the upcoming inactivation of Independent Study Courses (199, 299, 399s). L. Miller created a list of active Independent Study course records in Datatel. M. Robles noted that there are many different forms being used for independent study. She will be discussing a proposal to consolidate A&R forms from four to one at Dean’s Council.
   Discussion turned to the number of independent study courses the college allows students to complete. Lengthy discussion ensued.

XI. NEW BUSINESS

Informational Items

1. CurricUNET Formatting and Articulation Reports  B. Adams/R. Cranley
   Course outlines have been rejected by ASSIST because of formatting problems. B. Adams researched problems with one outline and found that the faculty author had not started with the CurricUNET outlining tool in the content section. While it looked fine in the CurricUNET interface, the PDF report was a disaster. She reminded the representatives to make sure that faculty know not to copy and paste. Some reps expressed concern that they cannot edit after an author edits, unless they are a co-contributor.

Action Items

1. Prerequisite/Corequisite/Advisory/Limitation on Enrollment Language Standardization  L. Miller
   No Report

2. Course Substitution  M. Garcia
   M. Garcia informed the committee that counseling is opposed to students having to wait until the last semester to be able to apply for course substitution(s). Discussion ensued on procedures at other colleges. Merced College has students apply the semester prior. Columbia College allows application at any time, but it is commonly done
at graduation. Delta College requires that it be done in advance. M. Garcia noted that counseling maintains that the last semester requirement does not allow time for planning and/or alternative options. J. Hughes noted that many schools have no process at all.

_M/S/U (M. GARCIA, S. CIRCLE) to revise the course substitution process and form to allow students to apply for substitution starting at the semester prior to graduation._

3. Relationship of Hours to Units  B. Adams

4. CurricUNET Change to Units/Hours Field  B. Adams

**XII. PUBLIC COMMENT**

M. Robles let the committee to know there is to be discussion of a proposal to reduce the number of Admissions and Records forms from four to one at Dean’s Council.

**MEETING ADJOURNED at 4:32 PM**

Members Absent: J. Beebe, L. Lopez (ASMJC), M. Lynch, P. Mendez

I. APPROVAL OF ORDER OF AGENDA

M. Adams wished to add an item to the agenda. In compliance with the Brown Act, B. Adams noted that it was not appropriate to change the agenda without 72 hours' notice. She did say that he could speak during Public Comment. He accepted.

B. Adams noted that the ART faculty had cleaned up the materials fee rationales for these courses because there were many instances where “placeholder text” was still in use in empty materials fee validation fields that did not exist when the course was previously reviewed. These values were still showing up on materials fee reports suggesting a gap in our processes to external auditors.

MODIFICATIONS/REACTIVATIONS

ART 108  Ceramics 1  3
Effective: Summer 2014
MODIFY Materials fees, repeat policy, outcomes, objectives, content, methods of instruction, methods of evaluation, textbooks
Rationale: Course is being updated to clarify course material fees per request of the VPI.
Enrollment Restrictions: None
Distance Education Status: None
Materials Fee Status: Maintaining of $15
Articulation Status: Transfers to CSU and UC.
General Education Status: Approved for (MJC: Activities).

ART 159  Mural Painting  3
Effective: Summer 2014
MODIFY Title, enrollment restriction, textbooks, requisite skills.
Rationale: This course is being updated in the prerequisite and prerequisite skills area to create a proper relationship between painting courses related in content. The title is also being changed to represent the move away from strict sequencing.
Enrollment Restrictions: Removing: (P) Satisfactory completion of ART 158. Requesting: (P) Satisfactory completion of ART 147 or ART 148.
Distance Education Status: None.
Materials Fee Status: None.
Articulation Status: Transfers to CSU and Requesting: UC.
General Education Status: Approved for (MJC: Activities).
Program Impact:
- Stand Alone
During blanket approval of courses, K. Ennis noted that she has questions on CLOs for ART 159, ENGL 50, MUSC 111, MUSC 112 (withdrawn), PHILO 115, THETR 190, and THETR 196. She was late in contacting the authors, but she explained that the CLOs may evolve. It was determined the same process used for SPAN 101 and SPAN 102 at the 10/08/13 meeting would be implemented: CLO revisions would be included as notification items on a future agenda.

ART 160  Appreciation of Art 3
Effective: Summer 2014
MODIFY Description, outcomes, objectives, content, textbooks.
Rationale: Minor modifications are being made to this course, which had been given conditional
approval for a C-ID descriptor. The catalog description has been expanded, and one item
regarding art historical methodologies has been added to both the course content and the
objectives. The textbooks were also updated, as were the CLOs, which now match the official
CLOs listed on PiratesNet.

Adams noted that she had sent it back to the author twice, providing explicit instruction on how the changes should be completed to conform with the ASCCC’s “The Course Outline of Record: A Curriculum Reference Guide” publication. Formatting problems can cause major problems with ASSIST, for example. Many members advised that the Technical Review committee hold courses instead of forwarding to committee for review. The group agreed that protocols for future scenarios in which a course is not revised to the specifications set forth by the Technical Review committee should be:

First Submission requiring revisions: Contact the Author to request changes,

Second Submission without changes addressed: Contact the Author and Curriculum Representative to address

MATH 89 Intermediate Algebra Essentials 4
Effective: Summer 2014

Rationale: To prepare a new prerequisite pathway for many transfer-level mathematics courses
Enrollment Restrictions: Requesting: (P) Satisfactory completion of MATH 70 or qualification by MJC assessment process.
Distance Education Status: None

MATH 89 pulled for discussion by R. Cranley who had questions about the role of this course as a prerequisite to other courses. M. Adams clarified that the intention is to have this course be a prerequisite alternative for the non-STEM (Science, Technology, Engineering, Mathematics) majors. M. Garcia wanted confirmation that the new prerequisite would take effect with approval and implementation of the course. L. Miller explained that it would not without the parallel curricular updates of courses (by their departments) which require MATH 90 as a prerequisite to include MATH 89, because the prerequisite is built in the system within the course that requires it, not the requisite course (MATH 89 doesn’t automatically appear as a new prerequisite wherever MATH 90 is specified). She makes updates to courses in the system per changes to the Course Outline approved by the Curriculum Committee. M. Adams added that it is a “chicken or the egg” scenario, noting that one cannot add a prerequisite to a course unless the prerequisite has already been approved. It was added that students who advance from MATH 89 to a transfer-level (100 or higher) math course will be able to move across to the STEM sequence, which would have been inaccessible to them after completing MATH 89. R. McKenzie illustrated this on the whiteboard. The MATH SEQUENCE graphic is in the process of being updated by L. Miller to reflect MATH 89. This course is a subset of MATH 90. Content that is not required for pre-calculus is excluded from instruction in MATH 89.

The conversation turned to the number of units being offered for the course. E. Kerr wondered how the approval of this course as a 4 unit course would reflect upon the “sub-set” relationship it has with MATH 90. Does approval of this course at four units validate the need for MATH 90 at 5-units? It would seem that we are jumping the gun by approving this course, seeing there is ample discourse taking place across the college about the high-unit values for some college courses. M. Adams indicated that he would be speaking to this issue during Public Comment.

M. Adams shared anecdotally that – despite what was anticipated to be a high level of interest in MATH 89 as an alternative to MATH 90 – surveys of students enrolled in MATH 70 suggested that students plan to enroll in MATH 90 instead of MATH 89. The department was surprised to learn this.

R. McKenzie solicited the input of the committee on the course title. Many agree that the course as titled is “terrible”– suggesting remedial or K-12 content. Suggestions were made, but none seemed to work. In discussion of this, some asked why MATH 90 was not revised since MATH 89 may serve a larger population of students. Suggestions included “MATH 90 – Intermediate Algebra for STEM Majors” or “MATH 89 – Intermediate Algebra for Non-Stem Majors.” M. Garcia objected saying that students do not know what “STEM” means.

**Rationale:** Program is being modified to modify program prerequisites.

R. Cranley noted that units add up to a range of 66-68. B. Adams will correct the range in the system. K. Ennis complimented the program, but expressed concern about the PLOs as written; there are too many which are too detailed. L. Lanigan explained that the program will be revised again soon. B. Adams will hold at the CC level to facilitate improvements to PLOs for the Nursing Program.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams

As noted, the AA-T in English was approved! A great deal of work is being done on Elementary Teacher Education. B. Adams plans to forward to E. Kerr by the end of the week. E. Kerr will talk to CSU Stanislaus to ensure our degree
aligns with their program. B. Adams encouraged reps to continue working with the faculty in the disciplines that have not yet completed the ADT proposals.

2. C-ID

R. Cranley has sent out language on the recently approved SB 440 which may define consequences for noncompliance with SB1440. S. Kincade explained that there are three major themes, noting that the second requires “A community college shall create an associate degree for transfer in every major and area of emphasis offered by that college for any approved transfer model curriculum approved subsequent to the commencement of the 2013–14 academic year within 18 months of the approval of the transfer model curriculum” and added “Before the commencement of the 2015–16 academic year, there shall be the development of at least two transfer model curriculum in areas of emphasis and, before the commencement of the 2016–17 academic year, there shall be the development of at least two additional transfer model curriculum in areas of emphasis.” She explained that colleges are not doing well, and that the consequences are clear for noncompliance: no apportionment.

B. Adams noted that some schools only have two degrees approved and have not made any progress since the original benchmark, and that other schools often pay for the transgressions of other colleges. She added that because of that, the colleges are currently insufficient in Sections 66746 and 66747 of the Education Code, which is why SB440 came into existence. She emphasized that MJC is doing well in relation to our stated self-certification, with 14 of ADTs approved at the CCCCO and others such as Elementary Teacher Education, Early Childhood Education, and Psychology in rapid development. Questions were asked about the Self Certification process. B. Adams explained that in January, various parties were required to sign a Self-certification form that was forwarded to the CCCCO as a plan for how MJC would respond to SB1440. MJC certified it would develop ADTs for all existing majors in which there was a corresponding TMC, with the exception of programs such as Journalism that no longer exist at the college. Additionally, the college agreed to develop ADTs in programs in which there is no existing major, such as History, Sociology, and Psychology. To this point, it has not been clear as to whether or not colleges are required to create ADTs in non-existent majors.

In any case, SB440 has set benchmarks and now we have clear consequences. Now we are to interpret all of the above.

E. Maki asked what would happen if a given TMC requires a course not offered at an institution due to lack of funds, noting that a colleague is in that situation. Lengthy discussion ensued. It was clarified that this issue is problematic when that course is specified in the core of the TMC. If it is in the elective lists A, B, and/or C, it is not as problematic.

R. Cranley reported that the college has 74 courses approved for C-ID. She will forward seven for review after the meeting.

ASSIST was supposed to have implemented a C-ID feature by this time, but it malfunctioned and has been temporarily disabled.

3. CurricUNET Implementation/Issues

B. Adams/L. Miller

PLOs have been fixed so that authors can reorder using the “hand” grab feature. However, the program report does not reflect rearrangement of the sequence. A Governet ticket has been submitted.

2. Independent Study Course Outlines

B. Adams brought to light that a previous motion to inactivate independent study course outlines only made reference to 199 level courses, and not 299 and 399. She wanted to committee’s intent to be clear for the purpose of the record.

*M/S/U (M. ADAMS, E. LUCAS) to inactivate INDEPENDENT STUDY COURSES NUMBERED 199, 299, and 399 EFFECTIVE SUMMER 2014.*

This is important because there are many 200 and 300 level courses available to faculty in Datatel. The “roll” of the schedule will take place at the end of November, which requires us to update curriculum records prior. Formal declaration of the inactivation of these courses will ensure that they do not roll into 2014-2015. L. Miller shared that she received an inquiry as to how to set up a 299 for a student just that day, and that the rationale was “the student needs to be on campus this semester, and this is the only way we can facilitate that.” The committee was amused. The committee resolved to allow a maximum of 6 units of independent study at the 10/08/2013 Curriculum Committee meeting, but it was noted there was a split vote.

M. Robles brought forward the existing “Modesto Junior College” Independent Study Proposal. It appeared dated and was thought to be a copy of an NCR form, or “triplicate” document. Was this type of form still necessary at an operational level? S. Kincade gave a firm “no.” It was not clear who created the file, or where the original file is. Many criticisms of the form were shared, including the use of colloquial language in the policy section.

S. Kincade noted that Independent Study enrollments are causing significant exceptions in our audits. The district has an internal auditor, as well as spontaneous visits from external auditors, who typically know how to find problematic courses. They are going after grade books and syllabi to ensure the academic integrity of independent study courses and other courses. The college needs to improve their practices in this area. B. Adams noted that in terms of audits, it seems our most problematic courses are often the ones that are randomly selected. There was discussion of “TAs” or teaching assistants. S. Kincade said that TAs are forbidden, noting that the district has a problem with having over 7,000 honorariums on record at the district.

One representative expressed concern about a course, similar to 199, 299, and 399 in her division that may not be being used appropriately. She reticently admitted it may be in use as a catch all for independent study, tutoring, assistants, etc. B. Adams acknowledged her concern noting that this is why the Course Outline of Record is so important for independent study.

B. Adams suggested that the problem may be attitudinal and longitudinal, and that the college may need to shift its perception of the role of independent study in the curriculum, and to more actively develop it at a curricular level. M. Boyd noted that one problem may be that there is no clear sense of ownership of Independent Study courses. M. Robles summarized that, therefore, it is a good time to look at policy.

**XI. NEW BUSINESS**

**Informational Items**

1. MJC Graduation Requirements
   M. Robles
   M. Robles distributed a Memorandum of Understanding to the committee regarding “Waiver of Modesto Junior College Guidance Requirement.” She explained that the Petitions Committee did not feel it was their purview to waive guidance requirements since they are a requirement for graduation. However, both counseling and the petitions committee agree that there is a shortage of counselors to teach Guidance classes. L. Dorn (Dean of Counseling) developed a proposal posing that if a student is in his or her last term, that the Guidance requirement be automatically waived.
M. Garcia explained that Guidance is needed at the beginning of the student’s educational plan. S. Kincade asked if this was not a first year requirement. “No” said the group, some adding that the problem is the courses are so impacted making it difficult to enroll students in them. Some students miss out on Guidance in good faith. J. Hughes explained that a small percentage of students do not apply for associate degrees due to the fact they believe they cannot because they haven’t completed a guidance requirement. M. Robles added that, last year, 47 students filed petitions to waive the graduation requirement. Student Services is in favor of a waiver for students who have met all other requirements. It was asked that the representatives go back to their constituents to review and comment, with hopes of taking action at the next meeting.

2. **New Language Regarding Credit Course Competition and Athletics Courses**  
B. Adams  
B. Adams pointed the group’s attention to new language for conditioning courses and variable units. The implementation of repeatability regulations caused some issues for compliance of number of hours student-athletes were allowed. The Chancellor’s Office recognized the need for student athletes to follow intercollegiate regulations and made adjustments.

3. **Distance Education Committee Representative**  
J. Hamilton  
The Distance Education Committee would like to find a Curriculum Committee representative to serve on the DE committee. Members are encouraged to consider the role. It will be discussed again at the next meeting.

3. **Program Learning Outcomes Prompt**  
B. Adams  
B. Adams and H. Townsend discussed need for a consistent program learning outcomes phrase, noting that incongruences between the catalog and the CurricUNET system made it unclear as to which prompt is the master. Additionally, various prompts used throughout the catalog have different styles and create many opportunities for error. The new PLO prompt will read:

> “Upon satisfactory completion of this award, the student should be prepared to…”

_M/S/U (S. CIRCLE, E. MAKI) to approve the proposed CurricUNET prompt for program learning outcomes._

4. **COR Policy document**  
B. Adams  
B. Adams explained to the committee that, when a recent problem was noted with the no-longer-existent “course goal” prompt on the Course Outline of Record template in CurricUNET and then revised in the system, that a revision was technically required of the college’s _MJC COURSE OUTLINE OF RECORD POLICY_, (last approved at 11/04/08 meeting). B. Adams indicated where “Overall Course Goal” had been struck out in two locations on the document.

_M/S/U (K. ENNIS, E. LUCAS) to approve the updates to the MJC COURSE OUTLINE OF RECORD POLICY._

### XII. PUBLIC COMMENT

M. Adams took the floor, which he had requested previously in the meeting. He reported that on the Wednesday before Institute Day, the MATH department worked diligently on the mathematics curriculum, in anticipation of being up for periodic review this semester. Within two weeks of that date, most courses were launched into the approval stream. All courses met the faculty submission deadline. The courses should have been on the current agenda, but they were not.

He went on to share that there are issues with high unit values. They impact Associate Degrees for Transfer. But these are only
the Calculus and Statistics courses. He went on to share that he and his colleagues went to great lengths to research whether MJC’s high unit values for Calculus courses could be lowered. They found that—statewide—there were 322 5-unit Calculus courses, and 198 4-unit courses.

Surprised by these results, they tried to narrow the focus, using C-ID approved courses. Not too many courses have been approved for C-ID, 14 have been approved, and of those, only 5 are four units. Some of those are 4 units, but have 5 units of contact hours.

One school visited was Hartnell College. They reported disappointment in their course, describing it as a substandard version of the course, covering only a portion of the content expected. He compared it to the teaching of the Civil War, wherein the only content covered is the Emancipation Proclamation. He added that they also offer two weeks, 5 hours per day, of what can be seen as a boot-camp for one unit of credit. The Math department is not convinced that the course can be taught—at the desired level of quality—for fewer units.

He asked the committee rhetorically why these courses were not at the curriculum committee level. The courses were launched into the approval stream by the representatives in a timely fashion. It can be deduced that they are at the Dean’s level. There were questions and speculation as to why the courses had not been moved forward to the Technical Review level.

S. Kincade raised her hand to explain why the courses were held. “It’s me.”

M. Adams continued “The Math Department has gone above and beyond in meeting its obligation.” A representative noted that courses being held at the dean level should be held only when giving some sort of rationale. M. Adams asked the committee “Does this trouble you? Curriculum is the purview of the faculty. How can administrators do this when we are the experts on our disciplines?”

S. Kincade responded. “The Administration relies primarily on faculty for curriculum. These courses are affecting degrees, programs, and affecting relationships between departments. There has got to be more research on these unit values for these courses. I know you and your department have worked very hard on your research. We are under the gun to do something. Why does the C-ID reflect these courses as 4 unit courses, and yet we cannot?”

R. McKenzie replied “Those reflect the minimum, not the standard. People aren’t teaching the course in four units. Others are playing with Carnegie units. Algebra has always been a five contact-hour class.” He went on to note that CSU and C-ID faculty allow that the course unit value is the minimum, not the same. He expressed concern that we are making it a “cookie cutter world.” He asked others if they too were feeling pressure.

R. Cranley asked why it is that four-year institutions offer courses for fewer units than MJC. M. Adams stated that those courses are offered in a 3 hour large-lecture format. The majority of those offer an additional 1-unit lab class for extra preparation. Concerns were expressed about MATH 172 and MATH 172 and Statistics. M. Adams noted that no one in the state can make their course align with C-ID for statistics.

R. McKenzie remarked that this is an issue about quality. Why do we want to attain only the minimum with our courses? The C-ID establishes the minimum number of units. The Math Department deems that the quality of the course would be inferior were we to offer it for fewer units.

M. Boyd made an impassioned plea. As an instructor, she shared that what she “values most” is to see her students conferred a baccalaureate degree, and to see them get a job in their field. “I care about quality, and I know that my students get quality.” She reported that students—good students—are sent to other institutions like Brandman or Merced College to move through requirements to their goals. M. Adams and R. McKenzie expressed concern at the quality at the other institutions. She believes they get fine instruction at those institutions.
S. Kincade replied that it is “disingenuous” to leverage the issue of quality in this conversation. She maintained that a large group of Math department’s colleagues in the CCC and CSU (C-ID reviewers) have said that the course can be effectively delivered for the lower unit values designated on the C-ID descriptor. What is to prevent English, History, and other departments from offering courses for more units under the justification of quality? Don’t we all aspire for quality? The problem is that there is a need to look at the whole institution, and the students we serve, and to do so in a way that is equitable and feasible. These unit values are adversely affecting the institution overall. Using quality as a rationale is a bad argument, and it sets a bad precedent.

Additional concerns were voiced about equity of load; some instructors teach more courses, with more students.

The conversation was tabled by J. Hamilton due to the time of day. She noted that the dialog could continue at the next meeting if M. Adams wished to continue the conversation. B. Adams requested M. Adams to provide an agenda line item by the Wednesday preceding the next meeting if he wished to continue discussion.

**ANTHR 198XABCD pulled for discussion by Shelley Circle** due to concerns she and Ruth held that it resembled a course shell without explicit or meaningful content. It was clarified that this was historically a “Special Topics” course. B. Adams noted that the range of the variable units could be problematic, specifically with the half-unit increment which would be difficult to schedule because the X variant is only 9 hours of lecture. It would need to be offered as a short-term course.

Questions also arose about the 4-unit version. This seemed excessive since the ANTHR lecture courses are all 3 units. E. Kerr explained that the department faculty were trying to explore possibilities for “new courses” beyond the current curricula. B. Adams noted that such exploration is typically done under what is known statewide as an “experimental course” and added that MJC has not used the experimental format. C. Vaughn noted that this course would be stand-alone in the curriculum, and aren’t stand-alone courses undesirable across the curriculum? E. Kerr did not object to the feedback, and requested guidelines as to how to approach development of such a course, and agreed to pull the course and share the concerns of the committee in an attempt to get more specificity within the course.

**M/S/ (E. KERR, M. LYNCH)**

**ANTHR 198XABCD withdrawn from agenda by Division Representative, E. Kerr who will bring back to the department for discussion and revision.**

Expediting of proposals was discussed during blanket approval of expedited proposals. L.
Hatch expressed concern about the CLDDV requests to be expedited being overturned by the
Instruction Office. She explained that it was necessary to see them in the catalog for the Early
Childhood Curriculum Alignment project. L. Miller explained that the rationale is what helps
determine why the course should be expedited and that she did not know that inclusion in the
catalog was imperative. In this case, the submissions rationalized that the CID request needed to
be expedited, not necessarily the revisions. She added that timelines are already tight on getting
courses approved at the local and district levels, and that these courses are not going to go before
the YCCD Board of Trustees until December 11, making it difficult to garner CCCCO approval
before the catalog is produced. It was noted that an addendum may be produced to rectify this.
This seemed to address the representative’s concerns.

**NEW COURSES**

**ENGL 107**  
Creative Writing: Creative Nonfiction  
**Effective:** Upon CCCCO approval  
**ADOPT**  
**Rationale:** "Of the three creative writing courses currently offered at MJC--poetry, fiction, and autobiography--the latter is an outdated misnomer that cannot be accomplished in a semester and is inappropriate for students of our average age. That is why we will inactivate ENGL 108: Creative Writing: Autobiography once this new class, ENGL 107: Creative Writing: Creative Nonfiction, is approved. This change will reflect one of the three main genres taught in creative writing programs across the country and put us in sync with current pedagogy."

**Enrollment Restrictions:** Requesting (P) Satisfactory completion of ENGL 101.
**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU, Requesting UC  
**General Education Status** Requesting (CSU-GE:C, C2)

**THETR 154**  
Dance Rehearsal & Performance 3  
**Effective:** Upon CCCCO approval  
**ADOPT**  
**Rationale:** This course is the 3rd Rehearsal & Performance in a sequence of 4 levels of dance performance. This course develops the student's ability to perform with expression, further their intermediate/advanced technical skills related to the Jazz and Modern genre.

**Enrollment Restrictions:** Requesting (L) Enrollment limited to students who successfully pass audition process.
**Distance Education Status:** None  
**Materials Fee Status:** None  
**Articulation Status:** Transfers to CSU. Requesting UC  
**General Education Status** Requesting (MJC: Activities)

**Program Impact:**  
- Stand Alone

**THETR 154 and THETR 168 pulled as a block for discussion by C. MULDER** due to concerns that the comparable courses for each course were identical. Additionally, since the course is requesting UC transferability, one of the courses should be from UC. K. Ennis questioned the CLOs, noting that "attend all rehearsals" does not sound like an appropriate outcome. While she understands the importance of rehearsal attendance discipline for thespians, and believes it is an important outcome of the learning process, she thought it could be written more appropriately to reflect the importance of rehearsal discipline as an outcome at the end of the class, and not as something you do within the course. J. Hamilton noted this is simply an issue of how it is written, as opposed to being a poor outcome. K. Ennis noted she is seeing a plethora of outcomes that could be polished, but also is reluctant to rewrite her colleagues’ outcomes. She agreed to give a list of CLOs that will need attention to L. Miller

Program Changes that do not require Chancellor's Office Notification/Application for Approval

**MODIFY:** A.A. A.S.Univ Prep – Area of Emphasis: Earth Sciences

**MODIFY:** Program Learning Outcomes, program requirements.

**Effective:** Upon CCCCO Approval.

**Rationale:** To create programs for earth science transfer.

**Modifications to A.A. in University Prep: Emphasis in Earth Sciences pulled for discussion by C. Mulder due to concerns that this course would more appropriately be designated as an A.S.**

M/S/U (C. VAUGHN, M. ADAMS) to approve MODIFICATIONS to A.S. in University Preparation: Emphasis in Earth Science with a friendly amendment to change the award from an A.A. to an A.S.

Application for Approval - New Credit Programs (Formerly the CCC-511)

Substantial Changes to an Approved Credit Program (Formerly the CCC-510)

**MODIFY:** Spanish Program

**Adopt New Award in Existing Program** AA-T in Spanish

**Effective Term:** Upon CCCCO Approval

**Rationale:** The Spanish for Transfer degree is being proposed to provide students the opportunity to earn a degree in Spanish and to align with the state-approved TMC.

M/S/U (L. HATCH, S. BERGER) to ADD AA-T in SPANISH to the SPANISH program

Non-Substantial Changes to Approved Program or Change of Active–Inactive Status (Formerly the CCC-511)

**INACTIVATE:** AA: English

**Effective:** Summer 2014 ** Expedited!

**Rationale:** The English A.A.-T has been approved by the CCCCO. The English faculty have determined the A.A. is no longer necessary since students now have the A.A-T degree choice.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
B. Adams reported as of this meeting, we may now submit another ADT into the approval stream at the local and district levels. PSYCH 102, which is part of the ADT in Psychology and had an issue because it lacked a prerequisite, should appear on the next curriculum agenda. E. Kerr has been sent the ADT in Elementary Teacher Education template to see if it aligns with CSU Stanislaus. We will need to determine what we should include to correspond with CSU Stanislaus’ requirements. The CCCCO keeps an ADT Status Report list showing ADTs that have been approved throughout the state. She remarked that MJC is “in the ballpark” with 71% progress (15 approved) toward our self-certification.

2. C-ID  R. Cranley
R. Cranley reported MJC has had 2 CIDs awarded putting the total number of MJC courses approved for C-ID descriptors at 77. We have lost our top 5 ranking. CID is communicating in its newsletter that there is a great need for CC faculty to participate in the FDRGs (Faculty Discipline Review Groups), i.e., Administration of Justice, Health, Computer Graphics. Social Work, and Computer Science. She assured the group that - even though there is a great deal going on – “we can do this!”

She added that all AG descriptors are currently up for a scheduled 5-year review. There is discussion that the emphasis should be put on the AG TMC first. These are some of the issues that are occurring. She promised to send faculty the newsletter.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
B. Adams reminded the group of the PLO shuffle malfunction where PLOs are re-orderable in the CurricUNET interface, but that the PLO report does not reflect renumbering. T. Hillyard of CurricUNET is working on this.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis
OAW met last week and discussed in great depth some confusion that is occurring between OAW and Curriculum Activity. They hope to meet again and invite B. Adams. Accreditation is requiring a great deal of activity. It has become clear that there are many courses that should have been assessed that have not. At this point, it is not acceptable to only say that “you’re going to assess.” E. Kerr noted that the assessment piece needs to be completed by Friday. OAW needs to get data in for SP13. Deans and OAW representatives have received emails about courses needing attention. People have been stepping up to address the deficits.
X. UNFINISHED BUSINESS

Action Items

1. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles  
   Input is being sought on the Pre-Co Requisite advisory document that will establish a procedure for establishing pre and corequisites based on content only. She will send the document out again for review. M. Robles noted that additional input is needed from the Reading faculty.

2. **Independent Study Course Outlines**  
   B. Adams  
   Input is also being sought on how to go about updating the past triplicate form for Independent Study contracts. E. Lucas expressed ongoing concern about how the course BIO 180 was being used as a catch all for various Biology instructors’ purposes. Committee members noted the course is not repeatable so students will not be able to enroll in it for varying purposes. They also noted that the course needs to follow the COR and its intent and purpose.

3. **MJC Graduation Requirements**  
   M. Robles  
   Input was being sought whether to allow students the right to have the Guidance requirement waived if they have satisfied all other requirements in their last semester. What did representatives learn from dialog with their divisions?

   **M/S/ (M. Garcia, L. Hatch) to give students the right to waive the guidance requirement when they are in their last semester.**

   M. Boyd expressed concern at the outcome noting that she would vote against it. She noted that the Agriculture Portfolio is a part of the AG 115 (agriculture specific) Guidance class and is essential to the agriculture program. There was lively discussion. It was noted that AG 115 is a requirement of all agriculture major requirements, in addition to being a Guidance requirement option. Some thought it may not affect them because of this. But what is to prevent a student from petitioning the major requirement, noting that they would have the right to petition this.

   **M/S/U (M. Garcia, L. Hatch) effective with the Fall 2013 term, to give students the right to waive the guidance requirement when they are in their last semester, unless it is required by the major or program requirements.**

XI. NEW BUSINESS

Informational Items

1. **CCCCCO Authorization to Approve Stand-Alone Courses**  
   B. Adams  
   The CCCCO has granted MJC the authority to approve Stand-Alone courses for the 2013-2014 academic year.

Action Items

1. **LOGST Prefix**  
   P. Mendez  
   Workforce development has been working with the regional logistics industry. P. Mendez noted we are seeing expanding logistics and fulfillment industry growth in the Patterson area because of its proximity to major transportation arteries. Such opportunities include things like lift-truck operation, supply chain, inventory control, and logistics. There is agreement that there is need to develop curriculum at community colleges and high schools throughout the region. Even CSU Stanislaus is looking at responding to economic growth in logistics.

   This is not Agriculture oriented, either. Entities like Amazon, Kohl’s, etc., need educational institutions to develop curriculum at multiple levels across the industry. Counties like San Diego, Los Angeles, experienced this a decade or so ago, and now Stanislaus, Fresno, and San Joaquin counties are experiencing it as well. We need a structure to fill the void in this area through classes for ourselves and our service counterparts. We will see development in areas like
trucking, accounting, shipment and international trade.

**XII. PUBLIC COMMENT**

M. Adams distributed a document entitled “Calculus Unit Value Review Report” to the group, at the request of specific Academic Senators. He noted it was not the Senate who made the recommendation to share the information. The report provided data on research into Community College Calculus course unit values and course configurations across the state.

S. Kincade asked about the origin of the report. Who prepared it? She would hope that it would have some information on it making it appear semi-official, such as the date of the report and the names of those who prepared it.

M. Adams noted that it was prepared by R. McKenzie and himself.

S. Kincade reported in response to the document that she had attended the semi-annual CIO (Chief Instructional Officers) conference, describing it as a robust group. There were many issues discussed including TMCs, ADTs, as well as high-unit values. She noted that, after being with this group, that there appears to be a “disconnect” in communications [between administrators and faculty on this issue]. While reports would suggest that the high unit value problem is unique to MJC, it is in fact not. Many CIOs report that they are experiencing similar problems on their campuses. She admitted, however, that she was unable to glean any “key insight” or “solutions” or any “great way” to resolve the problem.

She noted that, while we might look to the CCCCO for direction, they will most likely respond with “this is a college-level decision.” They will maintain that the colleges “know they have 60 units for degree” and that there are repeatability issues, but they will maintain our right to make the decision. She explained that there is “big” legislation ready to “flip” on these issues. All CIOs have said “We need more time [to respond to existing legislation],” but she suspects that this is not being well-received.

Matt Wettstein, S. Kincade’s counterpart at San Joaquin Delta College, gave a presentation on the challenges colleges are facing in responding to Basic Skills. Our student success, as evidenced in the Student Success Scorecard, is being evaluated on a college by college basis by the media, when the media were advised not to do that. They were in fact advised to evaluate on a statewide level, because of the profound and unique influencing regional factors on one college’s performance over another. The more important question, she noted, is whether or not a college is satisfied with its own results.

J. Hamilton emphasized how deeply misleading those numbers can be, in that they reflect very little about the type of students enrolled and what their unique educational goals are. How unfortunate it will be if those numbers are used to judge MJC’s instructional capabilities. Clarification was sought as to whether it included noncredit instruction, to which S. Kincade said “no, credit only.” J. Hamilton maintained that the numbers are likely to be wrong and has concerns about misinterpretation.

S. Kincade noted that she needs to present this data to the Board of Trustees, and cannot assert that these numbers are “wrong.”

She did agree that “anomalies abound.” She brought to light Merced College’s data as an example, showing that 100% of the students in remedial Math are male and also age 50 years or older. All other data show as “N/A.” She said this was a clear example of how data can paint an inaccurate picture if it is poorly provided.
MJC's results on remedial English may be problematic or skewed because ENGL 50 is not included in the data as a basic skills course. It is left out of the dataset. She noted that this is not an issue of poor data entry, but in how the curriculum is designed. There was confusion because members believed that increase in rigor for area MJC-GE:D1 in 2009 absolved the course of its degree applicable status. It was clarified that courses numbered 50-99 are automatically associate degree applicable per MJC’s course numbering rules. L. Miller pointed out that CCCCO data reporting rules maintain that you cannot report a credit course as both BASIC SKILLS and DEGREE-APPLICABLE.

S. Kincade expressed that this makes a larger point of showing that over time, there has been no statistically significant change. We’ve thrown significant fiscal resources into Basic Skills and things like Learning Communities. She concluded that her “big question” is how is any given institution doing over time?

November 5, 2013

Hearing no objections, the meeting minutes of November 5, 2013 were approved.

III. COURSE NOTIFICATION AGENDA

The committee was notified of the following UC Transfer Agreement updates. R. Cranley explained that this report reflects changes approved as the result of a second window for submission of new and revised proposals. These results should reflect anything that was submitted for TCA consideration through September 2013.

UC Transfer Course Agreement (TCA) –

Received by Ruth Cranley from Jennifer Forsberg of the UCOP on 10/22/2013

Dear Colleague,

We have completed analysis of the courses submitted for Modesto Junior College TCA for 13-14. This information is currently being entered into the ASSIST database. Subscribers to the ASSIST-L listserv will be notified via email when this new TCA has been published at www.assist.org. For information on subscribing to the ASSIST-L email listserv, visit http://info.assist.org/assist_l_about.html.

Course Activity Report

The committee was notified of the following course activity

PEA 800   Adaptive Exercise for Mature Adults 0
MODIFY Hours
Rationale: Faculty author selected 35 hours in error and wanted 54. The 35 hour value was approved with the course revision proposal on 01/22/2013. This has been corrected in Datatel and in the proposal now “approved awaiting activation” in CurricUNET.

M/S/U (L. HATCH, M. LYNCH) to REMOVE FEE for ART 102/CMPGR 202
M/S/U (L. HATCH, C. MULDER) to REQUEST PLACEMENT OF ART 102/CMPGR 202 on GE PATTERN(S)

Activities modification pulled for discussion by M. Garcia due to concerns that this course is the only remaining activities option for the AA: University Preparation, Emphasis in Liberal Studies. What is the intent of this degree with the incoming AA-T in Elementary Teacher Education. Will it be kept or inactivated? Is this a temporary concern? There was lengthy discussion about how this affects students within MJC and those who transfer. It was noted that the college does not reflect courses on both Activities and the MJC-GE pattern. After the GE alignment project in Spring of 2011, great efforts were put into aligning the GE patterns to ensure that students were given equitable credit for work done in all patterns.

NEW COURSES

MACH 390 ABC  
Advanced Lab for Manual Turning Operations  1-3  
Effective: Upon CCCCO approval  
Rationale for Expedited Approval: "The proposed series of courses addresses the non-repeatability issue of general lab courses (specifically MACH 395 to meet various program requirements in the Machine Tool Technology area. Students for many years have been advised to pursue a course of study that often requires the taking of MACH 395 more than once and without this expedited approval many will be inappropriately delayed in completing their course of study."

ADOPT
Rationale: Addresses the repeatability issue. Program updates in Machine Tool Technology 1, Machine Tool Technology 2, and Maintenance Machinist 2 to follow. This course, along with others, will more specifically designate the skill developing areas that the student is to address in the lab and will thus not be required to be repeated as was the more generic MACH 395 course to develop required skill levels.

Enrollment Restrictions: Requesting (P) Satisfactory completion of MACH 211DE or MACH 301.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not eligible for GE placement
Program Impact:
- Stand-Alone

MACH 390 ABC, MACH 391 ABC, MACH 392 ABC, MACH 393 ABC, MACH 394 ABC, pulled for discussion by R. Cranley due to concerns she noted in a document which had been distributed as an email attachment to members earlier in the day. There was lively discussion pertaining to the topics referenced in R. Cranley's email, as well as concerns about the size of the program, the way the curriculum would be scheduled, and who would be able to teach it. How many students are in this program? How many instructors? It was noted that the absence of the faculty member made it challenging to get such questions answered.

M/S/ (K. ENNIS, S. CIRCLE) to approve MACH 390 FAILED
MACH 390 ABC, MACH 391 ABC, MACH 392 ABC, MACH 393 ABC, MACH 394 ABC, MAC withdrew by Division Representative (J. BEEBE)

MACH 390A-C - MACH 394A-C

These four courses were created to address the repeatability issue (MACH 390A-C - MACH 394A-C) worth 1-3 units.

1. Are the new courses stand-alone or will they reside in an existing program?
2. Do all students who have completed MACH 211 or 301 or another MACH course end up taking MACH 390ABC?
3. Are these courses open entry-exit course? Are these course restricted so that the student can only complete one of the variable units of the course?
4. How does a student know which unit value to sign up for or is it determined after they complete a project?
5. All these newly developed labs have prerequisite courses not co-requisites. Yet this course is to complete lab projects for a degree, certificate not a particular
class. Is it typical that a student would receive an "incomplete" grade in a course so that they must complete a lab project in MACH 390-MACH 395 courses?

6. With the content of each of these new courses so similar, how are they scheduled? Are they stacked?

7. Why are there now 5 lab classes up to 3 units each when in the past there was 1 class for up to 3 units for 3 completions?

8. How many Machine Tool Tech instructors are required?

9. How many students come through this program?

What is the fate of MACH 395A-C? Will it remain? If it is to be inactivated why is it reflected on the Certificate of achievement: maintenance machinists 2. It is also in Curricunet reflecting 2 repeats and 3 completions.

WITHDRAWN by Division Representative (J. BEEBE)
MACH 392 ABC  Advanced Lab for CNC Milling Operations  1-3
Effective: Upon CCCCO approval
Rationale for Expedited Approval: "The proposed series of courses addresses the non-repeatability issue of general lab courses (specifically MACH 395) to meet various program requirements in the Machine Tool Technology area. Students for many years have been advised to pursue a course of study that often requires the taking of MACH 395 more than once and without this expedited approval many will be inappropriately delayed in completing their course of study."
ADOPT
Rationale: "Addresses the repeatability issue. Program updates in Machine Tool Technology 1, Machine Tool Technology 2, and Maintenance Machinist 2 to follow. This course, along with others, will more specifically designate the skill developing areas that the student is to address in the lab and will thus not be required to be repeated as was the more generic MACH 395 course to develop required skill levels."
Enrollment Restrictions: Requesting (P) Satisfactory completion of MACH 222
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Does not transfer
General Education Status: Not eligible for GE placement

Program Changes that do not require Chancellor’s Office Notification/Application for Approval

**MODIFY:** C: Maintenance Machinist 2

- Program requirements, Required Courses, elective courses
- Effective: Summer 2014 Expedited
- Rationale: To ensure accuracy of curricular offerings in the MJC Catalog
- C: MAINTENANCE MACHINIST 2 pulled for discussion by R. CRANLEY due to concerns that one course, ELTEC 300, appeared in the program as a zero unit course. What is this? The number should indicate that it is not a noncredit course
- M/S/ (K. ENNIS, S. CIRCLE) to MODIFY C: MAINTENANCE MACHINIST 2

**C: MAINTENANCE MACHINIST 2 WITHDRAWN** by DIV REPRESENTATIVE (J. BEEBE)

Application for Approval - New Credit Programs (Formerly the CCC-501)

**ADOPT:** Equine Science Program

- ADOPT: C: Equine Science
- Effective Term: Upon CCCCO Approval
- Rationale: The Equine Science courses currently offered under the Animal Science degree program are stand alone. This certificate program would allow students at Modesto Junior College interested specifically in Equine Science to achieve a certificate in this specialized area. This program would also improve the skill and knowledge level of Animal Science majors in the equine area.
- M/S/U (S. CIRCLE, E. MAKI) to ADOPT C: EQUINE SCIENCE

Substantial Changes to an Approved Credit Program (Formerly the CCC-510)

**MODIFY:** Communication Studies Program (formerly Speech Communication)

- Adopt New Award in Existing Program C: Communication Studies
- Effective Term: Upon CCCCO Approval
- NOTE: This award is currently offered locally as a Skills Recognition Award. Skills Recognition Awards are not recognized at the state level and therefore do not appear on student transcripts. This certificate conversion would change that. For that reason modifications to the existing SRA as proposed are listed below.
- MODIFY Award type, title, program learning outcomes, required area course options
- Rationale: Program is being updated after faculty review of award. In addition, the faculty wish to change this from a local skills recognition award to a state-approved certificate. They have completed the narrative template and wish to submit the proposal to CCCCO for certificate approval.
- M/S/U (S. CIRCLE, E. MAKI) to MODIFY C: COMMUNICATION STUDIES
Non-Substantial Changes to Approved Program or Change of Active-Inactive Status (Formerly the CCC- 511)

MODIFICATIONS

COMMUNICATION STUDIES PROGRAM (formerly “Speech Communication”)

MODIFY

AA: Communication Studies 21 (previously 20)

MODIFY: Award title, program learning outcomes, required courses, elective courses, major units

Effective Term: Upon CCCCO Approval

Rationale: Program is being updated to reflect course inactivation proposals. The SPCOM faculty determined some courses should be inactivated when conducting their scheduled curriculum review. The Forensic program has inactivated three courses and aligned the remaining course with C-ID descriptor, as the specific courses would not qualify for C-ID and courses that have C-ID descriptors must be approved in order for the ADT to be offered. Some courses from List C have also been removed.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams

AS-T Psychology: Today’s approval of PSYCH 102 is good news. This will allow the AS-T in Psychology, which has been approved by the Board of Trustees, to be forwarded to the CCCCO. A quick review of the narrative will be done soon to expedite this process.

AS-T: Elementary Teacher: Development of the program and application continues to progress.

AS-T Early Childhood Education: B. Adams will meet with the CLDDV faculty tomorrow. The department is working on the narrative.

AA-T Philosophy: The template is complete. B. Anelli is working on the narrative.

A memo has been released by the CCCCO plainly establishing that work needs to be done by June 2014. Modesto Junior College is on track to accomplish this.

2. C-ID  R. Cranley

77 C-IDs have been approved as of today. MJC is no longer in the top four institutions statewide for C-ID approvals. After today, 12 courses can be submitted. In two weeks, R. Cranley will update the Curriculum Website showing statuses of all pending applications.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller

B. Adams received an email reporting that the phrase “master of the course goal” has been completed. A review of one of the courses on agenda revealed it has been removed.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis

OAW has not met since the last meeting. They meet monthly. The group is working hard, and E. Kerr has been a great addition to the team. Ideas are being generated and people are “getting proactive.”

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  M. Robles

(None)

2. Independent Study Course Outlines  B. Adams

M. Robles was not present to discuss, however, B. Adams asked if members had comment on documents that M. Robles had previously distributed. E. Kerr wondered about the phrase referring to students having prior approval. S. Circle noted that the “approval of agreement” section and the idea of an “automatic incomplete.” This does not seem right. B. Adams noted this could be removed. S. Circle continued by saying that the student should confirm that he or she has met with the instructor ahead of time. There is nothing in the existing agreement establishing that “I have met with my instructor and discussed my project.” It was agreed that S. Circle would forward her remarks to B. Adams to share with M. Robles. S. Berger noted that there are no details as to how the student is to be evaluated. B. Adams suggested that there be a “Faculty to complete” section. E. Kerr commented that we might want to make a policy regarding faculty obligation. S. Circle was concerned that nowhere is the student asked to show evidence of competence in the major. M. Garcia replied that this is established through previous course completions in the major. S. Kincade reminded the group that Independent Study courses have generated audit exceptions, and that they are asking for rosters, grades. B. Adams reframed it as “an opportunity to improve the policy and procedure.” J. Hamilton suggested that it be regarded as positive attendance. There could be a proposed calendar of meeting dates, times,
and perhaps put on Microsoft Outlook. It was clarified that the obligation per unit for independent study is 18 hours. Such an approach would emphasize accountability. B. Adams noted that this feedback could be incorporated on the initial draft form.

**XI. NEW BUSINESS**

**Informational Items**

*(NONE)*

**Action Items**

1. **Course Unit Values and Contact Hours**  
   
   J. Todd, Academic Senate President, reported that the Accreditation Site Visit went well. Meetings he attended "couldn't have gone any better." We demonstrated a clear faculty role in the assessment process. He did warn that we are apt to need further discussion on the link between CLOs, the MJC Course Outline of Record and assessment.

   Regarding *Course Unit Values and Contact Hours*, he reported he has been busily attending different Academic Senate of California Community Colleges (ASCCC) events such as the Plenary Session, and Curriculum Regional Meetings. It is clear that regarding some "high unit" courses, some disciplines are at an impasse, with their course outlines held up in the approval process. He added that the present administration has made its position evident: the college administration is not recommending the offering of 5-unit courses due to the current climate of higher education and state initiatives. It is not a Math-only situation, but across disciplines that offer 5-unit classes. He went on to state that until now the Curriculum Committee hasn’t had to ask difficult questions about unit values in relation to contact hours, or weigh the effects of contact hours in relation to broader college and student success issues. Also, there is the opportunity to free resources that can be allocated to other things, like counseling and helping students build educational plans. Student experience, breadth of education, completion rates and student learning will need to be in alignment.

   As Senate President, J. Todd has met with colleagues and administrators from across the state, past ASCCC presidents, even an at-large Senator whose discipline is Math. All are having the same struggle with the issue of unit values and their corresponding contact hours. He is asking all of them “who has oversight of contact hours and units?” They all delineate that content is the purview of faculty. Contact hours—or resources—do not belong to faculty. J. Todd empathizes with the instructional concerns of discipline faculty and the need to reimagine our courses, content and pedagogy at this moment. And, we are truly at an impasse, so the question remains, “how do we move past it?”

   General discussion amongst the Curriculum Committee members with a variety of questions ensued. S. Kincade offered to allocate resources to bring in state faculty leadership. She noted that MJC faculty leadership have had the opportunity to hear conversations at the state level but more faculty could benefit from the presentations. J. Todd reminded the group that the AS-T in Computer Science is in jeopardy. Timelines are dictating that the college takes action. We may lose the program by failing to comply with SB1440 timelines. It was further noted that J. Zamora and the Computer Science department already did work to bring down CMPSC course units.
2. **Forwarding Courses/Programs in Approval Stream Process**

   **M. Adams**

   M. Adams opened by supporting E. Kerr’s suggestion during discussion of Action Item 1. He agreed that no policy or procedure exists to address the situation we are in with courses being held at an administrative level. When we think of it as a checks and balances process, we see that both parties have veto power. M. Adams stated that we’ve got to develop a way to get past the impasse. He distributed the most current ASCCC “Good Practices for Approval” documents, noting they might guide the college in resolving this issue. He said, “I would like to save Computer Science. This is my motivating issue. A lot of things have been more philosophical or hypothetical. And as James was saying, there is some time pressure on [developing the AS-T in Computer Science].”

   Again, general discussion amongst the Curriculum Committee members with a variety of questions ensued. K. Ennis pointed out that, while the the Board of Trustees can say “no” to any proposal, a codified process will demonstrate that Curriculum Committee thoughtfully addressed the issue, validated its decisions, and provide evidence of discussion that has taken place. It will establish that the Academic Senate, via the Curriculum Committee, has taken a formal position on this.

   J. Todd offered to work with M. Adams, J. Hamilton, and B. Adams to develop a resolution, at least 72 hours in advance of the next curriculum committee meeting. At this point, J. Todd reminded the group that the pressing issue with the Math courses is the AS-T in Computer Science which cannot be approved at the CCCCO because it exceeds the allowable units for the award.

   J. Hamilton reminded the group that “10+1” establishes that curriculum is the purview faculty, and that curriculum is the purview of this committee. What we’re talking about is that unit values impact budgetary decisions. There are areas where curriculum design has administrative tinges to it. That’s what we’re talking about: course unit values and contact hours which impact budget, which is the purview of administration, not faculty. Even if the curriculum committee has said “Curriculum is our 10+1 right”, we speak to pedagogy, we speak to content, that’s what we have. If it is not approved at the administrative levels, it is because they speak to their budgetary purview.” S. Kincade concurred that faculty need to be involved in the authoring phase of any alternatives.

   B. Adams proposed that the committee draft a resolution—or perhaps two different resolutions, one addressing dual proposals, one addressing the actual procedure and process itself. It was resolved that B. Adams, J. Hamilton, M. Adams, and J. Todd would craft a resolution for the next meeting.

**MODIFICATIONS/REACTIVATIONS**

**BUSAD 246**  
**Retail Management**  
**Effective:** Summer 2014 *Expedited*  
**Rationale for Expedited Approval:** Course is being reactivated because it is now part of the Retail Management Program which we are updating during our periodic curriculum review.  
**REACTIVATE/MODIFY**  
**Rationale:** We just learned that the Retail Management (WAFC) Program curriculum is being updated and BUSAD 246 is now the capstone course for this program. We need this course in the 2014-15 catalog to retain accreditation with the WAFC Retail Management Certificate program.  
**Enrollment Restrictions:** None  
**Distance Education Status:** Requesting: Online Course, Mixed Modalities/Hybrid Course  
**Materials Fee Status:** None  
**Articulation Status:** Transfer to CSU  
**General Education Status:** Not approved for GE  
**Program Impact:**  
- Retail Management (WAFC) Certificate of Achievement

CLDDV 127  
Infant/Toddler Practicum  
(from CLDDV 127ABCDE)  

Effective: Summer 2015

**MODIFY** Unit variability, enrollment restrictions, hours, repeat policy, DE modalities, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

**NOTE:** CLDDV 127A, 127B, 127D, 127E will require inactivation in Datatel and CCC Inventory

**Rationale:** To align with Statewide CAP (Curriculum Alignment Project) for Child Development programs, add a limitation on enrollment (fingerprinting), changes to course description, course learning outcomes, objectives, course content, request hybrid component for one-lecture portion of the course, and eliminating the variable units.

**Enrollment Restrictions:** Maintaining: (A) before enrolling in this course, students are strongly advised to satisfactorily complete ENGL 50. Maintaining: (L) Enrollment limited to students who can demonstrate TB clearance. Requesting: (P) Satisfactory completion of CLDDV 121 and CLDDV 125. Removing (C) Satisfactory completion of or concurrent enrollment in CLDDV 125.

**Distance Education Status:** Requesting Mixed Modalities/Hybrid Course

**Materials Fee Status:** None

**Articulation Status:** Transfers to CSU

**General Education Status:** Not approved for GE; Approved for (CC-CHILD 16)

**Program Impact:**
- Site Supervisor Certificate of Achievement
- Early Childhood Education AS-T Degree (in progress)
- Early Intervention Assistant 1 Certificate of Achievement
- Master Teacher in Infant-Toddler Development and Programs Certificate of Achievement
- Master Teacher: Working With Children With Special Needs Certificate of Achievement
- Teacher Certificate of Achievement

**During blanket approval of modifications,** S. Circle expressed concern that “a CLDDV course” had not used two Methods of Evaluation. B. Adams clarified that they in fact were used on the lab portion of the agenda.

**MUST 141, 142, 143 144 pulled for discussion as a block by E. Maki. A. Sabre was present to answer questions. Several comments had been made on the courses that both E. Maki and A. Sabre wanted to respond to with clarity. There was a contradiction in the field trip policy between Technical Details and the catalog description. Field trip language was removed from the catalog description. Typical assignments were revised to show quality, not quantity of assignments. Questions were raised about the similar content of the course over the sequence, which the author and representative explained was about the increasing level of skill in each content area. K. Ennis expressed concern about the CLOs being very similar to the course objectives. A. Sabre agreed to work with K. Ennis to improve the CLOs. Recommended content section was longer than the required content. It was clarified that any of the four composers could be covered at the fourth level justifying the length of the list.**

THETR 135  Rehearsal and Performance 3  2
Effective: Upon CCCCO approval
ADOPT
Rationale: This course is being proposed for training techniques that will give the student intermediate acting skills that will apply to a role in a fully mounted production. If it is approved via curriculum, Ruth will submit for CID THTR 191. Based on a conversation with M. Sundquist on 11.21.13, this course will reside in the THTR ADT if that is the route they take for "4 experiences". I will reflect this on the CID EXCEL sheet. (R. Cranley)
Enrollment Restrictions: Requesting (L) enrollment limited to students who successfully pass the audition process and get cast in a role.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfers to CSU. Requesting UC. Requesting (CID THETR 191)
General Education Status: Requesting (MJC: Activities)

VI. PROGRAM NOTIFICATION AGENDA

CCCCO Approvals: Programs

VII. PROGRAM CONSENT AGENDA

VIII. PROGRAM DISCUSSION AGENDA

B. Adams opened the Program Discussion Agenda by pointing out that the Business Administration Department followed the Curriculum Review Matrix and reviewed courses and programs at the same time, which should be the practice all disciplines follow in order to update programs as course changes are made. She expressed gratitude and commended them for their robust efforts, and pointed out how well it worked for them in terms of seeing the impact of course modifications on program requirements.

Program Changes that do not require Chancellor’s Office Notification/Application for Approval

**MODIFY: Bookkeeping Program**

C: Bookkeeping 25

Effective Term: Summer 2014 **Expedited**

To ensure accuracy of program offerings in the college catalog

**MODIFY** Program learning outcomes, required courses, elective courses

Rationale: Update for BUSAD review cycle.

M/S/U (E. MAKI, M. GARCIA) to **MODIFY C: BOOKKEEPING**

During blanket approval of expedited proposals, questions were raised about the criteria for expediting program changes. B. Adams explained that these were being expedited to ensure accuracy of catalog information, and because they are local awards, there are not subsequent levels of action that must take place prior to implementing them. It was explained that criteria for determining what requires Board of Trustees and CCCCO approval can be complex and case-by-case. S. Kincade indicated that the topic of expediting timelines needs to be on a future agenda.

M/S/U (P. MENDEZ, E. MAKI) to **EXPEDITE MODIFICATIONS of C: BOOKKEEPING**

**MODIFY: International Business Program**

C: International Business 17

Effective Term: Summer 2014 **Expedited**

To ensure accuracy of program offerings in the college catalog

**MODIFY** Program learning outcomes, required courses

Rationale: This revision is part of the regular Business Administration curriculum review cycle. These changes are proposed for the 2014-15 catalog to update required and elective courses and descriptions and correct any errors in the certificate.

C: International Business pulled for discussion by K. Ennis due to concerns about outcomes language. She commended the department for its valiant efforts on the programs. She was reluctant to point out that the PLO language was not as “to the point” on outcomes 1 and 3. They were revised to remove phrases like “…demonstrate and understanding of”

M/S/U (K. ENNIS, E. MAKI) to **MODIFY C: INTERNATIONAL BUSINESS**

M/S/U (P. MENDEZ, E. MAKI) to **EXPEDITE MODIFICATIONS of C: INTERNATIONAL BUSINESS**
Real Estate Program

Effective Term: Summer 2014

To ensure accuracy of program offerings in the college catalog

Adopt New Award in Existing Program: SRA: Real Estate Salesperson 9-10

Rationale: This is a new "mini" award (skills recognition award) including only courses needed to sit for the Real Estate Salesperson exam. This award is intended to meet immediate needs for students wanting to enter the recovering real estate job market. This skills recognition certificate is based on current research of the CA Department of Real Estate and includes education requirements for the Real Estate Salesperson's license exam. These changes are proposed for the 2014-15 catalog to allow students to immediately begin earning this award.

M/S/U (E. MAKI, M. GARCIA) to ADOPT SRA: REAL ESTATE SALESPERSON

M/S/U (P. MENDEZ, E. MAKI) to EXPEDITE THE ADOPTION OF SRA: REAL ESTATE SALESPERSON

Supervisory Management Program

C: Supervisory Management 21

Effective Term: Summer 2014

To ensure accuracy of program offerings in the college catalog

MODIFY Program learning outcomes, elective courses

Rationale: This update is part of the regular Business Administration curriculum review cycle. These changes are proposed for the 2014-15 catalog to discontinue the Supervisory Management AA degree, and update required and elective courses in the remaining AS and certificate.

M/S/U (E. MAKI, M. GARCIA) to MODIFY C: SUPERVISORY MANAGEMENT

M/S/U (P. MENDEZ, E. MAKI) to EXPEDITE MODIFICATIONS of C: SUPERVISORY MANAGEMENT

Application for Approval - New Credit Programs (Formerly the CCC-501)

(None)

Substantial Changes to an Approved Credit Program (Formerly the CCC-510)

(None)

Non-Substantial Changes to Approved Program or Change of Active–Inactive Status (Formerly the CCC-511)

MODIFICATIONS

Accounting Program

C: Accounting 27-28 (previously 24)

Effective Term: Upon CCCCO Approval

MODIFY Program learning outcomes, required courses, elective courses, certificate units

Rationale: Revision of this certificate is part of our regular BUSAD curriculum review cycle.

M/S/U (E. MAKI, M. GARCIA) to MODIFY C: ACCOUNTING

AS: Accounting 25 (previously 30)

Effective Term: Upon CCCCO Approval

MODIFY Program learning outcomes, required courses, elective courses, units in major

Rationale: This revision is part of the regular Business Administration curriculum update.

M/S/U (E. MAKI, M. GARCIA) to MODIFY AS: ACCOUNTING

C: Accounting Clerk 14½ - 18½ (previously 14½)

Effective Term: Upon CCCCO Approval

MODIFY Program learning outcomes, required courses, units in major
**Rationale:** This revision is part of the regular Business Administration curriculum update.

**M/S/U (E. MAKI, M. GARCIA) to MODIFY C: ACCOUNTING CLERK**

**Bookkeeping Program**

**AS: Bookkeeping** 28 (previously 30)

**Effective Term:** Upon CCCCO Approval

**Rationale:** This program revision is part of the BUSAD curriculum review cycle.

**M/S/U (E. MAKI, M. GARCIA) to MODIFY AS: BOOKKEEPING**

**Business Operations Management Program**

**AS: Business Operations Management** 28 - 30 (previously 30)

**Effective Term:** Upon CCCCO Approval

**Rationale:** This is part of the regularly scheduled BUSAD curriculum review cycle. These changes are proposed for the 2014-15 catalog to discontinue AA degree, update required and elective courses and descriptions and correct any errors in the remaining AS.

**M/S/U (E. MAKI, M. GARCIA) to MODIFY AS: BUSINESS OPERATIONS MANAGEMENT**

**Marketing Program**

**AS: Marketing** 27-30 (previously 30)

**Effective Term:** Upon CCCCO Approval

**Rationale:** This is part of the ongoing BUSAD curriculum update review cycle. These changes are proposed for the 2014-15 catalog to discontinue AA degree, update required and elective courses and descriptions and correct any errors in the remaining AS.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams
   E. Kerr and B. Adams are still working on the Elementary Teacher Education AS-T. Some faculty members may be contacted because their courses are part of the ADT, and could be aligned to a C-ID, however they have not been updated and submitted for C-ID approval. Psychology ADT will be submitted soon per L. Miller.

2. C-ID R. Cranley
   R. Cranley, absent, sent an email to the committee in lieu of a meeting report. 79 courses have C-IDs. An additional 8 CORs will be submitted for C-ID following today's meeting, on the condition that they are approved at this meeting. All deans and curriculum representatives were sent a C-ID spreadsheet on Tuesday, November 26, with courses sorted by division. She asked that representatives please encourage faculty members responsible for a particular COR update to modify and submit their course through curriculum. Newest C-ID spreadsheet, updated on 11/26/2013 is posted on the Curriculum Committee website. If you have questions for R. Cranley, please email her.

3. CurricUNET Implementation/Issues B. Adams/L. Miller
   No tickets have needed to be submitted since the last curriculum meeting.

4. Outcomes Assessment Workgroup (OAW) K. Ennis
   The Outcomes Assessment Workgroup meets Friday.
X. UNFINISHED BUSINESS

Action Items

1. **Policies for Prerequisites/Corequisites/Advisories**  
   **M. Robles**  
   M. Robles hasn’t received any feedback. B. Adams explained that she didn’t have an electronic version of the document to distribute to committee members before the meeting, and was only able to distribute a portion of the draft document. She advised that all information gathered thus far should be sent out for the January meeting. M. Robles hoped that there could be a discussion about what the process will be. A priority would be to make sure there is no disproportionate impact. There was discussion of the need to be “alerted” when prerequisites are being added. B. Adams pointed the group’s attention to CurricUNET’s *Course Comparison Summary Report* that addresses this need. There is a need for very clear criteria for faculty who are proposing prerequisites to ensure that factors are taken into consideration.

2. **Independent Study Course Outlines**  
   **B. Adams/M. Robles**  
   At the last meeting, B. Adams received marked up paper copies of the prior Independent Study Proposal. She had started a draft of incorporating notations from the last meeting. At this time, the draft is too rough. She believes the committee should have a draft of something to review at the January meeting. She asked committee for feedback on how they wanted the form to look and be improved.

3. **Resolution FL13-A “Moving Courses through the Approval Stream”**  
   **M. Adams**  
   M. Adams explained how the resolution was developed. B. Adams recused herself to maintain impartiality as a meeting facilitator. The remaining three authors, M. Adams, J. Hamilton, and J. Todd had robust discussion and collaborated over the resolution. They are not wedded to this exact iteration.

   There were concerns about the “therefore” clauses in the resolution. One committee member asked how the Curriculum Committee would hear the faculty rationale for their contested proposals. The opinion was that it appears the committee would not gain insights as to why the impasse exists.

   J. Hamilton noted that the resolution doesn’t indicate the Curriculum Committee automatically passes the course. It’s saying that, with a 2/3 majority, the course(s) will be put before the committee for review and vote. It requires the Dean to forward the course(s) to the Curriculum Committee through the established process. J. Todd explained that the second “therefore” in the resolution establishes that, after the curriculum committee votes by 2/3 majority to review the contested proposal(s), and if the resulting curriculum review ends up in those course proposals not being passed by the Committee, then the faculty authors must go back and rewrite the course proposal(s) for reconsideration.

   S. Circle maintained that she interpreted the second “therefore” as that the Dean would still be able to obstruct the course even after the committee has voted to review it by a 2/3 majority. J. Todd clarified: if the committee does not vote with a 2/3 majority to move the courses forward from the Dean, or if the Curriculum Committee does not approve the courses after being voted by 2/3 majority to appear on an agenda, then the course(s) go back to faculty for revision.

   It was clarified that the intent of the resolution was to create a process to bypass the limitations being set forth by the approval stream technologies in use.

   A question was asked if the VP might deny the course after the committee has approved the courses. It was noted that it is possible, but that would be irrelevant because, in this context, the committee would have acted in accordance with its “job” and governance by taking action on the proposals, since curriculum is faculty purview.

   Proposals contested at the VP-level would go to the Board of Trustees with a “minority report” or a dissenting report explaining why there is a disagreement to the President, the Chancellor, and the Board of Trustees. S. Kincade maintained that the VP cannot hold up curriculum because that is faculty purview, but because contact hours and units encroach on an area which is not faculty purview, the VP might deny because contact hours and units affect the college as a whole.
Clarification was sought on how the resolution would affect the Technical Review process. Would the 2/3 majority process obligate courses to go before committee even if they have technical problems? B. Adams asked if there should be explicit language differentiating between how the course moves forward for general technical issues versus the issue of contact hours/units. J. Hamilton clarified the intent of the resolution is not to guarantee approval of a course regardless of any complications. It is to ensure that—despite contested contact hours and unit values—our established processes remain intact and that course proposals can’t get stuck.

J. Todd was concerned about timelines for implementation and the consequences for SB1440 compliance and the CMPSC ADT if we do not review things in a timely fashion. B. Adams explained that courses can be submitted as part of an ADT when the C-ID system shows that courses have been submitted for C-ID review. B. Adams added that—per C-ID, courses that are submitted need not be implemented right away. We have up to 18 months. C-ID staff members have acknowledged that course changes cannot be implemented immediately in college operations. His question remained. Do course and program changes need to be in the college catalog next year, effective next fall? He wondered because this could have enormous effects on operational processes.

S. Kincade explained we are trying to meet a state imposed deadline to ensure we continue to garner state apportionment. We have to operate on an assumption of trust, that the Office of instruction will forward curriculum in a timely and appropriate manner should the CC approve it, and by the same token, that the division or department will act in good faith to deliver curriculum in a timely fashion.

**L. HATCH called the question**

J. Todd remained concerned about timelines. B. Adams noted that there will be a breakout session on the Thursday, January 9. A show of hands indicated how many would be in attendance, and the group may be able to take action then. The intent is to allow the faculty to make the decision on moving the courses through the approval stream if the resolution is passed. It was also confirmed that actions to vote on contested curriculum not take place using the Summer Approval Process. B. Adams explained that is usually reserved for technical emergencies.

1. **Distance Education Committee Representative**
   S. Circle will be the DE Committee representative.

   **M/S/U (L. HATCH, K. ENNIS) to place S. Circle as the Distance Education committee representative**

**XII. PUBLIC COMMENT**
S. Circle has submitted for a sabbatical and it is taking the DE Online Education, and doing research and teaching online. She will be developing a hybrid, online basic skills English 50 course. She also put in a mini-grant to go to a conference on Distance Learning. It was asked if there would be a person to take her place. She will keep the committee updated.

J. Todd hopes that there is a way to expedite the voting on the Math curriculum. He is concerned about our ability to see this come to fruition expeditiously. The breakout on the issue is tentatively scheduled for Thursday, January 9. B. Adams asked for a show of hands to indicate if there would be a meaningful number of attendees. It appeared there would be.

B. Adams thanked the team for a good semester, and acknowledged their hard work.

MEETING ADJOURNED at 4:20 PM
I. UNFINISHED BUSINESS

Informational Items

1. C-IDs, ADTs, and High Unit Values

   B. Adams informed curriculum meeting members that she had asked Letitia to bring copies of unapproved minutes from December 3rd meeting to refresh everyone’s memory. B. Adams at the request of S. Kincade gave a presentation at the Dean’s retreat the previous week. B. Adams had asked each of the Deans to identify the special topics that, from their perspective, were important in the Divisions other than their own. B. Adams demonstrated the tally and there were a lot of check marks about high unit values. B. Adams then asked the Deans to think about Curriculum. The majority noted that Curriculum Committee members are good communicators.

   B. Adams then reminded members that the Committee was not going to vote on individual Math courses, but voting on the process of forwarding Math curriculum to the next level as stated in Resolution FL 13-A. S. Circle asked S. Kincade on the status of bringing a guest speaker to a Curriculum meeting. S. Kincade responded that she was going to bring in a State Academic Senate speaker such as the former Academic Senate President, Michele Pilati, or the current State Academic Senate President, Beth Smith. If the person couldn't come to MJC it may be by videoconference.

   Discussion ensued on high unit values that included looking at what Columbia College was doing and the impact of high unit science courses on the Nursing program. It was clarified that faculty are primarily responsible for the design and content of courses including course outlines of record.

   B. Adams asked for any input or ideas about how we can resolve high unit value issues? It was discussed that decisions need to be made quickly because of timelines for implementation and the consequences if we do not review things in a timely manner. It was pointed out that high unit values are going to affect Financial Aid for students as well as their student success.

   J. Todd commented that unit values and their corresponding contact hours are connected to several initiatives the college must respond to: TMCs/ADTs and the 60 unit cap, general education and the breadth our college can offer, difficulties with financial aid, and the new Student Success initiative. We are going to have to balance and think strategically about what we want our student experience to be, especially given student load constraints. The ASCCC is having many discussions about what general education looks like in the area of ADTs, and our college needs to
contemplate how we want to maintain breadth, resources, and offerings across the curriculum. Part of the question in front of us is about student load--how much they can fit in--and the other is how all of our disciplines impact each other in terms units, contact and resources. Additionally, The Student Success Initiative is ushering in our first encounter with performance based funding. We need to consider how we are going to be more successful in terms of getting students to reach their goals, as well as improving retention and persistence. J. Todd thinks that the push from state initiatives might be read as everyone--all disciplines--needing to condense, focus on essentials in their courses, and do them well in order to increase student completion.

R. Cranley referred to the Math and Science spreadsheet found in the curriculum website. These spreadsheets reflect current articulation with the CSU and UC campuses and also show the unit values for transfer articulation using semester or quarter system and unit value.

S. Kincade provided some recommendations or considerations that divisions and faculty might include in curriculum development including C-ID Values, Success/Retention, Disproportionate Impact, Feeder Schools, Common CORE, and Financial Aid. She also emphasized the need for transparency to ensure faculty understand expectations of curriculum development prior to forwarding CORs to the Committee.

Discussion concluded and the committee moved to the next item.

2. Resolution FL13-A Curriculum Approval Stream – MATH Courses

- MATH 10 Introduction to Math
- MATH 20 Pre-Algebra
- MATH 47 Skills for Success in Non-transfer Level Courses (AWAITING ORIGINATOR ACTION)
- MATH 49 Skills for Success in Transfer Level Math courses (AWAITING ORIGINATOR ACTION)
- MATH 70 Elementary Algebra
- MATH 90 Intermediate Algebra
- MATH 105 Structure of Mathematics 1
- MATH 106 Structure of Mathematics 2
- MATH 121 Pre-Calculus 1
- MATH 122 Pre-Calculus 2
- MATH 134 Elementary Statistics
- MATH 171 Calculus: First Course
- MATH 172 Calculus: Second Course
- MATH 173 Calculus: Third Course
- MATH 174 Introduction to Differential Equations & Linear Algebra

B. Adams provided the Curriculum Committee with a copy of Resolution FL13-A and called for a motion to address the Math courses identified above.

M. Adams moved to forward the listed MATH courses directly to the next step in the curriculum process (technology review) without dean approval per Resolution FL13-A Curriculum Approval Stream; approved by the Curriculum Committee on December 3, 2013. S. Circle seconded the motion.

The resolution required a 2/3 vote and members were asked to raise their hands if in favor of moving the MATH courses forward in the approval stream.

5-AYES
6-NAYS
ABSTENTIONS-0
M/S/ (M. ADAMS, S. CIRCLE) FAILED to forward the MATH courses to the curriculum committee for next level technology review without dean approval. Per Resolution FL 13-A, Therefore: Be it resolved, that in the event a course is not moved forward as described or the Curriculum Committee does not ultimately approve a course due to concerns about unit values or their corresponding contact hours, the Curriculum Committee will recommend that discipline faculty work with administration to develop a Course Outline of Record that would eliminate such concerns.
I. APPROVAL OF ORDER OF AGENDA

M/S/U (E. Maki, M. Lynch) to approve the order of the agenda.

II. APPROVAL OF MINUTES

M/S/U (E. Lucas, L. Hatch) to approve the minutes of 12/03/13 and 1/09/14 (Special Session)

III. COURSE NOTIFICATION AGENDA

The committee was notified of the following activity:

CCCCO APPROVALS

CMPSC 219 (CCC00551416)
CMPSC 241 (CCC00551750)
ENGL 107 (CCC00551627)
ESL 39 (CCC00551751)
MUST 141 (CCC00551632)
MUST 142 (CCC00551631)

THETR 135 (CCC00551629)
THETR 136 (CCC00551626)
THETR 154 (CCC00551628)

L. Miller noted that ENGL 107 is going to be changed to ENGL 111. The course was approved at the 11/08/13 meeting with a course ID (ENGL 107) that had previously been used for ‘Magazine Writing’ that was inactivated in 1988. MJC has a policy of not reusing course numbers that have been used in the past. The course had been approved as ENGL 107 at the district and CCCCCO. This revision will be facilitated through the Instruction Office.

NEW COURSES

GEOL 187  
Geology of the Death Valley Region  
2
Effective: Upon CCCCO approval [Expedited]
Rationale for Expedited Approval: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field studies in areas of contrasting geology. California possesses some of the most diverse geologic landscapes on the planet. Each of these proposed courses emphasize the field relationships and principles in particular regions. Geology/earth science majors will be able to continue to benefit from each unique field experience.
ADOPT
Rationale: The Death Valley course is being offered during the spring semester as Geology 171B (the older general course of field study). A large number of geology majors at MJC have already taken Geology 171B in the Cascades or Eastern Sierra and are therefore ineligible to enroll in the Spring semester, even though they would strongly benefit from the course.
Enrollment Restrictions: Requesting (A) Before enrolling in this course, students are strongly advised to be enrolled in or have successfully completed any geology or earth science course, or get consent of the instructor.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfer to CSU.
General Education Status: Not approved for GE
Program Impact:

GEOL 192  
Geology of the Pacific Northwest  
3
Effective: Upon CCCCO approval [Expedited]
Rationale for Expedited Approval: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field study classes in areas of contrasting geology. California and the other western states and Canada possess some of the most diverse geologic landscapes on the planet. Each proposed course emphasizes unique field relationships and principles. Geology majors at Modesto Junior College will continue to benefit from each unique field experience.
ADOPT
Rationale: Course is needed because of changes to repeatability.
Enrollment Restrictions: Requesting (A) Before enrolling in this course, students are strongly advised to satisfactorily complete any geology or earth science course, or get consent of the instructor.

M/S/U (E.MAKI, K. ENNIS) to INACTIVATE A.A: Accounting.

INACTIVATE: A.S. University Preparation, Emphasis in Physics 25
Effective: Summer 2014 Expedited
Rationale: Program is being inactivated because the AS-T in Physics has been approved by the CCCCO and the Physics faculty want to have just one single-focused transfer award.
M/S/U (E.MAKI, K. ENNIS) to INACTIVATE A.S. University Preparation, Emphasis in Physics.
IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   B. Adams announced the approval of the AA-T in Early Childhood Education program, which will now go the Board for approval and L. Miller will submit this program to State for approval. Psychology is in final review at the CCCCO. The TMC for Chemistry has been finalized, but the template is not yet available on Chancellor’s Office website. B. Adams informed the committee that E. Kerr and she just had finished worked yesterday on TMC template for Elementary Teacher Education course, so this draft might appear on the next agenda. There are still more courses that need to be submitted for C-ID approval, such as Social Science and Geography. B. Adams encouraged reps to continue working with the faculty. She went on to explain that the committee can review any information about Transfer Model Curriculum using www.c-id.net and going to the TMC tab. The Chancellor’s office has posted AA-T and AS-T degrees. This website shows these examples, the level of the course, date reviewed and more.

2. C-ID  R. Cranley
   R. Cranley reported that there are now 101 courses that have been approved for C-IDs, and 73 courses are in the process of being reviewed. MJC is 1st statewide for C-ID submittals. R. Cranley referred to the newest spreadsheet that was created and now can be found on the MJC Curriculum Website. To view these courses go to View C-ID reviewer feedback on requests for C-ID descriptors.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   B. Adams reported no tickets needed to be submitted since the last curriculum meeting.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis
   K. Ennis announced that the Outcomes Assessment Workgroup (OAW) has been working hard and due dates for CLOs have been established. Courses that have been assessed from fall semester 2013 need to be in curriculum no later than January 31st. In addition for those who decided to assess courses for spring 2014 semester are due no later than May 31st. Each department should have a point person that has ability to access her/his course.

   B. Adams stated that some faculty members were asking to have the ability to enter/update data or assess their own courses. B. Adams shared that more than one faculty member may be teaching a course, but not everybody has access to check assessment data; an option for all faculty to have access and check data could be beneficial.

   Curriculum Committee members all have access to CurricUNET. K. Ennis was not able to answer those concerns, but will take those issues to the next OAW meeting. Discussion regarding OAW and assessment ensued.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  M. Robles
   The subcommittee had been working to update a rough draft for Policies for Prerequisites/Corequisites/Advisories. Draft #3 “Prerequisite based on content review only” was provided as an attachment to the current agenda for members to review. B. Adams asked everyone to provide feedback or additional comments to her by Tuesday, January 28, so any suggestions may be incorporated in the draft for the next curriculum meeting.

2. Independent Study Course Outlines  B. Adams/M.Robles
   B. Adams provided a separate form as Independent Study Course Outlines. B. Adams asked members to read and provide feedback or additional comments to her by Tuesday, January 28, so suggestions may be incorporated for the next curriculum meeting. For independent study course proposals, B. Adams recommended using www.assist.org website to review other community college course outlines of record.

- General Studies, Emphasis in Humanities A.A. Degree

M/S/U (M. LYNCH, C. VAUGHN) to INACTIVATE GERM 51

MODIFICATIONS/REACTIVATIONS

ADJU 212  Criminal Investigation  3
Effective: Summer 2015
MODIFY outcomes, objectives, content, textbooks
Rationale: Course received C-ID conditional approval so it’s being updated to revise based on C-ID comments
Enrollment Restrictions: Maintaining (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ADJU 201

General Education Status: Not approved for GE
Program Impact:
- Administration of Justice A.S. Degree
- Administration of Justice AS-T Degree

ADJU 212 pulled for discussion by J. Hamilton due to concerns about redundant language in CLOs. "Distinguish the difference between" is redundant. She advised stating “distinguish between” instead.

M/S/U (E. KERR, K. ENNIS) to MODIFY ADJU 212
M/S/U (J. BEEBE, E. MAKI) to MAINTAIN REQUISITES for ADJU 212 During blanket approval of requisites, E. Kerr noted that there was a discrepancy on the voting grid. B. Adams informed the committee that the discrepancy had been corrected.

PHYS 160 Descriptive Introduction to Physics 3
Effective: Summer 2014 Expedited
Rationale for Expedited Approval: The math department added a new intermediate algebra option. We need to add this new course as a prerequisite option at the same time as the new course takes effect to protect students.
Modify enrollment restrictions, outcomes
Rationale: The only proposed modification of this course is to add MATH 89 as an optional prerequisite. None of the physics content is being changed, but we are widening the pool of students able to take the class.
Enrollment Restrictions: Modifying: (P) Satisfactory completion of MATH 90 or MATH 89
Distance Education Status: Maintaining: Mixed Modalities/Hybrid
Materials Fee Status: None
Articulation Status: Transfers to CSU and UC
General Education Status: Approved for: (MJC-GE:A)(CSU-GE:B1)(IGETC:5A)
Program Impact:
- CSU-GE Certificate of Achievement
- General Studies, Emphasis in Natural Sciences AA Degree
- MJC-GE Pattern

PHYS 160 and PHYS 180 pulled as a block for discussion by M. Garcia due to concerns about course content. He noted that the lecture content was identical for both courses. It was noted that these are the same course, in different configurations. One contains a lab, the other does not, thus the identical course content. It was explained that some students need to take the course with a lab component to satisfy General Education requirements, while others do not. It was noted that this configuration of two courses with identical content to provide a lab option was not necessarily used for all lab courses. One member commented it would be nice if it were done consistently across the science courses.

M/S/U (M. Adams, S. Circle) to MODIFY PHYS 160
M/S/U (J. Beebe, E. Maki) to MODIFY REQUISITES for PHYS 160
M/S/U (E. Lucas, S. Berger) to MAINTAIN DE for PHYS 160 During blanket approval of distance education modalities, B. Adams made note that we will need to verify if the recently approved AS-T in Physics would require a Substantial Change application to ACCJC.

M/S/U (M. Adams, S. Berger) to EXPEDITE MODIFICATIONS of PHYS 160
PHYS 180

**Conceptual Physics: A Hands On Approach**

**Effective:** Summer 2014 **Expedited**

**Rationale for Expedited Approval:** The math department created a new intermediate algebra course. We need to add this as an option for student entering this physics course at the same time as the new math course takes effect.

**MODIFY** enrollment restrictions, **general education**

**Rationale:** The proposed modification of this course is primarily to add MATH 89 as an optional prerequisite. Doing so, we are widening the pool of students able to take the class. The only other change is (A) to add lab content to a field that was oddly blank when this copy was made and (B) to correct the outlining of the content section

**Enrollment Restrictions:** Modifying: (P) Satisfactory completion of MATH 90 or MATH 89.

**Distance Education Status:** Maintaining: Mixed Modalities/Hybrid

**Materials Fee Status:** None

**Articulation Status:** Transfers to CSU and UC

VIII. PROGRAM DISCUSSION AGENDA

Program Changes that do not require Chancellor’s Office Notification/Application for Approval

**MODIFY**

**Business Administration Program**

**AS-T: Business Administration**

**Effective Term:** Summer 2014  
**Rationale:** This is a periodic review in alignment with the Business Administration curriculum review cycle.

AS-T in Business Administration and AS: Business Administration pulled for discussion by K. Ennis due to concerns about the PLOs as written, noting that the PLOs do not reflect the depth and breadth of what the program delivers. She mentioned that she knows that students learn more than “ethics” and “terms” in this program—there are 18 courses. She expressed compassionate concern that this may be more of a systemic problem in this department, noting that the faculty members are operating with significantly fewer full-time department faculty. E. Kerr concurred and offered to discuss with C. Vaughn and P. Muncy. K. Ennis noted that she is in support of approving the proposal, but wanted to note that this issue may resurface until systemic challenges are overcome. B. Adams also noted that the catalog description should be reviewed for accuracy, since CurricUNET may contain erroneous information.

**M/S/U (C. VAUGHN, E. OROSCO-WITTKE) to MODIFY AS-T: BUSINESS ADMINISTRATION**

**M/S/U (E. MAKI, M. GARCIA) to EXPEDITE MODIFICATIONS of AS-T BUSINESS ADMINISTRATION**
MODIFY Maintenance Machinist Program  
C: Maintenance Machinist 2

**MODIFY:** elective options, unit requirements for required and elective options  
**Effective Term:** Summer 2014  
**Expedited**  
**Rationale:** Periodic review, to modify the requirements, and to remove courses that are no longer being offered. To correct math errors in unit calculation as printed in the 2013-2014 MJC catalog.

**C: Maintenance Machinist pulled for discussion by R. Cranley due to concerns that the program reads “MATH 70 or ___________.”**

**M/S/U (M. GARCIA, C. VAUGHN) to MODIFY C: MAINTENANCE MACHINIST**

**M/S/U (E. MAKI, M. GARCIA) to EXPEDITE MODIFICATIONS of C: MAINTENANCE MACHINIST**

MODIFY General Studies, Emphasis in Natural Sciences Program  
AA: General Studies, Emphasis in Natural Sciences

**MODIFY:** degree prompt, program structure. Concentration A requirements, Concentration B requirements  
**Effective Term:** Summer 2014  
**Expedited**  
**Rationale:** The purpose of the Natural Sciences emphasis is to recognize a focused study of science exhibited by MJC students. The mechanism to ensure appropriate depth has been completion of 6 units in at least two different disciplines, such as Physics or Chemistry. However, this approach is problematic for nursing students, who complete many often-sequential science courses but with different course prefixes. Similarly, a student may study several aspects of the earth such as meteorology, geology, and astronomy, not achieve six units in any one of these disciplines, yet clearly present the depth expected for a major. Lastly, biology majors complete three courses in three distinct disciplines – BIO, BOT, and ZOOL – and clearly this is an emphasis. The following proposed wording is designed to properly reward the focused efforts of these students.

**AA: GENERAL STUDIES, EMPHASIS IN NATURAL SCIENCES pulled for discussion by M. Garcia due to concerns about the usability of the catalog description for students. Will the groupings be understood by students? B. Adams said that the implementation of that in the catalog is in the hands of the Instruction Office and will be easier to read once it's produced in catalog. L. Miller commented that the dean did note that secondary formatting would be needed because of CurricUNET's formatting limitations in the program module.**

**M/S/U (S. CIRCLE, P. MENDEZ) to MODIFY AA: GENERAL STUDIES, EMPHASIS IN NATURAL SCIENCES**

**M/S/U (E. MAKI, M. GARCIA) to EXPEDITE MODIFICATIONS of AA: GENERAL STUDIES, EMPHASIS IN NATURAL SCIENCES**

Application for Approval - New Credit Programs (Formerly the CCC-501)

Curriculum Committee Minutes – February 4, 2014

Substantial Changes to an Approved Credit Program (Formerly the CCC-510)

**MODIFY**  
**Elementary Teacher Education Program**  
**AA-T: Elementary Teacher Education**  
**Effective Term:** Upon CCCCO Approval  
**Rationale:** This program is being proposed for compliance with SB1440 and to streamline student transfer to a CSU campus.  
**AA-T in Elementary Teacher Education pulled for discussion by S. Circle** due to concerns that the total required units do not match. There are 12 units unaccounted for in terms of courses listed. B. Adams noted that those units do not have to be completed for the degree. E. Kerr commented that it is in fact a good idea for students to complete the courses for the additional 12 units, but the ADT does not require the student to do so. A question arose as to whether the AA: University Preparation, Emphasis in Liberal Studies would be inactivated. “That’s a good question,” commented E. Kerr. Then the issue arose about ART 102/CMGPR 202 having previously been moved out of MJC Activities and into MJC-GE:C Humanities at a previous meeting in order to align with the corresponding placement on CSU-GE:C1. M. Garcia expressed concern at that time, that the course being removed from Activities would remove any activities option for any student pursuing the AA: University Prep in Liberal Studies. Then it was noted that the award could be inactivated or modified to remove the embedded activities requirement.  
**M/S/U (E. LUCAS, P. MENDEZ) to ADOPT AA-T: ELEMENTARY TEACHER EDUCATION**  
**M/S/U (E. MAKI, M. GARCIA) to EXPEDITE ADOPTION of AA-T: ELEMENTARY TEACHER EDUCATION**

Non-Substantial Changes to Approved Program or Change of Active–Inactive Status (Formerly the CCC-511)

**MODIFICATIONS**

**MODIFY**  
**Business Administration Program**  
**AS: Business Administration**  
**27 (previously 30)**  
**Rationale:** Modifications for curriculum review cycle  
**AS-T in Business Administration AND AS: Business Administration pulled for discussion** See discussion notes in AS-T Business Administration above.  
**M/S/U (C. VAUGHN, E. OROZCO-WITTKE) to MODIFY AS: BUSINESS ADMINISTRATION**

**MODIFY**  
**Network Technician Program**  
**C: Computer Network Technician**  
**16 (previously 17)**  
**Rationale:** Program is being updated to reflect a required course that was inactivated.  
**M/S/U (K. ENNIS, M. LYNCH) to MODIFY C: COMPUTER NETWORK TECHNICIAN**  
**M/S/U (E. MAKI, M. GARCIA) to EXPEDITE MODIFICATIONS of C: COMPUTER NETWORK TECHNICIAN**

**MODIFY**  
**Theatre Program**  
**AA-T: Theatre**  
**18**  
**Rationale:** This program proposal updates both the required and elective course lists in order to reflect new courses and a modified unit value course. The CLOs were modified slightly in order to align with the CLOs listed for the Theatre AA degree.  
**M/S/U (K. ENNIS, M. LYNCH) to MODIFY AA-T: THEATRE**

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)**  
   B. Adams  
   With the approval of the AA-T in Elementary Teacher Education, our compliance with SB1440 is still in progress. B. Adams has emailed S. Miller the TMC Template for Political Science. They are working on the narrative template. There will be a meeting in the Math department to discuss high unit values on Math courses this week that will be attended by R. Cranley and B. Adams. It was noted that two courses on the AA-T in Elementary Teacher Education will require revision (GEOG 110, SOCSC 110) in order for the AA-T Elementary application to be submitted to the CCCCO.

2. **C-ID**  
   R. Cranley  
   MJC has 110 courses approved for C-IDs. Two were received this morning in Philosophy. S. Berger asked the status of SPAN 103 and SPAN 104 in terms of curricular revision. Since these courses have not been recently updated, they cannot be submitted for C-ID and thus are holding up state approval of the AA-T in Spanish recently approved by the Curriculum Committee and Board of Trustees. They will require Curriculum Committee review before they can be submitted for C-ID. Only then can the proposal move forward at the CCCCO.

3. **CurricUNET Implementation/Issues**  
   B. Adams/L. Miller  
   There was an issue that required a Governet ticket this week. The program module was allowing faculty authors to revise proposals after launch. B. Adams promptly submitted a ticket and the issue was quickly resolved.

4. **Outcomes Assessment Workgroup (OAW)**  
   K. Ennis  
   OAW will have its first meeting this Friday. The deans will all be away at a big meeting. E. Kerr will need to make the next report on new issues being faced on assessment, and how to deal with problems of assessments not being completed.

X. UNFINISHED BUSINESS

**Action Items**

1. **Policies for Prerequisites/Corequisites/Advisories**  
   M. Robles  
   Feedback was requested at a previous meeting but none was returned. The workgroup is hoping for a resolution to move the policy to the next level for approval.

   **M/S/U (E. LUCAS/M. LYNCH) to ADOPT the drafted POLICIES for content-based review of PREREQUISITES/COREQUISITES/ADVISORIES**

2. **Independent Study Course Outlines**  
   B. Adams/M. Robles  
   B. Adams explained that a spelling error was corrected in this meeting’s draft of the Independent Study form. S. Circle asked if departments are required to offer independent study. The Literature and Language Arts division is going to conduct a survey to assess interest and need.

   **M/S/U (P. MENDEZ/E. MAKI) to adopt the drafted INDEPENDENT STUDY form.**

### Action Items

1. **Proposal to Create THART prefix**

   M. Lynch/B. Adams

   **M/S/___ (M. MORALES, E. MAKI)** to approve the THART course prefix.

   B. Adams introduced M. Sundquist’s memo to propose a new Theatre departmental prefix: THART. There was animated discussion. M. Lynch expressed concerns about what the group agreed was a somewhat awkward prefix, and wanted to discuss with his colleagues. It was unclear what the purpose of the new prefix was. Will it serve to augment existing THETR offerings or to replace the THETR prefix entirely? The memo from the dean clarified that it would initially serve to house independent study courses, but would eventually house the entire department’s active course offerings. M. Adams thought a new prefix would not serve that purpose well, because the department would still have too many courses. P. Mendez explained that the inactive courses would be left behind in the THETR department ID, opening up more course numbers for the department’s use.

   **M/S/U (M. MORALES, P. MENDEZ)** to postpone to the next meeting.
2. Proposal to Create DANCE prefix
   M. Lynch/B. Adams

   M/S/U (M. LYNCH, E. KERR) to ADOPT the DANCE course prefix.

3. Request to Change Program Learning Outcomes prompt in the MJC Catalog
   B. Adams

   B. Adams explained that there are concerns about the use of the phrase EXPECTED LEARNING OUTCOMES in
   the catalog instead of PROGRAM LEARNING OUTCOMES in program information. L. Miller wanted the group, as
   a point of information, to bear in mind that technically, these are AWARD LEARNING OUTCOMES, since
   “programs” can include many awards, and that PLOs are being written to correspond to individual awards. She
   added that this may not be an appropriate forum or time to address this issue. Many members recognized this
   issue and agreed that it should be evaluated. All were in agreement with counsel from B. Adams, that this is about
   production of the 2014-2015 catalog and that the phrasing should match our institutional language currently in use.

   M/S/U (E. LUCAS, J. BEEBE) to change the current PLO catalog prompt from EXPECTED LEARNING
   OUTCOMES to PROGRAM LEARNING OUTCOMES.

XII. PUBLIC COMMENT

M/S/U (E. MAKI, E. LUCAS) to ADJOURN at 4:02 PM

Members Absent: S. Circle, J. Hamilton (Co-Chair/President-Elect Academic Senate), L. Lopez (ASMJC), P. Mendez, Student Services Rep. (Vacant), E. Orozco-Wittke, M. Robles, C. Vaughn

Others Present: L. Gerasimchuk (Instruction Office Technician), J. Hughes (Evaluator), L. Miller (Curriculum Specialist) K. Butler

I. APPROVAL OF ORDER OF AGENDA

II. APPROVAL OF MINUTES

Hearing no objections, the meeting minutes of 02/04/2014 were approved as stated.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

The following CLDDV courses were approved at Fall 2013 curriculum meetings (as indicated). These courses were launched by the established 2014-15 deadline last fall with the intention of approval for SU14 implementation. Unfortunately, many of the courses were held up for technical problems, and did not garner committee approval by the last meeting for 2014-2015 regular cycle approvals. When they were ready for placement on agendas, because the courses were submitted on time for
2014-15, there was no information on which to infer that there was imminent need for 2014-2015 implementation. The faculty representative expressed concern at a later meeting and was told that the department could request expedited approval at a subsequent meeting. The earliest, operationally feasible term for expedited implementation is FALL 2014. These courses appear here seeking consent for (expedited) FALL 2014 implementation at the request of the department (see the memo attached to the agenda). Previously listed modifications and rationales for those modifications are included for the purpose of the record.

**CLDDV 101**  
Principles and Practices of Teaching Young Children (11/05/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
Rationale for Expedited Approval: (Not provided)  
MODIFY DE Modalities, content, description, typical assignments, textbooks, objectives, methods of evaluation, outcomes  
Rationale: Course is being updated for C-ID approval and state-approved ADT.

**CLDDV 103**  
Child Growth and Development (11/05/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
MODIFY Description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills.  
Rationale: To align with Statewide CAP (Curriculum Alignment Project) for Child Development programs, changes to course description, course learning outcomes, objectives, course content.

**CLDDV 107**  
Introduction to Curriculum (11/05/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
MODIFY Description, outcomes, objectives, content, methods of instruction, methods of evaluation, textbooks, requisite skills.  
Rationale: To align with C-ID descriptors.

**CLDDV 109**  
Child-Family-Community (11/05/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
MODIFY Content, description, methods of instruction, textbooks, objectives, outcomes, methods of instruction, methods of evaluation, requisite skills, textbooks.  
Rationale: We have applied for this course to be part of the Early Childhood Curriculum Alignment Project and are addressing deficiencies they have noted.

**CLDDV 121**  
Guidance of Young Children (11/05/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
Rationale for Expedited Approval: Course is being updated for compliance with state programs.  
MODIFY Enrollment restrictions, repeat policy, outcomes, objectives, content, methods of instruction, methods of evaluation, textbooks  
Rationale: Course is being updated for compliance with state programs.

**CLDDV 126 CDE**  
Inclusion Special Needs Practicum (11/19/13) 3  
Proposed Effective Term: Fall 2014 Expedited (Previously approved for Summer 2015)  
INACTIVATE  
Rationale: Course is not going to be offered.
**CLDDV 127**  
Infant/Toddler Practicum (12/03/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Unit variability, enrollment restrictions, hours, repeat policy, DE modalities, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills  
**NOTE:** CLDDV 127A, 127B, 127D, 127E will require inactivation in Datatel and CCC Inventory  
**Rationale:** To align with Statewide CAP (Curriculum Alignment Project) for Child Development programs, add a limitation on enrollment (fingerprinting), changes to course description, course learning outcomes, objectives, course content, request hybrid component for one-lecture portion of the course, and eliminating the variable units.

**CLDDV 128**  
Preschool Practicum (12/03/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Unit variability, enrollment restrictions, hours, repeat policy, DE modalities, general education, repeat policy, DE modalities, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, requisites skills  
**NOTE:** CLDDV 128B, 128C, 128D, 128E will require inactivation in Datatel and CCC Inventory  
**Rationale:** To align with Statewide CAP (Curriculum Alignment Project) for Child Development programs, add a limitation on enrollment (fingerprinting), changes to course description, course learning outcomes, objectives, course content, request hybrid component for one-lecture portion of the course, and eliminating the variable units.

**CLDDV 150**  
Administration in Children’s Programs (11/19/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Title, enrollment restrictions, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, requisite skills  
**Rationale:** Updating course to reflect changes in state curriculum alignment program.  
**Enrollment Restrictions:** Removing (P) Satisfactory completion of CLDDV 103 or (CLDDV 104 and CLDDV 105)

**CLDDV 151**  
Supervision in Children’s Programs (11/19/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Title, enrollment restrictions, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, requisite skills  
**Rationale:** To meet the Curriculum Alignment Project requirements

**CLDDV 154**  
Adult Relationship & Mentoring in School (11/19/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Title, enrollment restrictions, repeat policy, content, description, methods of instruction, outcomes, methods of instruction, typical assignments, requisite skills  
**Rationale:** New guidelines from the Curriculum Alignment Project.

**CLDDV 160**  
Introduction to Children with Special Needs (11/19/13)  
Proposed Effective Term: Fall 2014  
Expedited (Previously approved for Summer 2015)  
**MODIFY** Title, enrollment restrictions, description, outcomes, objectives, content, methods of instruction, typical assignments, methods of evaluation, textbooks, requisite skills  
**Rationale:** Alignment with the State Curriculum Alignment Project (CAP).
CLDDV 163  Curriculum and Strategies for Children with Special Needs (11/19/13)  3
Proposed Effective Term: Fall 2014 Expedited
Previously Approved Effective Term: Summer 2015
MODIFY Title, Enrollment restrictions, requisite skills, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation.
Rationale: Alignment with the State Curriculum Alignment Project (CAP)

CLDDV 167  Observation and Assessment (11/05/13)  3
Proposed Effective Term: Fall 2014 Expedited
Previously Approved Effective Term: Summer 2014 Expedited! To ensure student progression within the program
Rationale for Expedited Approval: (outcomes only) L. Hatch noted that one of the approved CLOs (#4) was incorrect. It has since been revised. It was revised to “Identify the role of partnerships with families and other professionals in utilizing interpretations of observational data to inform teaching practices” from “Complete systematic observations using a variety of methods of data collection to assess the impact of the environment, interactions, and curriculum on children’s development and behavior.observational data to inform teaching practices.” Instruction Office notes that expedited removal of the prerequisite should be done before the roll of the Summer 2014 schedule in late November. NOTE: Expedited approval is not necessary to begin the C-ID review process.
MODIFY Outcomes (effective immediately), Description, DE modalities, enrollment restrictions, content, outcomes, objectives, typical assignments, methods of instruction, requisite skills.
Rationale: Course is being updated for C-ID approval.

CLDDV 262  Diversity in Educational Settings (11/19/13)  3
Proposed Effective Term: Fall 2014 Expedited
Previously Approved Effective Term: Summer 2015
MODIFY Enrollment restrictions, DE Modalities, content, outcomes, objectives, typical assignments, methods of instruction, requisite skills.
Rationale: Course is being updated for C-ID approval.

PHILO 130  Political Philosophy  3
Effective: Upon CSU/UC Systems approval
MODIFY pattern placement
Rationale: R. Cranley believes PHILO 130 may qualify for both Social Science and Philosophy pattern placement. When she queried ASSIST for community college courses with Political Philosophy in the course title, ASSIST identified 55 courses. When she queried which courses qualified for “Humanities” CSU-GE: C2 and IGETC 3B, she found that 37 of 55 courses qualified for Humanities. In addition, 17 of the 55 courses qualified for Social Science. 13 of the courses qualified for both Social Science and Humanities. Evidence of the three searches are included in this agenda.
General Education: Approved for (MJC-GE: B) NOTE: Approved 02/04/14 (CSU-GE:D8) (IGETC:4H). Requesting: (MJC-GE:C) (CSU-GE: C2) (IGETC:3B)

MUSA 121  Keyboard Skills 1

Effective: Summer 2015

**Modify** title, repeat policy, content, typical assignments

**Rationale:** Course is being updated to address repeatability and to align with C-ID descriptor, and to revise course title to better reflect role of course within the music program

**Enrollment Restrictions:** None

**Distance Education Status:** None

**Materials Fee Status:** None

**Articulation Status:** Transfers to CSU, UC

**General Education Status:** Approved for (Activities)

**Program Impact:**
- Music A.A. Degree
- Music A.A.T. Degree
- Recording Arts Skills Recognition Award

*MUSA 121 and MUST 133 PULLED from AGENDA due to the fact the proposals were not revised and resubmitted to the stream in response to feedback made during Technical Review by the time the agenda was published.*

MUSC 122  Electronic Music

Effective: Summer 2014 Fall 2014 *Expedited* (It is too late to implement course changes for Summer 2014)

**Modify** hours, repeat policy, outcomes, content, typical assignments, methods of instruction

**Rationale:** We would like to modify the lecture and lab hours of this course to be in alignment with MUSC 121 Intro to Synth and MIDI. This would allow the course to be offered next Fall semester. We also need to remove one of the CLO's. The one repeat is based on the CSU Los Angeles Commercial Music degree. In order to complete this degree, the student would have to take Music Technology II for 2 units and Music Technology III for 3 units. Electronic Music 2 could be used to these classes. However, it is only 2 units so it would have to be completed at least once for completion of the degree if not twice for completion of the degree

**Enrollment Restrictions:** Maintaining (A) Before enrolling in this course, students are strongly advised to satisfactorily complete MUSC 121 or have previous synthesizer, tape recording and MIDI music studio experience.

**Distance Education Status:** Maintaining: Mixed Modalities/Hybrid

**Materials Fee Status:** None

**Articulation Status:** Transfers to CSU

**General Education Status:** Approved for (Activities)

**Program Impact:**
- Recording Arts Skills Recognition Award

*MUSC 122 mentioned by M. Garcia during blanket approval of course modifications.* He was puzzled that this course was not included on the list of repeatable courses that appeared on the previous agenda. B. Adams said it should appear on the list going forward. L. Miller agreed that she would update the list after updating Datatel, and that she would provide an updated list to the committee each time a change to course repeat policies are approved and implemented. B. Adams added that she added the evidence for CSULA repeatability in the course proposal in CurricUNET as an attachment.

**M/S/U (E. LUCAS, L. HATCH) to MODIFY MUSC 122**

**M/S/U (K. ENNIS/E. KERR) to MAINTAIN REQUISITES for MUSC 122**

**M/S/U (K. ENNIS, C. MULDER) to MAINTAIN DE for MUSC 122**

MUST 133  Aural Skills 3  
**Effective:** Summer 2015
**Modify** outcomes, objectives, content, typical assignments  
**Rationale:** Course is being updated to align with C-ID MUS 145 descriptor. 
**Enrollment Restrictions:** Maintaining (P) Satisfactory completion of MUST 132. Maintaining (A) 
Before enrolling in this course, students are strongly advised to satisfactorily complete MUST 123

RLES 380  Real Estate Principles  
**Effective:** Summer 2014 Fall 2014  
**Expedited** (It is no longer operationally feasible to implement substantial course changes for Summer 2014)  
**Rationale for Expedited Approval:** Prerequisites have been removed so that unnecessary restrictions aren't impeding student progress. It is not common for Real Estate courses to have enrollment restrictions.  
**Modify** hours, DE modalities, description, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks  
**Rationale:** This update is part of the regularly scheduled business administration curriculum review cycle  
**Enrollment Restrictions:** None  
**Distance Education Status:** Requesting: Online, Mixed Modalities/Hybrid  
**Materials Fee Status:** None  
**Articulation Status:** None  
**General Education Status:** Not approved for GE  
**Program Impact:**

- Real Estate Salesperson Skills Recognition Award  

*RLES 380, RLES 381, RLES 382, RLES 384, RLES 385, RLES 392 pulled as a block by E. LUCAS due to concerns about “Review of homework assignments” as an assignment. Is this appropriate. Is that instructor-led, or peer-led? S. Berger exemplified how this is done successfully in her course, and that it can enhance the learning process. E. Lucas was satisfied with the explanation. K. Ennis was very pleased with the CLOs developed for the Real Estate course proposals.*

*M/S/U (M. LYNCH, C. MULDER) to MODIFY RLES 380  
M/S/U (K. ENNIS, C. MULDER) to APPROVE DE for RLES 380  
During blanket approval of expedited implementation, C. Mulder noted that B. Adams had remarked that the RLES proposals did not meet imminent need during Technical Review. B. Adams explained that she later met with the faculty author and learned that the intent of expediting the proposals was to turn off prerequisites that were adversely affecting student progression in the program. She added that this was not made clear in the original rationale for expedited approval.  
*M/S/U (M. LYNCH, E. LUCAS) to EXPEDITE MODIFICATIONS of RLES 380*

NEW COURSES 

NURSE 53  Certified Home Health Aide  
**Effective:** Upon CCCCO approval  
**Rationale:** With the "Graying of American" and the "Affordable Care Act" the practice of providing health care is shifting towards home care. The Department of Labor says employment of home health and personal care aides is projected to grow by 70 percent between 2010 -2020, resulting in an increase of 1.3 million professionals. Within our community there is no program available to provide training for adults to help meet this need. (Modesto High School offers the training for high school students only). 
**Enrollment Restrictions:** None 
**Distance Education Status:** None 
**Articulation Status:** Not a transfer level course

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   B. Adams pointed out that the approval of the AA-T in Psychology keeps the college on course toward compliance with SB1440 by the deadline. Two new programs adopted at this meeting, as well as the AA-T in Elementary Teacher Education (02/04/14) are slated to go before the Board of Trustees on March 13. She asked S. Kincade if there is any known update on the Computer Science award that is being held back from submission because of high unit values. S. Kincade had no new information on this. The AA-T in Spanish is currently at the state level, but unable to glean final approval because of C-ID issues with SPAN 103 and SPAN 104 that require local revision, curriculum and BOT approval before C-IDs can be granted. S. Berger noted that they are still at the author level, and that she would work with the author to get them moving forward.

2. C-ID  R. Cranley
   Today MJC received C-ID approval for GEOG 04, as well as two of “conditional” approvals, which the faculty have agreed to work on. MJC currently has 111 C-IDs.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   No tickets have needed to be submitted.
4. **Outcomes Assessment Workgroup (OAW)**  
   E. Kerr (for K. Ennis)
   The group met on February 7 and reviewed a host of CLOs. E. Kerr has been discussing the training videos (provided by B. Bailey) on how to input assessment information once faculty have completed their assessment processes. It was asked “will there be a video on how to assess?” The Math Department has piloted a way to do assessments that are powerful with the input of Jim Dorn. B. Adams sought feedback as to whether the current Curriculum Committee review process and OAW liaison role is working well in implementation of CLOs. E. Kerr confirmed that it is. “The quality of CLOs is good” she added.

**X. UNFINISHED BUSINESS**

XII. PUBLIC COMMENT

One member asked if anyone had heard “rumors” about more changes to repeatability. S. Kincade confirmed that there were “rumors” because informal chatter posted on a website after B. Russell left his role as Chancellor. She hopes to learn if there is more to this at the upcoming CIO/CSSO conference. At this time, S. Kincade and B. Adams strongly advised the group to reference only the approved “Credit Course Repetition Guidelines – November 2013” posted on the CCCCO website. Until we hear more, that publication outlines what we are accountable to in terms of repeatability.

BUSAD 208 and BUSAD 209 pulled as a block for discussion by M. ADAMS due to concerns that the last Method of Instruction doesn’t seem to read correctly. It seems very student-centered as opposed to instruction-centered. It was agreed that this could be fixed by B. Adams during the co-chair approval process.

During blanket discussion of expedited proposals, M. Adams raised concerns that the proposals did not meet criteria for imminent need. There was lively discussion and speculation about why the proposals were proposed for expediting. It was noted that the authors admitted to struggling to find the most appropriate rationale for expediting the proposals. Was this an issue of the author(s) trying to comply with the Review Matrix timelines? Was this related to the department trying to respond to administrative pressures to offer more courses online? B. Adams talked about operational timelines, and L. Miller remarked that while there are benefits to expediting proposals on one side for the student, there are also risks to the student, in that more implementation mistakes can be made on expedited timelines, such as accuracy of the catalog. B. Adams explained that were these proposals only Distance Education addenda, it might be easier to expedite them, but the fact that substantial course revisions are included in the proposals, that the issue becomes much more complicated. It was noted that the criterion, “ensure student success in a program” was a bit ambiguous, and that one could rationalize that easily. There was discussion of best practices in course approval and questions about the number of sections that would be affected. It was clarified that there would be a handful of sections affected. One member wanted to make sure that this question was deliberated fully and equitably in the future when other courses are in this situation. Some members asked what was best for students, and the group agreed that consideration of this was important. They looked to the representative for the area who indicated he did not necessarily see the need for expediting the proposals. B. Adams posed that the issue may be that some faculty are not clear on our process and how implementation works. Some authors may propose expediting courses for the purpose of complying with the matrix schedule, when in fact all they need is to have those courses reviewed by the committee on time. Implementation is a separate issue.

MODIFY     Geography 18

ADOPT: AA-T in Geography
Effective Term: (Upon CCCCO Approval)

Rationale: To conform with SB1440

S. Circle pulled the AA-T in Geography concerned about two courses lacking C-ID approval. B. Adams explained that the structure of the program is approved, and there is nothing preventing the application for the program moving forward locally while we garner approval for the two courses needing C-IDs. She rationalized that it is beneficial for herself and L. Miller to have lead time to prepare the applications for the state, and reminded the committee that the proposal still needs to go before the Board of Trustees. She assured S. Circle that the courses requiring C-ID approval are coming before the committee very soon. C. Hudelson is working on them because she knows the ADT needs them. S. Circle asked why a dean was writing curriculum. It was explained that there are no full-time geography instructors at this time.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams
   B. Adams showed the committee the updated TMC Plan and Progress chart, available on the curriculum website. She announced that the Economics TMC had been finalized at the state level. The only degree that still requires local approval that is included on the self-certification is the AS-T in Computer Science.

2. C-ID R. Cranley
   Two weeks ago, we had 111 C-ID approvals, now the college has 114. MJC is still in the lead for submissions. Today, we gleaned approval for EASCI 161, ART 169, PHYS 142 and GEOG 104.

3. CurricUNET Implementation/Issues B. Adams/L. Miller
   B. Adams explained that the repeatability interface is under reconstruction to address some deficiencies so authors may find that it does not work correctly. She explained how the new repeat interface will allow users to select the repeats, and then provide a rationale. In the instance of CSU/UC transferability, the users will be prompted to provide evidence. L. Miller shared that the improvements are in place for admins to test on the college’s “development” or test system.

XI. NEW BUSINESS

   Informational Items
   1. Approval Dates/Expedited Approval Requests  B. Adams
      B. Adams noted that there had been robust discussion about this issue in the meeting. She encouraged representatives to pay close attention to requests for expediting course proposals, and to confirm that expedited approval is truly necessary for any proposal in the stream, and to help their colleagues better understand what warrants expedited action. She reported that a statewide search of best practices for expedited approval she found only one college, Chaffey, with a similar process in place. She posed that the committee may want to review the expedited proposal policy in the future to make sure it is working as intended.

      2. Curriculum Review Matrix  B. Adams
         B. Adams noted that while we are doing well in some departments, there are others for which there has been no review according to matrix timelines. Going back to Fall 2013, there has been no review of AG or AUBDY, for example. She reminded the group that the deadline for faculty to submit for the last spring meeting is Monday, March 24. S. Circle asked why English was showing two programs instead of one. She reminded the group that the numbers of course and programs on the matrix are representative of the curriculum at the time the matrix was created. For example, English will show two awards, when in fact there is only one now, because the committee inactivated the AA in English after the document was produced.

XII. PUBLIC COMMENT

   M. Robles announced the performance of “Ain’t I A Woman” and encouraged representatives to attend.

   S. Circle, liaison to the Distance Education committee, wanted to share discussion that took place at the last two DE Committee meeting about the role of the curriculum committee in review of Distance Education proposals, and whether there is a problem. She solicited additional input from L. Miller, who is also a DE Committee member. L. Miller stated that her perception was not so much that the DE Committee perceived any problem with the existing DE review process, so much as raising questions about what the process is supposed to do and whether or not it is working. She mentioned she had spoken informally with B. Adams to get a sense of what she believes the charge and scope of the Curriculum
Committee is in relation to review of distance education proposals. B. Adams explained that the role of the committee is to assess whether there is effective student-instructor contact, and that the group is also assumed to evaluate whether the course is appropriate for the distance education medium. B. Adams gave an example of an Oral Communication course, which, if offered online would lose its General Education approval because of the requirement for speeches to be presented in front of a live audience and faculty member. One member noted that the DE Addendum could be more effective, that it is just “checking boxes.” B. Adams noted that caution should be taken when evaluating DE proposal to make sure the process is looking at it from a course-centered perspective as opposed to an instructor-centered perspective. How an instructor builds a course online is analogous to classroom teaching methods. Many agreed that evaluation of online course quality was not the purview of the curriculum committee. J. Hamilton asked about quality control. It was noted that the online course should not be too different from the face-to-face offering. Any differences in the online environment versus face-to-face environment should not be discernable when taking into account what appears on the course outline.

APPROVED PROPOSAL WITHDRAWN BY ENGLISH DEPARTMENT ON 03/18/2014 for the following reasons (statement by Dean J. Daly): **“The English Dept. met today (03/14/04) and would like to request that both ENGL 20 and ENGL 30 be pulled from Board approval at this time. The department is in the process of researching Basic Skills English sequences and unit values across the state, and are planning some site visits in May and early fall semester; therefore, we have determined that at this time it would be best to hold off on renumbering the sequence until we determine if other changes must occur on the course outlines.” The Instruction Office will set the previously approved proposals to the status of “Never Activated” in CurricUNET. The course authors will then have the option to revise using the “never activated” version or the active versions of ENGL 48 and ENGL 50 if/when they go to revise after doing their research.

During blanket approval of course modifications, S. Berger asked about the use of the phrase referring to analysis of “public discourse” in the context of Methods of Evaluation. Is this about sentence structure, or is this about analysis of ideas. It seemed to be a higher order evaluative skill for this basic skills course. There was lively discussion. S. Circle stated that she was happy just to state “examinations.” It was modified in CurricUNET at the meeting.

M/S/U (C. VAUGHN, S. BERGER) to MODIFY ENGL 20
ENGL 30  Basic English Skills (03/04/14)  5
Effective: Summer 2015
MODIFY outcomes, number, objective, content, typical assignments, methods of instruction, methods of evaluation, textbooks
Rationale: We are in a five-year review cycle and are updating the course. We are also renumbering our Basic Skills courses. This is the 2nd course in our new renumbered sequence.
Enrollment Restrictions: Maintaining (C) concurrent enrollment in or satisfactory completion of READ 40 or qualification by MJC assessment process.

MICRO 101  Microbiology  4
Effective: Fall 2014 Expedited
Rationale for Expedited Approval: To ensure student progression within program.
MODIFY DE modalities
Rationale: The need is two-fold. First, for the students in the program. Many of the students in the program travel long distances for classes. If we could offer the lecture portion of this course online, students would only need to make the drive once weekly to campus for lab. Many of our students are in economic hardship and just cannot afford the extra gas or days off work to come to campus more often.
Enrollment Restrictions: Maintain: (P) satisfactory completion of BIO 116 or BIO 101 or BIO 111 and CHEM 143.
Distance Education Status: Requesting: Mixed Modalities/Hybrid Course
Materials Fee Status: None
Articulation Status: Transfer to CSU and UC
General Education Status: Approved for (MJC-GE:A) (CSU-GE: B2, B3) (IGETC: 5B, 5C)
Program Impact:
- Associate Degree Nursing Program Curriculum (for RN) A.S. Degree
- CSU General Education Pattern Certificate of Achievement
- General Studies, Emphasis in Natural Sciences A.A. Degree
- MJC-GE Pattern
- Nursing: LVN to ADN Upgrade Pathway

**Artificial Insemination Program**

Certificate of Achievement: Artificial Insemination Technician

**MODIFY** (internship/work experience must be Agriculture related).

Effective: Summer 2014 ** Expedited!

Rationale: Agriculture Career Courses had to be revised because of a unit change to the AG 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.

Pulled for discussion by E. Lucas who was concerned about the PLOs. She noted that the PLOs stated that the student will be able to describe available jobs. K. Ennis noted that there were a few others with the same issue. K. Ennis said that she plans to work with faculty on the program learning outcomes. B. Adams said that once the PLOs are revised, the committee will see the revised PLOs on a future agenda as a notification item. M. Adams also noted that a few of the programs listed had placeholder text in the Catalog description field in CurricUNET. B. Adams said that she and H. Townsend will work to correct this.

**Crop Science Program**

A.S. Degree: Crop Science

**MODIFY** Breadth courses, Major courses (internship/work experience must be Agriculture related).

Effective: Summer 2014 ** Expedited!

Rationale: Program is being updated to modify Area IV of degree requirements. Additionally Section I: Agriculture Career Courses had to be revised because of a unit change to the AG 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.

MODIFY: Career courses, (internship/work experience must be Agriculture related).
Effective: Summer 2014 Expedited
Rationale: Section I: Agriculture Career Courses had to be revised because of a unit change to the Ag 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer as well. This revision does not change the substance of the degree in any way.
S. Circle pulled for discussion. S. Circle reported that there was placeholder information in CurricUNET as well as an issue with the award footer. B. Adams noted that H. Townsend will go in to CurricUNET to replace the placeholder text for several of the awards listed with the correct information. S. Circle suggested a revision to the area that states, “Any class listed.” B. Adams said that we need to be specific and list the courses when it indicates “Any class not listed above.” B. Adams said that in the instance where it states “any class listed above”, this language is acceptable. For awards that indicate “Any class not listed above” it is not going to change the integrity of the award itself but we do need to list them out. She said that the award footer has been added to now help explain exactly what combination they need to take. B. Adams noted that some of the award footers are currently not showing for some reason but should be. She asked H. Townsend to make sure that the award footer is present for these awards in the upcoming catalog.

Fruit Science Program  
A.S. Degree: Fruit Science  
**MODIFY**: Career courses, Breadth courses, (internship/work experience must be Agriculture related).  
**Effective**: Summer 2014  
**Rationale**: Program is being updated to modify Area IV degree requirements. Additionally Section I: Agriculture Career Courses had to be revised because of a unit change to the AG 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.  
**Pulled for discussion by M. Garcia. M Garcia noted that the Word Report shows the units incorrectly. The units are calculated incorrectly and are actually 42 units and not 41 units. The conversation then turned to questions about the high total unit value for the certificate itself. M. Morales noted that D. Pollard is the faculty member who teaches the program. He said that D. Pollard has a rationale for why there is a large amount of requested units for this certificate. M. Morales said that the units have been discussed several times among faculty in the Agriculture department. The committee discussed that the high unit value makes it difficult for a student to finish and earn the certificate. S. Kincade noted that we need to avoid creating awards that students cannot finish. S. Kincade had a concern about the rationale for the certificate units. She said that we are being looked at for success and completion. S. Kincade said that we must have completers to maintain a certificate. This opened up a deeper discussion. R. Cranley asked if the awards are being tracked from the state or internally. S. Kincade said that tracking is coming down from the State and the Accreditation Commission. She said that we report this information to the Accreditation Commission via an Annual Report. She also said that in our Self-Study, we need to discuss why it is we do not have completions in a particular certificate. S. Kincade said that the job of the Curriculum Committee is to think about completions and success when these awards come through. C. Mulder said that she personally thought that the committee should hold the certificate. C. Mulder said that most students are not aware about units and transferring. She said that we are doing students a huge disservice. S. Circle said that we should invite the faculty member for this certificate to the next meeting. The conversation led to a motion to postpone the certificate until the next Curriculum Committee meeting.**

MODIFY: Nursery Production Program

Certificate of Achievement: Nursery Production 41

MODIFY: Program requirements, Career courses, (internship/work experience must be Agriculture related).

Effective: Summer 2014 Expedited

Rationale: Section I: Agriculture Career Courses had to be revised because of a unit change to the AG 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.

Due to a conversation regarding the Landscape and Park Maintenance certificate, the committee discussed unit values for this certificate and a motion was made to postpone the modification until the next Curriculum Committee meeting.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams reported that the Political Science and Philosophy ADT proposals were submitted by L. Miller to the Chancellor’s Office for approval. B. Adams mentioned that now that GEOG 110 has been approved, the course will need to be submitted for C-ID approval. She reported that she attended the spring Curriculum Regional meeting at Diablo Valley College. B. Adams said that self-certifications were discussed. She said that it was discussed that even if a college did not self-certify ADTs for existing majors, colleges now need to submit ADTs for any existing degrees in the major or the CCCCO will inactivate the existing degree. B. Adams informed the committee MJC is on track with ADT proposals. Another concern discussed was high unit values and the TMC’s and the inability to complete the Computer Science TMC. B. Adams reported that we are not the only college that is grappling with the issue of high unit values. She reported that two additional TMCs, which will each be an area of emphasis, will be available by spring 2016. B. Adams said that these are broader based degrees.

2. C-ID R. Cranley

R. Cranley reported that we have not received any approvals in the last two weeks. She said that the March newsletter has not come out yet. S. Kincade mentioned that it was reported at the recent CIO meeting that the State Chancellor’s office is dealing with vacancies which has caused them to move slowly on approvals right now. R. Cranley said that she will submit GEOG 110 to the C-ID site tomorrow. She reported that she had forwarded an email to the Curriculum Committee on March 10, 2014, that discusses IGETC for STEM. R. Cranley reported that IGETC for STEM asks students to complete the following:

- Area 1: English Composition/Critical Thinking
- Area 2: Math
- Area 5: Physical and Biological Sciences

R. Cranley noted IGETC for STEM is different from the traditional IGETC, where students have one less course in the humanities and in the social behavioral sciences area to complete. This is designed for students who are preparing for majors in science, technology, engineering, and mathematics. R. Cranley also reported that IGETC for STEM has been approved by the Intersegmental Committee of the Academic Senates (ICAS) and both the CSU and UC for use with ADT degrees that permit IGETC for STEM. So far, this has only been approved for the Chemistry TMC.

3. CurricUNET Implementation/Issues B. Adams/L. Miller

B. Adams reported that the repeatability function has been fixed in CurricUNET. M. Garcia added that it is working now. B. Adams reported that she will go into CurricUNET to try to fix lab totals for some of the BUSAD courses, and that she hopes it is just something that is internal and can be fixed easily.

4. Outcomes Assessment Workgroup (OAW) K. Ennis

K. Ennis reported that the OAW met recently. She reported that there was a soft deadline of January 31st to get all of the scheduled outcomes assessments in CurricUNET. She said that the main goal right now is that Outcomes Assessment Workgroup members are following up with people that had not turned in their assessments. The final deadline for these late assessments is March 31st.

K. Ennis also reported that Eileen is working on setting up training sessions for those who want to learn how to enter the outcomes data into CurricUNET. H. Townsend mentioned that she put together a PowerPoint Presentation that shows the steps of how to
enter assessment data in CurricUNET. The presentation can be viewed by visiting the Outcomes Assessment Workgroup page at the following link:

http://mjc.edu/instruction/outcomesassessment/learn.php

M. Morales asked if OAW representatives have discussed the issue with multiple teachers teaching the same section and the use of their data because if a faculty member wants to enter his/her data, he/she cannot because it has to be entered as group data. Many times the department is waiting on an individual to show up with data, which hinders them from entering the data on time or even at all. H. Townsend mentioned that this is being discussed at OAW. The Class Climate Survey software, which can make the process easier for faculty when entering data, has been discussed. N. Gopal reported that the Class Climate software will be good, but it will be a while before it will be implemented. K. Ennis mentioned that waiting on an adjunct instructor to provide assessment information is also a problem. N. Gopal said that in order to solve the problem immediately, the main thing is to make sure that all instructors get on board with making the deadline to enter assessment data in each department.

K. Ennis said that she remembered that J. Todd had recently stated that at the State level, discussions have been in progress about making the assessment activity part of an instructor evaluation. She said that J. Todd mentioned that this is coming down from the State level soon. J. Hamilton reported that this is part of the proposed revised Standards coming from the Accrediting Commission for Community Colleges (ACCJC). M. Morales said that faculty is frustrated with all of the changes that are happening every semester, and it is hard to get all faculty members on board.

   B. Adams reported that the formal review of the disciplines list is up. B. Adams explained that a link was provided in the agenda attachment, so people can view the disciplines list. The link is http://asccc.org/disciplines-list.  B. Adams reported that there were a few new disciplines added.

2. ASCCC Curriculum Regional Meeting Update  B. Adams

   B. Adams reported that she and S. Kincade spent a lovely Saturday at Diablo Valley College for the Curriculum Regional Meeting. Some of the hot topics were: C-ID, ADTs, TMCs, IGETC for STEM, non-credit, creeping units, and GE bloat. B. Adams mentioned that Allison Tom-Miura presented information about non-credit. B. Adams reported that Allison had discussed that non-credit is misperceived by many at the community college level, but that it could be a feasible option to resolve some of the issues colleges face. Allison’s prediction was that many colleges are going to look at non-credit as possible options. S. Kincade said that the MIS data will be changing for non-credit. She reported that right now it shows as 0 for all non-credit but soon it will show actual success and retention.
B. Adams reported that there was a presentation on creeping units. She reported that our college is not the only one that is struggling with unit values and how they fit in our ADTs. B. Adams said that the presenter’s exact words were, “I anticipate Curriculum Committees are going to start having tough love.” B. Adams reported that Michelle Pilati reported some statistics on statistics courses and unit values. The entire presentation can be viewed at the following link:

**XII. PUBLIC COMMENT**

S. Circle reported that ENGL 40 may need to be added to the next agenda for approval. The course is requesting DE approval only and she is wondering why it cannot be expedited. The committee reviewed the course in CurricUNET and found that the course was not fully launched (submitted) yet, even though all fields had been checked as completed. H. Townsend will look into this and will provide feedback via email to S. Circle and the dean soon.

S. Kincade reported that she had just received an email from Barbara Beno about recent Commission decisions on the ACCJC Standards and process. Some of the changes confirmed by the Commission are the following: new Standards will be the basis for comprehensive institutional evaluations for reaffirmation of accreditation beginning spring 2016, the new Standards will, for all other purposes, be effective upon adoption, and may be used by institutions wishing to develop a baccalaureate degree, and the ACCJC will adopt an accreditation cycle of 7 years, beginning with the institutions undergoing review in spring 2016.

| PEC 149    | Modern Dance 4        | 1     | Summer 2014 | Expedited     | This number needs to be modified as soon as possible to ensure revisions system for the upcoming academic year.  
MODIFY course number (PEC only)  
Rationale: Course was proposed and adopted as PEC 137 on 01/21/2014. PEC 137 has been used in the past by a different course. We do not reuse course numbers because of the potential impact on student records. The Instruction Office will correct this record (approved by the C CCCO as PEC 137) in the C CCCO Curriculum Inventory. |

| MATH 105   | Structure of Mathematics 1 | 5     | Summer 2014 | Expedited     | It is imperative that we change the prerequisite on these two classes to allow completion of Math 89 or 90 effective immediately. We need to get this change into the computer for all fall classes so that students register for Math 89 this summer and then can enroll in Math 105 and 134 in the fall  
MODIFY enrollment restrictions  
Enrollment Restrictions: Maintain: (P) Satisfactory completion of MATH 90 or placement by the MJC assessment process, Requesting (P) or MATH 89  

*Pulled for discussion by S. Kincade* in response to faculty concerns about proper curriculum development process being followed. In order to ensure implementation of the prerequisite option of the new course, MATH 89 for all linked courses, the Instruction Office had - at the request of the division dean – updated pending proposals (currently referred back to math faculty and Division Dean to address concerns with high unit values) for MATH 105 and MATH 134 to show the desired, new prerequisite option of MATH 89 which was not included in the pending proposals. There was agreement between administration and the curriculum leadership to make this isolated revision and implement as soon as possible for the benefit of students. When the MATH department faculty learned of change to course proposals, concern was expressed about process, which is why S. Kincade pulled the requisites during discussion of approval of requisites. Without approval of the requisite, the courses could not be revised in Datatel to allow for the MATH 89 option, and that the catalog graphic depicting MATH 89 as an option would not go in the 2014-2015 catalog going to print that day. S. Kincade explained that this past practice of administrators helping to make changes on behalf of others in CurricUNET will cease as a result of the concerns expressed.

M. Adams spoke to the department’s concern at the meeting. While the department continues to express concern about the MATH course impasse, it voted to allow for the emergency revision to the COR so that the MATH 89 option can be available to students as early as possible. S. Kincade, when asked, stated that the option would still not appear in the catalog. She stated that we need to follow process including Board of Trustees approval.

- Recording Arts Skills Recognition Award

MUSA 121 pulled for discussion by E. Maki noting that MUSA 121 was erroneously submitted in the past for C-ID and subsequently rejected by C-ID because it lacked an audition process as a requirement for enrollment. This course should not have an audition because it is a fundamental course in keyboard skills. He reported the department’s revelation that many music courses had erroneously appealed for and were rejected for C-ID because they are courses that teach fundamental skills in various instruments, as opposed to being more advanced instrumental courses for students with extensive skill in their instrument and are pursuing music as a major. When this discovery was made, it was also discovered that many of these fundamental instrumental courses were also approved as part of the AA-T in Music, and that this is not the intention of the department. There was confusion about the accuracy of the AA-T as going forth in the forthcoming MJC catalog. He assessed and noted that the music graphic is correct, however, the listed course requirements for the award are incorrect. The department does not wish to have fundamental instrumental courses included in that award. It was determined that the program revision to address the inaccuracies must be approved by the curriculum committee before any revisions to the catalog can take place.

MUST 133 pulled for discussion by M. Adams due to minor concerns about Methods of Evaluation (using participation) resembling grading criteria rather than an evaluative method. E. Maki agreed to removal of it. K. Ennis noted that the CLOs had issues. S. Circle asked about participation as an evaluation. C. Mulder countered that participation is indeed an evaluative method. Students who do not participate affect the course as a whole in activity courses.

OFADM 375 pulled for discussion by M. Adams due to concerns that the Methods of Evaluation are more like grading criteria. C. Vaughn clarified that this is an appropriate method of evaluation for this discipline. M. Adams accepted the rationale and explained the Methods of Instruction seem to be more appropriately placed under Assignments instead of MOI. C. Vaughn understood, summarizing “they are too specific when they need to be more general?” It was suggested that they be revised to “guided practice” instead of “assign drills.” Many noted that the author was likely to be highly amenable to proposed improvements. M. Adams noted assignments seemed more like general statements than example. B. Adams agreed to contact author to address deficiencies.

VIII. PROGRAM DISCUSSION AGENDA

Program Changes that do not require Chancellor’s Office Notification/Application for Approval

**MODIFY** Landscape and Park Maintenance Program
Certificate of Achievement: Landscape and Park Maintenance 41 42
**MODIFY** Career courses, (internship/work experience must be Agriculture related).
Effective: Summer 2014 Expedited!!
Rationale: Section I: Agriculture Career Courses had to be revised because of a unit change to the Ag 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.
C: Landscape and Park Maintenance and C: Nursery Production pulled for discussion by M. Morales who reported that he had spoken with the instructor about the concerns expressed by the committee. Nothing has been done on this because the instructor has been busy with Field Day and has had login problems. He understands that the units need to be reduced in order to achieve the award. It was noted that there have been no completers for the C: Landscape and Park Maintenance. He proposed that the award be left at CurricUNET’s “Level 5 – Curriculum Committee Review” until the faculty member revises the awards.

M/S/U (M. MORALES, C. MULDER) to POSTPONE review of C. Landscape and Park Maintenance and C: Nursery Production until the April 15 curriculum committee meeting.
Nursery Production Program

Forestry Program
Certificate of Achievement: Forestry Technician 24 (previously 30)
MODIFY: Career courses, (internship/work experience must be Agriculture related), units, PLOs.
Effective: Summer 2014 Expedited!

Course requirements for various sections have been modified. IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   With today’s meeting approvals, MJC has one new Geography course that can be submitted for C-ID. This aids progress on ADTs. At the next meeting, the committee can anticipate seeing SOCSC 109 which is a component of the AA-T in Elementary Teacher Education. The CCCC has maintained that the highest priority for reviewers at this time are the ADT applications. B. Adams and R. Cranley are going to audit pending awards for any remaining C-ID issues that need require curricular revision.

2. C-ID  R. Cranley
   R. Cranley reported that MJC is still in the lead statewide for C-ID submissions at 357 course submissions, with Fresno City College behind MJC. She will forward the C-ID newsletter to the committee which includes the most recent C-ID list. Next meeting, R. Cranley will have information on the GE courses submitted. She announced the approval of ANTHR 101 approved for IGETC:4A and CSU-GE: B2 and D1. POLSC 180 was approved for IGETC:4A and CSU-GE:D8. Courses denied for placement included PSYCH 130 and SPAN 110.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   B. Adams reminded the committee that users were able to edit the active version of a course by clicking on the pencil icon. This issue appears to have been resolved. S. Berger was reportedly able to edit programs as well as a co-contributor, and that has been repaired.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis
   The OAW meets on Friday. The group can meet “as needed.” J. Todd reported that the group will be doing a training in May.

X. UNFINISHED BUSINESS

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Meeting Schedule for 2014-2015  L. Miller
   L. Miller presented a draft of the curriculum meeting schedule for the upcoming academic year. All meetings would take place at their established time of 2:40 PM on Tuesdays. Room location is to be determined because YOS 213 must be requested and may not be available.

   FALL MEETINGS
   - September 5 (Annual Training)*
   - September 9
   - September 23
   - October 7
   - October 21
   - November 4
   - November 18
   - December 2

   SPRING MEETINGS
   - January 20
   - February 3
   - February 17
   - March 3
   - March 17
   - March 31
   - April 14

   The committee will vote on this proposed schedule at the next meeting.

   *The Annual Training date, while not included in the published agenda, was explained at the meeting and has been added above for the purpose of the record.

2. Curriculum Committee Co-Chair Election  J. Hamilton

   M/S/U (M. ADAMS, C. VAUGHN) to RE-ELECT B. ADAMS as CO-CHAIR of the Curriculum Committee for an additional two year term.

   B. Adams accepted the results of the election.
1. **Curriculum Representatives – Terms Expiring**  
   B. Adams

   B. Adams explained that typically, the committee reviews its roster at the second to last meeting, in hopes of identifying departing members and identifying replacements for the purpose of having the committee roster established over the summer. She reflected on members present. S. Circle has established she is stepping down for fall on sabbatical. Nita Gopal will stand in for her. S. Berger will be off in fall, however, ESL will be under review so she may be involved in curriculum affairs to some degree. C. Mulder, E. Maki, M. Adams will return. Others are assumed to return.

2. **ASJCC Memo**  
   B. Adams/S. Kincade

   B. Adams brought the committee’s attention to a two-page March 18, 2014 memo from ACCJC, announcing changes that will be coming to the accreditation standards. S. Kincade had alluded to changes at the last meeting, and the memo was shared with Committee members. B. Adams thought it would be wise to include it on the agenda to demonstrate that the committee is aware of changes ahead. S. Kincade stated that the new standards now being vetted will be the basis for comprehensive evaluation for reaffirmation of accreditation beginning Spring 2016.

   MJC will turn in its mid-term report in the Fall [of this year] and then in 2017 will be under the new standard. S. Kincade noted it would be in MJC’s best interest as an institution to start documenting our efforts in alignment with the new standards. Accreditation council will be monitoring this, and how MJC is going to spend the next three years documenting to the new standards. One adjustment is that – instead of a 6-year cycle, we will be on a 7-year cycle. This will commence with institutions going under review in Spring of 2017. So, when MJC does its self evaluation in Fall of 2017, the accreditation report will not be due for another 7 years.

   She noted that there is an “opportunity” for regional accreditors nationwide to align language for standardization. There is a provision that will allow institutions with few issues to get it all done in a year, instead of having them “sit on sanction” for two years.

   She showed the revised standards are considering input from groups, e.g., librarians, who in this case have requested they remain in their own standard, instead of being absorbed under student services. Library services will be classified under 2C, as it was previously. She also paraphrased that there is intention in the way the structure of the standards have changed. There seems to be acknowledgement that previous lengthy list of standards had the unintended consequence of suggesting a lower degree of importance for standards at the end of the list, which was not true. All layers have been removed so that it is clear that all standards have equal importance.

   B. Adams noted the revised standards may be found on the ACCJC website. S. Kincade noted they may be revised. Only the memo has been distributed at this point.

**City College of San Francisco Lawsuit Update**

S. Kincade also reported that the complaint against ACCJC from the City College of San Francisco was thrown out, as per a memo from the Chair Sheryl Amador, was “seen as a frivolous lawsuit and a waste the energy and funds of the non-profit accrediting association. [The lawsuit] was brought by one private third party which is not to interfere” with the peer-review accrediting process. “It did not serve the public interest. We are pleased this lawsuit has been struck.” At this point, we do not know if there are other actions waiting to be taken.
3. **Student Support and Services Program (SSSP) Plan**

J. Todd reported on local response to the statewide SSSP initiative, which will require a great deal of institutional effort, on what appears to be orientation, advising, and assessment. He explained that it requires more than merely plugging in these functions at the college. It is anticipated that 4300-4500 new students will arrive in the Fall terms, with ~2300 being expected to be “true” college freshman. MJC will need to respond to the needs of these students under the framework of the SSSP.

He met with counselors, who concerned with the fate of comprehensive educational planning and advising. They believe most obvious solution would be to add many more counselors to build more educational plans and better orient students to the college, but this is not a viable fiscal option.

The SSSP initiative will be a performance-based model not to grow money for running the institution, but to build more robust student services. One idea was the creation of interdisciplinary faculty teams to counsel and advise students. These groups would also include a counselor and librarian. A possibility is converting the First Year Experience (FYE) program and more robustly marketing it to “freshman” students. He noted not all new students would need such services.

J. Todd noted that presently, MJC’s FYE is delivered in part through COLSK 100. It is assigned to counseling as a discipline. To facilitate an interdisciplinary instruction would require that COLSK 100 be formally assigned to all disciplines offered at MJC. There would be a common syllabus. Faculty who want to teach COLSK 100 would co-teach with a counselor. The counselor would be present for .5 of that load. The other 2.5 of that load would be given to a GE faculty member. The office hours for that course would be dedicated to the students in that class. The qualitative outcome of the experience is that the student would come to have a relationship with a General Education faculty member(s), a counselor, and a librarian. They would also learn essential college skills in scheduling, Blackboard, Library Services. They might read a common book.

COLSK 100 currently meets CSU-GE Area E. This helps students satisfy a GE requirement, and--by design--acquaint them with instructional faculty across different disciplines, orient them to the library. FTEs would be generated. They would not need to complete another class to satisfy the requirement or build an educational plan and would gain a sense of community within their cohort.

He acknowledged that this strategy would need to take other factors into consideration, including how this would affect other course offerings under Area E. He emphasized that he does not know another way to get the SSSP plan so meaningfully and efficiently implemented for all involved. He also noted that the other courses in Area E satisfy other requirements, so perhaps the drawbacks may not be as bad as they might appear.

C. Mulder noted that the PE division has been profoundly impacted by recent repeatability mandates, and that her division has a stake in CSU-GE Area E course options. If you take Area E students away from that division, then the division is going to be doubly impacted. J. Todd hopes to work comprehensively with divisions. But C. Mulder also thinks there could be interest from PE division faculty in teaching this course.

J. Todd maintained that this is promising solution, but that the interests of all need to be balanced. The goal is to get more educational plans built for students. E. Kerr noted that the study skills gained would be relevant to the students’ target disciplines. The benefit of working with different disciplines is that the unique attributes of each discipline could be highlighted by the content expert. It could be a quick way to preview GE without having to “burn so many units” claimed J. Hamilton.

The goal is not just to get students an educational plan, but to have them make meaningful relationships and associations across the General Education experience. Research shows that relationships between students and faculty directly improve student success. J. Todd believes success rates would dramatically improve, estimating that this course could serve 1600 out of 2300 incoming “freshmen” in an academic year.

J. Todd noted a revised COLSK 100 would need to be designed and developed quickly. B. Adams notes COLSK 100 is currently under the **TOP code of “Interdisciplinary Studies” so there is some flexibility within meeting Minimum Qualifications.** She cautioned that a conservative approach might be beneficial and before assigning disciplines, there should be a review of the COR as written in light of the objectives and content of the course. She would not be
comfortable giving blanket approval for assigning all disciplines based upon the current COR.

S. Circle pointed out the advisories in place on the existing COR for COLSK 100. It would not be wise for students to enroll without completing the advised courses. A solution would be getting students completing the advised courses in the summer, prior to the fall term COLSK 100. Priority registration could be proposed as an incentive.

J. Todd noted that other colleges are considering a move like this, but he understands the importance being thorough in doing the curriculum review, and wants to avail himself to supporting the development of this. Many benefits of this course-centered approach were discussed. J. Todd would like it to appear on the next agenda.

It was asked what the timeline is. J. Todd reported that B. Thames and L. Dorn have built the "scaffolding." Many steps are being taken, such as outsourcing development of an online orientation, and ensuring that the assessments are doing what they need to. The Student Equity Plan will play a role. One of the results of implementation of this will be deeper inquiry into disproportionate impact in the curriculum, and the Curriculum Committee will be apprised of any findings. The SSSP will ultimately be an inquiry into how we are advising students and the effectiveness of that process. MIS data will help tell that story.

4. CB21 Coding

B. Adams reminded the group of mentioning CB21 coding at the last meeting. The CCCCO website has a CB21 coding rubric, which explicitly defines what each level of CB21 “Prior to Transfer” codes mean for ESL, Math, English, and Reading. Each rubric gives the reasoning behind each rubric. Criteria and reference points are given to help authors assess the level of their courses. B. Adams referenced the Codes/Dates page. B. Adams noted that this is an area that the state is paying great attention to, so she wanted the group to understand the meaning of the codes and where to find resources. She emphasized that faculty may want to review these for applicable courses. J. Hamilton noted that the codes refer to “exit” as opposed to “entrance” points – parameters, as opposed to content. R. Cranley noted that the CCCCO inventory may be good resource for faculty who are researching coding values for curriculum, who can use the CCCCO inventory to look at course coding at other institutions. S. Kincade commented that this coding is another example of the state more clearly defining parameters for what CCCs can do in the context of finite resources.

XII. PUBLIC COMMENT

Clarity sought restricting enrollment for courses  E. Maki
E. Maki revisited previous discussion about requirements. He noted that the catalog graphic for Music is accurate, but the requirements as written will require curricular revision. For example, CID says that you must have specific requirements for a class, such as an audition. How do we handle that locally, when Datatel can't keep students out? What do we do when a student enrolls that does not meet that condition? B. Adams noted that an LOE would solve the problem, and that they would need to be added. E. Maki continued, “What if the student insists ‘I've got the right to fail’? Can the student be dropped from the course?” J. Hamilton said the LOE should preclude the instance of a student being able to enroll and establish that. The student shows up and plays and auditions. The instructor says, “You don't meet the minimum skills”. B. Adams asked for clarity on the LOE process in Datatel. It was established as a zero seat count. A flag was suggested within the enrollment screen. E. Maki was reluctant to use the zero seat count, because it may deter interested students.

Invitation to the Academic Senate Meeting  J. Todd
J. Todd encouraged Curriculum Committee members to attend the Academic Senate meeting on Thursday, April 3, 2014. There is a proposed resolution pertaining to curriculum on the agenda. It is important to get the perspective of committee members. He referenced a Bakersfield process that requires course proposals with more units than the CID descriptors to justify why more units are necessary. MJC has courses stuck, and there are attempts to negotiate the issues surrounding them. He asserted processes are needed that provide a context for the college to ask larger questions about programs and curriculum. Questions about student success, load, hours, financial aid, how course failure affect students, are all good questions. Perhaps there is another place from which to start this dialog. The deepest concern is not for the students here, but rather, the ones who fail and never return. These issues affect everyone, which must be considered in light of the fixed amount of resources available. Everyone agrees that having more time with students would be beneficial. Perhaps there is a group that could objectively look at these issues to develop a process for doing this. We need to hold ourselves to new “kinds of questions.”

S. Kincade stated she believed there was a process that had been ratified by the Curriculum Committee. She asked if the resolution coming before the Academic Senate was due to the group not knowing that this curriculum process exists, or if they want to ask the curriculum process to change? She maintained that, while the pending resolution makes many references to administration, the fact remains that the process is faculty-driven. J. Todd noted that her question is relevant, and points to the work done by the curriculum committee. M. Adams noted that the origin of the resolution was because of an existing situation. S. Kincade agreed and said a “no process existed whereby…”. M. Adams interjected and attempted to clarify her statement, “you're saying there was not a process?” J. Todd affirmed that we are stuck, because statewide, institutions are facing the same challenges, and therefore, initiatives are ultimately asking us to look at these issues.

B. Adams referenced M. Adams’ question, and clarified that the reason the impasse with Math courses occurred is because, to her knowledge, this is the first time since the implementation of CurricUNET that courses were stopped at an administrative level in the curriculum review process. So in that sense, she agreed, it did go out of process, but it really didn’t, because we had never needed, and therefore had, a process in place for the conditions of courses being stopped at the Dean level.

C. Mulder said she is not comfortable with the Academic Senate making decisions about curriculum. J. Todd maintained that the college needs to be assured that inquiry into student success is OK, because this is about relationships of courses and programs across the curriculum. We have to ask what’s good for students and research what is essential to keep existing programs running optimally. All programs are being put in new boxes and we must balance our competing interests in these conditions.

Last Curriculum Meeting  B. Adams

**SOCSC 109 pulled for discussion by R. Cranley** due to concerns that the course outline shows 30 hours of tutoring, while the C-ID descriptor shows 45 hours of tutoring. She noted that she had communicated this to the author in technical review. B. Adams noted that, while the author had made revisions and resubmitted the course with many changes, a subsequent technical review had not taken place. She also noted that in the CLOs, the author had indicated 45 hours, which leads B. Adams to believe that the author intended for a listing of 45 hours. The author also moved what was previously identified as lab content to lecture content. When authors change units from lab to lecture, lab content and objectives remain attached to the record, even though the lab units disappear. It is important that authors address this technical malfunction by moving and/or deleting lab content before removing lab units. K. Ennis also noted issues with the CLOs, and reported that she had emailed her concerns to the author that day. B. Adams explained that she could incorporate any revisions to be included on the next agenda as a notification item.

**M/S/INCOMPLETE (L. HATCH, E LUCAS) to APPROVE SPAN 103 and SPAN 104**

SPAN 103 and SPAN 104 pulled for discussion by R. Cranley due to concerns about unit values in light of ongoing discussion of unit values, resolutions, and concerns being expressed at the college. She felt conflicted about how to review the course for the units indicated in light of these issues. It seems more discussion needs to take place to ensure we are reviewing courses equitably and consistently. Previous drafts of SPAN 103 and SPAN 104 were submitted with reductions from 5 to 4 units, then, they were redrafted at 5 units. Lively and lengthy discussion ensued. S. Circle drew the committee’s attention to letters of support from the division dean, and reasoned that the ADT in Spanish was approved with the 5 unit values in place, and she did not understand why these courses are now problematic at 5 units. The C-ID reviewer manual explicitly states that the C-ID value is the minimum and that institutions may have higher units in place. She explained that many factors came to bear on the fluctuations in units. There was a shortage of Spanish faculty available to review the courses due to illnesses and other challenges. Ultimately, the department decided that original action to reduce units may have been taken prematurely without enough department dialog. The department plans to discuss the courses in May. It was asked why these courses needed to be voted on at this meeting. B. Adams clarified that, because these courses were not included in the college’s Self Certification [of associate degrees for transfer the college agreed to develop by the original June 2014 state deadline], there isn’t a pressing timeline (as there is with the ADT in Computer Science.)

S. Circle asked to make a statement. She expressed great respect for the work of the committee. She is concerned that we are being held to an arbitrary unit value across the curriculum. She wanted it stated on-record that “what is holding us at four units is our administration.” There are no clear external pressures asking us to reduce units. We should wait and see what happens, and wait for formal external pressures to materialize.

M. Morales responded by exemplifying what is happening in Agriculture, noting that the C-ID descriptors were developed before the AG TMC template was, leveraging that the impact of unit values may not have been a consideration in development of the C-IDs. He countered that high unit values come to bear when taking into account the 60 units for the ADT. The fact remains that high units have no value when they cannot transfer, as established by the ADT model.

L. Hatch countered S. Circle’s statement, asserting that the motion made by the committee has nothing to do with administration, but is the result of a faculty process. The curriculum committee wants to department to have dialog about these courses. K. Ennis echoed L. Hatch’s statement,
while noting that she does have concerns about caps on course units, as she was profoundly influenced by a broad, open experience of the curriculum, which allowed her to “take cool things that ended up profoundly changing her life.”

S. Berger noted a few times that the department may still be amenable to reducing units.

DE (DISTANCE EDUCATION) ONLY PROPOSALS

ENGL 169  
Children’s Literature  
Effective: Summer 2014 Expedited
Rationale for Expedited Approval: Instructor developed this course as a student in MJC’s Fall 2013 Online Instruction Program and wants to finish and implement this course in a timely manner so as to apply the skills learned. Additionally, there is a strong push from administration to have more distance ed courses for our student population, and this is a very popular course that serves majors in English, Liberal Studies and Child Development.

Distance Education Status: Requesting: Online, Mixed Modalities/Hybrid

DE PROPOSAL for FDNTR 219 pulled for discussion by M. Garcia due to concerns that the course has not been reviewed in many years. L. Hatch noted that her dean has expressed need for a DE modality for this course, that many students are turned away each semester because the course was adversely affected by the elimination of the Culinary Arts program and faculty. She explained that the course is going to be updated in fall.

**MODIFY** Landscape and Park Maintenance Program
Certificate of Achievement: Landscape and Park Maintenance 25 (previously 41)

**MODIFY** Learning outcomes, program structure, program requirements, Career courses,
(internship/work experience must be Agriculture related).

**Effective:** Summer 2014 **[Expedited]**

**Rationale:** Based on concerns voiced by Curriculum Committee members at 3/18/14 meeting,
certificate has been revised to modify total number of units required for completion. Course
requirements for various sections have been modified. **Rationale from 03/18/14 Meeting**
Section I: Agriculture Career Courses had to be revised because of a unit change to the Ag 249 course. The
total number of units to complete the program does not change however. This change also
necessitated a change to the Award Footer. This revision does not change the substance of the
degree in any way.

During blanket approvals of award proposals, R. Cranley noted that the units did not add up in CurricUNET and that the program may be in error. It appeared that a course was missing, which was found to be NR 200 – Soils. It was determined that this was a data-entry error on the part of L. Miller, who entered the course on behalf of the department who was not able to revise it in the system.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
MJC received approval today for the AA-T in Political Science. L. Miller noted it went through to approval smoothly. We still have Philosophy in process. The ADT is pending C-ID submission of SPAN 103 and 104. The AA-T in Elementary Teacher Education can now be submitted with the approval of the geography course approved today. We can also submit the AS-T in Geography. We are close to 100% goal of self-certification.

2. C-ID  R. Cranley
We have 122 C-IDs that have been approved, a gain of 3-4 since the last meeting. MJC Curriculum website has the most updated spreadsheet of C-ID approvals as well as any information pertaining to pending statuses. Users may now sort by division. R. Cranley updates biweekly, and will continue to update for the remainder of the spring term.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
B. Adams discovered that programs held for changes at Level 5 in CurricUNET were not editable by faculty authors, despite the fact they should be. B. Adams needs to address this problem internally in the system. She hopes that the release of CurricUNET Meta will allow us to refine our approval stream and ensure consistency in system behaviors. Programs can get stuck after a faculty revises unless the dean is alerted to make a revision.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis
OAW went quickly and well. CLOs are looking better and better. OAW is seeing consistency within divisions and is hoping this will lead to consistency across the college. There will be a workshop training for anyone assessing CLOs this spring on May 6, from 10-12 AM. B. Adams sought clarification if there were still issues with editing CLOs being editable by faculty who were assessing. M. Morales noted some other issues with multiple editors of assessments. E. Kerr hopes that a solution can be found over the summer. She noted that Ag put through all CLOs at the last meeting, which were “great,” K. Ennis reportedly provided exceptional support to the division. S. Circle asked if only Spring assessors could attend the training, and E. Kerr said that all interested faculty are encouraged to attend. J. Todd noted that there are issues with old data in the system. There should be cleanup. B. Adams noted that we have a comparable data problem with course proposals in the system. She noted that our existing process has no protocols
for “stuck” records, like proposals in the author queue. She is not clear what we need to do in those instances. She believes that the Curriculum Process document review might allow the committee an opportunity to create a process for such stuck proposals.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories  M. Robles
   Part of the group met last week. K. Ennis will be stepping down. M. Adams explained that they are focusing on elements of board policy to support the new process, and identified several sections needing change. They also discovered that many facets of board policy addressed previous legislation. At this point there is nothing ready to be voted on. They have started revising, rewording, and rethinking for implementation in Fall 2015.

2. Curriculum Committee Meeting Schedule for 2014-2015  L. Miller
   M/S/U (K. ENNIS, L. HATCH) to approve the proposed Curriculum Committee Meeting Schedule for 2014-2015.

XI. NEW BUSINESS

Action Items

1. Resolution FL13-A: Curriculum Approval Stream  M. Adams
   M. Adams explained that the authors have been discussing the resolution. While it was created with good intentions, it does not accomplish anything, and may create more confusion. Perhaps another approach is needed. He expressed plans to make a motion to rescind FL13A. M. Morales made a point of order, noting that action had already been taken on FL13A, so M. Adams would not be able to do that under Parliamentary Procedure. M. Adams accepted that, but maintained that the resolution still did not work. M. Morales explained that another resolution could be added to it to repair the existing resolution. He clarified that one cannot make a motion to go against an approved resolution, but one can address deficiencies by developing another resolution. B. Adams wanted to know if anything could be done to address the issue today. M. Morales explained that we would have to have a resolution ready to vote on.

   J. Todd explained that, ultimately, no action was necessary on FL13A. He said no problems like the committee has experienced (with courses not being moved forward in the approval stream) will be happening in the future. Conversations with the Academic Senate have concluded that things are no longer going to be held at the Dean level. However, a dean may choose to not endorse a course. The bigger question is how to have a curriculum review process going forward that is fair and collaborative. M. Adams agreed FL13A was a moot resolution, but idealizes having a process in place that works.

   E. Kerr asked for clarification on how long the resolution stands. M. Morales explained by reasoning that a resolution is not a bylaw, but a “glorified” motion. E. Kerr acknowledge his remarks, but pointed out that in the past, we didn’t believe circumstances would arise like they did. Now we are here. Would we be required to use FL13A, if it’s there, and are we required to deal with it? M. Morales noted that if this does occur, we might have to reference it.

   B. Adams is hopeful that we can address this with the review process evaluation forthcoming on the agenda.
2. **Student Support and Services Program (SSSP) Plan**  
   **J. Todd/B. Adams**

J. Todd and E. David (First Year Experience) have been discussing the COLSK 100 (College Skills) class. He reestablished that the college is trying to write the SSSP plan. He noted that COLSK 100 is being offered by multiple disciplines. He passed out an initial draft of disciplines that could be associated with COLSK 100, and noted that the disciplines listed are identified because they align with the larger goal of the SSSP Plan being drafted.

**Proposed Disciplines for COLSK 100** (list distributed by J. Todd during the meeting)

- Anthropology
- Art
- Child Development
- Economics
- English
- Environmental Sciences
- Geography
- Health Education
- History
- Humanities
- Human Services
- Physical Education
- Philosophy
- Political Science
- Psychology
- Sociology
- Communication Studies (revised from Speech Communication)
- Theatre

Faculty involved would go through a training on assisting with ed-plans, by aiding counselors in developing them. The starting point for this is to identify how we might assign different disciplines to COLSK 100.

Seeing English listed as a discipline, S. Circle expressed concern, noting that English faculty need to be consulted to confirm they wish to participate. J. Todd restated that there is no mandate to participate for individual faculty, and that assigning disciplines merely gives faculty in the listed disciplines the option to participate if they so choose.

B. Adams wanted to know if the committee was expected to take action today. She was hesitant to take action today without consultation with colleagues. J. Todd reported the SSSP is due October 17, and that will require board approval, and we have to consult with constituent groups. His presence today is part of looking ahead to get something in place to ensure we can meet those timelines. Any plan would need to be ratified at the very least by late September.

M. Robles said her understanding is that the committee can vote to support the concept today, without identifying specific disciplines. B. Adams showed the course outline of record, which is currently awaiting originator action with the “submit” button. She wanted to know if other facets of the course might change in addition to disciplines.

Concerns were expressed about the course being offered as a three-unit course as opposed to other guidance courses. J. Todd reminded the group that this course is already placed on CSU-GE Area E, allowing it to satisfy transfer level GE requirements for transfer students. This is beneficial.

P. Mendez wanted clarification as to whether a college skills course was being created in every discipline, or if disciplines were being assigned to COLSK 100. J. Todd confirmed the latter. K. Ennis expressed interest in teaching the course, but J. Todd noted that librarians would play a comparable but equally essential role in the capacity of library science. The goal is for students to build relationships with discipline faculty, library faculty, and counselors. E. David explained the format for the training.

J. Todd said that the notion of a committee is being reviewed, and that the target student would be true “college freshmen” coming from local high schools. Re-entry students, for example, have different needs and would not necessarily need this course. Questions arose about the role of ESL students. E. David said that ESL student participation may be a possibility. The question is “how can we help certain populations with their needs?”
B. Adams removed herself from the role of co-chair, and passed the chairing of the meeting to J. Hamilton. She made a personal statement that she has no issue with assigning disciplines to courses, but in light of SB14-4B Senate Affirmation of the Curriculum Process, she would not feel comfortable assigning any disciplines to COLSK 100 without our general faculty having input on this process.

J. Hamilton suggested an accelerated or compressed course for expedited approval for the latter portion of the spring semester. B. Adams noted that the Curriculum Training day could have a portion dedicated to this topic.

M/S/COMPLETED (B. ADAMS, E. MAKI) for the curriculum committee to support the concept of modifying COLSK 100 to align with SSSP and to include multiple disciplines.

Abstentions-2 (S. Circle, M. Garcia)

L. Hatch asked if the counselors currently support this. M. Garcia said “no.” They are not clear on how the interdisciplinary collaboration will manifest, which is why full support is not yet evident. M. Adams asked when the item would come back. J. Todd reported September 9. B. Adams explained that the architects of the plan would now have evidence of dialog and approval for this concept. J. Hamilton noted that it is up to counseling faculty to make the decision about disciplines, since the COR currently resides in Counseling as a discipline.
3. **Curriculum Review Process**

B. Adams

Some representatives may remember the draft of the Curriculum Review process instituted in 2008. We worked diligently on it, but gaps in the process have become evident since it was instituted. B. Adams believes that when we return in fall, we should revisit this document to evaluate if it serves the needs of the committee presently. She would like the Annual Curriculum Training Day on September 5 to address this.

B. Adams went on to note that it is inevitable the committee will be discussing unit values next year. One document she presented was the Bakersfield College *High Unit Justification* form. The faculty author is required to supply an additional rationale when units exceed that of the C-ID descriptor.

Some of us will attend the ASCCC Curriculum Institute this summer. It is valuable to us to look at other campuses and see how they are grappling with these issues. As we think about our process, let’s look at this document and use it to help inform how we might improve. She reminded the group that this document was just a model. Bakersfield appears to be a “front-runner.” J. Todd said that this process should be fair across the board. Faculty and administration need to be collaborative in addressing all facets of curriculum, whether a Basic Skills or a C-ID descriptor course. J. Todd wants the faculty to develop this process, to help justify what appear to be extra units. J. Hamilton pointed out that this discussion has started because of the immediacy of C-ID and does not exclude other areas of the college. E. Maki was concerned about relationships with UC, who might not fall under the C-ID framework, so what happens to students who need higher units? This is the promise of Scigetc pathway, which will be developed for STEM.

J. Todd hopes that the process can yield evidence for the Board of Trustees to better justify high unit values for courses with robust answers to questions and to address concerns of administration. Courses were not moved forward because we did not have a process to ask and respond to questions. The more arduous and thorough a process is on the faculty side, makes it easier to justify deviations with the administration. But the important consideration is that the faculty can develop this process.
Repeatable Courses as of Summer 2014

L. Miller

The attached list (below) should reflect the most current repeatable courses going into Summer 2014. Issues with some softball courses were rectified. J. Hamilton noted that at the ASCCC, a motion was put forth to reconsider repeatability.

2. **Child Development Curriculum Alignment Project**

L. Hatch reported that the department has been working for about 5 years to align with the state. Finally, the group has had success. The department had to change CLOs and PLOs. Early Childhood was ahead of this process by aligning with four-year institutions. We will know that students coming from other institutions have completed the same course because of this.

3. **Curriculum Year in Review**

B. Adams explained that the nursing department would like to have their curriculum review date to be pushed back to Fall. Many issues need to be addressed, including unit values, and they’d like to do a comprehensive review for the benefit of the students.

B. Adams presented a PowerPoint presentation detailing the course and program review work of the committee in 2013-2014 academic year. It also included links to the driving bills (i.e., SB 440), recent and upcoming that are behind the high, complex volume of work being done. She also reminded the group of the committee’s role in Accreditation. L. Miller will post it on the website.
XII. PUBLIC COMMENT

L. Hatch wanted to share a video, “Zombie Apocalypse for Kids” with the group.

MODIFY Enrollment restrictions

Rationale: Course was approved with requisites that could not be enforced by Datatel, which cannot enforce an “or” statement between a corequisite course and a prerequisite course. The course record has been updated in CurricUNET and in Datatel.

Enrollment Restrictions: Removing (P) Satisfactory completion of BUSAD 310 or (C) concurrent enrollment in or satisfactory completion of BUSAD 201; Requesting (C) satisfactory completion of BUSAD 320 or BUSAD 201

Hearing no objections, the committee was notified of modifications to BUSAD 200

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
**CMPGR 215**  
**Business Presentation Graphics**  
**Effective:** Fall 2014 **Expedited**

**Rationale for Expedited Approval:** CMPGR 215 was approved at the 10/8/13 meeting. During the implementation phase it was discovered that the distance education component was inadvertently omitted from the course proposal. The faculty author has created a distance education only proposal and it has moved through the approval stream in CurricUNET and passed technical review. In order to facilitate fall 2014 scheduling and student access to course sections designated as DE, the BBSS Division is requesting summer and expedited approval of the DE component.

ANTHR 101, ANTHR 105, and ANTHR 150 pulled for discussion by M. Adams due to concerns about the Methods of Instruction sounding like assignments such as reading writing projects in ANTHR 101 and lab exercises in ANTHR 105 and ANTHR 150. J. Todd noted that there was discussion of a making a change last spring. Revisions were proposed and various questions were asked about the course. ANTHR 101 and ANTHR 150 were revised during the meeting. It was decided that B. Adams would work with discipline faculty to resolve issues with ANTHR 105.

Pulled for discussion by R. Cranley due to ongoing discussion about unit values and modalities and this course’s similarity to ENGL 162, Film Appreciation, a similar course offered at 4 units. ENGL 162 is offered at 2 ½ hours of lecture, and ½ hour of lab for 3 units. ENGL 161 has similar content and teaching methods, and is offered as a four-hour, four-unit lecture course. Both courses have film screening. Why are they different unit values? Why is one lecture/lab and the other lecture only? With the ongoing dialog about unit values and content, it feels inequitable to not question the incongruences between these two courses as the committee is doing with other disciplines. Lengthy and lively discussion ensued. There were many reasons given why the courses had been configured in this manner. The author had provided a narrative explaining that the hours needed to allow for screening of the films and this was facilitated through a revision in 2009. A representative asked if there are definitions for lecture and lab modalities. One member asked philosophically if screening a film a laboratory activity? No definitions could be found, although the PCAH does give examples of what is typical in a lab. Some representatives searched other institutions to find examples of comparable course configurations. Other representatives expressed reluctance to hold up review of this course, in part because of the committee’s inability to give precise actionable feedback to the author. One representative called into focus another college film course configured in a different manner for a smaller unit value. There was mention that this is a composition course with an 8,000 word requirement for the term. The need for this word count requirement was questioned. It was explained that UC has an 8,000 word requirement. It was mentioned that delivering film content to students outside of class can be problematic in light of copyright laws and constraints of our current course management system. Others expressed concern about the quality of screening that can be done away from the classroom environment. S. Kincade reminded the committee that California Community Colleges are operating today under an entirely different set of constraints set forth by massive changes to regulations. We cannot reference history get an understanding of how to proceed. The rules have changed. It was postulated that were the committee to create a process to evaluate issues such as this more systematically, it would empower the committee to weigh in more logically and consistently when faced with these questions. Reviewing variables like this course by course can cause problems like this. It was noted that the review of this course was “intermingling” with ENGL 161. One person commented that the complexity of this situation supports having authors provide rationales for unit values. When it was noted that this course was a 3-unit course, many representatives were quick to note that it was – because of lecture hours – a 4-hour (per week) course. One member summarized that we have a lack of consistency on what labs are for, and often there are precedents for them.

**PEC 162  Aikido**  
**Proposal Type:** Substantial Change  
**Effective:** Summer 2015  
**Rationale:** This course is being modified to expand and refine the curriculum and clarify the “Course Learning Outcomes”. This will give students a better understanding of the connection between the curriculum and the expected “Course Learning Outcomes” as stated in the class syllabus. The “Catalog Description” is being revised to accurately connect Aikido to its roots and core. This revision will give perspective students a more direct and succinct description than the current “Catalog description”. The “Laboratory Objectives” are being adjusted to specify five basic Aikido defenses (techniques) and six basic attacks. This will ultimately align the attacks and defenses with the “Course Lab/Activities Content”. The “Course Lab/Activities Content” has been streamlined to precisely reflect the six attacks and five defenses (techniques) specified in the expected “Course Learning Outcomes”. A “Library” component is being added to support the “Texts and other Readings component”.  
**Enrollment Restrictions:** Removing (A) Before enrolling in this course, students are strongly advised to be able to demonstrate physical activity, such as falling down and standing up. Students are also advised to consult a physician if they are pregnant, or have significant health problems  
**Distance Education Status:** None  
**Articulation Status:** Transfers to UC and CSU  
**Guidance/Activities Status:** Maintaining MJC Activities  
**Program Impact:**  
- Physical Education A.A. Degree

TUTOR 100
(Previously TUTOR 50)

Introduction to General Tutoring

Proposal Type: Substantial Change (units)

Effective: Spring 2015

Rationale for Expedited Approval: Course is requesting expedited approval so apportionment may be generated.

MODIFY course number, title, units, hours, description, outcomes, objectives, content, typical assignments, methods of evaluation

Rationale: "We are aligning the course with common practices across the state by lowering the course units to one and revising the critical thinking component."

Enrollment Restrictions: Maintaining (L) Enrollment limited to students selected as tutors for the Library & Learning Center.

Distance Education Status: Maintain Mixed Modalities/Hybrid modality

Materials Fee Status: None

Articulation Status: Transfers to CSU (previously not transferable)

General Education Status: None

Program Impact: Stand Alone

TUTOR 100 pulled for discussion by E. Lucas due to concerns about costs to students in relation to the amount of labor expected and wages earned. Lengthy discussion ensued. A history of MJC’s tutoring format was provided, noting that this used to be a 2 unit, non-transferable course, and that this model is required by Title 5 if we are to collect apportionment for the course. Challenges of the two-unit model were shared, noting that the 1 unit variant would make it easier for students to satisfy requirements for hours of tutoring. J. Daly added that, in the future, there will be discipline-specific units of the course to provide content training for disciplines such as Math and English. This class is for general tutoring, and is not discipline specific. Concern was expressed that this is a very different model than what was in the past, and that we are now charging students what they previously were paid to complete. How can we fairly compensate students who, on their own, tutoring as contractors, could earn upwards of $24-$25 per hour? But this issue is not unique to MJC. It was clarified that this is an attempt to move the program in a better direction, because what’s on the books is ultimately more costly to students. The department worked very hard at following Title 5 and making it more cost effective with this model. Some members were optimistic, having seen other models, and having seen an increase in increased referrals this term, and noted that this is “resume building” for students. It was clarified that the fingerprinting requirement for students was now YCCD Board Policy. Materials fees were debated as an option to solve the problem. Other examples of the format of this course were given from other areas of the campus.

Expedited approval request pulled for discussion by E. Maki due to seeming contradiction in available rationale and course information. How can the expedited implementation of a course that is not part of a program be justified with “ensure student progression” in a program. Discussion ensued and clarification was sought. The rationale justified it with increased generation of apportionment. Is that a good reason for the Curriculum Committee to expedite. Further analysis revealed that the course is decreasing in unit value, and therefore cost less for students. This suggests that the rationale did not convey the benefit to students as well as it might have. The group debated the negative impact of expediting the course. L. Miller explained that there are no guarantees this can be revised in time for the Spring term because the unit value change warrants a “substantial change” application at the CCCCO which may not get reviewed quickly. S. Kincade noted that, at least, at the committee level, expedited approval would show we have done our “due” diligence.

NEW COURSES

PEVM116XABC  Training and Conditioning for Football  ½-3
Proposal Type: New Credit Course
Effective: Upon CCCCO approval

Rationale: This course is being proposed to meet the California Community College Athletic Association requirements for off-season contact hours
Enrollment Restrictions: Requesting; Enrollment limited to students who demonstrate intercollegiate athletic skills as determined by the coaching staff.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfers to CSU, requesting UC
General Education Status Requesting: MJC Activities
Program Impact: Once approved, to be included in Physical Education A.A. Degree
M/S/U (M. ADAMS, E. MAKI) to ADOPT PEVM116XABC
C. Mulder explained during blanket approval that there were some issues with matching evaluations that will be addressed as notification at the 9/23 meeting. She responded to the concerns of R. Cranley, who had questions about hours for these new courses. CCAA (California Community College Athletic Assn.) has allowed for off-season competitions, training, and conditioning up to a maximum (per sport) of 175 hours. These courses will allow for this. These courses do not have to be 175 hours, that is just the cap that can’t be exceeded. This will be overseen and self-reported by the coach, the athletic director and the CCAA. Coaches will have flexibility in setting up as needed for various sports seasons. The student can complete the courses four times. C. Mulder added that PE courses will be stripped of all repeatability, which will be reserved only for PEVM and PEVW courses. She added that she will accept L. Miller’s recommendations to strike repeat language from the catalog description as it is automatically populated by the repeat value selected on “Technical Details”.

Program Activity

INACTIVATE Child Development Program
Certificate of Achievement: Early Intervention Assistant 1
Effective: Summer 2014
Rationale: The original will of the department was to inactivate this award, which was inactivated 11/3/09. Unfortunately, CurricUNET’s program module was not functioning correctly at that time. Because of this, the award stayed active in the system. The faculty erroneously brought the CurricUNET award forward for modification (without reactivation). The faculty didn’t realize that the award had already been inactivated because it was active in the system.
Hearing no objections, C: EARLY INTERVENTION ASSISTANT 1 was inactivated.

Program learning outcomes for the following programs were modified in CurricUNET

MODIFY: Required courses (remove BUSAD 331 and BUSAD 332)

Effective: Upon CCCCO Approval

Rationale: Upon implementation of non-substantial change approved on 12/09/2014, L. Miller discovered that two courses in the proposal (BUSAD 331 and BUSAD 332) were slated for inactivation Summer 2015 but were still included in the requirements. Discipline faculty were consulted and stated they wished to remove them from the award. L. Miller removed the courses from the pending program proposal, and attached evidence of the record prior to the change for the purpose of the record.

MUSIC PROGRAM

AA-T: Music

MODIFY: Outcomes, applied courses, ensemble courses

Effective: Upon CCCCO Approval

Rationale: This award has been modified to remove previously included ensemble and applied music courses which have major preparation value to a transfer student pursuing a music major. Additionally, it was discovered that two ensemble courses previously approved for C-IDs had not been included in the ensemble options. These courses (MUSE 156 and MUSE 181) have been added at the direction of E. Maki, Curriculum representative for Arts, Humanities, and Communications.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams  
   We have been updating our spreadsheet. AA-T in Elementary Teacher Education is in secondary review, AS-T in Computer Science is still on hold because of the 60 unit limit being exceeded. There is a new AA-T in Economics that has been released, and an AS-T in Chemistry is about to be released.

2. C-ID R. Cranley  
   CID numbers haven’t changed since Fridays, PHSCI 180 will be submitted for CID consideration.

3. CurricUNET Implementation/Issues B. Adams/L. Miller  
   Attach Files function in course proposals is not working. B. Adams will work with Governet to get this fixed. L. Miller has forwarded faculty issues to B. Adams, and we’re unclear whether it is a system or user error. Please let us know if others are having issues with having proposals sent back for revision.

4. Outcomes Assessment Workgroup (OAW) K. Ennis  
   The group has not met. E. Kerr announced that Assessment Day is September 19, if your department or program is scheduled for PLO, ILO, GELO assessment and program review for FALL 2013, you will be getting an invitation. We will help you through the process to get things done. If you have any CLO assessments you need to get done, we will have reps in the lab available to help.

X. UNFINISHED BUSINESS

Action Items

1. Policies for Prerequisites/Corequisites/Advisories M. Robles  
   M. Robles is at conference. Last semester, we established a process, but we still need to work on YCCD Board Policy. We need to collaborate with Columbia in development of policy and procedure updates, and M. Robles has a meeting with Melissa and Coni Chavez regarding admission policies and procedures, but plan to address updating
policies and procedures to reflect new regulations. We need to update ours. We don’t know who will continue to work on the policies and procedures, but it has been suggested that it be B. Adams and M. Robles because of their ability to work quickly on this. J. Todd asked if something has been written. YCCD Board Policy 4260 discusses corequisites and prerequisites, and is what will be discussed.

2. Student Support and Services Program (SSSP) Plan J. Todd/B. Adams
J. Todd noted that prior meetings involved discussion of COLSK 100. We have to have a student equity plan, and student equity committee. He noted we will have something larger in terms of a functioning body to deal with related issues, such as basic skills and student success, as well as AB86, and credit and noncredit instruction, and across student services, programs, and classroom instruction. He is hoping that the conversation inside the committee will be robust as a result of this interdivisional conversation, and the inclusion of the First Year Experience. If we want to go forward with enhancing COLSK 100 so that it is something that’s college wide, we need to think about strategies the college will have to help students move through all desired COLSK 100 components. The idea remains that it will be interdisciplinary. If an individual teaching COLSK 100 is not a counselor, we may require them to attend a workshop with a counselor. Hopefully a group can meet to modify COLSK 100 so that multiple disciplines can instruct it and retain Area E credit. J. Todd is not optimistic that the October curriculum meeting deadline can be met, but hopes it will evolve in time for Fall 2015. He commended M. Garcia for his work on the course thus far.

C. Mulder noted that her division would be impacted, and emphasized the importance of someone from her division participating in that conversation. J. Todd assured her that he definitely wanted input from PE.

XI. NEW BUSINESS

Action Items

B. Adams showed a graphic detailing proposed revisions to the curriculum review stream, which would allow for either a proposal to be sent back to the dean or even to the author. The last time we did our Curriculum Review process document was on 11-23-08. B. Adams hoped for a vote on if we want to change the approval stream, if that is the will of the committee.

M/S/U (E. LUCAS/K. ENNIS) to REVISE THE CURRICULUM APPROVAL STREAM by adopting the second drafted approval stream (which allows Technical Review Chair to send proposals back to author)

2. ESL Curriculum Review – Extension Request B. Adams
The ESL Department has requested a semester extension, and bring forward to us next semester their curriculum holistically.

(L. HATCH, M. GARCIA) move to grant the ESL DEPARTMENT an EXTENSION

There was a question as to whether an extension is permanent, or only for the term requested. B. Adams suggested that it would only be for the term requested, largely in part of consequences on PLO and CLO timelines.

Informational Items

1. Basic Skills Course Descriptor Development B. Adams
J. Todd sent a memo regarding incoming CID descriptors for Basic Skills courses. It will be an informational item because B. Adams wants the committee to be aware of the incoming changes. Math will be participating in the development and was disappointed that only one representative could attend from each discipline.

XII. PUBLIC COMMENT

Richetta, Kelly Butlers preceptor attended the meeting as a candidate for Master’s degree in education. B. Adams solicited suggestions as to how to improve the training. E. Lucas suggested that the group play games. B. Adams delegated that to her with a laugh.

J. Todd advised that the committee needs to be prepared to be involved in evaluating disproportionate impact, and can expect to see movement sometime this year. He noted there is a book out about syllabi and student equity. Also, the new President Elect of the Academic Senate will likely attend the next meeting, replacing J. Todd. One of the things we face in the state is the Online Education Initiative is in force, and a system is being built. That may change the way students access and complete coursework. The boundaries between districts are blurring, and the idea of the free exchange of students across boundaries is manifesting. Please be sure to check that all distance education modalities are developed on course outlines so that we are in a place to act if we are called to do so.

S. Kincade is trying to find money to adopt CurricUNET META. She also has been requested to do a report to the Board of Trustees on Curriculum and all of the major changes taking place per regulations. She acknowledged it is hard to describe in four slides or less. She reminded the group that board meetings are open.

Meeting adjourned at 4:51 PM

MODIFICATIONS/REACTIVATIONS

**ELTEC 321** Photovoltaic Systems  
**CCCCO Proposal Type:** Substantial Change  
**Effective:** Fall 2014 – Spring 2015 (with CCCCO approval) **Expedited:** (Fall 2014 implementation is not operationally feasible due to deadlines for registration and scheduling)  
To facilitate workforce training demands

**Rationale for Expedited Approval:** Improvement of enrollment for students seeking to develop knowledge and skills in Solar Installation. Course is being relocated to the Stanislaus County Office of Education Industrial Technology Institute (Patterson). Adjustment will make improvement to course within the Electrical Programs

**MODIFY** objectives, content, typical assignments, textbooks, requisite skills

**Rationale:** Updates to bibliography, material fees, and prerequisites are necessary prior the relaunch of the course for this Summer cycle

**Enrollment Restrictions:** Removing (P) INTEC 108 or MFGA 208, and (P) ELTEC 230 or INTEC 230, and (P) ELTEC 320 or INTEC 320, and (P) ELTEC 229 or MFGA 229, and (P) AGM 225 or INTEC 225, and (P) INTEC 248 Maintaining: (P) satisfactory completion of ELTEC 208 and Maintaining (A) satisfactory completion of AGM 225 or ELTEC 229

**Distance Education Status:** None

**Materials Fee Status:** Requesting new fee: $100.25

**Articulation Status:** Not a transfer level course

**General Education Status:** None

**Program Impact:**
- Industrial Electronics A.S. Degree

**M/S/U (E. MAKI, E. LUCAS) to MODIFY ELTEC 321**

**M/S/U (E. MAKI, E. LUCAS) to MODIFY REQUISITES for ELTEC 321**

**M/S/U (E. LUCAS, E. KERR) to ADOPT FEE for ELTEC 321**

**M/S/U (L. HATCH, M. ULIANA) to EXPEDITE MODIFICATIONS of ELTEC 321**

RSCR 257  Clinical Preceptorship

CCCCO Proposal Type: Non-substantial change

Effective: Summer 2015

MODIFY enrollment restrictions, field trip policy, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation

Rationale: To update elements of outline such as objectives, content, assignments, and course learning outcomes on record.

Enrollment Restrictions: Maintaining (P) Satisfactory completion of RSCR 244 Maintaining (C) Concurrent enrollment in RSCR 246, Requesting (L) Enrollment limited to students admitted into the Respiratory Care program

Distance Education Status: none

Materials Fee Status: none

Articulation Status: Transfers to CSU

SOCSC 110  Introduction to Elementary Education

CCCCO Proposal Type: Non-substantial change

Effective: Summer 2015

MODIFY title, enrollment restrictions, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks

Rationale: Course revisions for compliance and C-ID/TMC compliance.

Enrollment Restrictions: Requesting; (A) Satisfactory completion of ENGL 101

Distance Education Status: none

Materials Fee Status: none

Articulation Status: Transfers to CSU and UC, Requesting (C-ID EDUC 200)

General Education Status: Approved for (MJC-GE:B)

Program Impact:

- Elementary Teacher Education AA-T Degree (pending approval)
- General Studies, Emphasis in Social and Behavioral Sciences A.A. Degree
- MJC-GE Pattern

SOCSC 110 pulled for discussion by R. Cranley. She withdrew her request, because she was only seeking clarification as to whether there was author intent to submit for C-ID. The author sought confirmation that two courses could request approval for the same C-ID. R. Cranley confirmed.

NEW COURSES

GEOL 172  Geology of Yosemite Valley  ½
Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT
Rationale: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field studies in areas of contrasting geology. California possesses some of the most diverse geologic landscapes on the planet. Each of these proposed courses emphasize the field relationships and principles in particular regions. Geology/earth science majors will be able to continue to benefit from each unique field experience.
Enrollment Restrictions: Requesting; Before enrolling in this course, students are strongly advised to be enrolled in or have successfully completed any geology or earth science course, or get consent of the instructor.
Distance Education Status: None
Materials Fee Status: None
Articulation Status: Transfers to CSU
General Education Status: None

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   AA-T in Elementary Teacher Education is in “final review” status at the CCCC0, which is promising. B. Adams has not had an opportunity to meet with the new full-time faculty member in Economics to review the ADT TMC template in Economics that has just been released.

2. C-ID  R. Cranley
   There are no new C-ID approvals at this time. MJC has 138 courses approved for C-ID. There is also no new newsletter indicating whether MJC is still in the lead for submissions.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   The “attach files” feature in the Course Module is working again. Please proceed with attachments. If authors need to attach files to a course they do not have access to, they should contact B. Adams (or L. Miller) who can assist. There is an issue with the Program Approval Stream, where programs “held for changes” by the representative cannot be edited by the author. L. Miller are working with Governet to address this.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis/E. Kerr
   E. Kerr reported that Assessment Day was held on Friday, 20 disciplines were present, and worked diligently on PLO, ILO, and GELO assessments. J. Todd did a workshop on how to get through the new elements of program review. It was highly successful. The group will meet again on October 3.
X. UNFINISHED BUSINESS

Action Items

1. **Policies for Prerequisites/Corequisites/Advisories**
   M. Robles
   M. Robles explained that, at this time, the college needs to embed a paragraph addressing pre and co-requisites based on “content only” in Board Policy. It was noted that the reference guide approved by the Curriculum Committee last spring needed to be codified explicitly as a “Plan”, per other examples seen across the state. B. Adams and M. Robles revised verbiage so that it reads more as a “plan” instead of guidelines. One member sought clarification on the role of empirical evidence in the process. It was clarified that only basic percentages of success/failure rates would need to be provided to rationalize a new prerequisites, as opposed to a statistical analysis. There was a question for MATH faculty, regarding checklist, to confirm that the checklist was accurate for the Math curriculum.

   M. Robles explained the policy that would be going to the policies and procedures committee for review and approval, which approves any changes to policy and procedure. This workgroup is recommending a change to the procedure, not policy, which doesn’t need Board approval, only consent. She explained that this would circulate through governance groups for review at the local and district levels before final approval; therefore, members would see the document again. The goal is to have this document conform to Title 5 regulations for content review.

   Concern was expressed that the form stays parallel with curriculum in Math and English. It was noted that the system could just continue to ask authors to match requisites skills from the target Math and English courses. And how will the form stay current if/when the curriculum is updated? B. Adams clarified that, upon approval of the Plan, CurricUNET would be modified so that the authors would be able to request requisites without any system limitations on levels scrutiny. The document would be made easily accessible to the public.

   **M/S/U (M. Robles, E. Maki) to adopt the updated Prerequisite Corequisite Plan based on content only**

   J. Todd/B. Adams
   J. Todd had departed and was therefore not present to report.
3. **Curriculum Review Process**

B. Adams attended Academic Senate on Thursday, September 18 at the request of J. Todd, Academic Senate President. She also sat in for P. Berger, and participated as representative for Arts, Humanities and Communications.

The Academic Senate discussed the potential need for the Curriculum Committee to develop official criteria or a policy to ensure the committee evaluates curriculum with high units or high contact hours fairly across the institution.

B. Adams drafted a document following the “Bakersfield Model.” She clarified it was merely a draft because her role as co-chair is to initiate action on this issue.

She noted that a senator questioned the Curriculum Committee’s concern with unit values and contact hours. She reminded the committee of Title 5, §55002, Standards and Criteria for Courses which establishes Curriculum Committee responsibility for units and hours, and a host of other curricular elements.

B. Adams then introduced J. Todd to address the committee in light of the recent ASCCC Technical Visit Regarding Curriculum and the latest discussion in the Academic Senate. J. Todd noted that curriculum review is not an easy topic, and there are various formal relationships between Curriculum Committees and Academic Senates across the State. As a result, each college’s Academic Senate acts collegially with the Curriculum Committee in a manner that works best for each local culture. He commended the MJC Curriculum Committee and acknowledged the hard work, in some cases, years of hard work done by representatives. He also noted that the cultivated expertise is appreciated and understood by the Academic Senate.

He noted, however, that across the state, colleges now find themselves in a “particular kind of box...60 units for Associate Degrees for Transfer.” Many colleges are struggling to fit into this “box.” One of the items John Stanskas noted in his ASCCC presentation was that it seems neither the State Legislature nor the CCCCO likely to be interested in paying for 60 unit degrees that cost 75 units of contact time; the kinds of cuts education has recently seen, coupled with recent mandates for student success seem to be thematically related in that they center on getting more students through faster. In terms of adjusting to the 60 unit caps, the role of the Academic Senate is to look out for the interests of all disciplines, thereby developing a process that is fair and useful and ratified.

He went on to note that historically, discipline faculty have been able to propose and implement curriculum units and hours without significant challenge or issue. He reported that correspondence had recently taken place between Math faculty member S. Curl, and David Morse, ASCCC President. He paraphrased S. Curl’s question to D. Morse, “are we not listening to discipline faculty anymore?” He read the following:

"But certainly we believe that the expertise of discipline faculty should be respected. I know no one that would contest that idea, however, the 10+1 (SECTION 53200 DEFINITIONS) actually says nothing about discipline faculty authority. It assigns authority over curriculum to the Academic Senate, not to departments or to faculty in general. Furthermore, Title 5, §55002 says that a degree-applicable credit course is a course which has been designated as appropriate to the associate degree in accordance with the requirements of §55062 which has been recommended by the college and/or the district curriculum committee, and approved by the district governing board as a collegiate course meeting the needs of students. The same applies to noncredit courses. If the discipline faculty were granted full control over their own curriculum, there would be no need for a curriculum committee, the courses would not need a college-wide review and discipline faculty could recommend their courses to the district governing board themselves. But instead, Title 5 indicates that the curriculum committee recommends curriculum to the board. Therefore §55002 grants authority of curriculum to the Curriculum Committee which is a subcommittee of the Academic Senate, or a body developed in agreement with the Academic Senate. And although we fully believe-- and I personally argued for many times--the importance of respecting the expertise of discipline faculty, nowhere in Title 5 or Educational Code are discipline faculty given final authority over curriculum.”

J. Todd is sympathetic with the issues, and realizes that we rely on discipline faculty to initially develop and present curriculum to the Curriculum Committee. J. Todd went on to address a concern S. Curl expressed about the burden of addressing issues of contact hours and units in a Curriculum Committee. D. Morse responded:
“We’ve worked hard and we’ll continue to work to represent and address faculty concerns in terms of curriculum and ADTs, and to look for solutions to problems that exist, however the end, the comment that ‘you need to battle it out in your local Curriculum Committee’ is exactly the right answer. We’ve created a system in which faculty should have a majority voice on Curriculum Committees. We want them to be made locally.”

D. Morse maintains that the C-ID unit minimum serve to delineate the time required for content listed on the C-ID. While some faculty feel MJC has a unique demographic and that our students “need more time”, MJC’s demographic is not vastly different from many other California Community Colleges throughout the Central Valley. If we make a case for students to spend more time in particular classes, then it would follow that other students at other colleges would need more time as well. So, it is important that the Committee bear in mind what other nearby colleges, including Merced and San Joaquin Delta, are doing with their curriculum as well.

The Board of Trustees may question the Academic Senate about Curriculum Committee actions, so J. Todd hopes that the Curriculum Committee will develop a transparent process that provides ample evidence for decisions that are made. He also wants to investigate if/how the college might more effectively “deliver a comprehensive education” outside of the classroom using available resources such as Supplemental Instruction (SI), Tutoring, et cetera.

M. Morales asked for clarification, noting that he believed a process had been decided [CC FL-13A – Curriculum Approval Stream, approved 12/3/2013], and asked where that process stood at this time. Would the committee changing that process and replacing it with a new process?

J. Todd explained that the Curriculum Committee’s resolution was discovered to be “moot.” YFA was looking into the validity of curriculum being held at the level of the dean while the Academic Senate and Curriculum were discussing it last year. YFA, in consultation with HR, determined that administration was never in a position to put a “hold” on curriculum in the approval stream in the manner that it did in Fall of 2013 with the Math curriculum.

There was lively discussion about ambiguous perceptions of what had happened to CC FL-13A. Some members expressed frustration, feeling the committee had already done what had been asked of it. Hadn’t the courses been sent back to the division for the faculty and administration so that faculty and administration could come to compromise on the curriculum? One member noted she thought the committee had resolved that the committee was disengaging from such high-stakes matters through passage of CC FL-13A. Why, then, were the Math courses back on an agenda?

M. Morales noted a possible flaw in the previous process, where the parties involved (faculty and administration) could theoretically never come to agreement and result in stalemate. Whatever forthcoming process might emerge should ensure that there is collaboration between and amongst faculty, and that the committee will “stick with” what is developed. A representative agreed noting that the burden of proof needs to be on the discipline to demonstrate why their curriculum is designed in a manner that appears to be atypical. She noted that it is currently not clear what criteria the committee should use to make decisions.

B. Adams shared a chart showing the various ways total unit values for the major affect MJC’s ADTs. She informed the committee that Kinesiology was most affected by high units. It has been suggested that the Curriculum Committee is singling out the Math department, but she maintained that she believes that is not the will of this committee to single out one discipline. Many disciplines are going to be involved in this conversation.

She stated that the Academic Senate is asking the Curriculum Committee for a list of criteria a course author must respond to when reviewing a course with a C-ID descriptor that has a lower unit value than the course in question.

J. Todd stated that the Academic Senate hopes this process give a context, meaningful data, and a robust narrative to help committee members make informed decisions about courses that impact other courses and programs. This would be the same for any discipline on campus. For example, ENGL 162 came under intense scrutiny at the 09/09/2014 curriculum meeting due to concerns about contact hours and units.

One member agreed with the usefulness of such a process, but was puzzled about the appearance of the Math
courses on the agenda. There is no such data, no narrative to help the committee decide the fate of the Math proposals at this meeting. The committee would be left only with “emotion” to make any decision.

J. Todd reminded the group of J. Stanskas’ clarification on 09/10/2014 that curriculum belongs to the college, not just the faculty, once the district governing board approves it. B. Adams noted as well that administrators are advised to be present in Curriculum Committee meetings as per the Curriculum Review Process document approved by the Curriculum Committee on 9/23/2008.

One member commented that the Curriculum Committee has already tried to solicit data in an informal manner to help inform curricular decisions. This has not been effective, because of this, she has independently researched data at what she identified as “schools that we feed to” on some Math courses on the agenda. At the same time, M. Adams distributed data prepared by the Math department in response to her request. She commented that this data not useful to her.

She noted that differences in unit values between transfer schools and MJC left her curious. “The units were always less [at the feeder schools].” She asked “How is it that they are able to teach their curriculum in less time than we do? Is it that they don’t offer as much, are their standards are lower?” She noted that even UC Davis offers courses that MJC offers for fewer units.

B. Adams noted this curriculum representative interaction demonstrates the need for a policy, because individuals and groups have different ideas about what data is useful.

Concern was expressed about Basic Skills courses, noting that the form will not work for basic skills curriculum. Additionally, concern was expressed about “Item 7” on the document, which asks “Is it likely that the Board of Trustees would approve this course at the higher than normal unit value?” One member expressed concern at this, “They don’t know what we do.” B. Adams maintained that “Item 7” is an important consideration. Most agreed that, going forward, any process would have to respect distinctions between basic skills curriculum and transfer level curriculum.

One member pointed out that it is important to bear in mind what can transfer to another institution, such as CSU Stanislaus or Fresno State. Students earn ten units in MATH 121 and MATH 122, but can only transfer five of those ten units to any CSU.

A Math faculty member expressed concern about the impact of delayed review on MATH courses, specifically articulation and compliance. R. Cranley, Articulation Officer, explained that articulation is not affected by timely periodic review, and that non-compliant courses are not always penalized for noncompliance. B. Adams noted that while the committee’s leadership tries to stay on top of compliance delinquencies, some courses are still gravely non-compliant. Another representative mentioned that deans can choose to “not offer” the course.

Debate about the way things might unfold continued, but members were ultimately in agreement that it was in the best interests of the college that a process be developed. Most felt it should come before review of the Math courses on the agenda, despite the fact that the Math curriculum had been in the review pipeline for a year. An analogy was given that holding the department to the criteria after their curriculum was reviewed would be like retesting students, but with a brand new test.

M/S (M. MORALES, L. HATCH): The Curriculum Committee shall develop a process before reviewing courses with any issue [not just unit values] that cannot be resolved at a given meeting by the author and/or representative in attendance. This process, once developed, should allow any course in question to come through, so long as disciplines answer all questions in the process.

One member commented that it was not a good idea, and that many courses would be blocked from review as a result. He reasoned that the only courses for which there is any sort of mandate would be those with C-IDs. So, he posited that Math courses were being singled out in this debate.

Another member countered there are greater issues at stake than C-ID. Other members agreed. Another remarked
that this issue is escalating because of the committee’s concern about curriculum and its role in institutional effectiveness and student success.

A member referenced CurricUNET Approval Queue comments from B. Sanders, Dean of Science Math and Engineering on MATH courses, where he advocated for a college-wide, interdisciplinary review of basic skills courses, and that the courses be tabled as such. She noted with great concern that the non-transfer level Math course sequence can total up to 19 semester units, one-third of the units for an associate degree. How does this affect a student’s financial aid cap, or the community college unit cap?

M. Adams asked to display at California Community College Remedial Math scorecard data, specifically, Bakersfield, the college that developed the form MJC will model after. He anticipates that dramatic changes to MJC’s Math curriculum could adversely affect our success rates, which are superior to Bakersfield’s. He posed that MJC is doing much better than statewide averages. J. Todd asked to look at comparable data from Merced and Delta, which were superior to MJC’s success rates. He posed that we should pay closest attention to schools in our area, given that students travel between them.

As a point of information, a member asked if one should bear in mind other factors when looking at Bakersfield’s Remedial Math Scorecard, such as the sociocultural and demographic factors that may be at play in the region. Many agreed with his insight. Another member noted that the data on display (2012-13) was older than the “Bakersfield Model” (developed during 2013), suggesting that the data on display was not necessarily a consequence of implementation of the Bakersfield Model. The Bakersfield curriculum had not yet been changed.

(L. HATCH) Friendly amendment to motion (M. MORALES): That the process being developed only include high unit courses.

First friendly amendment accepted by M. MORALES with the following caveat amending his original motion

M/S (M. MORALES, L. HATCH): The Curriculum Committee shall develop a process before reviewing courses with any issue [not just unit values] that cannot be resolved at a given meeting by the author and/or representative in attendance. If the issue can be addressed by the author at the individual meeting, the course may be moved forward, exempting the authors from having to complete the process. If the author cannot, they must complete the process. This process, once developed, should allow any course in question to come through, so long as disciplines answer all questions of the committee in the process.

Friendly amendment to Morales’ motion: (R. CRANLEY) to exclude SOCSC 110 from the list of tabled courses resulting from the motion, because she pulled only to confirm that the course should be submitted for C-ID

Second Friendly amendment accepted by M. MORALES.

A member asked if passage of this motion would affect timely approval of the pending ADT in Computer Science. B. Adams said yes, but noted that the committee could make the development of process a high priority, and anticipated it could be resolved in two meetings if a workgroup were formed and met as soon as possible.

There was some confusion about what effect the passage of the motion would have on all courses presently pulled for discussion. One member noted he simply had a question, and had no idea this would be the result of pulling the course. Another member noted that she had issues with the courses he had pulled.

1. Accreditation Standards Adopted June 2014
   
   B. Adams
   

   B. Adams reminded the committee to be aware of the new standards, and requested that it move forward in support of the revised themes, especially the many that emphasize curriculum.

   **M/S/U (E. LUCAS, E. MAKI) that the Curriculum Committee resolve to diligently try to follow the approved ACCJC Accreditation standards (adopted June, 2014) because of the focus on curriculum in Standards II, III, and IV.**

Informational Items

1. Board of Trustees – Curriculum Presentation
   
   S. Kincade/B. Adams
   
   S. Kincade reported that she and L. Buckalew (VP, Columbia) were asked to deliver a two-part presentation on curriculum to the Board of Trustees. The second part of the presentation addressed committee progress, participatory governance membership, and representatives. She covered ADTs, and what MJC had “self-certified” would be submitted to the CCCCO in January of 2013 and our 95% progress toward that goal, and that we need to be at 100% by December 2014. She highlighted that, at the time of the presentation, 272 course outlines of record had been submitted for C-IDs, and that 88 have been approved, 32 await review, 7 are conditionally approved, and 8 require resubmission. She took the opportunity to thank B. Adams, R. Cranley, L. Miller and the Curriculum Committee, noting that MJC has been first many, many times at the state level for C-ID and ADT submissions and requested that the group appreciate the hard work on behalf of MJC.

   What’s next? She noted upcoming deadlines: for December 2014, 100% ADTs for and June 30, 2015, for submittal and approval of all C-IDs that are included in the ADTs. That will require an inventory of our progress to that end. She noted there is a statewide conversation on Basic Skills, English, Math and ESL, as well as a forthcoming common assessment and cut score. R. McKenzie explained that he believed cut scores could be locally determined.

   She also expressed gratitude for the committee’s resolution to follow the revised Accreditation Standards.

I. APPROVAL OF ORDER OF AGENDA

M/S/C by voice vote: (M. MORALES, C. MULDER) to reconsider the blanket approval of courses on 09/23/14.

M. Morales explained that he made the motion to reconsider the blanket approval at the 9/23/14 Curriculum Committee because, upon reviewing the minutes, he discovered MATH 173 and MATH 174 had been approved. He explained that MATH 173 and MATH 174 had been pulled for discussion and were written on the whiteboard when he voted in favor of the blanket approval. Since he had a question about the two courses he wanted to pull them and they could go through the forthcoming Curriculum Review Process. It had been his goal all along to ask questions about MATH 173 and MATH 174. Because of his oversight, he wanted to request that the two proposals be pulled for reconsideration.

M. Adams objected, positing that such practices would allow future committee actions to be “yanked back at any point” and commented that he found the motion disturbing. One member sought clarification that the reconsideration was because the course proposals “fell into the same category” as other proposals postponed. M. Morales confirmed and went on to state that he merely wants to use the future process to ask a question about the proposals, in anticipation that the proposals will once again be up for discussion and be voted on fairly.

During blanket approval of courses, D. Gilbert noted that in "Assignments", that “quality” elements seemed to be in the “quantity” section. B. Adams and R. Stevenson noted that it was an easy fix and agreed to collaborate to do so.

FDNTR 219 Nutrition

CCCCO Proposal Type: Non-Substantial

Effective: Summer 2015

**Rationale:** Course is being updated for compliance and to add DE component. Revisions were made to all areas of the course

**Enrollment Restrictions:** Removing (A) Before enrolling in this course, students are strongly advised to have successfully completed a laboratory chemistry course in high school or college or be concurrently enrolled in a laboratory chemistry course in college

**Distance Education Status:** Requesting (Mixed Modalities/Hybrid)(Online)

**Materials Fee Status:** (none)

**Transfer Status:** Transfers to CSU and UC (CC BIOL 50)

**C-ID Status:** (none)

**General Education Status:** Approved for (MJC-GE:A) Requesting: (CSU-GE:E)

**Program Impact:**
- Athletic Training /Sports Medicine A.S. Degree
- General Studies, Emphasis in Natural Sciences A.A. Degree
- MJC-GE Pattern

**FDNTR 219 pulled for discussion by M. Adams** due to concerns. He wanted to know if the course sought a C-ID. The representative, L. Hatch stated there was no C-ID available. He then mentioned the assignments, noting that they were not example prompts. He believed those should be in the quantitative area. L. Hatch acknowledged his concerns and was amenable to making adjustments and B. Adams offered to rewrite them to be more stylistically appropriate during the meeting. M. Adams went on to note what he described as more serious concerns. MJC-GE Natural Sciences doesn’t seem to fit with CSU requirements for the area, and that it wasn’t consistent. B. Adams reminded the committee that representatives address GE during separate approval. His last concern was that the course units seemed high. His research showed that there were a lot of courses with Nutrition in the title offered at two units. For this reason, he thought the course should be pulled for justification (a process in development as of the meeting date) as many other courses had at the previous meeting. He counted at least six courses at 2 units with Nutrition in the title. He clarified that, if the course were seeking C-ID, he’d be OK with the units as proposed. He saw that there was a nutrition C-ID available. But, since that was not the case, he was not OK with the proposal. R. Cranley asked for clarification on the C-ID he was alluding to. She noted her records indicated it wasn’t yet part of an ADT. B. Adams pulled the template for the Nutrition and Dietetics ADT published on the C-ID site and saw that the nutrition C-ID now appeared on the template. M. Adams stated he had quickly reviewed the C-ID and surmised that the MJC course content may exceed that of the C-ID descriptor, but admitted he reviewed it hastily. There was curiosity if MJC must develop the TMC. No, because the college does not currently offer a degree in the discipline. Would MJC want to? R. Cranley commented that the college has the option to pursue the C-ID. L. Hatch offered to revise to align with the C-ID, so long as the course can be considered for 2015, because this proposal has been pending since last spring for DE. All agreed that the course can and would return for the 10/21/2014 meeting. Any issues with GE would be resolved prior to the meeting.

**M/S/Withdrawn (M. Garcia, K. Ennis) FDNTR 219 withdrawn by Division Representative, L. Hatch.**

ART 194  Art Independent Study A  1
CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO Approval

**ART 194, ART 195, ART 196 for discussion by D. Gilbert.** D. Gilbert started discussion on the
ART courses asking why ART 194-196 and HIST 193 ABC have developed their proposals for
independent study so differently, noting that there were three courses for the ART independent
study courses, and a variable unit configuration for one single independent study course in History.
Does the college need consistency in independent study courses? P. Mendez echoed her
concerns. B. Adams explained that multiple numbers were set aside for Independent Study
courses (191-194) saying that within a discipline, the faculty have the freedom and ability to
choose how they set up those independent study courses, e.g., topic specific, or varied unit values.
Art didn’t want to use just one number, because if a student took one in art history a student then
could not take one in ceramics. They decided to design by scope, or unit value, offering students
flexibility. Concerns about offering HIST 193ABC as a variable-unit course were mentioned and
variable units were questioned. B. Adams noted that HIST 193ABC was not presently on the table.

C. Mulder said she could see the merits of the ART proposals, but pondered why it was that PE’s
curriculum was designed in a similar fashion with similar content across unit values, but the
administration had restricted the department from offering courses with similar content, but varied
in scope. How is the art independent study series different? Why can’t a student in PE take
Beginning Volleyball, Intermediate Volleyball, and Advanced Volleyball? This sequence is
configured in a manner for students to take Ceramics in varying configurations, for example,
Ceramics for 1 unit, Ceramics for 2 units, and Ceramics for 3 units. She asked S. Kincade to
clarify. She noted she has no problems with the ART proposals. R. Stevenson noted that there is
nothing written to establish that the ART sub-discipline would have to be different, but that the
content would be defined by contract with the instructor. B. Adams asked if it was the ART faculty’s
intention to allow a student to take all of the independent study courses in one sub-discipline, like
Ceramics. R. Stevenson remarked that the assumption was that students would only take one of
the courses, but noted that there was nothing written in the course series to limit them from doing
that. R. Stevenson noted that the contract component of the Independent Study experience limits
what the student can do. S. Kincade noted that Independent Study is what probably distinguishes
this series from the limitations put on PE courses. It was remarked that the faculty should “mediate”
at their point of contact with the student, because of unit limits on Independent Study both internal
and external. S. Kincade reminded the group to be careful with Independent Study courses
because they are often “on the radar” for state audits.

Rationale: Because of changes in state policy regarding repeatability of courses, it is necessary to
introduce new field courses to emphasize the very different nature of field studies in areas of
contrasting geology. California possesses some of the most diverse geologic landscapes on the
planet. Each of these proposed courses emphasize the field relationships and principles in
particular regions. Geology/earth science majors will be able to continue to benefit from each
unique field experience.

HIST 193ABC pulled with ART 194, ART 195, ART 196 for discussion by C. MULDER with questions raised by D. GILBERT. During discussion of ART 194, ART 195, and ART 196. Gilbert wondered why the two disciplines chose to develop their proposals for independent study differently, noting that there were three courses for the ART independent study courses, and a variable unit configuration for one single independent study course in History. Does the college need consistency? P. Mendez echoed her concerns. B. Adams explained that multiple numbers were set aside (191-194) saying that within that discipline, the faculty have the freedom and ability to choose how they set up those independent study courses, e.g., topic specific, or varied unit values. Art didn't want to use just one number, because if you took one in art history you then could not take one in ceramics. They decided to design by scope, or unit value, offering students flexibility.
C. Mulder expressed concerns that HIST 193ABC was a teacher-education course, as opposed to an independent study course. Many elements seemed analogous to an upper-division teacher-education course. She was also concerned that it was a variable-unit course. There are no comparable courses, so she could not compare the proposal to a CSU. K. Ennis noted that this seemed to be a proposal, like many others, that appear to be designed to facilitate the use of teaching assistants. E. Kerr explained the author’s justification. B. Newell has run a program for years using independent study courses where students have; done research, written a paper, and presented it in class. When Independent Study courses were inactivated across the curriculum, B. Newell took this opportunity to be more specific about what he was doing with Independent Study prior to the revised independent study practices at MJC. This proposal reflects what his History independent study program did in the past. Issues of teaching assistants aside, that was his justification. E. Kerr opined that she felt like it should be a course, but B. Newell maintained he wanted it to remain as Independent Study. She also noted that the author intended the proposal to be a 2-unit course. L. Hatch expressed concern that the concept of the course is very specific as written, and doesn’t reflect the spirit of an independent study model. It looks more like an interesting course, but not independent and open in design. The dean had also expressed concern that it originally allowed for a three unit experience, in terms of expectation on instructor and student. Additional concerns were noted about the independent study assignments, which were too prescriptive for independent study. L Miller wondered if the use of the “Independent Studies in History” title used for this course would prevent other faculty from using the title for other independent study courses not as specialized as this one appears to be. E. Kerr was unclear on what would happen in that instance. B. Adams noted that the solution would be to develop more categorical independent studies for the history department, more topical in nature.

M. Garcia noted during blanket approval of proposals that NURSE 272 had only one CLO, and questioned whether that was OK. K. Ennis noted that the college has a precedent for “one CLO only” and noted that she is reluctant to suggest edits to disciplines like nursing who are held to BRN Title 16 standards from outside agencies, noting that outcomes are often prescribed for their curriculum.

She thought the college was trying to use active verbs like demonstrate, facilitate, only slightly varied. Video instruction was questioned, and the division representative clarified that video instruction was truthfully a method of instruction in the discipline. She noted that the participation reference was a fluke and should be changed and would have no problem changing them. These are classes designed to do the same things across the PE curriculum, with some instructional methods specific to each sport. C. Mulder asked if change was required, and B. MODIFY: AGRICULTURAL SCIENCES PROGRAM

AS: University Preparation, Emphasis in Agricultural Sciences 18

MODIFY: Degree Type (AA to AS)

Effective: Summer 2012 - upon CCCCOC "correction"

Rationale: When the University Preparation emphases were originally developed and approved, the belief was that they were required to be AA degrees. MJC was informed in 2011 that this was not true, and a number of University Preparation awards in scientific disciplines were converted in Fall 2011 and Spring 2012. The Agriculture division was not aware that this option was available at the time. A conversation between M. Anglin and L. Miller in early July 2014 confirmed that the will of the department was to convert this award from AA to AS and be available to students retroactively with the other awards.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams

MJC has not yet heard about the AA-T in Elementary Teacher Education. L. Miller included a memo from the CCCCOC talking about the 100% goal for ADTs. Collectively, CCCCOC's have met 91%. The CCCCOC has given strategies to help colleges meet the 100% goal. Strategies include; prepping application proposals early, meeting the 60 unit requirement, by align with TMC unit values, and/or offer only one GE pattern, reassess courses not submitted to C-ID, and/or reevaluate the college’s ADT goal. B. Adams noted that she does prep application drafts early with L. Miller. MJC still has to garner approval for the AA-T in Elementary Teacher education, as well as the AS-T in Computer Science. She noted that the state’s grid is not quite accurate because it incorporates ASTs not included in the college’s self-certification as part of the 100%.

2. C-ID  R. Cranley

139 C-IDs are approved for MJC. After the last Curriculum meeting, R. Cranley submitted another 7 outlines. After this meeting, 9 more outlines will be submitted to C-ID.

For UC TCA (Transfer Course Agreement), MJC has a second review period on October 10. Ten courses were approved for UC Transfer over the summer, and after this meeting (once the courses are forwarded in CurricUNET) she will be able to submit another 23 outlines for UC-TCA consideration via the OSCAR system.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller

The Course Outline report (or “Word Report”) is not showing Activities. B. Adams believes that some programming threw it “off kilter,” and clarified that Governet will need to fix it. The other issue is that the “Scissors” (proposal delete function) won’t work for all proposals. S. Kincade mentioned that, while the college was hoping for CurricUNET META implementation soon, not a single college in California has META implemented. Two have paid for the product and have not seen it. One college anticipates having it in a year. ASSIST may develop something that is “curriculum friendly.”

4. Outcomes Assessment Workgroup (OAW)  K. Ennis/E. Kerr

E. Kerr and K. Ennis missed the last meeting due to other obligations. CLO, PLO, ILO, GELO assessors for spring can attend a training on November 24. This will help faculty know where they are and how to get assessment data
into systems. K. Ennis added that PLOs are being assessed in the spring. In anticipation, attended the Assessment Day and expressed great praise for the experience and strongly encouraged faculty to attend. She shared how fun it was. She stayed for the duration even though she did not need to do so. It was incredibly practical.

5. **AB 86 and SB1070 Legislation**
   P. Mendez
   This is a new standing report to prepare for this incoming legislation. www.yosemite.edu/ab86 is a site available to inform the college community about upcoming meetings, such as one on October 23. They are drafting strategies for the state, and are presently in serious need of Math and English instructors for this endeavor. There will be a regional conference on AB86 in Sacramento. If faculty wish to see work being done on AB86, there is a great deal of information on the site. There are links to other AB86 region work. Right now, MJC is beginning to build “gap strategies” to begin to organize some sort of a structure toward recommendations for action. P. Mendez invites “one and all” to participate. There are natural partnership opportunities, for example, CTE and adult learning. For example, he has learned that populations in ASE (Adult Secondary Education) are different from those in ABE (Adult Basic Education) programs. He emphasized need for faculty input. SB1070 is CTE-centered, resulting from statewide conversations, focusing on transition points from high school to college for CTE students. In September, there were conversations on CTE and dual articulation for CTE programs. CTE initiatives run will probably run parallel to some of the paradigms the curriculum committee is seeing with ADTs and C-IDs. Groups are asking about long standing conventions, asking, “Why do we do this, this way?” If faculty, staff and administrators are interested in sharing input on how adult education goes forward in the future, please join the group. P. Mendez clarified that Kern CCD is coordinating SB1070 efforts in this region.

X. **UNFINISHED BUSINESS**

**Action Items**

1. **Policies for Prerequisites/Corequisites/Advisories**
   M. Robles
   No action is needed, and the item can be removed because the process will now move through other governance channels.

2. **Student Support and Services Program (SSSP) Plan**
   J. Todd/B. Adams
   J. Todd cannot be attend this meeting to report, but October 17 the plan needs to be postmarked. This item has been left as a standing report on agendas, because the committee will see curricular activity that relates to this initiative.

3. **Curriculum Review Process**
   B. Adams
   The workgroup met on October 3, and started working on a process as well as a form. The group determined that the Curriculum Committee already has an informal process to resolve issues: a representative withdraws a course, and that representative goes back to work cooperatively with the author to make revisions.

   The Curriculum Review Process workgroup of 10-11 members, including a student and member of ASMJC, drafted thoughts about what the process should consider on poster Post-Its. L. Miller “prettied” it up, in terms of a checkbox concept identifying deficiencies. The group recognized that individuals must think about the impact of their proposals on other courses and programs, but also recognized that a basic skills course is different than an ADT or a transfer level course.

   The group resolved to look at required/elective courses in programs. It also looked at criteria for evaluation. One of the overarching themes was to have the same process for ANY course pulled. What criteria is to be used for evaluation when something “goes back” to the author. The biggest issue faced is unit values for courses in basic skills, ADTs, and C-ID.

   Does MJC need to be concerned with a particular CSU if only two students transfer there? R. Cranley provided a chart showing that, in 2012-13, most of our students transferred to Stanislaus, then Sac State, and then Fresno.

   C-ID is going to be applicable to some, not all courses. There was substantial discussion of C-IDs and “minimums”, and the document reflects the distinction about the C-ID reflecting the minimum content for a course. What happens
to articulation, if, in an instance a course reduces unit values? R. Cranley noted that such outcomes are hard to predict, and only the articulation process will make the determination. B. Adams noted as well that research can be done using different sources such as ASSIST and CurricUSEARCH (via CurricUNET) to find information on courses at other institutions.

The group is proposing that the process ask authors to look at other schools in our region. Narrative justification will allow the author(s) to explain reasons for the course design. Support data in the form would need to be provided— with all form users following the same data parameters, although those parameters were not yet identified.

B. Adams reported she believed progress was at about 60% from Friday’s meeting. The group will meet again on Thursday October 9. She asked Committee members to look at the current draft and provide feedback before 10/09/14.

Thoughtful discussion ensued. K. Ennis commented that, as a faculty member, she is more interested in what is happening at other community colleges as opposed to the CSU, because of our population. B. Adams pointed out Section 3E, which asks the author to show data from Merced and Delta, and pointed out that C-ID plays a significant role.

A large question that emerged during the process was one of priority. How does the process weigh certain elements in the form when making decisions. B. Adams commented that as a faculty member, she does want to look at transfer institutions. M. Morales noted that academic freedom allows for instructors to enhance and deliver their curriculum. But he also remarked that transferable courses and articulation hold us accountable to standards.

D. Gilbert wanted to draw attention to remarks made by workgroup at large member L. Manzo who reasoned that there are many basic skills students in transfer-level classes at community colleges—a factor the CSU does not do with. L. Manzo participated in the CID descriptor DIGs for Spanish courses, and reported that her group decided to set descriptor unit values at four instead of five not because of a desire for lower units, but because the group did not want to leave out the minority of colleges who offered the course at a lower unit value. Is the committee considering C-ID unit minimums as “normal” or “the norm?”

M. Morales responded by illustrating that a course has formal articulation with a university, faculty are committing to teaching specific topics in a course. Accordingly, the transfer institution agreed to accept the community college’s completions in lieu of their own course offering based upon that commitment. So, if faculty teach more material than stated on the COR, and teach other basic skills not included in the COR. Is MJC then in violation, if faculty do not cover topics on the COR, because they are instead covering basic skills material? Faculty want their students to succeed, but are also accountable to standards set in those agreements. Faculty must cover the content the college has promised to cover in articulation agreements with other institutions.

D. Gilbert asked if MJC’s focus is on our articulation agreements, or, on bringing students up to a level where they are then able to transfer to Stan State, for example. Is MJC’s priority to do what Stanislaus State requires? M. Morales clarified that our students may be at a disadvantage upon transfer if faculty have not covered the content detailed in the articulation agreement because they are augmenting transfer level courses with basic skills content. Students may not be ready for upper-division sequences. R. Cranley agreed.

E. Kerr believes the extra unit is being appended to a course is to allow for the teaching of basic skills, so students who are struggling to catch up can be helped. Is this practice appropriate? The social sciences have always been and will be offered at three units. Her courses would benefit from having an extra unit to teach students basic skills. But MJC may need to think about getting a prerequisite system in place so that students have the skills to be where they should be academically. When students take a transfer-level class at Stanislaus State, they are expected to be ENGL 101 “ready.” It follows that MJC’s students need to be ready to be in a transfer-level course. She has looked at that from her discipline’s perspective, because there hasn’t ever been an increase in units to deal with issues of unpreparedness.

M. Adams remarked that the committee just voted for a unit decrease in MATH 105 and MATH 106. The Math department had looked around the state and saw that CCCs and CSUs were teaching the courses at three units, and MJC was one of the “odd ones out” teaching it at four. M. Adams believed that L. Manzo’s comments at the
workgroup were intended to clarify that 5 units seemed to be the unit value for the majority of those participating in the C-ID, yet the C-ID was developed at four. So, if CCCs offer a course at five units, and the CSU offers the course at four units, which system should MJC try to emulate? He believes MJC should be like community colleges.

K. Ennis expressed concerns about the notion of a “slippery slope” with this issue, exemplifying censorship of books. How might this happen in this context and begin to affect other courses in the curriculum. She wondered if her own course might be vulnerable. She understands the role of the taxpayer concern, but she fears this playing a more important, uninformed, unilateral role in curriculum development than it should.

D. Gilbert asked how many students might be disenfranchised if prerequisites are put before them as a condition of enrollment in transfer level courses. E. Kerr countered that she often sees students fail as a result of having no prerequisites. They fail in ways that damage them, because they believe then that they are incapable. Even with our population, if faculty are setting up expectations for transfer, they need to inform the students that they need to be at least at a basic level to be able to transfer. C-ID made transparent something that has been going on for a long time, and that the college should have grappled with a long time ago: the idea of raising unit values for more time with students.

L. Hatch spoke of programs that had “met students where they were at” that have yielded dismal outcomes. Students who completed them are now are unemployable. The college needs to provide these students robust support.

S. Kincade commended K. Ennis’s and J. Sousa’s involvement in Julius Caesar and encouraged people to attend this production at the Prospect Theatre.

*M/S/U (M. ADAMS, K. ENNIS) to adjourn at 4:51 PM*
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion modify the order of the agenda to accommodate guests was approved.

II. APPROVAL OF MINUTES

Hearing no changes or corrections, the minutes of October 7, 2014 were approved

M. Adams asked for clarification on the approved minutes of 9/23/2014. He was not sure if they contained an error or contradiction. He needed clarification on page 23 in anticipation of items that would be discussed at the forthcoming meeting. At that meeting, L. Hatch had made a friendly amendment and the minutes indicated her amendment had been accepted. M. Adams thought M. Morales’ motion that followed seemed to contradict it. He was unclear on the result. [Will] this [new] process apply to questions not about unit values? B. Adams and other members confirmed that it will.

Subject: Governet and Curriculum Inventory Situation

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
Good Morning Colleagues: I wanted you to be aware that Governet, the Curriculum Inventory vendor, is experiencing technical difficulties with the data synchronization of course records. It appears that these problems have led to delays in the issuance of course control numbers. I want you to know that our staff in Academic Affairs continues to receive, review and approve all curriculum proposals. And that both Academic Affairs and our MIS colleagues are working with Governet to resolve these issues as quickly as possible. The Chancellor’s Office will send notification to the field once these technical difficulties have been resolved and it might be helpful that this message is forwarded to those involved with your college curriculum efforts so that they also understand the situation.

Thanks to all.
Pam

B. Adams clarified that MJC is still able to and continues to submit course applications, but since control numbers are not being issued and control numbers equate to funding, it is not likely that colleges will want to offer courses without control numbers.

FDNTR 219 pulled for discussion by M. Adams due to concerns of following the motion/process approved at the 9/23/14 meeting and content in excess of the C-ID descriptor. Discussion ensued and the majority of the committee believed the intent of the motion/process was for courses that could not be resolved based on recommendations from the committee. The course was withdrawn at the 10/7/14 meeting in order to update to align with the C-ID descriptor.

PE 105 withdrawn on behalf of C. MULDER by B. ADAMS due to concerns about content, and unmatched objectives and methods of evaluation. The representative will work with the faculty author to resolve the issues. After lengthy discussion on what falls under the 9/23/14 motion, B. Adams requested the course be placed back on agenda for discussion if it would not be eligible for revision and review at 11/4/14 meeting. Committee determined since the course was withdrawn, it did not follow under the process and could be returned on the 11/4/14 agenda.

NEW COURSES

ART 192  Professional Practices  
**CCCCO Proposal Type:** New Credit Course  
**Effective:** Upon CCCCO approval  
**ADOPT**

**Rationale:** This new course will prepare students to create and organize the portfolio and professional materials necessary for presentations in the fine art and vocational fields of photography.

COMM 133  Mediated Communication  3
CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT
Rationale: The integration of computers, tablets, and smart phones into everyday life has significantly impacted our communication with others, especially in personal relationships and organizational contexts. This course will help students understand the impact of technology on human communication so they can use technology in ethical and effective ways in their personal and professional lives. The department plans on adding this course to list "B" in the AA-T and to the electives list in the AA degree once CCCCO approval is achieved.
Enrollment Restrictions: Requesting (A) Satisfactory completion of ENGL 50

GEOL 180  Geology of the Central Sierra Nevada  1
CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT
Rationale: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field studies in areas of contrasting geology. California possesses some of the most diverse geologic landscapes on the planet. Each of these proposed courses emphasize the field relationships and principles in particular regions. Geology/earth science majors will be able to continue to benefit from each unique field experience.
Enrollment Restrictions: Requesting (A) Students are strongly advised to be enrolled in or have successfully completed any geology or earth science course, or get consent of instructor.

CCCCO Proposal Type: New Credit Course

Effective: Upon CCCCO Approval

ADOPT

Rationale: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field studies in areas of contrasting geology. MJC students have in the past visited such localities as Scotland, Italy, Switzerland, Australia, New Zealand, and Hawaii, regions that possess some of the most diverse geologic landscapes on the planet. This proposed course emphasizes the field relationships and principles in a variety of particular sites around the world. Geology/earth science majors will be able to continue to benefit from each unique field experience.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  
   B. Adams
   The AA-T in Elementary Teacher Education has been approved putting MJC close to meeting its 100% goal as established by the Self Certification in January 2013. The ADT in Computer Science is still outstanding. The CCCC has tracking colleges’ progress toward their goals. This data on this chart may be deceiving because it includes ADTs established after colleges self-certified. The CCCC has written a memo providing college with strategies to meet the 100% goal.

   The state updated TMC template on 09/01/14. Because of double-counting errors coming from the colleges, they have enhanced templates with separate columns for CSU-GE and IGETC unit values to more fully reflect how double-counting values are calculated. Some templates show 09/01/14 as a revision date merely as a result of this enhancement.

   There are a couple of new TMC templates available on the C-ID website, but are not yet available on the CCCC for development. This is because the Chancellor’s Office Templates (COTs) have not been developed. To clarify the acronyms, TMC information belongs to CID, while the COT templates belong to the CCCC, ADTs refer to the transfer degrees the college offers.

   A representative noted that there are new Agriculture TMC templates available that were developed collaboratively statewide by agriculture faculty. They will be developed at MJC.

   Colleges will have 18 months to develop ADTs once the COTs are released on the CCCC website, if they have a similar major. New COTs will be rolled out twice a year in September and February.

2. C-ID  
   R. Cranley
   MJC has 139 courses approved for C-ID descriptors, no change since the last meeting. Because of the backlog of courses needing C-ID review, M. Pilati recently held a power-review session (10/17/14) in the disciplines of anthropology, art history, biology, history, mathematics, political science, Spanish, and studio arts. R. Cranley is hopeful that MJC’s course proposals will be evaluated.

3. CurricUNET Implementation/Issues  
   B. Adams/L. Miller
   The “scissors” (delete) button is working again. H. Townsend put in a ticket for distance education proposals, which are freezing. As. R. Cranley noted, the spellcheck feature needs to be fixed. We will also need to investigate why ENGL 162 word report is not working.

4. Outcomes Assessment Workgroup (OAW)  
   K. Ennis/E. Kerr
   The group has not met but is starting to look at criteria for an “all assessment report” so that faculty will have meaningful feedback on data entered into the system.

5. AB 86 and SB1070 Legislation  
   P. Mendez
   No report.
X. UNFINISHED BUSINESS

Action Items

1. **Curriculum Review Process**
   
   B. Adams presented the working draft of the Curriculum Review Process form, which reflected the work of the committee on October 3 and October 9. The form is designed to honor the fact that most faculty do not have the same degree of curricular knowledge as do members of the Curriculum Committee. The form is designed in sections, so that authors only need to complete sections that apply to their course proposal. The representative must first supply the reason the course was returned to the author. In Section 1 the, “check the applicable boxes” area needs attention. The boxes align with the CurricUNET Course Checklist. Section 2 asks the faculty author [when necessary for the area(s) of concern] to review the impact of the proposal on courses and programs across the curriculum. Section 3 is required when committee members have concerns and/or questions about unit values for course proposals. Various features of this section were explained. The group discussed the merits of the form and raised questions. Some features still need further development, but the group agreed that it was imperative to get “Section 3” in use as soon as possible since that affects many courses in the review pipeline.

   How should this be done? L. Miller noted the interactivity of the form should be tested to ensure it functions as intended. C. Martin commented that the form should be piloted to ensure it is usable in terms of content. Is the form intended to generate scores on particular areas? One representative expressed a strong belief that this form was not meant as a means to score proposals, but only to glean more useful information when the committee is unable to make a decision on a particular proposal. The form will provide a consistent channel through which the inquiry can be facilitated. Currently, data can be presented from a variety of angles, but the results and the research parameters can be presented inconsistently. This form will generate consistent data.

   Should form development be delegated? It was requested that the Section 3 of the form, Unit Values, be piloted by departments as soon as possible because of courses and programs being held up for issues that would be addressed with this section. The other sections are not as complicated, but need further development and discussion as to what scenarios might arise with those course elements, and how to develop the form in that vein.

   It was agreed that the form should be available online for individuals to test/pilot/use. The merits of breaking the form into multiple documents (as opposed to one document) was discussed.

   The group will try to pilot the form for the technical functionality in next two weeks. Sections will be parsed out for further evaluation and development if specific representatives are interested in doing so. The form will be voted on at the next meeting.

XI. NEW BUSINESS

Action Items

1. Proposed Advising Grid for 2015-2016 Catalog  
   B. Adams
   B. Adams noted this item does not yet have urgency since there is still time for catalog production, but explained that Counseling has requested the this advising grid be included in the next catalog, which advises what GE patterns may be used for certain pathways.

   Does the committee like the grid and think it would be useful? Does this document need to be in the catalog? It was noted that there were errors on the grid, and such details can critically mislead students. It creates another layer of official advising information. If there is something wrong with advising information as currently detailed in the catalog? Would this document be redundant? Perhaps the committee should reevaluate existing catalog information to see if there is room for improvement to accommodate the Counseling department’s needs. Might the committee want to look at this in conjunction with other catalog information to see if there can be more student-friendly improvements? What is the rationale for the document? The item was tabled until the next meeting in hopes that representatives could review the item in more depth.

Informational Items

1. CurricUNET Training for Deans and Representatives  
   B. Adams
   B. Adams will hold a training on Tuesday, 10/28 for new deans and representatives. This training will specifically focus on getting through approvals, commenting on and tracking proposals and will be held from 2:30 to 4:00 in Yosemite 213. An Outlook invitation will be sent. B. Adams hopes to see representatives in attendance.

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion to modify the order of the agenda to accommodate guests was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of October 21, 2014 were approved.

III. COURSE NOTIFICATION AGENDA

CLARIFICATION OF 09/23/14 MOTION REGARDING PROCESS

M. Morales was present to clarify the intent of his motion on 09/23/2014 regarding Curriculum Committee process. B. Adams had also documented the process that exists in anticipation that it might go forward to the Academic Senate if the Course Proposal Justification form was approved later in the meeting. She presented a working document called “Curriculum Review Process” to illustrate the process under currently under discussion.

M. Morales acknowledged that past practice has allowed for courses with identified issues to be withdrawn for the purpose of improving the proposal without the committee taking any formal action. He noted that such instances suggest that the course proposal never existed, and technically, should not appear on the minutes. That process has worked, and continues to work efficiently.

He noted there currently is no process to delineate what happens to a course proposal that is withdrawn from the agenda with specific recommendations for improvement, but upon resubmission, the proposal does not incorporate the recommendations. What does the committee do? No formal process currently exists for such scenarios.

His motion served to initiate development of an equitable process for those scenarios, but did not serve to stop the informal process of withdrawing courses to reconcile issues. His ultimate goal was to make the process more efficient in doing so. His motion would simply create a clear procedure (Course Justification Proposal now in draft form) for those scenarios wherein the course proposal comes back without the committee’s concerns addressed.

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
Hearing no objections, the committee was notified of the following corrections to the record.

The Curriculum Committee minutes and CurricUNET approvals from 10/07/2014 did not fully accurately reflect the intentions of the faculty for the following courses due to a system issue.

**CMPGR 213  Applied Computer Graphics (10/07/2014) 3**

**ART 103  CCCC Proposal Type: Course Inactivation**

**MODIFY course IDs, cross-listings (remove ART 103)**

**Activity Rationale:** This ART 103 “course inactivation” proposal approved on 10/07/14 erroneously inactivated the CMPGR 213 iteration of the course in CurricUNET. The record needs to show that the departments did not intend to inactivate CMPGR 213 and the system needed to be corrected. CurricUNET was corrected on 10/29/14 by removing the cross-listing from the ART 103 course inactivation now “Approved-Awaiting Inactivation”.

**Original Rationale:** The Art department no longer offers this course, and has no plans to do so in the foreseeable future. CMPGR 213 should continue on without a cross-listing with ART 103

**Program Impact:**
- Art A.A. Degree

**M/S/U (K. ENNIS, L. LANIGAN) to INACTIVATE ART 103**

**CMPGR 219  Computer Graphics Portfolio Review 3**

**ART 119  CCCC Proposal Type: Course Inactivation (10/07/2014)**

**MODIFY course IDs, cross-listings (remove ART 119)**

**Activity Rationale:** This ART 119 “course inactivation” proposal approved on 10/07/14 erroneously inactivated the CMPGR 219 version of the course in CurricUNET. The record needs to show that the departments did not intend to inactivate CMPGR 219 and that the system needed to be corrected. CurricUNET was corrected on 10/29/14 by removing the cross-listing from the ART 119 course inactivation now “Approved-Awaiting Inactivation”.

**Original Rationale:** The Art department no longer offers this course, and has no plans to do so in the foreseeable future. CMPGR 219 should continue on without a cross-listing with Art 119.

**Program Impact:**
- Art A.A. Degree

**M/S/U (K. ENNIS, L. LANIGAN) to INACTIVATE ART 119**

Hearing no objections, the committee was notified of the following revised rationales

On 10/07/14, numerous Chemistry proposals came before the Curriculum Committee and were approved with rationales stating “periodic review.” The department was asked to provide more robust rationales for the changes made in anticipation of increased scrutiny from the CCCC. They obliged and their revised rationales follow.

**CHEM 101  General Chemistry 1 (10/07/14) 5**

**Revised Rationale:** Periodic review. We carefully compared the CHEM 101 outline with CID CHEM 110 and ensured that all components were present. Textbooks were updated. Minor adjustments were made to content and objectives. Student learning outcomes were simplified and standardized across the collection of chemistry courses.
CHEM 102  General Chemistry 2 (10/07/14)  5
Revised Rationale Periodic review. The CHEM 102 outline was compared closely and adjusted according to the CID CHEM 120 outline. Textbooks were updated and minor adjustments were made to other aspects of the outline. Student learning outcomes were standardized across chemistry courses.

CHEM 142  Pre-General Chemistry (10/07/14)  3
Revised Rationale Periodic review. This course has been updated to include current textbooks, slight adjustments to objectives, content, and other components. The course continues to serve as an effective preparation for general chemistry for science majors (CHEM 101/102).

CHEM 143  Introductory College Chemistry (10/07/14)  4 (previously 5)
Revised Rationale This course has been carefully compared with the C-ID CHEM 101 and adjusted in order to be sure to incorporate all the necessary elements. In addition, the units and contact hours have been reduced to align with the 4-unit minimum for C-ID CHEM 101, allowing the college to obtain the Nursing Transfer Model that requires a 4-unit chemistry course.

CHEM 144  Fundamentals of Organic and Biochemistry (10/07/14)  4
Revised Rationale Periodic review. This course outline was compared with C-ID CHEM 102 to ensure that all components were addressed. Adjustments were made to ensure content coverage for this C-ID descriptor. Other course elements were updated as needed, such as textbooks, content and objectives.

CHEM 150  Exploring Our Chemical Environment (10/07/14)  3
Revised Rationale Periodic review. The course outline was compared with C-ID CHEM 100 and adjusted to ensure that all components were in alignment with the C-ID descriptor. Minor adjustments were made to other outline fields.

CHEM 164  Introductory Chemistry Laboratory (10/07/14)  2
Revised Rationale Periodic review. The course outline was reviewed and compared with the content in CHEM 150 and CHEM 142 to ensure that pairing either of these courses with CHEM 164 would serve as a lab science general education requirement for MJC students.

CLDDV 173 and CLDDV 291 pulled for discussion by M. Adams due to concerns that this course and CLDDV 291 did not provide a comparable transfer course in CurricUNET. If the course is being proposed for reactivation, shouldn't this be provided? This was an interesting question, since the committee does not frequently see reactivated courses. B. Adams explained that the CCCCO does not require evidence of comparable CSU courses when reactivating. R. Cranley explained that course titles can vary so widely in disciplines that it is difficult to isolate a comparable course on title alone, but noted she had found two that seemed similar after a lengthy ASSIST search. Since this was a new issue, it seemed that it might benefit the committee to have a policy on transfer status in the instance of reactivation. CSU EO 167 establishes that transferability is locally determined so long as the college observes criteria for transfer level courses established within the Executive Order.

M/S/U (R. CRANLEY, L. HATCH) to establish a Curriculum Committee policy wherein, in the instance a department is reactivating a transfer-level course, CSU TRANSFERABILITY will be automatically reinstated, and the department will not be required to supply evidence of comparable CSU courses in CurricUNET following similar policy for course updates. It remains that reactivated courses will still require routine approval processes for UC TRANSFER requests and MJC-GE, CSU-GE, and IGETC PATTERN placement.

- CLDDV 173 and CLDDV 291 pulled for discussion by M. Adams. See notes on CLDDV 193 for issues on CSU transferability. This course was also pulled due to the fact that the fourth Method of instruction contained more than one method of instruction. The group agreed and revised the item during the meeting by separating the group into unique items on the list of Methods. He also was concerned with CSU transferability for CLDDV 291 and CLDDV 173. See notes on CLDDV 173.

**Request to EXPEDITE FAML 131 pulled for discussion by R. Cranley**

Due to concerns that the rationale for expediting would suggest that there is an issue with articulation, but she was not able to confirm this. The rationale showed that there are concerns about compliance underscoring the need to expedite. L. Miller clarified that effective date does not drive compliance, the curriculum committee review date does. The department needs DE modalities implemented. B. Adams noted that DE implementation is not one of the categories recommended in best practices, but perhaps the college should evaluate the current list of options to see if more are appropriate.

**HIST 193 ABC pulled for discussion by P. Mendez**

due to concerns that the course as written seemed to be more of a traditional course than what is customarily seen in an Independent Study format. Other concerns were raised, such as the lack of clarity on how the course content varies by unit value completed. B. Newell explained that the course is designed to dovetail with CSU Stanislaus, and that the different unit value is related to the length of the paper the student is required to write. R. Cranley noted that she had questions, and sought the approved Independent Study form to help guide her inquiry but could not find it. M. Robles explained that it was located in the division offices or on PiratesNet. R. Cranley requested that it be placed on the curriculum website, and L. Miller agreed to facilitate this. One member commented that the content of the outline was too specific for Independent Study. Would a student have the ability to come to any history instructor and ask to complete a project of his or her own choosing, such as a research paper? E. Kerr spoke on behalf of the History department to report that the other department faculty members are not in support of this proposal. They are not opposed to the content of the proposal; in fact, they believe it should be a course, but not an independent study course. She explained that the department’s culture has always been that, if a faculty member wants to propose a course, regardless of the department’s opinion, that individual should have the right to bring it before the curriculum committee for consideration.

Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable)
During discussion of blanket approval of Distance Education addenda, M. Adams asked for a definition of the term “teleclass”, and the answer given was: a class session that meets at the same time in two different locations (e.g. MJC and Columbia), with an instructor and instructional materials being broadcast live to the students gathered at the other location. Because of the physical distance that separates the instructor and students, this course configuration still warrants a distance education addenda and review process.
M/S/U (E. LUCAS, E. KERR) to MODIFY DE for NURSE 272

NURSE 273  Maternal-Child Nursing  6 ½
CCCCO Proposal Type: (Not Applicable)
Effective: Summer 2015 Expedited
Rationale for Expedited Approval: DE-only proposal is requesting Summer 2015 approval so it aligns with approval date for the course proposal.
DE ONLY
Rationale: Course was approved on 10/07/14 without a DE addendum; however, the department had intended to develop one.
Distance Education Status: Requesting (Teleclass)
Articulation Status: Transfers to CSU
General Education Status (none)
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable)

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)**        B. Adams
   There are no new ADT approvals to report. The TMC for Economics is available, but there is no requirement to build it since there is no existing economics award on record for MJC, therefore there is no 18-month “timer” to complete it. B. Adams has built the COT (Chancellor’s Office Template) for the award, which will make it easier to put the award forward when/if the Economics faculty wish to do so. E. Kerr indicated the division thought the new Economics faculty member might be approached next semester about creating the award, as this is his first semester. B. Adams reminded the committee that the ADT in Chemistry is not yet available at the Chancellor’s Office. The local TMC Plan and Progress chart will also be updated so that it makes distinction between new TMCs and existing TMCs.

2. **C-ID**        R. Cranley
   The C-ID system is down for maintenance until November 6, 2014. Presently, MJC has 140 courses approved for C-ID. She commended Dave DeGroot, Articulation Officer at Alan Hancock College for being a solid advocate for issues being encountered in the development and maintenance of ADTs. He has been asking excellent questions on the unclear fate of self-certified ADTs that have not been developed in areas where there is an existing award by the December 31 deadline. What will happen to those campuses and existing awards? There have been no answers.

3. **CurricUNET Implementation/Issues**        B. Adams/L. Miller
   Governet “issue” tickets have been submitted for the spell-check feature, the DE addendum, and the fact that ENGL 162 course outline report generates an error.

4. **Outcomes Assessment Workgroup (OAW)**        K. Ennis/E. Kerr
   The group has not met, but will meet on Friday, November 7, 2014. There will be a report at the November 18 meeting.

5. **AB 86 and SB1070 Legislation**        P. Mendez
   AB86 planning meetings are continuing and the Consortium has completed the October 31, 2014 report. According to our Hanover Research Group there are 58,000 individuals in the Stanislaus Mother Lode Region, aged 18-49 with no high school education. The research also indicates that 84% of 18-49 year olds without a post-secondary education are not currently enrolled in school. In our Region 5 (Central Valley and Mother Lode Colleges) enrollment in adult education programs served 5.6% of the eligible population in 2008-09 to 2.6% in 2013-14. Recent information indicates that the Governor is looking at moving funding forward to facilitate FY2015-16 further planning or implementation. Dialog in AB86 and SB1070 circles is moving from broad discussion to special topics in Basic Skills, ESL, CTE/Apprenticeship and Disability Services. The biggest concern for the AB86 Consortium and adult education partners across the state has been the 500 million dollar line item being in the 2015-16FY proposed budget to maintain the current base funding for these programs. For this reason, stakeholders are asking for an extension of the planning period. Why is this so? As a college, our perspective has been normally focused on higher education and preparing students to be ready for college. AB86 is asking community colleges to also review fundamental and deeper issues within the community, and work with partners in assisting adult learners. The October 31, 2014 report is being drafted and vetted. P. Mendez hopes to distribute it to the college by the end of the week.

X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process
   
   B. Adams opened discussion noting that the earlier item on clarification of M. Morales 09/23/14 motion would play a role in this item as well. This topic is now twofold; it involves the “Course Proposal Justification Form” now in development, as well as the Curriculum Review process itself. She prefaced discussion noting that the Academic Senate asked that the committee come to resolution on this topic at this meeting, so that it can approve any process and form at the 11/06/14 Academic Senate meeting.

Curriculum Review Process Document

The committee started by looking at the Curriculum Review Process document and revised it to close the loop on hypothetical scenarios with unresolved course proposals. Specifically, it refined the process to determine what should happen in the instance that a course update proposal is sent back to the author, then resubmitted to the committee with the Course Proposal Justification form and process complete, and is still not approved by the Committee. What happens to the course? Does it revert to the prior iteration of the course? And if so, how does this affect compliance? Ultimately, the group agreed to the following language:

**MJC Curriculum Committee**
**Curriculum Review Process**

The following procedure will be followed when a course is pulled for discussion at a curriculum committee meeting.

1. Course is pulled for discussion at meeting.
2. Item(s) is resolved at meeting or withdrawn at meeting (with no objections) and brought back at a future meeting after the rep and author have revised. The course is approved and the Course Justification Proposal Form does not need to be completed.
3. Item(s) cannot be resolved at the meeting or at a future meeting after the rep and author have revised. The Committee does not approve the course and requests the Course Justification Proposal Form is completed. The Curriculum Co-Chair unlocks the course proposal for editing purposes.
4. Author completes Course Justification Proposal Form and attaches to CNET course proposal.
5. Course proposal is placed on next available Curriculum Committee meeting agenda for discussion.
6. If the course proposal is approved, the course is moved through the approval stream for completion of implementation process.
7. If the course update proposal is not approved, the active compliant version stays in effect. In the event the course is not compliant, existing law and procedures apply.
8. If it is a new course proposal that isn’t approved, it may be brought back to the committee in the future with revisions addressing the concerns of the committee.

*ITEM CONTINUES>*
Course Proposal Justification Form

The committee also looked at the working draft of the Course Proposal Justification Form, and reviewed it to provide any further improvements. One member asked that Sections 3B4—Support Data and 3B5—Configuration of Contact Hours be flipped in order on the document, because information gleaned in one section informs the other. It was also asked that language under 3C—Narrative Justification make it clear that the process take into account student demographics and preparedness. Additionally, it was requested that language under Section 1—Course Proposal Questions/Concerns make it clear what policies are bearing influence on the proposal’s return. The form prompts were edited to accommodate these requests, and instructional language was provided to make it clear that the reason for a proposal’s return is commonly due to concerns about compliance with Title 5, ASCCC Course Outline of Record, and/or best practices.

M/S/U (E. LUCAS, E. MAKI) to forward the “CURRICULUM REVIEW PROCESS” document and “COURSE PROPOSAL JUSTIFICATION FORM” as a Curriculum Committee recommendation to the Academic Senate.

2. Proposed Advising Grid for 2015-2016 Catalog

H. Louie was present to introduce and respond to inquiries about her drafted Advising Grid which she would like to appear in the 2015-2016 MJC catalog. She originally developed the grid to help students in her Guidance classes, but her colleagues found it useful when advising students. Some questions were asked and modest suggestions were made, but the committee was supportive.

M/S/U (M. GARCIA, P. MENDEZ) to ADOPT and PLACE the PROPOSED ADVISING GRID in the 2015-2016 CATALOG

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
Hello, Ruth, and All ~

The funkiness of mid-term changes....

The courses mentioned below all have the SU15 mid-term changes to the units. Future mid-term (SU,W,S) technical changes do not display in the e-mail notification.

The automated e-mail notifications, just as the CSU Xferable and UC Xferable lists, only display the current information. When we get the 15-16 academic year up in ASSIST (next June), The lists in ASSIST will show the mid-term changes.

Same thing with a a future fall term course was added for approval in OSCAR, say F15, the course will be in the automated e-mail notification, but will not display in ASSIST until we have the 15-16 academic year up in ASSIST in June.

This is the way ASSIST has always worked with the mid-term changes. Hopefully, in NextGen, the data will show right away in all places. If you ever want to double-check your mid-term changes, use the Maintenance Reports and look at the Active Courses list, using the most recent year at the top of the list.

Course Activity Report

**Hearing no objections, the committee was notified of the following course activity**

On 10/07/14, MATH 106 and MATH 106 proposals came before the Curriculum Committee and were approved with rationales stating “periodic review.” The department was asked to provide more robust rationales for the changes made in anticipation of increased scrutiny from the CCCCO. They obliged and their revised rationales follow.

**MATH 105 Structure of Mathematics 1 (9/23/14) 3 (previously 4)**

Revised Rationale: Revised in order to bring this course into better alignment with state norms.
Content was compared to the newly available C-ID descriptor to ensure alignment, and unit values of similar courses across the state were evaluated.

**MATH 106**  
**Structure of Mathematics 2 (9/23/14)**  
**3 (previously 4)**

**Revised Rationale**  
Revised in order to bring this course into better alignment with state norms. Content was compared to the newly available C-ID descriptor to ensure alignment, and unit values of similar courses across the state were evaluated.

The following course actions took place to reconcile course records for the upcoming catalog and academic year.

**BUSAD 208**  
**Introduction to International Business**

NURSE 265  Nursing Process: Medical-Surgical  6
CCCCO Proposal Type: Inactivation
Effective: Summer 2015 Expedited
Rationale: To ensure accuracy of catalog information for 2015-2016
INACTIVATE
Rationale: The course is being inactivated because the nursing faculty have revised curriculum and created a new course numbering system. This course will be replaced with NURSE 275 which was approved by the Curriculum Committee at the 10/7/2014 meeting. Faculty are also requesting summer 2015 effective date for catalog purposes.
Articulation Status: Transfers to CSU

Effective: Summer 2015 Expedited
Rationale: To ensure accuracy of catalog information for 2015-2016
INACTIVATE
Rationale: Course is being inactivated because the Nursing faculty have revised curriculum and created a new course numbering system. This course will be replaced with NURSE 276 and 277, which are slated for the 11/18/14 Curriculum Committee meeting agenda. Contingent on approval of NURSE 276 and 277, this course should be inactivated. Faculty are also requesting Summer 2015 effective date for catalog purposes.

EMS 389 and EMS 390 pulled as a block for discussion by E. Lucas due to concerns that the Methods of Instruction were very wordy. It was noted that this content was derived from state curriculum in the discipline. C. Mulder expressed additional concerns about the lab content and whether or not certain elements were contained that pertained to CPR content. P. Mendez suggested that the course revert to the previous course content and all were amenable. B. Adams agreed to facilitate this change.

M/S/U (R. CRANLEY, M. LYNCH) to MODIFY EMS 389 and EMS 390 with a friendly amendment to revert to the previous course content on EMS 389.

- Nursing: LVN to ADN (RN) Advanced Placement Pathway  
NURSE 276 and NURSE 277 pulled as block for discussion by M. Garcia due to concerns that Typical Assignments/Evidence of Critical Thinking seemed more detailed than necessary. They appeared to be descriptions of assignments rather than examples of assignments. The committee agreed that revisions should take place to follow established style for Typical Assignments and K. Butler accepted the friendly amendment.

VI. PROGRAM NOTIFICATION AGENDA

CCCCO Approvals: Programs

(None)

Program Activity

*Hearing no objections, the committee was notified of the following program activity*

**MODIFY:** Early Intervention Program

C: Early Interventionist

**MODIFY** Award title

**Effective:** Summer 2015

**Rationale:** Revisions reflect changes initiated by department in 2009, which included inactivation of Early Intervention Assistant 1 and renaming of Early Intervention Assistant 2 to Early Interventionist. While other revisions were proposed, requisite state paperwork was not completed which prevented implementation of the proposed changes. However, the inactivation of Early Intervention Assistant 1 left the second title in the series with an erroneous title. This title was corrected at the CCCCO in Summer 2014 following the advice of the CCCCO.

**MODIFY:** Art History Program

AA-T: Art History

**CCCCO Application:** Non-Substantial Change

**MODIFY** List B requirements

**Effective:** Upon CCCCO Approval

**Rationale:** Recent revisions to the AA-T in Art History included "or" statements which are redundant in List B. The department would like them to be removed. Per R. Stevenson, "the "or"s for Art History are redundant, since List B is a 3 unit requirement, only requiring on of those courses. Both "or"s (one on each form) could be removed in this case."

**MODIFY:** Studio Arts Program

AA-T: Studio Arts

**CCCCO Application:** Non-Substantial Change

**MODIFY** requirements

**Effective:** Upon CCCCO Approval

**Rationale:** Recent revisions to the COT for the AA-T in Art History neglected to include "or" statements. The department would like them to be added at to the COT. Per R. Stevenson, all three "or"s are in the right place on the CurricUNET template. They should be added to the COT on file in the CCC Inventory between ART 147 and ART 148 and between ART 170 and ART 173.

CCCCO Application: Non-Substantial Change

MODIFY program learning outcomes

Rationale: The Spanish department has decided to reduce the number of PLOs to assess for the AA: Spanish (from 17 to 3).

1. Communicate orally in Spanish in real-life situations at an intermediate proficiency level.
2. Communicate in writing in Spanish at an intermediate proficiency level with minimal errors in grammar, spelling, and mechanics.
3. Explain main ideas and compose simple narratives about various cultural materials produced in Spanish.

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)**
   - **B. Adams**
   
   B. Adams will be working with the Agriculture faculty to develop ADTs for the new Agriculture Chancellor’s Office Templates (COTs). She will work with the Economics instructor in spring to give him time to transition into his new role as a full-time faculty member.

2. **C-ID**
   - **R. Cranley**
   
   MJC has been granted C-IDs for 140 courses. Following the meeting, two more courses will be submitted.

3. **CurricUNET Implementation/Issues**
   - **B. Adams/L. Miller**
   
   Various tickets are pending. Critical staffing changes at Governet, CurricUNET’s parent company may be having an effect on the rate of turn-around time for repair tickets. S. Kincade may follow up with Governet directly.

4. **Outcomes Assessment Workgroup (OAW)**
   - **K. Ennis/E. Kerr**
   
   The OAW, while moving rather seamlessly with CLOs and PLOs, is struggling with higher order outcomes with General Education Learning Outcomes (GELOs) and Institutional Learning Outcomes (ILOs) as required for Program Review. What is the role of assessment data in terms of the big picture? What do we do with it? How do we plan? The group will meet again on 12/5. It was asked if there are minutes of the dialog, as this will provide good evidence of this process and inquiry to the accreditors. H. Townsend confirmed that OAW minutes make this clear.

5. **AB 86 and SB1070 Legislation**
   - **P. Mendez**
   
   Representatives are still being sought for Math and English for the AB86 consortium. P. Mendez advised the committee to become familiar with SB173, which will have a significant impact on community colleges. AB86 was the planning element, while SB173 will be about implementation and moving forward. The CCC will be the center of resources in the region for adult education. Thursday, November 20, at 2:30 MJC liaisons will meet with regional partners in adult education inclusive of Stanislaus County, the Mother Lode, and the Central Valley. A writing team is being formed to look at the first of the final draft due in December. All are invited who are interested in Adult Education. P. Mendez noted that there are common themes that run through Student Equity, SSSP, and adult education. It was noted that it has been difficult getting faculty to participate. Some reasoned it was due to the meeting times, which often are concurrently scheduled with peak instructional times. P. Mendez advised the group that the impact of AB86, SB1070, and SB173 on credit and noncredit instruction would be profound.

X. UNFINISHED BUSINESS

**Action Items**

1. **Curriculum Review Process**
   - **B. Adams**
   
   The Course Proposal Justification form, a product of the refined “Curriculum Review Process”, is a living document. For this reason it will appear on the agenda for further discussion, review, and improvement as it is taken into usage by faculty. M. Adams had raised questions about the definitions for unit modalities provided on page 4 of the current form. He reported that math faculty had attempted to use the form and had concerns, specifically, that the definitions given do not seem to allow for online labs. Official sources that provide definitions of “lab” modalities do not seem to exist, however, ratios for contact/homework hours for various modalities are established in Title 5. There was lengthy reflection and discussion that eventually focused on what it takes to garner curricular approval for online instruction of a course. M. Adams and the committee concluded that the DE Addenda provided a framework and process for establishing online laboratory instruction.
Informational Items

1. CurricUNET Training for Deans and Representatives  
   B. Adams  
   B. Adams held training for deans and representatives that was well received. Many found the experience enlightening and useful, but some also expressed overwhelm at how much there is to learn and know. It was suggested that modules be developed.

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Mission  
   B. Adams  
   At the Curriculum Training earlier in the year, the small groups drafted mission statements for consideration. B. Adams projected those statements and asked the committee to review them, in hopes of finalizing a mission statement for the committee. After very efficient revising and editing by the group at large, the following mission statement was drafted and adopted.

   The Modesto Junior College Curriculum Committee reviews curriculum and academic policies to ensure compliance with Title 5 and California Education Code prior to recommendation to the District Governing Board for final approval. The committee also ensures that curriculum is sound, comprehensive and responsive to the evolving needs of our students as well as the academic, business, and local communities.

CCCO COURSE APPROVALS

(NONE)

Course Activity Report

Hearing no objections, the committee was notified of the following modifications and corrections.

PE 100

Introduction to Physical Education

CCCO Proposal Type: Not applicable

Effective: Summer 2015

MODIFY title

Rationale: Course was approved at the 09/09/14 meeting. The title that was provided on the agenda at that time was correct but CurricUNET was not. CurricUNET was missing the word “to” in the title. L. Miller has updated CurricUNET to reflect the corrected title.

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
Curriculum Committee Minutes – December 2, 2014

PEC  190  Advanced Water Polo  1
CCCCO Proposal Type: Not applicable
Effective: Summer 2015
MODIFY repeat policy
Rationale: Course was approved at the 09/09/14 meeting. This course was originally written when using PEC courses for training and conditioning. Since all of our coaches had opportunity to write new courses to meet the training requirements, repeatability should be removed from this course.

NURSE  259  LVN Transition: Role Change Preparation  2
CCCCO Proposal Type: Not applicable
Effective: Summer 2015
MODIFY enrollment restrictions
Rationale: Course was approved at the 09/23/14 meeting. The TEAS score that was specified in the limitation on enrollment was incorrect. The score should have been 62, not 67. The score has been modified in CurricUNET in the requisites section.

MATH 10, MATH 20, MATH 70, MATH 90 pulled as a block for discussion by L. Hatch and P. Mendez due to the courses not having the justification form attached and issues with unit values.
B. Adams explained to P. Mendez that when these courses were pulled from the 09/23/14 agenda, the Course Proposal Justification (CPJ) form did not yet exist, and no directive was given to the department to return the course with the CPJ forms completed and attached. P. Mendez noted that it appears the proposals have not been modified since the 09/23 meeting.

C. Mulder referenced a CurricUNET comment about it being too early to look at basic skills courses in light of pending C-IDs for basic skills courses. She asked if it was possible to conditionally approve for one year. If the courses are approved at this meeting without a condition, the course outline is in place for 5 years, and if the C-ID comes out in a year the college could not update the course for four years. M. Morales explained how that would work in Parliamentary Procedure, and noted it would likely require review and possible suspension of the bylaws. The group did not appear to be in favor of this.

R. Cranley asked if combining courses or shortening the amount of time per semester to help a student to get up to MATH 90 has been considered. B. Sanders reported that the Math Department is doing a combination of things. Each semester they are scheduling a few compressed sections of beginning and intermediate algebra within a single term. Such immersion has been shown to be beneficial to students, and allows students’ progress through the two-course sequence in one term. The department has also looked at pairing other courses and they are looking at the placement tests. B. Sanders has been in dialog with M. Robles to possibly revise the assessment test to see if students can place higher.

M. Boyd is mostly concerned with the unit value which she believes is too high. High units are a disservice to our students. She has looked at other schools and noted that very few have a 5-unit intermediate algebra class. She added that even CSU courses are offered for 3 units. M. Boyd inquired if there is any effort to lower the unit value. M. Adams responded to her concern with countering her perception. It doesn’t seem like the students are not coming here he added. He reported that MJC math courses have more students than they can accommodate.

M. Morales reported he attended the meeting where MATH 70 increased from 3 to 5 units. M. Morales reported that he was at the meeting where unit values were approved for increases. He noted he had asked about student success data for students taking Math 70 and moving up to Math 90 compared to a student who assessed in to MATH 90. He noted that the data was never provided despite his request, He is still waiting to see the data. M. Morales asked if it is a problem with the assessment test the student takes.
L. Hatch did some research and reported to the Curriculum Committee that the following colleges do not offer 5 unit courses:

- Stanislaus State
- Sacramento State
- San Francisco State
- Fresno State
- CSU Hayward
- San Jose State
- UC Merced
- San Diego State

M. Adams reported the following data from his research:

- 82% of California Community Colleges have 5 units or more in intermediate algebra
- 74% of California Community Colleges have 5 units or more in basic algebra

M. Adams reported that MATH 70 and MATH 90 did not increase contact time. The units increased several years ago to match course units to contact hours. The only course that increased contact hours were MATH 10 and MATH 20 and the evidence suggests that success rates increased dramatically.

R. McKenzie reported that tracking student success data is very difficult. He said the only really good data available to show the benefits of increased contact time is in MATH 20. He said that in MATH 20 the contact time increased from 3 units to 4 and then to 5. When MATH 20 was a 4-unit class, eventually about 66% passed the class. Of those students who passed, only 31% of them would eventually pass MATH 70. He said that when the contact time increased, the success rates for MATH 20 rose to 73% and MATH 70 rose to 41%. S. Curl reiterated what M. Adams had stated about increased contact time. She reasoned that the actual contact time has not changed since, at least, 1991. S. Curl conducted a survey for MATH 20 students regarding contact time and the students provided feedback that show that they would rather have more contact time than less.

C. Mulder reasoned that greater contact time in every class would result in greater student success across the curriculum. In that vein, MATH courses have extra contact time for more student success, but what about history or science students who are failing courses offered at 3 or 4 units? C. Mulder understands that math is more difficult for some students than other subjects but the fact is that every instructor would like to have more contact time. We need to figure out how we are going to teach courses with less. We have to look at student success in terms of how students get through and out of here.

S. Kincade remarked that C. Mulder’s point is well taken. She explained there are a number of basic skills students that have not taken English or math. She said that the basic skills students can still get into many courses but it’s not easy for them. S. Kincade has seen data that shows that students are starting at the lowest levels of math and are not making it to transfer level. She said that she is concerned about this data and how that trend may be disenfranchising large numbers of students.

K. Ennis said that she remembers being present at the meeting where math units increased. She remembers that the rationale given was about equity for students. K. Ennis understands C. Mulder’s comment about doing more with less but she fears that we are on the verge of a deliberate diminution of the intellectual level of education, because we can’t spend more time with our students.

M. Adams said that in terms of student success, MJC is doing a lot of innovative things in Math courses. He noted that a comparison of CCC success rates will show MJC above the state average for remedial math. He suggested that the committee vote yes on these courses.
that the Math Department is trying to make things better and trying to follow practices across the state.

M. Robles has been looking at this discussion from the student service perspective. Currently, students potentially need to take up to 19 MATH units to get to transfer level coursework. This is an opportunity to get students to the transfer level or at least start the discussion of where we need to start to help students achieve this goal. H. Duarte explained that the unit load is a factor especially for those students who have to start at the bottom and work their way up in order to transfer on. He said that we shouldn’t be using state statistics but instead compare what our neighbor colleges are doing in relationship to what we are doing at MJC. He said that we should all be teaching the same thing.

MATH 121 and MATH 122 pulled as a block for discussion by L. Hatch and C. Mulder due to concerns with unit value. C. Mulder said that MATH 121 and MATH 122 are both 5 unit courses but only 5 units from that sequence transfer. If we are requiring 10 units but only 5 of those units transfer, this is a disservice to our students. E. Lucas reasoned that if both courses were 4 units each for a total of 8, only one of the 4 unit courses transfers which would mean that the student would still lose 4 units. E. Lucas said that she understood what C. Mulder is saying but the student would still lose units when transferring. C. Mulder countered that a student would still be losing time and money paid for units that do not transfer.

M. Adams said that these two courses will probably be updated in a year or two even if approved today. He reported that each college differs when it comes to these two courses. He said that the Math Department is evaluating how they offer Precalculus to better align with C-IDs coming through the system. He noted that these two courses are about to be non-compliant and that is why they are being reviewed at this meeting.

R. Cranley said that she is concerned about student success in these courses. She said that across the state of California there are different configurations of Precalculus. R. Cranley noted these courses are coming through with no changes. She is interested in whether the Math
Department is going to come up with new courses or massage the existing courses to align with C-ID.

P. Mendez sought confirmation that these courses came through at the September 23, 2014 meeting and were pulled with a request for changes. These courses are now back for approval with no changes made.

B. Sanders added that Precalculus is a very tricky alignment to consider, and added that Precalculus is more complex. B. Sanders reported that the Math Department has an open-ended problem-solving situation where there are many options. He likes the idea of asking the Math department to look at different options and then develop a plan to bring back to the Curriculum Committee for approval, but we need to teach something for Precalculus in the meantime.

MATH 134 pulled for discussion by L. Hatch due to concerns with unit value. L. Hatch noted that the course was lowered to 4 units but reported that several courses from transfer institutions are at 3 units. She asked those attending from the Math Department what we do differently and why? H. Dhillon, professor of mathematics, reported that the Math Department researched several community colleges in California and found that out of 112, 16 were at 3 units, 85 were at 4 units, and 10 were at 5 units. Looking at this data as a group it was agreed that the course is an outlier with 5 units for unit value. These findings led to a statistics committee discussion as to what could be done differently.  
H. Dhillon explained that, to reduce from 5 to 4 units, the technology component was removed from the course and doing the demonstrations in an optional but recommended course for the students. She reported that some colleges are offering this course at 3 units. H. Dhillon reported that many of the colleges that offer the course at 3 units say that the course outline does show that they are covering the material in 3 units but it is very difficult. She reported that a rise in units (from 3 to 4 this fall) has also happened because the C-ID descriptor is so detailed.  

R. Cranley noticed that the C-ID request for the course is CID MATH 110 and CID SOCI 125. R. Cranley noted that both of the descriptors are 3 units. She said that this concerned her because the Nursing TMC requires 3 units of CID MATH 110 or CID SOCI 125. A higher unit value is not acceptable.  
H. Dhillon said that the statistics committee is looking into developing a 3 unit math/social science course. A course is currently in draft form in CurricUNET but has not been fully developed. H. Dhillon reported that the faculty member who is developing the course could not be in attendance today to speak about the course. H. Dhillon reported that the course is being developed in light of the nursing requirement.  
M. Adams reasoned that a 3-unit course needs to be in nursing but it’s not a MATH 110 C-ID that
is referenced. It is CID SOCI 125 which is significantly different in content. M. Adams said that the statistics faculty member building the course has been advised that this should be built by the social science area instead. B. Adams asked if the 3-unit course will be developed in the next year. M. Adams said that it can be done but they don’t want to step on toes by developing something in math that should be social science.

L. Hatch is concerned that the new course justification form has not been used in this case. She said that she can hear the information that is being shared but it would be helpful if the document was in front of her before she moved forward to approve the course.

B. Adams noted that the committee never formally asked the faculty to fill out the form when they were pulled. She had let M. Adams know that he could present the course without the form but if the course does not get approved, then he would then need to fill out the form in order to bring the course back to the committee for review and/or approval. B. Adams reported that M. Adams did fill out three of the forms for the calculus series but reiterated that courses were not required to have a form presented at this meeting.

D. Gilbert added that a statistics query of the courses discussed by H. Dhillon is attached to the course in CNET for review. L. Hatch said that the query does not show how recently the courses were created or whether in compliance for periodic review. H. Dhillon added that the data used to develop the statistics query was information from current college catalogs and class schedules.

P. Mendez asked what challenges exist with this course being 4-units for any other programs. B. Adams said that the biggest challenge is the Nursing TMC. B. Sanders said that after reviewing all of the TMC’s, there are two different statistic courses, CID MATH 110 or CID SOCI 125. He reported that there are only a few programs that specifically require the CID MATH 110 descriptor. They are:

- Agriculture
- Psychology

B. Sanders explained these programs have a small amount of “wiggle room” in terms of the electives. He said that out of all of the programs that he has reviewed, he has not found any where the extra unit of statistics in the MATH 110 precludes MJC from getting TMCs. He said it may occur in the future, but this can be readdressed. He said that he is fully committed to having a 3-unit statistics option for our students but the data doesn’t imply that it has to be the existing MATH 134 class. R. Cranley asked if there is communication between sociology and math to discuss a 3-unit sociology class option. H. Dhillon indicated the two departments are in discussion.

H. Duarte asked the Curriculum Committee what content is being offered at Delta or Merced College. H. Dhillon said that Delta is offering this course at 4 units and have no plans to change. L. Lanigan added that while Delta is offering this course at 4 units, they have not reduced their nursing units either and haven’t begun the process to develop the nursing TMC. She added that our MJC nursing department is in the forefront with responding to incoming changes in California.

H. Duarte said that as a counselor he has seen too many of the Modesto Junior College students struggle with math. They leave MJC to attend Delta or Merced. The college shouldn’t let students go elsewhere to take a math class. R. McKenzie reported that he taught the math/psych statistics class at Delta as an adjunct. As far as the content goes, it is the same content but they don’t do the computer demonstrations that we pulled off into the extra unit. He said that as far as the statement about students going to Delta for math, he saw one Delta class where online homework made up 60% of the possible points in the course and this is incredibly out of the norm. While he is sure students can do this he is not sure that they should.

H. Duarte sees students struggling in MJC math courses. They transfer to Delta and succeed. H. Duarte believes that MJC should be looking at how to model what Delta offers so students can stay
at Modesto Junior College and succeed here. M. Adams said that he doesn’t see what this conversation has to do with unit values. He added that decisions should not be based on anecdotal evidence but on the data. M. Adams reported that the data shows that MJC and Delta are comparable.

R. Cranley ultimately would like to see a 3-unit statistics course where students who are transferring with a bachelor's degree can take and understand basic concepts so that they can succeed at MJC and transfer to earn a bachelor’s degree. She added that most of our students are not majoring in math and are only taking math to transfer. She wondered why we can’t have two models, one for non-math majors, and one for math majors. She said that it seems to her that we can have both worlds, a 3-unit and a 4-unit class.

MATH 171 and MATH 172 pulled for discussion by C. Mulder due to concerns with unit values and hours. C. Mulder was concerned with the course going from 5 lecture units to 4 units (3 lecture/1 lab). She said this change actually increased the contact hours from 90 hours to 108 hours. C. Mulder added that this is not doing anything but adding more time for students in the classroom. M. Adams presented data from 4-year colleges and many had lab time listed for their math courses. He said it’s not about seeing the students more but more about applying more innovative pedagogy. M. Adams said that by adding lab to a math course, instead of sending the students home to work on a dozen hours of homework, the students come in and do much fewer hours in the lab setting. He added that it is more time in-person but students actually have fewer hours that a student spends on tasks over the course semester.

C. Mulder said that it appears only 1 unit of content was taken out of lecture and put into lab. She explained that this means that the content was 18 hours and now it has been increased to 54 hours. Even taking homework into consideration, this is a lot of time for a student in the class. M. Adams said that lecture time has homework attached so he was unclear of C. Mulder’s objection. C. Mulder responded that you don’t do homework in class and you cannot count this as class time. M. Adams responded that the lab is not homework, it is an in-class activity. He said that this is not a strange thing. He added that quite a few of 4-year colleges have a lab component in these courses.

E. Kerr added that at 4-year institutions the lab is usually optional and not part of the class. She said that Stanislaus State offers Calculus 1 and Calculus 2 as a 4-unit lecture class and an optional workshop type lab which underprepared students take in addition to the 4-unit lecture class. She also could not see anything that was innovative or different according to the course outline. E. Maki also agreed that nothing looks different according to what is listed on the course outline.

R. Cranley said that previous versions proposed earlier this year specified “homework” as a Method of Instruction. It has since been removed. She wonders if homework is being done in the lab modality. She added that CSU Stanislaus does not require students to take the lab. The only instance where it is technically required is for students who are majoring in Math in pursuit of a Single Subject Teaching Credential. Sacramento State also does not require it.

R. McKenzie noted the Math Department did think about the schools where lab was not required but said that MJC course proposals actually save students money. He added that if MJC configures math classes with an optional lab then we would still have to offer the 4-unit class. If the students wanted to take the lab class, they would have to pay for it. It seemed unfair to make students pay extra for something, if we could instead find a way to give it to them for free.

R. Cranley reported that this course was being offered at 5 units lecture and now is being proposed as 4 units, but with 3 units of lecture and 1 unit of lab. She would like to see this course set up similar to what other 4-year colleges have done by having lab as optional instead of required.

COURSE PROPOSAL FEEDBACK: (This feedback will also appear on the Course Proposal Justification form for all proposals voted on in this block). The committee recommends that the author(s) model the course after other schools that offer lab as a separate optional course. Because the department expressed that they are doing very innovative things in the course, it was suggested that such innovations be made more apparent in the course outline of record.

MATH 173 pulled for discussion by L. Hatch due to concerns with unit values and the C-ID. L. Hatch said that as instructors we are challenged to address teaching style and learning style and be creative. She added that we should not have to do more units to get this done. R. McKenzie said that this course was going to be proposed similar to MATH 171 and MATH 172 with the lecture/lab scenario but they are waiting to have those approved first as a trial run. M. Adams reported course data from California Community Colleges and said that 61 offer this course at 5 units and 41 offer this course at 4 units. L. Hatch said one should not retrieve data from course catalogs. CurricUNET can show when the courses were approved. L. Hatch added that many of the active courses used for this data are out of compliance.

R. Cranley added that after looking at the articulation chart she has developed for her role, it’s important to compare unit values to other colleges. M. Adams said that C-IDs are not a maximum or a target. He quoted David Morse, State Academic Senate President, who said, “The intent was always to define the minimum not a norm that colleges would be expected to meet. If we define norms what would happen to colleges above and below those norms. I can’t think of much that would be more intrusive to the local curriculum.”

MATH 174 pulled for discussion by E. Kerr due to concerns. E. Kerr didn’t realize that there is a C-ID at 5 units. M. Adams reported that there are two varieties across the state. He said that one of them has two separate courses that are each 3 units and then there is a single combined course. He said that when you look at the C-IDs that are at the state level, they have both of these options listed (two separate 3 unit course C-IDs for linear algebra and differential equations). M. Adams said that it appears that some sort of a data entry error happened because when R. Cranley tried to submit the Math 174 course for the descriptor, you are required to enter a sequence of courses. The system does not let you submit a single course. M. Adams has yet to get an answer from the state.

R. Cranley said that at the September 23, 2014 Curriculum meeting, where Math 173 and Math 174 were not pulled, she had submitted these to the C-ID site. The site kept asking her to attach a second course. She contacted the online A.O. but did not receive a response. She then contacted them personally and the information was forwarded to the math chair. R. Cranley saw that these math courses were approved regardless. R. Cranley said that since these are approved for C-ID, the courses should be approved today by the Curriculum Committee.

Rationale for Expedited Approval: Students will work in an acute healthcare facility under the guidance of a RN. Students will utilize skills and knowledge acquired from previous coursework in the A.D.N. program. These students will not experience a "gap" in learning that can occur during extended breaks.
MODIFY enrollment restrictions, typical assignments
Rationale: Course is being update to reflect new course numbers for the requisites.
Enrollment Restrictions: Maintaining (P) Satisfactory completion of NURSE 270; Requesting (P) and satisfactory completion of NURSE 271; Requesting (C) Concurrent enrollment in NURSE 272 or NURSE 273 or NURSE 274 or NURSE 275 or NURSE 276 or NURSE 277; Removing (P) and satisfactory completion of NURSE 261; Removing (C) Concurrent enrollment in NURSE 262 or NURSE 263 or NURSE 264 or NURSE 265 or NURSE 266 or NURSE 267.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   This item definitely postponed until the next meeting.

2. C-ID  R. Cranley
   This item definitely postponed until the next meeting.

3. CurricUNET Implementation/Issues  B. Adams/L. Miller
   This item definitely postponed until the next meeting.

4. Outcomes Assessment Workgroup (OAW)  K. Ennis/E. Kerr
   E. Kerr reported that the next Outcomes Assessment Workgroup meeting is scheduled for Friday, December 5, 2014.

5. AB 86 and SB1070 Legislation  P. Mendez
   This item definitely postponed until the next meeting.

X. UNFINISHED BUSINESS

Action Items

   At the next meeting in January 2015 the committee needs to “close the loop” on how the process should work for courses that have gone through the curriculum review process, have presented a Course Proposal Justification form, but are still are not approved.

   The committee also needs to take a look at courses that are out of compliance. She said that there needs to be a very clear delineation of the expectations if a course outline has not been reviewed within 6 or 7 years, and what the consequences will be.

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Goals  B. Adams
   This item definitely postponed until the next meeting.
Informational Items

2. CCCCCO Task Force on Workforce, Job Creation and a Strong Economy  
   B. Adams
   B. Adams asked that the committee read the email attachment from J. Adams at the ASCCC that was sent with the agenda. The email explained that the Task Force on Workforce needs faculty leaders to attend and make their voices heard at the regional conversations. To attend a regional conversation you can register by clicking this link:

   http://doingwhatmatters.cccco.edu/StrongWorkforce/Events.aspx

XII. PUBLIC COMMENT

L. Miller, MJC Curriculum Process Specialist, announced that she is transferring to Columbia College pending Board of Trustees approval and that this was her last meeting. L. Miller has worked for Modesto Junior College for 13 years. She said that she will miss the committee terribly, and the committee reported that they also will miss her and her curriculum expertise.

M/S/U (E. MAKI, E. LUCAS) to adjourn at 5:39 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion to modify the order of the agenda to accommodate guests was approved.

II. APPROVAL OF MINUTES

December 2, 2014

Hearing no objections, the minutes of December 2, 2014 were approved as stated.

NURSK 800  
Nursing Skills Development  
CCCCO Proposal Type: Not applicable  
Effective: summer 2015  
**MODIFY enrollment restrictions**  
**Rationale:** Course was approved at 12/02/14 meeting. NURSE 52 was included in the corequisites as an “or” option but is not currently an active course. The faculty had removed NURSE 40 thinking that NURSE 52 would be activated in time. Because NURSE 52 was not activated, the faculty wanted NURSE 40 to replace the request for the NURSE 52 corequisite. NURSE 52 has now been removed from the corequisites and NURSE 40 has been put in its place field in CurricUNET.

NURWE 361  
Work Experience Nursing-A  
CCCCO Proposal Type: Not applicable  
Effective: summer 2015  
**MODIFY title**  
**Rationale:** Course was approved at 12/02/14 meeting. Author agreed to add “A” after existing course title for consistency with other disciplines and to avoid confusion with NURWE 362, which had the same title. Title was updated by B. Adams in CurricUNET.

NURWE 362  
Work Experience Nursing-B  
CCCCO Proposal Type: Not applicable  
Effective: summer 2015  
**MODIFY title**  
**Rationale:** Course was approved at 12/02/14 meeting. Author agreed to add “B” after existing course title for consistency with other disciplines and to avoid confusion with NURWE 362, which had the same title. Title was updated by B. Adams in CurricUNET.

**IV. COURSE CONSENT AGENDA**

*Hearing no objections, the following course changes were approved.*

AGEC 209/BUSAD 209  
Import/Export Fundamentals  
**Effective:** spring 2015 [*Expedited!*]  
**Rationale for Expedited Approval:** This course has already been approved by the curriculum committee (March 04, 2014) for Summer 2015 activation, but the department is requesting expedited approval for spring 2015 in order to provide for enhanced student access and the ability for program majors to complete their degrees in a timely manner. Given that 3 of the 4 courses are for specialized degrees, it is critical that offering are online to provide equitable access to our working students.

Program Impact:
- CSU General Education Pattern Certificate of Achievement
- Chemistry A.S. Univ Prep - Area of Emphasis
- General Studies, Emphasis in Natural Sciences A.A. Degree

CHEM 112 and CHEM 113 pulled as a block for discussion by S. Circle due to concerns with the CLOs. S. Circle noted that the statement, "The student should be prepared to" was already listed in the header and did not need to be repeated. The committee removed the sentence from the CLOs. S. Circle noted an issue with the methods of instruction. The methods of instruction were revised to match CHEM 122. The committee also reviewed the methods of evaluation for CHEM 112 and CHEM 113. Since CHEM 122 and CHEM 123, were conditionally approved for C-ID, with the same information listed, the committee decided to leave the methods of evaluation as is.

M/S/U (E. Lucas, M. Garcia) to MODIFY CHEM 112

M/S/U (C. Mulder, E. Lucas) to MAINTAIN REQUISITES for CHEM 112

M/S/U (P. Mendez, M. Adams) to MAINTAIN PLACEMENT OF CHEM 112 on GE PATTERN(S)

CHEM 112 and CHEM 113 pulled as a block for discussion by E. Maki due to concerns with the expedited date of approval. E. Maki asked why we needed to expedite this course if the course was submitted on time. B. Adams said that in the past, if a course comes through after a certain meeting date, the course would be labeled as expedited if the course had met the official deadline in the CurricUNET system. She added that this recently happened to some of the MATH courses. When the courses came back through, they were labeled as expedite to ensure that they were given the opportunity of being approved with the same date that they had originally intended. E. Maki added that he was concerned with so many courses being expedited when we are supposed to be judicious with expedites. Kincade added that we shouldn’t need to wait for DE proposals to be in effect. She said that the DE only proposals, in the future, do not need to be expedited and instead should just be effective as approved. She asked if DE policy on effective dates could be addressed at next meeting.

CCCCO Proposal Type: New Credit Course  
Effective: Upon CCCCO Approval  
ADOPT

Rationale: With approval for the SOC 125 C-ID descriptor (attached), this course will support the ADTs in Administration of Justice, Kinesiology, Nursing, Political Science, and Sociology.

Enrollment Restrictions: Requesting: (P) Satisfactory completion of MATH 89 or MATH 90 or qualification by the MJC assessment process.

Distance Education Status: (none)
Materials Fee Status: (none)
Articulation Status: Transfers to CSU. Requesting UC.

Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

SOCIO 105 pulled for discussion by M. Garcia due to concerns with expedited approval for the course. B. Adams alerted the committee that this course does not have an expedited approval request because it is a new course. All new courses regardless of the request made by the faculty are not set to be active until the CCCCO makes the final approval. Once the CCCCO approves this course, the course will be effective in all data systems and the course catalog, if the course is approved before the catalog deadline for publishing. If not, it may be placed in addendum.

M/S/U (M. Garcia, C. Mulder) to ADOPT SOCIO 105

### DE (DISTANCE EDUCATION) ONLY PROPOSALS

#### ENGL 50

**Basic Composition and Reading**

- **Effective:** Spring 2015-summer 2015
- **Rationale for Expedited Approval:** This course has already been approved by the curriculum committee (March 18, 2014) for Summer 2015 activation, but the department is requesting expedited approval for spring 2015 in order to provide for enhanced student access and the ability for program majors to complete their degrees in a timely manner. Given that 3 of the 4 courses are for specialized degrees, it is critical that offering are online to provide equitable access to our working students.

- **Rationale:** Add distance education component.
- **Distance Education Status:** Requesting: Mixed Modalities/Hybrid
- **Program Impact:**
  - Professional Selling Certificate of Achievement
  - Retail Management (WAFC) Certificate of Achievement

- **M/S/U (E. Lucas, E. Maki) to ADOPT DE for ENGL 50
- **M/S/U (S. Berger, E. Lucas) to EXPEDITE DE MODALITIES for ENGL 50**

#### HUMSR 110

**Intro to Interviewing, Counseling**

- **Effective:** Spring 2015
- **Rationale for Expedited Approval:** This course has online sections scheduled for Spring 2015. With registration already open, students have enrolled and they would be denied access to the course if it is cancelled. Approving for Spring 2015 would allow it to be scheduled as a late start class to minimize disruption to student schedules.

- **Rationale:** Add distance education component.
- **Distance Education Status:** Requesting: Online, Mixed Modalities/Hybrid
- **Program Impact:**
  - Chemical Dependency Counseling Certificate of Achievement
  - Chemical Dependency Counseling A.A. Degree
  - Gerontology Skills Recognition Award
  - Human Services A.A. Degree
  - Human Services Certificate of Achievement

- **M/S/U (E. Lucas, E. Maki) to ADOPT DE for HUMSR 110
- **M/S/U (S. Berger, E. Lucas) to EXPEDITE DE MODALITIES for HUMSR 110**

#### MATH 89

**Intermediate Algebra Essentials**

- **Effective:** Spring 2015
- **Rationale for Expedited Approval:** Online courses have received new attention and emphasis, creating an urgent need to schedule online and hybrid late-start versions of this course.

- **Rationale:** Add distance education component.
- **Distance Education Status:** Requesting expedited implementation date: Online, Mixed Modalities/Hybrid
- **Program Impact:**
  - Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

SOCIO 101 pulled for discussion by M. Adams due to concerns about the methods of evaluation. It was unclear why the faculty member listed oral presentations as a method if the class was taught online. How can you provide an oral presentation if you are online? A discussion ensued regarding the different tools used to provide an online oral presentation (skype, etc.). J. Hamilton noted that she had reviewed the course outline and suggested that if needed, the item could be revised to just say “presentation.” B. Adams revised the information with the consent of the committee and the dean.

VI. PROGRAM NOTIFICATION AGENDA

Program Activity

Hearing no objections, the committee was notified of the following program activity:

MODIFY: Agriculture Business Program  30
AS: Agriculture Business
MODIFY title
Effective: Upon CCCCO Approval
Rationale: This award came through and was approved by the Curriculum Committee on 3/18/2014. The award displayed the wrong title. The correct title is Agriculture Business. The CCCCO has the correct title on file but CurricUNET and Datatel needed to be fixed. H. Townsend has updated CurricUNET and Datatel to reflect the corrected title. This information appears here for the purpose of the committee’s record.

MODIFY: Agriculture Science Program  30
AS: Agriculture Science
MODIFY title
Effective: Upon CCCCO Approval
Rationale: This award came through and was approved by the Curriculum Committee on 3/18/2014. The award displayed the wrong title. The correct title is Agriculture Science. The CCCCO has the correct title on file but CurricUNET and Datatel needed to be fixed. H. Townsend has updated CurricUNET and Datatel to reflect the corrected title. This information appears here for the purpose of the committee’s record.
MODIFY: Music Program

AA-T: Music

REVISED Rationale to CCCCO

Effective: Upon CCCCO Approval

Rationale: This award has been revised to remove courses that are not appropriate for music majors. Additionally, it removes the option of MUST 101 as an alternative to the pairing of MUST 121/MUST 131. Students who complete MUST 101 in lieu of MUST 121/MUST 131 will not be prepared for MUST 122/MUST 132, and will not satisfy prerequisite requirements for enrolling in those courses.

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)**
   
   B. Adams reported that she plans to work with M. Boyd to complete the two Agriculture COTs (Chancellor Office Templates). She showed the Curriculum Committee members the Chancellor’s website with recently revised templates. The newly revised templates have the CSU-GE and IGETC areas separated to make the double counting calculations easier to compute than the earlier templates. She reported that once a new template is available and posted on the CCCCO website, faculty have 18 months to complete and submit the template if they have a similar degree. It was noted that Chemistry is not available yet but once it is, we will have 18 months from the date that it’s posted to get the template completed and turned in. It is anticipated it will be posted on February 1, 2015.

   M. Garcia asked if Computer Science is being worked on. B. Adams said that she is not sure if any progress has been made since we are still working on Math and Physics courses and their unit values to reach 60-unit maximum. We have until June 30, 2015 to submit the Computer Science ADT. S. Circle asked about the Spanish ADT deadline. B. Adams said that the Spanish ADT is under the same deadline since it was released before the 18-month rule began.

   J. Hamilton suggested that an institutional conversation take place about what we need to do when we can’t reach the number that the CCCO template is requiring. She said if we are not careful we could end up losing a degree and the Curriculum Committee plays an important role with this particular issue. There are going to be challenges to determine how to constructively move toward an objective that serves our students. She believes that the Curriculum Committee is a great place for the conversation to start. B. Adams noted that this can be achieved as the committee works on the curriculum review process.

   Approved templates can be viewed at the following site:

   [http://extranet.cccco.edu/Divisions/AcademicAffairs/CurriculumandInstructionUnit/TransferModelCurriculum.aspx](http://extranet.cccco.edu/Divisions/AcademicAffairs/CurriculumandInstructionUnit/TransferModelCurriculum.aspx)

2. **C-ID**
   
   R. Cranley reported that we currently have 144 approved C-IDs. An email was forwarded to the committee that discussed C-ID e-mail alerts not being received. She added that a ticket has been issued and hopefully the issue will be resolved soon. Currently there is a request for C-ID reviewers at the CSU level. There is a shortage in reviewers. Faculty can earn $10 per each course outline review. The Biology TMC is on the C-ID website. This will not be forwarded to the Chancellor’s Office website until around February.

   R. Cranley forwarded communication studies, psychology, and social sciences to the deans. Currently there is a five year review process taking place for these three disciplines. Faculty can go in to the C-ID site and see if there are any additions or comments that need to be made to the descriptors. C. Martin asked for the total of submitted descriptors. R. Cranley reported that we have approximately 216 out of 230 at this point. To visit the C-ID website:

   [https://c-id.net/](https://c-id.net/)

3. **CurricUNET Implementation/Issues**
   
   B. Adams reported that spellcheck is now working. Activities is still not showing on the CORs, as evidenced by a course approved at the meeting; SOCSC 58 is still not showing “activities” on the Word Report.

4. **Outcomes Assessment Workgroup (OAW)**
   
   E. Kerr reported the next OAW meeting is on February 6, 2015, with an Assessment Day also scheduled for that morning. An e-mail will go out shortly to faculty members. Some faculty and administrators will meet with an Elumen rep on January 21. Elumen is a platform for student outcomes. E. Kerr reported the process will not change, but the data entry aspect may if Elumen becomes our new database system. J. Hamilton reported Elumen can make assessment instantaneous and faculty can also link their assessment information to ILO and PLOs. E. Kerr said this system will allow us to dig deeper into student demographics which is what we currently need to do to be effective.
5. **AB 86 and SB1070 Legislation**

P. Mendez said that they are still sorting out the Governor’s proposal on the budget. AB 86 is moving forward with funding. He reported that $300-$350 million will be provided for maintenance and effort for the adult education program. About $150-$200 million statewide will be distributed or consortiums.

P. Mendez reported that more instructors are needed in the conversation. Locally, he added, the December draft report has been submitted. The report consists of local recommendations for Stanislaus County and the Motherlode. The final report is due March 2015. The larger group is breaking into sub groups to work on ESL, ABE, CTE & apprenticeships, and disability services. P. Mendez reported that faculty who would like to join the group can make $35 an hour for their time. Contact P. Mendez for information. SB173 is another item to keep an eye on. SB173 speaks to the implementation of adult education. P. Mendez reported that he plans to present information to the MJ Academic senate soon on AB86 and SB1070 legislation.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Curriculum Review Process**

   B. Adams reported the review process was approved by the committee 11/4/2014. She asked the committee to think about what the process would be for a course that needs to be reviewed or revised and hasn’t been put forth to the committee for approval. Should we set up a guideline in regards to a timeframe for courses? Sometimes courses can fall through the cracks. For this reason, B. Adams looked to see what other college policies or guidelines are in regards to this subject. She noted that Mt. San Jacinto College has a noncompliant warning list that they send out to the faculty. They give the faculty a year from the date of the warning to update the course. If the course is not updated, the Curriculum Committee automatically inactivates the course.

   C. Martin asked if we would deactivate a course that is essential for graduation. He asked about other options besides inactivation. How do you resolve this? Who does the course belong to at that point? The course belongs to the Curriculum Committee. A discussion ensued. J. Hamilton said that we should look for the commonality. What are the goals that we are trying to reach for the students? These are our guiding principles when we are seeking solutions. Guiding principles may keep the courses from the stage of the Curriculum Committee having to take a course over.

   M. Adams said that he liked the idea of a subcommittee to work on the Curriculum Review Process. It was decided that some members of the subcommittee who worked to come up with the recent justification forms will meet to work on the curriculum review process. The subcommittee will work to come to a conclusion on the process and bring the results to the next Curriculum Committee meeting. B. Adams will schedule a meeting with the interested members.

1. **Curriculum Committee Goals**

   B. Adams

   Postponed definitely to February 3 meeting.
2. **DANCE/THETR/PE Crosswalk**
   B. Adams/M. Lynch
   B. Adams reported that the DANCE prefix was approved February 4, 2014. A crosswalk has been provided that shows the conversion of the THETR and PE courses that will be converted to DANCE in CurricUNET and other systems.

   **M/S/U (E. Lucas, S. Circle) to approve the DANCE/THETR/PE crosswalk effective summer 2016.**

**Informational Items**

1. **ASCCC Disciplines List**
   B. Adams
   The 2014 disciplines list has been posted and is a little bit different. It especially affects non-credit courses. B. Adams noted that there are a few new discipline modifications.

Course Activity Report

Hearing no objections, the committee was notified of the following corrections to the record.

CHEM 122  Structure and Reactivity: Organic Chemistry 1
CCCO Proposal Type: Not applicable
Effective: summer 2015

MODIFY Content
Rationale: Course was conditionally approved by C-ID reviewers, with following comment: “Course descriptor for C-ID 160 explicitly requires multi-step synthesis which is not addressed in either COR.” Content has been modified to include reference to multi-step synthesis so course may be resubmitted for C-ID approval.

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows: (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.

ART 120 pulled for discussion by M. Adams due to concerns with the methods of instruction. B. Adams opened the course up in CurricUNET. M. Adams noted that the methods of instruction do not show that they are instructor led. The committee, with the approval of R. Stevenson, faculty author of the course, made revisions. "Instructor led in-class" was added to the last methods of instruction. R. Stevenson noted that he needs institutions to know that he is working with his students while they are drawing or he will have articulation issues.

S. Berger was concerned with the course learning outcomes (CLOs) and the usage of "demonstrate ability to." B. Adams noted that the committee will not hold up a course if revisions are needed for the course learning outcomes. The course learning outcomes are always reviewed by K. Ennis or E. Kerr and revisions are requested if needed when the CLOs go to the Outcomes Assessment Workgroup for final approval.

ART 121 pulled for discussion by M. Adams due to concerns with the methods of instruction.

The committee revised the one of the methods of instruction to say, “Instructor led.”

S. Berger was concerned with the objectives. The objectives say, “Demonstrate an awareness of.”

R. Stevenson didn’t think this was too much of an issue. He reported that he needs on the outline in each area, in order for the CSUs to understand that there is historical and contemporary content in the lab objectives, lecture objects, lab content and the lecture content. These items need to be specifically on the outline. Awareness seems to be the best fit. R. Stevenson read aloud the CID language for this course. S. Berger added that this issue wasn’t a huge stickler for her. The committee agreed to leave the information listed in the objectives as is.

HIST 193 pulled for discussion by P. Mendez. He wanted to give the faculty author a chance to
talk about what changes have occurred since the course last came through the Curriculum
Committee for approval. B. Newell reported that he took into consideration all of the suggestions
that the committee gave at the November 4, 2014 meeting. The course was edited to be 2 units.
The variables were removed. It was noted that a 1 unit HIST 191 course could also be created to
accommodate interested History faculty. The committee determined it would be advantageous to
modify the course number from HIST 193 to HIST 192 to align with a 2 unit value for the
sequencing of the independent studies. B. Newell noted that assignments were modified to not be
so prescriptive. The ART independent study courses that came through recently were also
discussed as a model for this course. B. Newell noted that E. Kerr was mostly concerned about the
word “history” being used for the course learning outcomes. He added that the course learning
outcomes are specific to history. B. Newell thanked B. Adams and R. Cranley for their support with
the course revisions. The committee commended Mr. Newell for his work on revisions to the
course.

PHOTOGRAPHY PROGRAM
AA DEGREE: Photography  
MODIFY required courses, elective courses  
Effective: summer 2015  
Rationale: The Photography degree is being updated to reflect both the addition of a new course, and the inactivation of several courses. Art 192 was recently accepted by the curriculum committee, and is meant to replace Art 178. Art 102/CMPGR 202 and Art 169 have been added to keep up with current Photography curriculum at CSU's and UC's. Art 161, Art 178, CPG 221and JRNL 146 have been inactivated, so they have been removed. Art 164 was deemed not sufficiently relevant for Photography majors. Art 160 is being removed because CSU and UC transfer students will not gain credit within their major. This course is requesting an expedited status. Art 192 was very recently accepted by this committee, and is the new capstone course after the inactivation of Art 178.

Pulled for discussion by M. Garcia due to concerns with the total unit value. M. Garcia noted that the total units should actually be a range of 20-21.

B. Adams fixed this in CurricUNET.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams

B. Adams reported that a memo from the Chancellor’s office came through on January 28, 2015. The memo discusses an update on C-ID verification for ADTs. The CCCCO memo states that in light of the challenges that continue to hinder the review and approval of courses in C-ID, the CCCCO will not be deactivating previously approved ADTs that include courses without a C-ID state of “Approved” by June 30, 2015. However, effective July 1, 2015, all ADT proposals (new, substantial and nonsubstantial change), submitted to the CCCCO for review must:

- Have a C-ID status of “Approved” for all courses entered on a TMC Template where a C-ID descriptor is listed. That is, any course listed on a TMC Template next to a C-ID descriptor in the Required Core, List A, List B, or List C sections, must appear in C-ID.net with an “Approved” status for that descriptor. One exception is that if the TMC Template indicates that an ASSIST Articulation Agreement by Major (AAM) is accepted in addition to the C-ID descriptor, then a valid AAM will be accepted in lieu of the “Approved” C-ID status, and
- Include all the correct required attachments (Narrative, Template, Course Outline of Records, if applicable: ASSIST Reports, Advisory Board Minutes, Labor Market information and all attachments must include the required information).

R. Cranley reported that we have 21 ADTs currently. These will “not” be deactivated because they have been approved. Between now and July 1, 2015 we can submit other ADTs and then they too will have either, approved, conditional approval, submitted, in-progress, or resubmitted. If we submit any ADT after July 1, 2015, then the ADT proposals submitted for review must follow the guidelines listed in the bullets above.

R. Cranley presented a table that dissected the January 28, 2015 Chancellor’s office memo. The table listed the following information:

<table>
<thead>
<tr>
<th>Old memo from May 20, 2014</th>
<th>All CCCCO approved ADTs (MJC has 21 ADTs) must contain CIDs with an “Approved” status or the courses and associate degrees would be deactivated. Note: this memo extended the deadline from June 30, 2014 to June 30, 2015.</th>
</tr>
</thead>
<tbody>
<tr>
<td>New memo from January 28, 2015</td>
<td>Change: The CCCCO will not be deactivating previously approved ADTs (MJC has 21 ADTs) that include courses without a C-ID status of “Approved” by June 30, 2015. California Community Colleges (CCCs) may continue to submit ADT proposals where courses with C-ID descriptors in the Required Core and List A reflect any of the following C-ID statuses: Approved, Conditional Approval, Submitted, In-Progress, or Resubmitted.</td>
</tr>
<tr>
<td>Changes between the two memos:</td>
<td>• Expanded the CID status list from one “Approved” to six possibilities without having our CCCCO currently approved ADTs deactivated.</td>
</tr>
<tr>
<td></td>
<td>• Community Colleges have between now and June 30, 2015 to submit ADTs to the CCCCO containing the six CID statuses: Approved, Conditional Approval, Submitted, In-Progress, or Resubmitted in the Required Core and List A section.</td>
</tr>
<tr>
<td></td>
<td>• Effective July 1, 2015, all ADTs proposals (new, substantial and non-substantial change), submitted to the CCCCO for review must have a C-ID status of “Approved” for all courses entered on a TMC Template where a C-ID descriptor is listed. That is, any course listed on a TMC Template next to a C-ID descriptor in the Required Core, List A, List B, or List C sections, must appear in C-ID.net with an “Approved” status for that descriptor (no other status allowed).</td>
</tr>
<tr>
<td></td>
<td>• Note: I did not see any mention of a new deadline for deactivation of courses or associate degrees in the January 28, 2015 memo.</td>
</tr>
<tr>
<td></td>
<td>• Bullet number 3 affects how we do business at MJC. If there are changes to any of our local ADTS due to deactivation of courses or adding new courses, it would serve us to submit and receive Chancellor’s approval prior to June 30, 2015 or be held to the CID rule of “approved” status.</td>
</tr>
</tbody>
</table>
B. Adams reported that she plans to work with H. Townsend and R. Cranley on an audit of the current ADT templates. H. Townsend will print out all of the currently approved ADTs. She will then print out the newly revised or most current template from the CCCCO. We will have to figure out what has C-ID that maybe didn’t have it before. This will need to be done for all of the ADTs.

2. **C-ID/CCCCO January 28, 2015 MEMO**
   
   R. Cranley
   
   See discussion notes above. R. Cranley reported that the approved number of C-IDs is now at 149.

3. **CurricUNET Implementation/Issues**
   
   B. Adams
   
   B. Adams reported that she is still waiting for “activities” to be added to the Word report.
   
   B. Adams reported that eLumen came to the District and gave an informational presentation on their assessment management software. The software, if approved, will replace CurricUNET for assessment and program review. Curriculum is not a piece that is complete with it yet but it sounds like this may be one of their selling points. S. Circle added that eLumen needs to have curriculum experts as part of the process.

4. **Outcomes Assessment Workgroup (OAW)**
   
   K. Ennis/E. Kerr
   
   H. Townsend reported that the OAW will be meeting Friday, February 6, 2015. An Assessment Workshop will be held on February 6, 2015 from 9-12:30 in Founders Hall 111.

5. **AB 86 and SB1070 Legislation**
   
   P. Mendez
   
   P. Mendez reported that he is presenting information to the Academic Senate on AB 86 this Thursday, February 5, 2015. The information is flowing in terms of the Governor’s budget. P. Mendez reported that there are two important pieces of information to provide:
   
   1. The importance of adult education and a development of a strategy in our communities to respond to adult that needs continuing education.
   2. The Consortium is supporting faculty to be part of the table talks. A faculty member can make up to $35 hourly for their time. Contact mendezp@mjc.edu for more information.
X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process

   B. Adams reminded the committee that at the last meeting, a subcommittee was developed to discuss what to do when a course comes through the committee for approval but is not approved and it’s about to go out of compliance or is at a standstill. M. Adams reported that it was pretty quick and easy to come up with ideas because the group was small. One of the ideas has to do with the process of a non-compliant course being allowed to go through some revisions in attempt to reach an agreement between the discipline faculty and the Curriculum Committee. M. Adams said that there has to be an off ramp eventually. The subcommittee proposal is to send the course to a Senate taskforce, if two semesters have elapsed since the course revisions began.

   C. Martin reported that M. Adams approached the Academic Senate Executive Board the previous Thursday to discuss the curriculum review process and the idea of having a Senate taskforce. C. Martin said that the Academic Senate Executive Board collectively has discomfort with the Curriculum Committee creating a separate taskforce. C. Martin reported that by code, the Curriculum Committee is the ultimate authority of all curriculum at Modesto Junior College. He understands why the review process is being created but the faith has always been placed in the Curriculum Committee to make a final decision on curriculum. Decisions on curriculum, made by the Curriculum Committee should stand. Not all of the decisions are the best decisions but we live with them. To start bypassing a current process opens up a chance for anyone to bypass the Curriculum Committee and head straight to an appeals committee.

   M. Adams said that not having a taskforce is a disservice to the appeal process. We have appeals courts in the United States and that doesn’t make the initial court irrelevant. M. Adams said that it’s not a reasonable description to say that it’s wrong to have an appeal to a decision. He said it’s wrong to say that you can’t appeal. The taskforce will only be needed in exceptional circumstances. You need a third part to be neutral to resolve a dispute. C. Martin said that whatever process is written, it should be solid enough that you can do all business within the Curriculum Committee.

   P. Mendez is concerned with having an additional committee other than the Curriculum Committee when it comes to making curriculum decisions. He asked why the Curriculum Committee would even need to exist, if the decisions are not made here. C. Mulder added that she was concerned with a taskforce that may not have curriculum experience or expertise. E. Lucas is concerned with making decisions or revisions to a course that is not in her area. Shouldn’t the course go back to the representative to work with the faculty author on revisions because they are the ones who have an expertise in the discipline area?

   C. Mulder said that this discussion is really about courses that come through with high-unit values. She used M. Adams as an example because of the recent MATH courses that were pulled from a previous meeting for revisions. C. Mulder said that in M. Adams’ case, he has gone back to the faculty, but M. Adams philosophically feels very strongly that the Math classes need to be at 5 units. Why ask him to go back to talk to his faculty, when they are on the same page in regards to the unit value. C. Mulder stated that the Curriculum Committee needs to be absolutely clear and not approve the class unless it is 4 units and/or not tie us up with approval of the C-ID.

   M. Adams said that it’s a little disturbing that the Curriculum Committee is making policy for the College, and C. Martin does not want the Academic Senate to weigh in. C. Martin replied that if there is a policy change, the Academic Senate would look into it but would not weigh in on the subject of curriculum issues because that is the responsibility of the Curriculum Committee. M. Adams said that policy should not reside in the Curriculum Committee. B. Adams said that we have to figure out what process we need to follow that keeps the curriculum train moving. It is our responsibility to make the policy and follow it. The Curriculum Committee is the final stamp of approval.

   M. Adams said that when the Math courses were recently rejected, he had asked the committee what rule or policy was being violated. He said there isn’t a policy, and it concerns him that a committee who has a job to implement policy is also creating it. Major polices of this kind should not be made out of the spotlight. They should be made at a
college level with discussion at the college level with the Academic Senate. C. Mulder said that were not making policy. The C-ID is affecting the unit values. When C. Mulder voted against the Math courses, it was based on the C-ID issues. R. Cripe said that we need to do more to give the faculty reasons as to why the course is being rejected. This will give the faculty a chance to fix the issues. He believes that the committee needs to a better job to give faculty, whose courses have been rejected, more direction.

H. Duarte added that he’s seen more students in the last 4 years go somewhere else for Math and English. He said it hasn’t been happening to any other courses. Students go to Delta for Math and Merced for English. He said that if he was in either of these two departments, he would want to research what he was doing and why students are going elsewhere. These courses need to be as close to the C-ID as possible. Students should not be going anywhere else for Math and English classes.

B. Adams stated that the committee still needs to figure out a process when we are at a standstill with courses. She asked that the representatives talk to their colleagues about this process. She will also put a question on the listserv to see if others are having issues with courses that are at a standstill.

C CCCO Proposal Type: Non-Substantial Change  

Effective: Fall 2015 ** Expedited  

**Rationale for Expedited Approval:** Originally the idea was to request a DE Addendum before the cutoff date for fall 2015 approval, but because this course needed to be updated to remain compliant before requesting a DE addendum, and because of the Curriculum Committee's hold on 5 unit courses, the Department decided to wait to pursue a DE addendum. However, now that the CC Course Justification Proposal Form has been approved and can be completed if needed, we wish to pursue expedited approval of this course in order to pilot a hybrid course next fall before adding other hybrids to their course offerings in order to modify future hybrid courses as needed. 

**MODIFY Field trip policy, DE modalities, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks**  

**Rationale:** The ESL Department was granted an extension on our 5-year review cycle, and we are currently taking the 2014-2015 year to research other community college ESL programs, complete site visits, and revise the entire Academic Credit ESL Program in order to better meet the needs of our students. We plan to work on course revisions during spring and summer 2015 with the goal of submitting courses to Curriculum Committee at the beginning of fall 2015. In addition, we have decided to add hybrid offerings at our highest levels. Although we will be revising all ESL courses next spring/summer, as well as decreasing the number of units, we wish to keep ESL 47 at 5 units for the current time and request expedited approval in order to pilot a hybrid course. Otherwise, we cannot offer it as a hybrid until fall 2016. (Please note that we are planning to reduce the number of units in all of our courses from 5 to 4 or 3 when we complete major course revisions next spring/summer. It should also be noted that even if this course is not approved for DE next fall, it will remain at 5 units regardless until fall 2016.) Jillian Daly, Dean of Lit/Lang, has also expressed her support for requesting an expedited update and DE approval of this course.

Effective: Summer 2016

MODIFY Title, outcomes, objectives, content, methods of instruction, textbooks

Rationale: Periodic review, with minor modifications to content, methods of instruction, and objectives. Course title has been modified and textbook has also been updated.

I would like to change the title from "The Constitution and Rights of Americans" to "The Constitution and Rights of Persons." One reason is that when discussing our rights, the U.S. Constitution uses the word "persons" many times. However, the Constitution actually does not speak of "Americans" or "the rights of Americans." In addition, there are important constitutional questions that relate to people who are not U.S. citizens (e.g., the rights of undocumented persons, the rights of suspected foreign terrorists, and the rights of the unborn.)

POLSC 196 pulled for discussion by C. Mulder expressing concerns that the course looked more like an independent study course because of the proposed hours. B. Adams noted that POLSC 196 has POLSC 195 as a corequisite. The student is out with an agency as an intern in POLSC 196 but then comes back to discuss in POLSC 195. B. Adams noted that it seemed reasonable to have the 1 unit POLSC 196 class because the student then comes back to report out in the 1 unit POLSC 195 class.

CCCCO Proposal Type: Non-Substantial Change
Effective: Summer 2015 Expedited
Rationale for Expedited Approval: Currently, the course is offered only once a year and has never been taught during a summer semester. We are attempting different semesters and types of offerings to meet enrollment demands. The hybrid format will allow flexibility for students attempting some of our other one-unit courses this summer.

MODIFY DE modalities only
Rationale: We are attempting to teach the course in a new hybrid format for the summer 2015 semester to be more creative in our offerings. This will allow for some course content to be delivered more flexibly for the student.

**MODIFY**: AUTOBODY PROGRAM
- **AS**: Autobody/Refinishing
- **Required courses, total units**: 22 (previously 30)
- **Effective**: Upon CCCCO Approval
- **Rationale**: This program is being revised to account for changes in unit values to required courses. AUBDY 301, 302, 321 and 322 have been approved by the Curriculum Committee with the unit value changes.
- **M/S/U (M. LYNCH, R. CRIPE) to MODIFY AS: AUTOBODY/REFINISHING**

**MODIFY**: AUTOBODY PROGRAM
- **CERT**: Autobody/Collision Repair
- **Required courses, total units**: 19 (previously 23)
- **Effective**: Upon CCCCO Approval
- **Rationale**: This program is being modified due to the removal of MATH 20, AUTEC 311 and the inactivation of AUBDY 115.
- **M/S/U (M. LYNCH, R. CRIPE) to MODIFY CERT: AUTOBODY/COLLISION REPAIR**

**MODIFY**: THEATRE PROGRAM
- **A.A.-T**: Theatre Arts

INACTIVATIONS

**INACTIVATE**: A.A. University Preparation, Emphasis in Liberal Studies
- **Effective**: Summer 2015
- **Rationale**: The program is being inactivated because the ADT in Elementary Teacher Education has been approved and active in the Chancellor's Office Inventory. In addition, with course inactivations and other actions, there are no longer any courses listed in the activities requirement. The ADT in Elementary Teacher Education will facilitate student transfer to a CSU for teacher preparation.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams reported that Modesto Junior College is currently at 105% for the ADT target goal according to the Final 2014 Count of the Associate Degree for Transfer (ADT) in the CCC Curriculum Inventory document provided by Board of Governors. The Computer Science ADT has been recertified but still needs to be submitted by June 30, 2015. The majority of colleges listed on the document have met their ADT target goal.

2. C-ID R. Cranley

R. Cranley reported that HIST 101 and CLDDV 129 were approved for C-ID. One of the Art courses was denied, and R. Stevenson is working on revisions currently. The February 2015 C-ID Excel sheet for C-ID course status and Newsletter was discussed and can be viewed at the following links:

- Excel Sheet
- Newsletter

R. Cranley reported at the last Curriculum Committee meeting that C-ID email notification alerts were not being received. A ticket was issued to get this fixed. The C-ID email alerts are now working.

A general call has gone out for the need of faculty reviewers in the following disciplines:

- Communication Studies
- Psychology
- Sociology

Faculty members from these disciplines are encouraged to review and respond to proposed changes. Minor changes were made to many of the descriptors that will not require resubmission of courses.

3. CurricUNET Implementation/Issues B. Adams

B. Adams reported that the ticket she put in for the request to have Activities displayed on the Word Report is still in progress but is almost complete. H. Townsend reported that she has three tickets in to Governet and they are all still pending.

4. Outcomes Assessment Workgroup (OAW) K. Ennis/E. Kerr

E. Kerr reported that OAW met on February 6, 2015 to discuss and/or approve course learning outcomes. An assessment workshop was held the morning of February 6, 2015 in Founder’s Hall. The workshop was very productive. Four departments were able to complete their program learning outcomes, institutional leaning outcomes, and general education learning outcomes assessments (PLOs/ILOs/GELOs). The proposed assessment software, eLumen, is still being discussed and has not yet been approved.

5. AB 86 and SB1070 Legislation P. Mendez

C. Martin reported that P. Mendez came to the Academic Senate last week and gave a very informative presentation on AB 86 and SB1070.

X. UNFINISHED BUSINESS

Action Items

1. Request to Change ESL Prefix to ELIC (English Language Instruction for College) S. Berger

S. Berger gave an informative presentation on the request to change the ESL (English as a second language) prefix to ELIC (English Language Instruction for College). The Curriculum Review Matrix shows that ESL was up for review in
fall 2014. The department had requested an extension because there has been discussion about revising the entire ESL program. The ESL department, after research and lengthy discussion, are requesting that ESL be changed to ELIC. S. Berger noted that the requested change is because of a few reasons:

1. The ESL prefix was running out of numbers.
2. The new name better reflects the intent of the department (English is usually the third or fourth language for most of the students).
3. Most students don’t want to take ESL. They want to go right into English because they have already taken ESL in high school.

S. Berger noted that the current ESL pathway can take 6 to 7 semesters or more to complete before the student reaches ENGL 50. With the proposed pathway, a student will take 4 semesters and reach ENGL 101. Terms will be reduced for the reading and writing sequence to 7 weeks. This will help to increase retention and success rates.

R. Cranley asked if a new assessment tool will need to be developed with these requested changes. A discussion ensued. H. Duarte noted that when a student takes the assessment test there are specific questions that will divert a student to ESL automatically. H. Duarte was mostly concerned with the ENGL 49 exit exam. S. Berger noted that the ELIC department would be working with English in discussing norming and procedures. S. Berger noted that the final R/W course will be a prerequisite to English 101, not an ESL equivalent to English 50.

R. Cripe wanted to know if the requested change has been advertised to other colleges so that students can be made aware because most students know ESL but do not know ELIC. S. Berger reported that the course outlines still need to be created and submitted before the change is advertised. C. Martin was concerned about students who are already involved in the current ESL pathway. S. Berger reported that the department will discuss the need to review and resolve current student placement.

The full ELIC presentation can be viewed at the following link:

http://www.mjc.edu/governance/curriculum/documents/esl_to_elic_ppt.pptx

M/S/U (E. MAKI, C. MULDER) to approve the request to change the ESL prefix to ELIC

2. Curriculum Review Process

B. Adams noted that the review process was discussed at the last Curriculum Committee meeting. She reported that C. Martin, at the last meeting, stated the executive of the Academic Senate will not get involved in the curriculum review process. It is the charge of the Curriculum Committee to figure out what the process will be when a course has not been approved by the committee and is at a standstill. C. Mulder spoke with several people on the committee and outside the committee to find a resolution on what needs to be done when a course is at a standstill. She proposed that the discipline faculty should either follow the C-ID or transfer institution.

M. Morales added that a resolution needs to be met or nothing will ever get done. He said that C. Mulder’s motion gives us an ample opportunity to look at the C-ID or a feeder school. A discussion ensued regarding which transfer institution would be used and if C-ID is chosen. Would the units have to also match the C-ID units? C. Mulder clarified that the transfer institution would be based upon the highest rate of transfer. If C-ID was chosen then the units would also have to match the C-ID unit value. M. Adams argued that C-ID does not contain enough information to make a Course Outline of Record (COR). He asked why a third option to include typical community college statistics is not included in the motion. M. Adams urged that the committee vote against the motion because it is incomplete and ill-advised and not enough time has been given to the committee to think about the implications of the motion. M. Mulder argued that the C-ID does contain enough information to be used as a choice. The C-ID contains typical textbooks, typical methods of instruction, and prerequisites. She said that it may not have all of the details like a COR but it is pretty similar.
B. Adams noted that if the motion passed, we would still need to work out what would need to be done in terms of non-transferrable courses. M. Adams said that the C-ID descriptor does not contain how units are broken down.

M. Adams said that this is a major debate and postponing to the next meeting will not hurt anything. M. Uliana asked M. Adams if he had an alternate idea. M. Adams said that an alternate idea was proposed at the last meeting. It was proposed that if a course is at a standstill then the course would go to a taskforce who would decide what needs to be done to get the course moved along.

E. Maki asked for clarification on the determined transfer institution. He asked how the determination is made. R. Cranley said that the justification form outlines the transfer institutions. The justification form is based on total transfers regardless of the major.

M. Morales said that the motion does not need to be postponed. He added that we have had months of discussion on this. He said that we need to make progress and move forward. M. Adams said that we are not even really sure of what we are talking about and this gives more reason to postpone the motion.

M. Morales reported transfer statistics. He reported that the majority of Modesto Junior College students transfer to CSU Stanislaus. E. Maki asked about math majors. He wanted to know if the math department would have to report CSU Stanislaus as the transfer institution because that is where most of the Modesto Junior College students go or could they pick a school such as Cal Poly if that is where 100% of the math majors go? C. Mulder said that it cannot be by major and it needs to be by whole numbers statistically. All transfer students take math and most of our students go to CSU Stanislaus. M. Adams reported that all transfer students do take math but the majority do not take calculus.

Discussion ensued regarding the two semester timeline for a course that has come through the committee but has not been approved. M. Adams said that a third neutral party is needed. He said that the math courses were inappropriately blocked. He said that it is unfair to hold math to the two semester matrix deadline. B. Adams noted that math is an extenuating circumstance. L. Hatch noted that it has been two years of discussion for this particular issue. She said that there is no resolution, if one side feels like they are losing. She said that it is time that the Curriculum Committee as a body, make a decision on this issue. E. Kerr concurred. H. Duarte said that we need to do what is best for students.

The committee discussed the math courses. B. Adams said that it would probably not be fair to hold math to the two semester guideline from the date that they were scheduled on the matrix since it has been a lengthy process to create the review process. C. Martin said that because a motion was passed today, math should be allowed to have two semesters from today’s meeting to either follow C-ID or CSU Stanislaus. M. Morales noted that it has been a long process when it comes to working on the math courses. He believed that waiting two more semesters before math comes through again is a long time. M. Adams added that the math department intends to fully address the math courses that affect computer science by the end of the spring semester. He said that in terms of the basic skills courses, those may take a little longer than the spring semester to address.

M/S/FAILED (M. Adams, M. Lynch) to definitely postpone the motion until the next Curriculum Committee meeting.

Motion Failed:
4 AYES (E. Maki, M. Lynch, M. Adams, C. Vaughn)
9 NAYS (M. Morales, S. Berger, L. Hatch, E. Kerr, C. Mulder, H. Duarte, R. Cripe, M. Uliana, R. Cranley)
0 ABSTENTIONS
M/S/C (C. MULDER, M. MORALES) If a course has come before the Curriculum Committee and has then gone back and forth, if after two semesters from the date the course was originally scheduled on the Curriculum Review Matrix, if the course has still not been approved by the committee and all other means have been satisfied through the curriculum review process, then the discipline faculty will either follow the C-ID or CSU Stanislaus.

Motion Passed:
2 NAYS (M. Adams, C. Vaughn)
0 ABSTENTIONS

M/S/C (M. Lynch, C. Mulder) to direct the math department to align their courses with C-ID or CSU Stanislaus within 2 full semesters from today, February 17, 2015.

Motion Passed:
0 NAYS
5 ABSTENTIONS (M. Morales, R. Cripe, H. Duarte, L. Hatch, M. Uliana)

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Goals B. Adams
   Postponed definitely to March 3, 2015 meeting.

2. Distance Education Only Proposals – Effective Dates B. Adams/S. Kincade
   Postponed definitely to March 3, 2015 meeting.

Informational Items

1. Math Assessment Results M. Adams

M. Morales, at a previous meeting (12/2/2014), had asked the math department about student success data for students taking Math 70 and moving up to Math 90 compared to a student who assessed in to MATH 90. M. Adams noted that R. McKenzie sent an email to the Curriculum Committee members with an answer. M. McKenzie in an email said, “No, there is no difference.” M. Morales noted that he responded back to R. McKenzie asking for a direct answer with specific numbers.

XII. PUBLIC COMMENT

M/S/U (E. MAKI, R. CRIPE) to adjourn at 5:10 PM

Members Absent: M. Boyd, H. Duarte, K. Ennis, L. Hatch, M. Lynch, C. Martin (Co-chair), M. Robles, C. Vaughn, M. Zepeda (ASMJC)

Others Present: K. Addington (Administrative Technician), T. Huffman (Heald College), J. Hughes (Evaluator), H. Townsend (Accreditation/Assessment Process Specialist)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of agenda was approved as stated.

II. APPROVAL OF MINUTES February 17, 2015

Hearing no objections, the minutes of February 17, 2015 were approved with corrections.

S. Berger noted that her statement listed in the February 17, 2015 meeting was incorrect. She wanted the minutes revised to say the following:

S. Berger noted that the ELIC department would be working with English in discussing norming and procedures. S. Berger noted that the final R/W course will be a prerequisite to English 101, not an ESL equivalent to English 50.

III. COURSE NOTIFICATION AGENDA

Hearing no objections, the committee was notified of the following CCCC0 course approvals.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved:

It was discovered that the ADJU department does not need to collect a materials fee for Livescan or the required Department of Justice Form. Students will acquire the Livescan at the location of their choice and pick up the Department of Justice form from our YCCD Security Office. This change was implemented in Datatel for spring 2014 but not corrected in CurricUNET.

ADJU 215  Introduction to Firearms  3
Proposed Effective Term: Spring 2014 Expedited
Rationale for Expedited Approval: This does not affect Datatel as the Datatel database is correct. The edit to the materials fee only needs to be fixed in CurricUNET. The currently active course was approved effective spring 2014.
MODIFY Removing: Materials fee
Rationale: Course was approved at the 1/21/2014 meeting for a removal of the materials fee. The course was still showing a materials fee in CurricUNET but not in Datatel. H. Townsend removed the materials fee in CNET. The course appears here for the purpose of the record.

ADJU 216  Advanced Firearms and Range Application  3
Proposed Effective Term: Spring 2014 Expedited
Rationale for Expedited Approval: This does not affect Datatel as the Datatel database is correct. The edit to the materials fee only needs to be fixed in CurricUNET. The currently active course was approved effective spring 2014.
MODIFY Removing: Materials fee
Rationale: Course was approved at the 1/21/2014 meeting for a removal of the materials fee. The course was still showing a materials fee in CurricUNET but not in Datatel. H. Townsend removed the materials fee in CNET. The course appears here for the purpose of the record.

The PE division inadvertently left the "Coaching" discipline off all of the PEVW and PEVM courses when they were submitted to the committee for review and approval. These courses should be assigned to both PE and Coaching disciplines; this is common practice among community colleges as it allows for qualified coaches without a Masters in Physical Education to coach. This applies to the following courses effective summer 2015:

PEVM 100  PEVW 100
PEVM 101XABC  PEVW 100
PEVM 105  PEVW 101

**Rationale:** This course needs to be updated with correct number of lecture units/hours to follow Carnegie unit values.

**Enrollment Restrictions:**
- Removing: (L) Before enrolling in this course, students are strongly advised to $32 to purchase the Dept. of Justice Form from the Security Office at Modesto Junior College, and $25 for the cost of fingerprints. (L) Enrollment limited to LENF 388. This course is restricted under state and federal laws. Also, please see attached sheet. Refer to California Penal Code Sections. Maintaining: (P) Satisfactory completion of ADJU 215. Requesting: (L) Enrollment limited to students who have submitted a Live Scan Application to the State of California Department of Justice for fingerprint clearance. This course is restricted under California Penal Code Section 12021, course requires handling and possessing of firearms. Convicted felons, persons addicted to any narcotic or convicted of any offense involving the violent use of a firearm are not allowed to enroll in the course based on Penal Code Section 12021. Students are required to pass clearance from Dept. of Justice before they may legally handle firearms.

ADJU 219 pulled for discussion by S. Circle expressing concern with the increase in units from 1.5 to 3. B. Adams referred to the Course Compare Report pointing to the increase in class hours from 45 units of class time to 54. P. Mendez questioned the change of Lecture/Lab to Lecture only. Discussion ensued, no changes were made to ADJU 219.

Effective: Upon CCCCO Approval  
**REACTIVATE/MODIFY** Discipline, number, units, enrollment restrictions, hours, field trip policy, grading policy, description, outcomes, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

**Rationale:** This course is being proposed in order to parallel other divisions’ and departments’ past, present, and future efforts to institutionalize positive changes in MJC’s learning environment arising from STEM grant monies. Title V requires that, in order to gain positive attendance for tutoring, MJC’s tutors be trained in a General Tutoring class. MJC’s Library & Learning Center recently reduced its original TUTOR 50 class of two units down to a one unit TUTOR 100 class with the plan that individual divisions and departments might develop one-unit, subject-matter specific Tutor courses. MJC’s Literature and Language Arts wants to spearhead this effort for its Writing Center. 2. Due to pulled funding, Literature and Language Arts no longer has a faculty liaison for the Writing Center to train tutors; TUTOR 110 is designed so that our Writing Center can maintain its history of providing quality writing assistance to MJC students across the curriculum.

**Enrollment Restrictions:** Requesting: (P) Satisfactory completion of ENGL 101. Requesting: (C) Concurrent enrollment in or satisfactory completion of TUTOR 100.

B. Adams noted that PHILO 101 is asking for a spring 2015 effective date. The spring semester started January 2015. A discussion ensued regarding Board of Trustees action on a course that is asking to start later in the semester using the distance education mode. The committee discussed the viability of offering a late class through the delivery method of distance education.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer): ADT Status, SB 440  B. Adams

B. Adams announced that the CCCCO sent a memo on February 27, 2015 detailing the SB 440 ADT requirement. B. Adams reminded the committee of the upcoming June 30, 2015 deadline. She referred to the section of the memo where the following was stated:

“Regardless of the SB 440 requirement, all colleges are still required to create ADTs in every major and area of emphasis offered by that college for any TMCs approved after the 2013-14 academic year. Please note that CCCs have 18-months after the approved TMC Template is posted on the CCCCO website to create these ADTs. For more information refer to the above ADT Status link.”

S. Circle expressed concerns about the ADT deadlines. B. Adams referred to the ADT Status report for clarification of specific deadline concerns.

2. Articulation: C-ID, Executive Order 1100  R. Cranley

R. Cranley reported that we currently have 151 approved C-IDs. The C-ID Descriptors/Status of MJC Course Submissions Excel sheet can be viewed at the above C-ID link.

R. Cranley alerted the committee that the California Statue University Office of the Chancellor recently sent out Executive Order 1100. The order outlines the CSU General Education Breadth requirements. R. Cranley highlighted the effects to the community colleges of Executive Order 1100.

R. Cranley emailed the committee prior to the meeting. The e-mail detailed the following information in regards to Executive Order 1100:

- E.O.s (Executive Orders from the CSU dictate how they operate at their campuses. Many times, there is a trickle-down effect to the community colleges. The new Executive Order 1100 covers the following three topics which affects our transfer students. The phase-in is expected to take a year or two to implement.

1. Establishes a minimum grade of C for “Golden Four” courses in written communication, oral communication, critical thinking, quantitative reasoning, and math, so that grade requirements are now the same both for GE certification and for transfer admission eligibility

2. Phases out the use of “subareas” within Area D on the California State University – General Education (CSU-GE) which will be implemented when notified the system is fully in place.

3. Permits the delay of some lower-division GE until after transfer to the CSU, for community college students and who earn certain STEM Associate Degrees for Transfer. Note: At this point and time, the only ADTs that can use the CSU-GE STEM or IGETC-STEM are the Biology ADT and Chemistry ADT. MJC has neither at this time and the publication of the program was briefly discussed. B. Adams suggested it would put in an Addendum due to the time frames with the printed catalog.
3. CurricUNET Implementation/Issues

B. Adams reported that the ticket she put in for the request to have Activities displayed on the Word Report has been resolved. H. Townsend reported that the tickets she had in to Governet have been fixed.

4. Outcomes Assessment Workgroup (OAW)

K. Ennis/E. Kerr

E. Kerr reported that the Outcomes Assessment Workgroup (OAW) discussed Course Learning Outcomes (CLOs) for independent study courses and are looking at having instructors create one or two CLO’s for their individual course that reflect the actual independent studies being done. The next OAW meeting is scheduled for March 6, 2015.

5. AB 86 and SB1070 Legislation

P. Mendez

P. Mendez reported that the March 1, 2015 AB 86 Legislation Report has been submitted with little changes and can now be viewed on the State wide website at the following link:

http://ab86.cccco.edu/

Information was given on the 2015/2016 maintenance and efforts of K12 and Consortia resources during quarter 1 and 2. Statistics were given in the drop of adult services throughout California.

S. Circle voiced concern on the AB 86 legislation and the impact it would have on the English Department. She was especially concerned about ENGL 49 and ENGL 50 effects. S. Circle communicated extreme interest in being a part of the Consortium discussions.

P. Mendez expressed the importance of having more representation at the AB 86 table, such as Academic Senate members, Curriculum Committee members as well as English, Reading, Math, and CTE Instructors.

M. Adams conveyed concern that previous meetings were scheduled during normal faculty work hours. P. Mendez noted that he was aware and made known that future meetings will be listed on their website:

http://www.mjc.edu/instruction/teched/ab86consortium/ab86_meetings_resources.php

P. Mendez reported that they were waiting on the SB1070 (Pathway Development) Regional Director’s report.

**X. UNFINISHED BUSINESS**

**Action Items**

1. Curriculum Review Process

B. Adams

B. Adams noted that transferable courses were addressed at the last Curriculum Committee meeting, but non-transferable courses still needed to be addressed. R. Cripe added that there are three categories to be covered:

- transferable – which has been addressed
- non-Transferable, that is State & Federal certification or licencing
- everything else

**Informational Items**

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Goals
   B. Adams

   B. Adams proposed implementing an internal self-certification goal of completing additional ADTs, perhaps having three more ADTs completed by fall of 2015. J. Stearns expressed the State Chancellor’s Office highest priority is to meet the deadlines for ADTs. The committee agreed that setting internal goals would be beneficial in continuing progress on ADTs.

   M/S/U (M. ADAMS, E. MAKI) to implement a goal of having three more ADTs completed by fall of 2015.

2. Distance Education Only Proposals – Effective Dates
   B. Adams

   The committee discussed the effective date for DE only proposals. H. Townsend reported that DE only proposals do not effect catalog and is not reflected on the course outline which is reported to the CCCCO. DE is entered into Datatel by the Division Secretaries for scheduling. If a faculty member wants to offer the course through a distance education mode, the secretaries would be the only ones to know if the course can actually make the schedule regardless of when the Curriculum Committee approves the course for distance education.

   M/S/U (C. MULDER, E. KERR) for any DE only proposal, if approved at the Curriculum Committee meeting, the effective date is the date that it is approved at the meeting.

Informational Items

J. Stearns reported that two CCCCO representatives visited the campus on February 26, 2015 because of the recent approval of the MJC Respiratory Care four-year degree pilot. They toured Glacier Hall and were thrilled to see the facilities. She added that the State Chancellor Office representatives didn’t feel that there will be any push back from the CSU regarding our degree proposal.

J. Stearns also reported that the Board of Governors are concerned that some of our CSU colleagues have not come forward in support of the baccalaureate degrees and are working with everyone to get them to a place where they are comfortable in carrying out the Legislation indicating Community Colleges would have 15 Pilots. J. Stearns informed the committee that P. Bettencourt and herself will be attending the Board of Governors’ meeting on March 16, 2015. J. Stearns shared that we will be using our existing internal processes for the approval of the four-year Respiratory Care pilot, but our submittal to the State will be on paper.

MATH 172 Calculus: Second Course

CCCCO Proposal Type: Substantial Change

Effective: Summer 2015 Expedited

Rationale for Expedited Approval: Course was submitted before deadline for the summer 2015 effective date.

MODIFY: Units, hours, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills.

Rationale: Course is being updated to improve alignment with C-ID descriptor.

Enrollment Restrictions: Maintaining: (P) Satisfactory completion of MATH 171

Distance Education Status: (none)

Materials Fee Status: (none)

Articulation Status: Transfers to CSU and UC. (CC MATH 18B)

C-ID Status: Approved for: (C-ID MATH 220), (MATH 900S)

General Education Status: Maintaining: (MJC-GE: D2) (CSU-GE: B4). (IGETC: 2)

Program Impact:
- CSU General Education Pattern Certificate of Achievement
- Chemistry A.S. Univ Prep - Area of Emphasis
- Computer Science AS-T Degree. (in progress)
- Earth Sciences A.S. Univ Prep - Area of Emphasis
- General Studies, Emphasis in Language and Rationality A.A. Degree
- Geology AS-T Degree

M. Morales stated a point of order. Co-Chair B. Adams asked for point of order to be stated. Point of order was MATH 171 and MATH 172 should not be included on the agenda because it opposed the motion passed at the February 17, 2015 meeting. Point was declared “well taken” and the chair ruling was the courses should not have been on the agenda and should be removed from discussion.

Ruling of the chair was appealed by M. Adams. The appeal was not debatable, so vote was taken.

All in favor of M. Adams’ appeal:

3 AYES (M. Adams, B. Greene, S. Circle)

All opposed to M. Adams’ appeal:

10 NAYS (J Beebe, S. Berger, M. Morales, R. Cripe, M. Garcia, L. Hatch, E. Kerr, T. Guy, M. Uliana)

Any abstentions:

1 ABSTENTION (E. Maki)

Appeal fails.

NEW COURSES

FSCI 262

Fire Academy Physical Training 1

Effective: Upon CCCCO approval

ADOPT:

Rationale: Fire Academy students undergo physical training and assessment through each fire academy each morning. This course will provide proper identification of this physical preparation, education and training.

Enrollment Restrictions: Requesting: (C) FSCI 362 or FSCI 363

Distance Education Status: (none)

Materials Fee Status: (none)

Articulation Status: Transfers to CSU

General Education Status: Requesting: (MJC Activities)

Program Impact:
- Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable)

M/S/U (E. MAKI, J. BEEBE) to ADOPT FSCI 262

M. Garcia requested clarification on the activities and asked if others schools used this type of activity. R. Cripe responded that it is capturing the physical training that they do at beginning of the day. B. Adams: Added that Long Beach City College that theirs is a fire academy physical training and that it met the criteria of what we consider an activity course.

A.A.-T Anthropology 19-21 (previously 19-27)

**MODIFY:** List A requirements, total units

**Effective:** Upon CCCCO Approval

**Rationale:** This program is being modified to show the corrected units for MATH 134.

*M/S/U (J. BEEBE, L. HATCH) to MODIFY A.A.-T: ANTHROPOLOGY*

**MODIFY: BUSINESS ADMINISTRATION PROGRAM**

A.S.-T: Business Administration 27 (previously 29)

**MODIFY:** List A requirements, List B requirements, total units

**Effective:** Upon CCCCO Approval

**Rationale:** Award is being modified to reflect unit changes to MATH 134 course.

*M/S/U (J. BEEBE, L. HATCH) to MODIFY A.S.-T: BUSINESS ADMINISTRATION*

**MODIFY: KINESIOLOGY PROGRAM**

A.A.-T: Kinesiology 20 (previously 23-26)

**MODIFY:** List A, total units

**Effective:** Upon CCCCO Approval

**Rationale:** Award is being modified to reflect unit changes to MATH 134 course.

*M/S/U (J. BEEBE, L. HATCH) to MODIFY A.A.-T: KINESIOLOGY*
MODIFY:  PSYCHOLOGY PROGRAM
A.A.-T: Psychology 19-21 (previously 20-22)
MODIFY: Required core, total units
Effective: Upon CCCCO Approval
Rationale: The Psychology for Transfer degree is being updated because of a change in unit value for MATH 134. The required core is being reduced from 11 units to 10 units.
M/S/U (J. BEEBE, L. HATCH) to MODIFY A.A.-T: PSYCHOLOGY
M. Garcia questioned why it says 9-11 units. B. Adams explained with the evaluations and substitutions students' may come up short for the degree audit. It's an effort to build in this aspect of course substitution and the State has told us that we need to reciprocate.

MODIFY:  SOCIOLOGY PROGRAM
A.A.-T: Sociology 19 (previously 20)
MODIFY: Required core, total units
Effective: Upon CCCCO Approval
Rationale: This transfer degree is being updated because of change in unit value to MATH 134. Required core is now 10 units rather than 11 units.

Program Changes that do not require Chancellor's Office Notification/Application for Approval

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams reported that not much has happened since the last Curriculum Committee meeting. She has scheduled time with M. Boyd to start working on ADT’s and reminded the committee about the goal of having 3 more ADT’s by this fall semester. B. Adams also displayed the Associate Degree for Transfer Progress Report from the Chancellor’s Office website. The committee discussed the deadlines and expectations presented in the report.

2. Articulation: C-ID, C-ID Newsletter R. Cranley

B. Adams referred to the above links for updated information from R. Cranley. B. Adams highlighted from the C-ID Newsletter, updates about some of the faculty discipline review groups.

Faculty discipline review groups (FDRGs) have been formed for math, English, ESL, and reading disciplines and are currently reviewing CB21 rubrics.

The FDRGs for Communication Studies, Psychology, and Sociology have reviewed feedback on the proposed non-substantive changes to the discipline descriptors. The changes have all been accepted by the FDRG and the updated descriptors will be posted with the revisions from the 5-year review in the near future.

3. CurricUNET Implementation/Issues B. Adams

H. Townsend informed the committee that the MJC-GE area on the course outline has an issue. The MJC-GE area is showing CSU and IGETC information as well, and it should not. A ticket has been put in to Governet.
4. Outcomes Assessment Workgroup (OAW) K. Ennis/E. Kerr

E. Kerr reported that the next OAW meeting is scheduled April 17, 2015. The workgroup is ensuring that CLO statements and all assessments are up-to-date in the system. This will help the College in terms of readiness for the anticipated implementation of eLumen.

X. UNFINISHED BUSINESS

Action Items

   A. Narrative and Flowchart

   B. Adams referred to the above link for a drafted flowchart that shows the flow for a transferable course that is non-compliant. In terms of the chart, transferable was added. M. Morales noted that the flowchart was actually incorrect. B. Adams noted the flowchart will be updated. Extended discussion ensued on the motion made at the February 17, 2015 meeting and expectations of the committee. There was further discussion of lecture vs. lab modalities. Various committee members stated to Guest R. McKenzie the expectation was the MATH 171 and 172 courses would be resubmitted with alignment to C-ID or CSU, Stanislaus, and that both are lecture format.

   The conversation continued in regards to optional labs, and how other colleges incorporate lab options. The conversation also covered state requirements. B. Adams concluded that courses should continue to follow the current practice of reviewing individual courses outlines and making decisions based on their alignment to mission and academic integrity.

   J. Stearns expressed her appreciation for the conversation that was happening. She noted that some changes to C-ID’s were made because of the efforts of the discipline groups. The reality is that local curriculum is narrowing. The State Legislature has made numerous changes. We are being asked to serve our students in a new way. One of the realities of C-ID is unit values. She shared her appreciation for the committee for thinking attentively, critically, and in building procedures through the tough issues. She concluded that the Chancellor’s Office is looking very close at proposed courses and not approving courses that are non-conforming, and sequentially are behind.

   R. Cripe motioned that if a non-transferable course has a Federal or State regulation and there is a stalemate in regards to approval of the course and it cannot be resolved, it would defer to the Federal or State regulation.

   **M/S/U (R. CRIPE, M. GARCIA)** if a non-transferable course has a Federal or State regulation and there is a stalemate in regards to approval of the course and it cannot be resolved, it would defer to the Federal or State regulation.

### IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

The PE division noted that repeatability needs to be removed from all PEC courses effective summer 2015. We should not have any PEC courses that are repeatable because training and conditioning courses have been created and recently approved: The following PEC courses are still showing as repeatable and should be listed now as “Not repeatable” in all systems as well as the catalog effective summer 2015:

**LOGST 200**  
Introduction to Logistics  
Effective: Upon CCCCO approval  
ADOPT:  
Rationale: To meet industry demand for training in our economic region. Employment growth data for Stanislaus County shows this area to be a high demand. MJC is developing courses and awards for local residents.  
Enrollment Restrictions: (none)

(Recommendation: The department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable)  

_During blanket discussion C. Mulder_ noted an issue with the requisite skills and the comparable courses listed for LOGST 200. Discussion ensued. P. Mendez explained many of the CSUs don’t have specific vocational courses, but accept the vocational courses as credits toward completion of vocational awards. That is why the comparable course field listed CSU programs not specific courses. B. Adams stated a document of explanation in the Attached Files checklist in CNET would be helpful.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams reported no significant events/items have occurred since the last Curriculum Committee meeting. The Physics that are included on the Computer Science ADT are in the CNET approval stream and are proposed as 4 unit courses, which should enable us to complete the ADT for Computer Science and would also change the makeup of the Physics ADT.

2. Articulation: C-ID R. Cranley

R. Cranley reported that since the March 17, 2015 Curriculum Committee meeting there have been 4 additional C-ID decisions that came through. SOCIO 105 and NR 200 have been approved. SPAN 101 and MUSA 153 are conditionally approved. M. Garcia asked R. Cranley if SOCIO 105 could be used for the Nursing ADT and Sociology ADT as well. The TMC was displayed on the electronic board and it was noted that MATH 110 or SOCIO 105 can be used. The Chancellor’s Office Template (COT) has not yet been posted to the CCCCO website.

3. CurricUNET Implementation/Issues B. Adams

H. Townsend indicated that the drag and drop function has been fixed and there are no other issues at this time.
4. **Outcomes Assessment Workgroup (OAW)**
   
   E. Kerr reported that the next OAW meeting is scheduled for April 17, 2015.

5. **AB 86 and SB1070 Legislation**
   
   P. Mendez noted that there is no report for SB1070 Legislation. P. Mendez indicated we should receive the 2015/2016 AB86 allotment in December 2015 or January 2016. Efforts will be focused on implementation strategies in response to the gap in our community adult education.

XI. **NEW BUSINESS**

**Action Items**

1. **OAW Proposed Changes to Independent Study Proposal Form**
   
   E. Kerr pointed out that the Independent Study courses are unique to each individual instructor and student. Having generic Course Learning Outcomes (CLOs) wouldn't serve much of a purpose. The Outcomes Assessment Workgroup (OAW) has been working on updating the Independent Study to reflect OAW's concerns. E. Kerr requested the input of the Curriculum Committee on the proposed changes. It was decided to remove the word “successful” under the “Faculty Obligation” statement: “…evidence of successful completion of CLO’s.” It was also requested that the form be formatted to remain as a two page document rather than as a three page document as shown.

   **M/S/U (E. KERR, E. MAKI) to ACCEPT the INDEPENDENT STUDY PROPOSAL FORM with the changes noted.**

**Informational Items**

1. **Clarification of Intent**
   
   C. Martin provided the Curriculum Committee with the document titled as *Curriculum Review Process*. The document outlined the process that was approved at the 11/4/2014 meeting and the motion that was approved at the 2/17/2015 meeting. It was the common understanding of the committee that the motion was not retroactive and for course proposals that have gone back and forth from committee and author, if after two semesters from the date the course was originally scheduled on the Curriculum Review Matrix, if the course has still not been approved by the committee and all other means have been satisfied through the curriculum review process, then the discipline faculty will either follow the C-ID or CSU Stanislaus configuration. The math department was directed at the February 17, 2015 meeting to align their courses with C-ID or CSU Stanislaus within two full semesters from February 17, 2015.

   R. McKenzie noted that the Curriculum Committee needed a clear definition of Lecture and Lab. B. Adams indicated that an item will be added to the next agenda for discussion on lecture/lab guiding principles.
2. **Noncredit/Curriculum Regional Meetings**

   B. Adams noted that MJC had good representation at the Noncredit/Curriculum Regional Meeting held March 20, 2015 at Foothill College. The State Academic Senate’s presentation will continue to initiate informative discussions of the future impact of noncredit courses.

   C. Martin stated there will be many opportunities for noncredit curriculum and MJC should explore possibilities.

   J. Stearns mentioned that at the State level there is a lot of interest in noncredit curriculum. There is interest in having standardization between colleges and promoting the smooth transferring of students. J. Stearns indicated that we are still the least expensive delivery system for education in California.

SPAN 103 and SPAN 104 pulled as a block for discussion by M. Morales  

M. Morales questioned why SPAN 103 and SPAN 104 showed 5 units when the course outline didn't indicate any extra topics to warrant 5 units. B. Adams referred to the articulation worksheet that R. Cranley added to the course along with the attached related comments. Discussion ensued on course units related to State Universities. C. Martin pointed out that the State Academic Senate needs the Curriculum Committee to be clear on the process to match courses to the C-ID Descriptors or to Stanislaus State, requiring the Committee to look closely at proposed courses. C. Mulder pointed out that we also need to look at the transfer requirements.  

L. Manzo referred to the Course Justification Proposal they had submitted detailing the contact hours needed to become proficient in a foreign language. L. Manzo noted that foreign language students are different from regular students; they also have business professionals and students that just want to learn Spanish for career or personal reasons, not necessarily intending to transfer.  

C. Martin pointed out that at the State Academic Senate there is a lot of discussion regarding the interpretation of C-IDs. L. Hatch stated that as a college we need to use what limited resources we have to work within the perimeters and criteria of the State mandates. Transfer students can continue their education with what the college currently teaches, while students looking to be proficient in their careers or with family can continue learning through daily interaction. S. Berger pointed out that we have to look at each course individually. E. Maki noted that the responsibility when looking at a proposed course with requirements in transfer degrees, the Curriculum Committee is mandated to articulate through C-ID and state descriptors.  

The Curriculum Committee made additional suggestions and recommended options. S. Circle thanked the Committee for their thoughtful discussion. The committee commended the Spanish/Language faculty on their well-developed justification.  

C. Martin pointed out that as courses come up for review they will be evaluated under the new policy.

R. Cranley noted that all courses submitted in June for University of California (UC) transfer status have been approved. These courses had significant changes in content, objectives, prerequisite, and units or were new courses seeking UC transferable status. Courses approved at the September 8th or 22nd Curriculum Committee meetings will have the opportunity to be submitted during the second review phase in October for the 2015/2016 UC Transferable Course Agreement (TCA). Many of these same courses will be submitted in December 2015 for CSU-GE or IGETC consideration.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved:

It was discovered that several NURSE courses needed a materials fee modification over the summer semester effective for fall 2015. The contract with Secure Medical had expired and new skill kits were ordered. The following NURSE courses had material fees modified in CNET and Datatel effective for fall 2015:

NURSE 259  
LVN Transition: Role Change Preparation 2
Proposed Effective Term: Fall 2015 Expedited! To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $30 to $103

NURSE 271  
Nursing Process: Fundamentals 6.50
Proposed Effective Term: Fall 2015 Expedited! To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $252 to $368
NURSE 273  Nursing Process: Maternal-Child Nursing  6.50
Proposed Effective Term: Fall 2015 Expedited To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Decreasing fee from $257 to $199

NURSE 275  Nursing Process: Medical-Surgical  7
Proposed Effective Term: Fall 2015 Expedited To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Decreasing fee from $171 to $170

NURSE 276  Nursing Process: Advanced Medical-Surgical  6
Proposed Effective Term: Fall 2015 Expedited To comply with newly revised code or law.
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $251 to $259

SOCSC 109  Introduction to Education-Practicum in Tutoring  3
Proposed Effective Term: Fall 2015 Expedited To comply with newly revised code or law.
Rationale for Expedited Approval: SOCSC 109 came through with a course update on 4/15/2014 effective for fall 2015. The discipline selected was only showing Social Science. The faculty alerted us that it should also be listed as Education. This will need to be changed in order to hire faculty for this class in the fall semester. The change has already been made by H. Townsend in CNET and is here for the purpose of the record.
MODIFY: Discipline
Rationale: See rationale for expedited approval.

**A.S.: Agriculture: Sales, Service**

**MODIFY** Electives Header, total units

**Effective Term:** Summer 2015 [** Expedited!**] To ensure accuracy of catalog information for 2015/2016

**Rationale:** Award originally came through 3/17/15 with an inaccurate electives header. Because the header was inaccurate, the total units were off by one unit. The award has been fixed in all systems and appears here for the record. An “or” statement listed in the electives section was also removed as it is not needed.

**M/S/U (E. LUCAS, S. BERGER) to MODIFY A.S.: AGRICULTURE: SALES, SERVICE**

**M/S/U (E. MAKI, J. BEEBE) to EXPEDITE MODIFICATIONS of A.S.: AGRICULTURE: SALES, SERVICE**

S. Berger questioned the effective date. B. Adams noted that the modifications were mainly corrections and the expedited request was to ensure that the revised award was included in the 2015/2016 catalog addendum.

MODIFICATIONS:

MODIFY: COMPUTER ELECTRONICS PROGRAM
A.S.: Computer Electronics
MODIFY: Total units, Program learning outcomes, required courses
Effective: Summer 2016
Rationale: A.S. Degree and Certificate course work has been updated to provide a clear pattern of study for students. The program emphasizes computer electronic courses and provides elective coursework spanning a breadth of knowledge in related fields.
A.S.: Computer Electronics and Certificate of Achievement: Computer Electronics pulled as block for discussion by S. Circle who requested clarification on the difference between the A.S. Degree and Certificate. She added that the program learning outcomes (PLOs), program descriptions and units all matched. P. Mendez clarified the differences and discussion ensued, nevertheless the committee agreed that additional specific language was needed. B. Adams offered to work with P. Mendez to modify the PLOs and to add the catalog description in CurricUNET.
M/S/U (E. Lucas, C. Mulder) to MODIFY A.S.: COMPUTER ELECTRONICS

MODIFY: COMPUTER ELECTRONICS PROGRAM
Certificate of Achievement: Computer Electronics
MODIFY: Title, total units, program learning outcomes, required courses
Effective: Summer 2016
Rationale: A.S. Degree and Certificate course work has been updated to provide a clear pattern of study for students. The program emphasizes computer electronic courses and provides elective coursework spanning a breadth of knowledge in related fields.
M/S/U (E. Lucas, C. Mulder) to MODIFY CERTIFICATE OF ACHIEVEMENT: COMPUTER ELECTRONICS

MODIFY: COMPUTER PROGRAMMING SPECIALIST PROGRAM
Certificate of Achievement: Computer Programming Specialist
MODIFY: Required courses, total units
Effective: Fall 2015 Expedited
Rationale for Expedited Approval: To ensure accuracy of catalog offerings. The 2015-2016 catalog addendum will be available in late September. If approved, the award modification can be reflected in the catalog addendum.
Certificate of Achievement: Computer Programming Specialist pulled by S. Circle due to concerns with the number of program learning outcomes (PLOs). The committee agreed that revisions should be made to the number of PLOs. N. Sill will work with the faculty to update and possibly reduce the program learning outcomes in CurricUNET. For benefit of the catalog addendum, the award will be approved as written and the faculty will work to revise the PLOs for the next catalog.
M/S/U (E. Lucas, S. Circle) to MODIFY CERTIFICATE OF ACHIEVEMENT: COMPUTER PROGRAMMING SPECIALIST
M/S/U (E. Maki, J. Beebe) to EXPEDITE MODIFICATIONS of CERTIFICATE OF ACHIEVEMENT: COMPUTER PROGRAMMING SPECIALIST
MODIFY:

HEALTH AND PHYSICAL EDUCATION PROGRAM
A.S.: University Preparation, Emphasis in Health and Physical Education

MODIFY:
Requirement header, required courses
Effective: Summer 2015 [Expedited]

Rationale for Expedited Approval: CHEM 143 changed from 5 to 4 units which has changed the overall units for the award. Award has been revised to reflect new total units. If approved for summer 2015, the award changes will reflect in the catalog addendum.

M/S/U (E. LUCAS, S. BERGER) to MODIFY A.S.: UNIVERSITY PREPARATION, EMPHASIS IN HEALTH AND PHYSICAL EDUCATION

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams

B. Adams referred to the Chancellor’s Office website (www.cccco.edu) to update the committee on upcoming Chancellor’s Office Templates (COTs). She noted that she will be meeting with the Agriculture faculty to work on course updates and the Agriculture awards that are on the 18 month COT deadline. Available COTs were mentioned for future consideration. B. Adams noted that we are currently compliant. B. Adams mentioned that Friday’s Curriculum Training will provide more in-depth information on ADTs and resources.

R. Cranley noted that we currently have 174 approved C-IDs, 19 in progress, 24 conditionally approved, and 6 not approved. R. Cranley referred to the above links for further updates. R. Cranley reported that there is a need for more C-ID reviewers. She alerted the committee that they could visit the www.c-id.net website to view current C-ID standings. B. Adams encouraged members to participate by logging into the website and registering.

B. Adams noted that an issue with “load” was found in CurricUNET. CurricUNET is not populating the correct load, but load is not a consideration for course approvals. B. Adams noted that it is important that Datatel shows the correct load. An attempt will be made to have a “comment” section added that can be used to acknowledge issues that can’t be addressed and/or fixed. Tickets have been submitted for an issue with “Course Variables” and “Enrollment Restrictions” showing incorrectly on the Course Summary Report. B. Adams and H. Townsend will continue to work with CurricUNET to improve the usability of the program.

4. Outcomes Assessment Workgroup (OAW)  C. Redwing

C. Redwing gave a friendly reminder from the Academic Senate that if a discipline has a program review that needs approval or have course learning outcomes (CLOs) and assessments not completed, they need to be placed in CurricUNET by the October 1st deadline. He added that those who are missing program reviews and course learning outcome assessments in CurricUNET will be getting an e-mail from the Academic Senate.

C. Redwing added that an Outcomes Assessment Workgroup chair has not been determined as of yet. The Academic Senate is working to appoint someone very soon.
5. **AB 86 and SB1070 Legislation**

P. Mendez noted that AB 86 is transitioning to AB 104. The Consortium is moving from planning discussions to planning and delivery discussions. The Maintenance of Effort Funds for the Adult Education programs in our communities has been issued for the 2015/2016 year. Consortium funding is expected with discussions needed as a region on how to impact the gap between adult education and the community college. Thoughts by the committee on the needs of students followed.

P. Mendez reported on SB1070 as a goal to encourage high school freshman through seniors to go onto college. He noted that the Principal and Superintendent of Waterford High School are discussing getting their freshman/sophomores on a college pattern. Discussion ensued on how to not just get students to the junior college, but on how to also keep them here.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Curriculum Review Process**

   B. Adams summarized her April 16, 2015 report to the Academic Senate on a historical time line of the Curriculum Committee to clarify miss-perceptions of what had accrued. B. Adams’ chronological report spanned curriculum actions that occurred from 2013-2015. B. Adams concluded her report with recommendations, including the invitation to Academic Senate members to attend Curriculum Committee meetings to observe firsthand what occurs at a Curriculum Committee meeting; additionally, she stated the committee’s charge for fall 2015 to create guiding principles for lecture and lab, to finish the review process for non-transferable courses, and to complete a self-evaluation. She informed the committee the Academic Senate passed the Curriculum Committee’s proposed process, and C. Redwing confirmed the vote.

   B. Adams advised the committee of plans to address the lecture/lab guiding principles and review process for non-transferable courses at the Curriculum Committee’s training on September 11, 2015.

   B. Adams asked if anyone had any questions or comments. R. McKenzie stated that he took issue with the way B. Adams presented her report to the Academic Senate. B. Adams responded that her report addressed what the Academic Senate requested. R. McKenzie remarked that although B. Adams was asked to present a report, it didn’t mean she did it in the proper way. R. McKenzie indicated that he personally thought that B. Adams did not include information that should have been concluded. B. Adams requested that his statement be reflected in the minutes.

**XI. NEW BUSINESS**

**Action Items**

1. **Lecture/Lab Guiding Principles**

   B. Adams noted that the Curriculum Committee will be having a group discussion on lecture/lab guiding principles at the curriculum training on September 11, 2015. A handout will be distributed that has examples of lecture/lab definitions from another college. R. McKenzie expressed his anticipation of continuing the discussion of lecture/lab.

   Conversations by the committee members followed regarding definitions of lecture and lab, differences in disciplines and how the guidelines might also include discussion and clinical. It was agreed that the guidelines would encompass a number of factors.
Informational Items

1. **Annual Curriculum Training Day**
   B. Adams

   B. Adams reminded the committee that the annual Curriculum Training Day will be held at the Regional Fire Training Center on Friday, September 11th starting at 8:00 a.m., with breakfast and lunch provided by the Instruction Office.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved:

ANAT 125  Human Anatomy  5
Effective: Spring 2016  Expedited!
Rationale for Expedited Approval: This course has already been approved by the curriculum committee (September 8, 2015) for Summer 2016 activation, but the department is requesting DE expedited approval for spring 2016 in order to provide for enhanced student access and the ability for program majors to complete their degrees in a timely manner.
MODIFY: DE implementation date
Rationale: See rationale for expedited approval.
Distance Education Status: Requesting expedited implementation date of Mixed Modalities/Hybrid

INDUSTRIAL ELECTRONICS PROGRAM

A.S.: Industrial Electronics 33.5-34.5 (Previously 30.5)

MODIFY: Program learning outcomes, program requirements, required courses, elective courses, total units

Effective: Summer 2016

Rationale: After a faculty evaluation of the Electronics Program, we are recommending updates to clearly identify pathways for students majoring in Industrial Electronics that emphasize the automation and control needs of industry. This will complement the upcoming Electrician Program that supports traditional electrician preparation.

M/S/U (E. MAKI, S. CIRCLE) to MODIFY A.S.: INDUSTRIAL ELECTRONICS

M. Garcia observed that ELTEC 200, listed as a required course, is not currently offered. P. Mendez mentioned that ELTEC 200 is currently in Technical Review. H. Townsend noted that the A.S. Industrial Electronics Degree can’t be submitted to the State until ELTEC 200 is processed through the Curriculum Committee.

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)**
   
   B. Adams
   
   B. Adams confirmed that she will meet with the Ag faculty on Friday, September 25, 2015 to work on courses and ADTs in the Agriculture discipline.

2. **Articulation: C-ID, C-ID Newsletter**
   
   R. Cranley
   
   R. Cranley reported that we currently have 175 approved C-IDs, 18 in progress, 24 conditionally approved. Furthermore the Career Technical Education (CTE) e-mailed an invitation to the October 17, 2015 meeting for Office Technology/Office Computer faculty which has been forwarded appropriately.

3. **CurricUNET Implementation/Issues**
   
   B. Adams/H. Townsend
   
   H. Townsend reported that the variable issue has been fixed. The enrollment restrictions ticket is still being worked on, in addition to some cosmetic concerns.

4. **Outcomes Assessment Workgroup (OAW)**
   
   C. Redwing
   
   C. Redwing requested P. Mendez, as an OAW member, be added as a temporary OAW representative until an official delegate can be selected. P. Mendez accepted the temporary position and then reported that the last meeting was getting the committee re-acquainted on the outcome assessment process. Discussion occurred on what works in the assessment process and the evaluation statement.

5. **AB 86 and SB1070 Legislation**
   
   P. Mendez
   
   P. Mendez requested that AB 86 be re-label as Adult Education because the Initiatives or Assembly Bills will change. P. Mendez reported that the committee is in the middle of updating their March plan that was submitted to the state. A President or designee will be identified at the October, 2015 Board meeting which will allow us to participate as an active member in the fund allocation process in November. P. Mendez referred to the AB86 page on the MJC website for additional information, meeting dates and upcoming professional development ESL trainings. Also mentioned was the work being done to establish a plan for the 2016 year.

X. UNFINISHED BUSINESS

**Action Items**

1. **Curriculum Review Process**
   
   B. Adams
   
   B. Adams, with the approval of the committee, noted that the Curriculum Review Process will be left as Unfinished Business with the understanding that it will be looked at in more detail once Basic Skills C-IDs are finalized.

2. **Lecture/Lab Guiding Principles**
   
   B. Adams
   
   B. Adams reviewed information gathered at the Curriculum Committee training day in regards to lecture, lab, clinical, and discussion guiding principles. Discussion followed. B. Adams proposed forming a sub-committee that would work on the guiding principles. M. Boyd, J. Beebe, S. Berger, and E. Maki indicated interest in being a part of the subcommittee along with B. Adams. B. Adams and H. Townsend will work out details then send out an "Invite" to all committee members interested in joining or attending the sub-committee meetings.
Informational Items

1. **Annual Curriculum Training Day**  
   B. Adams

B. Adams commented on the success of the training day and the desire to cover even more material was mentioned. B. Adams indicated the intent to complete a Curriculum Committee self-evaluation at training, which will be covered in the spring as a future agenda item. Current membership and efficiency will be reviewed. B. Adams polled interest in having a Curriculum Mini-Training Day which was well received. B. Adams will begin work on a Spring 2016 Curriculum Mini-Training Day.

XI. **NEW BUSINESS**

**Action Items**

(None)

**Informational Items**

1. **New Accelerated Basic Skills Course**  
   S. Circle

S. Circle gave an informative presentation on a new Accelerated Basic Skills course in development, followed by a question and answer period. Noted in the presentation was that 75% of students are assessing into the basic skill level, that we are losing students at each exit point and resulting in a minimal 24% completion rate of English 101. The strategies to address the completion rate included; change the placement strategy, re-thinking assessment, and that the multiple level sequence in English and Math be replaced with Accelerated Basic Skills courses. S. Circle concluded that there are 61 colleges who have adopted the California Accelerated Project and the results have proven a high student success, high student retention rate.

2. **Respiratory Care Baccalaureate Degree**  
   B. Adams

B. Adams referred to the [http://www.asccc.org/sites/default/files/2015_07CI_CurriculumBaccalaureateDegree.pdf](http://www.asccc.org/sites/default/files/2015_07CI_CurriculumBaccalaureateDegree.pdf) webpage as a resource to help with the questions from faculty regarding creating upper division courses for the new Respiratory Care Baccalaureate Degree program.

XII. PUBLIC COMMENT

M. Garcia questioned when SOCIO 105 will be able to be offered. H. Townsend noted that it can be offered now with the MJC-GE: D2 transfer pattern, but without the CSU-GE and IGETC transfer patterns. R. Cranley confirmed that the CSU-GE and IGETC request for SOCIO 105 is scheduled to be submitted for review in December 2015, results of which are not received until April 2016.

M/S/U (E. LUCAS, S. CIRCLE to adjourn at 4:30 p.m.)
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of agenda was approved as stated.

II. APPROVAL OF MINUTES

September 22, 2015

Hearing no objections, the minutes of September 22, 2015 were approved as stated.

III. COURSE NOTIFICATION AGENDA

CCCO COURSE APPROVALS

(None)

Course Activity Report

(None)

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum Committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved:

Two courses (ANAT 125 & PHYSO 101) from the September 8, 2015, meeting that were requesting C-ID approval were conditionally approved pending a modification to course content. The content was modified by the department in CurricUNET.

ANAT 125 Human Anatomy 4
Effective Term: Summer 2016
Rationale: Course content was modified in CurricUNET to reflect C-ID reviewer comments.

PHYSO 101 Introductory Human Physiology 4
Effective Term: Summer 2016
Rationale: Course content was modified in CurricUNET to reflect C-ID reviewer comments.

It was discovered that a few of the DANCE courses approved at the September 8, 2015 meeting as a non-substantial change had the wrong Top Code listed in the CCCCO inventory as well as in Datatel. CurricUNET was correctly showing the Top Code as 1008.00 (Dance). H. Townsend has fixed the DANCE courses in CNET that were in need of the Top Code change to 1008.00. Because of the change to the Top Code, these courses are being submitted to the CCCCO as a substantial change instead of non-substantial.

DANCE 111 Modern Dance 1 1
CCCCO Proposal Type: Substantial Change
Effective Term: Upon CCCCO Approval (Requesting Summer 2016)
Rationale: Course was approved at the 9/8/2015 meeting as a non-substantial change. Course needs a Top Code change in the CCCCO inventory to 1008.00 to match what is listed in CNET.

DANCE 112 Modern Dance 2 1
CCCCO Proposal Type: Substantial Change
Effective Term: Upon CCCCO Approval (Requesting Summer 2016)
Rationale: Course was approved at the 9/8/2015 meeting as a non-substantial change. Course needs a Top Code change in the CCCCO inventory to 1008.00 to match what is listed in CNET.

DANCE 113 Modern Dance 3 1
CCCCO Proposal Type: Substantial Change
Effective Term: Upon CCCCO Approval (Requesting Summer 2016)
Rationale: Course was approved at the 9/8/2015 meeting as a non-substantial change. Course needs a Top Code change in the CCCCO inventory to 1008.00 to match what is listed in CNET.

DANCE 121 Ballet 1 1
CCCCO Proposal Type: Substantial Change
Effective Term: Upon CCCCO Approval (Requesting Summer 2016)
Rationale: Course was approved at the 9/8/2015 meeting as a non-substantial change. Course needs a Top Code change in CNET and in the CCCCO inventory to 1008.00.
DANCE 141  Hip Hop  1  
**CCCCO Proposal Type:** Substantial Change  
**Effective Term:** Upon CCCCO Approval (Requesting Summer 2016)  
**MODIFY:** Top Code  
**Rationale:** Course was approved at the 9/8/2015 meeting as a non-substantial change. Course needs a Top Code change in CNET and in the CCCCO inventory to 1008.00.

*It was discovered that three PEVW courses approved at the September 22, 2015 meeting were in need of a limitation on enrollment (LOE). The LOE was added in CurricUNET.*

PEVW 120  Women’s Varsity Softball  3  
**CCCCO Proposal Type:** Non-Substantial Change  
**Effective:** Summer 2016  
**MODIFY:** Hours, outcomes, objectives, methods of instruction, methods of evaluation, textbooks  
**Rationale:** Course was approved at 9/22/15 meeting. After approval, the faculty author realized a limitation on enrollment should have been added since this is an intercollegiate competition and the student must demonstrate certain athletic skills.

PEVW 123  Women’s Varsity Soccer  3  
**CCCCO Proposal Type:** Non-Substantial Change  
**Effective:** Summer 2016  
**MODIFY:** Hours, outcomes, typical assignments, methods of instruction, methods of evaluation, textbooks  
**Rationale:** Course was approved at 9/22/15 meeting. After approval, the faculty author realized a limitation on enrollment should have been added since this is an intercollegiate competition and the student must demonstrate certain athletic skills.

PEVW 140  Women’s Varsity Volleyball  3  
**CCCCO Proposal Type:** Non-Substantial Change  
**Effective:** Summer 2016  
**MODIFY:** Hours, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation  
**Rationale:** Course was approved at 9/22/15 meeting. After approval, the faculty author realized a limitation on enrollment should have been added since this is an intercollegiate competition and the student must demonstrate certain athletic skills.

V. COURSE DISCUSSION AGENDA

**INACTIVATIONS:**

**UNIT**

ADJU 349ABCD  Work Experience - Admin of Justice  1-4  
**CCCCO Proposal Type:** Inactivation  
**Effective:** Summer 2016  
**INACTIVATE**  
**Rationale:** This course is not being offered.  
**Program Impact:** Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).  
**M/S/U (E. LUCAS, E. MAKI) to INACTIVATE ADJU 349ABCD**
### CMPGR 265
Multimedia on the World Wide Web  
**CCCO Proposal Type:** Inactivation  
**Effective:** Summer 2016  
**INACTIVATE:**  
**Rationale:** Course has not been taught for several years. The inactivation of this course will help to remove the course from the 2016-2017 catalog.  
**Program Impact:**  
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).  
**M/S/U (E. LUCAS, E. MAKI) to INACTIVATE CMPGR 265**

### ENGL 108
Creative Writing: Autobiography  
**CCCO Proposal Type:** Inactivation  
**Effective:** Summer 2016  
**INACTIVATE:**  
**Rationale:** We have a new course, English 111 Creative Writing: Creative Nonfiction which replaces Creative Writing: Autobiography.  
**Program Impact:**  
- English AA-T Degree  
**M/S/U (E. LUCAS, E. MAKI) to INACTIVATE ENGL 108**

**NEW COURSES:**

ANTHR 155  
**Anthropological Field Studies of Channel Islands**  
**CCCO Proposal Type:** New Credit Course  
**Effective:** Upon CCCCO approval  
**ADOPT:**  
**Rationale:** This course fits in the series of Anthropological Field Studies courses currently in our catalog, and offers students the chance to experience a unique location in California: the Channel Islands off of southern California. The islands are a great place to learn about Anthropology, since the archaeology is visible on the ground surface, and there are field stations (run by US Santa Barbara or CSU Channel Islands, but available for our use) where the class can lodge, be trained in field techniques, and learn from local researchers who are on the islands to do their own research. It is a wonderful opportunity for an anthropology-in-action course, and expands our field studies courses to include the study of our own state.  
**Enrollment Restrictions:** (none)  
**Distance Education Status:** (none)  
**Materials Fee Status:** (none)  
**Articulation Status:** Requesting: CSU  
**General Education Status:** (none)  
**Program Impact:**  
- Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).  
**ANTHR 155 pulled for discussion by S. Circle** due to concerns that the Course Learning Outcomes (CLOs) and Course Objectives were the same. P. Mendez noted that the CLOs should be more summarized. B. Adams will confer with S. Kerr to modify the CLOs. The committee agreed with the notification of changes being noted on the next Curriculum Committee’s meeting agenda.  
**M/S/U (N. SILL, M. GARCIA) to ADOPT ANTHR 155**
BIO 155

Biological Field Studies of the Channel Islands

CCCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT:
Rationale: This course is a field study to a natural laboratory of island biogeography for the study of factors affecting species diversity.
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to have completed any college level biology, zoology, botany, or ecology course.
Distance Education Status: (none)
Materials Fee Status: (none)
Articulation Status: Requesting: CSU
General Education Status: (none)
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

M/S/U (E. LUCAS, E. MAKI) to ADOPT BIO 155

FDNTR 220

Principles of Foods with Lab

CCCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT:
Rationale: This course will be the second Nutrition course required for the proposed A.S.-T. in Nutrition and Dietetics. Requesting: C-ID NUTR 120.
Enrollment Restrictions: Requesting: (P) Satisfactory completion of FDNTR 219; Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ENGL 50.
Distance Education Status: Requesting: Mixed modalities/hybrid
Materials Fee Status: (none)
Articulation Status: Requesting: CSU
C-ID Status: Requesting: (C-ID NUTR 120)
General Education Status: (none)
Program Impact:
- Nutrition and Dietetics A.S.-T degree (in process)

FDNTR 220 pulled for discussion by S. Circle due to concerns that the Course Content and Lab Activities were the same. B. Adams noted that the Course Identification Numbering System (C-ID) had the same arrangement and referred to the added statement “The content covered in the lecture will be applied in the lab setting.”
E. Lucas commented on the one CLO that was listed for the course. After some discussion, the committee concluded that one CLO was suitable for FDNTR 220.

M/S/U (L. STEPHAN, E. MAKI) to ADOPT FDNTR 220
M/S/U (E. MAKI, E. LUCAS) to ADOPT REQUISITES for FDNTR 220
M/S/U (S. CIRCLE, J. BEEBE) to ADOPT DE for FDNTR 220
HUMAN 196  Humanities Special Topics: Social Justice  3
CCCOC Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT:
Rationale: This course is being created to meet the new standard for special topic courses, with defined content but without repetition. Creation of this course fulfills a promise made to get the NEH grant “Common Ground”.
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to have ENGL 101 eligibility and have satisfactorily completed HUMAN 101 or HUMAN 105 or HUMAN 106 or HUMAN 110 or HUMAN 130 or HUMAN 140.

- University Preparation, Emphasis in Humanities A.A. Degree

M/S/U (E. LUCAS, E. MAKI) to ADOPT HUMAN 196

S. Circle questioned R. Cranley’s technical review comment regarding University of California (UC) transferability of “Special Topics” courses. R. Cranley clarified that the UC will grant approval of a Special Topics course with a note that evaluation of the student’s transcripts will be done once the student transfers.

M/S/U (E. MAKI, E. LUCAS) to ADOPT REQUISITES for HUMAN 196

PEVM 136XABC  Training and Conditioning for Track and Field  0.5-3
CCCOC Proposal Type: New Credit Course
Effective: Upon CCCCO approval Expedited! (Requesting Spring 2016)
Rationale for Expedited Approval: With the removal of repeatability from Physical Education courses, Athletics is being required to develop courses following the CCCAA guidelines to allow student athletes to train and condition for their competitive season.
ADOPT:
Rationale: To meet current standards for California Community College Athletic Association Eligibility.
Enrollment Restrictions: Requesting: (L) Enrollment limited to students who successfully pass a tryout.
Distance Education Status: (none)

**CCCCO Proposal Type:** New Credit Course

**Effective:** Upon CCCCO approval (Requesting Spring 2016)

**Rationale for Expedited Approval:** In order for off-season training and conditioning, the CCCAA mandates that student athletes be enrolled in an athletic training and conditioning course. This course will meet that mandate for the Wrestling Program.

**ADOPT:**

**Rationale:** With the removal of repeatability from Physical Education courses, Athletics is being required to develop courses following the California Community College Athletic Association guidelines to allow student athletes to train and condition for their competitive season.

**Enrollment Restrictions:** Requesting: (L) Enrollment limited to students who successfully pass a tryout.

Application for Approval - New Credit Programs (Formerly the CCC-501)

ADOPT:

DANCE PROGRAM
A.A.: Dance
 проект

ADOPT:

Program learning outcomes, required courses, electives, total units

Effective: Upon CCCCO approval

Rationale: The Modesto Junior College Dance Department offers a comprehensive foundation in the theory, history, technique, and art of dance to students seeking a degree to transfer or dance training and enrichment. The department offers a structured program of dance study in the areas of core techniques, historical and contemporary styles, choreography, performance, and dance history. Students have the opportunity to demonstrate their abilities through technical, interpretive, and expressive dance, as well as public performances. Students qualify to pursue a variety of dance-related careers and advanced degree options. Degrees. Upon completing the course requirements for this major, the successful student will earn an Associate in Arts Degree in Dance. The transfer program offers a variety of courses in dance technique in the areas of jazz dance, ballet, modern dance and choreography. Students also have the opportunity to perform in a public departmental dance production each semester and in an informal dance showing each school year. The AA Dance degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors in the Fine and Performing Arts. The degree is designed to prepare students to meet the admission criteria for programs such as a Bachelor of Fine or Performing Arts which may require performance, technique, dance history, and a choreography requirement. Award originally came through for approval October 23, 2012 but was never submitted to the state because the department was in the process of converting the THETR/PEC courses to the new DANCE discipline. The degree is now coming back through as an adoption again with the recently approved DANCE courses.

**HUMANITIES PROGRAM**

A.A. Degree: University Preparation, Emphasis in Humanities  18-20

**MODIFY:** Required courses, elective courses, units

**Effective:** Summer 2016

**Rationale:** Revisions are being made to the degree to add the new courses HUMAN 196, HUMAN 197 and HUMAN 198, and to reflect recent changes to the THETR 123 and THETR 194, which are now COMM 123 and DANCE 102.

*M/S/U (E. LUCAS, J. BEEBE) to MODIFY A.A. Degree: University Preparation, Emphasis in Humanities*

**INDUSTRIAL ELECTRONICS PROGRAM**

Certificate of Achievement: Industrial Electronics 33.5-34.5 (Previously 30)

**MODIFY:** Program learning outcomes, program requirements, required courses, elective courses, units

**Effective:** Summer 2016

**Rationale:** After a faculty evaluation of the Electronics Program, we are recommending updates to clearly identify pathways for students majoring in Industrial Electronics that emphasize the automation and control needs of industry. This will complement the recent Electrician Program approved that supports traditional electrician preparation.

*M/S/U (E. LUCAS, J. BEEBE) to MODIFY Certificate of Achievement: Industrial Electronics*

R. Cranley, noted that the Certificate of Achievement and A.S. Degree in Industrial Electronics had the same total units and asked if Industrial Electronics had the equivalent of a governing board. P. Mendez explained that the Industrial Electronics trade does not have a governing entity. He added that the approach used by Career and Technical Education (CTE) for certificates and degrees is to separate them by the General Education courses, which are not a part of the certificate but are included for the CTE degree.

**INACTIVATIONS:**

**INACTIVATE:**

**AUTOMOTIVE TECHNOLOGY PROGRAM**

Certificate of Achievement: Automotive Maintenance 29.5-30.5

**INACTIVATE:** Effective: Summer 2016

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  
   B. Adams
   B. Adams reported that the Ag workshop on September 25, 2015 was a success and she would continue working with M. Boyd to complete the 3 ADTs in Agriculture.

2. Articulation: C-ID, C-ID Newsletter  
   R. Cranley
   R. Cranley noted that two more C-IDs have been approved since our last meeting. R. Cranley referred to the linked newsletter in regard to the upcoming October 17, 2015 Discipline Input Group (DIG) meeting. Welding Technology has been added along with Office Technology/Office Computer Application for those interested in participating in the discussion.

3. CurricUNET Implementation/Issues  
   B. Adams/H. Townsend
   H. Townsend reported that the ADJU 111 test issue that was showing on a few Course Summary Reports has been fixed and there are eight tickets currently in the queue for processing.

4. Outcomes Assessment Workgroup (OAW)  
   C. Redwing/P. Mendez
   C. Redwing reported N. Gopal was appointed OAW Chair by the Academic Senate and also gave a general Academic Senate report covering:
   - Joint Resolution Supporting Adoption of Canvas as the Course Management System for YCCD.
   - The Academic Senate resolves to support the establishment of an Institutional Review Board at Modesto Junior College.
   - The elimination of bottled water in the Academic Senate.
   - Program discontinuance, reduction, revitalization, and creation proposals will be discussed in Academic Senate, which will directly affect the Curriculum Committee. C. Redwing noted that he would like to add this item to the November 10, 2015 Curriculum Committee agenda.

   B. Thames reported that A. Gopal introduced herself and talked about goals for the OAW.

   B. Adams questioned the conversion of CLOs to the new eLumens system and discussion ensued. It was noted that the CLO Update Only feature in CurricUNET will be active and still utilized by all faculty who just want to update their CLOs only. CLOs will remain in CurricUNET and all updates to CLOs after they are approved by the Curriculum Committee will be manually entered into the new eLumen system by the Instruction Office staff.

   It was discussed that the outcomes assessment data portion in CNET will be moving fully over to the new eLumen system. The CLO Update Only proposal will remain “as is” in CNET. Because CLO statements will be updated in CNET only, it was decided that all updates will need to be placed on Curriculum Committee agendas as Consent Agenda items for final approval before they are activated in CNET and placed into PiratesNET. B. Adams noted that she is scheduled to meet with N. Gopal and E. Kerr to develop a flow chart/process for the conversion of learning outcomes assessments from CNET to eLumen and to determine how to ensure updated CLOs are input into eLumen.

   C. Redwing issued a general invitation to join the Ag Department’s tour of the MJC Farm on October 14, 2015.

   B. Adams proposed adding as a line item “Academic Senate Report” to Standing Reports on the next agenda.

5. Adult Education  
   P. Mendez
   P. Mendez noted that information is in process of being collected for the state to access available Adult Education funds. The Consortium attended training on the Brown Act. The next meeting is scheduled for November 9, 2015.
X. UNFINISHED BUSINESS

Action Items

1. **Curriculum Review Process**  
   B. Adams  
   B. Adams restated that at the last meeting it was determined that the Curriculum Review Process will be left as Unfinished Business with the understanding that it will be looked at in more detail once Basic Skills C-IDs are finalized. S. Circle reported that the first C-ID review meeting will be October 14, 2015 to start reviewing the approximately 90-100 pages of comments.

2. **Lecture/Lab Guiding Principles**  
   B. Adams  
   B. Adams noted that the sub-committee (E. Maki, J. Beebe, S. Berger, and M. Boyd) met October 6, 2015. B. Adams conveyed that the sub-committee is starting with some basics guidelines and examples, identifying courses that align with C-ID descriptors that have a lab component identified in the title, courses that show designated lab unit values, courses that show different lab activities identified in the descriptor, courses required to have lab for Articulation purposes, and courses with health and safety issues involved. The sub-committee is also looking at CSU-GE B3 and IGETC 5C and reviewer guidelines regarding lab activities for physical and natural sciences. A variety of source information was conveyed. B. Adams noted that the sub-committee would meet again on October 20 to continue to work on the document with the goal to establish some consistency, by creating guidelines for course review that will also allow for the individual course dynamics. B. Adams added that if anyone is interested in attending the next meeting, it will be held from 2:30 p.m. to 4:30 p.m. in the new CAT Building, room 262.

   B. Adams

Informational Items

1. **Distance Education Approvals and Scheduling**  
   B. Adams/H. Townsend

   H. Townsend informed the committee that P. Wallace supplies a list each semester of courses that are scheduled in Datatel but have not been approved to be offered as online or hybrid by the Curriculum Committee. B. Adams noted that the committee should be aware of this. Some committee members were unaware of this and it was agreed faculty should be checking that Distance Education approvals have been approved before courses are scheduled by the division.

2. **ELIC Program Revision Update**  
   S. Berger

   B. Adams noted that the ELIC Program Revision Update is being postponed to the October 27, 2015 meeting where S. Berger will have a full report.
XII. PUBLIC COMMENT

S. Circle requested input from the Curriculum Committee to include a minimum of eight hours of required tutoring or attendance at critical skills workshops in the library and learning center for the New Accelerated Basic Skills Course. Discussion ensued, questions were asked and answered, and recommendations were provided by the committee.

M/S/U (E. LUCAS, E. MAKI) to adjourn at 4:12 PM
Members Present: B. Adams (Co-chair), J. Beebe, S. Berger, M. Boyd, S. Cassidy, S. Circle, R. Cranley, R. Cripe, H. Duarte, M. Garcia, T. Guy, C. Hudelson, M. Uliana (for P. Mendez), M. Mondragon (ASMJC), N. Sill, J. Steams (President), L. Stephan

CCCCO COURSE APPROvals

(None)

Course Activity Report

(None)

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum Committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

ANTHR 155
Anthropological Field Studies of Channel Islands

- Effective: Upon CCCCO approval
- MODIFY CLOs
- Rationale: This course has been approved by the Curriculum Committee (October 13, 2015) with the understanding that the Course Learning Outcomes (CLOs) are modified as follows:
  1. Describe the cultural evolution of the California Channel Islands based on archaeological and ethnographic evidence.
  2. Explain contemporary issues in the context of anthropological concepts.

ANTHR 191
Anthropology of the Colorado Plateau

- Effective: Upon CCCCO approval
- MODIFY CLOs
- Rationale: This course has been approved by the Curriculum Committee (November 4, 2014) The Course Learning Outcomes (CLOs) are being modified to have a consistent format with ANTHR 155 and ANTHR 190 as follows:
  1. Describe the cultural evolution of the American Southwest based on archaeological and ethnographic evidence.
  2. Explain contemporary issues in the context of anthropological concepts.

**Ag 259ABCD pulled for discussion by S. Circle** who questioned the 1-4 units. M. Boyd explained that work experience units are based on the number of hours worked and that in the vocational area work experience is required in the field of study that they are getting their A.S. degree. B. Adams referred to the course description that states, “Students must work 75 hours for each unit of paid work experience credit. If a student is performing non-paid volunteer work, one unit may be earned for each 60 hours of training.” She noted that work experience hours are mandated by the state. T. Guy requested that under Methods of Instruction the first statement be modified to read “Individual conferences with student, employer, and instructor”. M. Boyd agreed to the modification.

CCCCO Proposal Type: Non-Substantial Change
Effective: Summer 2016
MODIFY: Discipline, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks
Rationale: Course is being proposed to increase the reach of COLSK 100 ten to twentyfold in terms of number of students served. It will accomplish this by expanding the number of faculty that can potentially teach this course to include faculty in any academic discipline in which a masters’ degree is required. Currently, only counseling faculty can teach this course and enrollment has averaged around 110 students per semester over the past four years. The interdisciplinary model will support our access, equity and basic skills institutional efforts.

**M/S/U (S. CIRCLE, J. BEEBE) to MODIFY EHS 202**

S. Circle, noted that she looked at the Course Identification Numbering System (C-ID), and the Methods of Evaluation reflect more general categories than typically seen. S. Berger commented that the Lab Content reads more like assignments and does not follow typical content language. B. Adams will confer with D. Pollard to modify the lab content section to align with the C-ID descriptor. The Committee agreed with the stipulation that modifications will be documented on November 10, 2015 Curriculum Committee’s agenda.

ANTHR 190  International Anthropology Field Studies  3
CCCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT:
Rationale: Because of changes in state policy regarding repeatability of courses, it is necessary to introduce new field courses to emphasize the very different nature of field studies in areas of contrasting anthropology.
Enrollment Restrictions: (None)
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Requesting: CSU
General Education Status: (None)
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

ANTHR 190 pulled for discussion by S. Circle who asked if there is a cost to students who sign up for this course. B. Adams pointed out that ANTHR 190 is a field studies course, and fundraisers are often used to help students with finances. Students signing up for this course know that they will be traveling and cost is discussed at an orientation session.

Garcia who had questions regarding the Methods of Instruction, item 4, Group case study. J. Akpovi approved adding “Instructor-facilitated”. Committee members added questions regarding: What are the CSU comparable courses? Can existing Business/Office Administration courses be utilized? Why did the faculty choose Business as a discipline instead of Transportation? J. Akpovi agreed to change the discipline from Business to Transportation for all LOGST courses. Issues were discussed on the various logistic courses regarding the CLO’s, objectives, method of instruction, and requisite skills.

ADOPT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
A.S. Degree: Logistics and Supply Chain Management 30

ADOPT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
Certificate of Achievement: Logistics and Supply Chain Management 30

ADOPT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
A.S. Degree: Logistics and Supply Chain Management
Effective: Upon CCCCO approval
Rationale: This A.S degree is part of the Logistics and Supply Chain Management program, and it is being created to respond to the increasing demand for trained logistics and supply chain workforce in the Central Valley. It is designed to offer students a pathway to advanced education.

A.S. DEGREE: LOGISTICS AND SUPPLY CHAIN MANAGEMENT withdrawn by R. CRIPÉ so the program can be included with the LOGST courses on the November 10, 2015 Curriculum Committee agenda. See comments on LOGST 201.

ADOPT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
Certificate of Achievement: Logistics and Supply Chain Management
Effective: Upon CCCCO approval
Rationale: This certificate program is part of the Logistics and Supply Chain Management program, and it is being created to respond to the increasing demand for trained logistics and supply chain workforce in the Central Valley.

CERTIFICATE OF ACHIEVEMENT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT withdrawn by R. CRIPÉ so the program can be included with the LOGST courses on the November 10, 2015 Curriculum Committee agenda. See comments on LOGST 201.

Non-Substantial Changes to Approved Program or Change of Active–Inactive Status (Formerly the CCC-511)

MODIFICATIONS:

MODIFY: ADMINISTRATION OF JUSTICE PROGRAM
A.S. Degree: Administration of Justice 21 (Previously 30)
MODIFY: Program learning outcomes, program requirements, units
Effective: Upon CCCCO Approval
Rationale: The A.S. Degree is being revised to reflect updated PLOs, units, and requirements.

M/S/U (M. BOYD, S. BERGER) to MODIFY A.S. DEGREE: ADMINISTRATION OF JUSTICE
MODIFY:

AGRICULTURE BUSINESS PROGRAM
A.S. Degree: Agriculture Business

MODIFY: Program requirements
Effective: Upon CCCCO Approval

Rationale: Section I: Agriculture Career Courses needed to be revised because of a unit change to the AG 249 course. The total number of units to complete the program does not change however. This change also necessitated a change to the Award Footer. This revision does not change the substance of the degree in any way.

M/S/U (M. BOYD, S. BERGER) to MODIFY A.S. DEGREE: AGRICULTURE BUSINESS

INACTIVATIONS:

(None)

Program Changes that do not require Chancellor’s Office Notification/Application for Approval

(None)

Program Adoptions that do not require Chancellor’s Office Notification/Application for Approval

ADOPT: LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
Skills Recognition Award: Logistics Associate

ADOPT

Effective: Summer 2016

Rationale: This skills recognition is part of the Logistics and Supply Chain program, and it is being created to respond to the increasing demand for trained warehouse and distribution center associates in the Central Valley. The program also fills a need in our community for a comprehensive training program for lift truck operators.

SKILLS RECOGNITION AWARD: LOGISTICS ASSOCIATE withdrawn by R. CRIPES so the program can be included with the LOGST courses on the November 10, 2015 Curriculum Committee agenda. See comments on LOGST 201.

Informational Items

1. ELIC Program Revision Update
   S. Berger reported that the ELIC Program Committee requested an extension for submitting courses for the following reasons:
   - A welcome center is being established for ESL students which would be helpful to have up and running before the program starts
   - There are assessment and faculty issues to be considered
   - Course outlines are still being worked on
   The projected launch of the ELIC Program is fall 2017 so that it may appear in the 2017/2018 MJC catalog.

2. Curriculum Training
   B. Adams noted that on Wednesday, October 28, 2015 there will be a Curriculum Training/Drop-in session in Yosemite Hall, room 213 for those interested.

XII. PUBLIC COMMENT

J. Stearns reported that the State Chancellor’s office would now expedite all non-substantial changes to credit courses.

M/S/U (R. CRIPPE, J. BEEBE) to adjourn at 4:50 PM
In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum Committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

MUSG 122 pulled for discussion by R. Cranley who noted that the Methods of Evaluation were not connected to the Objectives and questioned if it was a CurricUNET issue. B. Adams confirmed it was a CurricUNET issue and requested H. Townsend to submit a ticket to address the issue. B. Adams noted that once the issue is fixed she would match the Objectives to the Methods of Evaluation in CurricUNET using documentation supplied by E. Maki for MUSG 122.

M/S/U (E. LUCAS, E. MAKI) to REACTIVATE/MODIFY POLSC 111

POLSC 111 pulled for discussion by S. Berger who questioned why no Political Science prerequisites are required. K. Stephens noted that the courses offered in Political Science would not be useful for POLSC 111. B. Adams noted that the C-ID descriptor did not have a prerequisite. S. Berger noted that POLSC 165 was missing a prerequisite as well. Discussion ensued regarding adding POLSC 165 to the currently approved Political Science A.S.-T. R. Cranley added that it is important to at least have the course aligned with a C-ID number to benefit students when it comes to articulation. S. Miller replied that a C-ID designation would be ok but the department did not want the course placed in the A.S.-T. for now.

ANSC 270, ANSC 271, ANSC 272, and ANSC 273 pulled as a block for discussion by E. Lucas who questioned if Summative Evaluation, listed under Methods of Evaluation, are restricted to just final exams. B. Adams replied that at times summative evaluations might include a mid-term indicating the end of a block of information. J. Hayes confirmed that the mid-term signified the end of a block of material.  
E. Lucas questioned the learning objectives, stating that five objectives seemed limited. J. Hayes stated that she condensed the objectives and expounded with more detail in the Course Content which directly related to each objective.  
M/S/U (M. BOYD, E. MAKI) to ADOPT ANSC 270  
ANSC 270 and ANSC 271 pulled for discussion by S. Berger questioned why there were no prerequisites related to Animal Science. J. Hayes responded since ANSC 270 and ANSC 271 are part of the new Large Animal Veterinary Technician Certificate program it must meet the Veterinary Medical Board State regulations for students to qualify which regulates the number of units. Instead of prerequisites, the program has advisories which are recommended for success resulting in keeping within the State regulations.

MATH 835 Problem Solving Skills and Technology for MATH 134

CCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT:
Rationale: This new class is being added to provide an option for students to spend extra time on statistics lab material. (Instruction Office Note: Elementary Statistics, MATH 134, is 4 units of lecture with 0 lab units.)
Enrollment Restrictions: Requesting: (C) Concurrent enrollment in MATH 134.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Not transferable
C-ID Status: (None)
General Education Status: (None)
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

MATH 835 pulled for discussion by R. Cranley who referred to the comments submitted in the approval stream. B. Adams reviewed the comments for the committee noting she e-mailed H. Dhillon regarding R. Cranley’s comment: “Formative evaluation #2 and #3 are not connected to any of the objectives” and offered to enter the information on behalf of H. Dhillon. The issues had not been addressed as of the start of the meeting. M. Garcia questioned MATH 835 being a non-credit version of MATH 135. The committee also reviewed B. Sanders’ dean comment “I suggest changing the discipline field to non-credit math. Doing so will allow us to increase access for students by hiring different faculty to teach in the non-credit realm.” and B. Adams’ comment regarding the rationale that stated, “This new class is being added to provide an option for students to spend extra time on statistics lab material.” She noted that MATH 134 is a 4 unit lecture course. Discussion ensued. One of the questions that arose was regarding noncredit categories and how statistics content met the basic skills category. B. Adams noted that there were no representatives from the math department present to answer questions regarding MATH 835.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  B. Adams
   B. Adams stated that H. Townsend and she will be attending a Regional Curriculum meeting at Solano Community College on Friday, November 13, 2015 and will update the Curriculum Committee at the November 24, 2015 meeting. B. Adams returned the narrative drafts of the AG ADT proposals to M. Boyd for some minor changes with the note that the committee should see them on the next Curriculum Committee Agenda.

2. Articulation: C-ID, C-ID Newsletter  R. Cranley
   R. Cranley reported that MUSA 153 was approved for C-ID MUS 160 and noted that we have 179 courses with C-ID status. R. Cranley mentioned that the current C-ID Excel Sheet is on the Curriculum Committee web site or one can view it by clicking on the link included in the agenda.

   H. Townsend reported that two tickets have been fixed out of the several in process. The ticket addressing the “0’s” in the program queue is still being worked on. The misplaced zeros can be removed manually for now.

4. Outcomes Assessment Workgroup (OAW)  C. Redwing/P. Mendez
   C. Redwing reported that Senate Executive team is interested in getting feedback from those who attended the eLumen training. S. Circle noted that the goal is to train faculty and then have faculty train other faculty.

5. Adult Education  P. Mendez
   No Report

6. Academic Senate Report  C. Redwing
   C. Redwing noted that the Academic Senate passed the Student Equity Plan on the first read and Student Success and Support Program Plan (SSSP) on the second read. C. Redwing recommends that the committee members look at the two plans because they are transforming the way we do business with students in a fundamental way. The Academic Senate continues to look at Board Policies and Procedures. C. Redwing noted that B. Adams was appointed to the Executive Secretary - Instruction Office Hiring Committee.

   C. Redwing updated the Curriculum Committee on three Resolutions:
   - Academic Senate passed the ASCCC Resolution on Using for Profit in Provision of Honors Program Opportunities.
   - Resolution F15-D: Faculty Rights in Regards to Curriculum Design (which will be discussed as a New Business, Action Item).

X. UNFINISHED BUSINESS

Action Items

   B. Adams reaffirmed that it was determined that the Curriculum Review Process will be left as Unfinished Business with the understanding that it will be looked at in more detail once Basic Skills C-IDs are finalized. S. Circle noted that the C-ID drafts are still being worked on; nevertheless, they should be finished by December 31, 2015. B. Adams brought up the "Draft Descriptors" page of the Course Identification Numbering System (C-ID) website to review the draft descriptors’ for English – Basic Skills and Mathematics – Basic Skills. B. Adams asked the committee if they were ready to continue work on the "Curriculum Review Process" document. New Curriculum Committee member, N. Sill questioned what the "Course Justification Proposal Form" was. B. Adams went over the form and the history behind its development. Discussion ensued and questions were answered.
2. Lecture/Lab Guiding Principles

B. Adams passed out copies of the "Lecture/Lab/Discussion/Clinical Experience Guiding Principles" draft and requested that the committee members review the document. B. Adams asked committee members to e-mail her any comments, corrections, or discussion items regarding the draft. B. Adams noted that the feedback will help in the preparation for discussion at the November 24, 2015 Curriculum Committee meeting. Short discussion ensued.

Informational Items

(None)

XI. NEW BUSINESS

Action Items

1. MJC Academic Senate Resolution: F15-D

B. Adams reviewed Academic Senate Resolution: F15-D for the committee, then asked if the Curriculum Committee, as a body, wished to recommend either a “Yes” or “No” vote on the resolution to be communicated back to the Academic Senate at their November 19, 2015 meeting. C. Redwing noted it would be desirable to have a formal statement from the committee that he could read at the Academic Senate meeting.

The conversation of the Curriculum Committee members covered:
- The role, training, and extensive time spend as a Curriculum Committee member on reviewing courses.
- The “Open Door” policy and encouragement of the Curriculum Committee for faculty to attend the meetings.
- The responsibility of the representatives to express the opinions of their division.
- The extensive time and work spend on the Course Justification Proposal Form, by both faculty and Curriculum Committee members.
- The perceptions of some faculty.
- The first “Therefore” being problematic by directly contradicting the Academic Senate approval of the “Curriculum Review Process” on April 16, 2015.
- The suggestion on the second “Therefore” of adding a paragraph at the bottom of the Course Justification Proposal Form that states rationale for acceptance or rejection of the proposal.

M/S/C (M. GARCIA, M. BOYD) to vote “NO” on Academic Senate Resolution: F15-D

Motion Passed:
12 AYES (E. Maki, N. Sill, K. Butler, H. Duarte, L. Stephan, M. Garcia, R. Cranley, J. Beebe, C. Hudelson, M. Boyd, S. Cassidy, R. Cripe)

CCCO Proposal Type: Non-Substantial Change

Effective: Summer 2016 [Expedited]

Rationale for Expedited Approval: Expedited approval is needed, as this program has an external accrediting agency.

MODIFY: Number, enrollment restrictions, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

Rationale: Course is being reviewed and various components are being modified. Course number is being modified so it falls into a numerical sequence with the certified home health aide course.

Enrollment Restrictions: Maintaining: (A) Before enrolling in this course, students are strongly advised to obtain a GED or High School diploma; Removing: (L) Enrollment limited to students who have had a physical examination within the last three months and can provide confirmation of a PPD and pass a criminal background screening through the Livescan fingerprint process; Requesting: (L) Enrollment limited to students with no prior felony convictions.

NURSE 52 pulled for discussion by S. Circle who questioned the mention of additional fees listed in the catalog description. B. Adams noted that the mention of the additional costs were for informational purposes. The only statement in terms of cost that was taken out of the course description was enrollment fees.

M/S/U (S. CIRCLE, S. BERGER) to MODIFY NURSE 52

NURSE 52 pulled for discussion by S. Berger who questioned the requisite skill “Read and understand textbook content”. Discussion ensued and the committee left the skill as stated.

NURSE 276 Nursing Process: Advanced Medical-Surgical  
CCCCO Proposal Type: Non-Substantial Change  
Effective: Fall 2016 Expedited  
Rationale for Expedited Approval: The materials fee has changed due to a lapse with coverage. It is important that the fees are updated effective fall 2016 to benefit the students. This way the students will be charged the correct amount.  
MODIFY: Material fee  
Rationale: Increase in cost of 4th Semester Nursing Kit. This increase cost occurs on occasion due to contract changes with the vendor and re-evaluation of items needed in the kit.  
Enrollment Restrictions: Maintaining: (L) Enrollment limited to students accepted into the Associate Degree Nursing program.  
Distance Education Status: Maintaining: Teleclass

NURSE 276 pulled for discussion by S. Berger who questioned the percentages listed under Methods of Evaluation, Summative Evaluation item “2”. K. Butler noted that NURSE courses need to have specific information embedded in the Course Outline of Record for accreditation purposes. B. Adams and K. Butler will speak with faculty author, T. Adkins, to verify if the percentage is an accreditation issue or if item “2” can be changed. The Curriculum Committee agreed with the stipulation that modifications will be documented on the January 12, 2016 Curriculum Committee’s agenda, if changes are made.  
M/S/U (C. MULDER, E. LUCAS) to MODIFY NURSE 276

PHILO 105  Critical Reasoning and Analytic Writing  3
CCCO Proposal Type: Non-Substantial Change
Effective: Summer 2016 Expedited!
Rationale for Expedited Approval: Per UC, course must meet the English composition writing word-count requirement – substantial instruction and practice in writing at the college level with a minimum of 6,000 to 8,000 words. Courses must include substantial instruction and practice in writing at the college level with a minimum of 6,000-8,000 words. Modifications need to be reflected in the assignments or objective and/or the method of evaluation sections clearly reflecting the 6000 minimum words requirement being asked of our students. Upon approval course will be submitted to UCOP via OSCAR for reinstatement/continuation of the “E” and IGETC value.
MODIFY: Title, description, outcomes, objectives, content, methods of instruction, textbooks
Rationale: Course is being updated in order to maintain the UC-E eligibility area English Composition writing word-count requirement for this area, which is UC-E English Composition (3 semester or 4-5 quarter units) These courses must include substantial instruction and practice in writing at the college level with a minimum of 6,000-8,000 words.

M/S/U (E. LUCAS, E. MAKI) to MODIFY PHILO 107
S. Circle questioned Summative Evaluation item “2” under Methods of Evaluation, stating that it looked like an assignment that would be given to the student. R. Cranley noted that the Summative Evaluation related to a University of California (UC) requirement for transferability.
S. Berger questioned the use of “weekly” in objective “f” under Required Objectives. B. Adams modified the objective, with the approval of the committee, to read “Write at least 6,000 words in essays at a college level.”

Program Impact:
- Respiratory Care A.S. Degree
RSCR 224 pulled for discussion by S. Berger due to questions with the formative and summative evaluations under Methods of Evaluation. Concerns were also discussed regarding objectives related to assessments, the short list of lecture content related to the extensive list of lecture objectives, and lab content.
M/S (M. GARCIA, E. LUCAS). Motion withdrawn by M. Garcia. B. Adams will work with the faculty author to resolve the issues. Course will appear on the January 12, 2016 Curriculum Committee’s agenda, after revisions are made.

RSCR 251
Neonatal & Pediatric Clinical Practice I

CCCO Proposal Type: Non-Substantial Change
Effective: Summer 2016 Expedited
Rationale for Expedited Approval: Course was approved previously with a corequisite but the requisite did not make it into CNET. Course is still showing a corequisite in Datatel and the catalog. Corequisite is being removed and the summer 2016 catalog will need to reflect this change.
Modify: Enrollment restrictions, hours, field trip, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks
Rationale: Course is being updated for periodic review. Changes will be made to course description, objectives, and content.
Enrollment Restrictions: Maintaining: (P) Satisfactory completion of RSCR 242 and RSCR 244; Removing: (C) Concurrent enrollment in RSCR 244.

Program Impact:
- Respiratory Care A.S. Degree
RSCR 251 and RSCR 253 pulled as a block for discussion by S. Berger due to identical content. C. Mulder relayed to the committee, on behalf of B. Hunt, that RSCR 251 and RSCR 253 are in essence the same course run in two 5-week rotations in a clinical setting. RSCR 251 and RSCR 253 were set up as separate courses due to repeatability issues. Discussion ensued regarding adding wording to RSCR 251 and RSCR 253 to distinguish them apart. B. Adams will work with B. Hunt to differentiate the two courses. The Curriculum Committee agreed with the stipulation that modifications will be documented on the January 12, 2016 Curriculum Committee’s agenda.

NEW COURSES:

LOGST 201  Operations Management and Lean Principles  3

CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval [Expedited] (Requesting Summer 2016)

Rationale for Expedited Approval: The Logistics and Supply Chain Management program was initiated as part of the California Career Pathway Trust (CCPT) grant to respond to the increasing demand for trained workforce. The 4-year grant is currently in its second year, so the launch of the program already has a 2-year delay.

LOGST 201, LOGST 202, LOGST 203, LOGST 205, LOGST 206 pulled as a block for discussion by S. Akiona on behalf of N. Sill. C. Hudelson communicated N. Sill’s concerns of the reference to upper division courses, which students may conclude are transferable, and the effect LOGST courses have on the Business Administration division. P. Mendez noted that the Logistic program is still new and evolving in developing specific course work. Discussion ensued on transfer pathways, required units, degrees, and the overlap of courses with other MJC divisions. M. Garcia suggested Applied Studies as a degree option. B. Adams stated that the discipline for the LOGST courses have been changed to Transportation. P. Mendez mentioned that the Logistic student base is the workforce student base, focusing on getting the skills needed to go straight into the workforce.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams
B. Adams noted that three A.S.-T Degrees would be forwarded to the Board of Trustees for approval. B. Adams reported on the Northern California Regional Curriculum meeting she attended at Solano Community College on November 13, 2015. She conveyed the success of the ADTs indicating that over the last academic year the number of ADTs in the state had doubled from 11000 to 22000.

2. Articulation: C-ID, C-ID Newsletter R. Cranley
R. Cranley reported that there were no changes in MJC’s C-ID approvals and noted the link to the C-ID Newsletter (above) for general information and the status of individual C-IDs. S. Circle asked about the C-ID review cycle. R. Cranley indicated the review process was determined by the individual discipline faculty. B. Adams reported on the new COMM 115 C-ID descriptor.
3. CurricUNET Implementation/Issues

   B. Adams/H. Townsend

   H. Townsend reported that there are 11 tickets in the queue, mentioning that when a ticket is fixed it sometimes touches other areas resulting in additional issues.

4. Outcomes Assessment Workgroup (OAW)

   C. Redwing/P. Mendez

   B. Thames asked which committee had ownership of OAW. B. Adams reported that OAW is part of Academic Senate. B. Adams noted that the OAW Standing Report was left on the Curriculum Committee agenda because at one time the committee had a Curriculum Committee member who was also an OAW representative, so she would report. It was noted that an OAW representative no longer sits on the Curriculum Committee.

   **M/S/U (E. Lucas, S. Circle) to remove Outcomes Assessment Workgroup (OAW) as a standing report.**

5. Adult Education

   P. Mendez

   P. Mendez reported that the following items have been discussed and/or approved:
   
   - Approval of the purchase of English as a Second Language (ESL) textbooks which will reduce costs for students.
   - Community Education fee based General Education (GED) program became a zero fee based GED program for the upcoming semester.
   - Conversation efforts continue to support adult education learners.

6. Academic Senate Report

   C. Redwing

   C. Redwing reported that the MJC Academic Senate approved the Student Equity Plan, the Non Credit Student Success and Support Program Plan, and the motion to support CLEP and/or DANTES testing, although it’s up to each division/program to participate in the testing. C. Redwing also reported that Resolution F15-D, Faculty Rights in Regards to Curriculum Design, failed the second read and noted that the next Academic Senate meeting will include Resolution F15-E Assessment Exemption Proposal and Resolution F15-F Multiple Measures Workgroup, if anyone is interested in attending.

**X. UNFINISHED BUSINESS**

**Action Items**

1. Curriculum Review Process

   B. Adams

   S. Circle noted that the C-ID drafts for Basic Skills should be finalized by December 31, 2015. B. Adams asked the committee to prepare to work on closing the loop on the Curriculum Review Process for Non-Transferable courses in the spring.

2. Lecture/Lab Guiding Principles

   B. Adams

   **Guiding Principles**

   B. Adams went over the draft of the Lecture/Lab/Discussion/Clinical Experience Guiding Principles for the Curriculum Committee. The Curriculum Committee noted a few small typos which were fixed immediately.

   **M/S/U (E. Lucas, E. Maki) to approve the Lecture/Lab/Discussion/Clinical Experience Guiding Principles document.**

**Informational Items**

(None)
XI. NEW BUSINESS

Action Items

1. DE Addendum Review

B. Adams noted the Distance Education (DE) addendum in CurricUNet that faculty complete for DE proposals has not been evaluated since the inception of CurricUNet. She asked for the Committee's thoughts on formally requesting the DE Committee to review the DE addenda (hybrid, online, and teleclass) and provide suggested revisions and/or feedback. Committee members agreed this was a good idea.

M/S/U (S. Circle, M. Garcia) to have the DE Committee review the DE Addendum and provide any suggested revisions or feedback.

Informational Items

1. Curriculum Spring Training

B. Adams noted a Curriculum Spring Training scheduled for January 19, 2016, 2:30 p.m. to 4:30 p.m. in the Music Building, room 111. Outlook invites will be sent out soon. Topics to be covered include the Curriculum Committee's Self-Evaluation and a session on Non-Credit courses. B. Adams asked committee members to e-mail her any discussion items or suggestions for the training.

XII. PUBLIC COMMENT

M/S/U (E. Lucas, C. Mulder) to adjourn at 4:51 PM.

Members Absent: F. Banuelos, M. Boyd, R. Cripe, C. Redwing (Co-chair), L. Stephan, Science, Mathematics and Engineering Representative (vacant)

Others Present: K. Addington (Administrative Technician), J. Daly (Dean of Literature and Language Arts & Library), J. Hughes (Evaluator), B. Hunt (RSCR), A. Roth (RSCR), H. Townsend (Curriculum Process Specialist)

I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion to modify the order of the agenda to accommodate Respiratory Care faculty as well as move XI. New Business Informational Item #1 Curriculum for the Baccalaureate Degree before V. Course Discussion Agenda was approved.

II. APPROVAL OF MINUTES

November 24, 2015

Hearing no objections, the minutes of November 24, 2015 were approved as stated.

Course Activity Report

ART 196  Art Independent Study  C  3
Effective: Summer 2015 Expedited
Rationale for Expedited Approval: The course came through for adoption on October 7, 2014. The course outline of record showed the course as a non-graded course which was an error. The course grading policy is A-F or P/NP only. The course was updated in Datatel and is here for the purpose of the record.
MODIFY: Grading policy

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

EMS 390  Emergency Medical Technician 1  6
CCCCO Proposal Type: Non-Substantial
Effective: Summer 2016 Expedited
Rationale for Expedited Approval: Updating fees to reflect accurate cost of student materials fee.
MODIFY: Material fees
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $35.00 to $45.00

RSCR 253  Neonatal & Pediatric Clinical Practice II  1/2
Effective: Summer 2016
MODIFY: Course Description
Rationale: This course was approved by the Curriculum Committee (November 24, 2015) with the understanding that B. Adams would work with B. Hunt to differentiate the course description between RSCR 251 and RSCR 253. The course description for RSCR 253 has been modified to read “Additional respiratory care clinical practice in perinatal, neonatal and pediatric care.”

V. COURSE DISCUSSION AGENDA

INACTIVATIONS:

THETR 103  Dance Repertory Rehearsal & Performance  2
CCCCO Proposal Type: Inactivation
Effective: Summer 2016 Expedited
Rationale for Expedited Approval: To ensure that the course is removed from the 2016-2017 catalog, we are asking for expedited approval.
INACTIVATE:
Rationale: Course is being inactivated due to the recent creation of new DANCE courses for summer 2016.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).
M/S/U (E. MAKI, E. LUCAS) to INACTIVATE THETR 103

TUTOR 810  Tutoring Seminar  0  
CCCCO Proposal Type: Inactivation  
Effective: Summer 2016 Expedited  
Rationale for Expedited Approval: To ensure that the course is removed from the 2016-2017 catalog, we are asking for expedited approval.  
INACTIVATE:  
Rationale: This course was created many years ago to collect apportionment in a computer lab. It was associated with operations Martha Robles was in charge of in the old Tutoring Center. With the creation of Learning Center and the use of Tutor 850 in its place, Tutor 810 is no longer needed.  
Program Impact:  
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

Effective: Upon CCCCO approval Expedited (Requesting Summer 2016)  
Rationale for Expedited Approval: This is a required component of the new B.S. degree in Respiratory Care and needs to be approved before the program can be offered.  
ADOPT  
Rationale: This course is being proposed to satisfy the upper division GE oral communication requirement for the Respiratory Care Baccalaureate Degree.  
Enrollment Restrictions: Requesting: (L) Enrollment limited to students accepted into the Respiratory Care Baccalaureate Degree program.  
Distance Education Status: Requesting: Mixed modalities/hybrid

M/S/U (E. MAKI, K. BUTLER) to ADOPT DE for COMM 400  
COMM 400, PHILO 400, SOCIO 400 pulled as block for discussion by M Garcia who questioned why, as upper division courses, COMM 400, PHILO 400, and SOCIO 400 are asking for lower division General Education (GE). R. Cranley referred to the e-mail attachment from K. O’Donnell and also noted that CurricUNET doesn’t have the capability to differentiate between upper and lower division GE. Discussion ensued. B. Adams suggested approving COMM 400, PHILO 400, and SOCIO 400 with the current GE designation with the understanding that CurricUNET doesn’t have anything in place to designate the upper division GE area and the appropriate upper division GE would be designated on the submission forms provided by the Chancellor’s Office, which are near finalization. The Curriculum Committee agreed.  
M/S/U (E. LUCAS, S. BERGER) to PLACE COMM 400 on UPPER DIVISION GE  
M/S/U (M. GARCIA, S. CIRCLE) to EXPEDITE ADOPTION of COMM 400
ENGL 45  Accelerated Reading, Writing, and Reasoning
Effective: Upon CCCCO approval Expedited (Requesting Fall 2016)
Rationale for Expedited Approval: We would like to pilot this course in fall of 2016 and give basic skills students at MJC an opportunity to successfully complete their basic skills writing courses in one semester and move forward to English 101.
ADOPT
Rationale: Accelerated basic skills courses have been proven to increase student success and retention.
Enrollment Restrictions: Requesting: (P) Satisfactory completion of READ 40 or qualification by the MJC assessment process.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Not transferable

ENGL 45 pulled for discussion by T. Guy who questioned if Formative Evaluation #4 “In-class essay final” could be moved under Summative Evaluation. S. Circle agreed to the move of “In-class essay final”. B. Adams made the changes in CurricUNET.

N. Sill asked what model for unit value was used for ENGL 45. S. Circle answered that Santa Barbara was used as a model and proceeded to expound on the structure of ENGL 45.

T. Guy questioned Methods of Instruction item #14 “embedded librarian” noting that the library link states “no resources needed”. After discussion, item #14 under Methods of Instruction was changed to “Utilize embedded counselor and librarian”.

M/S/U (S. CIRCLE, S. BERGER) to ADOPT ENGL 45
M/S/U (E. LUCAS, P. MENDEZ) to ADOPT REQUISITES for ENGL 45
M/S/U (M. GARCIA, S. CIRCLE) to EXPEDITE ADOPTION of ENGL 45

HE 114  Health and Social Justice
Effective: Upon CCCCO approval Expedited (Requesting Summer 2016)
Rationale for Expedited Approval: Faculty are working on getting all of the courses for the Public Health ADT approved for C-ID. It is important that this class is approved before the template is submitted.
ADOPT
Rationale: This course is being proposed because it is a core requirement for the AS-T in Public Health, a degree we are currently writing. Requesting: C-ID PHS 102.
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ENG 50 or qualification by MJC assessment process.

PHILO 400 Medical and Bioethics 3

**Effective:** Upon CCCCO approval Expedited (Requesting Summer 2016)

**Rationale for Expedited Approval:** This is a required component of the new B.S. degree in Respiratory Care to begin in the summer of 2016.

**ADOPT**

**Rationale:** This medical and bioethics course will apply ethical theory to issues and situations they are likely to confront as medical healthcare professionals. Students will use critical thinking skills to understand the dilemmas that arise in healthcare and write well-reasoned argumentative essays and/or papers. This cohort of students in the Respiratory Care BS program will learn to identify ethical issues common to clinical and hospital settings as well as larger issues affecting society-wide ethical issues in medicine and healthcare. This upper division course satisfies the BS requirement and meets minimal standards outlined by CoARC. This upper division course will include an intensive writing and critical thinking component on issues relevant to careers in respiratory care and healthcare. This is relevant content and skill development not addressed by other course offerings in the program.

**Enrollment Restrictions:** Requesting: (L) Enrollment limited to students accepted into the Respiratory Care Baccalaureate Degree Program.

**Distance Education Status:** Requesting: Mixed modalities/hybrid, online

**Materials Fee Status:** (None)

**Articulation Status:** Requesting: CSU

**C-ID Status:** (None)

**General Education Status:** Requesting: (CSU-GE: C2) Upper Division GE

**Program Impact:**
- Respiratory Care B.S. Degree (In Process)

**PHILO 400 pulled for discussion by M. Garcia** who questioned the request for honors. It was determined that the box for “honors” was checked in error. B. Adams removed “honors” from the course.

PHYS 152 Problem Solving Skills for Physics 142

Effective: Upon CCCCO approval (Requesting Fall 2016)

Rationale for Expedited Approval: Expedited approval is being requested so the newly created discussion course aligns with the effective date of the recently revised physics course which decreased in unit value. The ability to offer the optional discussion course when the revised physics course goes into effect will help students who need additional problem-solving sets.

ADOPT

Rationale: Recent changes in state curriculum guidelines with TMC’s have forced reductions in course unit values. The discussion hour has been an integral part of physics education at MJC. This optional course allows us to maintain a curriculum that has proved successful. In evaluating the program learning outcomes for our curriculum, the data suggests that problem-solving skills, mathematical applications and instrumentation techniques prove to be the most challenging part of the course curriculum for our students at MJC. We thus need to maintain this type of contact with students to insure continued success.

Enrollment Restrictions: Requesting: (C) Concurrent enrollment in PHYS 142.

PHYS 166

Problem Solving Skills and Technology for Physics 165

Effective: Upon CCCCO approval Expedited (Requesting Fall 2016)

Rationale for Expedited Approval: Expedited approval is being requested so the newly created discussion course aligns with the effective date of the recently revised physics course which decreased in unit value. The ability to offer the optional discussion course when the revised physics course goes into effect will help students who need additional problem-solving sets.

ADOPT

Rationale: Recent changes in state curriculum guidelines with TMC's have forced reductions in course unit values. The discussion hour has been an integral part of physics education at MJC. This optional course allows us to maintain a curriculum that has proved successful. In evaluating the program learning outcomes for our curriculum, the data suggests that problem-solving skills, mathematical applications and instrumentation techniques prove to be the most challenging part of the course curriculum for our students at MJC. We thus need to maintain this type of contact with students to insure continued success.

*RSCR 421 pulled for discussion by M. Garcia* who questioned the corequisite. B. Adams noted that the corequisite should be discussed with the requisites.

B. Hunt asked if it was too late to withdraw RSCR 421 from the agenda. B. Adams referred the appeal to the Vice President of Instruction, B. Thames. B. Thames asked B. Hunt for the reasoning behind the appeal to withdraw the course. B. Hunt responded that the Respiratory Care faculty didn't want Advanced Pharmacology and Critical Care to be split between two courses (lecture and lab). They wished to follow the Skyline College model which is a three unit course (lecture and lab combined). K. Butler and A. Roth expounded on the request to remove RSCR 421 from the agenda. Discussion ensued and questions were asked and answered. The Curriculum Committee determined more information was needed and a suggestion was made to hold a special meeting on January 19 since the committee was meeting for the spring training. B. Adams asked if most members would be able to attend to ensure quorum was met. Many members indicated they would be attending. B. Adams noted that because of time limitations, RSCR 420 and RSCR 421 (if determined that RSCR 421 would still be proposed), and the Respiratory Care B.S. Degree proposals would be presented to the Curriculum Committee at a special meeting held before the scheduled spring training on January 19, 2016. A special meeting agenda would be created and sent to committee members by Friday.

Application for Approval - New Credit Programs (Formerly the CCC-501)

ADOPT: RESPIRATORY CARE PROGRAM
B.S. Degree: Respiratory Care

ADOPT: Effective: Upon CCCCO Approval Expedited (Requesting Summer 2016)
Rationale for Expedited Approval: We are asking for summer 2016 approval to ensure that the pilot program, upon CCCCO approval, is listed in the 2016-2017 catalog.
Rationale: The Modesto Junior College Respiratory Care Baccalaureate Degree Program will offer a pilot program offering a Bachelor of Science degree in respiratory care.

M/S/U (M. GARCIA, S. CIRCLE) to ADOPT B.S. DEGREE: RESPIRATORY CARE
R. Cranley questioned why IGETC was not reflected on the B.S. Degree. B. Adams noted she would clarify with B. Hunt and if IGETC should be added to the B.S. in Respiratory Care. If it should be added, it will be documented on the January 26, 2016 agenda. The Curriculum Committee agreed to the stipulation.

M/S/U (M. GARCIA, S. CIRCLE) to EXPEDITE ADOPTION of B.S. DEGREE: RESPIRATORY CARE

IV. PUBLIC COMMENT

M/S/U (E. MAKI, S. CIRCLE) to adjourn at 3:22 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of the agenda was approved as stated.

II. APPROVAL OF MINUTES

January 12, 2016 & January 19, 2016

Hearing no objections, the minutes of January 12, 2016 & January 19, 2016 were approved as stated.

III. COURSE NOTIFICATION AGENDA

CCCCO Course Approvals

LOGST 301 (CCC000569485)
PEVM 147XABC (CCC000569487)
PEVW 147XABC (CCC000569488)

Course Activity Report

(None)
IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved:

COMM 122
Introduction to Readers' Theatre
Effective: Upon Curriculum Committee approval
Rationale: The COMM faculty met in Fall 2015 for scheduled PLO assessment review. CLO #3 (Describe the Readers' Theatre process.) is being removed based on discussion of alignment of CLOs to PLOs. It was determined the CLO does not align with any PLOs.
1. Adapt any material into a script format.
2. Interpret literature by using voices and nonverbal communication to enhance the author's message for an audience.

THETR 122
Effective: Upon Curriculum Committee approval
Rationale for Expedited Approval: This is a required component of the new B.S. degree in Respiratory Care and needs to be approved before the program can be offered.

SOCIO 400
Medical Sociology: Health and Diversity
Effective: Upon CCCCO approval Expedited (Requesting Summer 2016)
Rationale: Approved at 1/12/16 meeting with the condition that the word count listed in the methods of evaluation be verified by K. Olson. K. Olson verified it is a 3500 word essay. The MOE was changed to match word count in assignments.

V. COURSE DISCUSSION AGENDA

INACTIVATIONS:

NURSE 276
Nursing Process: Advanced Medical-Surgical
CCCCO Proposal Type: Inactivation
Effective: Spring 2017 Expedited
Rationale for Expedited Approval: To increase student success it is vital that NURSE 276 and NURSE 277 be combined to create only one single course, NURSE 278.

NURSE 277
Nursing Process: Leadership and Preceptorship
CCCCO Proposal Type: Inactivation
Effective: Spring 2017 Expedited
Rationale for Expedited Approval: To increase student success it is vital that NURSE 276 and NURSE 277 be combined to create only one single course, NURSE 278.
MODIFICATIONS:

**ART 164**

**History of Art 1: Prehistoric to Gothic**

**CCCCO Proposal Type:** Non-Substantial

**Effective:** Summer 2017

**MODIFY:** Title, textbooks, methods of instruction

**Rationale:** This course is being submitted for the sole purpose of making its content more easily understood through its title. In particular the issue of articulation with UC’s is important (and these time periods are the standard), but this change to more descriptive titles should also benefit our students. The only alterations are to the title and in updating the textbooks.

**Enrollment Restrictions:** (None)

**Distance Education Status:** Maintaining: Online

**Materials Fee Status:** (None)

**Articulation Status:** Transfers to CSU and UC; (CC: ART 11)

**C-ID Status:** Approved for: ([C-ID ARTH 110])

**General Education Status:** Approved for: (MJC-GE: C), (CSU-GE: C1), (IGETC: 3A)

**Program Impact:**
- Art A.A. Degree
- Art History AA-T Degree
- CSU General Education Pattern Certificate of Achievement
- General Studies, Emphasis in Humanities A.A. Degree
- MJC-GE Pattern A.A. Degree
- Studio Arts AA-T Degree
- University Preparation, Emphasis in Humanities A.A. Degree

**M/S/U (C. MULDER, K. BUTLER) to MODIFY ART 164**

**M/S/U (C. MULDER, R. CRIPE) to MAINTAIN DE for ART 164**

**M/S/U (M. GARCIA, R. CRIPE) to MAINTAIN PLACEMENT of ART 164 on GE PATTERN(S)**
ART 165  

**History of Art 2: Renaissance to Contemporary**  

**CCCCO Proposal Type:** Non-Substantial  

**Effective:** Summer 2017  

**MODIFY:** Title, textbooks, methods of instruction  

**Rationale:** This course is being submitted for the sole purpose of making its content more easily understood through its title. CHEM 133  

**Problem Solving Skills For CHEM 143**  

**CCCCO Proposal Type:** Non-Substantial  

**Effective:** Summer 2017  

**MODIFY:** Grading policy  

**Rationale:** We would like to update the grading to be pass/fail and not letter grade.  

**Enrollment Restrictions:** Maintaining: (C) Concurrent enrollment in CHEM 143.  

**Distance Education Status:** (None)  

**Materials Fee Status:** (None)  

**Articulation Status:** Transfers to CSU  

**C-ID Status:** (None)

**Program Impact:**  
- Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).  

**CHEM 133 pulled for discussion by C. Hudelson** who asked if CHEM 133 satisfies the University of California (UC) requirements for transferability. Discussion ensued. B. Adams noted she would follow up with R. Cranley and a notification or consent item would be added to the February 9, 2016 agenda on the results of the articulation piece that qualifies or disqualifies CHEM 133 for UC transferability.  

**M/S/U (E. LUCAS, C. HUDELSON) to MODIFY CHEM 133**  

**M/S/U (E. MAKI, E. LUCAS) to MAINTAIN REQUISITES for CHEM 133**
COMM 102
Introduction to Human Communication

EMS 380
Basic ECG Interp/Intro to Cardiac Care
CCCO Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY: Methods of instruction
Rationale: This course is being updated for periodic review.
Enrollment Restrictions: Maintaining: (A) Before enrolling in this course, students are strongly advised to possess an understanding of basic medical terminology.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Not transferable
C-ID Status: (None)
General Education Status: (None)
Program Impact:
- Emergency Medical Services Certificate of Achievement (in process)
- Fire Science Certificate of Achievement
- Fire Science A.S. Degree
EMS 380 pulled for discussion by T. Guy who requested that field trips be added to the Methods of Instruction (MOI). B. Adams noted that “Possible field trips” was added to the MOI before the meeting.
M/S/U (R. CRIPE, E. LUCAS) to MODIFY EMS 380
M/S/U (E. MAKI, E. LUCAS) to MAINTAIN REQUISITES for EMS 380
NURSE 272  Nursing Process: Geriatric Nursing  1  CCCCO Proposal Type: Non-Substantial  Effective: Summer 2017  MODIFY: Description, outcomes, objectives, content, typical assignments, methods of evaluation, textbooks  Rationale: Course is being updated to add textbook, revise course learning outcomes CLO's, and to update lab objectives, course content, lab content, and course assignments.  Enrollment Restrictions: Maintaining: (L) Enrollment limited to students who are accepted into the Associate Degree Nursing program.  Distance Education Status: Maintaining: Teleclass  Materials Fee Status: (None)  Articulation Status: Transfers to CSU  C-ID Status: (None)  General Education Status: (None)  Program Impact:  - Nursing: Associate Degree Nursing Program (RN) A.S. Degree  - Nursing: LVN to ADN (Rn) Advanced Placement Pathway  NURSE 272 pulled for discussion by T. Guy who asked for clarification of what a teleclass entailed.  B. Adams explained that a teleclass is a live video stream via TV/computer from the classroom where students can ask questions, provide response, and complete in-class activities. She reminded committee members distance education is approved separately, and if this course was being pulled for question on DE, it should be pulled for discussion during the DE approvals, not during course approvals.  S. Berger stated that she found the “Assignments” section confusing. B. Adams adjusted the formatting which allowed for better configuration and identification of the assignments.  M/S/U (K. BUTLER, E. LUCAS) to MODIFY NURSE 272  M/S/U (E. MAKI, E. LUCAS) to MAINTAIN REQUISITES for NURSE 272  M/S/U (C. MULDER, R. CRIP) to MAINTAIN DE for NURSE 272

NURSK 800  Nursing Skills Development  0  CCCCO Proposal Type: Non-Substantial  Effective: Spring 2017 Expedited!  Rationale for Expedited Approval: The requisites need to reflect the appropriate courses. This course is being changed and expedited as a package with the expedited request for changes in Nurse 40, 52, 276, 277, 278.  MODIFY: Outcomes, content, textbooks, requisite skills  Rationale: Corequisites are being revised to reflect the recent change of NURSE 40 which is now NURSE 52. Also, inactivation of NURSE 276 & 277, and the combination of these two courses with the creation of NURSE 278.  Enrollment Restrictions: Removing: (C) Concurrent enrollment in NURSE 271 or NURSE 272 or NURSE 273 or NURSE 274 or NURSE 275 or NURSE 276 or NURSE 277 or NURSE 259 or NURSE 40 or NURWE 361 or NURWE 362; Requesting: (C) Concurrent enrollment in NURSE 271 or NURSE 272 or NURSE 273 or NURSE 274 or NURSE 275 or NURSE 259 or NURSE 52 or NURWE 361 or NURSE 278 or NURWE 362. **READ 82**

**College Reading - Comprehension**
CCCOCO Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY: DE modalities, description, outcomes, objectives, content, typical assignments, methods of instruction, textbooks, requisite skills
Rationale: This course is being updated per scheduled curriculum review.
Enrollment Restrictions: Maintaining: (A) Before enrolling in this course, students are strongly advised to satisfactory complete READ 40 or qualification by the MJC assessment process.
Distance Education Status: Requesting: Online, mixed modalities/hybrid

Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

READ 82 pulled for discussion by T. Guy who asked how can an instructor meet required objective #20 (Choose reading as a recreational activity with increasing frequency). Discussion ensured with a suggestion to modify objective #20 to read “Choose reading as a recreational activity with increasing frequency over the term”. B. Adams and S. Berger will follow up with C. Briggs for clarification of objective #20 with the result being noted on the February 9, 2016 agenda.

M/S/U (E. LUCAS, M. GARCIA) to MODIFY READ 82

**M/S/U (C. MULDEN, K. BUTLER) to MODIFY SPELL 31**  
H. Duarte noted that SPELL 31 should be consistent with SPELL 32. Under the Objectives section in CurricUNET. In each application where “Post-test” is listed there should be a corresponding “Pre-test”.  
B. Adams added “Pre-tests” under Formative Evaluation to correspond with “Post-tests” listed under Summative Evaluation” and she will verify with C. Briggs regarding the assessments. Modifications will be noted on the February 9, 2016 agenda.

NEW COURSES:

NURSE 278

NURSE 278: Nursing Process: Advanced Medical-Surgical

**CCCGO Proposal Type:** New Credit Course  
**Effective:** Upon CCCGO approval  
**Rationale for Expedited Approval:** Outcome assessment results show that the student is not benefiting from taking NURSE 276 and NURSE 277 separately. To increase student success it is important that NURSE 276 and 277 be combined into a new course, NURSE 278. This course will replace 276 and 277.

**ADOPT**

**Rationale:** Inactivating NURSE 276 and NURSE 277 courses and combining into one new course to increase student success.

**Enrollment Restrictions:** Requesting: (C) Concurrent enrollment in NURSK 800; Requesting: (L) Enrollment limited to Students who have been accepted into the Associate Degree Nursing Program.

**Distance Education Status:** (None)

**Materials Fee Status:** Requesting fee of $259.00

**Articulation Status:** Requesting: CSU

**C-ID Status:** (None)

**General Education Status:** (None)

**Program Impact:**
- Nursing: Associate Degree Nursing Program (RN) A.S. Degree
- Nursing: LVN to ADN (RN) Advanced Placement Pathway A.S. Degree

**M/S/U (C. MULDER, K. BUTLER) to ADOPT NURSE 278**

S. Berger questioned the 110% instructor load. K. Butler noted that NURSE 278 is team taught. B. Adams also noted that the Curriculum Committee does not look at the load in CurricUNet. Load is populated by the Instruction Office.

**M/S/U (E. MAKI, E. LUCAS) to EXPEDITE ADOPTION of NURSE 278**

NURSE 278 pulled for discussion by E. Maki who observed that this course is a combination of two existing courses (NURSE 276 & NURSE 277), and asked if the rationale of “progression within the program” for expedited approval meets the need. B. Adams pointed out that there wasn’t an option out of the five criteria listed in CurricUNET for K. Butler to select that really fit this expedited approval request. K. Butler clarified the reason for expedited approval. K. Butler noted that having the course currently as two separate courses is not working for student success. Having separate courses created more problems. K. Butler reported that the students will now get one grade for one course instead of two grades. This will minimize stress for the student. C. Mulder noted that with the approval of the inactivation of NURSE 276 & NURSE 277 for spring 2017, a spring 2017 expedited request for NURSE 278 was required for alignment.

PHYS 112  

**Problem Solving Skills for Physics 102**

**CCCO Proposal Type:** New Credit Course  

**Effective:** Upon CCCCO approval [Expedited] (Requesting Fall 2016)  

**Rationale for Expedited Approval:** Expedited approval is being requested so the newly created discussion course aligns with the effective date of the recently revised physics course which decreased in unit value. The ability to offer the optional discussion course when the revised physics course goes into effect will help students who need additional problem-solving sets.

**ADOPT**  

**Rationale:** Recent changes in state curriculum guidelines with TMC's have forced reductions in course unit values. The discussion hour has been an integral part of physics education at MJC. This optional course allows us to maintain a curriculum that has proved successful.

**Enrollment Restrictions:** Requesting: (C) Concurrent enrollment in PHYS 102.

**Distance Education Status:** (None)

**Materials Fee Status:** (None)

**Articulation Status:** Requesting: CSU

**PHYS 112, PHYS 113, PHYS 121, PHYS 153 pulled as a block for discussion by S. Berger** who suggested that there should be consistency within the Problem Solving courses in regard to the discussion verses lecture designation. Discussion ensued regarding the Problem Solving courses and the issues they are encountering. C. Hudelson also restated her request for UC transferability that was discussed with CHEM 133. B. Adams replied that she would add the PHYS courses to CHEM 133 when she speaks to R. Cranley regarding the possibility of adding UC transferability to these courses.

**M/S/U (E. LUCAS, C. HUDELSON) to ADOPT PHYS 112**

PHYS 121  Problem Solving and Technology for Physics 101  1

CCCO Proposal Type: New Credit Course

Effective: Upon CCCCO approval [Expedited] (Requesting Fall 2016)

Rationale for Expedited Approval: Expedited approval is being requested so the newly created discussion course aligns with the effective date of the recently revised physics course which decreased in unit value. The ability to offer the optional discussion course when the revised physics course goes into effect will help students who need additional problem-solving sets.

ADOPT

Rationale: Recent changes in state curriculum guidelines with TMC’s have forced reductions in course unit values. The discussion hour has been an integral part of physics education at MJC. This optional course allows us to maintain a curriculum that has proved successful. In evaluating the program learning outcomes for our curriculum, the data suggests that problem-solving skills, mathematical applications and instrumentation techniques prove to be the most challenging part of the course curriculum for our students at MJC. We thus need to maintain this type of contact with students to insure continued success.

LOGISTICS AND SUPPLY CHAIN MANAGEMENT PROGRAM
A.S. Degree: Logistics and Supply Chain Management 31-34

MODIFY: Program requirements

Effective: Upon CCCCO approval

Rationale: At the November 24, 2016 Curriculum Committee meeting the A.S. in Logistics and Supply Chain Management was approved with the stipulation that the degree requirements be modified to not state that the degree is a transfer degree. H. Townsend has removed the transfer statement in CurricUNET and the MJC catalog will reflect the corrected statement.
Curriculum Committee Minutes – January 26, 2016

MODIFY: RESPIRATORY CARE PROGRAM
B.S. Degree: Respiratory Care

MODIFY: Program requirements

Effective: Upon CCCCO approval

Rationale: At the January 19, 2016 Curriculum Committee special meeting the B.S. in Respiratory Care was approved. R. Cranley noted that the program requirements specified only CSU-GE and not IGETC. H. Townsend alerted B. Hunt after the meeting and was advised by B. Hunt that “or IGETC” should be added to the requirements. H. Townsend made the revision in CNET.

VII. PROGRAM CONSENT AGENDA

MODIFY: AGRICULTURE ANIMAL SCIENCE PROGRAM
A.S.-T Degree: Agriculture Animal Sciences

MODIFY: Required core

Effective: Upon CCCCO Approval

Rationale: This A.S.-T degree was approved at the November 24, 2015 Curriculum Committee meeting. It was noted that ECON 102 was listed in the Required Core section and the template should have instead showed ECON 101. This has been fixed in all systems and sent off to the CCCCO for final approval. The revision is noted here for the purpose of the record.

M/S/U (S. BERGER, S. CIRCLE) to MODIFY A.S.-T DEGREE: AGRICULTURE ANIMAL SCIENCES

A.S. Degree: Nursing: Associate Degree Nursing Program (RN) 60

MODIFY:

Required courses
Effective: Upon CCCCO approval (Requesting Spring 2017)
Rationale for Expedited Approval: To increase student success NURSE 276 and 277 have been combined into one course, NURSE 278. The upcoming catalog will need to reflect the modified program.
Rationale: Degree is being updated to reflect the inactivation of NURSE 276 and NURSE 277 as well as the adoption of NURSE 278.

A.S. DEGREE: NURSING: ASSOCIATE DEGREE NURSING PROGRAM (RN) pulled for discussion by T. Guy who stated that the Program Learning Outcomes (PLOs) combined with the introductory statement was grammatically incorrect. K. Butler noted that the PLOs are written per the California Nursing Act section 1443.5. Standards of Competent Performance. The Curriculum Committee recommended that the introductory prompt be stopped after “student” and a statement added confirming that the PLOs are from the California Nursing Act section 1443.5. Standards of Competent Performance. B. Adams will work with K. Butler and H. Townsend to combine the introductory statement with the BRN code so it’s grammatically correct. Documentation of the results will be noted on the February 9, 2016 agenda.

E. Lucas asked how the elective work experience courses figured into the total units. K. Butler answered that the work experience courses are not counted towards the total units.

MODIFY: Description, units

Effective: Upon CCCCO approval Expedited (Requesting Spring 2017)

Rationale for Expedited Approval: Requesting expedited approval to ensure accuracy of catalog offerings for the 2016-2017 catalog.

Rationale: The A.S.-T in Physics is being modified to reflect the recent changes to the PHYS course units. The catalog description has also been modified to include reference to CSU-GE breadth requirements since the reduced unit values of PHYS courses now enables the student to use CSU-GE breadth pattern in addition to IGETC to comply with the 60 unit maximum.

M/S/U (S. BERGER, S. CIRCLE) to MODIFY A.S.-T DEGREE: PHYSICS

B. Adams informed the committee that the C-ID for MATH 173 has expired so the revision of the A.S.-T. Degree in Physics cannot be submitted to the State Chancellor's Office until MATH 173 has C-ID approval. The Chancellor's office requires that all C-IDs listed in ADTs must be fully approved before submission. The A.S.-T will stay in draft form at the state until the MATH 173 C-ID has been approved. Once the MATH 173 C-ID is approved, H. Townsend will submit to the Chancellor's office for final approval.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams noted that there have been no new ADT approvals since the last Curriculum Committee meeting. SPAN 103, SPAN 104, and the A.A.-T in Spanish Degree proposals are scheduled to appear on the February 9, 2016 Curriculum Committee agenda along with possibly the A.S.-T in Chemistry Degree. Both of these transfer degrees are included in the California Community Colleges Chancellor's Office (CCCCO) ADT 18-month timeline. B. Adams went over the December CCCCO ADT Progress Report.

2. Articulation: C-ID, C-ID Newsletter R. Cranley

No Report

H. Townsend reported that there is one ticket in the queue for the course copy bar which is being worked on.

4. Adult Education P. Mendez

No Report

5. Academic Senate Report S. Amador

S. Amador mentioned that the Program Discontinuance Proposal is the main topic under discussion.
X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process  
   B. Adams  
   S. Circle pointed out that the Faculty Discipline Review Group will be meeting on February 4, 2016. She noted that the English C-ID was sent back for revisions and more information should be available after the February 4th meeting. B. Adams commented that the Curriculum Review Process will continue on the agenda as Unfinished Business.

2. DE Addendum Review  
   B. Adams  
   B. Adams reported that she attended the January 11, 2016 Distance Education Committee meeting to give a presentation that showed CurricUNET and what the DE addenda looked like in terms of hybrid, online, teleclass. She informed the DE Committee members that telecourse and teleweb modalities are no longer used. B. Adams then made a formal request for recommendations for DE addenda best practices. A sub-committee was formed which will be meeting on Monday, February 1, 2016. Recommendations from the Distance Education Committee will be brought forth to the Curriculum Committee for consideration.

Informational Items

1. Curriculum Spring Training  
   B. Adams  
   B. Adams gave a summary of the Curriculum Spring Training.
   - Quorum was met for the Special Meeting Agenda where RSCR 420 and the Respiratory Care B.S. Degree were approved.
   - Section 4 (Noncredit Curriculum) of the Program and Course Approval Handbook (PCAH) was handed out and reviewed as a reference document.
   - The Curriculum Committee members participated in a SWOT (Strengths, Weaknesses, Opportunities, and Threats) analysis as part of a self-evaluation discussion. A previous self-evaluation was also reviewed.
   - Moving the Curriculum Committee meeting location to the MJC East Campus in spring 2017 was discussed.

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Self-Evaluation  
   B. Adams  
   B. Adams noted she is working on a Self-Evaluation report for the Curriculum Committee’s review, discussion, and approval that will then be forwarded on to the Academic Senate.

Informational Items

1. CCCCO Press Release: 2015-16 Exemplary Program Award Recipients  
   B. Adams  
   B. Adams referred to the CCCCO Press Release recognizing two exemplary programs: Las Positas College for its Early Childhood Development – Math Learning Community and Pasadena City College for its Biology 11: General Biology hybrid course.

XII. PUBLIC COMMENT

B. Thames mentioned she would ask LeBaron Woodyard, from the Chancellor’s Office, to speak to the Curriculum Committee regarding noncredit curriculum.
H. Duarte imparted on behalf of the counselors that the A.A.-T in Elementary Teacher Education Degree is not supportive to the students. Reactivation of the A.A. in Liberal Studies is preferred by the counselors, especially for those students transferring to Stanislaus State. B. Adams and C. Hudelson will revisit the issue in support of the students.

S. Circle questioned a discussion related to AST, ADT, and C-ID descriptors held at the Dean’s Cabinet. B. Thames clarified the conversation.

M/S/U (E. LUCAS, E. MAKI) to adjourn at 4:55 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion to modify the order of the agenda by moving IX. Standing Reports Items #1 (Transfer Model Curriculum) and #2 (Articulation) before V. Course Discussion Agenda and to accommodate guest speaker J. Daly was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of January 26, 2016 were approved as stated.

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
**Course Activity Report**

**MATH 122**  
Pre-Calculus 2  

**CCCCO Proposal Type:** Not applicable  
**Effective:** Summer 2015, Expedited  
**MODIFY:** Enrollment restrictions  
**Rationale:** The Instruction Office was alerted that the catalog showed an advisory for a course that is not active. The following advisory was removed from the active version of MATH 122 in CNET:  
Recommended for Success: Before enrolling in this course, students are strongly advised to satisfactorily complete MATH 80. The 2016-2017 catalog will show this modification.

**IV. COURSE CONSENT AGENDA**

*Hearing no objections, the following course changes were approved.*

These courses were approved by the Curriculum Committee on January 26, 2016 with the understanding that research would be conducted to see if they would possibly qualify for University of California (UC) transferability. Evidence was found to support requesting UC transfer status and if approved by the Curriculum Committee the following courses will be submitted to the University of California Office of the President (UCOP) in June 2016 for UC transfer consideration:

- CHEM 133  
- PHYS 112  
- PHYS 113  
- PHYS 121  
- PHYS 153  

Upon further research R. Cranley (Articulation Officer) determined the following courses previously approved also should request UC transfer consideration.

- MATH 135 (approved 12/2/14)  
- PHYS 152 (approved 1/12/16)  
- PHYS 166 (approved 1/12/16)

**READ 82**  
College Reading - Comprehension  

**CCCCO Proposal Type:** Non-Substantial  
**Effective:** Summer 2017  
**MODIFY:** Objectives  
**Rationale:** This course was approved by the Curriculum Committee (January 26, 2016) with the understanding that objective #20 would be clarified. Objective #20 was modified to add “of the term” at the end of the sentence and appears here for the purpose of the record.

**SPELL 31**  
Basic Spelling and Phonics  

**CCCCO Proposal Type:** Non-Substantial  
**Effective:** Summer 2017  
**MODIFY:** Assessments  
**Rationale:** This course was approved by the Curriculum Committee (January 26, 2016) with the understanding that the assessments would be consistent with SPELL 32, matching “Pre-test” with each application of “Post-test”. The modification have been completed in CurricUNET and appears here for the purpose of the record.
V. COURSE DISCUSSION AGENDA

INACTIVATIONS:

RSCR 248  Self-Directed Study  ½
CCC CO Proposal Type: Inactivation
Effective: Fall 2016 Expedited
Rationale for Expedited Approval: I am requesting expedited inactivation of RSCR 248 due to a change in the national board exams for respiratory care. Students are no longer required to take three exams, Certified, Written Registered Exam, and Clinical Simulations. There is now one written exam, the Therapist Multiple Choice and clinical simulations. What is covered in the A.S. degree courses will sufficiently prepare students for the boards.

INACTIVATE:
Rationale: Course to be deleted as content no longer applicable for board exams.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

DE (Distance Education) Only Proposals

**SPAN 112**

**Introduction to Chicano/a Literature**

- **Effective:** Summer 2017 [Expedited] (Requesting Spring 2017)
- **Rationale for Expedited Approval:** Background: Our Spanish 101 and 102 online courses have experienced a dramatic increase in enrollment because of the scheduling flexibility afforded by the DE option. Rationale: Spanish 112 is a required course for the Spanish AA and AA-T. We are only able to offer one section per semester once a year. Having the DE option will provide students with the flexibility to enroll in it so they can complete the AA in a timely manner without having it affect their face-to-face class schedule and/or work schedule.

**MODIFY:** DE modalities only

**Rationale:** The Spanish faculty wish to offer the course online to increase student access and allow Spanish majors to complete degree requirements in a timely manner.

**Distance Education Status:** Requesting: Online

**Program Impact:**
- CSU General Education Pattern Certificate of Achievement
- Ethnic Studies Skills Recognition Award
- General Studies, Emphasis in Humanities A.A. Degree
- MJC-GE Pattern A.A. Degree Major
- Spanish A.A. Degree

VIII. PROGRAM DISCUSSION AGENDA

Application for Approval - New Credit Programs (Formerly the CCC-501)

ADOPT:

VETERINARY TECHNOLOGY PROGRAM
A.S. Degree: Veterinary Technology

ADOPT:

Effective: Upon CCCCO Approval
Rationale: The goal of the Veterinary Technology program is to increase the number, preparation and technical expertise of veterinary technicians and assistants who are prepared to improve veterinary patient management, clinical efficiency, and overall standards of care in the veterinary industry. Veterinary technicians will work closely with industry experts to identify technology and critical skills that are needed in the field.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams mentioned that although the Spanish A.A.-T. Degree made this agenda the Chemistry A.S.-T. Degree is still being modified by the chemistry faculty. B. Adams noted that there is still time for the Chemistry ADT to make the 18 month Chancellor’s Office Templates (COT) deadline of August 1, 2016. B. Adams referred to the TMC Templates page of the California Community Colleges Chancellor’s Office (CCCCO) website for a current list of ADTs.

2. Articulation: C-ID, C-ID Newsletter (Math), C-ID Newsletter (Feb) R. Cranley

R. Cranley reported that there are three new Course Identification Numbering System (C-ID) approvals (POLSC 165, EHS 202, and NR 200) which brings the Modesto Junior College C-ID status to 185. R. Cranley highlighted from the C-ID February Newsletter (above link):

- Two descriptors for Reading – Basic Skills are now available for submission in the C-ID.
  M. Garcia questioned why Basic Skill courses need C-ID descriptors. B. Adams noted that having the C-ID descriptors ensures acceptance of the basic skill courses for students going in-between different community colleges. S. Circle mentioned that the Common Assessment Initiative (CAI) was also a factor.
- Faculty Discipline Review Group (FDRG) decided to open the descriptor for C-ID MATH 110 for vetting, in addition to proposing to draft a new MATH 111 Introduction to Statistics descriptor that would allow the use of the alternative pre-requisites and would parallel the C-ID MATH 110 descriptor.
- The FDRGs for the Career and Technical Education (CTE) disciplines will look at the development of descriptors and model curriculum for their discipline.

H. Townsend reported that a ticket was just submitted addressing a curriculum analysis issue which wasn’t rolling over certain fields on Course Learning Outcomes (CLO) Only proposals.

4. Adult Education P. Mendez

P. Mendez reported:
- The final report for the planning grant has been submitted.
- The next meeting for the AB104 project is scheduled on February 22, 2016 at the Oakdale Culinary Institute at 2:00 p.m.
- The status of the proposals for the ESL 900 series are being reviewed.
- The English as a Second Language (ESL) project presents a great opportunity for ESL, CTE, English, or Math faculty to get involved.

5. Academic Senate Report S. Amador

S. Amador reported that the February 4, 2016 Academic Senate meeting was mostly informational:
- President J. Stearns and the other Vice Presidents spoke regarding Full Time Equivalent Students (FTES), covering challenges and strategies to improve numbers. S. Amador noted that the discussion was extensive and positive in nature.
- M. Smedshammer reported on the implementation of Canvas and the phase out of Blackboard by 2017.
- The next Academic Senate meeting is scheduled for February 18, 2016.

B Adams asked about the Program Discontinuance Proposal Review. S. Amador noted the Program Discontinuance Review was not addressed due to time constraints.
X. UNFINISHED BUSINESS

Action Items

   S. Circle reported that three Basic Skills C-ID Descriptors (ENGL-BS 85X, ENGL-BS 90X, and ENGL-BS 95X) have been finalized and forwarded to the State Academic Senate for approval. B. Adams asked the committee to prepare to work on closing the loop on the Curriculum Review Process for non-transferable courses once the approval process is completed.

2. DE Addendum Review  B. Adams
   B. Adams informed the Curriculum Committee members that she received the Distance Education Committee Recommendations report (see above DE Addendum Review link) earlier that day and asked Kelly to include as a link. Because of the short timeframe, a short discussion ensued. B. Adams suggested the DE Committee’s report be discussed in detail at the February 23, 2016 Curriculum Committee meeting and requested that the committee members review the document.

3. Curriculum Committee Self-Evaluation  B. Adams
   B. Adams commented on the “Self-Evaluation Report” draft that was e-mailed to the Curriculum Committee. S. Circle recommended that the Curriculum Committee Co-Chair duties be outlined. A short discussion ensued. B. Adams requested that the committee members review the document and e-mail her any comments, corrections, or discussion items regarding the draft. B. Adams noted that the feedback will help in the preparation for discussion at the February 23, 2016 Curriculum Committee meeting.

(None)

XI. NEW BUSINESS

Action Items

(None)

Informational Items

1. Supplemental Learning Assistance and Tutoring  J. Daly
   J. Daly spoke on the development of tutoring courses encompassing:
   - Title 5 apportionment: All tutors have to take TUTOR 100 to get apportionment, supervised training, best practices, and tracking hours.
   - TUTOR 100: A general tutoring class focusing on how to interact with students, diversity, learning styles, and a basic review of the overall tutoring process.
   - TUTOR 110: Focusing on tutoring skills that are more specific.
   - STEM and ESL tutoring courses.
   - Current tutoring classes: Classes are scheduled in the fall and spring; student enrollment is by the recommendation of the instructor.

Discussion ensued that included:
   - Discipline specific tutoring classes: Guidelines for specific disciplines to create their own tutoring, fitting the needs of the students, options, and existing courses.
   - Online/hybrid Courses: Online chats are being explored, looking at different models, allowing access at different hours to accommodate student schedules (on demand), and more discipline specific.
   - Objectives of the Curriculum Committee: Look for enrollment of TUTOR 100 as “concurrent” or “corequisite” on Course Outline of Record (COR) when reviewing courses.
J. Daly concluded that in this early development stage, more conversation and research is necessary to develop tutoring courses that meet the needs of the students and faculty.

2. **Instructional Services Agreements and Receiving Apportionment**

   B. Adams

   B. Adams referred to the informational document (see above link) for guidelines on prerequisites and/or enrollment limitations (item 5c) for the upcoming FTECH courses.

   Item 5c: “Course outlines of record for advanced public safety courses, including in-service training courses in the areas of police, fire, corrections, and other criminal justice occupations, will not list as a prerequisite public safety employment, or possession of a basic course diploma.”

### XII. PUBLIC COMMENT

P. Mendez asked about the Accrediting Commission for Community and Junior Colleges (ACCJC), approval process in terms of new degrees and certificates, and how can the faculty assist in the procedure. H. Townsend reviewed the ACCJC approval process found on page 59 of the Program and Course Approval Handbook (PCAH). H. Townsend recommended that faculty initiate production of a new degree or certificate at least one year in advance of the proposed effective date. She noted that the approval process could be long for new degrees and certificates especially if ACCJC requests a Substantive Change Proposal be submitted prior to the offering of the award.

*M/S/U (E. MAKI, E. LUCAS) to adjourn at 4:52 PM*

Course Activity Report

(None)

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

BUSAD 210  Business Communication  3  
**Effective:** Upon Curriculum Committee approval  
**MODIFY:** CLOs  
**Rationale:** To more closely align with course content.  
1. Compose a business message that demonstrates reasoning and creativity using specific formatting, tone, and style guidelines.  
2. Prepare a professional resume listing education, work experience, skills, qualifications, and attributes unique to each student.  
3. Research, organize, and compose an informative or investigative report that reaches conclusions and/or makes recommendations.

BUSAD 320  Bookkeeping 2  3  
**Effective:** Upon Curriculum Committee approval  
**MODIFY:** CLOs  
**Rationale:** To more closely align with course material.  
1. Identify bookkeeping terminology.  
2. Analyze and record accounting transactions pertaining to partnerships and corporations.  
3. Identify and assess ethical issues related to advanced bookkeeping topics.

CHEM 133  Problem Solving Skills For CHEM 143  1  
**Effective:** Summer 2016  
**Rationale for Expedited Approval:** CHEM 133 was approved by the Curriculum Committee on January 26, 2016 with an update to the grading policy from a letter grade to pass/fail only. The effective date chosen at the time of approval was summer 2017. The faculty would like to instead expedite this course for summer 2016. Due to scheduling time constraints the Instruction Office has implemented this request effective summer 2016 in Datatel.

**MODIFY:** Implementation date  
**Rationale:** See rationale for expedited approval.

V. COURSE DISCUSSION AGENDA

**INACTIVATIONS:**

BUSAD 204  Cost Accounting  3  
**CCCCO Proposal Type:** Inactivation  
**Effective:** Summer 2016  
**Rationale for Expedited Approval:** To ensure that the course is removed from the 2016-2017 catalog, we are asking for expedited approval.

**INACTIVATE:**  
**Rationale:** Due to staffing cuts in Business Administration, this course has not been offered in recent years. It is also now considered an upper division course at transfer universities.

**Program Impact:**  
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

**M/S/U (J. HAYNES, C. MULDER) to INACTIVATE BUSAD 204**

M/S/U (J. HAYNES, C. MULDER) to MODIFY ANSC 209

S. Berger noted that “midterm” was listed under Methods of Evaluation but there was nothing regarding preparation for the midterm listed under Assignments. With the approval of J. Haynes, B. Adams added under Assignments “Prepare for midterm exam.”

FTECH 321XABC  Fire Service In-Service Training / EMS  0.5-3

CCCCO Proposal Type: Non-Substantial  

Effective: Summer 2016  Expedited

Rationale for Expedited Approval: Course originally approved by the CC 4/12/2015 but was denied by the state due to LOE issue. Course is being revised due to Chancellor's office request and will be resubmitted to the state for approval.

MODIFY: Enrollment restrictions, outcomes, methods of evaluation, requisite skills

Rationale: To provide college units to individuals engaged in completion of mandated fire training.

Enrollment Restrictions: Requesting: (P) Satisfactory completion of EMS 350 and FSCI 301; Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete EMS 389 and EMS 390.

Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

FTECH 321XABC, FTECH 322XABC, FTECH 323XABC, FTECH 324XABC, FTECH 325XABC pulled as a block for discussion by T. Guy who asked about the variable units; how can a student meet the Course Learning Outcomes (CLOs) in a .5 unit class and how do you differentiate what a student receives by taking the different unit values?

R. Cripe’s explanation covered:

- The CLOs are understood and completed in each of the variable units.
- There is a minimum of 240 hours of training required per year with a limit of 3 units.
- The courses are primarily developed for volunteer fire training, however are not limited to firefighters.
- There are five FTECH classes each focusing on different training categories.
- Depending on their position in the department, students would enroll in the desired FTECH course.
- These are stand-alone courses and not intended for development into a future program.

A short discussion ensued covering characteristics of variable unit courses.

S. Berger suggested that on the FTECH courses, the language on the Course Learning Outcomes pertaining to “demonstrate an understanding of professionalism” be modified to read “act professionally during…” B. Adams will work with R. Cripe and S. Berger on the language of the specific CLOs.

Documentation of the results will be noted on the March 8, 2016 agenda.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  
   B. Adams  
   B. Adams mentioned that the Chemistry A.S.-T. Degree proposal is still being modified by the chemistry faculty.  
   B. Adams referred the Curriculum Committee to the California Community Colleges Chancellor’s Office (CCCCO) website for a current list of ADTs. P. Bettencourt noted that work is being done in the development of the Public Health Science and Nutrition and Dietetics ADTs.

2. Articulation: C-ID, C-ID Newsletter  
   R. Cranley  
   In R. Cranley’s absence, B. Adams referred to the above links for the updated Course Identification Numbering System (C-ID) spreadsheet and the February C-ID Newsletter.  
   B. Adams noted from the newsletter:  
   • The Math faculty discipline review group (FDRG) convened in mid-January to discuss the recent resolution passed by the ASCCC to consider alternative pre-requisites for C-ID MATH 110 Introduction to Statistics.  
   • C-ID recently announced the availability of descriptors intended for use within the California community colleges (CCC), geared towards career technical education (CTE) courses.  
   B. Adams mentioned that faculty interested in the development of TMCs in their particular disciplines, including the CTE disciplines should get involved. P. Mendez mentioned that faculty from the fire and manufacturing technology disciplines were already participating in discussions.

3. CurricUNET Implementation/Issues  
   B. Adams/H. Townsend  
   H. Townsend reported that the ticket addressing codes and dates carrying over for CLO Update Only proposals noted at February 9, 2016 meeting has been fixed.
4. **Adult Education**
   P. Mendez
   P. Mendez reported that the Assembly Bill 104 (AB104) project consortium met on February 22, 2016 and discussed the managing of available funds. P. Mendez noted that the consortium meets monthly with the next meeting scheduled on March 21, 2016 in Oakdale at 2:00 p.m. and are open to the public.

5. **Academic Senate Report**
   S. Amador
   S. Amador reported that the Academic Senate meeting scheduled for February 18, 2016 did not meet quorum and no business was accomplished.

### X. UNFINISHED BUSINESS

#### Action Items

1. **Curriculum Review Process**
   B. Adams
   B. Adams asked for direction on proceeding with the Curriculum Review Process, and it was decided to postpone the discussion until the March 8, 2016 Curriculum Committee meeting.

   B. Adams remarked on E. Maki’s earlier question regarding actions that could be taken toward non-compliant courses or programs, in which a resolution couldn’t be obtained in a timely manner. B. Adams noted that a number of colleges including Mt. San Jacinto College, in southern California, have very clear Sunset Policies. Mt. San Jacinto College’s Sunset Policy declares that after one year after notification of non-compliance with no action or resolution, their Curriculum Committee has the authority to inactivate the non-compliant course or program. The Sunset Policy has been reported as a success for Mt. San Jacinto College. B. Adams noted that the committee might want to consider such a policy.

2. **DE Addendum Review**
   B. Adams
   B. Adams asked if the committee members had questions or comments regarding the recommendations from the Distance Education (DE) Committee (see above link). Discussion ensued regarding the issue of teleclass. The Curriculum Committee questioned the DE Committee’s statement “While the nursing program does use a live video feed for their Columbia College satellite classes, we have been told that these classes are not designated as "distance education" courses. B. Adams quoted the Title 5 definition: “Distance Education is considered anything where there is a distance or separation of the students and the instructor.” It was decided by the Curriculum Committee to postpone the discussion until the March 8, 2016 meeting to allow for further review of the DE Committee’s recommendations and formulate any questions or concerns to present back to the DE Committee.

3. **Curriculum Committee Self-Evaluation**
   B. Adams
   B. Adams noted that S. Amador suggested that the Self-Evaluation be separated into two documents, one being the actual Curriculum Committee Self-Evaluation report, and the second being the By-Laws. S. Amador explained how the Curriculum Committee By-Laws are incorporated into the Academic Senate By-Laws and noted that the charge of the Curriculum Committee needs to be within those By-Laws, since it is a standing committee of the Academic Senate. S. Amador acknowledged that the Academic Senate By-Laws were unclear on what the charge of the Curriculum Committee was. However, by adding a little more clarification in the language of the By-Laws the Curriculum Committee can clear up some of the issues.

   Discussion ensued regarding division representation and quorum.

   B. Adams reviewed the actions taken as a result of the Curriculum Committee Self-Evaluation.

   B. Adams and S. Amador will make suggested modifications to the Curriculum Committee By-Laws and Curriculum Committee’s Self-Evaluation and bring the revised documents back to the Curriculum Committee for an official vote at the March 8, 2016 meeting. It was recommended that the Curriculum Committee By-Laws and Self-Evaluation documents be voted on separately. S. Amador will then introduce the approved documents to the Academic Senate.

XI. NEW BUSINESS

Action Items

1. Course and Program Compliance

   B. Adams/H. Townsend

   H. Townsend reviewed the two compliance reports distributed to the Curriculum Committee members. One report listed courses that have not been reviewed by the Curriculum Committee since 2010 or later. The other report covered courses that have not been offered since 2013 or later, including courses attached to programs and patterns. B. Adams explained how to use the Compliance Spreadsheet and how to access it on the Curriculum Committee webpage. She also noted some courses have been sent back to authors for changes and have been sitting in the author queue for a long time. C. Mulder requested that a monthly report be given to division representatives listing proposals that are in author queue that need changes so that reps know and can contact the faculty authors to assist in making changes and relaunching the proposals. B. Adams asked for input from the division deans present (P. Bettencourt, L. Maki, and P. Mendez). Discussion ensued regarding the reports, questions were asked and answered, and possible explanations for the non-compliant courses were considered.

   B. Adams, noting previous unsuccessful efforts, requested input or an action recommendation from the Curriculum Committee on the A.A. Degree in Computer Science which is non-compliant because the award has had a recent reduction in total major units. C. Hudelson offered to speak with J. Zamora in regard to resolving the issues with the A.A. Degree in Computer Science. For catalog purposes, H. Townsend requested a resolution by March 1, 2016. E. Maki inquired about options if a resolution can’t be obtained in a timely manner. Options and timelines were discussed.

2. Associate Degrees for Transfer and IGETC

   J. Hughes/B. Adams

   J. Hughes referred to the California Community Colleges Chancellor’s Office (CCCCO), Transfer Model Curriculum (TMC) Templates page. J. Hughes mentioned that the templates refer only to California State University (CSU) or Intersegmental General Education Transfer Curriculum (IGETC) and is vague as to if it is an IGETC (CSU only) or an IGETC (UC only) transfer pattern, creating a loophole. J. Hughes commented that the counselors are wanting to follow the University of California (UC) only transfer pattern which does not require speech, although it does require a foreign language. However, the intent of these degrees was designed to follow the CSU transfer pattern and not the UC pattern. J. Hughes stated that this is a statewide discussion among all community colleges whether to allow the UC only pattern or stay strictly with the CSU pattern.

   J. Hughes noted that there are pros and cons to both. A student’s intent may be to transfer to a UC and not get in, so they apply to a CSU but doesn’t qualify because they don’t have the “Golden Four” (courses in oral communication, written communication, critical thinking, and mathematics/quantitative reasoning).

   B. Adams referred to an e-mail string on the issue of ADT degrees and IGETC noting:

   - K. O’Donnell, from the CSU Chancellor’s Office, indicated that it was a “non-issue” when responding to the question “Can someone following the IGETC (UC only) transfer pattern and they don’t have the speech or the Golden Four still get the ADT?”
   - That if K. O’Donnell indicated that the IGETC (UC only) transfer pattern was compliant with the CSU Chancellor’s Office, and since it was a local policy, adopting the IGETC (UC only) transfer pattern would be okay.
   - It seemed that many schools are allowing the IGETC (UC only) transfer pattern as long as the student is aware that if they apply to a CSU, they will need to complete the speech requirement.
   - Many schools were very specific in their catalogs making it clear to student that if they are following the IGETC (UC only) transfer pattern and decide to go to a CSU they will still need to complete the speech requirement.

   Discussion ensued regarding an IGETC (UC only) transfer policy.

   M/S/U (M. GARCIA, E. MAKI) to approve to earn the A.A.-T or A.S.-T, a student can follow either the CSU (IGETC) or the UC (IGETC) pattern.

   B. Adams noted that she would work with J. Hughes and H. Townsend to develop language for the catalog and present it to the Curriculum Committee at the March 8, 2016 meeting for documentation. B. Adams commented that the approval of the motion of students following the CSU or UC IGETC transfer pattern should be communicated to the counselors and that it includes students who have recently applied.

**XII. PUBLIC COMMENT**

P. Mendez introduced A. DeAngelis who will be replacing J. Beebe as the Technical Education representative for the Curriculum Committee next year.

T. Guy congratulated M. Maki and L. Maki on their son’s first place award in the Novice Division of the Northern California Championships in Debate.

J. Hughes observed that on our transfer patterns, we require a “C” or better grade, which apparently is a local requirement. The state will now accept a “D” grade on transfer patterns, but the “D” cannot be on the Golden Four. J. Hughes noted that our ADTs would also have to allow a “D”.

Course Activity Report

The upper division courses associated with the B.S. degree in Respiratory care proposal were approved by the Curriculum Committee with the transfer status as CSU only on 1/12/2016 (with the exception of RSCR 420 which was approved 1/19/2016). The Chancellor’s office notified H. Townsend that the courses cannot not be marked as transferrable when submitting for final approval. R. Cranley removed the transfer status in CurricUNET for the following courses, and the revision is noted here for the purpose of the record:

COMM 400
PHILO 400
RSCR 405, 410, 415, 420, 425, and 430
SOCIO 400

In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows: (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
The FTECH 321XABC course modification was approved at the February 23, 2016 Curriculum Committee meeting. H. Townsend immediately sent this course to the state for approval because the state had requested the revision. The state returned the course and asked for more revisions. Due to the Chancellor’s office request for FTECH 321XABC, the department decided to also revise FTECH 322XABC, 323XABC, 324XABC, and 325XABC. The courses have been marked in CurricUNET as never activated and revised course proposals will all be included on a future agenda for review and approval.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

IIS 13 Improving Learning Potential
Proposed Effective Term: Summer 2016 Expedited! To comply with newly revised code or law.
Rationale for Expedited Approval: IIS 13 came through with a course update on 9/22/2015 effective for summer 2016. The Counseling discipline selected was incorrect. The faculty alerted the Instruction Office that it should be Counseling: Disabled Student Programs and Services and Learning Disabilities: Disabled Students Programs and Services. The change has already been made by H. Townsend in CNET and is here for the purpose of the record.

MODIFICATIONS:

EARTH SCIENCES PROGRAM

MODIFY: A.S. Degree: Univ Prep - Area of Emphasis: Earth Sciences

MODIFY: Required courses, elective courses, units

Effective: Upon CCCCO Approval Expedited (Requesting Summer 2016)

Rationale for Expedited Approval: Reduction in course units reduces overall total units from 31 to 30. At 31 units the degree was over the 60 unit maximum for state approval. To ensure accuracy of catalog offerings expedited approval is needed.

Rationale: Award is being updated to reflect the unit changes to several of the PHYS courses and the NR 200 course.

M/S/U (P. MENDEZ, S. CASSIDY) to MODIFY A.S. DEGREE: UNIV PREP - AREA OF EMPHASIS: EARTH SCIENCES with the understanding that “This class” would be changed to “This program” in CurricUNET and in the 2016-2017 catalog.

M/S/U (E. LUCAS, E. MAKI) to EXPEDITE A.S. DEGREE: UNIV PREP - AREA OF EMPHASIS: EARTH SCIENCES

PHYSICAL EDUCATION PROGRAM

MODIFY: A.A. Degree: Physical Education

MODIFY: PLOs, program requirements, required courses, elective courses, units

Effective: Upon CCCCO Approval

Rationale: Award is being modified to reflect recent changes to courses listed within the award. PLOs have also been modified.

M/S/U (P. MENDEZ, S. CASSIDY) to MODIFY A.A. DEGREE: PHYSICAL EDUCATION

INACTIVATIONS:

COMPUTER SCIENCE PROGRAM

INACTIVATE: A.A. Degree: Computer Science

INACTIVATE: Effective: Summer 2016 Expedited

Rationale for Expedited Inactivation: To ensure accuracy of 2016-2017 catalog offerings.

Rationale: Inactivating the A.A. in Computer Science because the award had some course unit changes which put the award under 18 units.

M/S/U (P. MENDEZ, S. CASSIDY) to INACTIVATE A.A. DEGREE: COMPUTER SCIENCE

M/S/U (E. LUCAS, E. MAKI) to EXPEDITE INACTIVATION of A.A. DEGREE: COMPUTER SCIENCE

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer) B. Adams

B. Adams referred to the Associate Degree for Transfer (ADT) Progress Report noting that three Agriculture A.S.-T. awards met the deadline of March 1, 2016 (Agriculture Animal Sciences, Agriculture Business, and Agriculture Plant Science). The Progress Report shows that they are now in development along with the A.S.-T. in Spanish Degree. B. Adams commented that the A.S.-T. in Chemistry is currently in the Technical Review queue in CurricUNET and will be on the March 22, 2016 Curriculum Committee Agenda. B. Adams reported that the Chancellor’s office is showing four new ADTs with 16 month deadlines. The four ADTs are Child & Adolescent Development, Global Studies, Public Health Science, and Social Justice Studies).
2. Articulation: C-ID, C-ID Newsletter  
R. Cranley
R. Cranley reported:
- We currently have 186 approved C-IDs
- The Fire Science C-IDs have been forwarded for faculty and staff input
- READ 40 and READ 80 C-IDs have been submitted
- C-IDs for MUSC 111, MUSC 121, and MUSC 126 will be submitted once they are pushed through the CurricUNET system

3. CurricUNET Implementation/Issues  
B. Adams/H. Townsend
H. Townsend reported that the Outcomes Assessment feature in CurricUNET has been turned off so faculty can no longer create new or edit existing assessments. Faculty will need to use eLumen now for creating or editing assessments.
H. Townsend noted that Course Learning Outcome (CLO) Update Only proposals would stay in CurricUNET. B. Adams added that issues with codes and dates carrying over for CLO Update Only proposals are still happening. B. Adams requested if anyone receives the message “No Date on Record” in the curriculum analysis section when completing his or her program review to contact her or H. Townsend so the dates can be manually entered. B. Adams mentioned that H. Townsend added to the CurricUNET home page “For Program Review support: Contact Curtis Martin”.

4. Adult Education  
P. Mendez
P. Mendez reported the consortium’s next meeting is scheduled for March 21, 2016 in Oakdale at the Oakdale Culinary Institute at 2:00 p.m.

5. Academic Senate Report  
S. Amador
S. Amador reported on the March 3, 2016 Academic Senate meeting:
- The meeting was dominated by an eLumen presentation by N. Gopal
- Resolution S16-C: Cycle of Student Learning Outcome (SLO) Assessment and Program Review was discussed. S. Amador noted that the first “Therefore” “Be it resolved, that the Academic Senate at Modesto Junior College adopt a new cycle of student learning outcomes assessment designed to meaningfully improve our depth of course level assessment data by assessing all courses at least once each academic year beginning Fall 2016” was stricken from the draft. The second and third “Therefore” remained as part of Resolution S16-C.
- “Proposed by the Outcomes Assessment Workgroup” was removed from the resolution as an inaccurate statement.

T. Guy asked for confirmation that the Academic Senate passed the idea that Program Review would be every two years. S. Amador confirmed and added that the Academic Senate requested a yearly report from the Outcomes Assessment Workgroup.

X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process  
B. Adams
B. Adams noted that on February 17, 2016 the one year extension granted to MATH 121, MATH 122, MATH 171, MATH 172, and MATH 173 had expired.

B. Adams mentioned that the Academic Senate reaffirmed the Curriculum Review Process (Curriculum Review Process which was approved on April 14, 2015 and Resolution: F15-D “Faculty Rights in Regards to Curriculum Design” which failed November 19, 2015) and that the administration she met with firmly believe that Curriculum should stay in the hands of the faculty. B. Adams commented that there is no indication that the five courses that fall under the Review Process (MATH 121, MATH 122, MATH 171, MATH 172, and MATH 173) had been modified in CurricUNET to follow the C-ID or CSU Stanislaus format.

New Curriculum Committee member, N. Sill requested more information regarding the extension. The motion that passed at the February 17, 2015 Curriculum Committee meeting was restated: “If a course has come before the Curriculum Committee and has then gone back and forth, if after two semesters from the date the course was originally scheduled on
the Curriculum Review Matrix, if the course has still not been approved by the committee and all other means have been satisfied through the curriculum review process, then the discipline faculty will either follow the C-ID or CSU Stanislaus’ including the supplementary motion “to direct the math department to align their courses with C-ID or CSU Stanislaus within 2 full semesters from today, February 17, 2015”. Extensive discussion ensued.

B. Adams referred to the Curriculum Review Process, noting that the math courses had gone through the steps in the process, resulting in the one year extension in which they needed to follow C-ID or CSU Stanislaus.

R. Cranley quoted the April 14, 2015 Approved Motion of the Curriculum Review Process “For transferable courses, the standard for C-ID will follow not only the units for C-ID, but also the contact hours associated with that C-ID.

M/S/C (J. HAYNES, S. BERGER) to adhere to the Curriculum Review Process and the C-ID standards for MATH 121, 122, 171, 172, and 173 effective date as of today with an implementation date of fall 2016.

3 NAYS (E. Lucas, S. Circle, S. Cassidy)  
0 ABSTINIONS

Inquiry was made on how the changes would be input in CurricUNET. B. Adams commented this would need to be determined. Regardless of the person(s) responsible for inputting, the integrity of the outline would be ensured.

B. Thames commented she will discuss with B. Adams the process of contacting the Math faculty regarding the committee’s decision.

2. DE Addendum Review  
B. Adams

B. Adams asked if the committee members had a chance to review the recommendations from the Distance Education (DE) Committee. M. Garcia questioned the removal of teleclass as a distance education modality. S. Circle remarked about the replacement of the instructor/student contact narrative box with checkbox options. B. Adams noted there was no mention of Americans with Disabilities Act (ADA) Section 508, but some committee members commented it is probably documented somewhere other than the DE addendum. M. Garcia made a formal request to have B. Adams contact M. Smedshammer regarding the removal of teleclass with the intent of acquiring the source of the recommendation and if the DE Committee’s research covered ADA compliance. B. Adams will communicate back to the Curriculum Committee the results of her discussion with M. Smedshammer at the March 22, 2016 Curriculum Committee meeting.

3. Curriculum Committee Self-Evaluation  
B. Adams

B. Adams noted that no changes were made to the Curriculum Committee Self-Evaluation.

M/S/U (M. GARCIA, C. HUDELSON) to approve the Curriculum Committee Self-Evaluation.

4. Associate Degrees for Transfer and IGETC  
J. Hughes/B. Adams

M/S/U (M. GARCIA, E. LUCAS) to rescind the motion that was passed at the last meeting that pertained to the ADT degrees and the IGETC-GE or IGETC-UC

M. Garcia noted that not all of the counselors were in agreement with the motion and more discussion was needed. Possible issues and scenarios were discussed. R. Cranley commented on the different transfer requirements between the CSUs and UCs. S. Amador reminded the committee that the intent of this motion is to nullify the motion passed at the previous meeting. When more information is gathered, the topic can be brought back for discussion.

XI. NEW BUSINESS

Action Items

1. Curriculum Committee Bylaws B. Adams

The following modifications (in red) were made to the draft Bylaws:

- Under “A. Charter” bullet item 3 - Program Graduation requirements
- Under “A. Charter” bullet item 5 - Degree, certificate, and skill recognition award requirements
- Under “B. Meetings” Meetings are held from 2:40 to 5:00 p.m.
- Under “C. Membership - Members”
  - Curriculum Process Specialist
  - Evaluations Representative (ex-officio/non-voting)
  - Community and Workforce Development Representative (elected by Community and Workforce Development)
- Under “C. Membership - Faculty Representative by division
  - Library and Learning Center

M/S/U (E. MAKI, N. SILL) to approve the Bylaws with the noted modifications

2. CSU Minimum Grades (Executive Order 1100), (K. O'Donnell’s email) J. Hughes/R. Cranley

J. Hughes noted as of fall 2016 the CSUs will no longer accept a “C-” in the “Golden Four” (courses in oral communication, written communication, critical thinking, and mathematics/quantitative reasoning) for certifications. Currently when a student brings in a “C-” on a course from another school that uses a +/- system MJC automatically gives them a “C”. J. Hughes observed that MJC will no longer be able to certify a “C-” because MJC must identify where the student took the course and the actual grade the student received. J. Hughes noted that, as MJC currently does not allow a student to repeat a course she requested direction from the Curriculum Committee on the steps needed to initiate student repeat. Discussion ensued. The Curriculum Committee resolved to continue discussion on policies and procedures resulting from Executive Order 1100 as “Unfinished Business” at the March 22, 2016 Curriculum Committee meeting.

XII. PUBLIC COMMENT

H. Townsend noted that as of this meeting no more expedites for the catalog can be accepted as it goes online March 29, 2016. H. Townsend commented that any additional expedited approvals would be added to the addendum if approved by the Chancellor’s office and/or ACCJC before October 2016.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

CMPET 206  Personal Computer Assembly, Upgrading & Repairing  3
Proposed Effective Term: Summer 2016 Expedited
Rationale for Expedited Approval: The reason for changing the materials fee was to provide computer parts to students who would build their own computer to keep. The amount ($250) was intended to be a maximum amount for such a parts kit. I did not realize that it would be fixed to that amount on the scheduled courses. At the time (over a year ago) we had only old computers for the students to work on, so the kit was a way to provide a more recent computer for the course. Since then we have received newer computers (not the latest, but still OK), which were to be scrapped by Technology Services, that came out of the previous computer labs as a result of the moves to the CAT building. That has greatly helped this situation. As an optional alternative, students who wish build their own custom computer may still do so by purchasing the parts themselves.

NURWE 361  Work Experience-Nursing A  1
Proposed Effective Term: Fall 2016 Expedited
Rationale for Expedited Approval: NURSE 276 and NURSE 277 are set to be replaced by NURSE 278 effective fall 2016. All courses that had NURSE 276 and 277 as a corequisite or prerequisite came through with a modification to show the placement of NURSE 278 and the removal of NURSE 276 and 277 at the January 26, 2016 Curriculum Committee meeting. NURWE 361 and 362 should have been on the January 26, 2016 meeting to show NURSE 278 as replacing NURSE 276 and NURSE 277 for corequisites but was accidentally missed by the faculty for this important revision. Due to a timeline deadline, the corequisites for NURWE 361 and 362 will be modified in CurricUNET, Datatel, and in the catalog effective for fall 2016.
MODIFY: Enrollment restriction
Rationale: See rationale for expedited approval.

**Proposed Effective Term:** Fall 2016  
**Rationale for Expedited Approval:** PHYS 152 and PHYS 166 were approved by the Curriculum Committee on 1/12/2016. The Course Outline of Record was showing 18 Disc Hours. The Chancellor’s office returned these two courses and asked for clarification on modality. The Chancellor’s office noted that the Course Outline of Record shows lecture modality; however, there are references to lab in the outline. H. Townsend contacted K. Meidl, faculty author, to clarify whether the course is a lecture or lab course. K. Meidl confirmed that the course is lecture only. The courses were revised in CurricUNET to remove references to lab.

CCCCO Proposal Type: Non-Substantial
Effective: Summer 2017
REACTIVATE/MODIFY: Title, enrollment restrictions, hours, description, outcomes, objectives, content, typical assignments, methods of instruction, textbooks, requisite skills
Rationale: ELTEC 225 will provide practical foundations for residential wiring and NEC application according California Title 24 requirements.

C-ID Status: (None)
General Education Status: (None)
Program Impact:
- Electrical Installer Skills Recognition Award (In Process)
- Electrician Certificate of Achievement (In Process)
ELTEC 225 pulled for discussion by N. Sill who questioned ELTEC 225 being formally INTEC 225 and was INTEC 225 tied to the discontinued INTEC program. B. Adams noted that INTEC 225 was a cross listing of ELTEC 225 and was not tied to the discontinued program.
M/S/U (J. BEEBE, R. CRIPE) to MODIFY ELTEC 225
M/S/U (E. LUCAS, R. CRIPE) to ADOPT REQUISITES for ELTEC 225
ELTEC 229  Commercial & Industrial Wiring

CCCCO Proposal Type: Non-Substantial

Effective: Upon CCCCO approval Expedited (Requesting Fall 2016)

Rationale for Expedited Approval: Expediting proposed changes will remove material fees for students enrolled in classes and create a significant savings. Changes in COR for this course are focused on content clean up and removal of material fees. The material fee removal is an immediate benefit to students. ELTEC faculty would like to see this passed on immediately.

MODIFY: Material fees, description, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

Rationale: Modifications have been made to methods of evaluation, content, objectives, and assignments to ensure the course meets DAS Electrician Trainee and Journey Level Re-certification CA State Requirements. Textbook has been updated and material fees have been removed.

Enrollment Restrictions: Removing: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete (INTEC 225 or AGM 225) and (INTEC 208 or ELTEC 208); Requesting: (P) Satisfactory completion of ELTEC 208.

**Introduction to Programmable Logic Controllers**

**CCCCO Proposal Type:** Substantial

**Effective:** Upon CCCCO approval

**MODIFY:** Units, enrollment restrictions, hours, description, outcomes, objectives, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

**Rationale:** Course is being updated to reflect content, lab and learning goals as the only PLC course in program. Program changes from two PLC courses to PLC, PAC, HMI format. Due to coverage of a wider spectrum of automation course recommended to increase to 3 units.

**Enrollment Restrictions:** Requesting: (P) Satisfactory completion of ELTEC 208.

**Distance Education Status:** (None)

**Materials Fee Status:** (None)

**Articulation Status:** Transfers to CSU

**C-ID Status:** (None)

- Electrician Certificate of Achievement (In Process)
- Electro-Mechanic Certificate of Achievement (In Process)
- Industrial Electronics A.S. Degree
- Industrial Electronics Certificate of Achievement

**ELTEC 232 pulled for discussion by N. Sill** who questioned the unit value change from 2 units to 3 units without a change in content. P Mendez mentioned that ELTEC 232 is a combination of an Introduction to Programmable Logic Controllers (PLC) and an Intermediate PLC course that was previously offered. P. Mendez noted that ELTEC 232 went from a 1-3 to a 2-3 lecture-lab course adding one hour of lecture to ELTEC 232 because of the absorption of some intermediate content. T. Guy questioned if the wider spectrum of automation should be added to the content. A. DeAngelis spoke on the depth of the course content for ELTEC 232 and that the additional aspects of the course are captured in the expected learning outcomes of the class. N. Sill mentioned that the depth of the content should be better captured to substantiate an additional unit being added to the class. Discussion ensued. B. Adams requested a document of explanation be attached to ELTEC 232 in CurricUNET. N. Sill questioned the comparable course field listing California State University (CSU) programs and not specific courses. P. Mendez explained many of the CSUs don’t have specific vocational courses, but accept the vocational courses as credits toward completion of vocational awards.

CCCO Proposal Type: Non-Substantial
Effective: Summer 2017 Expedited (Requesting Spring 2017)
Rationale for Expedited Approval: The physics department now has three full-time instructors and additional classes may be offered to increase student access. This course is also beneficial to the students by offering another science course that doesn’t have a math prerequisite.

REACTIVATE/MODIFY: Outcomes, typical assignments
Rationale: The physics instructors want this course to be reactivated so we can offer this course in the Spring 2017 semester.

NEW COURSES:

ELTEC 235

NEC: National Electrical Codes

CCCCO Proposal Type: New Credit Course

Effective: Upon CCCCO approval

ADOPT

Rationale: The ELTEC 235 course is being proposed because it is needed for students to properly dedicate the time to understand National Electrical Code and how these code regulations apply to electrician professionals in the field. This course is included as a course in the newly proposed Electrician Certificate. The MJC Electronics Department is an approved provider of education and re-training for electrician trainees and journey level electricians. This designation is provided by the California Division of Industrial Relations through the Department of Apprenticeship Standards (DAS). MJC is designated DAS School #136. Courses identified as meeting DAS School approval are reviewed and updated annually with the California Division of Industrial Relations.

Enrollment Restrictions: Requesting: (P) Satisfactory completion of ELTEC 208.

Articulation Status: Requesting: CSU

C-ID Status: (None)

General Education Status: (None)

Program Impact:
- Electrician Certificate of Achievement (In Process)

ELTEC 235 pulled for discussion by N. Sill who questioned the 4 units attached to ELTEC 235’s lecture class when comparable California State University (CSU) courses listed an attachment range in unit value from 1-3 units. A. DeAngelis noted that since MJC is a designated Department of Apprenticeship Standards (DAS) school the Electronics Technology department is expanding their offerings to cover the 150 hours of training needed (within a four year period) to legally work as an electrician. A. DeAngelis pointed out that there are comparable courses on any pathway focusing on electrical inspection or electrical engineering programs at any DAS approved community college. P. Mendez remarked that comparable courses for Career and Technical Education (CTE) are not found at four year colleges because that is not where their focus is. P. Mendez noted that the CTE courses are based on an inverted degree approach where a student can begin their studies through a certificate process and then take 20-30 units and apply it up to a four year college. B. Adams noted that the units are tied to the requirements of the National Electrical Code in terms of the hours of instruction electricians need. Discussion continued on the intent and expectations of students of CTE courses.

ELTEC 322 Technical Measurements
CCC CO Proposal Type: New Credit Course
Effective: Upon CCC CO approval
ADOPT
Rationale: Students in technical fields require additional skills in data collection and value measurement, as well as practical problem-solving ability using measured values, associated formulas, unit conversions, tolerances, and other related characteristics. This course will provide students with a stronger foundation in measurement techniques and data interpretation, whether empirical or theoretical, which will improve success levels in applied technology classes and related electrical and mechanical vocations.

TUTOR 115 pulled for discussion by E. Maki who questioned two of the four comparable courses listed for TUTOR 115. E. Maki noted that Bakersfield College’s MATH 240 and MATH 281 didn’t qualify as comparable courses for California State University (CSU) transfer. R. Cranley mentioned the use of ASSIST (the official repository of articulation for California’s public colleges and universities which provides the most accurate and up-to-date information about student transfer in California) in the search for comparable courses. Discussion ensued. B. Adams noted that CSU East Bay’s ENGL 2008 and California Polytechnic University’s ENGL 209 would meet the two comparable course minimum requirement. The Curriculum Committee agreed to remove Bakersfield College’s MATH 240 and MATH 281 from the list of comparable courses.
M/S/U (E. MAKI, E. LUCAS) to ADOPT TUTOR 115

S. Berger questioned if an expedited request could be made at this time for TUTOR 115. B. Adams noted although it would not be possible at this time because it was not included on the agenda, TUTOR 115 will be added to the April 12, 2016 agenda as a consent item with an expedited request of Spring 2017.

VII. PROGRAM CONSENT AGENDA

MODIFY: AGRICULTURE ANIMAL SCIENCE PROGRAM
A.S-T Degree: Agriculture Animal Sciences 20-32 (Previously 20-23)

MODIFY: Total units
Effective: Upon CCCCO and ACCJC Approval
Rationale: This A.S-T degree was approved at the November 24, 2015 Curriculum Committee meeting and sent to the state for approval. The program was sent back due to the fact that all C-IDs were not in "approved" status and noted that a revision to the total units was needed because we missed the total possible units a student could achieve if they selected the List B courses for 0-9 units. CurricUNET has been updated to show total units and the COT was also updated in the revision proposal in the CCCCO inventory. Once all C-IDs have been set to "approved" status, the revised ADT will be resent to the state for final approval.

VIII. PROGRAM DISCUSSION AGENDA

Application for Approval - New Credit Programs (Formerly the CCC-501)

ADOPT: ELECTRICIAN PROGRAM
Certificate of Achievement: Electrician 32.5
ADOPT
Effective: Upon CCCCO and ACCJC Approval
Rationale: This is a necessary complement to our Industrial Electronics program expanding the academic offering of the Electronics Department. Given the constant demand for electrical training, our participation on the State D.A.S. and our several agreements with local industry, a certificate for Electricians will cover the expectation of a wide range of students developing skills in this field.

ADOPT
Effective: Upon BOT Approval
Rationale: This Skills Recognition Award is intended as a means to help our students to engage the Electrical Industry, or related fields, early on in their technical studies. Many of our students enrolled in ELTEC classes do so in search of job opportunities, and not always with the advantage of time, or enough money, to go through a full-fledged technical program. A skill recognition award will open the door to students needed of a quick pathway to practical skills and a sure way to have them back to continue their technical educations as a resource for personal advancement.

M/S/U (J. BEEBE, R. CRIPE) to ADOPT SKILLS RECOGNITION AWARD: ELECTRICAL INSTALLER

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  

B. Adams

B. Adams reported that due to the anticipation of modified unit values for courses included in the A.S.-T in Chemistry, which was expected for this agenda, it has been postponed until the April 12, 2016 agenda. This date is still in compliance with the 18 month deadline.
2. Articulation: C-ID, C-ID Newsletter

R. Cranley reported:
- There have been three additional Course Identification Numbering System (C-ID) approvals, which brings the Modesto Junior College C-ID status to 189.
- The C-ID site has been reported to be the most accurate if you want to get a sense of where your course stands with C-ID numbering.
- ASSIST: New Generation is scheduled to be released to the public July 2017.
- Training for the Articulation Officers and Transfer Center Directors is scheduled for October 2016.

3. CurricUNET Implementation/Issues

H. Townsend indicated there are no new issues at this time.

4. Adult Education

P. Mendez reported:
- The primary topics for the consortium are the reallocation and planning for 2015/2016 funds through December 2016 and the new allocations for adult education funding for the 2016/2017 fiscal year.
- The consortium will meet more regularly on Mondays at 2:00 p.m. in Oakdale with an open invitation throughout April and May due to work needed by the state.
- The primary focal points of the 14 school districts represented by the consortium include basic skills, English as a Second Language (ESL), General Education Department (GED) oriented curriculum in terms of alignment with the community and Career and Technical Education (CTE) oriented efforts.
- ESL, English, or math faculty interested in the development of curriculum can contact Ruth Luman, who is leading some of the ESL work.

5. Academic Senate Report

S. Amador reported:
- The March 17, 2016 Academic Senate meeting was dominated by the discussion of SLO assessment, the schedule, and the cycle of assessment.
- Introduction of some eLuman capabilities with a number of scenarios associated with the assessment cycle and how it ties into program review.
- The challenge of bringing together information gathered from multiple entities.

X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process

B. Adams mentioned the meeting with J. Stearns, B. Thames, C. Martin, the Math faculty and herself scheduled as a result of the March 8, 2016 Curriculum Committee meeting. B. Adams summarized the meeting’s discussion as covering what happened at the March 8th meeting regarding the motion, how the deadline had passed, and the Curriculum Committee’s vote that it would follow the C-ID.

B. Adams noted that C. Martin requested to attend the Curriculum Committee meeting and make a recommendation or proposal based on further discussion with the Math faculty. The Math faculty’s desire to follow the Stanislaus State format of 4 units with the optional 1 unit rather than following the C-ID format was noted.

C. Martin conveyed that the C-ID format presented issues for the Math faculty who requested that the Curriculum Committee’s vote on March 8, 2016 be rescinded and put back on the table. C. Martin noted that the Math faculty’s request is conditional on the Math faculty’s approval on Thursday, March 24, 2016 and the Math faculty turning in curriculum by Thursday, March 31, 2016, along with the Course Outlines of Record that matches the Stanislaus State option.
M/S/ (J. HAYNES, E. LUCAS) to amend the motion previously adopted pertaining to the Curriculum Review Process by striking out 171, 172, and 173.

Conversations ensued regarding questions, clarifications, and the processes.

B. Thames commented that at the follow-up meeting she expressed the necessity for our MATH colleagues and the Curriculum Committee to communicate collegially to accomplish what we need to for the students we serve and that we all have the responsibility to the positive development of this institute.

M/S/U (J. HAYNES, E. LUCAS) to withdraw previous motion pertaining to striking out 171, 172, and 173.

M/S/C (J. HAYNES, M. GARCIA) to rescind the motion that was passed at the last meeting that pertained to the Curriculum Review Process passed at the last meeting.

0 NAYS

2 ABSENCIONS (C. Mulder, K. Butler)

M/S/U (C. MULDER, E. LUCAS) in order to adhere with the Curriculum Review Process MATH 121 and 122 will follow the State model and MATH 171, 172, 173 will follow the Stanislaus State 4+1 model. The Math department will develop all the curriculum by March 31, 2016 or the curriculum will resort back to following the C-ID minimum.

2. **DE Addendum Review**

   B. Adams

   B. Adams noted she had e-mailed Mike Smedshammer the Curriculum Committee’s questions from the March 8, 2016 meeting. B. Adams mentioned that the reply from M. Smedshammer indicated that the answers regarding the teleclass and the Americans with Disabilities Act (ADA) might require some research. B. Adams remarked that the DE Addendum Review would remain on the agenda as Unfinished Business.

3. **Associate Degrees for Transfer and IGETC**

   J. Hughes/B. Adams

   B. Adams noted that Associate Degrees for Transfer and IGETC is being postponed to the April 12, 2016 meeting.

4. **CSU Minimum Grades (Executive Order 1100), (K. O'Donnell's email)**

   J. Hughes/R. Cranley

   B. Adams noted that CSU Minimum Grades is being postponed to the April 12, 2016 meeting.

**XI. NEW BUSINESS**

**Action Items**

1. **Curriculum Committee Meeting Schedule for 2016-2017**

   B. Adams

   B. Adams noted that at the Curriculum Committee’s mini-training it was suggested moving the Curriculum Committee’s Spring 2017 meetings to the east campus but when H. Townsend attempted to acquire an east campus location everything was already booked; nevertheless, she was able to procure Yosemite 213 as a meeting location for Spring 2017.

   M/S/U (M. GARCIA, R. CRIPE) to accept the 2016-2017 Curriculum Committee meeting dates.

2. **Curriculum Co-Chair Election**

   S. Amador

   M/S/U (E. LUCAS, R. CRIPE) to RE-ELECT B. ADAMS as Co-Chair of the Curriculum Committee for an additional two year term.

   B. Adams accepted the results of the election.
Informational Items

(None)

XII. PUBLIC COMMENT

E. Maki requested clarification of the date of the next Curriculum Committee meeting. B. Adams noted that April 12, 2016 is the next scheduled meeting of the Curriculum Committee.

Associated Students of Modesto Junior College (ASMJC) representative M. Mondragon mentioned that on Wednesdays starting at 11:00 a.m. free food is available on the east campus for students who show their student I.D. and noted that help from the faculty would be appreciated as well as provide an opportunity for the students to meet faculty. M. Mondragon commented that over 500 students are anticipated for lunch on Wednesday. M. Mondragon noted that many student support services are posted around campus and she will keep the Curriculum Committee informed of other upcoming activities.

M/S/U (E. LUCAS, K. BUTLER) to adjourn at 4:16 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, a motion to modify the order of the agenda to accommodate MATH and PSYCH faculty was approved.

II. APPROVAL OF MINUTES

Hearing no objections, the minutes of March 22, 2016 were approved as stated.

III. COURSE NOTIFICATION AGENDA

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved.

ELTEC 225  Residential Wiring  3
Proposed Effective Term: Upon CCCCO Approval
MODIFY: Course action status
Rationale: ELTEC 225 came through and was approved by the Curriculum Committee on March 22, 2016 as a reactivate/modify course. ELTEC 225 was cross listed with INTEC 225 and the intent was to reactivate the INTEC course but label as ELTEC 225 at the state. Upon implementation in the CCCCO inventory it was discovered that the INTEC 225 course had a different Top Code, therefore ELTEC 225 will be submitted instead as a new course with Top Code 0952.20 per P. Mendez. This change is here for the purpose of the record.

NURSE 259  LVN Transition: Role Change Preparation  2
Proposed Effective Term: Fall 2016 Expedited
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over 4 semesters for new students starting with the fall 2016 semester. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $103 to $210

NURSE 271  Nursing Process: Fundamentals  6.50
Proposed Effective Term: Fall 2016 Expedited
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over 4 semesters for new students starting with the fall 2016 semester. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $368 to $402

NURSE 273  Nursing Process: Maternal-Child Nursing  6.50
Proposed Effective Term: Fall 2016 Expedited
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over 4 semesters for new students starting with the fall 2016 semester. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees.

Programs Impacted by Math Course Proposals

Contingent upon approval of the Math courses on 4/12/2016 agenda, the following programs will be modified by H. Townsend in CurricUNET and sent to the Chancellor’s office for a non-substantial change approval to reflect accurate award total unit values:

- A.S. Degree: UPE, Biological Sciences
- A.S. Degree: UPE, Chemistry
- A.S. Degree: Earth Sciences
- A.A. Degree: General Studies, Emphasis in Language & Rationality
- A.S.-T. Degree: Geology
- A.S.-T. Degree: Mathematics
- A.S.-T. Degree: Physics

MODIFICATIONS:

CLDDV 122  Programs and Environments for Infants and Toddlers  3
CCC CO Proposal Type: Non-Substantial
Effective: Summer 2017 [ Expedited ] (Requesting Spring 2017)
Rationale for Expedited Approval: Students are confused by the title and sometimes prevented from entering the course because of the prerequisites.
 MOD I FY: Title, enrollment restrictions, description, requisite skills
Rationale: Course title is often confused with CLDDV 125, so we want to differ the two courses and remove pre-requisites.
Enrollment Restrictions: Removing: (P) Satisfactory completion of CLDDV 125; Removing: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete CLDDV 121.

M/S/U (E. LUCAS, S. BERGER) to MODIFY MATH 171

S. Berger asked why the same item (Tests given at regular intervals throughout the semester) was listed as both a formative and summative evaluation for MATH 171, MATH 172, and MATH 173. T. Akers-Porter commented that as a summative evaluation, all the test grades throughout the semester along with the final exam are evaluated to see how the students are doing course wide. The formative evaluation includes the unit test scores along with the homework, quizzes, and worksheets for an overall evaluation on how a student did in the class.

NEW COURSES:

ELIC 20  Low Intermediate Academic Reading and Composition A
CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT
Rationale: In response to student need for a more streamlined program and direct route to English 101, the ESL Department is proposing a new set of courses to assist student in reaching transfer level in a more accelerated and compressed fashion. The prefix for those courses has been changed to ELIC to create a clearly numbered sequence.
Enrollment Restrictions: Requesting: (P) Satisfactory completion of ESL 6 or qualification by the MJC assessment process or ESL 906 or qualification by the MJC assessment process.

CCCCO Proposal Type: New Credit Course
Effective: Upon CCCCO approval
ADOPT

Rationale: The ESL Department is making changes to the Academic ESL Program both in course content and numbering. We are proposing a new set of courses to assist students in reaching transfer level in a more accelerated and compressed fashion. The ESL prefix has been changed to ELIC so new courses must be created.

Enrollment Restrictions: Requesting: (P) Satisfactory completion of ELIC 22.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Not transferable
C-ID Status: (None)
General Education Status: (None)

Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

M/S/U (E. LUCAS, S. BERGER) to ADOPT ELIC 32
M/S/U (C. HUDELSON, S. CIRCLE) to ADOPT REQUISITES for ELIC 32

B. Adams noted that a number of the ELIC courses should have a requisite of “or qualification by the MJC assessment process.” Because these are new courses, that assessment measure does not yet exist; however, the department plans to work with the Testing Center once the courses are approved.

M/S/U (C. HUDELSON, S. CIRCLE) to ADOPT REQUISITES for ELIC 140  
B. Adams noted that a number of the ELIC courses should have a requisite of “or qualification by the MJC assessment process.” Because these are new courses, that assessment measure does not yet exist; however, the department plans to work with the Testing Center once the courses are approved.  
M/S/U (S. CIRCLE, K. BUTLER) to ADOPT DE for ELIC 140  
S. Circle voiced concern regarding the hybrid for the low-level ELIC courses. S. Berger noted that the ELIC courses that hybrid are requested for are high intermediate and advanced courses, not the low level ELIC courses. Discussion ensued on the concerns of hybrid courses for basic skills, online needs, and student abilities.

M/S/U (E. LUCAS, S. BERGER) to ADOPT ELIC 150

S. Circle noted that item 7 under Methods of Instruction for ELIC 150 and ELIC 151 read more like an assignment than a MOI. B. Adams removed MOI item 7 (Regular intensive and extensive reading assignments including pre-reading, annotating, comprehension, note-taking, written analytical response, and discussion activities) from ELIC 150 and ELIC 151 with the approval of division representative S. Berger.

M/S/U (C. HUDELSON, S. CIRCLE) to ADOPT REQUISITES for ELIC 150

B. Adams noted that a number of the ELIC courses should have a requisite of “or qualification by the MJC assessment process.” Because these are new courses, that assessment measure does not yet exist; however, the department plans to work with the Testing Center once the courses are approved.

IX. STANDING REPORTS

1. Transfer Model Curriculum (Associate Degrees for Transfer)  
   B. Adams

   B. Adams noted that the A.S.-T Degree in Chemistry, with Board of Trustees approval, could now be submitted to the state, making the 18 month deadline. C. Mulder commented that work is still being done on the proposed ADT in Public Health Science. M. Garcia requested the status on the A.S.-T in Spanish. H. Townsend noted that the A.S.-T in Spanish has been re-submitted and was at the state level pending approval.

   R. Cranley

   Ruth Cranley reported on the following:
   - ART 160 was approved for C-ID ARTH 100.
   - C-ID Newsletter
     - C-ID is hosting two Discipline Input Group (DIG) meetings for Career and Technical Education (CTE) in April for faculty who are interested.
     - Math faculty are encouraged to login to the C-ID website to provide feedback on the MATH-BSX draft descriptor by April 25, 2016, a direct link is available on the C-ID website.
   - Webinar by Erik Shearer on 4/6/2016
     - Publishing of basic skill descriptors are being held off until the intent is clear on how descriptors tie into how common assessments are initiated and how the two things interact.
     - A CTE task force is looking at ways to have industry involved in evaluating programs and if the needs of students for industry and portability to other campuses are being served.
     - Some Chemistry ADTs submitted to the Chancellor’s Office were returned to the campuses because when the units were recalculated the ADTs were over 60 units.
     - Studio Arts faculty are talking about changing some of the ADTs to include completion of a comparable C-ID numbered course or a course articulated within the major at a California State University (CSU).
     - A reciprocity agreement will be discussed at the Academic Senate Spring Plenary session in order to create a document with more detail and greater depth for guiding the development of local policy.
     - Areas of Emphasis (AOE) ADTs would only need to be submitted to the Chancellors Office if a major with a similar Top Code number is available.
     - Results of the Faculty Review of C-ID MATH 110: Introduction to Statistics
       - Math faculty felt that the current descriptor required revisions for clarification.
       - Faculty comments expressed that there was no need to create a second descriptor.
       - Recommended language to allow for local variations in assessment, placement processes, and alternate pathways to statistics.
       - Eligibility for college-level mathematics as determined by college assessment or other appropriate methods.
       - C-ID will conduct an additional 30-day comment period on the revised MATH 110 descriptor.
   - 2016 GE Review Decision Report
     - Courses with unit reductions have been approved.
     - BIO 128 was not approved. Not enough content related specifically to the methods and practices of life science research. The scope of the course is so broad that it lacks sufficient attention to the foundations and principles of life science study.
     - POLSC 165 was not approved. The Guiding Notes state that Research Method courses should only be approved if the course outline explicitly demonstrates coverage of disciplinary fundamentals.
     - Courses not approved will need to be re-submitted.
3. **CurricUNET Implementation/Issues**

   H. Townsend indicated there are no new issues at this time.

5. **Academic Senate Report**  
   S. Amador  
   S. Amador reported on the April 7, 2016 Academic Senate meeting:  
   - Resolution S16-A: Revision of YCCD Contract Faculty Hiring Procedures passed the 1st Reading.  
     - Discussion continues on the wording on the section regarding the “selection committee” members.  
   - Resolution S16-C: Cycle of Program Review and Resolution S16-F: Cycle of SLO Assessment has been postponed until the fall.  
   - Resolution S16-D: Adoption of eLumen passed the 1st Reading  
   - Resolution S16-E: Online Educational Resources passed the 1st Reading  
     - Bill Anelli obtained a Grant to pay for some online resources.

   B. Adams thanked S. Amador for all his help this spring with parliamentary procedures and expressed her appreciation for his contributions to the Curriculum Committee.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Curriculum Review Process**  
   B. Adams  
   B. Adams questioned if the committee wanted to continue to postpone the Curriculum Review Process until a decision on the Basic Skills C-ID descriptors are finalized.

   S. Circle expressed her concern that the Review Process would mimic what was done for the transfer level courses.  
   S. Circle would like the Curriculum Committee to be more flexible and consider the maximum unit value; rather than, the C-ID minimum unit value. S. Circle commented that to push the minimum C-ID unit value as the maximum would be problematic for basic skills.

   B. Adams commented that she anticipates that C-ID issues will once again be addressed at this summer’s Curriculum Institute and also noted that at the Academic Senate for California Community Colleges (ASCCC) Plenary the State Academic Senate Resolution “Ensuring Effective Curriculum Approval Processes: A Guide for Local Senates” will be discussed. B. Adams indicated that the Curriculum Review Process would be brought back in the fall with the intention of a fair-minded conclusion.

   B. Adams and S. Circle responded to T. Guy’s request that the links to the ASCCC motion and the webinar by Erik Shearer be posted for future reference.

2. **DE Addendum Review**  
   B. Adams  
   B. Adams reviewed Mike Smedshammer’s response to the Curriculum Committee’s questions from the March 8, 2016 meeting. They agreed that the Distance Education (DE) Committee looked at the DE Addendum strictly from a Distance Education definition/operational view, whereas, the Curriculum Committee was looking at the DE Addendum from the view of curriculum and how the teleclass modality was very different from the hybrid or online modalities. B. Adams concluded that it would be acceptable to leave online, hybrid, and teleclass on the DE Addendum and remove the telecourse and teleweb modalities. B. Adams noted that M. Smedshammer noted that Americans with Disabilities Act (ADA) compliance is covered through Distance Education. Discussion ensued.

   **M/S/U (S. CIRCLE, S. CASSIDY) to accept the recommendations of the DE Committee with the following modifications: including online, hybrid, and teleclass modalities.**
3. **Associate Degrees for Transfer and IGETC**  

M. Garcia noted that after deliberation, the majority of the counselors agreed with the proposal to allow students pursuing an ADT Degree the options to follow the CSU-GE or IGETC CSU or UC transfer pattern but they will have to sign a waiver.

**M/S/U (M GARCIA, S. CASSIDY) for the ADT Degree that students can have the options to follow the CSU-GE or IGETC CSU or UC transfer pattern but they have to sign a waiver form.**

J. Hughes explained that the waiver form would be provided to students interested in the University of California (UC) transfer pattern, in the early planning stages with a counselor. The waiver form will state that if a student tries to apply to a California State University (CSU) by following the UC transfer pattern they will not be able to get in because they are not taking the speech component required by the CSU. J. Hughes noted that the waiver form would be signed by both the counselor and the student. Discussion ensued.

4. **CSU Minimum Grades**  

R. Cranley reported that Executive Order 1100 states “A grade of C or better is required of each CSU or transfer student completing courses in written communication in the English language, oral communication in the English language, critical thinking, and mathematics or quantitative reasoning,” the Golden Four.

J. Hughes noted that some colleges use the +/- grading system and if a student transfers to Modesto Junior College (MJC) with a C- in the Golden Four, since MJC doesn’t use the +/- system, the C- is brought in as a C. When MJC goes to certify the student’s GE it is required to specify the C- from the other college, so the students are not getting certified in that area. J. Hughes mentioned that she put out the question to other colleges “do you allow students to repeat the course that they receive a C- in” and yes, they do. J. Hughes questioned, now that students are transferring in with a C- from other colleges, are we going to allow those students to repeat the course and how is that going to happen.

**M/S/U (M. GARCIA, E. LUCAS) that if a student brings in a C- in the Golden Four we will view it as a No Pass and the student will be allowed to repeat it without having to go through petitions.**

Conversation ensued with various scenarios, options, and possible issues discussed.

**M/S/Withdraw M. Garcia’s previous motion.**

**M/S/C (T. AKERS-PORTER, C. MULDER) for CSU Golden Four certification purposes only a C- may be considered a sub-standard grade.**

**Action Items**

1. **Business ADT – Calculus Substitution Policy**  

B. Adams commented on the e-mail (see above link) that she received from Erik Shearer, C-ID Curriculum Director, regarding “the appropriateness of substituting Calculus for Business Calculus in the Business ADT.”

Erik Shearer states in the e-mail: “The Business FDRG met last year to discuss this issue and agreed that the substitution of Calculus for Business Calculus was appropriate and that this would be included on the TMC and CO Template when they are up for five-year review this fall. This recommendation was reviewed by the CSU chancellor’s office, vetted by campus Business faculty, and was determined to be appropriate.” Mr. Shearer also added, “You are safe to make this substitution locally.”
B. Adams asked the Curriculum Committee if they wanted to make a local policy regarding this substitution.

E. Lucas requested the opinion of the math and business representatives (T. Akers-Porter and N. Sill). The two representatives supported the Business ADT – Calculus Substitution Policy.

\textbf{M/S/U (E. LUCAS, S. BERGER) that our local policy is that we will automatically substitute Calculus for Business Calculus in the Business ADT.}

\textbf{Informational Items}

1. \textbf{Curriculum Representatives – Terms Expiring} \hspace{1cm} \textbf{B. Adams}

B. Adams noted that some terms are expiring.

Representatives departing the Curriculum Committee include:

- C. Mulder – PE/Health Education representative (no replacement at this time)
- S. Circle – Literature & Language Arts representative (no replacement at this time)
- J. Beebe – Technical Education representative (A. DeAngelis is replacing J. Beebe)

New to the Curriculum Committee include:

- A. DeAngelis – Technical Education representative
- T. Akers-Porter – Science, Mathematics & Engineering representative

B. Adams requested that representatives let her know of any other changes.

2. \textbf{Program and Course Approval Handbook – 6th Edition Draft} \hspace{1cm} \textbf{B. Adams}

B. Adams noted that the PCAH – 6th Edition has been divided into three new documents. B. Adams also mentioned that the PCAH 6th Edition document (see link above) is focused on explaining the standards and criteria for curriculum approval and would be the document most used by the Curriculum Committee. The more detailed information and specific submission instructions and the technical document outlining how to use the Curriculum Inventory will be used more by H. Townsend.

B. Adams commented that the Academic Senate for California Community Colleges (ASCCC) is asking for input on the PCAH – 6th Edition draft. B. Adams noted that she would forward the survey link, provided by the ASCCC, so those interested could participate in the survey.

B. Adams asked committee members to e-mail her any discussion items or suggestions for the fall training.

\textbf{XII. PUBLIC COMMENT}

E. Lucas mentioned her upcoming course scheduled for Fall 2016, Plagues of Humankind, covering pandemics that have changed world history.

E. Lucas and the Curriculum Committee extended a welcome to Tina Akers-Porter the new Science, Mathematics & Engineering representative. T. Akers-Porter introduced herself, mentioning that she was previously a Tenured Faculty from Merced College. Tina spoke of her qualifications, experience, and interests.

C. Mulder thanked R. Cranley, who is retiring, for her wonderful job. The Curriculum Committee expressed their genuine appreciation for her dedication and that she would be greatly missed.

M. Mondragon mentioned a new student resource event on April 14th and Cram Night scheduled for April 21st. M. Mondragon commented on the efforts of the Associated Students of Modesto Junior College with graduation as well as other student activities to be scheduled for the next couple of weeks. M. Mondragon also mentioned that this is her last meeting. The Curriculum Committee thanked her for her contribution to the committee.

\textbf{M/S/U (E. LUCAS, C. MULDER) to adjourn at 4:50 PM}
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of agenda was approved as stated, with request to accommodate guests from M. Garcia.

II. APPROVAL OF MINUTES

April 12, 2016

Hearing no objections, the minutes of April 12, 2016 were approved as stated.

IV. COURSE CONSENT AGENDA

Hearing no objections, the following course changes were approved with the friendly amendment to NR 200 to adjust the textbooks to reflect a lab manual authored by D. Pollard and M. Morales:

**BUSAD 200**  
Spreadsheet Skills for Financial Accounting  
Proposed Effective Term: Spring 2017  
Expedited!  
Rationale for Expedited Approval: L. Kropp informed the Instruction Office that the corequisite listed when BUSAD 200 came through with an update to requisites on 9/9/2014 was incorrect and is causing an issue with student enrollment. The true corequisite should be: Concurrent enrollment in or satisfactory completion of BUSAD 201 or BUSAD 310. Students are already enrolled for fall 2016 so this course will be modified to reflect the correct corequisite effective spring 2017. The course has been fixed in all systems and the revision is noted here for the purpose of the record.

**DANCE 133**  
Jazz 3 Intermediate/Advanced  
Proposed Effective Term: Fall 2016  
Expedited!  
Rationale for Expedited Approval: DANCE 133 was first approved by the Curriculum Committee 9/8/2015. K. Davis, faculty author, contacted H. Townsend to alert that the course description was showing “Audition Required” and that this statement needed to be removed effective fall 2016. The statement was accidentally placed on the course description when the course first came through for approval. This statement was causing an issue with student enrollment numbers and needed to be fixed for the fall semester. The course has been fixed in all systems and the revision is noted here for the purpose of the record.

MODIFY: Catalog description  
Rationale: See rationale for expedited approval.
ENGL 45  
Accelerated Reading, Writing, and Reasoning  
Proposed Effective Term: Spring 2017  
Rationale for Expedited Approval: ENGL 45 was approved at the 1/12/2016 meeting for fall 2016 with a prerequisite of READ 40. The English faculty contacted the Instruction office on 6/27/2016 to alert of the recent 6/23/2016 Acceleration Team for English 45 meeting where it was decided that the prerequisite for ENGL 45 be removed. The rationale for eliminating this pre-requisite is threefold: it opens the course to more students so English 45 will have needed enrollment for fall 2016 pilot; it provides wider access to this accelerated course, which will allow more students to progress to English 101 with just one semester of remedial course work; and it ensures the needed enrollment to scale up this course in the future. The course has been fixed in all systems and the revision is noted here for the purpose of the record.

MODIFY:  
Enrollment restriction  
Rationale: See rationale for expedited approval.

ENGL 101  
Composition and Reading  
Proposed Effective Term: Spring 2017  
Rationale for Expedited Approval: S. Circle contacted the Instruction Office to alert of the immediate need for ENGL 45 to be placed as a prerequisite for ENGL 101. ENGL 45 was recently approved for adoption by the CCCCO effective fall 2016 and should be also listed as a prerequisite for ENGL 101 to allow students who took ENGL 45 in the fall the option of taking ENGL 101 in the spring. Expedited approval is needed to allow students the option of taking ENGL 45 or ENGL 50 as a prerequisite. This change has already been implemented in Datatel and CurricUNET due to the immediate need to make this change before the spring roll occurs and is here for the purpose of the record.

MODIFY:  
Enrollment restriction  
Rationale: See rationale for expedited approval.

NR 200  
Soils  
Proposed Effective Term: Summer 2016  
Rationale for Expedited Approval: NR 200 was approved by the Curriculum Committee on 11/10/2015 and resubmitted with the new unit value for UC approval. It was noted that the textbook needed to be updated before the course could have UC approval. With approval of the faculty author, the textbook was updated on the active course proposal in CurricUNET and the Course Outline of Record will be resubmitted by the AO for UC approval in October with the summer 2016 effective date.

MODIFY:  
Textbook  
Rationale: See rationale for expedited approval.

NURSE 270  
Nursing Process: Pharmacology  
CCCCO Proposal Type: Non-Substantial  
Effective: Upon Curriculum Committee approval  
MODIFY:  
CLO  
Rationale: CLO update only.

1. Apply pharmaceutics, pharmacotherapeutics, pharmacokinetics, and pharmacodynamics in the accurate preparation and administration of medications.

NURSE 271  
Nursing Process: Fundamentals  
CCCCO Proposal Type: Non-Substantial  
Effective: Upon Curriculum Committee approval  
MODIFY:  
CLOs  
Rationale: CLO update only.

1. Apply the major nursing concepts, theoretical perspectives, and the Roy Adaptation Model to the performance of clinical skills in nursing practice
2. Demonstrate safe medication administration, utilizing the nursing process, critical thinking, and evidence-based methods.
3. Arrange and illustrate a comprehensive head-to-toe assessment, utilizing theoretical perspectives and therapeutic communication.
NURSE 273  Nursing Process: Maternal-Child Nursing  
Proposed Effective Term: Spring 2017 Expedited  
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over four semesters. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees. Because the spring 2017 deadline for Datatel implementation will have passed by the 9/13/16 meeting, H. Townsend made the needed fee update before sections were built in Datatel. This change is here for the purpose of the record. 
MODIFY: Materials fee  
Rationale: See rationale for expedited approval.  
Materials Fee Status: Increasing fee from $192 to $227 
M/S/U (K. BUTLER, S. CASSIDY) to INCREASE FEE for NURSE 273

NURSE 275  Nursing Process: Medical-Surgical  
Proposed Effective Term: Spring 2017 Expedited  
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over four semesters. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. This change is here for the purpose of the record. 
MODIFY: Materials fee  
Rationale: See rationale for expedited approval.  
Materials Fee Status: Decreasing fee from $210 to $160 
M/S/U (K. BUTLER, S. CASSIDY) to DECREASE FEE for NURSE 275

NURSE 278  Nursing Process: Advanced Medical-Surgical  
Proposed Effective Term: Spring 2017 Expedited  
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over four semesters. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees. Rationale: See rationale for expedited approval.  
Materials Fee Status: Decreasing fee from $401 to $251 
M/S/U (K. BUTLER, S. CASSIDY) to DECREASE FEE for NURSE 278

NURWE 361  Work Experience-Nursing A  
Proposed Effective Term: Summer 2016 Expedited  
Rationale for Expedited Approval: NURWE 361 was last approved by the Curriculum Committee on March 22, 2016 with a revision made to the enrollment restrictions. Nursing faculty noted that the corequisites for the course should have not been revised but instead removed and only the prerequisite should exist. Students were not able to enroll for the summer session due to the corequisites. There was an immediate need for the corequisites to be removed in Datatel so that students could enroll without issues. H. Townsend, with approval of the faculty and Curriculum Co-Chair, removed the corequisites in Datatel and in CNET with an effective date starting summer 2016. 
MODIFY: Enrollment restriction  
Rationale: See rationale for expedited approval.
NURWE 362  Work Experience-Nursing B 2
Proposed Effective Term: Summer 2016 Expedited!
Rationale for Expedited Approval: NURWE 362 was last approved by the Curriculum Committee on March 22, 2016 with a revision made to the enrollment restrictions. Nursing faculty noted that the corequisites for the course should have not been revised but instead removed and only the prerequisite should exist. Students were not able to enroll for the summer session due to the corequisites. There was an immediate need for the corequisites to be removed in Datatel so that students could enroll without issues. H. Townsend, with approval of the faculty and Curriculum Co-Chair, removed the corequisites in Datatel and in CNET with an effective date starting summer 2016.
MODIFY: Enrollment restriction
Rationale: See rationale for expedited approval.

RSCR 251  Neonatal & Pediatric Clinical Practice 1 0.5
Proposed Effective Term: Summer 2016 Expedited!
Rationale for Expedited Approval: RSCR 251 first came through with a modification to enrollment restrictions on 11/24/2015. The faculty member noted that the enrollment restriction modification made was in error and is causing students issues when trying to enroll. B. Hunt asked that RSCR 244 be removed from the prerequisite and added as a corequisite. H. Townsend made the updates in CNET and Datatel effective for summer 2016. This modification alert is here for the purpose of the record.
MODIFY: Enrollment restriction
Rationale: See rationale for expedited approval.

TUTOR 115  Tutoring for ESL/ELIC Students 1
Proposed Effective Term: Spring 2017 Expedited!
Rationale for Expedited Approval: Course was submitted to the CCCCO and returned by Chancellor’s Office reviewer with a request that the faculty remove the limitation on enrollment (LOE). The LOE was removed and the course description was revised. TUTOR 115 was fixed in all systems and approved by the CCCCO.
MODIFY: Enrollment restriction, description
Rationale: See rationale for expedited approval.

It was recently discovered that two NURSE courses, approved by the CCCCO for adoption effective summer 2015, were erroneously given the wrong Top Code when submitted to the state for approval back in 2014. The current Top Code is 123000 and faculty noted that it should instead be 123010. This will be a substantial course change but because the course was entered incorrectly when first submitted, the Instruction Office has proposed the substantial change to the CCCCO for approval in hopes that the courses can be fixed upon approval in Datatel before students register for spring 2017. The following two courses will have a new Top Code of 123010 and will be effective upon CCCCO approval:

ENGL 176  Introduction to Mexican Literature 3
CCCCO Proposal Type: Inactivation
Effective: Summer 2017
**INACTIVATE**
Rationale: Our Program Review indicated this course had not been taught since 2009, and when we discussed options, department voted to inactivate.
Program Impact:
- CSU General Education Pattern Certificate of Achievement
- English AA-T Degree
- General Studies, Emphasis in Humanities A.A. Degree
- IGETC Pattern Certificate of Achievement
- MJC-GE Pattern Certificate of Achievement
- Univ. Preparation: Language Studies A.A. Degree

**ENGL 176 withdrawn by division representative S. Berger thereby removing it from the agenda for consideration.**

ESL 10  English Language 1 10
CCCCO Proposal Type: Inactivation
Effective: Summer 2017
**INACTIVATE**
Rationale: ESL 10 has not been offered for several semesters because students at that level are served through the ELW program. The department was also concerned about offering a 10-unit course that was six levels below transfer.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

ESL 39  Vocabulary Power 1 2
CCCCO Proposal Type: Inactivation
Effective: Summer 2017
**INACTIVATE**
Rationale: This course has never been taught, and the department has no plans to offer it in the foreseeable future. The ESL Department has created a new program - ELIC - whose required reading and writing strand encompasses extensive vocabulary development, thus making this course unnecessary.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

NEW COURSES:

EHS 50  
Beginning Ornamental Gardening  
CCCCO Proposal Type: New Credit Course  
Effective: Upon CCCCO Approval Expedited, (Requesting Spring 2017)  
Rationale for Expedite Approval: Course was on the books for High School articulation only and now needs to be recognized by the CCCCO and placed into the CCCCO inventory.  
ADOPT  
Rationale: Adopting course to prepare students on the fundamentals of indoor and outdoor gardening.

EHS 50 pulled for discussion on behalf of E. Lucas by B. Adams.  
E. Lucas noted concerns under the following areas: Methods of Instruction (MOI) - #1 and #2, Course Learning Outcomes (CLOs) - #2 and #3, and the catalog description. Friendly amendments were made to EHS 50 with the approval of the division representative J. Haynes. MOI #1 was changed to “Instructor-led discussion with local producers”. MOI #2 “Assignments that include problem-solving, evaluation, planning, and implementation of ideas” was removed. Concerns with the CLOs were clarified for E. Lucas with no changes made. In addition, “A series of 30 television programs supported by coordinating textual material and by additional printed materials that are optional.” was removed from the catalog description.

VII. PROGRAM CONSENT AGENDA

MODIFY:

CHEMISTRY PROGRAM
A.S.-T Degree: Chemistry

Effective: Upon CCCCO and ACCJC Approval
Rationale: The A.S.-T in Chemistry degree was approved by the Curriculum Committee on 4/12/2016, and submitted to the Chancellor's office for approval. The Chancellor's office sent the proposal back and noted that the course listed for C-ID PHYS 210 should be PHYS 103 and not PHYS 102 as PHYS 102 did not match the C-ID. After consulting with the Science, Mathematics and Engineering division it was decided that PHYS 102 should be replaced on the Template and in CurricUNET by the correct course, PHYS 103. All revisions were made and the ADT was resubmitted for approval. This modification is here for the purpose of the record.

M/S/U (E. MAKI, E. LUCAS) to MODIFY A.S.-T DEGREE: CHEMISTRY

The University Preparation, Emphasis in Earth Sciences and University Preparation, Emphasis in Chemistry were recently submitted to the state for a non-substantial change. Both awards were sent back with a revision request made by the Chancellor’s office asking that we remove “University Preparation, Emphasis in” from the titles and revise the catalog descriptions to show that these awards are University Preparation awards. H. Townsend made the revisions and the state approved the two awards. To prevent a future revision request and/or denial of a non-substantial program change, the following awards and their catalog descriptions (for the 2017-2018 catalog) will also need to have revisions and a resubmittal to the CCCCO for approval of the change:

- A.S. Degree: University Preparation, Emphasis In Agricultural Sciences
- A.S. Degree: University Preparation, Emphasis In Biological Sciences
- A.S. Degree: University Preparation, Emphasis In Chemistry
- A.S. Degree: University Preparation, Emphasis In Earth Sciences
- A.A. Degree: University Preparation, Emphasis In Humanities
- A.A. Degree: University Preparation, Emphasis In Language Studies

   L. Miller
   
   L. Miller introduced herself as the new Articulation Officer (AO) at Modesto Junior College (MJC) and expressed her efforts in getting setup and familiar with the many aspects of the AO position. L. Miller also noted that she would be attending Articulation Officer Extreme Training in Sacramento on September 14, 2016.

   L. Miller referred to the Course Identification Numbering System (C-ID) Newsletter as a great resource that is found on the C-ID website. L. Miller noted that the C-ID Newsletter would tell what’s happening within a discipline regarding C-IDs and TMCs (Transfer Model Curriculum), the review cycle, descriptors at the state level, and discipline interest groups for faculty. L. Miller encouraged committee members to check out the newsletter and to stay abreast on what’s happening within their particular discipline. B. Adams reiterated that if a division has a discipline’s review coming up at the state level with C-IDs that the representative may want to give their faculty members a heads up.

3. CurricUNET Implementation/Issues 
   B. Adams/H. Townsend
   
   H. Townsend noted that the D.E. Addendum issue is still being addressed by Governet.

4. Adult Education 
   P. Mendez
   
   P. Mendez reported that Adult Education is currently restricted to non-credit curriculum. P. Mendez noted that there might be some leveraging points for the community colleges within the Community Education and Basic Skills initiatives.

X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process 
   B. Adams
   
   B. Adams briefly reviewed the status of the Curriculum Review Process indicating that although a procedure has been implemented for transferable courses the process for non-transferable courses which have no resolution has stalled.

   T. Akers-Porter relayed her concerns regarding some math courses that are “Awaiting Originator Action” (MATH 10, MATH 20, MATH 70, and MATH 90) that are out of compliance. T. Akers-Porter noted that in researching the history she found that the courses were awaiting some kind of action or decision since 2014. T. Akers-Porter stated that at this point rather than making them sit there even longer out of compliance, that she would like to bring a motion forward to say that until we actually have a policy we need not hold up these types of courses and move them forward.
M/S_U (T. AKERS-PORTER, E. MAKI) Until we have a formal policy on basic skills courses that we don't pull them based on unit counts.

Extensive discussion ensued encompassing:
- History of the Curriculum Review Process with regard to the math courses
- The mathematic courses that are out of compliance
- Possible resources for math students (math lab staffed by faculty, like Merced College)
- Comparable courses
- Evaluating courses holistically and not merely based on units
- The introduction of two separate pathways (STEM and Non-STEM), which was new information not introduced before
- Recommendation that both pathways (STEM and Non-STEM) are brought before the Curriculum Committee at the same time

M/S_U (T. GUY, E. MAKI) to CALL THE QUESTION (2/3 majority votes required)

Motion withdrawn by T. Akers-Porter indicating that the extensive discussion accomplished the intent of the motion.

Informational Items

   B. Adams
   B. Adams noted that the Program and Course Approval Handbook (PCAH) – 6th Edition Draft went to the Board of Governors on July 18, 2016 for information and discussion. The 6th Edition Draft is now going for final editing and formatting to the Communications Division of the Chancellor’s Office.

XI. NEW BUSINESS

Action Items

1. Request to Change Department Name from English as a Second Language to English Language Department
   S. Berger
   Action Item withdrawn by division representative S. Berger thereby removing it from the agenda for consideration.

2. Request to Change ESL Prefix to ELW (English for Life and Work)
   S. Berger
   M/S/U (S. BERGER, P. MENDEZ) to approve the request to change ESL prefix to ELW

Informational Items

1. Curriculum Committee Training (Flex #5101)
   B. Adams
   B. Adams commented on the activities at the Curriculum Committee Training on September 9, 2016 and reminded those who attended to log into the Flex system and complete the activity to receive Flex credit.

2. CurricUNET Program Training (Flex #5147)
   B. Adams
   B. Adams mentioned the CurricUNET Program Training will be held on Tuesday, September 20, 2016 in the computer lab at the Center for Advanced Technologies (CAT) Building, room 113, 3:00-4:30 p.m. B. Adams encouraged all new faculty, faculty in the review matrix this semester, or those who would benefit from the training to come. B. Adams made note of Flex #5147 assigned to the CurricUNET training.

XII. PUBLIC COMMENT

M/S/U (E. MAKI, E. LUCAS) to adjourn at 4:42 PM
In accordance with the Ralph M. Brown Act and SB 751, minutes of the MJC Curriculum committee record the votes of all committee members as follows. (1) Members recorded as absent are presumed not to have voted; (2) the names of members voting in the minority or abstaining are recorded; (3) all other members are presumed to have voted in the majority.
IV. COURSE CONSENT AGENDA

*Hearing no objections, the following course changes were approved.*

**BUSAD 200**

**Spreadsheet Skills for Financial Accounting**

**Proposed Effective Term:** Spring 2017 [Expedited]

**Rationale for Expedited Approval:** BUSAD 200 just came through as a consent item on September 13, 2016. L. Kropp, faculty author, noted that the corequisite was fine as is but an advisory also needed to be added to the course. The following advisory was added to the BUSAD 200 COR, Datatel, and Chancellor’s office inventory: (A) Before enrolling in this course, students are strongly advised to have prior knowledge of the accounting cycle if currently enrolled in BUSAD 310. The course has been fixed in all systems and the revision is noted here for the purpose of the record.

**MODIFY:** Enrollment restriction

**Rationale:** See rationale for expedited approval.

**MUSA 153**

**Applied Vocal Repertoire 1**

**Proposed Effective Term:** Spring 2017 [Expedited]

**Rationale for Expedited Approval:** MUSA 155 is being removed as a corequisite because it does not have C-ID approval and cannot be included on the ADT. Since this is a spring 2017 expedited request and the deadline for spring sections is September 23, 2016, this corequisite removal was completed in Datatel and the secretary has built the new sections showing the corequisite removal. The following was removed: (C) Concurrent enrollment in MUSA 155. The revision is noted here for the purpose of the record.

**MODIFY:** Enrollment restriction

**Rationale:** See rationale for expedited approval.

**MUSA 154**

**Applied Vocal Repertoire 2**

**Proposed Effective Term:** Spring 2017 [Expedited]

**Rationale for Expedited Approval:** MUSA 155 is being removed as a corequisite because it does not have C-ID approval and cannot be included on the ADT. Since this is a spring 2017 expedited request and the deadline for spring sections is September 23, 2016, this corequisite removal was completed in Datatel and the secretary has built the new sections showing the corequisite removal. The following was removed: (C) Concurrent enrollment in MUSA 155. The revision is noted here for the purpose of the record.

**MODIFY:** Enrollment restriction

**Rationale:** See rationale for expedited approval.

**MUSA 155**

**Vocal Master Class**

**Proposed Effective Term:** Spring 2017 [Expedited]

**Rationale for Expedited Approval:** MUSA 155 is currently not approved for C-ID; therefore, it cannot be listed as a corequisite to MUSA 153 and MUSA 154 and cannot be included on the ADT. Since this is a spring 2017 expedited request and the deadline for spring sections is September 23, 2016, this corequisite removal was completed in Datatel and the secretary has built the new sections showing the corequisite removal. The following was removed: (C) Concurrent enrollment in MUSA 153 and MUSA 154. The revision is noted here for the purpose of the record.

**MODIFY:** Enrollment restriction

**Rationale:** See rationale for expedited approval.
NURSE 259  LVN Transition: Role Change Preparation  2
Proposed Effective Term: Spring 2017 Expedited
Rationale for Expedited Approval: The Nursing department recently received the increased skill set fees for NURSE 259. The total fees increased from the summer 2016 fee of $210 (approved by the Curriculum Committee on April 12, 2016) to $217 for the spring 2017 semester. Spring sections have already been built and to avoid charging students the increased fee after enrolling in the course, H. Townsend adjusted the fees in Datatel on September 19, 2016.
MODIFY: Materials fee
Rationale: See rationale for expedited approval.
Materials Fee Status: Increasing fee from $210 to $217
M/S/U (K. BUTLER, E. MAKI) to INCREASE FEE for NURSE 259

NURSE 275  Nursing Process: Medical-Surgical  7
Proposed Effective Term: Fall 2017
MODIFY: Materials fee
Rationale: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over four semesters. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees. Because the fall 2017 deadline for Datatel implementation will be November 1, 2016, H. Townsend made the needed fee update in CurricUNET and Datatel before sections were built for fall. This change is here for the purpose of the record.
Materials Fee Status: Increasing fee from $160 to $195
M/S/U (K. BUTLER, E. MAKI) to INCREASE FEE for NURSE 275

NURSE 278  Nursing Process: Advanced Medical-Surgical  10
Proposed Effective Term: Fall 2017
MODIFY: Materials fee
Rationale: The Nursing department recently received the increased skill set fees. The cost of the Kaplan resources have been divided equally over four semesters. The Kaplan cost has been reduced and divided evenly for the students who are already in the program. If the increased materials fees which will be in effect for a period of two years are not updated and passed on to the students, the college is left with paying the increased fees. Because the fall 2017 deadline for Datatel implementation will be November 1, 2016, H. Townsend made the needed fee update in CurricUNET and Datatel before sections were built for fall. This change is here for the purpose of the record.
Materials Fee Status: Decreasing fee from $251 to $201
M/S/U (K. BUTLER, E. MAKI) to DECREASE FEE for NURSE 278

V. COURSE DISCUSSION AGENDA

INACTIVATIONS:  UNIT

CMPET 232  Introduction to Programmable Logic Controllers  2
CCCCO Proposal Type: Inactivation
Effective: Summer 2017
INACTIVATE
Rationale: CMPET 232 is cross listed with ELTEC 232 but only CMPET 232 is being inactivated as it is not being offered. ELTEC 232 will remain active.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).
M/S/U (R. CRIPE, K. BUTLER) to INACTIVATE CMPET 232
WKFSK 801
Introduction to Workforce Development, 0
CCCCO Proposal Type: Inactivation
Effective: Summer 2017
INACTIVATE
Rationale: Course is not being offered and needs to be inactivated.
Program Impact:
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).
M/S/U (R. CRIP, K. BUTLER) to INACTIVATE WKFSK 801

MODIFICATIONS:

AG 285
Agricultural Communications 3
CCCCO Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY: Field trips, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks
Rationale: Course due for update per curriculum committee recommendation.
Enrollment Restrictions: (None)
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Transfers to CSU
C-ID Status: (None)
General Education Status: (None)
Program Impact:
- Agriculture: Sales, Service A.S. Degree
- Agriculture: Sales, Service Technician Certificate of Achievement
- Mechanized Agriculture Technician Certificate of Achievement
- MJC-GE Pattern
AG 285 pulled for discussion by T. Guy who would like AG 285 to be more specific to speech and to giving a speech. T. Guy noted that the AG 285 catalog description includes oral communication methodologies and the Course Learning Outcomes (CLOs) references speech elements.
M/S/Withdrawn (E. MAKI, T. GUY) motion withdrawn by T. Guy. B. Adams noted that she would work with T. Guy and J. Haynes to incorporate speech components into AG 285.

AGEC 215
Agricultural Marketing 3
CCCCO Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY: Enrollment restrictions, outcomes, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills
Rationale: Course update for periodic review.
Enrollment Restrictions: Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete AGEC 210.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Transfers to CSU
C-ID Status: (None)
General Education Status: (None)
Program Impact:
- Agriculture: Sales, Service A.S. Degree
- Agriculture: Sales, Service Technician Certificate of Achievement
H. Duarte questioned where Methods of Evaluation (MOE) #4 - Marketing venture (auction) was located under Objectives. B. Adams noted that MOE #4 was covered under Lab Objectives.
M/S/U (R. CRIP, K. BUTLER) to MODIFY AGEC 215
M/S/U (K. BUTLER, R. CRIP) to ADOPT REQUISITES for AGEC 215
ANSC 217  Advanced Breeding & Artificial Insemination  4
CCCOC Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY Enrollment restrictions, description, outcomes, objectives, content, methods of instruction, methods of evaluation
Rationale: Course is being updated for periodic review.
Enrollment Restrictions: Removing: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ANSC 201 and satisfactorily complete ANSC 220 and (satisfactorily complete ANSC 216 or satisfactorily complete ANSC 226); Requesting: (A) Before enrolling in this course, students are strongly advised to satisfactorily complete ANSC 201 and ANSC 220 and ANSC 226.
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Transfers to CSU and UC
C-ID Status: (None)
General Education Status: Requesting: (MJC Activities)
Program Impact:
- Artificial Insemination Technician Certificate of Achievement
- Dairy Science A.S. Degree
M/S/U (R. CRPE, K. BUTLER) to MODIFY ANSC 217
M/S/U (K. BUTLER, R. CRPE) to MODIFY REQUISITES for ANSC 217
M/S/Withdrawn (M. GARCIA, M. BOYD) to REQUEST PLACEMENT of ANSC 217 on MJC ACTIVITIES

L. Miller noted that the content for ANSC 217 didn’t reflect the requirements for MJC Activities. After a short discussion, B. Adams noted that the will of the committee is that the activities request be removed.

ANSC 221  Dairy Cattle Selection & Evaluation  3
CCCOC Proposal Type: Non-Substantial
Effective: Summer 2017
MODIFY Outcomes, content, methods of instruction, textbooks
Rationale: Course is being updated for periodic review.
Enrollment Restrictions: (None)
Distance Education Status: (None)
Materials Fee Status: (None)
Articulation Status: Transfers to CSU and UC
C-ID Status: (None)
General Education Status: (None)

*M/S/U (R. CRIPE, K. BUTLER) to MODIFY ANSC 227*

*M/S/U (K. BUTLER, R. CRIPÉ) to REMOVE REQUISITES for ANSC 227*

M. Garcia questioned why the requisites were taken off of ANSC 227. M. Boyd noted that the requisites were taken off to encourage enrollment. S. Amador mentioned that some students, just coming out of high school, already have been involved in judging and/or have prior experience with dairies and cows. B. Adams mentioned that B. Hobby indicated that students with various levels of experience enroll in ANSC 227 and succeed.

M/S/U (R. CRIPE, K. BUTLER) to MODIFY READ 184
M/S/U (K. BUTLER, R. CRIPE) to ADOPT REQUISITES for READ 184
M/S/U (E. LUCAS, R. CRIPE) to ADOPT DE for READ 184

READ 184 pulled for discussion by M. Garcia who questioned the appropriateness of READ 184 for CSU-GE and MJC-GE:D2. He noted that READ 184 does not transfer to UC. Is this good for students? Hadn’t R. Cranley expressed concerns in the past? It was noted that other CCC courses in reading are approved for CSU-GE:A3. Two lists of those courses are posted in the READ 184 attached files. L Miller explained that she too, was not certain about the appropriateness of READ 184 on CSU-GE:A3, but sought advice about how to proceed at the CCCCO AO Extreme Training. Fellow articulation officers advised that the AO submit the course if there is any doubt as to whether it meets criteria. B. Adams also reminded the committee to reference the resource of Guiding Notes for GE [Breadth] Reviewers, which provides statewide GE reviewers guidelines for review and placement of courses on GE patterns.

M/S/C (E. LUCAS, L. MILLER) to REQUEST PLACEMENT of READ 184 on GE PATTERN(S)

M. Garcia noted that right now the psychology faculty are only asking for “Online”. He wanted to know if they choose to add “Hybrid” would it be possible. B. Adams responded that a “DE Only” proposal could be submitted if at some point the psychology faculty wanted to add “Hybrid” also. B. Adams added that a “DE Only” approval would be effective the following semester after approval.

IX. STANDING REPORTS

1. **Transfer Model Curriculum (Associate Degrees for Transfer)** B. Adams

   B. Adams mentioned that this Associate Degrees for Transfer (ADT) report would probably be the last standing report for ADTs because the flurry of activity is not what it was when the ADT report was added as a standing report item to the agenda. B. Adams reviewed how to locate the [ADT Progress Report](#) on the Chancellor's Office website for those interested in checking the status of the ADTs or for opportunities to get involved.

2. **Articulation: C-ID Newsletter, C-ID Access** L. Miller

   L. Miller referred to the linked newsletter to keep members apprised of changes with C-ID in terms of activities, disciplines, and TMC descriptor reviews. L. Miller noted that she would be attending California Intersegmental Articulation Council (CIAC) meetings September 30, 2016 and October 7, 2016 and will report back. B. Adams encouraged faculty with Transfer Model Curriculum (TMC) descriptors coming up for review to get involved, make comments, and take the survey. She noted that this is an opportunity to make ones voice heard. L. Miller noted that she has arranged for faculty access to check status of courses that have been submitted for C-ID and they can click on the above provided link for directions.

3. **CurricUNET Implementation/Issues** B. Adams/H. Townsend

   H. Townsend reported that the D.E. Addendum issue noted at the September 13, 2016 meeting has been fixed. H. Townsend noted that a ticket has been submitted to fix a problem with the Course Comparison Summary Report not showing a change or request for Local Requirements/Activities. B. Adams mentioned plans to remove the CurricUNET Implementation/Issues as a Standing Report. B. Adams noted because of the decrease in CurricUNET issues. It will be more efficient to add as an Informational Item on future agendas if necessary.

4. **Adult Education** P. Mendez

   No report

5. **Academic Senate Report** S. Amador

   S. Amador reported that the Academic Senate had a few items that they took action on and several more items that were just discussion for upcoming agendas.

   S. Amador highlighted:
   - Resolution S16-G: Resolution in support of Adopting the OEI Rubric for Online Courses passed its second reading
   - Resolution F16-A: Faculty Satisfaction Survey Senate Task Force Academic and Professional Matters
     - S. Amador quoted from the Resolution “…in the spirit of continual improvement driven by data-informed decisions…”
     - A faculty satisfaction survey will be sent out no later than November 6, 2016
     - The task force to deliver their findings no later than November 10, 2016
     - First reading was approved, second reading to be discussed at the October 6, 2016 Academic Senate meeting
   - Motion was made that the faculty representatives of the Academic Senate are opposed to Board of Trustee Policies and Procedures 3435: Discrimination and Harassment Complaints and Investigations. S. Amador noted that individuals can follow the discussion at the Board of Trustee meeting on YouTube.
   - Discussion items included
     - Assessment
     - Program Discontinuance

X. UNFINISHED BUSINESS

Action Items

1. Curriculum Review Process

   B. Adams

   B. Adams inquired of the Curriculum Committee’s desire to form a subcommittee to look at the non-transferable courses. T. Akers-Porter, M. Boyd, E. Maki, and L. Miller indicated interest in being a part of the subcommittee along with B. Adams. B. Adams and H. Townsend will work out the details and then send out an “Invite” to all committee members interested in joining or attending the subcommittee meetings.

Informational Items

1. CurricUNET Program Training (Flex #5147)

   B. Adams

   B. Adams commented on the CurricUNET Program Training that occurred on Tuesday, September 20, 2016 as being a success. B. Adams noted that six faculty attended. K. Butler indicated that the training was very informative. B. Adams mentioned that she plans on scheduling another CurricUNET Program Training in mid-October or the beginning of November for interested faculty and faculty that have courses scheduled in the spring.

XI. NEW BUSINESS

Action Items

1. MJC Certificate & Degree Publications

   B. Adams

   Postponed to the October 11, 2016 curriculum committee meeting.

Informational Items

1. Standing Reports

   B. Adams

   B. Adams noted that the Standing Report items list would be getting shorter with the removal of Transfer Model Curriculum (Associate Degrees for Transfer) and CurricUNET Implementation/Issues, indicating they have run their course. Standing Reports would be added to the next agenda as an “Action Item” with discussion on following the Academic Senate format of having written reports rather than oral.

2. Common Assessment Initiative

   B. Adams

   B. Adams referred to the e-mail she received from the Chancellor’s Office regarding the delay in the Common Assessment Initiative timeline (see link above) to make the faculty aware of the information for those who may be involved in the assessment process. J. Stearns indicated that the process is more involved than previously planned.

XII. PUBLIC COMMENT

C. Hudelson noted that the “5 Year Curriculum Review Matrix” link on the Curriculum Committee webpage needed to be updated. It was determined the link on the homepage is correct, but the matrix in the “Curriculum Manual” link was outdated. Instruction Office personnel indicated it would be fixed.

M/S/U (E. MAKI, E. LUCAS,) to adjourn at 3:58 PM

Members Absent:  A. DeAngelis, J. Haynes, L. Stephan

Others Present:  K. Addington (Administrative Technician), J. Hughes (Evaluator), H. Townsend (Curriculum Process Specialist)

Maki interjected that MUST 101 was not being taught online at this time but was kept on the DE Addendum for the possibility of future online instruction. B. Adams recommended that E. Maki follow up with A. Sabre to ask if the content of the DE Addendum could be modified, which could be added as a consent item on a future agenda.

SOCSC 154 pulled for discussion by T. Guy who referred to outdated information on the Course Outline of Record (COR) from a previous cross-listing with FILM 154 (which no longer exists) questioning information that may no longer be applicable. T. Guy noted the technical reference to TV and film in Objective #9. Division Representative, C. Hudelson, approved the removal of the parenthetical phrase “camera angles, placement of actors or objects within the frame, camera movement” from Objective #9. T. Guy noted that under Course Content, the first paragraph refers to repeatability, yet the course is not repeatable. “The class will offer different topics or themes...as to warrant repeated enrollment in the course...” C. Hudelson commented that SOCSC 154 was designed to do applied social sciences and that the paragraph was intended so that instructors of any discipline could teach their material, furthermore, noting that the assigned disciplines should be broader. B. Adams mentioned that currently the disciplines assigned to SOCSC 154 are History, Humanities, and Social Science and additional disciplines could be added as a Course Consent item on a future agenda. C. Hudelson indicated she would bring this item to the next BBSS Division meeting. Discussion ensued and it was determined that the paragraph in question was problematic and could be removed and still keep the quality of standard. Per the will of the Curriculum Committee, the paragraph was deleted from SOCSC 154’s course content. T. Guy called into question Methods of Instruction (MOI) Item #6 “Analysis of films (in writing and directed class discussions)” and asked how they are going to instruct “in writing”. He also noted that “discussions” are mentioned twice under the MOI. Per the will of the Curriculum Committee, Item #6 was modified to read, “Instructor led analysis of films.”, and MOI Item #3 “Discussions” was removed.

IX. STANDING REPORTS

1. Articulation: C-ID, C-ID Newsletter

L. Miller reported that NR200 has been reaffirmed for UC transferability. L. Miller mentioned that she learned a lot and that there was great mentorship at the Region 5 California Intersegmental Articulation Council (CIAC) meeting of articulation officers on October 7, 2016. She noted that conversations centered on individual issues that articulation officers are experiencing at their campuses such as Associate Degree for Transfer (ADT) articulation. L. Miller noted that she would be splitting her time between the baccalaureate degree pilot program conference in Sacramento, the Northern California CIAC regional meeting, and learning the next generation of Articulation System Stimulating Interinstitutional Student Transfer (ASSIST) in the next two weeks. L. Miller reported that there were no new C-IDs issued and asked if faculty felt well informed about the opportunities available in regards to C-IDs.

2. Adult Education

P. Mendez reported that the consortium continues to meet on the second Monday of the month in Oakdale at the Oakdale Culinary Institute at 2:00 p.m. and are open to the public. P. Mendez reported that Adult Education is restricted to non-credit curriculum with efforts centered on career, basic skills, and English as a Second Language (ESL).

Conversation ensued focused on:
- Types of non-credit courses available
- Qualifications for non-credit courses
- Transitioning adult learners into employment
- Offerings according to demographics
- Non-credit courses verses credit courses
- Rigor of curriculum for non-credit courses verses credit courses

B. Adams referred to North Orange County Community College’s Adult Education program as an example for non-credit programs. B. Adams recommended inviting J. Abbott, who has been involved with non-credit curriculum to speak to the Curriculum Committee. B. Thames agreed an invitation would be appropriate.
3. **Academic Senate Report**

S. Amador reported that Resolution **F16-A**: Faculty Satisfaction Survey was discussed and passed the second reading. S. Amador noted that the survey should be going out by the end of the month via e-mail.

**X. UNFINISHED BUSINESS**

**Action Items**

1. **Curriculum Review Process**
   
   B. Adams reported on the subcommittee’s meeting, where they reviewed the historical background and how the Curriculum Review Process was established. B. Adams noted that discussion at the subcommittee meeting included how C-ID descriptors for basic skills have not yet been decided; however, once the C-ID descriptors for basic skills are finalized the review process for non-transferable courses could be looked at again. The subcommittee explored having the non-transferable courses follow the current process for the transferable courses per the *Curriculum Review Process* through item #8 and the possibility of having non-transferable courses follow Merced, Delta, or Columbia (the way that transferable courses are required to follow either the C-ID or CSU Stanislaus). Extensive discussion ensued. B. Thames suggested that the colleges being followed as examples should also have models and practices that work and are good for the students. B. Thames indicated she would provide the subcommittee with desired criteria for choosing which community colleges to follow. B. Adams mentioned that the subcommittee would meet on October 18, 2016 with the added criteria provided by B. Thames and that an “Invite” to subcommittee members would be sent.

2. **MJC Certificate & Degree Publications**

B. Adams observed concern that some awards that have not yet been fully approved are being advertised on campus, noting the issue with “Truth in Advertising”. B. Adams recommended considering time frames and all the different approvals needed externally, that a policy or disclaimer should be discussed. Conversation ensued covering shared frustrations, consequences of inaccurate and/or outdated published information, the ACCJC and substantial changes as determined by the commission, and informing faculty of the approval process. Being respectful of time, B. Adams noted that the issue with MJC Certificate and Degree publications will continue as unfinished business and requested that the committee think of a possible motion on a policy that would clarify the process of producing and advertising award publications, in terms of the guiding principle “Truth in Advertising.”

**Informational Items**

1. **Common Assessment Initiative**

B. Adams referred to the follow-up e-mail she received from the Chancellor’s Office on October 4, 2016 regarding the Common Assessment Initiative timeline (see link above). B. Adams noted the memo indicated a limited release plan and a reminder of different types of assessment that are still available during the process.

**XI. NEW BUSINESS**

**Action Items**

2. **Standing Reports - Format**

B. Adams referred to the standing report format and ideas on making the Curriculum Committee meetings more efficient by following what the Academic Senate does. She noted that the Academic Senate asks that written reports be submitted for their standing reports which are linked to their agenda. Since the Curriculum Committee is a standing committee of the Academic Senate, it also would create consistency.

*M/S/U (E. MAKI, E. LUCAS) that the standing reports be submitted in writing and the reports that should be submitted in writing can be determined by the Curriculum Co-Chairs if in time for the Instruction Office to publish it in the agenda.*
Informational Items

1. ASCCC Regional Meeting North (October 21, 2016)  
   B. Adams  
   B. Adams noted that H. Townsend, L. Miller, and she would be attending the ASCCC Curriculum Regional Meeting North on October 21, 2016. She mentioned that the ASCCC Curriculum Regional meetings are great meetings with a lot of information on curriculum and she anticipates at least one session will be on non-credit courses.

2. CurricUNET Program Training (Flex #5201) (November 15, 2016)  
   B. Adams  
   B. Adams mentioned that another CurricUNET Program Training will be held on Tuesday, November 15, 2016 in the computer lab at the Center for Advanced Technologies (CAT) Building, room 113, from 3:00-4:30 p.m. She encouraged all new faculty, faculty in the review matrix next semester, or those who would benefit from the training to attend and noted that Flex #5201 has been assigned to the training.

XII. PUBLIC COMMENT

P. Mendez asked about the timeline for the Accreditation Commission for Community and Junior Colleges (ACCJC) approval of Substantive Change Proposals for programs. B. Thames mentioned that the ACCJC meets three time per year. B. Thames noted it could take six months to one year to receive approval from ACCJC, adding that courses can still be offered but MJC can’t confer an award for a program that has not been approved.

W/S/U (E. LUCAS, E. MAKI) to adjourn at 4:52 PM
I. APPROVAL OF ORDER OF AGENDA

Hearing no objections, the order of agenda was approved as stated, with a request by M. Garcia to accommodate guest speaker A. Peek and OFADM faculty approved.

M/S/U (R. CRipe, E. Maki) to MODIFY OFADM 231

OFADM 231 pulled for discussion by T. Guy who asked if OFADM 256 should be a prerequisite.
OFADM faculty N. Backlund, noted that the advisory recorded on the agenda “…to satisfactorily complete OFADM 203…” was incorrect, that the advisory should be OFADM 256 and requested that the following edit be made: Before enrolling in this course, students are strongly advised to satisfactorily complete OFADM 203 256 and/or satisfactorily complete OFADM 330. T. Akers-Porter accepted the friendly amendment. B. Adams made the change in CurricUNET and stated she would connect with the faculty author to match OFADM 256 to a requisite skill with the appropriate goal before she forwarded OFADM 231.

X. UNFINISHED BUSINESS

Action Items

   B. Adams noted that the subcommittee for the Curriculum Review Process met Tuesday, October 18, 2016 after B. Thames recommended that they explore other criteria besides the recommendation to follow Merced, Delta, and Columbia. She received the following criteria from B. Thames for the subcommittee to consider:
   - Minimum comparison of three best practice models with demonstrated success matrix
   - Success rates and outcomes for Columbia, Delta, and Merced
   - Comparison of success matrix to colleges that match MJC’s size, demographics, and department characteristics statewide
   - Projections on increase/decrease in number of students progressing through sequence with time frames
   B. Adams mentioned how the subcommittee started looking at the standards and tried to find resources for the criteria. She noted that the subcommittee spent a majority of their meeting looking at the Basic Skills Initiative (BSI) completion document’s best practices and the CCCCO Management Information Systems Data Mart. With the overwhelming amount of information available, the subcommittee wondered if specific information was already available and what were they really trying to capture in terms of comparison. B. Adams revealed that the will of the subcommittee was that she follows up with B. Thames for more clarification on the criteria and if the information was already available.
   T. Akers-Porter referred to the MJC’s Research and Planning webpage which she noted had many reports available, L. Miller recommended the Data Dashboard located on the webpage as an interactive information tool.
B. Adams stated that the subcommittee would continue to meet to finalize the review process.

2. **MJC Certificate & Degree Publications**

   B. Adams/H. Townsend

   B. Adams asked if there were any recommendations regarding MJC Certificate & Degree Publications. L. Miller recommended forming a workgroup that would consist of herself, J. Hughes, someone from counseling, and the Instruction office that could write up a policy to bring before the Curriculum Committee. The Curriculum Committee agreed with the recommendation. Further discussion postponed to the November 8, 2016 meeting.

**Informational Items**

1. **ASCCC Regional Meeting North (October 21, 2016)**

   B. Adams

   B. Adams mentioned the ASCCC Regional Meeting North that L. Miller, H. Townsend, and she attended. She noted that the meetings were informative and that after the general session they all attended separate breakouts.

   B. Adams reported that the breakouts that she attended dealt with Career Technical Education (CTE) and Noncredit Curriculum, which she found it interesting that the breakout meeting on noncredit courses mirrored what she was seeing as she reviewed the noncredit math courses (900 level) that were in the process of being reviewed for the next Curriculum meeting and how they helped students get ready to transition to credit courses.

   L. Miller reported on Zero Textbook Cost degree pilot, a grant-funded “second” opportunity that closes early Spring 2017 and Dual Enrollment (agreement between CCC and K12 districts that allows high school students to complete YCCD curricula within their own K-12 district high school facilities) Interesting insights on strengths, cautions, concerns, and recommended approaches. Collaborative effort between bargaining units, senates, and administration is strongly recommended to ensure a complete, leak-proof and intelligent implementation.

   H. Townsend reported that she attended the Topics for New(er) Curriculum Chairs, Specialists, and Administrators and the Q&A – Chancellor’s Office and noted it was a great opportunity for her to connect with individuals she deals with on a daily basis. H. Townsend mentioned that at the general session it was indicated that the Academic Senate intends to create a resolution on C-ID status relating to ADT submissions.

   B. Adams mentioned that the ASCCC Regional Meeting North presentation material can be accessed on the Academic Senate for California Community Colleges website.

2. **CurricUNET Program Training (Flex #5201) (November 15, 2016)**

   B. Adams

   B. Adams mentioned that another CurricUNET Program Training will be held on Tuesday, November 15, 2016 in the computer lab at the Center for Advanced Technologies (CAT) Building, room 113, from 3:00-4:30 p.m. She encouraged all new faculty, faculty in the review matrix next semester, or those who would benefit from the training to attend and noted that Flex #5201 has been assigned to the training.

**XI. NEW BUSINESS**

**Action Items**

(None)

**Informational Items**

1. **Accelerated English 50**

   A. Peek

   A. Peek advocated for an accelerated five unit course for students that don’t assess into ENGL 101. A. Peek highlighted from her handout the Design Principles of Accelerated Learning which included:

   - Strength-based rather than deficit-based
   - Shift focus from front-loading subskills content toward college-level reading & writing
   - Focus on affective domain
   - Stress progress toward acquisition of skills rather than the grade
• Use Reading Apprenticeship

A. Peek noted that the course would be designated ENGL 100 and would be presented to the Curriculum Committee in spring of 2017 with an expedited request. A. Peek followed her presentation with a question and answer period.

XII. PUBLIC COMMENT

Because of a MJC student’s praise of S. Cassidy’s presentation at a Ready, Set, Cite workshop, B. Adams commended her on a student’s recognition of the wonderful job she did.

M/S/U (E. MAKI, R. CRIPPE) to adjourn at 4:25 PM

MATH 10  
Introduction to Math  
CCCO Proposal Type: Substantial

Rationale for Expedited Approval: Although effective upon CCCCO approval, this course made the Curriculum Committee deadline for summer 2017 effective date request.  
MODIFY: CB21 code (prior to college level), enrollment restrictions, DE modalities, description, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills  
Rationale: Course is being updated for periodic review.  
Enrollment Restrictions: Removing: (A) Before enrolling in this course, students are strongly advised to Qualification by MJC Assessment Process.

General Education Status: (None)  
Program Impact:  
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).  
MATH 9, MATH 10, MATH 19, MATH 29, MATH 30, MATH 70, MATH 89, MATH 90, MATH 134, MATH 135, MATH 911, MATH 912, MATH 913, MATH 921, MATH 922, MATH 923, and MATH 924 pulled as a block for discussion by C. Hudelson who requested a structural overview of the direction of the math and basic skill courses.  
T. Akers-Porter reviewed for the committee members the Math Course Sequence – STEM (Science, Technology, Engineering, and Math) and Non-STEM courses.  
T. Akers-Porter’s information included the following:  
• MJC serves two very different populations (students who are proficient at math and students who struggle with math). The STEM and Non-STEM pathways will offer a solution to the different levels of aptitude.  
• Traditional (14 unit) Pathway – MATH 10 (4), MATH 20 (5), and MATH 30 (5) (Due to funding issues it is proposed that MATH 70 be changed to MATH 30 with no content change)  
  o Courses will be taught at a slower pace with more repetition to allow students to absorb the material resulting in added success.  
• Accelerated (10 unit) Pathway – MATH 9 (2), MATH 19 (4), and MATH 29 (4)  
  o Course material will be taught at a much faster pace than the traditional pathway  
  o MATH 9 and MATH 19 are designed to be completed in one semester  
• Noncredit Skill-Building Modules – MATH 911 through MATH 924  
  o Open Entry – Open Exit  
  o Emporium style remediation  
  o Lab setting with computerized programs and math professors  
  o The potential of helping 45% of students successfully placing into a higher course  
Extensive discussion ensued regarding the math sequence, pilot program, and implementation issues.  
B. Thames mentioned her concern that due diligence is achieved on the impact to the Student Success Scorecard data and what the impact may look like moving forward.  
M/S/U (E. LUCAS, E. MAKI) to MODIFY MATH 10  
M/S/U (J. HAYNES, M. GARCIA) to REMOVE REQUISITES for MATH 10

MATH 20 pulled for discussion by M. Garcia who referred to Draft 2 of the Math Course Sequence –
where the Course Identification Numbering System (C-ID) descriptor for Pre-Algebra was showing 3
units and noted that 7 out of 10 schools in the area that he looked at had MATH 20 (Pre-Algebra) at 4
units or less. M. Garcia concluded that MJC was one out of three schools with 5 units.

T. Akers-Porter questioned if the C-ID sequence was considered, noting that units within a C-ID
sequence may vary, such as Merced College. For example, their sequence has 6 units below Pre-
Algebra, for a 10-unit sequence versus a 9-unit sequence for MJC. T. Akers-Porter added that the C-ID
descriptors for basic skills have not yet been finalized.

Y. Petersen explained the unit history of MATH 20 from 3 units to 5 units noting the increase of student
success in algebra with the development of Pre-Algebra.

C. Hudelson expressed her concern with the MJC math course sequence norming with comparative
schools in California.

M/S/U (C. HUDELSON, M. GARCIA) to amend the approval of the MATH courses, that with the
MATH courses that have a C-ID descriptor that aligns with it, once those C-ID descriptors are
finalized, the Math faculty have one year after that date of finalization to bring back those
courses for re-review, if the unit values differ.

M/S/U (E. MAKI, E. LUCAS) to MODIFY MATH 20

M/S/U (J. HAYNES, M. GARCIA) to MODIFY REQUISITES for MATH 20

M/S/U (P. MENDEZ, S. BERGER) to MODIFY DE for MATH 20

M/S/U (S. BERGER, T. AKERS-PORTER) to EXPEDITE MODIFICATIONS of MATH 20
MATH 70

Elementary Algebra for STEM Majors

CCCCO Proposal Type: Non-Substantial
Effective: Summer 2017 ExpEDITEd!

Rationale for ExpEDITed Approval: Course made the Curriculum Committee deadline for summer 2017 effective date request.

MODIFY: Title, enrollment restrictions, DE modalities, objectives, content, typical assignments, methods of instruction, methods of evaluation, textbooks, requisite skills

Rationale: Course is being updated for periodic review.

Enrollment Restrictions: Removing: (P) Satisfactory completion of MATH 20 or qualification by the MJC assessment process; Requesting: (P) Satisfactory completion of MATH 19 or MATH 20 or qualification by the MJC assessment process.

- General Studies, Emphasis in Natural Sciences A.A. Degree
- IGETC Pattern Certificate of Achievement
- MJC-GE Pattern
ZOOL 101 pulled for discussion by C. Hudelson who noted that the Comparable Courses for ZOOL 101 didn’t exist as well as questioned the breakdown of lecture and lab hours to comparable courses?
Questions were raised about possible alignment of the course with D-ID BIOL 150. Discussion ensued.
B. Adams suggested withdrawing ZOOL 101 and bringing it back at the November 22, 2016 Curriculum Committee meeting so faculty author, T. Curtis, could be present to address concerns. She also mentioned revisiting the Comparable Courses field in CurricUNET as a future “Action Item”.
M/S/WITHDRAWN (E. LUCAS, S. BERGER) motion withdrawn by Division Representative E. Lucas
NEW COURSES:

MATH 9  
**Accelerated Intro to Math**

**CCCCO Proposal Type:** New Credit Course  
**Effective:** Upon CCCCO approval (Requesting Summer 2017)  
**Rationale for Expedited Approval:** Although effective upon CCCCO approval, this course made the Curriculum Committee deadline for summer 2017 effective date request.

ADOPT  
**Rationale:** To meet the overwhelming demand of incoming students placing into MATH 10 with less repetition of material.  
**Enrollment Restrictions:** (None)  
**Distance Education Status:** Requesting: Mixed modalities/hybrid  
**Materials Fee Status:** (None)  
**Articulation Status:** Not transferable  
**C-ID Status:** (None)  
**General Education Status:** (None)  
**Program Impact:**  
Stand-Alone (Be advised that the department will need to do a timely modification to any desired academic programs in CurricUNET to include this course as an option and to officially change the status to Program-Applicable).

M/S/U (E. LUCAS, E. MAKI) to ADOPT MATH 9  
M/S/U (P. MENDEZ, S. BERGER) to ADOPT DE for MATH 9  
M/S/U (S. BERGER, T. AKERS-PORTER) to EXPEDITE ADOPTION of MATH 9

MATH 19  
**Accelerated Pre-Algebra**

**CCCCO Proposal Type:** New Credit Course  
**Effective:** Upon CCCCO approval (Requesting Summer 2017)  
**Rationale for Expedited Approval:** Although effective upon CCCCO approval, this course made the Curriculum Committee deadline for summer 2017 effective date request.

ADOPT  
**Rationale:** To meet the needs of incoming students that are placed into MATH 10 or MATH 20 through an accelerated model offered with MATH 9 to create a one semester course sequence of six units.  
**Enrollment Restrictions:** Requesting: (P) Satisfactory completion of MATH 9 or MATH 10 or qualification by the MJC assessment process.  
**Distance Education Status:** Requesting: Mixed modalities/hybrid  
**Materials Fee Status:** (None)  
**Articulation Status:** Not transferable
