

Modesto Junior College
Facilities/Capital Construction Advisory Committee
SPECIAL Meeting Summary
April 29, 2010
3:30pm – 4:30pm
Morris Conf. Room A

DISCUSSION ITEM:

1. Request for Input on Parking Lot Improvement Funds

The committee approved by consensus a recommendation to move forward with the purchase of property at 211 Campus Way which is located adjacent to the parking lot across Stoddard from Founders Hall.

This purchase gives us several options to expand parking, particularly during the years (2010-2014) when we will be losing parking on campus due to the Founders Hall project, the Library remodel, the Student Services building construction and the High Tech building remodel. Additionally, there is the possibility that at least a portion of the building on the site could be utilized for storage, or the relocation of offices/services currently in leased space off campus.

In addition to this there will be more in depth discussions at the Facilities/Capital Construction meetings to assess our current and future parking needs on both east and West campuses.

MEETING ADJOURNED
