Danise Rapetti , Professor, Nursing		√
Joshua Sigman , Front End Web Developer	√	
Michael Smedshammer , Course Design Coordinator	√	
Emily York , ASMJC Student Representative		√
John Zamora , Professor, Computer Science	√	

I. Call to Order/Introduction

Due to an unforeseen campus disturbance, Al Alt was not present for the meeting as he was monitoring the situation.

Action Item:

II. Review and Approval of Minutes – 11/07/17

Action was not taken without the committee chair present.

III. CTC Plan of work for remaining meeting schedule

Action was not taken without the committee chair present.

Informational Items:

IV. Roger Clague, Vice Chancellor of IT

A. Roger introduced himself and briefed us on his professional/personal background.

B. Roger informed us that there has not been a District Technology meeting for over a year. Roger is putting together a District Technology workgroup early in the New Year which will include various subgroups including Student Services, Classroom Technologies and a Technology Processes group. His intention is to have meaningful things happen. He recently visited with Columbia College's reconstituted technology committee and proposed what he is proposing to us: a joint meeting in Oakdale or electronically to include Columbia College, MJC and IT in order to identify how to put his workgroup together.

C. Roger will be having a complete audit of all technology items on both campuses

which will be funded by the District IT budget. His way of thinking is to update our computers with the latest performing equipment for \$350 per computer rather than purchasing new computers for \$1000 each. This is more cost effective and the performance would be the same.

- D. Roger shared his philosophy: think 10 years out, plan 5 years out, implement 3 years out, deliver today and every day.
- E. Roger shared his cell number and relayed that he's always available if needed. He also stated if we feel he can be helpful at any of our CTC meetings to send him an invite.

V. Standing Reports:

- A. Michael Smedshammer, Distance Education – No report.
- B. Joshua Sigman, Front End Web Developer – No report.
- C. Patrick Pimentel, Sr., Technology Services – No report.

Next meeting: December 19, 2017 2:00pm – 4:00pm,
Center for Advanced Technologies, 262
