

A.S. DEGREE: REAL ESTATE

Your Career in Real Estate Starts Here!

The Associates in Science (A.S) in Real Estate degree is designed to provide the education and skills necessary to work in various positions within the real estate field. Courses cover principles and practices of real estate, as well as financing, appraisal, escrow procedures, and legal aspects of real estate. The courses fulfill the state educational requirements to sit for the California Real Estate Salesperson and/or Broker licensing exams (see additional MJC Real Estate awards). For information on real estate licensing requirements, students should visit the California Bureau of Real Estate at <http://www.dre.ca.gov>.

Required Courses Complete 26 units	Units
RLES 380 [1] - Real Estate Principles	3
RLES 381 [2] - Real Estate Practice	3

BUSAD 218 [4] - Business Law	4
Total units for A.S. Major	26

Most classes are offered in one or more modalities:

Face to Face  Online  Hybrid 

PROGRAM LEARNING OUTCOMES

Upon satisfactory completion of this program, the student should be prepared to:

1. Identify and use common California real estate principles, practices, and terminology over a broad spectrum of real estate disciplines.
2. Recognize and analyze ethical issues as they apply to the real estate environment.
3. Meet the education requirements to sit for the California Real Estate Salesperson and/or Broker license exams.

PROGRAM REQUIREMENTS

To earn an Associate in Science, the student must complete the MJC Associate Degree Requirements in addition to the following coursework. Degrees are awarded to students in recognition of completion of specified requirements, which indicate proficiency. All Required Courses must be passed with a "C" grade or better.
