

A.S. DEGREE: SUPERVISORY MANAGEMENT

Your Career in Supervisory Management Starts Here!

The Associate of Science (A.S) degree Supervisory Management is designed to prepare students for supervisory management responsibilities at the operating level in for-profit and nonprofit organizations. It also provides business owners, managers, and other supervisory personnel the opportunity to further develop management and leadership skills.

PROGRAM LEARNING OUTCOMES

Upon satisfactory completion of this program, the student should be prepared to:

1. Obtain employment in an entry-level supervisory position within a for-profit or nonprofit organization.
2. Critically analyze and resolve common supervisory management issues.
3. Demonstrate appropriate and effective business communication skills
4. Recognize and analyze ethical issues as they apply to the business environment.

PROGRAM REQUIREMENTS

To earn an Associate in Science degree, the student must complete the MJC Associate Degree Requirements in addition to the following coursework. Degrees are awarded to students in recognition of completion of specified requirements, which indicate proficiency. All Required Courses must be passed with a "C" grade or better.
