CLDDV - 103: Child Growth and Development

Course Learning Outcomes

Upon satisfactory completion of this course, the student should be prepared to:

1. Identify cultural, economic, political, historical contexts that affect children's development.
2. Apply developmental theory to child observations, surveys, and/or interviews using investigative research methodologies.
3. Describe major developmental milestones for children from conception through adolescence in the areas of physical, psychosocial, cognitive, and language development.
4. Differentiate characteristics of typical and atypical development.
5. Identify and compare major theoretical frameworks related to the study of human development.
