- I. Approve the agenda (anything you would like to add?)
- II. State of Outcomes Assessment: Reading Reports; see handouts.
- III. Nita's update to OAW:
 - Canvas –eLumen integration just got completed; I'll walk the bridge and create training videos.
 - The earlier proposal that we made to Senate Exec did not go forward. Senate Exec will put forth other discussions on assessment and program review before the senate: An example question is—what does “completion” of a course's assessment mean? Does it mean all sections of the course, or does it mean 60% of the sections? What do you recommend?
 - I'm helping the co-curriculars get set up in eLumen
 - Trainings—on-campus, online, and individual continue
- IV. Have there been any division-wide trainings conducted by division reps? What help do you need from me to help your divisions complete their past assessments?
- V. Should we have several assessment days from Week 13 onward through January? That way we won't fall behind with fall 2016 assessments.
- VI. We need to also start mapping—meaning—we need to make sure that all our courses are mapped to our program and to the ILOs. We need to figure out how to prepare for this and help faculty with it.
