

Outcomes Assessment Work Group

AGENDA-WORK GROUP

Friday, September 14, 2018

12:30 pm to 2:00pm

Founders Hall 236 (lab)

1) How's each division doing in terms of spring 2018 data?

Let's take a look at each division's completion data and discuss what can be done to move data-input along.

2) An update on eLumen-Canvas integration and general information:

Broad outline of how data movement occurs between the two:

As we know SLOs are housed in eLumen, and assessments are created in eLumen. This process continues in the integration.

*There must be a corresponding course in Canvas just the way the course exists in eLumen.

*We log into eLumen and send the outcomes to the Canvas course. This is called "SLO sync).

*We create a rubric in Canvas.

*We create an assignment in Canvas.

*We attach the rubric to the assignment.

*We grade the SLOs in Speedgrader in Canvas

*Log into eLumen and import scores from Canvas

*Save.

Who's in the Canvas-eLumen pilot?

*Bobby

*Curtis

*Taure

*Gagan

*Lynnette

*New requests have come from Rob Stevenson, Hans Hauselmann, Chad Redwing (Senate Exec)

3) Other updates from Nita

4) Continuing reading the book--would you like to use Canvas Discussions to post your thoughts on your learning?

5) Questions
