How to use Ivona MiniReader to listen to text files, pdf files, and Internet Pages

TO INSTALL PROGRAM
Insert CD\DVD in computer CD\DVD drive.

If an ‘Auto Play’ message shows on the screen, Select ‘Open folder to view files’.

If you do not see an ‘Auto Play’ message, Double-click My Computer, double click the CD/DVD drive.

If you do not have a ‘My Computer’ icon on the Desktop.
   Click the Yellow Folder (third icon on the bottom of the screen from left to right)
   Find the Computer icon on the left side and select the CD/DVD drive (usually D drive)

Double-click the ‘Ivona MiniReader’ folder
Double-click ‘Ivona_MiniReader_inst’
Click OK, click Next, click ‘I agree’, click Install.
You MUST UNCHECK the box ‘Start the IVONA voices installation process.’
Click Next.
Click Finish.

TO RUN PROGRAM
Double-click ‘Ivona MiniReader’ shortcut on Desktop

You will see this bar.

If you have more than one voice installed in your computer you can change the Voice by clicking the down arrow to the right of the current speaker’s voice.
You can also change the Speed by clicking the red dot on the sliding bar and dragging it to the left or to the right. **Recommended setting for speed is -1 or -2.**

TO HEAR TEXT
Open the document or webpage you want Ivona MiniReader to read out loud.

Select with the mouse the text that you want to hear. It is better not to select too many paragraphs at once. Try selecting one paragraph or a few more at a time.

Click the Play button for Ivona MiniReader to start reading.

Click the Pause button to pause the reading.

Click the Stop button to stop the reading.
