

# Student Hot Spots

The Campus Safety Office and Facilities are coordinating the student Hot Spots.

## Hot Spot Request Process:

1. Students should request a hot spot from Facilities contact [Marisa Cahn](#).
  - a. Email: [cahnm@mjc.edu](mailto:cahnm@mjc.edu)
  - b. Phone: 209-575-6271
2. The student will receive a confirmation of Hot Spot approval. Once a Hot Spot has been assigned to the student and activated, it will be left at [Campus Safety](#) for pick up.
3. [Campus Safety](#) will send the student an email to their student email, with information and instructions on picking-up the hot spot.
4. When the student goes to pick up the Hot Spot, they will need their MJC Student ID card and another photo ID. If they do not yet have an MJC Student ID card, they will need their student ID "w" number, and, if possible, two photo IDs. The photo ID can be from another country or if recent graduates, a HS ID.
5. The location for pick-up is the Campus Security office, located on the East Campus.

*\*Please note that Hot Spots cannot be checked-out earlier than a week before a class starts and if student is not registered, they will be unable to get a Hot Spot.*

## Additional Information:

- The process is the same for all semesters during the time that we are on remote learning. Students should return the Hot Spots when their class is over. They have allowed students that are signed-up for both, Fall and Spring semesters, to keep their Hot Spots in between these terms.
- Students need to plan for time ahead of pick up, as it takes some time to get the pick-up process done.
